For the transition period from to
Commission File No. 1-7275

CONAGRA BRANDS, INC.

(Exact name of registrant as specified in its charter)

Delaware	**47-0248710**
(State or other jurisdiction of incorporation or organization)	(I.R.S. Employer Identification No.)
222 W. Merchandise Mart Plaza, Suite 1300 **Chicago, Illinois**	**60654**
(Address of principal executive offices)	(Zip Code)

Registrant's telephone number, including area code (312) 549-5000

Securities registered pursuant to section 12(b) of the Act:

Title of each class	Trading Symbol(s)	Name of each exchange on which registered
Common Stock, $5.00 par value	CAG	New York Stock Exchange

Securities registered pursuant to section 12(g) of the Act: None

Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act. Yes ☑ No ☐

Indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or Section 15(d) of the Act. Yes ☐ No ☑

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes ☑ No ☐

Indicate by check mark whether the registrant has submitted electronically every Interactive Data File required to be submitted pursuant to Rule 405 of Regulation S-T (§ 232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit such files). Yes ☑ No ☐

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company, or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company" and "emerging growth company" in Rule 12b-2 of the Exchange Act.:

Large accelerated filer ☑ Accelerated filer ☐ Non-accelerated filer ☐ Smaller reporting company ☐ Emerging growth company ☐

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act. ☐

Indicate by check mark whether the registrant has filed a report on and attestation to its management's assessment of the effectiveness of its internal control over financial reporting under Section 404(b) of the Sarbanes-Oxley Act (15 U.S.C. 7262(b)) by the registered public accounting firm that prepared or issued its audit report. ☑

If securities are registered pursuant to Section 12(b) of the Act, indicate by check mark whether the financial statements of the registrant included in the filing reflect the correction of an error to previously issued financial statements. ☐

Indicate by check mark whether any of those error corrections are restatements that required a recovery analysis of incentive-based compensation received by any of the registrant's executive officers during the relevant recovery period pursuant to §240.10D-1(b). ☐

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Act). Yes ☐ No ☑

The aggregate market value of the voting common stock of Conagra Brands, Inc. held by non-affiliates on November 21, 2025 (the last business day of the Registrant's most recently completed second fiscal quarter) was approximately $8,500,625,571 based upon the closing sale price on the New York Stock Exchange on such date.

At June 28, 2026, 478,565,642 common shares were outstanding.

Documents Incorporated by Reference

Portions of the Registrant's definitive Proxy Statement for the Registrant's 2026 Annual Meeting of Stockholders (the "2026 Proxy Statement") are incorporated by reference into Part III.

PART I

This annual report on Form 10-K contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. Actual results, performance, or achievements could differ materially from those projected in the forward-looking statements as a result of a number of risks, uncertainties, and other factors. For a discussion of important factors that could cause our results, performance, or achievements to differ materially from any future results, performance, or achievements expressed or implied by our forward-looking statements, please refer to Item 1A, *Risk Factors* and Item 7, *Management's Discussion and Analysis of Financial Condition and Results of Operations* below.

ITEM 1. BUSINESS

General Development of Business

Conagra Brands, Inc. (the "Company", "Conagra Brands", "we", "us", or "our"), headquartered in Chicago, is one of North America's leading branded food companies. We combine a 100-year history of making quality food with agility and a relentless focus on collaboration and innovation. The Company's portfolio is continuously evolving to satisfy consumers' ever-changing food preferences. Conagra's brands include *Birds Eye*®, *Duncan Hines*®, *Healthy Choice*®, *Marie Callender's*®, *Reddi-wip*®, *Slim Jim*®, *Angie's*® BOOMCHICKAPOP®, and many more.

We began as a Midwestern flour-milling company and entered other commodity-based businesses throughout our history. We were initially incorporated as a Nebraska corporation in 1919 and reincorporated as a Delaware corporation in 1976. Over time, we transformed into the branded, pure-play consumer packaged goods food company we are today. Growing our food businesses has also been fueled by innovation, organic growth of our brands, and expansion into adjacent categories, including through acquisitions. We are focused on delivering sustainable, profitable growth with strong and improving returns on our invested capital.

Narrative Description of Business

We compete throughout the food industry and focus on adding value for our customers who operate in the retail food and foodservice channels.

Our operations, including our reporting segments, are described below. Our locations, including manufacturing facilities, within each reporting segment, are described in Item 2, *Properties*.

Reporting Segments

Our reporting segments are as follows:

Grocery & Snacks

The Grocery & Snacks reporting segment principally includes branded, shelf-stable food products sold in various retail channels in the United States.

Refrigerated & Frozen

The Refrigerated & Frozen reporting segment principally includes branded, temperature-controlled food products sold in various retail channels in the United States.

International

The International reporting segment principally includes branded food products, in various temperature states, sold in various retail and foodservice channels outside of the United States.

Foodservice

The Foodservice reporting segment includes branded and customized food products, including meals, entrees, sauces, and a variety of custom-manufactured culinary products packaged for sale to restaurants and other foodservice establishments primarily in the United States.

Unconsolidated Equity Investments

We have two unconsolidated equity investments. Our most significant equity method investment is our joint venture with respect to Ardent Mills, a milling business.

General

The following discussion pertains to all of our reporting segments.

Conagra Brands is a branded consumer packaged goods food company that operates in many sectors of the food industry, with a significant focus on the sale of branded, value-added consumer food products, as well as foodservice items and ingredients.

Raw Materials and Packaging

We use many different raw materials, most of which are commodities, to make and package our products. The prices paid for raw materials used in making our food generally reflect factors such as global economic conditions, trade barriers or restrictions, supply and demand, weather, commodity market fluctuations, currency fluctuations, tariffs, and the effects of governmental agricultural programs, and may be impacted by supply chain disruptions including disruptions caused by weather, natural disasters, geopolitical and military conflicts, and disease, in humans, plants, and animals. Although the prices of raw materials can be expected to fluctuate as a result of these factors, we believe such raw materials to be in adequate supply and generally available from numerous sources. From time to time, we have faced increased costs for many of our significant raw materials, packaging, and energy inputs. We seek to mitigate higher input costs through productivity and pricing initiatives and the use of derivative instruments to economically hedge a portion of forecasted future consumption.

Competition

We experience intense competition for sales of our food items in our major markets. Our food items compete with widely advertised, well-known, branded food, as well as private branded and customized food items. Some of our competitors are larger and have greater resources than we have. We compete primarily on the basis of quality, product innovation, value, convenience, customer service, brand recognition, and brand loyalty.

Seasonality

Demand for certain of our food items may be influenced by holidays, changes in seasons, or other annual events. For example, sales of frozen foods tend to be marginally higher during the winter months, pie sales are highest in November and December due to holidays, and production of certain of our products occurs seasonally, during or immediately following the purchase of agricultural crops.

Trademarks and Intellectual Property

Our intellectual property rights, including our trademarks, licensing agreements, trade secrets, patents, and copyrights are of material importance to our business, and we attempt to protect such rights by pursuing remedies available to us under trademark, copyright, trade secret, and patent laws, as well as entering into licensing, third-party nondisclosure and assignment agreements, and policing of third-party misuses of our intellectual property. Some of our products are sold under licensing arrangements with others, including our licensing arrangement with Dolly Parton and our licenses of the *P.F. Chang's*®, *Bertolli*®, *Wendy's*®, and *Libby's*® trademarks. We also own certain intellectual property rights that are licensed to third parties, such as the *Alexia*® and *Marie Callender's*® trademarks. While many of these licensing arrangements are perpetual in nature, others must be periodically renegotiated or renewed pursuant to their terms. We also actively develop and maintain a portfolio of patents, although no single patent is considered material to the business as a whole. We have proprietary trade secrets, technology, know-how, processes, and other intellectual property rights that are not registered.

Government Regulation

The manufacture and sale of consumer food is highly regulated. Our operations, our products, and our practices are subject to various federal, state, local, and international laws and regulations and related regulatory oversight by various government agencies, including the United States Department of Agriculture, the Federal Food and Drug Administration, the Federal Trade Commission, the Consumer Product Safety Commission, the Occupational Safety and Health Administration, the Environmental Protection Agency, the

Department of Labor, and various other federal, state, local, and international authorities (including government authorities in Canada and Mexico). In particular, the production, packaging, transportation, storage, distribution, advertising, labeling, quality, and safety of food products, the health and safety of our employees, and the protection of the environment are each subject to governmental regulation. Additionally, we are subject to data privacy and security regulations, anticorruption, anti-bribery, trade sanction and export, extended producer responsibility (such as regulations governing plastic or packaging taxes, recycling, and waste management programs), tax, and securities laws and regulations, accounting and reporting standards, and other financial laws and regulations. We rely on our procedures, policies, and compliance programs, as well as legal advice from in-house and outside counsel, to align our operations, products, and practices with applicable laws and regulations. We believe that we are in compliance with such laws and regulations in all material respects and do not expect that continued compliance with such regulations will have a material effect upon capital expenditures, earnings, or our competitive position.

Customers

Our products are sold, directly and through distributors, to chain, wholesale, value, cooperative, club, and independent grocery, pharmacy and drug, convenience and other store operators; and foodservice customers, including restaurants and bars, travel and leisure customers, schools, health care facilities, and government customers. Our products are also sold online through various e-commerce platforms and retailers. Our largest customer, Walmart, Inc. and its affiliates, accounted for approximately 29% of consolidated net sales for fiscal 2026 and 2025 and 28% for fiscal 2024.

Human Capital Resources

At Conagra, through our caring and performance-driven culture, we seek to motivate employees to contribute their best and we intentionally recognize and reward our employees based on their achievements and contributions toward our business success. Leveraging diversity of thought, skills, and lived experiences helps us to maintain a competitive advantage and strengthens our portfolio and capabilities, fueling Conagra's success today and in the future. By taking this approach, we achieve a high sense of belonging, where all of our employees feel valued, respected, and supported.

We leverage our six timeless values, which form the framework of our Company culture, to guide our approach to human capital management:

- Integrity: Do the right things and do things right
- External Focus: Center on the consumer, customer, competitor, and investor
- Broad-Mindedness: Seek out and respect varied perspectives; embrace collaboration and assume positive intent
- Agility: Convert insights into action with the speed of an entrepreneur
- Leadership: Simplify, make decisions, inspire others, and act like an owner
- Results: Leverage a "refuse-to-lose" obsession with impact and value creation

As of May 31, 2026, we had approximately 17,400 employees, primarily in the United States. Approximately 48% of our employees are parties to collective bargaining agreements. We believe our relationships with employees and their representative organizations are good.

Safety and Health

The health and safety of our employees is our top priority. We are focused on maintaining a strong culture of safety, in which all employees strive to protect themselves and their colleagues by being proactive towards risk identification and mitigation for people and our food products. Our health and safety team audits each of our facilities every 2-5 years, depending on risk profile, to review compliance with Conagra's safety management system. This audit includes examination of leadership, accountability, defect loss identification processes, inspections, training, safety regulation adherence and compliance with corporate policies. The team documents the audit results and tracks corrective actions to ensure progress and create accountability for providing a safe work environment. Any workplace injury, illness, or fatality (an "incident"), including any "significant near miss" or an incident with the potential to have resulted in workplace injury, illness or fatality, requires a thorough investigation to identify and address the root cause.

During fiscal 2026, our Occupational Safety and Health Administration Incident Rate was 1.24 incidents per 100 full-time workers, as compared to 1.32 incidents per 100 full-time workers in fiscal 2025 and 1.40 incidents per 100 full-time workers in fiscal 2024. There were no incidents of fatalities involving Conagra employees in fiscal 2026, 2025, or 2024. We compare our incident rate to that of the average for companies in the food manufacturing sector, as published by the Bureau of Labor Statistics. In each of the last three fiscal years, our incident rate was below the industry average.

Human Capital Management

We have implemented key recruitment, development, engagement, and retention strategies and objectives to guide our human capital management approach. These strategies and objectives are advanced through a number of programs, policies, and initiatives.

Recruitment and Onboarding:

We believe Conagra offers one of the most impactful, energized and inclusive cultures in the food industry and provides a comprehensive employee experience for a long and prosperous career. Our team is driven by collaboration, innovation, and a desire to grow, and we support our employees with the tools they need to succeed and thrive throughout their careers.

Conagra has made differential investments in our recruitment tools and our talent acquisition programs to help us continue to attract the right candidates.

- We utilize technology to enhance our recruiting efforts while also simplifying the application process for prospective candidates.
- We design our marketing materials to capture and communicate the employee value proposition Conagra offers.
- We maintain sufficient resources and utilize processes seeking to streamline recruiting and on-boarding at our manufacturing facilities.
- We leverage data and key metrics to drive priorities and strategically focus recruiting efforts and talent acquisition resources across the enterprise.

Conagra provides new employees with a comprehensive cross-departmental onboarding program tailored to individual roles. New employees are introduced to our culture, start forming key relationships, and are provided with the resources they need to succeed.

Learning and Development:

The Conagra Promise to our employees is to provide every employee with the tools and programs to help them reach their full potential. By providing employees with growth opportunities, we empower them to build knowledge and skills and make an impact through their work at Conagra. We believe that by enabling employee growth and development, we better position Conagra to meet current and future business needs while driving employee retention.

We leverage a variety of tools and processes to promote a culture of employee learning and development at Conagra:

- Job profiles are aligned to a Conagra-specific skills framework that defines and prioritizes the top skills desired for each role. Employees' skills are assessed at least annually against the framework and the data is leveraged to provide tailored learning opportunities for each employee as well as drive programs to enhance organizational capabilities.
- Employees have access to on-demand learning covering a wide range of topics from improving time management to using artificial intelligence (AI).
- In addition to these learning opportunities, employees have access to numerous career development opportunities, including functional development programs, targeted leadership programs, and tuition reimbursement programs. Employees are encouraged to become involved in initiatives beyond their day-to-day job responsibilities, and provided on-the-job learning and opportunities for exploring their intellectual curiosity.

- We use multiple levers to promote a learning culture such as expecting leaders to consistently coach, teach and mentor colleagues across the organization and our "Invest in You" program that encourages employees to set aside at least one-hour per workweek focused on learning.

Employees also have access to coaching, feedback, and leadership support; employees are encouraged to establish mentoring relationships across the enterprise.

Engagement:

We believe our focus on broad-mindedness, one of our timeless values, fosters a culture of collaboration and engagement. We encourage our employees to engage with leaders, managers, and peers and to share their individual perspectives. We maintain a structured employee survey program to better understand employee engagement and how employees experience our culture.

Our eight employee-led Employee Resource Groups (ERGs) contribute to an engaged and inclusive culture at Conagra. Our ERGs provide our employees with an opportunity to express their views, facilitate learning on cultural and business topics, and support our employees' personal growth, professional development, and community impact. All of our ERGs are open to all salaried employees in the U.S. and, where indicated below, in Canada and Mexico. As of May 31, 2026, our ERGs and their stated goals consisted of:

- ASIAN ERG: Working to expand awareness through the celebration of Asian culture and heritage across Conagra.
- BLACK ERG: Supporting the African American community through personal and professional development, community involvement, and supporting all aspects of Conagra's mission, vision, and values.
- DISABILITY + ALLY ERG: Seeking to lead with a cross-disability perspective and prioritizing the fulfillment of access needs of group members.
- LATINX ERG: Striving to be a catalyst for Hispanic and Latinx professional development, business growth, and community impact.
- LGBTQ+ ALLY ERG: Influencing, engaging, and promoting LGBTQ+ inclusion at Conagra – supporting a work environment where everyone can be comfortable bringing their full selves to work every day.
- VETERANS ERG: Supporting, promoting, and assisting veterans in professional development and career growth at Conagra, while supporting Conagra's initiatives that are directly related to veterans and the military.
- WOMEN ERG: Empowering women professionally by supporting development opportunities, building strong networks and allyship across Conagra, giving back to the community, and advocating around issues that are impactful to women. This ERG includes employees in the U.S., Canada, and Mexico.
- YOUNG PROFESSIONALS ERG: Working to leverage their unique capabilities as engaged, enthusiastic, and business driven young professionals to strengthen Conagra's culture and talent. This ERG includes employees from the U.S. and Canada.

Compensation, Benefits, and Wellness:

We offer competitive compensation and benefits to attract and retain the best talent and to support the overall well-being of our employees. Our compensation program, which includes equity-based compensation for our employees at director level and above, aims to align our leaders' interest with our shareholders and is designed to incentivize strong company and individual performance.

Additionally, through our holistic approach to benefits and wellness, we provide our employees with resources to help them thrive. We offer a wide range of benefits across areas such as health, family, finance, community, and time away, including healthcare and wellness benefits such as employee assistance programs supporting mental health, adoption assistance, family care resources, a 401(k) plan, family leave, and paid time off.

Information About Our Executive Officers

The names, ages, and positions of our executive officers, as of July 15, 2026, are listed below:

Name	Title & Capacity	Age	Year First Appointed an Executive Officer
John P. Brase	President and Chief Executive Officer	58	2026
David S. Marberger	Executive Vice President and Chief Financial Officer	61	2016
Carey L. Bartell	Executive Vice President, General Counsel and Corporate Secretary	52	2022
Charisse Brock	Executive Vice President, Chief Human Resources Officer	64	2015
Alexandre O. Eboli	Executive Vice President, Chief Supply Chain Officer & Chief Transformation Officer	54	2021
Thomas M. McGough	Executive Vice President and Chief Operating Officer	61	2013
Noelle O'Mara	Executive Vice President and President Refrigerated & Frozen	47	2024
Melissa C. Napier	Senior Vice President and Corporate Controller	56	2025

John P. Brase has served as our President and Chief Executive Officer and a member of our Board of Directors since June 1, 2026. Previously, he served as President and Chief Operating Officer of The J.M. Smucker Company (a North American branded food company), from April 2025 to February 2026. Mr. Brase joined J.M. Smucker in April 2020 as its Chief Operating Officer. He began his career at The Procter & Gamble Company (a global branded consumer products company), where he worked for approximately 30 years, serving as the Senior Vice President and General Manager of Procter & Gamble's North American Family Care business from April 2016 through his departure in March 2020.

David S. Marberger has served as Executive Vice President and Chief Financial Officer since August 2016. Prior to joining Conagra Brands, he served as Chief Financial Officer of Prestige Brands Holdings, Inc. (a provider of over-the-counter healthcare products) from October 2015 until July 2016. Prior to that, Mr. Marberger served as the Senior Vice President and Chief Financial Officer of Godiva Chocolatier, Inc. (a global manufacturer and supplier of premium chocolates) from 2008 until October 2015. Prior to that, Mr. Marberger served Tasty Baking Company (a manufacturer and supplier of baked goods) as Executive Vice President and Chief Financial Officer from 2006 to 2008 and as Senior Vice President and Chief Financial Officer from 2003 to 2006. From 1993 until 2003, he served in various roles at Campbell Soup Company (a branded food products company), where he last held the position of Vice President, Finance, Food and Beverage Division.

Carey L. Bartell has served as Executive Vice President, General Counsel and Corporate Secretary since June 2022. In this role, Ms. Bartell oversees all legal and governmental affairs activity for the Company. Previously, Ms. Bartell served as Vice President and Chief Counsel leading the Company's litigation efforts and compliance programs. Ms. Bartell joined Conagra in 2016. Prior to Conagra, Ms. Bartell worked for eight years at Hospira, Inc., a global pharmaceutical and medical device company, as Senior Counsel and then Vice President, Legal. In this role, she oversaw the company's litigation, labor, employment, and immigration law, and advised senior management and the board of directors regarding diverse legal and business risks. Ms. Bartell began her career in private practice at a Chicago law firm, first as an Associate and then Partner, where she practiced primarily in the areas of litigation and labor & employment law.

Charisse Brock has served as Executive Vice President and Chief Human Resources Officer since November 2015 and previously served as Senior Vice President and Interim Chief Human Resources Officer from August 2015 until November 2015. Prior to serving in these roles, Ms. Brock served as Vice President of Human Resources for the Consumer Foods segment of Conagra Brands from September 2010 until August 2015. Ms. Brock joined Conagra Brands in 2004 as Director of Human Resources, supporting the Refrigerated Foods Group. Prior to joining Conagra Brands, she served for 15 years at The Quaker Oats Company (a branded food products company) (which was acquired by PepsiCo during her tenure) in its Consumer Foods Division.

Alexandre "Ale" O. Eboli has served as the Executive Vice President, Chief Supply Chain & Transformation Officer for Conagra Brands since January 2026. Mr. Eboli has end-to-end supply chain responsibilities for the Company, overseeing the manufacturing, procurement, environment, health and safety, plant quality, logistics, and transportation and warehousing teams. He also oversees enterprise-wide transformation programs aimed at continuously improving Conagra's business performance through process reengineering and leveraging Artificial Intelligence and other digital technologies. Mr.Eboli joined Conagra Brands as its Executive Vice President and Chief Supply Chain Officer in August 2021. He has more than 30years of global end-to-end supply chain leadership experience within the consumer packaged goods industry and throughout his career has held a variety of roles in finance, planning, distribution, logistics and manufacturing. Prior to Conagra, Mr.Eboli served as the Head of Supply Chain, North America for The Unilever Group, where he was responsible for overseeing manufacturing facilities and contract manufacturers producing personal care,

food and ice cream products as well as the related planning, procurement, manufacturing, engineering, logistics, quality, manufacturing excellence and customer service functions.

Thomas M. McGough has served as Executive Vice President and Chief Operating Officer since May 2024. He served as the Company's Executive Vice President and Co-Chief Operating Officer from October 2018 until May 2024; as the Company's President, Operating Segments from May 2017 until October 2018 and as the Company's President of Consumer Foods from May 2013 until May 2017. Mr. McGough also served as the Company's President, Grocery Products from 2011 until May 2013 and as Vice President in the Company's Consumer Foods organization from 2007 to 2011. Prior to joining the Company, he served in various roles at H.J. Heinz (a food processing company), where he began his career in 1990.

Noelle O'Mara has served as Executive Vice President and President, Refrigerated & Frozen since September 2025. She first joined Conagra as its Executive Vice President and President, New Platforms and Acquisitions in May 2024. Prior to joining Conagra, she served as Group President and Chief Marketing Officer at Tyson Foods, from August 2019 to November 2022, where she was responsible for their prepared foods business unit. Prior to joining Tyson in 2016, Ms. O'Mara spent over a decade at Kraft Foods Group leading various brands and portfolios.

Melissa C. Napier has served as our Senior Vice President, Corporate Controller since October 2025. She joined the Company as our Head of Investor Relations in April 2022 and in January 2025 became CFO of our Grocery & Snacks segment. Prior to that, Ms. Napier served as Senior Vice President, Treasurer and Investor Relations at US Foods from 2016 to April 2022. She has 25 years of experience in the food industry in finance positions of increasing responsibility including roles at Sara Lee Corp., The Hillshire Brands Company, and Tyson Foods, Inc. Ms. Napier began her career in public accountancy, including spending two years at Deloitte.

Foreign Operations

Foreign operations information is set forth in Note 20, *"Business Segments and Related Information"*, to the Consolidated Financial Statements contained in this report.

Available Information

We make available, free of charge through the "Investors—Financial Reports & Filings" link on our website at http://www.conagrabrands.com, our annual report on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K, and amendments to those reports filed or furnished pursuant to Section 13(a) or 15(d) of the Securities Exchange Act of 1934, as amended, as soon as reasonably practicable after such material is electronically filed with or furnished to the Securities and Exchange Commission (the "SEC"). We use our website, through the "Investors" link, as a channel for routine distribution of important information, including news releases, presentations, and financial information. The information on our website is not, and will not be deemed to be, a part of this annual report on Form 10-K or incorporated into any of our other filings with the SEC.

We have also posted on our website our (1) Certificate of Incorporation, (2) Bylaws, (3) Corporate Governance Principles, (4) Code of Conduct, (5) Code of Ethics for Senior Corporate Officers, and (6) Charters for each of the Audit/Finance Committee, Nominating and Corporate Governance Committee, and Human Resources Committee. Stockholders may also obtain copies of these items at no charge by writing to: Corporate Secretary, Conagra Brands, Inc., 222 Merchandise Mart Plaza, Suite 1300, Chicago, IL, 60654.

ITEM 1A. RISK FACTORS

Our business is subject to various risks and uncertainties. Any of the risks and uncertainties described below could materially adversely affect our business, financial condition, and results of operations and should be considered in evaluating us. Although the risks are organized by headings and each risk is described separately, many of the risks are interrelated. While we believe we have identified and discussed below the key risk factors affecting our business, there may be additional risks and uncertainties that are not presently known or that are not currently believed to be significant that may adversely affect our business, performance, or financial condition in the future.

Market Risks

Deterioration in general economic conditions, an economic recession or periods of slow growth, periods of inflation or increasing interest rates, or economic uncertainty may affect consumers resulting in reductions in consumer spending and have in the past harmed and could continue to harm our business and results of operations.

Our business and results of operations have in the past been and may continue to be adversely affected by changes in national or global stability and economic conditions, including periods of inflation and rising interest rates; decreased energy and fuel availability coupled with increased oil, energy and fuel costs (including fuel surcharges); reduced consumer confidence and declining consumer spending rates; actual or threatened hostilities or war and/or other geopolitical conflicts; declining benefits or changing eligibility requirements under government food assistance programs for consumers; changing international trade, immigration, and tax policies; recessions and periods of slow growth, decreased availability of capital, volatility in financial markets; rising or sustained high unemployment; supply chain challenges; labor shortages; the effects of governmental initiatives to manage economic conditions; and the negative impacts caused by pandemics, epidemics, and disease, in humans, plants, and animals.

These economic factors could continue to impact our business and operations in a variety of ways, including as follows:

- consumers seeking to reduce their spending on food by shifting purchases to more generic, lower-priced, or other value offerings, or foregoing certain purchases altogether during economic downturns, which could result in a reduction in sales of higher margin products, or a shift in our product mix to lower margin offerings adversely affecting the results of our operations;
- volatility in commodity and other input costs could substantially impact our result of operations;
- rising interest rates may adversely impact our results of operations;
- decreased demand in the restaurant business, particularly casual and fine dining, may adversely affect our Foodservice operations;
- volatility in the equity markets or interest rates could substantially impact our pension costs and required pension contributions; and
- it may become more costly or difficult to obtain debt or equity financing to fund operations or investment opportunities, or to refinance our debt in the future, in each case on terms and within a time period acceptable to us.

Rapid changes in trade policies, including rapidly imposed and threatened tariffs by the U.S. and reciprocal tariffs from U.S. trading partners, continue to create uncertainty and could negatively impact our business and the business of our key business partners.

Rapidly imposed and threatened tariffs by the U.S. and reciprocal tariffs from U.S. trading partners create uncertainty, and increased tariffs result in increased costs for us and for our suppliers, contract manufacturers, farmers, customers, and consumers. We have seen tariff impacts on the costs of our ingredients, packaging (including tinplate steel used for our canned packaging), and other commodities used in making our products. We continue to closely monitor the changing tariff landscape and the impact it has on our business. We cannot guarantee that our strategies to mitigate resulting cost increases, and other input cost increases, including working to increase productivity, cut other costs, and increase pricing on our products, will be fully successful, if at all, sufficient or sustainable.

Inflation, increased interest rates, and other economic conditions including potential recession and credit market disruptions, could negatively impact our business.

Customer and consumer demand for our products may be impacted by heightened inflation, increased or fluctuating tariffs, increased interest rates and other weak economic conditions including recessionary conditions and credit market disruptions and volatility. Continued weak economic conditions may adversely impact consumers, causing a decrease in demand for our products from our customers. Additionally, these economic conditions may adversely impact some of our customers, distributors, suppliers, contract manufacturers, and other vendors who are highly leveraged, increasing the risk of uncollectible accounts or trade receivables, extended payment terms, and bankruptcy. We have experienced and may continue to experience negative impacts to our business ranging from an inability to collect accounts receivable to supply chain disruptions caused by failures of our counterparties to continue as a going concern due to financial and liquidity issues.

Our business, financial condition, and results of operations have in the past been and could continue to be adversely affected by disruptions in the global economy caused by geopolitical conflicts.

Our business, financial condition and results of operations have been impacted in the past and may be impacted in the future by disruptions in the global economy. The global economy has been negatively impacted by geopolitical conflicts, and related supply disruptions, fuel cost increases, export controls and economic sanctions, including the recent military conflicts in the Middle East,

continuing military conflict between Russia and Ukraine, and geopolitical tensions elsewhere including between China and Taiwan. Although we have no direct operations in Iran or elsewhere in the Middle East, Russia, Ukraine, China, or Taiwan, we have experienced, or may experience, shortages in materials from these regions, increased tariffs, sanctions or restrictions relating to these regions, and resulting increased costs or volatility relating to transportation, energy, fuel, and raw materials as a result of impacts from conflicts in these regions, and reduced consumer confidence and consumption due in part to the negative impact of these conflicts and tensions on the global economy. Further escalations of geopolitical tensions related to military conflicts, including increased or fluctuating trade barriers or restrictions on global trade, could also result in cyberattacks, supply or distribution disruptions, lower consumer demand, and changes to foreign exchange rates and financial markets, any of which may adversely affect our business and supply chain. In addition, the effects of the ongoing conflicts could heighten many of our known risks described in this Item 1A, *Risk Factors*.

Commodity Risks

We are subject to increases in the price of raw materials, labor, manufacturing, distribution, and other inputs necessary for the production and distribution of our products, and we may not be able to fully offset this input cost inflation on a timely basis or at all.

Many of the components of our cost of goods sold are subject to price increases that are attributable to factors beyond our control, including global economic conditions, trade barriers or restrictions, supply chain disruptions, changes in crop size, product scarcity, demand dynamics, currency rates, water supply, weather conditions, import and export requirements, and other factors. The cost of oil, energy, fuel, raw materials, labor, manufacturing, packaging materials, transportation and logistics, and other inputs related to the production and distribution of our products have increased and may continue to increase unexpectedly.

In recent years, input costs have increased materially and at a rapid rate. We anticipate continued elevated levels of input cost inflation in fiscal 2027, and we could experience higher than expected input cost inflation in specific commodities or across multiple commodities.

The Company uses a variety of strategies to seek to offset this input cost inflation such as increasing productivity, cutting costs, increasing pricing, and engaging in commodity hedging. However, we may not be able to generate sufficient productivity improvements or cost reductions, or effectively hedge for such inflation. Commodity price volatility may result in unfavorable commodity positions, the costs of which we may not be able to fully offset on acceptable timelines or at all.

Furthermore, our efforts to offset these increasing costs through offsetting price increases and making changes to package sizes may not be timely, sufficient, or sustainable. Such efforts may be rejected by our customers or consumers, and may result in lower sales volumes. To the extent we are unable to offset present and future input cost increases including over sustained periods of elevated input cost inflation, our operating results could be materially and adversely affected.

Increases in commodity costs have in the past and may continue to have a negative impact on profits.

We use many different commodities such as wheat, corn, oats, various vegetables, vegetable oils, beef, pork, poultry, dairy products, steel, aluminum, and energy. Commodities are subject to price volatility caused by global economic conditions, trade barriers or restrictions on global trade, supply chain disruptions, commodity market fluctuations, supply and demand, currency fluctuations, external conditions such as weather, and changes in governmental agricultural and energy policies and regulations. In addition, recent world events and changes in domestic and global trade policy have increased the risks posed by international trade disputes, tariffs, and sanctions. We procure a wide spectrum of commodities globally and in the past have faced increased prices for commodities sourced from nations that have been impacted by trade disputes, tariffs, or sanctions. Commodity price increases have resulted and may in the futureresult in increases in raw material, packaging, and energy costs and operating costs.We have experience in hedging against commodity price increases; however, these practices and experience reduce, but do not eliminate, the risk of negative profit impacts from commodity price increases. We do not fully hedge against changes in commodity prices, and the risk management procedures that we use may not always work as we intend.

To mitigate commodity cost increases, we have implemented various strategies that include entering into contracted pricing with certain vendors, procuring commodities in periods of favorable market conditions, or entering into various derivative instruments. These actions may in part mitigate these increased costs, but even by increasingour product prices or implementing cost savings efforts, we may not be able to fully offset these increased costs. Additionally,increasedprices may not be sustainable over time and may result in reduced sales volume, which can negatively impact our margins, and profitability.

Volatility in the market value of derivatives we use to manage exposures to fluctuations in commodity prices will cause volatility in our gross margins and net earnings.

We utilize derivatives to manage price risk for some of our principal ingredients and energy costs, including grains (wheat and corn), vegetable oils, pork, dairy products, and energy. Changes in the values of these derivatives are generally recorded in earnings currently, resulting in volatility in both gross margin and net earnings. These gains and losses are reported in cost of goods sold in our Consolidated Statements of Earnings within general corporate expenses and are reclassified to segment operating results in the period in which the underlying item being economically hedged is recognized in cost of goods sold. We may experience volatile earnings as a result of these accounting treatments.

Operating Risks

Supply chain disruptions have in the past and could continue to negatively impact our profitability.

In recentyears, our industry has been impacted by supply chain disruptions, transportation issues, labor challenges, and continued changes in global economic conditions, which have impacted and are continuing to impact our operations and profitability. Continued inflation, rising interest rates, decreased availability of capital, volatility in financial markets, declining consumer spending rates, recessions, decreased energy availability, and increased energy costs (including fuel surcharges) have in the past caused and are continuing to cause challenges for us, our suppliers, vendors, customers, and consumers of our products and may negatively impact our profitability. These supply chain disruptions have impacted our ability to source ingredients and manufacture and distribute our products, and may make it difficult for our customers to accurately forecast and plan for their purchases of our products to optimize restocking, all of which could negatively impact our business and profitability.

Investments in our facilities and operations, including investments in new facilities, equipment, technologies and digital transformation, may result in periods of decreased production or increased costs and such investments may not achieve the intended financial benefits.

We continue to incur significant costs to upgrade, maintain, and expand production at various facilities, equipment, or technologies. We have committed to investing in automation, connected data, improved equipment, and artificial intelligence to upgrade our operations and increase productivity. Additionally, we have in the past, and may in the future, incur increased costs or periods of decreased production relating to upgrading facilities, equipment and technologies, transferring production among our facilities, utilizing third-party contract manufacturers, closing existing facilities, expanding existing facilities, and opening new facilities.

If the cost of our investments is higher than anticipated, the investments are not sufficient to meet our business needs, we are unable to fully utilize new, upgraded, or expanded facilities, or we are unable to complete our improvement and expansion projects in a timely manner or in accordance with our specifications, we may be delayed in realizing the intended benefits or our financial performance could be negatively affected.

We have in the past been and may in the future be subject to product recalls, product liability and labeling claims, and changing legal or regulatory requirements, any of which could negatively impact our profitability.

We sell food products for human consumption, which creates a risk of legal claims for personal injury resulting from the consumption of our products. We may be subject to liability resulting from claims (and have been or could be subject to lawsuits) alleging that the use or consumption of any of our products causes injury (including pending litigation alleging that certain of our products should be considered “ultra-processed” and consumption of such “ultra-processed” products allegedly causes negative health impacts), illness, or death. Such claims may also allege product contamination or spoilage, product tampering, other adulteration of food products such as foreign material, mislabeling, and misbranding.

In addition, we may take marketplace action such as a voluntary product recall in the event of contamination or quality issues. We have issued recalls and have from time to time been and currently are involved in lawsuits relating to our food products. A significant product liability judgment or a widespread product recall may negatively impact our sales and profitability for a period of time depending on the costs of the recall, the destruction of product inventory, product availability, competitive reaction, customer reaction, and consumer attitudes.

In addition, we could be the target of claims of false or deceptive advertising under U.S. federal and state laws as well as foreign laws, including consumer protection statutes of some states. The marketing of food products has come under increased regulatory scrutiny in recent years, and the food industry has been subject to an increasing number of proceedings, investigations, and claims

relating to alleged false or deceptive labeling and marketing under federal, state and foreign laws or regulations. Changes in legal or regulatory requirements (such as new food safety requirements, new food labeling requirements for allergens, ingredients, and nutrition information, updated requirements for the use of "healthy" in connection with our food products, and bans on certain food ingredients or packaging materials), evolving interpretations of existing legal or regulatory requirements, or changes in enforcement priorities may result in increased compliance costs, capital expenditures, higher production costs, and other financial obligations that could adversely affect our business or financial results. If we are found to be out of compliance with applicable laws and regulations in these areas, we could be subject to civil remedies, including fines, injunctions, termination of necessary licenses or permits, or recalls, as well as potential criminal sanctions, any of which could have a material adverse effect on our business.

Even if a product liability or labeling claim is unsuccessful or is not fully pursued, we may incur significant costs defending against such claims and the negative publicity surrounding any assertion that our products caused illness or injury could adversely affect our reputation with existing and potential customers and our corporate and brand image.

Additionally, as a manufacturer and marketer of food products, we are subject to extensive regulation by the U.S. Food and Drug Administration, the U.S. Department of Agriculture, and other federal, state, and local government agencies. The Federal Food, Drug& Cosmetic Act (including as amended by the Food Safety Modernization Act), the Federal Meat, Poultry Products, and Egg Products Inspection Acts, and their respective regulations govern aspects of our operations, including the manufacturing, composition and ingredients, packaging, labeling, and safety of food products. Some aspects of these laws use a strict liability standard for imposing sanctions on corporate behavior; meaning that no intent is required to be established. If we fail to comply with applicable laws and regulations, we may be subject to civil remedies, including fines, injunctions, recalls, or seizures, as well as criminal sanctions, any of which could have a material adverse effect on our business, financial condition, or results of operations.

Any damage to our reputation could have a material adverse effect on our business, financial condition, and results of operations.

Maintaining a good reputation is critical to selling our products. Product contamination or tampering, the failure to maintain high standards for product quality, safety, and integrity, including with respect to raw materials and ingredients obtained from suppliers, claims relating to health and wellness or allegations of product quality issues, mislabeling, or contamination, even if untrue, may reduce demand for our products or cause production and delivery disruptions. Our reputation could also be adversely impacted by any of the following, or by adverse publicity (whether or not valid) relating thereto: product recalls; claims asserted regarding the health implications of certain food products, specific ingredients, food packaging, or food production methods, including claims regarding "ultra-processed" products; the failure to maintain high ethical, social, and environmental standards or achieve stated goals for our operations and activities, including our expectations for our supply chain regarding ethical sourcing; the failure to achieve any stated goals with respect to the nutritional profile of our products; our research and development efforts; or our environmental impact, including use of agricultural materials, packaging, energy use, and waste management.

Moreover, the growing use of social and digital media and shopping, health or product evaluation applications by consumers has greatly increased the speed and extent that information or misinformation and opinions can be shared.Negative or inaccurate posts or comments about us, our brands, or our products on social or digital media or inaccurate information contained in shopping, health or product evaluation applications which may use outputs derived from artificial intelligence applications could seriously damage our brands and reputation. Additionally, negative reaction to our marketing and advertising, including our social media content, could result in damage to our brands and reputation.

Failure to comply with local laws and regulations, to maintain an effective system of internal controls or to provide accurate and timely financial information could also hurt our reputation. Damage to our reputation or loss of consumer confidence in our products for any of these or other reasons could result in decreased demand for our products and could have a material adverse effect on our business, financial condition, and results of operations, as well as require additional resources to rebuild our reputation.

Due to the seasonality of the business, our revenue and operating results may vary from quarter to quarter.

Our sales and cash flows are affected by seasonal cyclicality. For example, sales of frozen foods, including frozen vegetables and frozen complete bagged meals, tend to be marginally higher during the wintermonths and pie sales peak during the months of November and December due to holidays. Since many of the raw materials we process are agricultural crops, production of these products is predominantly seasonal, occurring during and immediately following the purchase of such crops. For these reasons, sequential quarterly comparisons are not a good indication of our performance or how we may perform in the future. If we are unable to obtain access to working capital when needed or if seasonal fluctuations are greater than anticipated, there could be a material adverse effect on our financial condition, results of operations, or cash flows.

Credit Risks

Our existing and future debt may limit cash flow available to invest in the ongoing needs of our business and could prevent us from fulfilling our debt obligations, financing at attractive borrowing costs, or returning cash to stockholders.

As of May 31, 2026, we had total debt of approximately $7.27billion, including approximately $7.02 billion aggregate principal amount of outstanding senior unsecured notes, of which $762.5 million aggregate principal amount is maturing in October 2026. Our ability to make payments on our debt, fund our other liquidity needs, make planned capital expenditures, and return cash to stockholderswill depend on our ability to generate cash in the future. Our historical financial results have been, and we anticipate that our future financial results will be, subject to fluctuations. Our ability to generate cash, to a certain extent, is subject to general economic, financial, competitive, legislative, regulatory, and other factors that are beyond our control. We cannot guarantee that our business will generate sufficient cash flow from our operations or that future borrowings will be available to us in an amount sufficient to enable us to make payments of our debt, fund other liquidity needs, make planned capital expenditures, or return cash to stockholders.

Our level of debt could have important consequences. For example, it could:

- make it more difficult for us to satisfy our debt service obligations;
- require us to dedicate a substantial portion of our cash flow from operations to the payment of debt service, reducing the availability of our cash flow to fund working capital, capital expenditures, acquisitions, favorable business opportunities, and other general corporate purposes;
- restrict us from repurchasing shares of our common stock;
- negatively impact our ability to pay a cash dividend at an attractive level;
- limit flexibility to plan for, or react to, changes in the businesses and industries in which we operate, which may adversely affect our operating results and ability to meet our debt service obligations;
- limit our ability to refinance our indebtedness or increase the cost of such indebtedness;
- increase our vulnerability to adverse economic or industry conditions, including changes in interest rates;
- limit our ability to obtain additional financing in the future to fund our working capital requirements, capital expenditures, acquisitions, investment, debt service obligations, and other general operating requirements or to enable us to react to changes in our business; or
- place us at a competitive disadvantage compared to businesses in our industry that have less debt.

Additionally, any failure to meet required payments on our debt, or failure to comply with any covenants in the instruments governing our debt, could result in an event of default under the terms of those instruments and a downgrade to our credit ratings. In the event of a default, the holders of our debt could elect to declare all the amounts outstanding under such instruments to be due and payable. Any default under the agreements governing our debt and the remedies sought by the holders of such debt could render us unable to pay principal and interest on our debt.

A downgrade to our credit ratings would increase our borrowing costs and could affect our ability to issue debt and access the commercial paper markets, which we actively utilized in fiscal 2026 for our ongoing funding requirements. Additionally, disruptions in the commercial paper market or other effects of volatile economic conditions on the credit markets could also reduce the amount of commercial paper that we could issue and raise our borrowing costs.

We rely on cash from our subsidiaries to meet our cash flow needs and service our debt.

A significant portion of our operations are conducted through our subsidiaries. As a result, our ability to generate sufficient cash flow for our needs is dependent to some extent on the earnings of our subsidiaries and the payment of those earnings to us in the form of dividends, loans, or advances and through repayment of loans or advances from us. Our subsidiaries are separate and distinct legal entities. Our subsidiaries have no obligation to pay any amounts due on our debt to provide us with funds to meet our cash flow

needs, whether in the form of dividends, distributions, loans, or other payments. In addition, any payment of dividends, loans, or advances by our subsidiaries could be subject to statutory or contractual restrictions. Payments to us by our subsidiaries will also be contingent upon our subsidiaries' earnings and business considerations. Our right to receive any assets of any of our subsidiaries upon their liquidation or reorganization will be effectively subordinated to the claims of that subsidiary's creditors, including trade creditors. In addition, even if we are a creditor of any of our subsidiaries, our rights as a creditor would be subordinate to any security interest in the assets of our subsidiaries and any indebtedness of our subsidiaries senior to that held by us. Finally, changes in the laws of foreign jurisdictions in which we operate may adversely affect the ability of some of our foreign subsidiaries to repatriate funds to us.

Competition Risks

Increased competition may result in reduced sales or profits.

The food industry is highly competitive. Retail customer consolidation, proliferation of new, competitive products, consumer behavior shifts including retail channel preferences, and consumer price sensitivity continue to contribute to increased competition. Our principal competitors have substantial financial, marketing, and other resources. Increased competition can reduce our sales due to loss of market share or the need to reduce prices to respond to competitive and customer pressures. Competitive pressures also may restrict our ability to increase prices and maintain those price increases, including price increases made in response to commodity and other cost increases. In addition, we may experience delays between the time that we take inflation-related pricing actions and the time that we realize the impact of those actions on our margins and results of operations. Furthermore, pricing actions in response to increased costs of goods sold may negatively impact demand for our products, our market share, and our sales volumes.

We sell branded, private brand, and customized food products, as well as commercially branded foods. Our branded products have an advantage over private brand products primarily due to advertising and name recognition, although private brand products typically sell at a discount to those of branded competitors. In addition, when branded competitors focus on price and promotion, the environment for private brand producers becomes more challenging because the price difference between private brand products and branded products may become less significant.

In most product categories, we compete not only with other widely advertised branded products, but also with other private label and store brand products that are generally sold at lower prices. A strong competitive response from one or more of our competitors to our marketplace efforts, or a consumer shift towards more generic, lower-priced, or other value offerings, could result in us reducing pricing, increasing marketing or other expenditures, or losing market share. Our margins and profits could decrease if a reduction in prices or increased costs are not counterbalanced with increased sales volume.

In fiscal 2026, we continued to make targeted investments in advertising and promotions in response to market conditions. There is no guarantee that our advertising and promotional activities will be successful or that our competitors will not engage in more aggressive advertising and promotion activities which could negatively impact our sales volumes.

In addition, substantial growth in e-commerce has encouraged the entry of new competitors and business models, intensifying competition by simplifying distribution and lowering barriers to entry. The expanding presence of e-commerce retailers has impacted, and may continue to impact, consumer preferences and market dynamics, which in turn may negatively affect our sales or profits.

If we do not achieve the appropriate cost structure in the highly competitive food industry, our profitability could decrease.

Our future success and earnings growth depend in part on our ability to achieve the appropriate cost structure and operate efficiently in the highly competitive food industry, particularly in an environment of volatile input costs. We continue to implement profit-enhancing initiatives that impact our supply chain and general and administrative functions. These initiatives are focused on cost-saving opportunities in procurement, manufacturing, logistics, and customer service, as well as general and administrative overhead levels. Gaining additional efficiencies may become more difficult over time. Our failure to reduce costs through productivity gains or by eliminating redundant costs resulting from acquisitions could adversely affect our profitability and weaken our competitive position. If we do not continue to effectively manage costs and achieve additional efficiencies, our competitiveness and our profitability could decrease. Additionally, our profitability and ability to achieve the appropriate cost structure depends on our ability to fully utilize our manufacturing capacity. If we do not maximize our manufacturing capacity, our profitability could be negatively impacted.

Failure to modernize and adopt new technologies, including artificial intelligence technology and solutions, could disadvantage us competitively.

Our success may increasingly depend on driving increased productivity and efficiency by effectively leveraging new technologies, including artificial intelligence technology and solutions (AI). Our competitors may adopt new technologies, modernize their operations, and incorporate AI into their businesses analysis and processes more quickly than we do, driving increased productivity and efficiencies, speeding innovation, and allowing for faster responses to consumer trends, which could have an adverse effect on our competitive position. Additionally, any failure to use new technologies, including AI, in an effective and ethical manner, or failure to adequately protect confidential information or address inaccuracies in AI-generated outputs, may impact our reputation and ability to compete.

Consumer and Customer Risks

We must identify changing consumer preferences and develop and offer food products and packaging to meet their preferences.

Consumer preferences evolve over time and the success of our food products depends on our ability to identify the priorities, tastes and dietary habits of consumers and to offer products that appeal to these preferences. Consumer response to our products may be influenced by a growing number and complexity of factors (as well as media, social media, and regulatory activity impacting such factors), including taste, nutrition, pack and portion sizes, and concerns of consumers regarding broader health and wellness perceptions, obesity, product attributes, ingredients, food production methods, sourcing of packaging materials, use of organic or natural ingredients, human rights impacts, environmental impacts, recyclability of packaging and local sourcing of ingredients. Continued focus on wellness and growing use of weight loss medication has caused, and may continue to cause, shifts in consumer preferences and, if we fail to anticipate and appropriately respond to customer preferences, may impact our product sales, financial condition, and operating results.

Introduction of new products and product extensions including variations of pack and portion sizes requires significant development and marketing investment. If our products fail to meet changing consumer preferences or habits or are not perceived by consumers as delivering value, or if we fail to introduce new and improved products or fail to offer alternative pack and portion size offerings on a timely basis, then the return on that investment will be less than anticipated and our strategy to grow sales and profits with investments in acquisitions, marketing, and innovation will be less successful. Similarly, demand for our products could be affected by consumer concerns or perceptions regarding the health effects of, and changes in regulatory restrictions on, certain packaging materials (such as per- and polyfluoroalkyl substances commonly referred to as PFAS), food production methods, ingredients such as colors or preservatives, sodium, trans fats, sugar, genetically modified ingredients, or other product attributes. New or changing limitations on inclusion of our products under government food assistance programs for consumers may also negatively impact demand for our products.

Changes in our relationships with significant customers, including our largest customer, could adversely affect us.

During fiscal 2026, our 10 largest customers accounted for approximately 60% of our consolidated net sales, with our largest customer, Walmart,Inc. and its affiliates, accounting for approximately 29% of our consolidated net sales. There can be no assurance that Walmart,Inc. and other significant customers will continue to purchase our products in the same quantities or on the same terms as in the past, particularly as increasingly powerful retailers continue to demand lower pricing. The loss of a significant customer or a material reduction in sales to a significant customer could materially and adversely affect our product sales, financial condition, and results of operations.

Our customers are generally not contractually obligated to purchase from us and their decision to purchase from us is driven by multiple factors, including consumer preferences and demand, price, product quality, customer service performance, availability, and other factors. Strategic and financial goals of our customers can impact their purchasing decisions, including store space allocation among product categories and shelf placement of our products.

The sophistication and buying power of our customers could have a negative impact on profits.

Our customers, such as supermarkets, warehouse clubs, and food distributors, have continued to consolidate, resulting in fewer customers on which we can rely for business. These consolidations, the growth of supercenters, and the growth of e-commerce customers have produced large, sophisticated customers with increased buying power and negotiating strength who are more capable of resisting price increases and who can demand lower pricing, increased promotional programs, or specialty tailored products. In addition, larger retailers have the scale to develop supply chains that permit them to operate with reduced inventories or to develop and market their own retailer brands. These customers may also in the future use more of their shelf space, currently used for our products, for their store brand products. We continue to implement initiatives to counteract these pressures. However, if the larger size of these customers results in additional negotiating strength and/or increased private label or store brand competition, our profitability could decline.

Consolidation also increases the risk that adverse changes in our customers' business operations or financial performance will have a corresponding material adverse effect on us. For example, if our customers cannot access sufficient funds or financing, then they may delay, decrease, or cancel purchases of our products, or delay or fail to pay us for previous purchases.

Third-Party Partner Risks

Disruptions to our supply chain havehad and could continue to havean adverse impact on our business, financial condition, and results of operations.

Our ability to make, move, and sell our products is critical to our success. Disruptions to our supply chain, including disruptions to our third-party manufacturing or transportation and distribution capabilities, due to labor shortages, increased labor costs, weather, including any potential effects of climate change, natural disaster, fire or explosion, terrorism, strikes, government action, geopolitical turmoil, pandemics, or other reasons beyond our control or the control of our suppliers and business partners, could impair our ability to manufacture or sell our products. Failure to take adequate steps to mitigate the likelihood or potential impact of such events, or to effectively manage such events if they occur, particularly when a product is sourced from a single supplier or location, could adversely affect our business or financial results. In addition, disputes with significant suppliers, including disputes regarding pricing or performance, could adversely affect our ability to supply products to our customers and could materially and adversely affect our product sales, financial condition, and results of operations.

Although most of our products are manufactured in North America and we source the significant majority of our ingredients and raw materials from North America, global supply has at times been and may continue to be constrained, which has caused and may continue to cause the price of certain ingredients and raw materials used in our products to increase and/or we may experience disruptions to our operations. Additionally, although we have no direct operations in Iran or elsewhere in the Middle East, Russia, Ukraine, China, or Taiwan, we have experienced, and may again experience, shortages in materials from these regions, increased tariffs, sanctions or restrictions relating to these areas, and increased costs or volatility relating to transportation, energy, and raw materials impacted by these regions, and reduced consumer confidence and consumption in these regions due in part to the negative impact of military conflicts and rising tensions in these areas on the global economy. To date, these conflicts have not had a material impact on our business, financial condition, or results of operations, but continued geopolitical turmoil may negatively impact our supply chain and our ability to manufacture or sell our products.

Dependency on contract manufacturing arrangements could impact our sales volume and adversely affect our results of operations.

Our businesses periodically enter into contract manufacturing arrangements with third-party manufacturers of products. The terms of these agreements vary. Although many agreements are for a relatively short period of time, some of our contract manufacturing agreements are for extended periods. Volumes produced under each of these agreements can fluctuate significantly based upon the product's life cycle, product promotions, alternative production capacity, and other factors, none of which are under our direct control. Our future ability to enter into, maintain or expand these contract manufacturing arrangements is not guaranteed, and an inability for the Company to obtain favorable contract manufacturing pricing or sufficient contract manufacturing availability or production capacity could have a significant negative impact on sales volume.

As we outsource certain functions, we become more dependent on the third parties performing those functions.

As part of a concerted effort to achieve cost savings and efficiencies, we have entered into agreements with third-party service providers under which we have outsourced certain information systems, sales, finance, accounting, and other functions, and we may enter into managed services agreements with respect to other functions in the future. If any of these third-party service providers do not perform according to the terms of the agreements, or if we fail to adequately monitor their performance, including their use of new AI technologies, we may not be able to achieve the expected cost savings or we may have to incur additional costs to correct errors made by such service providers, and our reputation could be harmed. Depending on the function involved, such errors may also lead to business interruption, damage or disruption of information technology systems, processing inefficiencies, the loss of or damage to intellectual property or non-public company sensitive information, effects on financial reporting, litigation or remediation costs, or damage to our reputation, any of which could have a material adverse effect on our business.

In addition, if we transition functions to one or more new, or among existing, external service providers, we may experience challenges such as delays, errors, additional costs, service interruptions, and disruptions to our operations that could have a material adverse effect on our results of operations or financial condition.

Our operations are dependent on a wide array of third parties.

The success of our end-to-end supply chain relies on the continued performance of a wide array of third parties. Suppliers, contract manufacturers, third-party outsourcers, warehousing partners, and transportation providers are among our critical partners. Although we take steps to qualify and audit third parties with whom we do business, we cannot guarantee that all third parties will perform dependably or at all. It is possible that events beyond our control, such as operational failures, financial failure, labor issues, cybersecurity events, pandemics, epidemics, and disease, in humans and animals, or other issues could impact our unaffiliated third parties. If our third parties fail to deliver on their commitments, introduce unplanned risk to our operations, or are unable to fulfill their obligations, we could experience manufacturing challenges, shipment delays, increased costs, or lost revenue.

We may be negatively impacted by cybersecurity incidents involving third parties in our supply chain.

In the past, we have been impacted by cyber breaches experienced by third parties in our supply chain. If any of our third-party service providers or any other third parties in our supply chain experience a cyber breach or system failure, their businesses may be negatively impacted, which can disrupt our end-to-end supply chain or affect our ability to fulfill customer orders, both of which could have a material adverse effect on our business.

Legal, Regulatory, and Environmental Risks

If we fail to comply with the many laws applicable to our business, we may face lawsuits or incur significant fines and penalties. In addition, changes in such laws may lead to increased costs.

Our business is subject to a variety of governmental laws, regulations and executive orders, including food and drug laws, environmental laws, laws related to advertising and marketing practices, accounting standards, taxation requirements, competition laws, labor and employment laws, data privacy laws, human rights laws, and anti-corruption laws in and outside of the United States. Our operations are subject to various laws and regulations administered by federal, state, local and foreign government agencies, including the United States Department of Agriculture, the Federal Food and Drug Administration, the Federal Trade Commission, the Consumer Product Safety Commission, the Occupational Safety and Health Administration, the Environmental Protection Agency, and the Department of Labor. In particular, the processing, packaging, transportation, storage, distribution, advertising, labeling, quality, and safety of food products, the health and safety of our employees, and the protection of the environment are each subject to governmental regulation. Additionally, we are subject to data privacy and security regulations, tax and securities regulations, accounting and reporting standards, and other financial laws and regulations. Our failure to comply with applicable laws and regulations could subject us to investigations, enforcement actions, lawsuits, administrative penalties, and civil remedies, including fines, injunctions, and recalls of our products.

New and changing extended producer responsibility (EPR) laws and regulations that recently have been, and are being, implemented in the United States and Canada may increase our costs or require us to contribute funding to support recycling and waste processing infrastructure by making manufacturers, like Conagra, responsible for the cost of disposal of food packaging after consumer use. These EPR laws and regulations also may require us to use more post-consumer recycled material in our packaging or switch to other types of packaging to meet future recyclability requirements, which may further increase our costs. Additionally, we may suffer losses if changes to regulations require us to change the ingredients we use or how we process, package, transport, store, distribute, advertise, or label our products or include changes that increase our risk of liability for deceptive advertising. Moreover, depending on the implementation of such regulatory changes, we could have increased risk for a product recall or have existing inventory become unsellable, which could materially and adversely impact our product sales, financial condition and operating results.

Changes to U.S. health policies can result in increasing scrutiny on the food industry and changes to consumer preferences. In 2025, the Food and Drug Administration called on the food industry to phase out the approved use of petroleum-based synthetic dyes in food products, and the Make America Healthy Again Commission, led by the U.S. Health and Human Services and established by an Executive Order in 2025, published assessment and strategy reports discussing factors allegedly contributing to chronic disease, including diet. Additionally, some states have proposed initiatives or adopted laws and regulations that ban or impose unique labeling requirements or restrictions for certain food ingredients and food products including packaging. While the full impact of these state and federal level activities on our products and business remains uncertain, inconsistent laws and changes to laws and regulations regarding food ingredients, production methods, labeling, packaging, or nutritional requirements could or will require reformulation of certain products, which in turn could impact demand for our products or increase our compliance costs, any of which could have a material adverse effect on our business, financial condition, and results of operations.

In addition, changes in other laws and regulations, including changes in taxation requirements and new or increased tariffs on products imported from certain countries, may lead to increased costs and could negatively affect our business, financial condition, and results of operations.

Our operations are also subject to extensive and increasingly stringent regulations administered by the Environmental Protection Agency and similar state, local, and foreign government agencies, which pertain to the discharge of materials into the environment and the handling and disposition of waste. Failure to comply with these regulations can have serious consequences, including civil and administrative penalties and negative publicity. Changes in applicable laws or regulations or evolving interpretations thereof, including increased government regulations to limit carbon dioxide and other greenhouse gas emissions as a result of concern over climate change, may result in increased compliance costs, capital expenditures, and other financial obligations for us, which could affect our profitability or impede the production or distribution of our products, and affect our net operating revenues.

Climate change, or legal, regulatory, or market measures to address climate change, may negatively affect our business and operations.

Climate change related adverse weather conditions, water shortages, and natural disasters may reduce agricultural productivity leading to decreased availability or less favorable pricing for commodities necessary for our products, including wheat, tomatoes, and various vegetables. Climate change related reduced availability or increased cost of water may also affect our manufacturing and distribution operations, or disrupt the productivity of our facilities and supply chain.

Continued concern over climate change may result in additional regional, federal, and/or global legal and regulatory requirements including changes to energy policies, increased mandatory disclosure obligations, and carbon pricing regulations or taxes. If such regulations are more aggressive than our climate risk mitigation measures, we may experience significant increases in our costs of operation and delivery, including, increasing regulation of fuel emissions.

We may incur increased costs if such regulatory actions result in sustained elevated compliance costs. Collecting, measuring and analyzing information relating to such matters can be costly, time-consuming, dependent on third-party cooperation and unreliable. Furthermore, methodologies for measuring, tracking and reporting on such matters continue to change over time, which requires our processes and controls for such data to evolve as well.

Additionally, we may face increased pressure from customers, consumers, investors, activists and other stakeholders to modify our products or operations away from ingredients or activities that are considered to have a higher impact on climate change.

From time to time, we establish strategies and expectations related to climate change and other environmental matters. Our ability to achieve any such strategies or expectations is subject to numerous factors and conditions outside of our control, including evolving regulatory standards, the pace of scientific and technological developments, increased costs, availability of financing, market trends, conduct of third-party manufacturers and suppliers, supply chain constraint or disruptions, and changes in carbon markets or carbon taxes. We may be required to expend significant resources to achieve these strategies and expectations. There can be no assurance of the extent to which any of our strategies or expectations will be achieved, or that any future investments we make will meet stakeholder expectations. Failures or delays (whether actual or perceived) in achieving our strategies or expectations related to climate change and other environmental matters could adversely affect our business, operations, and reputation, and increase risk of litigation.

Cybersecurity, Information Technology Risks, and AI-Related Risks

Our business operations could be disrupted if our information technology systems fail to perform adequately.

We rely on information technology networks and systems, including the Internet, to process, transmit, and store information, to manage and support a variety of business processes and activities, and to comply with regulatory, legal, and tax requirements. Our information technology systems, some of which are dependent on services provided by third parties, may be vulnerable to damage, interruption, or shutdown due to any number of causes outside of our control such as catastrophic events, natural disasters, fires, power outages, systems failures, telecommunications failures, employee error or malfeasance, security breaches, computer viruses or other malicious codes, ransomware, unauthorized access attempts, denial of service attacks, phishing, social engineering, hacking, and other cyberattacks. Additionally, the increased regularity of employees, including third-party employees, accessing technology infrastructure remotely may create additional information technology and data security risks.

If we do not allocate and effectively manage the resources necessary to build and sustain the proper technology infrastructure and associated automated and manual control processes, including related to new AI technologies, we could be subject to billing,

payment, and collection errors, business disruptions, or damage resulting from security breaches. Failure to implement new technologies could result in lower productivity and higher costs. If any of our significant information technology systems suffer severe damage, disruption, or shutdown, and our business continuity plans do not effectively resolve the issues in a timely manner, our product sales, financial condition, and results of operations may be materially and adversely affected, and we could experience delays in reporting our financial results. In addition, there is a risk of business interruption, violation of data privacy laws and regulations, litigation, and reputational damage from leakage of confidential information. Any interruption of our information technology systems could have operational, reputational, legal, and financial impacts that may have a material adverse effect on our business.

We are exposed to cybersecurity risk through our information systems and our use of third-party information systems.

While we have experienced threats to our data and systems, to date, we are not aware that we have experienced a breach that had a material impact on our operations or business. Cyberattacks are occurring more frequently, are constantly evolving in nature and are becoming more sophisticated. Additionally, continued geopolitical turmoil and military conflicts have heightened the risk of cyberattacks. While we attempt to continuously monitor and mitigate against cyber risks, including through leveraging multi-sourced threat intelligence, investing in new technologies, and developing third-party cybersecurity risk management capability in support of strategic suppliers, we may incur significant costs in protecting against or remediating cyberattacks or other cyber incidents.

Sophisticated cybersecurity threats pose a potential risk to the security and viability of our information technology systems, as well as the confidentiality, integrity, and availability of the data stored on those systems, including cloud-based platforms. Our initiatives to continue to modernize our operations, adopt new technology to increase efficiency, and increase data digitalization and improve connectively of our production facilities may increase our potential exposure to cybersecurity risks and add additional complexity to our cybersecurity program.

Similarly, rapid development and increased adoption of AI technology in our operations may create the need for rapid modifications to our cybersecurity program and increase our cybersecurity risks. Furthermore, the technology and techniques used in cyberattacks are also rapidly evolving. Threat actors are increasingly leveraging AI and machine learning techniques, such as generative AI-enabled phishing, deepfake impersonations, automated vulnerability discovery, adaptive malware, and large-scale credential-stuffing campaigns, to execute more sophisticated cyberattacks that may be more difficult to detect and defend against. We can provide no assurance that our cybersecurity program will be able to evolve at a pace sufficient to address all of these threats or that our defenses will remain effective against attacks utilizing these advanced capabilities.

While we maintain a cyber insurance policy that provides coverage for security incidents, we cannot be certain that our coverage will be adequate for liabilities actually incurred, that insurance will continue to be available to us on financially reasonable terms, or at all, or that any insurer will not deny coverage as to any future claim. Increased cyber incidents, both in terms of frequency and scale, may impact the availability and cost of cyber insurance globally which may negatively impact our ability to maintain sufficient coverage. There is no assurance that the measures we have taken to protect our information technology systems will prevent or limit the impact of a future cyber incident.

We are subject to a variety of privacy and data protection laws and regulations.

Additionally, we regularly move data across national borders to conduct our operations and, consequently, are subject to a variety of laws and regulations in the United States and other jurisdictions regarding privacy, data protection, and data security, including those related to the collection, storage, handling, use, disclosure, transfer, and security of personal data, including the European Union General Data Protection Regulation, the California Privacy Rights Act, and similar laws in other countries, states and jurisdictions.

Our efforts to comply with privacy and data protection laws may impose significant costs and challenges that are likely to increase over time.

We are exposed to risk based on our increasing adoption and use of AI in a rapidly-evolving regulatory landscape.

As we increase the use of AI in our business to support operational efficiencies, supply chain management, product development, marketing capabilities, human capital management, and administrative support, the challenges associated with properly managing such use increase, as does the risk to us of reputational harm, competitive harm, and legal liability that could adversely affect our business. The use of AI exposes us to potential information deficiencies, inaccuracies or misleading output, data privacy breaches, inadequate protection of confidential information and intellectual property rights, infringement on third parties' intellectual property rights, flawed decision-making, and increased costs that may have a negative impact on our business.

Further, the global legal, regulatory, and ethical landscape surrounding AI is rapidly evolving and remains uncertain. Compliance with new and evolving laws, regulations, or industry standards relating to AI may require significant investment and resources, may limit our ability to use AI, and could result in reputational harm, legal liability, or other adverse effects on our operations and overall business. The rapidly evolving and expanding use of AI, along with the introduction of increasingly disparate requirements across the various U.S. jurisdictions in which we operate, as well as evolving international privacy and cybersecurity regimes, complicates our compliance obligations and may require adaptation of our technologies, practices, and operations, which could increase our costs.

Employee Risks

We rely on our management team and other key personnel.

We depend on the skills, working relationships, and continued services of key personnel, including our experienced management team. In addition, our ability to achieve our operating goals depends on our ability to identify, attract, hire, train, retain, and develop qualified individuals in the locations we need. If key employees terminate their employment, our business activities may be adversely affected by shortages of personnel with the skills, knowledge and talent that we need to effectively run and grow our business. Our business activities may also be adversely affected if we are unable to locate suitable replacements for any key employees who leaveor to offer employment to potential replacements on reasonable terms.

We offer robust training and development programs to help our employees develop the skills they need. Increased employee turnover results in significant time and expense relating to identifying, recruiting, hiring, relocating and integrating qualified individuals. High employee turnover of key personnel may deplete our institutional knowledge base and erode our competitiveness.

We compete with other companies both within and outside of our industry for talented personnel.We continue to experience increased competition for talent and at times, in recentyears, have experienced periods of increased employee turnover. We could experience shortages of employees with specialized skills, such as skills in emerging technologies including AI and data analytics, especially emerging technology enabling us to formulate our business strategies based on consumer insights. If we do not successfully compete for the best talent, our business activities may be adversely affected.

A number of factors may adversely affect the labor force available to us at our multiple locations or increase labor costs, including high employment levels, population migration, unemployment programs and subsidies, immigration laws, and other government regulations and volatility in general macroeconomic factors impacting the labor market. Although we have not experienced any material labor shortage to date, over the past fewyears, we have experienced a tighter and increasingly competitive labor market. A sustained labor shortage or increased turnover rates within our employee base (or within the employee base of key suppliers or third-party manufacturers), could negatively affect our supply chain or our ability to efficiently operate our manufacturing and distribution facilities and overall business.

Our results could be adversely impacted as a result of increased pension, labor, and people-related expenses.

Our labor costs include wages and the cost of providing employee benefits including pension, health and welfare, and severance benefits. The annual cost of providing these benefits varies as a result of factors such as the availability of skilled labor, the costs of health care, and the outcome of collectively bargained wage and benefit agreements. In addition, changes in interest rates, mortality rates, health care costs, early retirement rates, investment returns, and the market value of plan assets can affect the funded status of our defined benefit plans and cause volatility in the future funding requirements of the plans. A significant increase in our wage and benefit costs, pension obligations, or future funding requirements could have a negative impact on our results of operations and cash flows from operations.

Goodwill or Other Intangible Assets Risks

Impairment in the carrying value of goodwill or other intangibles could result in the incurrence of impairment charges and negatively impact our net worth.

As of May 31, 2026, we had goodwill of $8.12 billion and other intangibles of $1.83 billion. The net carrying value of goodwill represents the fair value of acquired businesses in excess of identifiable assets and liabilities as of the acquisition date (or subsequent impairment date, if applicable). The net carrying value of other intangibles represents the fair value of trademarks, customer relationships, and other acquired intangibles as of the acquisition date (or subsequent impairment date, if applicable), net of accumulated amortization. Goodwill and other acquired intangibles expected to contribute indefinitely to our cash flows are not amortized, but must

be evaluated by management at least annually for impairment. Amortized intangible assets are evaluated for impairment whenever events or changes in circumstance indicate that the carrying amounts of these assets may not be recoverable. Impairments to goodwill and other intangible assets may be caused by multiple factors including increasing competitive pressures, reduced demand for our products, sustained stock price decline, disruption in our operations as a result of internal and external events including disruptions involving contract manufacturing arrangements, declining consumer sentiment, macroeconomic uncertainties, lower than expected revenue and profit growth rates, changes in industry earnings before interest, taxes, depreciation and amortization multiples, changes in discount rates based on changes in cost of capital (interest rates, etc.), or the bankruptcy of a significant customer. Any impairment to goodwill or other intangible assets could negatively impact our net worth and results of operations.

Securities Risks

We may not repurchase the full share repurchase value currently authorized.

The Company's total remaining share repurchase authorization as of May 31, 2026was $837.6million of our outstanding common stock. This authorization does not obligate us to repurchase any shares at any time. The amount and timing of any stock repurchases will be determined based on multiple factors including stock price, liquidity, economic and market conditions. We cannot guarantee that we will continue share repurchases up to the authorized amount, and furthermore, if we do repurchase any of our stock, such action may not result in increased value for our stockholders.

Strategic Transactions Risks

If we are unable to successfully identify, complete or realize the benefits from strategic acquisitions, divestitures, joint ventures or investments, our financial results could be materially and adversely affected.

From time to time, we evaluate acquisition candidates that may strategically fit our business objectives. If we are unable to complete acquisitions or successfully integrate and develop acquired businesses, our financial results could be materially and adversely affected.

Similarly, we may consider divesting businesses that do not meet our strategic objectives or do not meet our growth or profitability targets. We may not be able to complete desired divestitures on terms favorable to us. If we do complete such desired divestitures, gains or losses on the sales of, or lost operating income from, those businesses may affect our profitability and margins.

Moreover, in connection with contemplated or completed acquisitions or divestitures, we may incur related asset impairment charges that reduce our profitability.

Our acquisition, divestiture, joint venture and investment activities may present financial, managerial, and operational risks.

Our acquisition, divestiture, joint venture and investment activities may present certain risks, including diversion of management attention from existing businesses, difficulties integrating personnel and financial and other systems, effective and immediate implementation of control environment processes across our employee population, adverse effects on existing business relationships with suppliers and customers, inaccurate estimates of fair value made in the accounting for acquisitions and amortization of acquired intangible assets which would reduce future reported earnings, potential loss of customers or key employees, and indemnities and potential disputes with sellers, joint venture partners and investment targets. Any of these factors could affect our sales, financial condition, results of operations and cash flows.

Similarly, our divestiture activities may present financial, managerial, and operational risks such as diversion of management attention from existing businesses. Our divestiture activity may result in impairment charges and gains or losses on such sales, or lost operating income from such divested businesses, may impact our profitability. Additionally, divestitures may present difficulties separating personnel and financial and other systems, possible need for providing transition services to buyers, adverse effects on existing business relationships with suppliers and customers and indemnities and potential disputes with the buyers and others. We may not be able to complete, on terms favorable to us or at all, desired divestitures of businesses that do not meet our strategic objectives. Any of these factors could adversely affect our product sales, financial condition, and results of operations.

Intellectual Property Risks

Our intellectual property rights are valuable, and any inability to protect them could have an adverse impact on our business, financial condition, and results of operations.

Our intellectual property rights, including our trademarks, licensing agreements, trade secrets, patents, and copyrights, are a significant and valuable aspect of our business. We attempt to protect our intellectual property rights by pursuing remedies available to us under trademark, copyright, trade secret, and patent laws, as well as entering into licensing, third-party nondisclosure and assignment agreements and policing of third-party misuses of our intellectual property. If we fail to adequately protect the intellectual property rights we have now or may acquire in the future, or if there occurs any change in law or otherwise that serves to reduce or remove the current legal protections of our intellectual property, then our financial results could be materially and adversely affected.

Certain of our products are sold under licensing arrangement with others, including our licensing arrangement with Dolly Parton, and our licenses of the *P.F. Chang's*®, *Bertolli*®, *Wendy's*®, and *Libby's*® trademarks. Additionally, we have licensed certain of our intellectual property rights to third parties, such as *Alexia*® and *Marie Callender's*®. While many of these licensing arrangements are perpetual in nature, others must be periodically renegotiated or renewed pursuant to their terms. If in the future we are unable to renew such a licensing arrangement pursuant to its terms and conditions, or if we fail to renegotiate such a licensing arrangement, then our financial results could be materially and adversely affected.

There is also a risk that other parties may have intellectual property rights covering some of our brands, products, or technology. If any third parties bring a claim of intellectual property infringement against us, we may be subject to costly and time-consuming litigation, diverting the attention of management and our employees. If we are unsuccessful in defending against such claims, we may be subject to significant damages, injunctions against development and sale of certain products, or we may be required to enter into costly licensing agreements, any of which could have an adverse impact on our business, financial condition, and results of operations.

ITEM 1B. UNRESOLVED STAFF COMMENTS

None.

ITEM 1C. CYBERSECURITY

Risk Management and Strategy

Assessing, Identifying and Managing Material Risks

Our cybersecurity program is focused on assessing, identifying, and managing risks arising out of our use of information technology including the risk of cybersecurity incidents and threats. Our program is informed by recognized frameworks (such as the U.S. Department of Commerce's National Institute of Standards and Technology Cybersecurity Framework) and leverages external and internal expertise, as appropriate. Our program is integrated into our operations and is widely communicated to employees through annual employee and contractor cybersecurity awareness training, regular awareness exercises, and employee outreach activities including cybersecurity tech talks, on-site digital signage, intranet resources, CEO cybersecurity champion recognition at quarterly town hall meetings, and other targeted communications. These awareness measures are coupled with ongoing implementation of technology aimed at reducing vulnerabilities (including external testing and validation) and to monitor and assess threats. Our program includes monitoring on an ongoing basis by automated tools that detect threats and trigger alerts for assessment, investigation, and remediation by our internal cybersecurity team.

Integration with Enterprise Risk Management

The cybersecurity program is an important part of the Company's enterprise risk management (ERM), with our Senior Vice President & Chief Information Officer serving on our ERM Committee and our Vice President of ERM serving as the strategic crisis management coordinator under our cybersecurity incident response plan. We have developed processes for managing cybersecurity incidents including clear allocation of responsibilities and defined incident classifications, escalation requirements based on materiality, and prioritization parameters. Our cybersecurity incident response plan is integrated into our ERM Committee risk mitigation action plan process, our Senior Leadership Team (SLT) strategic crisis management action plan process, and our Disclosure Committee protocol for cybersecurity incidents. We also maintain business continuity and disaster recovery plans to prepare for potential information technology disruptions.

Cybersecurity Program Components

Our cybersecurity program structure consists of our cybersecurity operations center; identity and access management; governance, risk, and compliance; architecture; and operational technology. Aspects of our program include:

- Activities to assess vulnerabilities including penetration testing, red teaming, tabletop exercises, and phishing and social engineering drills
- Engagement with law enforcement and U.S. government agencies, directly and through memberships in various cybersecurity intelligence and risk sharing organizations to help us stay informed about evolving threats
- Utilization of third-party experts to test, validate, and strengthen our plans, practices, and policies
- Technology team collaboration sessions to share information across different teams, geographic areas, and areas of responsibilities
- Assessing and managing cybersecurity risks arising out of the use of third-party technology and services, including pre-contract diligence, imposition of contractual obligations, and performance monitoring

Learnings from these activities are used to inform our training, guide our incident response preparedness and enhance our plans and processes. To further inform our cybersecurity program, we also participate in discussions with third-party service providers who have experienced cybersecurity incidents.

Investment in Cybersecurity Program

The cybersecurity threat landscape is dynamic and volatile, and requires significant investment on the part of the Company in several key areas including investing in our employees through talent recruitment, retention, training and development, investing in external resources including procuring and deploying the correct tools to monitor, evaluate, and address threats, investing employee resources to maintain effective processes, and investing in strategic relationships to monitor evolving risks including third-party service provider vulnerabilities. While our third-party service providers have experienced cybersecurity incidents and we have experienced threats to our data and systems, to date, we are not aware that we have experienced a breach that had a material impact on our operations or business, however, cybersecurity risks that may materially impact the Company are discussed in more detail in Item 1A of Part I, "Risk Factors," under the heading "Cybersecurity and Information Technology Risks," which should be read in conjunction with the foregoing information.

Governance

General

Our management is responsible for identifying, assessing, and managing our exposure to cybersecurity risk. Management identifies and assesses risks through its cross functional ERM committee that is responsible for:

- Facilitating risk conversations with cross-functional leaders and teams
- Partnering with risk owners to develop risk management action plans focused on mitigating the drivers of the enterprise risks
- Identifying key metrics to objectively assess the risk to the Company applying both a short-term and long-term perspective
- Informing our strategic planning based on risks assessments after consideration of action plans and residual risk
- Developing a risk-aware culture throughout the organization

Our Board of Directors and its Audit / Finance Committee play an active part in overseeing cybersecurity risks relevant to the Company. The Board and its Audit / Finance Committee routinely receive reports from our management and external advisors on critical risk areas.

Management

The Company maintains a dedicated internal cybersecurity team that is supported by internal and external software, third-party experts, and threat intelligence resources. Members of our cybersecurity team provide cybersecurity reports to our Board, senior leadership team (SLT), and cross-functional leaders and teams. The internal cybersecurity team is responsible for implementing our cybersecurity strategy including policies, standards, architecture, and processes including our processes for identifying cybersecurity risks and threats and recommending mitigating actions to strengthen cybersecurity resilience. In addition, our internal cybersecurity team is responsible for managing detection, mitigation, and remediation of all cybersecurity incidents.

Throughout fiscal 2026, Conagra's Cybersecurity Team was led by our Chief Information Security Officer (CISO). Our CISO, a certified information security professional, has more than 25 years of cybersecurity leadership experience across multiple industries and holds a Doctor of Science (DSc) degree in Cybersecurity. The CISO reports to our Chief Information Officer (CIO), who has been with Conagra for more than 20 years serving in various leadership roles in information technology, finance, and business services.We believe our CIO possesses a firm understanding of the Company's cybersecurity landscape, risks, and knowledge of the capabilities of our cybersecurity and information systems personnel.

Additionally, members of our internal cybersecurity team have experience in cybersecurity risk management, threat monitoring, threat emulation, penetration testing, cyber incident response management, and data protection. Team members have both individual responsibilities and a team focus, and manage both internal and third-party cybersecurity risk mitigation, covering areas such as network, endpoint device, and e-mail security as well as operations and threat management, monitoring, and response. Our CISO, CIO and CFO are responsible for determining that the Company has appropriate people, process and technology capabilities to identify, mitigate and report on cybersecurity risks to the SLT and Board of Directors.

Our cybersecurity incident response plan provides that our ERM, strategic crises management coordinator is informed about significant cybersecurity incidents for escalation to our internal Incident Disclosure Committee, SLT, and Board, as appropriate in accordance with our strategic crisis management action plan. Our cybersecurity incident response team is responsible for maintaining our cybersecurity incident response plan, which is periodically tested through our tabletop exercises. We have involved outside experts, our strategic crises management coordinator, members of our SLT, and members of our Incident Disclosure Committee in our tabletop exercises and preparedness drills to strengthen these response plans.

Additionally, our Corporate Cybersecurity Steering Committee, chaired by the CISO and whose members include our Senior Vice President, Corporate Controller (our principal accounting officer), as well as other members of the information technology, finance, supply chain, security and facilities, research and development, product, human resources, and legal teams, meets regularly to provide a forum for senior leaders and key stakeholders to strengthen their understanding and strategize on managing cybersecurity challenges at the Company.

Board of Directors and its Audit/Finance Committee

Our Board and its Audit/Finance Committee exercises oversight over our enterprise risk management including our cybersecurity program. The Audit/Finance Committee receives updates from our CIO or CISO at each of its regularly scheduled meetings regarding matters related to information technology and cybersecurity including the state of the Company's cybersecurity programs, emerging cybersecurity developments and threats, the Company's use of new technologies including AI, and the Company's strategy to mitigate cybersecurity risks. Additionally, our full Board receives reports on our cybersecurity program at least annually which includes a review of our cybersecurity incident response plans which are described above.

ITEM 2. PROPERTIES

Our headquarters are located in Chicago, Illinois. Other general offices, shared service centers, and product development facilities are located in Nebraska and the District of Columbia. We also lease a limited number of domestic sales offices. International general offices are located in Canada, Mexico, Panama, and the Philippines.

We maintain a number of stand-alone distribution facilities. In addition, there are warehouses at most of our manufacturing facilities.

Utilization of manufacturing capacity varies by manufacturing plant based upon the type of products assigned and the level of demand for those products. Management believes that our manufacturing and processing plants are well maintained and are generally adequate to support the current operations of the business.

As of July 15, 2026, we had 37 domestic manufacturing facilities located in Arkansas, California, Colorado, Illinois, Indiana, Iowa, Kentucky, Maryland, Michigan, Minnesota, Missouri, Nebraska, Nevada, Ohio, Tennessee, Washington, and Wisconsin. We also have international manufacturing facilities in Canada and Mexico, and an ownership interest in an additional international manufacturing facility in Mexico.

We own most of our manufacturing facilities. However, a limited number of plants and parcels of land, along with the related manufacturing equipment are leased. Substantially all of our transportation equipment and forward-positioned distribution centers containing finished goods are leased or operated by third parties.

The majority of our manufacturing assets are shared across multiple reporting segments. Output from these facilities used by each reporting segment can change over time. Therefore, it is impracticable to disclose them by segment.

ITEM 3. LEGAL PROCEEDINGS

For information on legal proceedings, please refer to Note 16 "*Contingencies,*" to the Consolidated Financial Statements contained in this report.

ITEM 4. MINE SAFETY DISCLOSURES

Not applicable.

PART II

ITEM 5. MARKET FOR REGISTRANT'S COMMON EQUITY, RELATED STOCKHOLDER MATTERS, AND ISSUER PURCHASES OF EQUITY SECURITIES

Our common stock is listed on the New York Stock Exchange, where it trades under the ticker symbol: CAG. At June 28, 2026, there were approximately 11,053 stockholders of record.

Purchases of Equity Securities by the Issuer and Affiliated Purchasers

No shares of common stock were purchased during the fourth quarter of fiscal 2026.

ITEM 6. [RESERVED]

ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion and analysis is intended to provide a summary of significant factors relevant to our financial performance and condition. The discussion and analysis should be read together with our consolidated financial statements and related notes in Item 8, Financial Statements and Supplementary Data. Results for the fiscal year ended May 31, 2026 are not necessarily indicative of results that may be attained in the future.

FORWARD-LOOKING STATEMENTS

The information contained in this report includes forward-looking statements within the meaning of the federal securities laws. Examples of forward-looking statements include statements regarding our expected future financial performance or position, results of operations, business strategy, plans and objectives of management for future operations, and other statements that are not historical facts. You can identify forward-looking statements by their use of forward-looking words, such as "may", "will", "anticipate", "expect", "believe", "estimate", "intend", "plan", "should", "seek", or comparable terms.

Readers of this report should understand that these forward-looking statements are not guarantees of performance or results. Forward-looking statements provide our current expectations and beliefs concerning future events and are subject to risks, uncertainties, and factors relating to our business and operations, all of which are difficult to predict and could cause our actual results to differ materially from the expectations expressed in or implied by such forward-looking statements. These risks, uncertainties, and factors include: risks associated with general economic and industry conditions, including inflation, oil, energy and fuel costs, reduced consumer confidence and spending, increased tariffs and taxes, actual or threatened hostilities or war and/or other geopolitical conflicts, declining benefits or changing eligibility requirements under government food assistance programs for consumers, rising unemployment, recessions, supply chain challenges, labor cost increases or shortages, interest rate and currency rate fluctuations; risks related to the availability and prices of commodities and other supply chain resources, including raw materials, packaging, energy, and transportation, weather conditions, pandemics, epidemics, and disease, in humans, plants, and animals; disruptions or inefficiencies in our supply chain and/or operations; risks related to the effectiveness of our hedging activities and ability to respond to volatility in commodities; risks related to the ultimate impact of, including reputational harm caused by, any product recalls and product liability or labeling litigation; risks related to our ability to execute operating and value creation plans and achieve returns on our investments and targeted operating efficiencies from cost-saving initiatives, and to benefit from trade optimization programs; risks related to our ability to deleverage on currently anticipated timelines, and to continue to access capital on acceptable terms or at all; risks related to the Company's competitive environment, cost structure, and related market conditions; risks related to our ability to respond to changing consumer preferences, including health and wellness perceptions and the success of our innovation and marketing investments; risks associated with actions by our customers, including changes in distribution and purchasing terms; risks related to the seasonality of our business; risks associated with our contract manufacturing arrangements and other third-party service provider dependencies; risks associated with actions of governments and regulatory bodies that affect our businesses, including regulations or interpretations designed to address climate change; risks related to the Company's ability to execute on its strategies or achieve expectations related to environmental, social, and governance matters, including as a result of evolving legal, regulatory, and other standards, processes, and assumptions, the pace of scientific and technological developments, increased costs, the availability of requisite financing, and changes in carbon pricing or carbon taxes; risks related to a material failure in or breach of our or our vendors' information technology systems and other cybersecurity incidents; risks related to our ability to identify, attract, hire, train, retain and develop qualified personnel; risk of increased pension, labor or people-related expenses; risks and uncertainties associated with intangible assets, including any future goodwill or intangible assets impairment charges; risks relating to our ability to protect our intellectual property rights; risks relating to acquisition,

divestiture, joint venture or investment activities; the amount and timing of future dividends, which remain subject to Board approval and depend on market and other conditions; the amount and timing of future stock repurchases; and other risks described in our reports filed from time to time with the U.S. Securities and Exchange Commission (the "SEC"). We caution readers not to place undue reliance on any forward-looking statements included in this report, which speak only as of the date of this report. We undertake no responsibility to update these statements, except as required by law.

The discussion that follows should be read together with the consolidated financial statements and related notes contained in this report. Results for fiscal 2026 are not necessarily indicative of results that may be attained in the future.

EXECUTIVE OVERVIEW

Conagra Brands, Inc. (the "Company", "Conagra Brands", "we", "us", or "our"), headquartered in Chicago, is one of North America's leading branded food companies. We combine a 100-year history of making quality food with agility and a relentless focus on collaboration and innovation. The company's portfolio is continuously evolving to satisfy consumers' ever-changing food preferences. Conagra's brands include *Birds Eye*®, *Duncan Hines*®, *Healthy Choice*®, *Marie Callender's*®, *Reddi-wip*®, *Slim Jim*®, *Angie's*® BOOMCHICKAPOP®, and many more.

Trends Impacting our Business

We continue to expect our industry to be impacted by weak consumer sentiment, inflation, commodity cost fluctuations, supply chain pressures, trade and regulatory uncertainty, and other global macroeconomic challenges. In fiscal 2026, these challenges resulted in input cost inflation, labor cost inflation, and higher oil, energy, and fuel costs. Additionally, in fiscal 2026, rapidly changing U.S. tariffs and reciprocal tariffs caused increased uncertainty as well as input cost inflation in key materials used in our products, including tin-plate steel used in packaging for our canned products, which we were able to partially offset with productivity initiatives and price increases on impacted products.

We will continue to evaluate the evolving macroeconomic environment to take action to mitigate the impact on our business, consolidated results of operations, and financial condition. While we will continue to seek to offset input cost inflation with productivity initiatives and tariff mitigation efforts, we anticipate that we may need to increase prices on certain products in fiscal 2027 to mitigate margin impacts and would expect corresponding elasticity impacts. Throughout fiscal 2027, continued consumer sensitivity to price increases may negatively impact our volumes while input cost inflation could negatively impact our earnings.

We expect consumer expectations to continue to evolve and we plan to continue our focus on innovation to meet consumers' changing preferences. With consumers prioritizing wellness and the increase in affordability and accessibility of weight loss drugs, we see consumers continuing to seek products that enhance their wellness and weight management goals, including portion-controlled, high protein, and high fiber meals and snacks, positioning our portfolio of products well for fiscal 2027.

Fiscal 2026 Results

Fiscal 2026 results compared to fiscal 2025 reflected lower net sales, inclusive of a 53rd week in fiscal 2026. On an organic basis, which excludes the impacts of foreign exchange, acquisitions, divestitures, and the 53rd week, increased net sales in our Foodservice segment were more than offset by declines in our Grocery & Snacks, Refrigerated & Frozen, and International segments. Gross profit decreased primarily due to lower net sales, input cost inflation, and unfavorable operating leverage, partially offset by productivity and the 53rd week.

Segment operating profit decreased across all segments. Selling, general and administrative ("SG&A") expenses decreased due to items impacting comparability, partially offset by higher incentive compensation expense in fiscal 2026. Compared to fiscal 2025, we recognized lower equity method investment earnings, lower interest expense, and higher income tax expense. Excluding items impacting comparability, our effective tax rate increased from fiscal 2025.

Diluted loss per share was $4.00 in fiscal 2026 compared to diluted earnings per share of $2.40 in fiscal 2025, reflecting lower net income in fiscal 2026.

See *"Items Impacting Comparability"* below for a discussion of significant items affecting the comparability of year-over-year results.

Items Impacting Comparability

Items of note impacting comparability of results for fiscal 2026 included the following:

- charges totaling $2.93 billion ($2.73 billion after-tax) related to the impairments of goodwill and certain brand intangible assets,
- an income tax benefit of $35.2 million and related equity method investment benefit of $0.3 million ($35.5 million after-tax) associated with certain elections made on an income tax return of a joint venture,
- a net gain of $42.2 million ($20.6 million after-tax loss) associated with the divestiture of our *Chef Boyardee*® and frozen fish businesses,
- charges totaling $45.7 million ($34.6 million after-tax) in connection with our restructuring plans,
- a net benefit of $37.4 million ($28.3 million after-tax) related to legacy legal matters,
- a net benefit of $22.5 million ($17.1 million after-tax) primarily related to our year-end remeasurement of certain hourly pension plan liabilities,
- income tax expense of $11.1 million related to a former divestiture,
- charges totaling $8.1 million ($8.1 million after-tax) related to the separation of our CEO,
- charges of $7.5 million ($5.7 million after-tax) related to restructuring activities of the Ardent Mills joint venture, and
- charges totaling $5.4 million ($4.1 million after-tax) related to environmental matters.

Items of note impacting comparability of results for fiscal 2025 included the following:

- income tax benefits of $253.5 million associated with the release of valuation allowances on certain deferred tax assets based primarily on interactions with the taxing authorities,
- charges totaling $101.7 million ($77.0 million after-tax) in connection with our restructuring plans,
- net charges totaling $88.7 million ($67.0 million after-tax) related to legacy legal matters,
- charges of $72.1 million ($55.4 million after-tax) related to the impairments of certain brand intangible assets,
- charges totaling $29.5 million ($24.4 million after-tax) primarily related to the impairment of a business held for sale,
- a gain of $17.0 million ($12.8 million after-tax) associated with insurance proceeds from the previous fire that occurred at one of our manufacturing facilities,
- a non-cash settlement gain of $13.0 million ($9.8 million after-tax) associated with a partial transfer of our U.S. defined benefit pension plan obligation to a third-party insurance provider through the purchase of an annuity contract, and
- charges of $7.2 million ($5.5 million after-tax) related to restructuring activities of the Ardent Mills joint venture.

Segment presentation of gains and losses from derivatives used for economic hedging of anticipated commodity input costs and economic hedging of foreign currency exchange rate risks of anticipated transactions are discussed in the segment review below.

SEGMENT REVIEW

We reflect our results of operations in four reporting segments: Grocery & Snacks, Refrigerated & Frozen, International, and Foodservice.

Grocery & Snacks

The Grocery & Snacks reporting segment principally includes branded, shelf-stable food products sold in various retail channels in the United States.

Refrigerated & Frozen

The Refrigerated & Frozen reporting segment principally includes branded, temperature-controlled food products sold in various retail channels in the United States.

International

The International reporting segment principally includes branded food products, in various temperature states, sold in various retail and foodservice channels outside of the United States.

Foodservice

The Foodservice reporting segment includes branded and customized food products, including meals, entrees, sauces, and a variety of custom-manufactured culinary products that are packaged for sale to restaurants and other foodservice establishments primarily in the United States.

Presentation of Derivative Gains (Losses) from Economic Hedges of Forecasted Cash Flows in Segment Results

Derivatives used to manage commodity price risk and foreign currency risk are not designated for hedge accounting treatment. We believe these derivatives provide economic hedges of certain forecasted transactions. As such, these derivatives are generally recognized at fair market value with realized and unrealized gains and losses recognized in general corporate expenses. The gains and losses are subsequently recognized in the operating results of the reporting segments in the period in which the underlying transaction being economically hedged is included in earnings. In the event that management determines a particular derivative entered into as an economic hedge of a forecasted commodity purchase has ceased to function as an economic hedge, we cease recognizing further gains and losses on such derivatives in corporate expense and begin recognizing such gains and losses within segment operating results, immediately. See Note 17, *"Derivative Financial Instruments"*, to the Consolidated Financial Statements contained in this report for further discussion.

Presentation of Information

Below is a detailed discussion and comparison of our results of operations for the fiscal years ended May 31, 2026 and May 25, 2025. For a discussion of changes from the fiscal year ended May 26, 2024 to the fiscal year ended May 25, 2025, refer to Part II, Item 7, *Management's Discussion and Analysis of Financial Condition and Results of Operations*, of our Annual Report on Form 10-K for the fiscal year ended May 25, 2025 (filed July 10, 2025).

Fiscal 2026 compared to Fiscal 2025

Net Sales

($ in millions)	Net Sales		
Reporting Segment	Fiscal 2026	Fiscal 2025	% Inc (Dec)
Grocery & Snacks	$ 4,610.1	$ 4,899.3	(5.9)%
Refrigerated & Frozen	4,641.8	4,662.3	(0.4)%
International	913.9	956.5	(4.4)%
Foodservice	1,115.8	1,094.7	1.9%
Total	$ 11,281.6	$ 11,612.8	(2.9)%

Net sales for fiscal 2026 in our Grocery & Snacks segment included a decrease in organic volumes of 2.4% and an increase in price/mix of 2.3% when compared to fiscal 2025, primarily due to inflation-driven pricing and corresponding elasticity impacts. The inclusion of an additional week of results in fiscal 2026 accounted for 1.8% of an increase in net sales when compared to fiscal 2025. Fiscal 2026 and 2025 included $7.0 million and $385.9 million, respectively, of net sales related to our *Chef Boyardee*® business, which was sold in the first quarter of fiscal 2026. Fiscal 2026 also included inorganic net sales of $10.6 million associated with the acquisitions of Sweetwood Smoke & Co. in August 2024 and a contract manufacturer in July 2024 through the respective one-year anniversary of each acquisition.

Net sales for fiscal 2026 in our Refrigerated & Frozen segment included a decrease in organic price/mix of 1.0% and an increase in organic volume of 0.3% compared to fiscal 2025. The inclusion of an additional week of results in fiscal 2026 accounted for 1.8% of an increase in net sales when compared to fiscal 2025. Fiscal 2026 and 2025 included $4.9 million and $76.8 million, respectively, of net sales related to our frozen fish business, which was sold in the first quarter of fiscal 2026. Additionally, we estimate that net sales during fiscal 2025 were impacted by approximately $24 million due to temporary manufacturing disruptions in our *Hebrew National*® business during the key grilling season.

Net sales for fiscal 2026 in our International segment reflected a 4.2% decrease in organic volume, a 3.2% increase due to favorable foreign exchange rates, and a 1.7% increase in organic price/mix, in each case compared to fiscal 2025. The favorable foreign exchange rates were primarily due to the strength of the US dollar relative to the Mexican Peso in comparison to the prior year. The inclusion of an additional week of results in fiscal 2026 accounted for 1.9% of an increase in net sales when compared to fiscal 2025. Fiscal 2026 and 2025 included $1.1 million and $43.1 million, respectively, of net sales related to our *Chef Boyardee*® business. In addition, fiscal 2025 included $23.6 million of net sales related to our ownership stake in Agro Tech Foods Limited ("ATFL"), which was sold in the first quarter of fiscal 2025.

Net sales for fiscal 2026 in our Foodservice segment included an increase in organic price/mix of 3.6% compared to fiscal 2025, primarily due to inflation justified pricing actions. Organic volume decreased by 2.2% compared to fiscal 2025, reflecting soft but generally stable trends in commercial traffic. The inclusion of an additional week of results in fiscal 2026 accounted for 2.0% of an increase in net sales when compared to fiscal 2025. Fiscal 2025 included $16.2 million of net sales related to our *Chef Boyardee*® and frozen fish businesses. Additionally, we estimate that net sales in our Foodservice segment during fiscal 2025 were impacted by approximately $3 million due to the temporary manufacturing disruptions in our *Hebrew National*® business.

SG&A Expenses (Includes general corporate expenses)

SG&A expenses totaled $1.44 billion for fiscal 2026, a decrease of $97.9 million compared to fiscal 2025. SG&A expenses for fiscal 2026 reflected the following:

Items impacting comparability of earnings

- net charges of $33.8 million in connection with our restructuring plans,
- a net benefit of $37.4 million related to legacy legal matters,
- charges totaling $8.1 million related to the separation of our CEO, and
- charges totaling $5.4 million related to environmental matters.

Other changes in expenses compared to fiscal 2025

- an increase in short-term incentive expense of $41.6 million primarily due to an increase in the estimated level of achievement of certain performance targets,
- an increase in advertising and promotion expense of $16.2 million,
- an increase in share-based payment expense of $13.4 million,
- a decrease in consulting and professional fees of $12.9 million,

- an increase in salary, wage, and fringe benefit expense of $12.0 million primarily due to the 53rd week in the current fiscal year,
- a decrease in amortization expense of $10.6 million,
- an increase in deferred compensation expense of $8.0 million primarily due to market volatility between periods, and
- an increase in information technology-related expenses of $7.4 million.

SG&A expenses for fiscal 2025 included the following items impacting the comparability of earnings:

- net charges of $91.1 million in connection with our restructuring plans and
- net charges totaling $88.7 million related to legacy legal matters.

Segment Operating Profit

($ in millions)	Segment Operating Profit[1]		
Reporting Segment	Fiscal 2026	Fiscal 2025	% Inc (Dec)
Grocery & Snacks	$ 885.0	$ 1,017.0	(13.0)%
Refrigerated & Frozen	485.6	651.7	(25.5)%
International	134.4	143.9	(6.7)%
Foodservice	114.3	131.0	(12.8)%

[1] Segment operating profit is defined as operating profit excluding the effect of items impacting comparability. See Note 20, *"Business Segments and Related Information"*, to the Consolidated Financial Statements contained in this report for further discussion.

Segment operating profit in our Grocery & Snacks segment for fiscal 2026 reflected a decrease in gross profit of $125.6 million compared to fiscal 2025. The decrease in gross profit was driven by the impacts of input cost inflation, unfavorable operating leverage, and a reduction in profit associated with the sale of our *Chef Boyardee*® business, partially offset by the inclusion of the 53rd week of our current fiscal year and productivity. In addition, we recognized a benefit of $11.3 million in fiscal 2025 related to insurance proceeds for lost sales from our fiscal 2023 brand recall on *Armour Star*®. Segment operating profit was also impacted by higher SG&A expenses compared to fiscal 2025.

Segment operating profit in our Refrigerated & Frozen segment for fiscal 2026 reflected a decrease in gross profit of $133.6 million compared to fiscal 2025. The decrease was driven by the impacts of lower organic net sales, input cost inflation, unfavorable operating leverage, and a reduction in profit associated with the sale of our frozen fish business, partially offset by the inclusion of the 53rd week of our current fiscal year and productivity. In addition, we estimate that gross profits during fiscal 2025 were negatively impacted by approximately $10 million, primarily due to lost profits, abnormal manufacturing variances, and certain inventory write-offs resulting from the temporary manufacturing disruptions in our *Hebrew National*® business. Segment operating profit was also impacted by higher SG&A expenses compared to fiscal 2025, which included an increase of $15.5 million in advertising and promotion expenses.

Segment operating profit in our International segment for fiscal 2026 reflected a decrease in gross profit of $11.5 million compared to fiscal 2025. The decrease was driven by the organic net sales decline discussed above, the impacts of input cost inflation, unfavorable operating leverage, and a reduction in profit associated with the sale of our ownership stake in ATFL, partially offset by the inclusion of the 53rd week of our current fiscal year, productivity, and favorable foreign exchange rates.

Segment operating profit in our Foodservice segment for fiscal 2026 reflected a decrease in gross profit of $11.5 million compared to fiscal 2025. The decrease in gross profits was driven by the impacts of input cost inflation, unfavorable operating leverage, and a reduction in profit from divested businesses, partially offset by the increase in organic net sales discussed above, the inclusion of the 53rd week of our current fiscal year, and productivity. Segment operating profit was also impacted by higher SG&A expenses compared to fiscal 2025.

Pension and Postretirement Non-service Income

In fiscal 2026, pension and postretirement non-service income was $45.9 million, an increase of $20.0 million compared to fiscal 2025. Fiscal 2026 reflected lower interest costs as a result of the partial transfer of our U.S. defined benefit pension plan obligation to a third-party insurance provider through the purchase of an annuity contract in the fourth quarter of fiscal 2025. Fiscal 2025 included a non-cash settlement gain of $13.0 million associated with the partial transfer. In addition, fiscal 2026 included a net benefit of $22.5 million primarily related to our year-end remeasurement of certain hourly pension plan liabilities.

Interest Expense, Net

In fiscal 2026, net interest expense was $382.6 million, a decrease of $34.1 million, or 8.2%, from fiscal 2025. The decrease was driven by an overall reduction of our debt balances. See Note 4, *"Long-Term Debt"*, to the Consolidated Financial Statements contained in this report for further discussion.

Equity Method Investment Earnings

We include our share of the earnings of certain affiliates based on our economic ownership interest in the affiliates. Our most significant affiliate is the Ardent Mills joint venture. Our share of earnings from our equity method investment earnings were $140.7 million and $182.4 million for fiscal 2026 and 2025, respectively. Ardent Mills earnings for fiscal 2026 reflected lower commodity trading revenue. Results for fiscal 2026 and 2025 included net charges of $9.6 million and $7.2 million, respectively, primarily related to Ardent Mills restructuring activities.

Income Taxes

Our income tax expense was $91.8 million and $3.7 million in fiscal 2026 and 2025, respectively. The effective tax rate (calculated as the ratio of income tax expense to pre-tax income (loss), inclusive of equity method investment earnings) was approximately (5.0)% and 0.3% for fiscal 2026 and 2025, respectively. See Note 14, *"Pre-Tax Income and Income Taxes"*, to the Consolidated Financial Statements contained in this report for a further discussion on the change in effective tax rates.

We expect our effective tax rate in fiscal 2027, exclusive of any unusual transactions or tax events, to be approximately 24%.

Earnings (Loss) Per Share

Diluted loss per share in fiscal 2026 was $4.00 and diluted earnings per share in fiscal 2025 were $2.40. The decrease in diluted earnings per share reflected lower net income. See *"Items Impacting Comparability"* above as several significant items affected the comparability of year-over-year results of operations.

LIQUIDITY AND CAPITAL RESOURCES

Sources of Liquidity and Capital

The primary objective of our financing strategy is to maintain a prudent capital structure that provides us flexibility to pursue our growth objectives. We use a combination of equity and short- and long-term debt. We use short-term debt principally to finance ongoing operations, including our seasonal requirements for working capital (accounts receivable, prepaid expenses and other current assets, and inventories, less accounts and other payables, accrued payroll, and other accrued liabilities). We strive to maintain solid investment grade credit ratings.

Management believes that existing cash balances, cash flows from operations, existing credit facilities, our commercial paper program, and access to capital markets will provide sufficient liquidity to meet our debt obligations, including any repayment of debt or refinancing of debt, working capital needs, planned capital expenditures, other contractual obligations, and payment of anticipated quarterly dividends for at least the next twelve months and the foreseeable future thereafter.

Borrowing Facilities and Long-Term Debt

At May 31, 2026, we had a revolving credit facility (the "Revolving Credit Facility") with a syndicate of financial institutions providing for a maximum aggregate principal amount outstanding at any one time of $2.0 billion (subject to increase to a maximum aggregate principal amount of $2.5 billion with the consent of the lenders). The Revolving Credit Facility terminated and replaced our

prior revolving credit facility in the first quarter of fiscal 2026. The Revolving Credit Facility matures on June 27, 2030 and is unsecured. The Company may request the term of the Revolving Credit Facility be extended for additional one-year or two-year periods from the then-applicable maturity date on an annual basis. We have historically used a credit facility principally as a back-up for our commercial paper program. As of May 31, 2026, there were no outstanding borrowings under the Revolving Credit Facility.

We had no outstanding borrowings under our commercial paper program as of May 31, 2026 and $259.0 million outstanding as of May 25, 2025. The highest level of borrowings during fiscal 2026 was $642.0 million.

During the first quarter of fiscal 2026, we issued $500.0 million aggregate principal amount of 5.00% senior unsecured notes due August 1, 2030 and $500.0 million aggregate principal amount of 5.75% senior unsecured notes due August 1, 2035 (collectively, the "Senior Unsecured Notes"). The net proceeds were partially used to repay the $300.0 million and $200.0 million aggregate principal amount outstanding under the unsecured term loan agreements dated April 29, 2024, as amended by a letter agreement dated April 29, 2025 (the "2024 Term Loan") and April 29, 2025 (the "2025 Term Loan"), respectively, as well as outstanding borrowings under our commercial paper program. The 2024 Term Loan and 2025 Term Loan repayments were also partially funded by the proceeds received in connection with the sale of our *Chef Boyardee*® business.

During the second quarter of fiscal 2026, we repaid the entire $1.0 billion aggregate principal amount of 4.60% senior unsecured notes on the maturity date of November 1, 2025, using remaining proceeds from the Senior Unsecured Notes, cash on hand, and the issuance of commercial paper.

See Note 4, *"Long-Term Debt"* and Note 5, *"Credit Facilities and Borrowings"*, to the Consolidated Financial Statements contained in this report for additional information on our debt transactions. The weighted-average coupon interest rate of the long-term debt obligations outstanding as of May 31, 2026, was approximately 5.0%.

We expect to maintain or have access to sufficient liquidity to retire or refinance long-term debt at maturity or otherwise, from operating cash flows, our commercial paper program, access to the capital markets, and our Revolving Credit Facility. We have $500.0 million aggregate principal amount of 5.3% senior unsecured notes and $262.5 million aggregate principal amount of 7.125% senior unsecured notes maturing in October 2026 that we expect to pay and/or refinance using available sources which may include the investment grade note market, bank loans, commercial paper, and cash on hand. We continuously evaluate opportunities to refinance our debt; however, any refinancing is subject to market conditions and other factors, including financing options that may be available to us from time to time, and there can be no assurance that we will be able to successfully refinance any debt on commercially acceptable terms at all.

As of the end of fiscal 2026, our senior long-term debt ratings were all investment grade. A significant downgrade in our credit ratings would not affect our ability to borrow amounts under the Revolving Credit Facility, although borrowing costs would increase. A downgrade of our short-term credit ratings would impact our ability to borrow under our commercial paper program by negatively impacting borrowing costs and causing shorter durations, as well as making access to commercial paper more difficult, or impossible.

Our most restrictive debt agreement (the Revolving Credit Facility) generally requires our ratio of earnings before interest, taxes, depreciation and amortization ("EBITDA") to interest expense not be less than 3.0 to 1.0 and our ratio of funded debt to EBITDA not to exceed 4.5 to 1.0. Each ratio is to be calculated on a rolling four-quarter basis. As of May 31, 2026, we were in compliance with all financial covenants.

Equity and Dividends

We repurchase shares of our common stock from time to time after considering market conditions and in accordance with repurchase limits authorized by our Board. Under our current share repurchase authorization, we may repurchase our shares periodically over several years, depending on market conditions and other factors, and may do so in open market purchases or privately negotiated transactions. The share repurchase authorization has no expiration date. During fiscal 2026, we repurchased 0.8 million shares of our common stock under this authorization for an aggregate of $15.0 million. The Company's total remaining share repurchase authorization as of May 31, 2026 was $837.6 million.

On March 31, 2026, we announced that our Board had authorized a quarterly dividend payment of $0.35 per share, which was paid on June 3, 2026, to stockholders of record as of the close of business on April 30, 2026. Subsequent to our fiscal year end, on July 15, 2026, we announced that our Board had authorized a quarterly dividend of $0.175 per share to be paid on September 2, 2026 to stockholders of record as of the close of business on July 30, 2026.

Contractual Obligations

As part of our ongoing operations, we enter into contractual arrangements that obligate us to make future cash payments. These obligations impact our liquidity and capital resource needs. In addition to principal and interest payments on our outstanding long-term debt and notes payable balances, discussed above, our contractual obligations primarily consist of lease payments, income taxes, pension and postretirement benefits, and unconditional purchase obligations.

A summary of our operating and finance lease obligations as of May 31, 2026 can be found in Note 15, *"Leases"*, to the Consolidated Financial Statements contained in this report.

The liability for gross unrecognized tax benefits related to uncertain tax positions was $20.3 million as of May 31, 2026. See Note 14, *"Pre-Tax Income and Income Taxes"*, to the Consolidated Financial Statements contained in this report for information related to income taxes.

As of May 31, 2026, we had an aggregate funded pension asset of $276.7 million and an aggregate unfunded postretirement benefit obligation totaling $44.3 million. We expect to make payments totaling approximately $10.3 million and $6.1 million in fiscal 2027 to fund our pension and postretirement plans, respectively. See Note 18, *"Pension and Postretirement Benefits"*, to the Consolidated Financial Statements and *"Critical Accounting Estimates – Employee-Related Benefits"* contained in this report for further discussion of our pension obligation and factors that could affect estimates of these obligations.

As of May 31, 2026, our unconditional purchase obligations (i.e., obligations to transfer funds in the future for fixed or minimum quantities of goods or services at fixed or minimum prices, such as "take-or-pay" contracts) totaled approximately $2.72 billion. Approximately $1.63 billion of this balance is due in fiscal 2027. Included in this amount are open purchase orders and other supply agreements totaling approximately $1.26 billion, which are generally settleable in the ordinary course of business in less than one year. Warehousing service agreements totaling approximately $826 million make up a majority of our remaining unconditional purchase obligations with various terms of up to 10 years.

We expect to have sufficient cash flows from the above cited sources to meet the material cash requirements of these contractual obligations as they become settleable in the ordinary course of business.

Capital Expenditures

We continue to make investments in our business and operating facilities. Our preliminary estimate of capital expenditures for fiscal 2027 is approximately $550 million.

Cash Flows

In fiscal 2026, we generated $150.0 million of cash, which was the net result of $1.40 billion generated from operating activities, $262.6 million generated from investing activities, $1.52 billion used in financing activities, and an increase of $1.4 million due to the effects of changes in foreign currency exchange rates.

Cash generated from operating activities totaled $1.40 billion in fiscal 2026, as compared to $1.69 billion generated in fiscal 2025. The decrease in operating cash flows for fiscal 2026 compared to fiscal 2025 was primarily driven by lower operating profits and the accelerated receipt of our outstanding receivables initiated in the second quarter of fiscal 2025, partially offset by favorable inventory management.

Cash generated in investing activities totaled $262.6 million in fiscal 2026 compared to $542.2 million cash used in fiscal 2025. Investing activities in fiscal 2026 consisted primarily of proceeds totaling $648.9 million from the sale of our *Chef Boyardee*® and frozen fish businesses, which were partially offset by capital expenditures totaling $423.4 million. Investing activities in fiscal 2025 consisted primarily of capital expenditures totaling $389.3 million and the purchases of an existing contract manufacturer and Sweetwood Smoke & Co. for a total of $230.6 million, net of cash acquired, which were partially offset by net proceeds totaling $76.8 million from the sale of our ownership stake in ATFL.

Cash used in financing activities totaled $1.52 billion in fiscal 2026 compared to $1.16 billion in fiscal 2025. Financing activities in fiscal 2026 principally reflected repayments of long-term debt of $1.03 billion, the issuance of long-term debt totaling $1.0 billion, net short-term borrowing repayments of $770.5 million, cash dividends paid of $669.7 million, and common stock repurchases

of $15.3 million. Financing activities in fiscal 2025 principally reflected repayments of long-term debt of $281.3 million, net short-term borrowing repayments of $125.6 million, cash dividends paid of $669.2 million, and common stock repurchases of $64.0 million.

Cash Held by International Subsidiaries

The Company had cash and cash equivalents of $218.0 million at May 31, 2026 and $68.0 million at May 25, 2025, of which $73.7 million at May 31, 2026 and $61.6 million at May 25, 2025 was held in foreign countries. A deferred tax liability is provided for certain undistributed foreign earnings that are not considered to be indefinitely reinvested or cannot be remitted in a tax-neutral transaction. Other undistributed foreign earnings are invested indefinitely and therefore we have not provided deferred taxes on those earnings.

CRITICAL ACCOUNTING ESTIMATES

The process of preparing financial statements requires the use of estimates on the part of management. The estimates used by management are based on our historical experiences combined with management's understanding of current facts and circumstances. Certain of our accounting estimates are considered critical as they are both important to the portrayal of our financial condition and results and require significant or complex judgment on the part of management. The following is a summary of certain accounting estimates considered critical by management.

Our Audit/Finance Committee has reviewed management's development, selection, and disclosure of the critical accounting estimates.

Marketing Costs—We offer various forms of advertising, trade promotions, and consumer incentives which are primarily recorded as a reduction in revenue. Advertising costs are expensed as incurred and recorded in SG&A expenses.

The methodologies for determining trade promotions and consumer incentives are dependent on local customer pricing practices, which range from contractually fixed percentage price reductions to provisions based on actual occurrence or performance. Our promotional activities are conducted either through the retail trade or directly with consumers and include activities such as in-store displays and events, feature price discounts, consumer coupons, and loyalty programs. The costs of these activities are recognized as a reduction of revenue at the time the related revenue is recorded, which normally precedes the actual cash expenditure. The recognition of these costs therefore requires management judgment regarding the volume of promotional offers that will be redeemed by either the retail trade or consumer. These estimates are made using various techniques including historical data on performance of similar promotional programs. Differences between estimated expense and actual redemptions are recognized as a change in management estimate in a subsequent period.

We have recognized trade promotion and advertising liabilities of $116.0 million as of May 31, 2026. Changes in the assumptions used in estimating the cost of any individual customer marketing program would not result in a material change in our results of operations or cash flows.

Income Taxes—Our income tax expense is based on our income, statutory tax rates, and tax planning opportunities available in the various jurisdictions in which we operate. Tax laws are complex and subject to different interpretations by the taxpayer and respective governmental taxing authorities. Significant judgment is required in determining our income tax expense and in evaluating our tax positions, including evaluating uncertainties. Management reviews tax positions at least quarterly and adjusts the balances as new information becomes available. Deferred income tax assets represent amounts available to reduce income taxes payable on taxable income in future years. Such assets arise because of temporary differences between the tax bases of assets and liabilities and their carrying amounts in our consolidated balance sheets, as well as from net operating loss and tax credit carryforwards. Management evaluates the recoverability of these future tax deductions by assessing the adequacy of future expected taxable income from all sources, including reversal of taxable temporary differences, forecasted operating earnings, and available tax planning strategies. These estimates of future taxable income inherently require significant judgment. Management uses historical experience and short and long-range business forecasts to develop such estimates. Further, we employ various prudent and feasible tax planning strategies to facilitate the recoverability of future deductions. To the extent management does not consider it more likely than not that a deferred tax asset will be recovered, a valuation allowance is established.

Further information on income taxes is provided in Note 14, *"Pre-tax Income and Income Taxes"*, to the Consolidated Financial Statements contained in this report.

Employee-Related Benefits—We incur certain employment-related expenses associated with our pension plans. In order to measure the annual expense associated with these pension benefits, management must make a variety of estimates including discount rates used to measure the present value of certain liabilities, assumed rates of return on assets set aside to fund these expenses, and anticipated mortality rates. The estimates used by management are based on our historical experience as well as current facts and circumstances. We use third-party specialists to assist management in appropriately measuring the expense associated with these pension benefits. Different estimates used by management could result in us recognizing different amounts of expense over different periods of time.

The Company uses a split discount rate (the "spot-rate approach") for the U.S. plans and certain foreign plans. The spot-rate approach applies separate discount rates for each projected benefit payment in the calculation of pension service and interest cost.

We have recognized a pension liability of $82.8 million and $89.8 million as of the end of fiscal 2026 and 2025, respectively. We also have recognized a pension asset of $359.5 million and $342.8 million as of the end of fiscal 2026 and 2025, respectively, as certain individual plans of the Company had a positive funded status.

We recognize cumulative changes in the fair value of pension plan assets and net actuarial gains or losses in excess of 10% of the greater of the fair value of plan assets or the plan's projected benefit obligation ("the corridor") in current period expense annually as of our measurement date, which is our fiscal year-end, or when measurement is required otherwise under accounting principles generally accepted in the United States of America.

We recognized a pension benefit from Company plans of $37.4 million, $19.6 million, and $0.6 million in fiscal 2026, 2025, and 2024, respectively. Such amounts reflect the year-end write-off of actuarial losses (gains) in excess of 10% of our pension liability of $(25.2) million, $(3.5) million, and $(12.5) million in fiscal 2026, 2025, and 2024, respectively. This also reflected expected returns on plan assets of $109.6 million, $146.3 million, and $141.3 million in fiscal 2026, 2025, and 2024, respectively. We contributed $11.4 million, $11.9 million, and $12.2 million to our pension plans in fiscal 2026, 2025, and 2024, respectively. We anticipate contributing approximately $10.3 million to our pension plans in fiscal 2027.

One significant assumption for pension plan accounting is the discount rate. We use a spot-rate approach, discussed above. This approach focuses on measuring the service cost and interest cost components of net periodic benefit cost by using individual spot rates derived from a high-quality corporate bond yield curve and matched with separate cash flows for each future year instead of a single weighted-average discount rate approach.

Based on this information, the weighted-average discount rate selected by us for determination of the interest cost component of our pension expense was 5.41% for fiscal 2026, 5.51% for fiscal 2025, and 5.41% for fiscal 2024. The weighted-average discount rate selected by us for determination of the service cost component of our pension expense was 6.17% for fiscal 2026, 5.72% for fiscal 2025, and 5.60% for fiscal 2024. We selected a weighted-average discount rate of 5.93% and 5.20% for determination of service and interest expense, respectively, for fiscal 2027. A 50-basis point increase in our discount rate assumption as of the end of fiscal 2026 would increase our annual pension expense for our pension plans by $3.3 million. A 50-basis point decrease in our discount rate assumption as of the end of fiscal 2026 would decrease our annual pension expense for our pension plans by $3.7 million. For our year-end pension obligation determination, we selected discount rates of 5.65% and 5.91% for fiscal years 2026 and 2025, respectively.

Another significant assumption used to account for our pension plans is the expected long-term rate of return on plan assets. In developing the assumed long-term rate of return on plan assets for determining pension expense, we consider long-term historical returns (arithmetic average) of the plan's investments, the asset allocation among types of investments, estimated long-term returns by investment type from external sources, and the current economic environment. Based on this information, we selected a weighted-average expected long-term rate of return on plan assets of 5.89% and 5.71% for determining our fiscal 2026 and 2027 pension expense, respectively. A 50-basis point increase/decrease in our expected long-term rate of return assumption as of the beginning of fiscal 2027 would decrease/increase annual pension expense for our pension plans by $9.3 million.

Business Combinations, Impairment of Long-Lived Assets (including property, plant and equipment), Identifiable Intangible Assets, and Goodwill—We use the acquisition method in accounting for acquired businesses. Under the acquisition method, our financial statements reflect the operations of an acquired business starting from the closing of the acquisition. The assets acquired and liabilities assumed are recorded at their respective estimated fair values at the date of the acquisition. Any excess of the purchase price over the estimated fair values of the identifiable net assets acquired is recorded as goodwill. Significant judgment is often required in estimating the fair value of assets acquired, particularly intangible assets. As a result, in the case of significant acquisitions we normally obtain the assistance of a third-party valuation specialist in estimating fair values of tangible and intangible assets. The fair value estimates are based on available historical information and on expectations and assumptions about the future, considering the

perspective of marketplace participants. While management believes those expectations and assumptions are reasonable, they are inherently uncertain. Unanticipated market or macroeconomic events and circumstances may occur, which could affect the accuracy or validity of the estimates and assumptions.

We reduce the carrying amounts of long-lived assets to their fair values when their carrying amount is determined to not be recoverable. We generally compare undiscounted estimated future cash flows of an asset or asset group to the carrying values of the asset or asset group for property, plant and equipment. If the undiscounted estimated future cash flows exceed the carrying values of the asset or asset group, no impairment is recognized. If the undiscounted estimated future cash flows are less than the carrying values of the asset or asset group, we write-down the asset or assets to their estimated fair values. The estimates of fair value are generally in the form of appraisal, or by discounting estimated future cash flows of the asset or asset group.

Determining the useful lives of intangible assets also requires management judgment. Certain brand intangibles are expected to have indefinite lives based on their history and our plans to continue to support and build the acquired brands, while other acquired intangible assets (e.g., customer relationships) are expected to have determinable useful lives. Our estimates of the useful lives of definite-lived intangible assets are primarily based upon historical experience, the competitive and macroeconomic environment, and our operating plans. The costs of definite-lived intangibles are amortized to expense over their estimated life.

We reduce the carrying amounts of indefinite-lived intangible assets, and goodwill to their fair values when the fair value of such assets is determined to be less than their carrying amounts (i.e., assets are deemed to be impaired). Fair value is estimated using a "relief from royalty" methodology for our indefinite-lived intangible assets and is typically estimated using a discounted cash flow method for our goodwill, which requires us to estimate the future cash flows anticipated to be generated by the particular reporting unit being tested for impairment as well as to select a discount rate to measure the present value of the anticipated cash flows. In certain circumstances, we also utilize a guideline public company method which is based on market multiples and our estimated EBITDA that considers public companies that are comparable to our reporting units. When determining future cash flow estimates under the guideline public company method or discounted cash flow method, we consider historical results adjusted to reflect current and anticipated operating conditions. Estimating future cash flows requires significant judgment by management in such areas as future economic conditions, industry-specific conditions, product pricing, and necessary capital expenditures. The use of different assumptions or estimates for selected EBITDA multiples and future cash flows could produce different impairment amounts (or none at all) for goodwill and indefinite-lived intangible assets. For further information on our indefinite-lived intangible assets and goodwill, see Note 1, "*Summary of Significant Accounting Policies*", to the Consolidated Financial Statements contained in this report.

As of May 31, 2026, we have goodwill of $8.12 billion, indefinite-lived intangibles of $1.25 billion and definite-lived intangibles of $577.4 million. Historically, we have experienced material impairments in brand intangibles and goodwill as a result of declining sales, reductions to our assumed royalty rates due to lower-than-expected profit margins, and other economic conditions such as increases to interest rates. In fiscal 2026, we recorded goodwill impairments of $2.38 billion in our Refrigerated & Frozen reporting unit. The remaining carrying value in our Refrigerated & Frozen reporting unit was approximately $4.7 billion as of May 31, 2026. This was the only reporting unit with 10% or less excess fair value over carrying value as of that date. For our Refrigerated & Frozen reporting unit, we selected a discount rate of 11.0% and a long-term growth rate of 1.5%

In fiscal 2026, 2025, and 2024, we recorded total indefinite-lived intangibles impairments of $547.2 million, $72.1 million, and $430.2 million, respectively, primarily related to brands acquired as part of the Pinnacle acquisition that were recorded at fair value in fiscal 2019. We continue to be susceptible to impairment charges in the future if our long-term sales forecasts, royalty rates, and other assumptions change as a result of lower than expected performance or other economic conditions. We will monitor these assumptions as management continues to achieve gross margin improvement and long-term sales growth. Discount rates, long-term growth rates, and royalty rates used to estimate the fair value of our domestic retail brands with 10% or less excess fair value over carrying amount as of the fiscal 2026 annual impairment test were as follows:

		Discount Rate		Long-Term Growth Rate		Royalty Rate	
	Carrying Amount (in millions)	Minimum	Maximum	Minimum	Maximum	Minimum	Maximum
Brands (<10% cushion)	$ 902.1	11.50%	13.50%	0.0%	2.0%	1.0%	11.0%

Assumptions used in impairment testing are made at a point in time and require significant judgment; therefore, they are subject to change based upon the facts and circumstances present at each annual impairment test date. Additionally, these assumptions are generally interdependent and do not change in isolation. However, as it is reasonably possible that changes in assumptions could occur, as a sensitivity measure, we have presented the estimated effects of isolated changes in discount rates, long-term growth rates, and royalty rates on the fair value of our reporting unit and brands with 10% or less excess fair value over carrying amount. These estimated

changes in fair value are not necessarily representative of the actual impairment that would be recorded in the event of a fair value decline.

If we had changed the assumptions used to estimate the fair value of our reporting unit and brands with 10% or less excess fair value over carrying amount as of the fiscal 2026 annual impairment test, these isolated changes, which are reasonably possible to occur, would have led to the following increase/(decrease) in the aggregate fair value of this reporting unit and certain brands (in millions):

	Discount Rate 50-Basis-Point		Long-Term Growth Rate 25-Basis-Point		Royalty Rate 100-Basis-Point	
	Increase	Decrease	Increase	Decrease	Increase	Decrease
Reporting unit	$ (120.0)	$ 133.4	$ 45.0	$ (42.7)	N/A	N/A
Brands (<10% cushion)	(40.4)	44.4	14.0	(10.7)	226.9	(215.8)

RECENTLY ISSUED ACCOUNTING PRONOUNCEMENTS

In November 2024, the FASB issued ASU 2024-03, *Disaggregation of Income Statement Expenses*, to provide disaggregated disclosures of specific expense categories underlying certain income statement expense line items on an annual and interim basis. The disclosure requirements will be applied on a prospective basis, with the option to apply it retrospectively. The effective date for the standard is for fiscal years beginning after December 15, 2026 and interim periods within fiscal years beginning after December 15, 2027. Early adoption is permitted. We are in the process of analyzing the impact of the ASU on our related disclosures.

In September 2025, the FASB issued ASU 2025-06, *Intangibles – Goodwill and Other – Internal-Use Software*, to modernize the outdated guidance for accounting for software costs by aligning the accounting with how software is developed today. The effective date for the standard is for fiscal years beginning after December 15, 2027 and interim periods within those fiscal years. Early adoption is permitted. The amendments in this ASU should be applied either prospectively, retrospectively, or utilizing a modified transition approach. We are in the process of analyzing the impact of the ASU on our consolidated financial statements and related disclosures.

In November 2025, the FASB issued ASU 2025-09, *Derivatives and Hedging (Topic 815)*, to more closely align financial reporting with the economics of an entity's risk management activities. The effective date for this standard is for fiscal years beginning after December 15, 2026 and interim periods within those fiscal years. Early adoption is permitted. The amendments in this ASU should be applied prospectively with an option to adopt the amendments for hedging relationships existing as of the date of adoption. We are in the process of analyzing the impact of the ASU on our consolidated financial statements and related disclosures.

In May 2026, the FASB issued ASU 2026-02, *Environmental Credits and Environmental Credit Obligations (Topic 818)*, to improve the financial accounting for and disclosure of environmental credits and environmental credit obligations. The effective date for this standard is for fiscal years beginning after December 15, 2027, and interim periods within those fiscal years. Early adoption is permitted. We are in the process of analyzing the impact of the ASU on our consolidated financial statements and related disclosures.

ITEM 7A. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

The principal market risks affecting us during fiscal 2026 and 2025 were exposures to price fluctuations of commodity and energy inputs, interest rates, and foreign currencies.

Commodity Market Risk

We purchase commodity inputs such as wheat, corn, vegetable oils, pork, dairy products, and energy to be used in our operations. These commodities are subject to price fluctuations that may create price risk. We enter into commodity hedges to manage this price risk using physical forward contracts or derivative instruments. We have policies governing the hedging instruments our businesses may use. These policies include limiting the dollar risk exposure for each of our businesses. We also monitor the amount of associated counter-party credit risk for all non-exchange-traded transactions.

Interest Rate Risk

We may use interest rate swaps to manage the effect of interest rate changes on the fair value of our existing debt as well as the forecasted interest payments for the anticipated issuance of debt.

As of May 31, 2026 and May 25, 2025, the fair value of our long-term debt (including current installments) was estimated at $7.05 billion and $7.03 billion, respectively, based on current market rates. As of May 31, 2026 and May 25, 2025, a 1% increase in interest rates would decrease the fair value of our fixed rate debt by approximately $314.8 million and $302.8 million, respectively, while a 1% decrease in interest rates would increase the fair value of our fixed rate debt by approximately $351.5 million and $339.3 million, respectively.

Foreign Currency Risk

In order to reduce exposures for our processing activities related to changes in foreign currency exchange rates, we may enter into forward exchange or option contracts for transactions denominated in a currency other than the functional currency for certain of our operations. This activity primarily relates to economically hedging against foreign currency risk in purchasing inventory and capital equipment, sales of finished goods, and future settlement of foreign denominated assets and liabilities.

Effect of Hypothetical 10% Fluctuation

The potential gain or loss on the fair value of our outstanding commodity and foreign exchange contracts, assuming a hypothetical 10% fluctuation in commodity prices and foreign currency exchange rates, would have been (in millions):

	Fair Value Impact	
In Millions	Average During the Fiscal Year Ended May 31, 2026	Average During the Fiscal Year Ended May 25, 2025
Energy commodities	$ 3.8	$ 5.7
Agriculture commodities	5.1	8.4
Foreign exchange	9.5	9.6

It should be noted that any change in the fair value of our derivative contracts, real or hypothetical, would be significantly offset by an inverse change in the value of the underlying hedged items. In relation to foreign currency contracts, this hypothetical calculation assumes that each exchange rate would change in the same direction relative to the U.S. dollar.

The accompanying Notes are an integral part of the consolidated financial statements.

Notes to Consolidated Financial Statements
Fiscal Years Ended May 31, 2026, May 25, 2025, and May 26, 2024
(columnar dollars in millions except per share amounts)

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Fiscal Year — The fiscal year of Conagra Brands, Inc. ("Conagra Brands", "Company", "we", "us", or "our") ends the last Sunday in May. The fiscal years for the consolidated financial statements presented consist of a 53-week period for fiscal 2026 and 52-week periods for fiscal 2025 and 2024.

Basis of Consolidation — The consolidated financial statements include the accounts of Conagra Brands, Inc. and all majority-owned subsidiaries. All significant intercompany investments, accounts, and transactions have been eliminated.

Investments in Unconsolidated Affiliates — The investments in, and the operating results of, 50%-or-less-owned entities not required to be consolidated are included in the consolidated financial statements on the basis of the equity method of accounting.

We review our investments in unconsolidated affiliates for impairment whenever events or changes in business circumstances indicate that the carrying amount of the investments may not be fully recoverable. Evidence of a loss in value that is other than temporary includes the absence of an ability to recover the carrying amount of the investment, the inability of the investee to sustain an earnings capacity that would justify the carrying amount of the investment, or, where applicable, estimated sales proceeds which are insufficient to recover the carrying amount of the investment. Management's assessment as to whether any decline in value is other than temporary is based on our ability and intent to hold the investment and whether evidence indicating the carrying value of the investment is recoverable within a reasonable period of time outweighs evidence to the contrary. Management generally considers our investments in equity method investees to be strategic long-term investments. Therefore, management completes its assessments with a long-term viewpoint. If the fair value of the investment is determined to be less than the carrying value and the decline in value is considered to be other than temporary, an appropriate write-down is recorded based on the excess of the carrying value over the best estimate of fair value of the investment.

Cash and Cash Equivalents — Cash and all highly liquid investments with an original maturity of three months or less at the date of acquisition, including short-term time deposits and government agency and corporate obligations, are classified as cash and cash equivalents.

Receivables — Receivables from customers generally do not bear interest. Terms and collection vary by location and channel. The allowance for doubtful accounts represents our estimate of probable non-payments and credit losses in our existing receivables, as determined based on a review of past due balances and other specific account data. Account balances are written off against the allowance when we deem them uncollectible.

The following table details the balances of our allowance for doubtful accounts and changes therein:

	Balance at Beginning of Period	Additions Charged to Costs and Expenses	Other[1]	Deductions from Reserves[2]	Balance at Close of Period
Year ended May 31, 2026	$ 3.6	0.4	—	0.1	$ 3.9
Year ended May 25, 2025	$ 3.0	1.6	—	1.0	$ 3.6
Year ended May 26, 2024	$ 2.7	0.6	0.2	0.5	$ 3.0

[1] Primarily relates to translation.
[2] Bad debts charged off and adjustments to previous reserves, less recoveries.

Inventories — We use the lower of cost (determined using an average costing method) or net realizable value for valuing inventories.

Notes to Consolidated Financial Statements
Fiscal Years Ended May 31, 2026, May 25, 2025, and May 26, 2024
(columnar dollars in millions except per share amounts)

Property, Plant and Equipment — Property, plant and equipment are carried at cost. Depreciation has been calculated using the straight-line method over the estimated useful lives of the respective classes of assets as follows:

	Years
Land improvements	1 - 40
Buildings	15 - 40
Machinery and equipment	3 - 20
Furniture, fixtures, office equipment and other	5 - 15

We review property, plant and equipment for impairment whenever events or changes in business circumstances indicate that the carrying amount of the assets may not be fully recoverable. Recoverability of an asset considered "held-and-used" is determined by comparing the carrying amount of the asset to the undiscounted net cash flows expected to be generated from the use of the asset. If the carrying amount is greater than the undiscounted net cash flows expected to be generated by the asset, the asset's carrying amount is reduced to its estimated fair value. An asset considered "held-for-sale" is reported at the lower of the asset's carrying amount or fair value.

During fiscal 2026, 2025, and 2024, our capital expenditures totaled $423.4 million, $389.3 million, and $388.1 million, respectively. Accrued and unpaid capital expenditures as of May 31, 2026, May 25, 2025, May 26, 2024, and May 28, 2023 totaled $113.2 million, $134.0 million, $119.3 million, and $128.3 million, respectively.

Total depreciation expense for fiscal 2026, 2025, and 2024 was $352.9 million, $336.5 million, and $347.3 million, respectively.

Goodwill and Other Identifiable Intangible Assets — Goodwill and other identifiable intangible assets with indefinite lives (e.g., brands or trademarks) are not amortized and are tested annually for impairment of value and whenever events or changes in circumstances indicate the carrying amount of the asset may be impaired. A significant amount of judgment is involved in determining if an indicator of impairment has occurred. Such indicators may include deterioration in general economic conditions, adverse changes in the markets in which an entity operates, increases in input costs that have negative effects on earnings and cash flows, or a trend of negative or declining cash flows over multiple periods. The fair value that could be realized in an actual transaction may differ from that used to evaluate the impairment of goodwill and other intangible assets.

In testing goodwill for impairment, we have the option to first assess qualitative factors to determine whether the existence of events or circumstances leads to a determination that it is more likely than not (more than 50%) that the estimated fair value of a reporting unit is less than its carrying amount. If we elect to perform a qualitative assessment and determine that an impairment is more likely than not, we are then required to perform a quantitative impairment test, otherwise no further analysis is required. We also may elect not to perform the qualitative assessment and, instead, proceed directly to the quantitative impairment test.

Under the goodwill qualitative assessment, various events and circumstances that would affect the estimated fair value of a reporting unit are identified (similar to impairment indicators above). Furthermore, management considers the results of the most recent quantitative impairment test completed for a reporting unit and compares the weighted average cost of capital between the current and prior years for each reporting unit.

Under the goodwill quantitative impairment test, the evaluation of impairment involves comparing the current fair value of each reporting unit to its carrying value, including goodwill. We estimate the fair value using level 3 inputs as defined by the fair value hierarchy. Refer to Note 19 for the definition of the levels in the fair value hierarchy. The inputs used to calculate the fair value include a number of subjective factors, such as estimates of future cash flows, estimates of our future cost structure, discount rates for our estimated cash flows, required level of working capital, assumed terminal value, and time horizon of cash flow forecasts. In certain circumstances, we also utilize a guideline public company method which is based on market multiples and our estimated earnings before interest, taxes, depreciation and amortization ("EBITDA") that considers public companies that are comparable to our reporting units.

In assessing indefinite-lived intangible assets not subject to amortization for impairment, we have the option to perform a qualitative assessment to determine whether the existence of events or circumstances leads to a determination that it is more likely than not that the fair value of such an intangible asset is less than its carrying amount. If we determine that it is not more likely than not that

the fair value of such an intangible asset is less than its carrying amount, then we are not required to perform any additional tests for assessing intangible assets for impairment. However, if we conclude otherwise or elect not to perform the qualitative assessment, then we are required to perform a quantitative impairment test that involves a comparison of the estimated fair value of the intangible asset with its carrying value. If the carrying value of the intangible asset exceeds its fair value, an impairment loss is recognized in an amount equal to that excess.

In fiscal 2026, 2025, and 2024 we elected to perform a quantitative impairment test for indefinite-lived intangible assets not subject to amortization. The estimates of fair value of intangible assets not subject to amortization are determined using a "relief from royalty" methodology, which is used in estimating the fair value of our brands/trademarks. Discount rate assumptions are based on an assessment of the risk inherent in the projected future cash flows generated by the respective intangible assets. Also subject to judgment are assumptions about royalty rates.

Identifiable intangible assets with definite lives (e.g., licensing arrangements with contractual lives or customer relationships) are amortized over their estimated useful lives and tested for impairment whenever events or changes in circumstances indicate the carrying amount of the asset may be impaired. Identifiable intangible assets with definite lives are evaluated for impairment using a process similar to that used in evaluating elements of property, plant and equipment. If impaired, the asset is written down to its fair value.

Refer to Note 9 for discussion of the impairment charges related to goodwill and intangible assets in fiscal 2026, 2025, and 2024.

Fair Values of Financial Instruments — Unless otherwise specified, we believe the carrying value of financial instruments approximates their fair value.

Environmental Liabilities — Environmental liabilities are accrued when it is probable that obligations have been incurred and the associated amounts can be reasonably estimated. We use third-party specialists to assist management in appropriately measuring the obligations associated with environmental liabilities. Such liabilities are adjusted as new information develops or circumstances change. We do not discount our environmental liabilities as the timing of the anticipated cash payments is not fixed or readily determinable. Management's estimate of our potential liability is independent of any potential recovery of insurance proceeds or indemnification arrangements. We do not reduce our environmental liabilities for potential insurance recoveries.

Employment-Related Benefits — Employment-related benefits associated with pensions, postretirement health care benefits, and workers' compensation are expensed as such obligations are incurred. The recognition of expense is impacted by estimates made by management, such as discount rates used to value these liabilities, future health care costs, and employee accidents incurred but not yet reported. We use third-party specialists to assist management in appropriately measuring the obligations associated with employment-related benefits.

We recognize changes in the fair value of pension plan assets and net actuarial gains or losses in excess of 10% of the greater of the market-related value of plan assets or the plan's projected benefit obligation (the "corridor") in current period expense annually as of our measurement date, which is our fiscal year-end, or when measurement is required otherwise under accounting principles generally accepted in the United States of America ("U.S. GAAP").

Revenue Recognition — Our revenues primarily consist of the sale of food products that are sold to retailers and foodservice customers through direct sales forces, broker, and distributor arrangements. These revenue contracts generally have single performance obligations. Revenue, which includes shipping and handling charges billed to the customer, is reported net of variable consideration and consideration payable to our customers, including applicable discounts, returns, allowances, trade promotion, consumer coupon redemption, unsaleable product, and other costs. Amounts billed and due from our customers are classified as receivables and require payment on a short-term basis and, therefore, we do not have any significant financing components.

We recognize revenue when (or as) performance obligations are satisfied by transferring control of the goods to customers. Control is transferred upon delivery of the goods to the customer. Shipping and/or handling costs that occur before the customer obtains control of the goods are deemed to be fulfillment activities and are accounted for as fulfillment costs. We assess the goods and services

Notes to Consolidated Financial Statements
Fiscal Years Ended May 31, 2026, May 25, 2025, and May 26, 2024
(columnar dollars in millions except per share amounts)

promised in our customers' purchase orders and identify a performance obligation for each promise to transfer a good or service (or bundle of goods or services) that is distinct.

We offer various forms of trade promotions and the methodologies for determining these provisions are dependent on local customer pricing and promotional practices, which range from contractually fixed percentage price reductions to provisions based on actual occurrence or performance. Our promotional activities are conducted either through the retail trade or directly with consumers and include activities such as in-store displays and events, feature price discounts, consumer coupons, and loyalty programs. The costs of these activities are recognized at the time the related revenue is recorded, which normally precedes the actual cash expenditure. The recognition of these costs therefore requires management judgment regarding the volume of promotional offers that will be redeemed by either the retail trade or consumer. These estimates are made using various techniques including historical data on performance of similar promotional programs. Differences between estimated expense and actual redemptions are recognized as a change in management estimate in a subsequent period.

Advertising Costs — Advertising costs are expensed as incurred. Advertising and promotion expenses totaled $279.4 million, $263.2 million, and $289.6 million in fiscal 2026, 2025, and 2024, respectively, and are included in selling, general and administrative ("SG&A") expenses.

Research and Development — We incurred expenses of $62.7 million, $60.8 million, and $61.4 million for research and development activities in fiscal 2026, 2025, and 2024, respectively.

Comprehensive Income — Comprehensive income includes net income, currency translation adjustments, certain derivative-related activity, and changes in prior service cost and net actuarial gains (losses) from pension (for amounts not in excess of the 10% "corridor") and postretirement health care plans. On foreign investments we deem to be essentially permanent in nature, we do not provide for taxes on currency translation adjustments arising from converting an investment denominated in a foreign currency to U.S. dollars. A deferred tax liability is recorded on currency translation adjustments related to undistributed foreign earnings that are not deemed to be permanently reinvested.

The following table details the accumulated balances for each component of other comprehensive income, net of tax:

	2026	2025
Currency translation losses, net of reclassification adjustments	$ (50.3)	$ (65.8)
Derivative adjustments, net of reclassification adjustments	19.8	22.0
Pension and postretirement benefit obligations, net of reclassification adjustments	37.9	60.1
Accumulated other comprehensive income	$ 7.4	$ 16.3

Notes to Consolidated Financial Statements
Fiscal Years Ended May 31, 2026, May 25, 2025, and May 26, 2024
(columnar dollars in millions except per share amounts)

The following table summarizes the reclassifications from accumulated other comprehensive income into income (loss):

	2026	2025	2024	Affected Line Item in the Consolidated Statement of Operations[1]
Net derivative adjustments:				
Cash flow hedges	$ (2.3)	$ (2.7)	$ (3.5)	Interest expense, net
Cash flow hedges	(2.5)	(4.1)	(4.7)	Equity method investment earnings
	(4.8)	(6.8)	(8.2)	Total before tax
	1.2	1.7	2.0	Income tax expense
	$ (3.6)	$ (5.1)	$ (6.2)	Net of tax
Pension and postretirement benefit obligations:				
Net prior service benefit	$ (0.2)	$ (0.1)	$ (0.1)	Pension and postretirement non-service income
Net actuarial gain	(3.4)	(5.1)	(4.7)	Pension and postretirement non-service income
Pension settlement	2.7	(13.0)	1.1	Pension and postretirement non-service income
	(0.9)	(18.2)	(3.7)	Total before tax
	0.3	4.4	0.9	Income tax expense
	$ (0.6)	$ (13.8)	$ (2.8)	Net of tax
Currency translation losses	$ —	$ 41.8	$ —	Selling, general and administrative expenses [2]
	—	41.8	—	Total before tax
	—	—	—	Income tax expense
	$ —	$ 41.8	$ —	Net of tax

[1] Amounts in parentheses indicate income recognized in the Consolidated Statements of Operations.
[2] Amount represents the reclassification for currency translation losses in connection with the sale of ATFL (see Note 7).

Foreign Currency Transaction Gains and Losses — We recognized net foreign currency transaction gains of $2.1 million and $1.3 million in fiscal 2026 and 2024, respectively, and net foreign currency transaction losses of $2.6 million in fiscal 2025 in SG&A expenses.

Business Combinations — We use the acquisition method in accounting for acquired businesses. Under the acquisition method, our financial statements reflect the operations of an acquired business starting from the completion of the acquisition. The assets acquired and liabilities assumed are recorded at their respective estimated fair values at the date of the acquisition. Any excess of the purchase price over the estimated fair values of the identifiable net assets acquired is recorded as goodwill.

Reclassifications and other changes — Certain prior year amounts have been reclassified to conform with current year presentation.

Use of Estimates — Preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions. These estimates and assumptions affect reported amounts of assets, liabilities, revenues, and expenses as reflected in the consolidated financial statements. Actual results could differ from these estimates.

New Accounting Standards — In December 2023, the FASB issued ASU 2023-09, *Improvements to Income Tax Disclosures*, to provide more detailed income tax disclosure requirements. The guidance requires entities to disclose disaggregated information about their effective tax rate reconciliation as well as information on income taxes paid. We adopted this ASU in the fourth quarter of fiscal 2026 and added certain disclosures to Note 14, *Pre-tax Income and Income Taxes*. The disclosures were applied retrospectively and impacted all prior periods presented.

2. ACQUISITIONS

In July 2024, we acquired the manufacturing operations of an existing contract manufacturer of our cooking spray products, for a cash purchase price of $51.2 million, including working capital adjustments. Approximately $46.3 million of the purchase price has been classified as goodwill, which is deductible for income tax purposes. The settlement of certain pre-existing contractual

agreements between Conagra and the contract manufacturer as part of the transaction resulted in a net gain of $3.4 million within SG&A expenses in fiscal 2025.

In August 2024, we acquired the outstanding equity of Sweetwood Smoke & Co., maker of *FATTY*® smoked meat sticks, for a cash purchase price of $179.4 million, net of cash acquired and including working capital adjustments. Approximately $130.0 million of the purchase price has been classified as goodwill, which is deductible for income tax purposes. Approximately $55.8 million and $5.5 million of the purchase price has been allocated to non-amortizing and amortizing intangible assets, respectively.

For each of these acquisitions, the amounts allocated to goodwill were primarily attributable to anticipated synergies, future growth opportunities, and other intangibles that do not qualify for separate recognition such as an assembled workforce. The results of each of these acquisitions, subsequent to the acquisition closings, are primarily included in the Grocery & Snacks segment and through May 31, 2026, were not material to our Consolidated Statements of Operations.

Under the acquisition method of accounting, the assets acquired and liabilities assumed in these acquisitions were recorded at their respective estimated fair values at the date of acquisition. The purchase price allocations were finalized as of the fourth quarter of fiscal 2025.

3. RESTRUCTURING ACTIVITIES

Optimization and Transformation Initiatives

We regularly evaluate our operations for ways to increase efficiencies and optimize our investments. Initiatives designed to achieve our efficiency goals may take a year or more to complete and result in various restructuring charges as a result of accelerated depreciation, asset write-offs, and exit costs including severance, lease and other contract termination charges, and disposal costs.

In fiscal 2026, we approved initiatives designed to optimize and enhance our supply chain network related to our frozen fried chicken products. We expect these initiatives will result in approximately $34 million of restructuring charges within the Refrigerated & Frozen segment, of which approximately $12 million will be cash. These charges are expected to consist of approximately $22 million of accelerated depreciation and asset write-offs and $12 million of other costs within SG&A. We recognized charges of $13.4 million in fiscal 2026, which is also the cumulative amount incurred to date. We expect these initiatives to be completed by the end of fiscal 2028.

Subsequent to the end of fiscal 2026, management approved a multi-year transformation initiative (“Project Catalyst”) that seeks to simplify and modernize our operations through process redesign, technology adoption, and organizational optimization to accelerate growth, improve productivity, and enhance cash flow performance. We anticipate that we may invest as much as approximately $40 million in capital expenditures for Project Catalyst initiatives in fiscal 2027. We continue to define and identify initiatives under Project Catalyst, some of which may result in restructuring charges. At this time, we are unable to provide an estimate or range of estimates for any such restructuring charges, some of which may be incurred in fiscal 2027, or other costs that may be incurred as a result of Project Catalyst. We expect to provide additional details in future quarters.

Conagra Restructuring Plan

In fiscal 2019, senior management initiated a restructuring plan for costs incurred in connection with actions taken to improve SG&A expense effectiveness and efficiencies and to optimize our supply chain network (the “Conagra Restructuring Plan”). We are reporting on actions initiated through the end of fiscal 2026, including the estimated amounts or range of amounts for each major type of costs expected to be incurred, and the charges that have resulted or will result in cash outflows. As of May 31, 2026, we have approved and expect to incur $356.7 million of charges ($121.9 million of cash charges and $234.8 million of non-cash charges) for actions identified to date under the Conagra Restructuring Plan. We recognized charges of $32.3 million, $101.7 million, and $66.6 million in connection with the Conagra Restructuring Plan in fiscal 2026, 2025, and 2024, respectively. We have recognized substantially all of the costs and liabilities related to the Conagra Restructuring Plan as of the end of fiscal 2026.

Notes to Consolidated Financial Statements
Fiscal Years Ended May 31, 2026, May 25, 2025, and May 26, 2024
(columnar dollars in millions except per share amounts)

We anticipate that we will recognize the following pre-tax expenses in association with the Conagra Restructuring Plan (amounts include charges recognized from plan inception through the end of fiscal 2026):

	Grocery & Snacks	Refrigerated & Frozen	International	Foodservice	Corporate	Total
Accelerated depreciation	$ 43.9	$ 47.7	$ —	$ —	$ —	$ 91.6
Other cost of goods sold	14.3	10.6	1.9	—	—	26.8
Total cost of goods sold	58.2	58.3	1.9	—	—	118.4
Severance and related costs	12.7	9.7	6.4	0.3	26.5	55.6
Asset impairment (net of gains on disposal)	37.2	78.1	12.4	—	(0.4)	127.3
Contract/lease termination	2.4	0.9	0.3	—	0.3	3.9
Consulting/professional fees	0.5	0.6	—	—	12.3	13.4
Other selling, general and administrative expenses	25.0	10.3	0.9	—	1.3	37.5
Total selling, general and administrative expenses	77.8	99.6	20.0	0.3	40.0	237.7
Total	$ 136.0	$ 157.9	$ 21.9	$ 0.3	$ 40.0	$ 356.1
Pension and postretirement non-service income						0.6
Consolidated total						$ 356.7

During fiscal 2026, we recognized the following pre-tax expenses for the Conagra Restructuring Plan:

	Grocery & Snacks	Refrigerated & Frozen	International	Corporate	Total
Accelerated depreciation	$ 0.5	$ —	$ —	$ —	$ 0.5
Other cost of goods sold	2.2	1.1	—	—	3.3
Total cost of goods sold	2.7	1.1	—	—	3.8
Severance and related costs	—	—	0.8	10.6	11.4
Asset impairment (net of gains on disposal)	12.0	(6.9)	0.1	(0.4)	4.8
Contract/lease termination	0.4	—	—	0.2	0.6
Consulting/professional fees	—	—	—	5.5	5.5
Other selling, general and administrative expenses	5.5	0.5	—	0.2	6.2
Total selling, general and administrative expenses	17.9	(6.4)	0.9	16.1	28.5
Total	$ 20.6	$ (5.3)	$ 0.9	$ 16.1	$ 32.3

Included in the above results are $26.0 million of charges that have resulted or will result in cash outflows and $6.3 million in non-cash charges.

Notes to Consolidated Financial Statements
Fiscal Years Ended May 31, 2026, May 25, 2025, and May 26, 2024
(columnar dollars in millions except per share amounts)

We recognized the following cumulative (plan inception to May 31, 2026) pre-tax expenses for the Conagra Restructuring Plan in our Consolidated Statements of Operations:

	Grocery & Snacks	Refrigerated & Frozen	International	Foodservice	Corporate	Total
Accelerated depreciation	$ 43.9	$ 47.7	$ —	$ —	$ —	$ 91.6
Other cost of goods sold	14.3	10.6	2.0	—	—	26.9
Total cost of goods sold	58.2	58.3	2.0	—	—	118.5
Severance and related costs	12.7	9.7	6.4	0.3	26.4	55.5
Asset impairment (net of gains on disposal)	37.2	78.1	12.4	—	(0.4)	127.3
Contract/lease termination	2.4	0.9	0.3	—	0.3	3.9
Consulting/professional fees	0.5	0.6	—	—	10.6	11.7
Other selling, general and administrative expenses	24.5	9.3	0.8	—	1.4	36.0
Total selling, general and administrative expenses	77.3	98.6	19.9	0.3	38.3	234.4
Total	$ 135.5	$ 156.9	$ 21.9	$ 0.3	$ 38.3	$ 352.9
Pension and postretirement non-service income						0.6
Consolidated total						$ 353.5

Included in the above results are $118.9 million of charges that have resulted or will result in cash outflows and $234.6 million in non-cash charges.

Liabilities recorded for the above restructuring activities and changes therein for fiscal 2026 were as follows:

	Balance at May 25, 2025	Costs Incurred and Charged to Expense	Costs Paid or Otherwise Settled	Changes in Estimates	Balance at May 31, 2026
Severance and related costs	$ 14.6	$ 15.2	$ (13.5)	$ (2.2)	$ 14.1
Contract/lease termination	—	0.6	(0.6)	—	—
Consulting/professional fees	—	5.5	(3.7)	—	1.8
Other costs	2.8	12.7	(9.6)	—	5.9
Total	$ 17.4	$ 34.0	$ (27.4)	$ (2.2)	$ 21.8

Notes to Consolidated Financial Statements
Fiscal Years Ended May 31, 2026, May 25, 2025, and May 26, 2024
(columnar dollars in millions except per share amounts)

4. LONG-TERM DEBT

	May 31, 2026	May 25, 2025
5.4% senior debt due November 2048	$ 1,000.0	$ 1,000.0
4.65% senior debt due January 2043	176.7	176.7
6.625% senior debt due August 2039	91.4	91.4
5.3% senior debt due November 2038	1,000.0	1,000.0
5.75% senior debt due August 2035	500.0	—
8.25% senior debt due September 2030	300.0	300.0
5.0% senior debt due August 2030	500.0	—
4.85% senior debt due November 2028	1,300.0	1,300.0
7.0% senior debt due October 2028	382.2	382.2
1.375% senior debt due November 2027	1,000.0	1,000.0
6.7% senior debt due August 2027	9.2	9.2
7.125% senior debt due October 2026	262.5	262.5
5.3% senior debt due October 2026	500.0	500.0
4.6% senior debt due November 2025	—	1,000.0
0.89% to 13.22% lease financing obligations due on various dates through 2043	240.4	267.2
Total face value of debt	7,262.4	7,289.2
Unamortized fair value adjustment	16.1	16.9
Unamortized discounts	(13.6)	(14.7)
Unamortized debt issuance costs	(30.7)	(28.5)
Less current installments	(778.2)	(1,028.8)
Total long-term debt	$ 6,456.0	$ 6,234.1

The aggregate minimum principal maturities of the long-term debt for each of the five fiscal years following May 31, 2026 are as follows:

2027	$ 778.8
2028	1,025.9
2029	1,699.3
2030	19.0
2031	818.0

Senior Notes

In the second quarter of fiscal 2026, we repaid the entire outstanding $1.00 billion aggregate principal amount of our 4.60% senior unsecured notes on their maturity date of November 1, 2025. The repayment was funded by using the net proceeds from the issuance of $500.0 million aggregate principal amount of 5.00% senior unsecured notes due August 1, 2030 and $500.0 million aggregate principal amount of 5.75% senior unsecured notes due August 1, 2035 (the "Senior Unsecured Notes"), along with the issuance of commercial paper and operating cash flows.

In the fourth quarter of fiscal 2024, we repaid the entire outstanding $1.00 billion aggregate principal amount of our 4.30% senior unsecured notes on their maturity date of May 1, 2024. The repayment was funded using the net proceeds from the 2024 Term Loan in the principal amount of $300.0 million (see Note 5), along with the issuance of commercial paper and operating cash flows.

In the first quarter of fiscal 2024, we repaid the entire outstanding $500.0 million aggregate principal amount of our 0.50% senior unsecured notes on their maturity date of August 11, 2023. The repayment was primarily funded using the net proceeds from the issuance of $500.0 million aggregate principal amount of 5.30% senior notes due October 1, 2026.

Notes to Consolidated Financial Statements
Fiscal Years Ended May 31, 2026, May 25, 2025, and May 26, 2024
(columnar dollars in millions except per share amounts)

2023 Term Loan

We prepaid the $500.0 million aggregate principal amount unsecured term loan entered into during the second quarter of fiscal 2023 with a syndicate of financial institutions through a prepayment of $250.0 million of the aggregate principal amount outstanding during the second quarter of fiscal 2024, utilizing operating cash flow and the issuance of commercial paper and, during the second quarter of fiscal 2025, a prepayment of the remaining $250.0 million aggregate principal amount outstanding, utilizing primarily operating cash flow.

Interest Expense

Net interest expense consists of:

	2026	2025	2024
Long-term debt	$ 385.0	$ 367.1	$ 419.2
Short-term debt	12.9	60.4	25.8
Interest income	(7.5)	(2.5)	(5.7)
Interest capitalized	(7.8)	(8.3)	(8.8)
	$ 382.6	$ 416.7	$ 430.5

Interest paid was $374.2 million, $426.7 million, and $444.2 million in fiscal 2026, 2025, and 2024, respectively.

5. CREDIT FACILITIES AND BORROWINGS

2025 Term Loan

In the fourth quarter of fiscal 2025, we entered into an unsecured Term Loan Agreement with a financial institution (the "2025 Term Loan Agreement"), borrowing an aggregate principal amount of $200.0 million (the "2025 Term Loan") which was classified as notes payable within our Consolidated Balance Sheets. The 2025 Term Loan matured on October 29, 2025 and bore interest at, based upon the Company's election, either (a) the sum of Term SOFR, plus 0.875% per annum or (b) 0.00% per annum plus the Base Rate, described in the 2025 Term Loan Agreement as the highest of (i) the prime rate in the U.S. published in The Wall Street Journal, (ii) the Federal Funds Rate plus 0.50%, and (iii) one-month Term SOFR plus 1.00%. The 2025 Term Loan Agreement allowed the Company to voluntarily prepay loans, in whole or in part, without premium or penalty, subject to certain conditions. During the first quarter of fiscal 2026, we prepaid the $200.0 million aggregate principal amount outstanding under the unsecured term loan utilizing a portion of the proceeds received in connection with the sale of our *Chef Boyardee*® business (see Note 7) and proceeds from the issuance of the Senior Unsecured Notes (see Note 4).

2024 Term Loan

In the fourth quarter of fiscal 2024, we entered into an unsecured Term Loan Agreement with a financial institution (the "2024 Term Loan Agreement"), borrowing an aggregate principal amount of $300.0 million (the "2024 Term Loan") which was classified as notes payable within our Consolidated Balance Sheets. In the fourth quarter of fiscal 2025, we entered into a letter agreement (the "Amendment") extending the maturity date of the 2024 Term Loan from April 29, 2025 to October 29, 2025. The 2024 Term Loan, as amended, bore interest at, based upon the Company's election, either (a) the sum of Term SOFR, plus 0.875% per annum, or (b) 0.00% per annum plus the Base Rate, described in the 2024 Term Loan Agreement as the greatest of (i) Bank of America, N.A.'s "prime rate", (ii) the Federal Funds Rate plus 0.50%, and (iii) one-month Term SOFR plus 1.00%. The 2024 Term Loan Agreement allowed the Company to voluntarily prepay loans, in whole or in part, without premium or penalty, subject to certain conditions. During the first quarter of fiscal 2026, we prepaid the $300.0 million aggregate principal amount outstanding under the unsecured term loan utilizing a portion of the proceeds received in connection with the sale of our *Chef Boyardee*® business (see Note 7) and proceeds from the issuance of the Senior Unsecured Notes (see Note 4).

Notes to Consolidated Financial Statements
Fiscal Years Ended May 31, 2026, May 25, 2025, and May 26, 2024
(columnar dollars in millions except per share amounts)

Revolving Credit Facility

During the first quarter of fiscal 2026, we terminated and replaced our prior revolving credit facility by entering into a Third Amended and Restated Revolving Credit Agreement (the "Amended Revolving Credit Agreement") with a syndicate of financial institutions providing for a revolving credit facility in a maximum aggregate principal amount outstanding at any one time of $2.0 billion (subject to increase to a maximum aggregate principal amount of $2.5 billion with the consent of the lenders). The Amended Revolving Credit Agreement matures on June 27, 2030 and is unsecured. The Company may request the term of the Amended Revolving Credit Agreement be extended for additional one-year or two-year periods from the then-applicable maturity date on an annual basis. As of May 31, 2026, there were no outstanding borrowings under the Amended Revolving Credit Agreement.

The Revolving Credit Agreement contains events of default customary for unsecured investment grade credit facilities with corresponding grace periods. The Revolving Credit Agreement generally requires our ratio of EBITDA to interest expense not to be less than 3.0 to 1.0 and our ratio of funded debt to EBITDA not to exceed 4.5 to 1.0, with each ratio to be calculated on a rolling four-quarter basis. As of May 31, 2026, we were in compliance with all financial covenants under the Revolving Credit Agreement.

Commercial Paper

We finance our short-term liquidity needs with existing cash balances, cash flows from operations, and commercial paper borrowings. As of May 31, 2026, we had no outstanding borrowings under our commercial paper program. As of May 25, 2025, we had $259.0 million outstanding under our commercial paper program, which is classified as notes payable within our Consolidated Balance Sheets, at an average weighted interest rate of 4.91%.

6. FINANCING ARRANGEMENTS

Supplier Financing Arrangements

In order to manage our cash flow and related liquidity, we work with our suppliers to optimize our terms and conditions, which include the extension of payment terms. A number of factors may impact our future payment terms, including our relative creditworthiness, overall market liquidity, and changes in interest rates and other general economic conditions. Certain suppliers have access to third-party services that allow them to view our scheduled payments online and finance advances on our scheduled payments at the sole discretion of the supplier and the third-party. Our current payment terms with these suppliers, which we deem to be commercially reasonable, range up to 120 days. We have no direct financial relationship with the financial institutions utilized by the third-parties, and we have pledged no assets in connection with our accounts payable programs. All amounts due to participating suppliers are paid to the third party on the original invoice due dates, regardless of whether a particular invoice was sold. Supplier participation in these agreements is voluntary. As of May 31, 2026 and May 25, 2025, $248.4 million and $292.2 million, respectively, of our total accounts and other payables were subject to these arrangements. The associated payments are included in net cash flows from operating activities within our Consolidated Statements of Cash Flows.

We have also concluded that certain obligations to our suppliers, including amounts due and scheduled payment terms, are impacted by these third-party service programs and these arrangements are classified as notes payable within our Consolidated Balance Sheets. The proceeds and payments associated with short-term borrowings are reflected as financing activities within our Consolidated Statements of Cash Flows. As of May 31, 2026 and May 25, 2025, we had approximately $34.2 million and $45.9 million, respectively, of short-term borrowings related to these arrangements.

The roll-forward of our outstanding obligations confirmed as valid under our supplier finance program for fiscal 2026 and 2025 are as follows:

	May 31, 2026	May 25, 2025
Obligations outstanding at the beginning of the year	$ 338.1	$ 377.3
New invoices confirmed during the year	877.2	1,036.8
Confirmed invoices paid during the year	(932.7)	(1,076.0)
Obligations outstanding at the end of the year	$ 282.6	$ 338.1

Notes to Consolidated Financial Statements
Fiscal Years Ended May 31, 2026, May 25, 2025, and May 26, 2024
(columnar dollars in millions except per share amounts)

7. DIVESTITURES AND ASSETS HELD FOR SALE

Chef Boyardee® Business

During the first quarter of fiscal 2026, we completed the sale of our *Chef Boyardee®* business for net proceeds of $607.0 million, including working capital adjustments. The business results were previously reported in our Grocery & Snacks, International, and Foodservice segments. We recognized a gain on the sale of $42.7 million within Loss (gain) on divestitures in fiscal 2026.

The assets and liabilities related to our *Chef Boyardee®* business have been reclassified as assets and liabilities held for sale within our Consolidated Balance Sheets for the period presented prior to the divestiture. The assets and liabilities related to our *Chef Boyardee®* business classified as held for sale reflected in our Consolidated Balance Sheets were as follows:

	May 25, 2025
Current assets	$ 69.2
Noncurrent assets (including goodwill of $230.4 million)	488.8
Current liabilities	2.7
Noncurrent liabilities	0.2

Frozen Fish Business

During the first quarter of fiscal 2026, we completed the sale of our frozen fish business, which includes our *Van De Kamp's ®* and *Mrs. Paul's®* brands for net proceeds of $41.9 million, including working capital adjustments. The business results were previously reported primarily in our Refrigerated & Frozen segment. We recognized a loss on the sale of $0.5 million within Loss (gain) on divestitures in fiscal 2026. In connection with the sale of this business, we recognized an impairment charge of $27.2 million in our Refrigerated & Frozen segment within Loss (gain) on divestitures during fiscal 2025.

The assets related to our frozen fish business have been reclassified as assets held for sale within our Consolidated Balance Sheets for the period presented prior to the divestiture. The assets related to our frozen fish business classified as held for sale reflected in our Consolidated Balance Sheets were as follows:

	May 25, 2025
Current assets	$ 24.9
Noncurrent assets (including goodwill of $17.1 million)	18.6

Agro Tech Foods Limited Divestiture

During the first quarter of fiscal 2025, we completed the sale of our 51.8% ownership stake in Agro Tech Foods Limited ("ATFL") for net proceeds of $76.8 million. Prior to the transaction, our majority ownership of ATFL was consolidated within our International segment. We recognized a loss of $2.3 million on the sale within Loss (gain) on divestitures in fiscal 2025. In connection with this divestiture, we also released $41.8 million and $38.0 million of currency translation losses from accumulated other comprehensive loss and noncontrolling interests, respectively. During fiscal 2024, we recognized impairment charges of $36.4 million within Loss (gain) on divestitures related to this business. As a result of the timing of certain tax elections, we recognized income tax expense of $11.1 million in fiscal 2026 associated with this divestiture.

Other Assets Held for Sale

During fiscal 2026, we sold a certain manufacturing facility and related warehouse in our Refrigerated & Frozen segment for net proceeds of approximately $26.5 million. We recognized a gain of $8.3 million on the sale within SG&A expenses in fiscal 2026 included in restructuring activities (see Note 3). These assets have been classified as assets held for sale within our Consolidated Balance Sheets for the period presented prior to the sale.

Notes to Consolidated Financial Statements
Fiscal Years Ended May 31, 2026, May 25, 2025, and May 26, 2024
(columnar dollars in millions except per share amounts)

In addition, we actively market certain other assets from time to time. These assets have also been reclassified as assets held for sale within our Consolidated Balance Sheets for periods prior to the disposal of the individual asset groups.

The other assets currently classified as noncurrent assets held for sale in our Consolidated Balance Sheets were $13.0 million and $34.9 million as of May 31, 2026 and May 25, 2025, respectively.

8. INVESTMENTS IN JOINT VENTURES

The total carrying value of our equity method investments at the end of fiscal 2026 and 2025 was $947.4 million and $936.8 million, respectively. These amounts are included in other assets and reflect our 44% ownership interest in Ardent Mills and a 50% ownership interest in one other joint venture. Due to differences in fiscal reporting periods, we recognized the equity method investment earnings on a lag of approximately one month.

In fiscal 2026, we had purchases from our equity method investees of $27.7 million. Total dividends received from equity method investments in fiscal 2026 were $141.1 million.

In fiscal 2025, we had purchases from our equity method investees of $31.9 million. Total dividends received from equity method investments in fiscal 2025 were $160.3 million.

In fiscal 2024, we had purchases from our equity method investees of $28.7 million. Total dividends received from equity method investments in fiscal 2024 were $251.6 million.

Summarized combined financial information for our equity method investments on a 100% basis is as follows:

	2026	2025	2024
Net sales:			
Ardent Mills	$ 3,710.6	$ 3,998.2	$ 4,597.9
Other	354.9	339.3	361.4
Total net sales	$ 4,065.5	$ 4,337.5	$ 4,959.3
Gross profit:			
Ardent Mills	$ 525.7	$ 656.2	$ 642.0
Other	94.5	85.0	87.1
Total gross profit	$ 620.2	$ 741.2	$ 729.1
Earnings after income taxes:			
Ardent Mills	$ 267.4	$ 369.2	$ 361.5
Other	47.7	40.5	37.4
Total earnings after income taxes	$ 315.1	$ 409.7	$ 398.9

	May 31, 2026	May 25, 2025
Ardent Mills:		
Current assets	$ 1,300.7	$ 1,365.2
Noncurrent assets	1,846.5	1,840.6
Current liabilities	562.2	521.9
Noncurrent liabilities	556.2	571.5
Other:		
Current assets	$ 180.0	$ 142.0
Noncurrent assets	64.0	50.5
Current liabilities	49.1	46.5
Noncurrent liabilities	1.3	2.6

Notes to Consolidated Financial Statements
Fiscal Years Ended May 31, 2026, May 25, 2025, and May 26, 2024
(columnar dollars in millions except per share amounts)

9. GOODWILL AND OTHER IDENTIFIABLE INTANGIBLE ASSETS

The change in the carrying amount of goodwill for fiscal 2026 and 2025, excluding amounts classified as held for sale (see Note 7), was as follows:

	Grocery & Snacks	Refrigerated & Frozen [1]	International	Foodservice	Total
Balance as of May 26, 2024	$ 4,486.8	$ 4,916.6	$ 202.4	$ 720.1	$ 10,325.9
Currency translation	—	—	(0.3)	—	(0.3)
Acquisitions	176.3	—	—	—	176.3
Balance as of May 25, 2025	$ 4,663.1	$ 4,916.6	$ 202.1	$ 720.1	$ 10,501.9
Currency translation	—	—	(0.2)	—	(0.2)
Impairments		(2,382.4)	—	—	(2,382.4)
Balance as of May 31, 2026	$ 4,663.1	$ 2,534.2	$ 201.9	$ 720.1	$ 8,119.3

[1] The carrying amounts of goodwill within the Refrigerated & Frozen segment as of both May 31, 2026 and May 25, 2025 were net of accumulated impairment losses of $3.05 billion and $668.2 million, respectively.

Other identifiable intangible assets, excluding amounts classified as held for sale, were as follows:

	2026		2025	
	Gross Carrying Amount	Accumulated Amortization	Gross Carrying Amount	Accumulated Amortization
Non-amortizing intangible assets				
Brands and trademarks	$ 1,253.3	$ —	$ 1,800.5	$ —
Amortizing intangible assets				
Customer relationships and intellectual property	1,215.7	638.3	1,215.9	595.3
	$ 2,469.0	$ 638.3	$ 3,016.4	$ 595.3

2026 Goodwill and Indefinite-Lived Intangible Asset Impairment Testing

During the second quarter of fiscal 2026, we identified triggering events requiring an interim goodwill impairment assessment of certain reporting units and certain other assets within those reporting units, including indefinite lived intangibles (brand names and trademarks), due to a sustained decline in market capitalization and stock price. As a result, during the second quarter we performed an interim quantitative impairment test over the Refrigerated & Frozen and Foodservice reporting units and the *Birds Eye®, Earth Balance®*, and *Smart Balance®* brand names.

The fair value of our reporting units is typically estimated using a discounted cash flow method and, in certain circumstances, we also use a guideline public company method. The fair value of our indefinite lived intangibles is determined using the "relief from royalty" methodology. Both the "relief from royalty" methodology and the discounted cash flow method require us to estimate the future cash flows as well as to select a risk-adjusted discount rate to measure the present value of the anticipated cash flows. The guideline public company method is based on our actual and estimated EBITDA and considers public companies that are comparable to our reporting units. When determining future cash flow estimates, we consider historical results, adjusted to reflect current and anticipated operating conditions. Under our discounted cash flow method, we estimate cash flows for a reporting unit over a discrete period (typically five years) and a terminal period (considering expected long-term growth rates and trends). Estimating the fair value of individual reporting units and our indefinite-lived intangible assets requires us to make assumptions and estimates in areas such as future economic conditions, industry-specific conditions, product pricing, and necessary capital expenditures. The use of different assumptions or estimates for selected EBITDA multiples, future cash flows, discount rates, royalty rates, or terminal growth rates could produce substantially different estimates of the fair value.

We completed a quantitative impairment test for the Refrigerated & Frozen and Foodservice reporting units with the assistance of a third-party valuation specialist using both a discounted cash flow method and a guideline public company method. As a result of our impairment tests, in the second quarter of fiscal 2026, we recognized non-cash goodwill impairment charges of $771.3 million in the Refrigerated & Frozen reporting unit within goodwill impairment charges. The goodwill impairment was primarily driven by a 150-

basis point increase in the discount rate reflecting heightened macroeconomic uncertainty and weakened consumer sentiment, lower market multiples in our industry as of our testing date, and a downward revision to our projected sales and profit margins for this specific reporting unit.

In addition, we recognized impairment charges in the second quarter of fiscal 2026, within other intangible asset impairment charges of $180.0 million related to our *Birds Eye*® brand name and $17.0 million related to our spreads businesses (*Earth Balance*® and *Smart Balance*®), both of which were primarily included in our Refrigerated and Frozen segment. The other intangible asset impairments were primarily driven by the increase in the discount rate. In addition, *Birds Eye*® was negatively impacted by lower than expected profit margins which resulted in a reduction in our assumed royalty rate.

In the fourth quarter of fiscal 2026, we identified triggering events to test goodwill for impairment due to continued decline in market capitalization and stock price. As a result of our assessment of the triggering events, we completed a quantitative impairment test for the Refrigerated & Frozen reporting unit using both a discounted cash flow method and a guideline public company method. As a result of our impairment tests, we recognized goodwill impairment charges of $1.61 billion within goodwill impairment charges. The impairment was primarily driven by a 200-basis point increase in the discount rate from our last quantitative assessment completed in the second quarter of fiscal 2026 reflecting lower market multiples in our industry, uncertainty in the market and global economy due to potential implications from geopolitical conflicts, inflationary pressures, and other macroeconomic factors, and a downward revision to our projected sales and profit margins for this specific reporting unit. After this impairment the goodwill carrying amount of our Refrigerated & Frozen reporting unit is approximately $2.53 billion.

In the fourth quarter of fiscal 2026, we also recognized impairment charges on certain indefinite lived intangibles within other intangible asset impairment charges of $350.2 million within our Grocery & Snacks and Refrigerated & Frozen segments. The most notable brands with impairments included *Birds Eye*®*, Armour*®, *Bertolli*®, *Angie's*® BOOMCHICKAPOP®, and *Wish-Bone*®. All brands were negatively impacted by the increase in our discount rate discussed above. Several of these brands were also negatively impacted by revised sales growth expectations. Including the impairments of certain brands recognized in the second quarter of fiscal 2026, discussed above, our total brand impairment charges recognized in fiscal 2026 were $547.2 million.

The Refrigerated & Frozen reporting unit and certain of our indefinite lived intangibles were written down to fair value as of the end of fiscal 2026, resulting in zero excess fair value over carrying amount, and, as a result, will have a heightened risk of future impairments if any assumptions, estimates, or market factors change in the future. All other reporting units and indefinite lived intangibles had more than 20% excess fair value over carrying amount as of our last quantitative assessment. We will continue to monitor the impact of any significant changes in consumer purchasing behaviors, input cost inflation, and other macroeconomic conditions that could change certain assumptions and result in future impairments.

2025 Goodwill and Indefinite-Lived Intangible Asset Impairment Testing

During the second quarter of fiscal 2025, we reorganized our reporting units in the Refrigerated & Frozen and Grocery & Snacks segments. This required us to reassign assets and liabilities between the reporting units, assess whether there were indicators of impairment for the impacted reporting units, and evaluate other assets in the reporting units for impairment, including indefinite-lived intangibles (brand names and trademarks).

We used a discount rate of 7.50% and a terminal growth rate that ranged between 1% to 1.5% in estimating the fair value of our reporting units. As a result of our impairment tests, in the second quarter of fiscal 2025, we recognized impairment charges of $18.9 million for certain brands with continued lower than expected sales and profit margins. These charges were recorded within other intangible asset impairment charges in our Grocery & Snacks and Refrigerated & Frozen segments. There were no impairments to goodwill.

In the fourth quarter of fiscal 2025, we performed our annual goodwill impairment assessment on all of our reporting units and found no indicators of impairment. We completed a qualitative assessment which primarily considered our previous cushion from our last quantitative test in addition to market comparable transactions. As a result of our fiscal 2025 annual impairment test for indefinite lived intangibles, we recognized impairment charges within other intangible asset impairment charges of $53.2 million in our Grocery & Snacks and Refrigerated & Frozen segments. Our largest impairments were related to our spreads businesses (*Earth Balance*® and *Smart Balance*®). Both of these brands were negatively impacted by volume declines in the current fiscal year, which also resulted in revised

sales growth expectations. Including the impairments of certain brands recognized in the second quarter of fiscal 2025, discussed above, our total brand impairment charges recognized in fiscal 2025 were $72.1 million.

2024 Goodwill and Indefinite-Lived Intangible Asset Impairment Testing

In the fourth quarter of fiscal 2024, we performed our annual goodwill impairment assessment on all of our reporting units. We completed a qualitative assessment on all of our reporting units with the exception of our Sides, Components, Enhancers reporting unit. We completed a quantitative impairment test for our Sides, Components, Enhancers reporting unit with the assistance of a third-party valuation specialist using both a discounted cash flow method and guideline public company method as a result of lower market multiples in our industry as of our testing date. In estimating the fair value of this reporting unit, we selected a market multiple of 9.0- 9.5x using actual and estimated EBITDA for our guideline public company method. We used a discount rate of 8.50% and a terminal growth rate that approximated 1% for our discounted cash flow approach. As a result of our impairment tests, we recognized goodwill impairment charges of $526.5 million within goodwill impairment charges. The impairment was largely due to the 75-basis point increase in the discount rate as a result of economic conditions (higher interest rates and a slightly higher company specific risk premium), a decline in market capitalization, lower market multiples in our industry as of our testing date, as well as a downward revision to our sales forecasts for this specific reporting unit. After the impairment, the goodwill carrying amount of our Sides, Components, Enhancers reporting unit was approximately $1.4 billion.

As a result of our fiscal 2024 annual impairment test for indefinite lived intangibles, we recognized impairment charges within other intangible asset impairment charges of $430.2 million within our Grocery & Snacks and Refrigerated & Frozen segments. All brands were negatively impacted by an increase in our discount rate in response to the economic environment (higher interest rates including an increase in certain brand specific risk premiums) since our last annual impairment test. Our two largest impairments were related to *Birds Eye*® and *Earth Balance*® in the amount of $255.4 million and $72.1 million, respectively. Both of these brands were negatively impacted by volume declines in fiscal 2024 driven by lower consumption trends, which also resulted in revised sales growth expectations. *Birds Eye*® was also negatively impacted by lower than expected profit margins which resulted in a slight reduction to our assumed royalty rate.

Definite-Lived Intangible Assets

Amortizing intangible assets, carrying a remaining weighted-average life of approximately 15 years, are principally composed of customer relationships and acquired intellectual property. For fiscal 2026, 2025, and 2024, we recognized amortization expense of $43.1 million, $53.7 million, and $53.6 million, respectively. Based on amortizing assets recognized in our Consolidated Balance Sheet as of May 31, 2026, amortization expense for the next five years is estimated to be as follows:

2027	$ 43.0
2028	40.6
2029	39.3
2030	39.0
2031	38.4

10. EARNINGS (LOSS) PER SHARE

Basic earnings (loss) per share is calculated on the basis of weighted average outstanding shares of common stock. Diluted earnings per share is computed on the basis of basic weighted average outstanding shares of common stock adjusted for the dilutive effect of stock options, restricted stock unit awards, and other dilutive securities. In periods when we recognize a net loss, we exclude the impact of outstanding stock awards from the diluted loss per share calculation, as their inclusion would have an antidilutive effect.

Notes to Consolidated Financial Statements
Fiscal Years Ended May 31, 2026, May 25, 2025, and May 26, 2024
(columnar dollars in millions except per share amounts)

The following table reconciles the income (loss) and average share amounts used to compute both basic and diluted earnings (loss) per share:

	2026	2025	2024
Net income (loss) attributable to Conagra Brands, Inc. common stockholders:	$ (1,916.2)	$ 1,152.4	$ 347.2
Weighted average shares outstanding:			
Basic weighted average shares outstanding	479.0	478.3	478.6
Add: Dilutive effect of stock options, restricted stock unit awards, and other dilutive securities	—	1.4	1.4
Diluted weighted average shares outstanding	479.0	479.7	480.0

For fiscal 2026, all 0.8 million of dilutive restricted stock units outstanding were excluded from the computation of diluted weighted averages shares, as we recognized a net loss. For fiscal 2025 and 2024, there were 1.4 million and 1.2 million stock options outstanding, respectively, that were excluded from the computation of diluted weighted average shares because the effect was antidilutive.

11. INVENTORIES

The major classes of inventories, excluding amounts classified as held for sale (see Note 7), were as follows:

	May 31, 2026	May 25, 2025
Raw materials and packaging	$ 296.5	$ 300.8
Work in process	238.9	243.5
Finished goods	1,256.3	1,393.0
Supplies and other	113.7	111.0
Total	$ 1,905.4	$ 2,048.3

12. CAPITAL STOCK

The total number of shares we are authorized to issue is 1,218,050,000 shares, which shares may be issued as follows: 1,200,000,000 shares of common stock, par value $5.00 per share; 150,000 shares of Class B Preferred Stock, par value $50.00 per share; 250,000 shares of Class C Preferred Stock, par value $100.00 per share; 1,100,000 shares of Class D Preferred Stock, no par value per share; and 16,550,000 shares of Class E Preferred Stock, no par value per share. There were no preferred shares issued or outstanding as of May 31, 2026.

We have repurchased our shares of common stock from time to time after considering market conditions and in accordance with repurchase limits authorized by our Board. We repurchased 0.8 million shares of our common stock for approximately $15.0 million in fiscal 2026 and 2.1 million shares of our common stock for approximately $64.0 million in fiscal 2025.

13. SHARE-BASED PAYMENTS

In accordance with stockholder-approved equity incentive plans, we grant stock-based compensation awards, including restricted stock units, performance shares, performance-based restricted stock units, and stock options. The shares delivered upon vesting or lapse of restriction under any such arrangement may consist, in whole or part, of treasury stock or authorized but unissued stock, not reserved for any other purpose.

On September 14, 2023, our stockholders approved the Conagra Brands, Inc. 2023 Stock Plan (the “Plan”). The Plan authorizes the issuance of up to 17.4 million shares of Conagra Brands common stock. In addition to the shares under the 2023 Stock Plan, certain shares of Conagra Brands common stock subject to outstanding awards under predecessor stock plans that expire, lapse, are cancelled, terminated, forfeited, otherwise become unexercisable, or are settled for cash are available for issuance. At May 31, 2026, approximately 11.3 million shares remained reserved for granting new share-based awards.

Notes to Consolidated Financial Statements
Fiscal Years Ended May 31, 2026, May 25, 2025, and May 26, 2024
(columnar dollars in millions except per share amounts)

Share Unit Awards

In accordance with stockholder-approved equity incentive plans, we grant awards of restricted stock units ("share units") to employees and directors. These awards generally have requisite service periods of three years. Under each such award, stock is issued without direct cost to the employee. We estimate the fair value of the share units based upon the market price of our stock at the date of grant. Certain share unit grants do not provide for the payment of dividend equivalents to the participant during the requisite service period (the "vesting period"). For those grants, the value of the grants is reduced by the net present value of the foregone dividend equivalent payments.

We recognize compensation expense for share unit awards on a straight-line basis over the requisite service period, accounting for forfeitures as they occur. The compensation expense for our stock-settled share unit awards totaled $53.2 million, $47.3 million, and $38.5 million for fiscal 2026, 2025, and 2024, respectively. The tax benefit related to the stock-settled share unit award compensation expense for fiscal 2026, 2025, and 2024 was $10.7 million, $9.5 million, and $7.7 million, respectively.

The following table summarizes the nonvested share units as of May 31, 2026 and changes during the fiscal year then ended:

	Stock-Settled	
Share Units	Share Units (in Millions)	Weighted Average Grant-Date Fair Value
Nonvested share units at May 25, 2025	4.23	$ 31.29
Granted	3.49	$ 16.86
Vested/Issued	(2.52)	$ 31.23
Forfeited	(0.44)	$ 23.59
Nonvested share units at May 31, 2026	4.76	$ 23.07

During fiscal 2026, 2025, and 2024, we granted 3.5 million, 2.2 million, and 2.0 million stock-settled share units, respectively, with a weighted average grant date fair value of $16.86, $27.34, and $30.20 per share unit, respectively.

The total intrinsic value of stock-settled share units vested was $47.7 million, $43.1 million, and $28.3 million during fiscal 2026, 2025, and 2024, respectively.

At May 31, 2026, we had $48.7 million of total unrecognized compensation expense that will be recognized over a weighted average period of 1.7 years related to stock-settled share unit awards.

Performance Share Awards

Performance shares are granted to selected executives and other key employees with vesting contingent upon meeting various Company-wide performance goals. The performance goals for the three-year performance period ending in fiscal 2026 (the "2026 performance period") are based on our net sales and diluted earnings per share ("EPS") growth, subject to certain adjustments, measured over the defined performance period, with each year of the performance period weighted one-third. The performance goals for the three-year performance periods ending in fiscal 2027 (the "2027 performance period") and fiscal 2028 (the "2028 performance period") are based on our net sales and diluted EPS on a three-year cumulative basis, subject to certain adjustments, measured over the defined performance periods and are subject to adjustment based on our total shareholder return during the performance periods relative to a defined peer group. For each of the 2026 performance period, 2027 performance period, and 2028 performance period, the awards actually earned will range from zero to two hundred percent of the targeted number of performance shares for such performance period. Dividend equivalents are paid on the portion of performance shares actually earned at our regular dividend rate in additional shares of common stock.

Awards, if earned, will be paid in shares of our common stock. Subject to limited exceptions set forth in our performance share agreements, any shares earned will be distributed after the end of the performance period, and generally only if the participant continues to be employed with the Company through the date of distribution. For awards where performance against the performance target has not been certified, the value of the performance shares is adjusted based upon the market price of our common stock and current

Notes to Consolidated Financial Statements
Fiscal Years Ended May 31, 2026, May 25, 2025, and May 26, 2024
(columnar dollars in millions except per share amounts)

forecasted performance against the performance targets at the end of each reporting period and amortized as compensation expense over the vesting period. Forfeitures are accounted for as they occur.

A summary of the activity for performance share awards as of May 31, 2026 and changes during the fiscal year then ended is presented below:

Performance Shares	Share Units (in Millions)	Weighted Average Grant-Date Fair Value
Nonvested performance shares at May 25, 2025	2.22	$ 31.88
Granted	1.02	$ 18.97
Adjustments for performance results attained and dividend equivalents	(0.13)	$ 33.13
Vested/Issued	(0.54)	$ 33.13
Forfeited	(0.07)	$ 24.58
Nonvested performance shares at May 31, 2026	2.50	$ 26.46

We recognized expense of $1.5 million in fiscal 2026 and a benefit of $5.8 million and $7.7 million in fiscal 2025 and 2024, respectively, for our performance share awards. The tax benefit related to the compensation expense for fiscal 2026 was $0.1 million. The tax expense related to the compensation benefit for fiscal 2025 and 2024 was $0.1 million and $0.4 million, respectively.

The total intrinsic value of performance shares vested (including shares paid in lieu of dividends) during fiscal 2026, 2025, and 2024 was $10.3 million, $17.1 million, and $22.6 million, respectively.

Based on estimates at May 31, 2026, we had $4.5 million of total unrecognized compensation expense related to performance shares that will be recognized over a weighted average period of 1.9 years.

Stock Option Awards

In accordance with stockholder-approved equity incentive plans, we granted stock options to employees and directors for the purchase of common stock at prices equal to its fair value at the date of grant. Stock options become exercisable under various vesting schedules (typically three years) and generally expire seven to ten years after the date of grant. No stock options have been granted since fiscal 2017.

Cash received from stock option exercises for fiscal 2024 was $3.2 million. The actual tax benefit realized for the tax deductions from option exercises totaled $0.3 million for fiscal 2024. Cash received from stock option exercises for fiscal 2026 and 2025 and the related tax benefit realized were immaterial.

14. PRE-TAX INCOME AND INCOME TAXES

Pre-tax income (loss) (including equity method investment earnings) consisted of the following:

	2026	2025	2024
United States	$ (1,912.5)	$ 1,047.1	$ 538.4
Foreign	88.1	109.1	71.8
	$ (1,824.4)	$ 1,156.2	$ 610.2

Notes to Consolidated Financial Statements
Fiscal Years Ended May 31, 2026, May 25, 2025, and May 26, 2024
(columnar dollars in millions except per share amounts)

The provision for income taxes included the following:

	2026	2025	2024
Current			
Federal	$ 141.1	$ 171.7	$ 281.2
State	32.3	28.1	46.1
Foreign	27.4	28.0	28.3
	200.8	227.8	355.6
Deferred			
Federal	(61.7)	(207.5)	(66.7)
State	(12.3)	(14.7)	(17.6)

Notes to Consolidated Financial Statements
Fiscal Years Ended May 31, 2026, May 25, 2025, and May 26, 2024
(columnar dollars in millions except per share amounts)

In fiscal 2026, state and local income taxes in California, Florida, Pennsylvania, South Carolina, and Texas comprised the majority of the domestic state and local income taxes, net of federal effect category. In fiscal 2025, state and local income taxes in Florida, Louisianna, Pennsylvania, Tennessee, and Texas comprised the majority of the domestic state and local income taxes, net of federal effect category. In fiscal 2024, state and local income taxes in California, Florida, Minnesota, Pennsylvania, and Texas comprised the majority of the domestic state and local income taxes, net of federal effect category.

Income taxes paid, net of refunds, were:

	2026	2025	2024
US federal	$ 112.2	$ 150.3	$ 263.7
US state and local	36.8	31.2	46.8
Foreign			
Canada	4.1	23.1	*
Mexico	20.0	22.5	21.4
Other	0.3	0.7	11.4
	24.4	46.3	32.8
Total	$ 173.4	$ 227.8	$ 343.3

* The amount of income taxes paid in this jurisdiction during the year were less than 5% of the total income taxes paid during the year.

The tax effect of temporary differences and carryforwards that give rise to significant portions of deferred tax assets and liabilities consisted of the following:

	May 31, 2026		May 25, 2025	
	Assets	Liabilities	Assets	Liabilities
Property, plant and equipment	$ —	$ 307.7	$ —	$ 275.1
Inventory	14.7	—	14.2	—
Goodwill, trademarks and other intangible assets	341.3	621.1	378.0	842.8
Right-of-use assets	—	40.9	—	51.1
Accrued expenses	15.9	—	19.1	—
Compensation related liabilities	30.3	—	29.7	—
Pension and other postretirement benefits	—	55.5	—	49.0
Investment in unconsolidated subsidiaries	—	8.0	—	28.6
Lease liabilities	49.7	—	59.4	—
Other liabilities that will give rise to future tax deductions	55.8	—	65.2	—
Net capital and operating loss carryforwards	23.3	—	29.0	—
Research expenditures	23.3	—	45.1	—
Federal credits	22.8	—	23.8	—
Other	27.1	36.3	28.7	33.4
	604.2	1,069.5	692.2	1,280.0
Less: Valuation allowance	(213.5)	—	(209.4)	—
Net deferred taxes	$ 390.7	$ 1,069.5	$ 482.8	$ 1,280.0

The liability for gross unrecognized tax benefits at May 31, 2026 was $20.3 million, excluding a related liability of $5.2 million for gross interest and penalties. As of May 25, 2025, our gross liability for unrecognized tax benefits was $11.0 million, excluding a related liability of $3.6 million for gross interest and penalties. Interest and penalties recognized in the Consolidated Statements of Operations was expense of $1.6 million, a benefit of $0.5 million, and a benefit of $1.4 million in fiscal 2026, 2025, and 2024, respectively.

The net amount of unrecognized tax benefits at May 31, 2026 and May 25, 2025 that, if recognized, would favorably impact our effective tax rate was $18.4 million and $9.3 million, respectively.

Notes to Consolidated Financial Statements
Fiscal Years Ended May 31, 2026, May 25, 2025, and May 26, 2024
(columnar dollars in millions except per share amounts)

We accrue interest and penalties associated with uncertain tax positions as part of income tax expense.

We conduct business and file tax returns in numerous countries, states, and local jurisdictions. The U.S. Internal Revenue Service ("IRS") has completed its audit of the Company for tax years through fiscal 2025. All resulting significant items for fiscal 2025 and prior years have been settled with the IRS. Statutes of limitation for pre-acquisition tax years of Pinnacle generally remain open for calendar year 2005 and subsequent years principally related to net operating losses. Other major jurisdictions where we conduct business generally have statutes of limitations ranging from three to five years.

The change in the unrecognized tax benefits for the fiscal years ended May 31, 2026 and May 25, 2025 was as follows:

	May 31, 2026	May 25, 2025
Beginning balance	$ 11.0	$ 21.7
Increases from positions established during prior periods	19.5	0.9
Decreases from positions established during prior periods	(6.6)	(0.8)
Increases from positions established during the current period	1.0	0.8
Reductions resulting from lapse of applicable statute of limitation	(3.1)	(2.0)
Decrease from audit settlements	(1.6)	(9.3)
Other adjustments to liability	0.1	(0.3)
Ending balance	$ 20.3	$ 11.0

We have approximately $22.6 million in foreign net operating loss carryforwards which expire between fiscal 2044 and 2046 and $17.1 million of federal net operating loss carryforwards which expire in fiscal 2027. Included in net deferred tax liabilities are $15.9 million of tax effected state net operating loss carryforwards which expire in various years ranging from fiscal 2027 to 2046 and $1.8 million of tax effected state capital loss balances that expire between fiscal 2027 and 2037. Foreign tax credits of $22.4 million will expire between fiscal 2027 and 2036. State tax credits of approximately $2.0 million will expire in various years ranging from fiscal 2027 to 2031.

In fiscal 2022, we reflected additional tax expense of $25.0 million related to tax elections made in conjunction with filing our fiscal 2021 federal tax return. During fiscal 2025, interactions with the U.S. Internal Revenue Service (IRS) regarding these tax elections make the realization of certain deferred tax assets likely. The realization of these deferred tax assets allows for both current and future tax deductions through 2036 and resulted in an income tax benefit of approximately $225.8 million.

We have recognized a valuation allowance for the portion of the net operating loss carryforwards, capital loss carryforwards, tax credit carryforwards, and other deferred tax assets we believe are not more likely than not to be realized. The net change in the valuation allowance for fiscal 2026 was an increase of $4.1 million, principally related to certain tax assets being utilized in relation to the disposition of held for sale assets offset by impacts from tax law changes. The net change in the valuation allowance for fiscal 2025 was a decrease of $247.8 million, principally related to a federal audit settlement and future generation of income from the disposition of held for sale assets allowing certain tax attributes to be utilized.

We have previously made the assessment that the current earnings of certain foreign subsidiaries were not indefinitely reinvested or that we could not remit to the U.S. parent in a tax-neutral transaction. Accordingly, we have recorded a deferred tax liability of $2.2 million on approximately $43.8 million of earnings at May 31, 2026. The deferred tax liability relates to local withholding taxes that will be owed when this cash is distributed. In the first quarter of fiscal 2025, we paid $16.9 million of withholding taxes previously accrued in connection with the restructuring of our ownership interest in Ardent Mills. The undistributed historic earnings in our foreign subsidiaries through May 30, 2021 are considered to be indefinitely reinvested or can be remitted in a tax-neutral transaction. Accordingly, we have not recorded a deferred tax liability related to these undistributed historic earnings.

On July 4, 2025, the "One Big Beautiful Bill Act" (the "Act") was enacted into law. The Act includes changes to U.S. tax law that were applicable to Conagra beginning in fiscal 2026. These changes included provisions allowing accelerated tax deductions for qualified property and research expenditures as well as allocation assumptions impacting certain tax attributes.

Notes to Consolidated Financial Statements
Fiscal Years Ended May 31, 2026, May 25, 2025, and May 26, 2024
(columnar dollars in millions except per share amounts)

15. LEASES

We have operating and finance leases of certain warehouses, plants, land, office space, production and distribution equipment, automobiles, and office equipment. We determine whether an agreement is or contains a lease at lease inception. Right-of-use ("ROU") assets represent our right to use an underlying asset for the lease term and lease liabilities represent our obligation to make lease payments arising from the lease.

As most of our leases do not provide an implicit interest rate, we calculate the lease liability at lease commencement as the present value of unpaid lease payments using our estimated incremental borrowing rate. The incremental borrowing rate represents the rate of interest that we would have to pay to borrow an amount equal to the lease payments on a collateralized basis over a similar term and is determined using a portfolio approach based on information available at the commencement date of the lease.

We have elected not to separate lease and non-lease components of an agreement for all underlying asset classes prospectively from the ASU 2016-02, *Leases, Topic 842* adoption date.

Any lease arrangements with an initial term of twelve months or less are not recorded on our Consolidated Balance Sheet. We recognize lease cost for these lease arrangements on a straight-line basis over the lease term.

Our lease terms may include options to extend or terminate the lease. We consider these options in determining the lease term used to establish our ROU asset and lease liabilities. A limited number of our lease agreements include rental payments adjusted periodically for inflation. Our lease agreements do not contain any material residual value guarantees or material restrictive covenants.

Leases reported in our Consolidated Balance Sheets were as follows, excluding balances related to assets and liabilities classified as held for sale:

	Operating Leases		
	Balance Sheet Location	May 31, 2026	May 25, 2025
ROU assets, net	Other assets	$ 170.7	$ 209.7
Lease liabilities (current)	Other accrued liabilities	36.0	39.7
Lease liabilities (noncurrent)	Other noncurrent liabilities	170.7	203.3

	Finance Leases		
	Balance Sheet Location	May 31, 2026	May 25, 2025
ROU assets, at cost	Property, plant and equipment	$ 320.9	$ 364.9
Less accumulated depreciation	Less accumulated depreciation	(94.0)	(98.3)
ROU assets, net	Property, plant and equipment, net	226.9	266.6
Lease liabilities (current)	Current installments of long-term debt	16.1	29.4
Lease liabilities (noncurrent)	Senior long-term debt, excluding current installments	224.3	237.8

The components of total lease cost were as follows:

	2026	2025	2024
Operating lease cost	$ 48.1	$ 47.6	$ 53.1
Finance lease cost			
Depreciation of leased assets	21.1	23.4	23.2
Interest on lease liabilities	13.3	13.7	12.0
Short-term lease cost	10.2	7.9	11.2
Total lease cost	$ 92.7	$ 92.6	$ 99.5

Notes to Consolidated Financial Statements
Fiscal Years Ended May 31, 2026, May 25, 2025, and May 26, 2024
(columnar dollars in millions except per share amounts)

The weighted-average remaining lease terms and weighted-average discount rate for our leases as of May 31, 2026 and May 25, 2025 were as follows:

	Operating Leases		Finance Leases	
	2026	2025	2026	2025
Weighted-average remaining lease term (in years)	6.3	6.8	13.5	13.8
Weighted-average discount rate	4.35%	4.15%	5.33%	5.26%

Cash flows arising from lease transactions were as follows:

	2026	2025	2024
Cash paid for amounts included in the measurement of lease liabilities:			
Operating cash outflows from operating leases	$ 55.2	$ 51.0	$ 52.1
Operating cash outflows from finance leases	13.3	13.7	5.8
Financing cash outflows from finance leases	31.0	31.3	22.7
ROU assets obtained in exchange for new lease liabilities:			
Operating leases	6.3	77.3	27.5
Finance leases	4.3	24.0	177.3

Maturities of lease liabilities by fiscal year as of May 31, 2026 were as follows (inclusive of amounts classified as held for sale):

	Operating Leases	Finance Leases	Total
2027	$ 44.2	$ 28.1	$ 72.3
2028	44.2	28.3	72.5
2029	34.9	27.9	62.8
2030	28.6	28.8	57.4
2031	25.9	26.8	52.7
Later years	62.5	206.2	268.7

16. CONTINGENCIES

Litigation Matters

We are party to a number of matters asserting product liability claims against the Company related to certain *Pam*® and other cooking spray products. We have denied liability, however, we cannot predict with certainty the results of these actions. To date, the Company has settled all but a few of these matters. Pursuant to these settlements, the Company paid $141.1 million in fiscal 2026 and $25 million in fiscal 2025 and has agreed to pay an additional $44.3 million in the first quarter of fiscal 2027. In connection with these settlements, the Company has secured insurance recovery from certain applicable insurers, recognizing related insurance receivables of $1.6 million within Receivables as of May 31, 2026 and $81.8 million ($78.4 million within Receivables and $3.4 million within Other assets) as of May 25, 2025. The Company believes adequate provision has been made in its Consolidated Financial Statements for all probable and reasonably estimable losses for the litigation related to the cooking spray products based on information available to us at the time of our evaluation.

In the third quarter of fiscal 2026, a jury entered a verdict against the Company for $25 million in compensatory damages in a lawsuit captioned *Esparza v. Conagra Brands, Inc., et al.*, in which a consumer claimed personal injury due to alleged exposure to diacetyl from *Pam*® butter flavored cooking spray. An initial judgment on the verdict for $22.9 million was entered in the fourth quarter of fiscal 2026, including certain offsets. We are contesting the initial verdict, and a final judgment has not yet been entered. The Company intends to appeal any final judgment. The Company believes adequate provision has been made in its Consolidated Financial

Notes to Consolidated Financial Statements
Fiscal Years Ended May 31, 2026, May 25, 2025, and May 26, 2024
(columnar dollars in millions except per share amounts)

Statements for all probable and reasonably estimable losses from this lawsuit based on information available to us at the time of our evaluation. Additionally, we have put the applicable insurance carriers on notice and are pursuing available insurance coverage.

In 2019, we resolved a legacy litigation matter related to lead-based paint and/or pigment manufactured by an alleged predecessor to the Company during the first half of the 20th century for a total settlement of $101.7 million. The company paid $12.0 million toward that settlement in fiscal 2025 and made the final $16.7 million settlement payment in the second quarter of fiscal 2026.

We are party to various other lawsuits including personal injury, product liability claims (including pending litigation alleging that certain of our products should be considered "ultra-processed" and consumption of such "ultra-processed" products allegedly causes negative health impacts), putative class action lawsuits challenging various product claims made in the Company's product labeling, and matters challenging the Company's wage and hour practices. While we cannot predict with certainty the results of the remaining claims or any other legal proceedings, we do not expect these matters to have a material adverse effect on our financial condition, results of operations, or business.

Our accrual for all litigation matters, including those matters described above, that are probable and estimable, was $47.7 million within Other accrued liabilities as of May 31, 2026 and $204.5 million ($160.2 million within Other accrued liabilities and $44.3 million within Other noncurrent liabilities) as of May 25, 2025.

Environmental Matters

U.S. Securities and Exchange Commission (the "SEC") regulations require us to disclose certain information about environmental proceedings if a governmental authority is a party to such proceedings and such proceedings involve potential monetary sanctions that we reasonably believe will exceed a stated threshold. Pursuant to the SEC regulations, the Company uses a threshold of $1.0 million for purposes of determining whether disclosure of any such proceedings is required.

We are a party to certain environmental proceedings relating to businesses divested by Beatrice prior to our acquisition in fiscal 1991, including litigation and administrative proceedings involving Beatrice's possible status as a potentially responsible party at approximately 35 Superfund, proposed Superfund, or state-equivalent sites (the "Beatrice sites"). The Beatrice sites consist of locations previously owned or operated by predecessors of Beatrice that used or produced petroleum, pesticides, fertilizers, dyes, inks, solvents, polychlorinated biphenyls, acids, lead, sulfur, tannery wastes, and/or other contaminants. Reserves for these Beatrice environmental proceedings have been established based on our best estimate of the undiscounted remediation liabilities, which estimates include evaluation of investigatory studies, extent of required clean-up, the known volumetric contribution of Beatrice and other potentially responsible parties, and its experience in remediating sites. The accrual for Beatrice-related environmental matters totaled $39.4 million ($3.0 million within Other accrued liabilities and $36.4 million within Other noncurrent liabilities) as of May 31, 2026 and $36.0 million ($3.2 million within Other accrued liabilities and $32.8 million within Other noncurrent liabilities) as of May 25, 2025, a majority of which relates to the Superfund and state-equivalent sites referenced above.

General

After taking into account liabilities recognized for all of the foregoing matters, management believes the ultimate resolution of such matters should not have a material adverse effect on our financial condition, results of operations, or liquidity; however, it is reasonably possible that a change of the estimates of any of the foregoing matters may occur in the future that could have a material adverse effect on our financial condition, results of operations, or liquidity.

Costs of legal services associated with the foregoing matters are recognized within SG&A expenses as services are provided.

17. DERIVATIVE FINANCIAL INSTRUMENTS

Our operations are exposed to market risks from adverse changes in commodity prices affecting the cost of raw materials and energy, foreign currency exchange rates, and interest rates. In the normal course of business, these risks are managed through a variety of strategies, including the use of derivatives.

Notes to Consolidated Financial Statements
Fiscal Years Ended May 31, 2026, May 25, 2025, and May 26, 2024
(columnar dollars in millions except per share amounts)

Commodity futures and option contracts are used from time to time to economically hedge commodity input prices on items such as natural gas, vegetable oils, proteins, packaging materials, dairy, grains, diesel fuel and electricity. Generally, we economically hedge a portion of our anticipated consumption of commodity inputs for periods of up to 36 months. We may enter into longer-term economic hedges on particular commodities, if deemed appropriate. As of May 31, 2026, we had economically hedged certain portions of our anticipated consumption of commodity inputs using derivative instruments with expiration dates through June 2027.

In order to reduce exposures related to changes in foreign currency exchange rates, we enter into forward exchange, option, or swap contracts from time to time for transactions denominated in a currency other than the applicable functional currency. This includes hedging against foreign currency risk in purchasing inventory and capital equipment, sales of finished goods, and future settlement of foreign-denominated assets and liabilities. As of May 31, 2026, we had economically hedged certain portions of our foreign currency risk in anticipated transactions using derivative instruments with expiration dates through February 2027.

From time to time, we may use derivative instruments, including interest rate swaps, to reduce risk related to changes in interest rates. This includes hedging against increasing interest rates prior to the issuance of long-term debt and hedging the fair value of our senior long-term debt.

Derivatives Designated as Cash Flow Hedges

During the first quarter of fiscal 2019, we entered into deal-contingent forward starting interest rate swap contracts to hedge a portion of the interest rate risk related to our issuance of long-term debt to help finance the acquisition of Pinnacle. We settled these contracts during the second quarter of fiscal 2019 and deferred a $47.5 million gain in accumulated other comprehensive income that is being amortized as a reduction of interest expense over the lives of the related debt instruments. The unamortized amount at May 31, 2026 was $23.0 million.

Economic Hedges of Forecasted Cash Flows

Many of our derivatives do not qualify for, and we do not currently designate certain commodity or foreign currency derivatives to achieve, hedge accounting treatment. We reflect realized and unrealized gains and losses from derivatives used to economically hedge anticipated commodity consumption and to mitigate foreign currency cash flow risk in earnings immediately within general corporate expense (within cost of goods sold). The gains and losses are reclassified to segment operating results in the period in which the underlying item being economically hedged is recognized in cost of goods sold. In the event that management determines a particular derivative entered into as an economic hedge of a forecasted commodity purchase has ceased to function as an economic hedge, we cease recognizing further gains and losses on such derivatives in corporate expense and begin recognizing such gains and losses within segment operating results immediately.

The following table presents the net derivative gains (losses) from economic hedges of forecasted commodity consumption and the foreign currency risk of certain forecasted transactions, under this methodology:

	2026	2025	2024
Net derivative gains incurred	$ 8.0	$ 6.8	$ 2.9
Less: Net derivative gains (losses) allocated to reporting segments	4.4	(1.4)	(13.2)
Net derivative gains recognized in general corporate expenses	$ 3.6	$ 8.2	$ 16.1
Net derivative gains (losses) allocated to Grocery & Snacks	$ 8.8	$ (4.8)	$ (6.1)
Net derivative gains (losses) allocated to Refrigerated & Frozen	1.6	(3.1)	(1.2)
Net derivative gains (losses) allocated to International	(6.8)	7.1	(5.6)
Net derivative gains (losses) allocated to Foodservice	0.8	(0.6)	(0.3)
Net derivative gains (losses) included in segment operating profit	$ 4.4	$ (1.4)	$ (13.2)

As of May 31, 2026, the cumulative amount of net derivative gains from economic hedges that had been recognized in general corporate expenses and not yet allocated to reporting segments was $6.7 million. This amount reflected net gains of $6.4 million incurred during the fiscal year ended May 31, 2026, as well as net gains of $0.3 million incurred prior to fiscal 2026. Based on our forecasts of the timing of recognition of the underlying hedged items, we expect to reclassify to segment operating results net gains of $6.5 million in fiscal 2027 and net gains of $0.2 million in fiscal 2028 and thereafter.

Notes to Consolidated Financial Statements
Fiscal Years Ended May 31, 2026, May 25, 2025, and May 26, 2024
(columnar dollars in millions except per share amounts)

Economic Hedges of Fair Values — Foreign Currency Exchange Rate Risk

We may use options and cross currency swaps to economically hedge the fair value of certain monetary assets and liabilities (including intercompany balances) denominated in a currency other than the functional currency. These derivatives are marked-to-market with gains and losses immediately recognized in SG&A expenses. These substantially offset the foreign currency transaction gains or losses recognized as values of the monetary assets or liabilities being economically hedged change. As of May 25, 2026, and May 26, 2025, there were no derivative instruments used to economically hedge our monetary assets or liabilities.

All derivative instruments are recognized in our Consolidated Balance Sheets at fair value (refer to Note 19 for additional information related to fair value measurements). The fair value of derivative assets is recognized within prepaid expenses and other current assets, while the fair value of derivative liabilities is recognized within other accrued liabilities. In accordance with U.S. GAAP, we offset certain derivative asset and liability balances, as well as certain amounts representing rights to reclaim cash collateral and obligations to return cash collateral, where master netting agreements provide for legal right of setoff. At May 31, 2026 and May 25, 2025, amounts representing a right to reclaim cash collateral of $2.5 million and $0.2 million, respectively, were included in prepaid expenses and other current assets in our Consolidated Balance Sheets.

Derivative assets and liabilities and amounts representing a right to reclaim cash collateral or obligation to return cash collateral were reflected in our Consolidated Balance Sheets as follows:

	May 31, 2026	May 25, 2025
Prepaid expenses and other current assets	$ 4.7	$ 4.7
Other accrued liabilities	1.6	5.1

The following table presents our derivative assets and liabilities at May 31, 2026, on a gross basis, prior to the setoff of $0.9 million to total derivative assets and $1.6 million to total derivative liabilities where legal right of setoff existed:

	Derivative Assets		Derivative Liabilities	
	Balance Sheet Location	Fair Value	Balance Sheet Location	Fair Value
Commodity contracts	Prepaid expenses and other current assets	$ 3.7	Other accrued liabilities	$ 1.6
Foreign exchange contracts	Prepaid expenses and other current assets	0.1	Other accrued liabilities	1.6
Total derivatives not designated as hedging instruments		$ 3.8		$ 3.2

The following table presents our derivative assets and liabilities, at May 25, 2025, on a gross basis, prior to the setoff of $0.8 million to total derivative assets and $1.1 million to total derivative liabilities where legal right of setoff existed:

	Derivative Assets		Derivative Liabilities	
	Balance Sheet Location	Fair Value	Balance Sheet Location	Fair Value
Commodity contracts	Prepaid expenses and other current assets	$ 5.5	Other accrued liabilities	$ 2.6
Foreign exchange contracts	Prepaid expenses and other current assets	—	Other accrued liabilities	3.6
Total derivatives not designated as hedging instruments		$ 5.5		$ 6.2

Notes to Consolidated Financial Statements
Fiscal Years Ended May 31, 2026, May 25, 2025, and May 26, 2024
(columnar dollars in millions except per share amounts)

The location and amount of gains (losses) from derivatives not designated as hedging instruments in our Consolidated Statements of Operations were as follows:

	For the Fiscal Year Ended May 31, 2026	
Derivatives Not Designated as Hedging Instruments	**Location in Consolidated Statement of Operations of Gains (Losses) Recognized on Derivatives**	**Amount of Gains (Losses) Recognized on Derivatives in Consolidated Statement of Operations**
Commodity contracts	Cost of goods sold	$ 13.7
Foreign exchange contracts	Cost of goods sold	(5.7)
Total gains from derivative instruments not designated as hedging instruments		$ 8.0

	For the Fiscal Year Ended May 25, 2025	
Derivatives Not Designated as Hedging Instruments	**Location in Consolidated Statement of Operations of Gains Recognized on Derivatives**	**Amount of Gains Recognized on Derivatives in Consolidated Statement of Operations**
Commodity contracts	Cost of goods sold	$ 2.5
Foreign exchange contracts	Cost of goods sold	4.3
Total gains from derivative instruments not designated as hedging instruments		$ 6.8

	For the Fiscal Year Ended May 26, 2024	
Derivatives Not Designated as Hedging Instruments	**Location in Consolidated Statement of Operations of Gains (Losses) Recognized on Derivatives**	**Amount of Gains (Losses) Recognized on Derivatives in Consolidated Statement of Operations**
Commodity contracts	Cost of goods sold	$ 6.9
Foreign exchange contracts	Cost of goods sold	(4.0)
Total gains from derivative instruments not designated as hedging instruments		$ 2.9

As of May 31, 2026, our open commodity contracts had a notional value (defined as notional quantity times market value per notional quantity unit) of $77.6 million for purchase contracts. As of May 25, 2025, our open commodity contracts had a notional value of $140.2 million for purchase contracts. The notional amount of our foreign currency forward and cross currency swap contracts as of May 31, 2026 and May 25, 2025 was $95.2 million and $93.5 million, respectively.

We enter into certain commodity, interest rate, and foreign exchange derivatives with a diversified group of counterparties. We continually monitor our positions and the credit ratings of the counterparties involved and limit the amount of credit exposure to any one party. These transactions may expose us to potential losses due to the risk of nonperformance by these counterparties. We have not incurred a material loss due to nonperformance in any period presented and do not expect to incur any such material loss. We also enter into futures and options transactions through various regulated exchanges.

At May 31, 2026, the maximum amount of loss due to the credit risk of the counterparties, had the counterparties failed to perform according to the terms of the contracts was immaterial.

18. PENSION AND POSTRETIREMENT BENEFITS

We have defined benefit retirement plans (“pension plans”) for eligible salaried and hourly employees. Benefits are based on years of credited service and average compensation or stated amounts for each year of service. We also sponsor postretirement plans which provide certain medical and dental benefits to qualifying U.S. employees. Effective August 1, 2013, our defined benefit pension plan for eligible salaried employees was closed to new hire salaried employees. New hire salaried employees will generally be eligible to participate in our defined contribution plan.

Notes to Consolidated Financial Statements
Fiscal Years Ended May 31, 2026, May 25, 2025, and May 26, 2024
(columnar dollars in millions except per share amounts)

During fiscal 2026, in connection with the termination and settlement of a pension plan for the benefit of certain hourly employees, we transferred $40.3 million of our U.S. defined benefit pension plan obligations to an insurance company through the purchase of an irrevocable group annuity contract. The group annuity contract was purchased and funded directly from the assets of our pension plans, resulting in an immaterial actuarial loss in other comprehensive income. As a result of this transaction, we recognized a noncash pre-tax settlement loss of $2.7 million in pension and postretirement non-service income in the fourth quarter of fiscal 2026.

During fiscal 2025, we transferred $760.6 million of our U.S. defined benefit pension plan obligations to an insurance company through the purchase of an irrevocable group annuity contract (the "U.S. buy-out contract"). This included approximately 22,000 retired participants in the salaried and hourly pension plans. The group annuity contract was purchased and funded directly with $678.3 million from the assets of our pension plans, resulting in an actuarial gain of $82.3 million in other comprehensive income (loss). As a result of this transaction, we recognized a noncash pre-tax settlement gain of $13.0 million in pension and postretirement non-service income in the fourth quarter of fiscal 2025.

During the second quarter of fiscal 2024, the Company provided a voluntary lump-sum settlement offer to certain vested participants in the salaried and hourly pension plans in order to reduce a portion of the pension obligation. During the third quarter of fiscal 2024, approximately $135 million was distributed from the pension plan assets in connection with this offer. The lump-sum settlement did exceed our service and interest cost for our hourly pension plans, which required a remeasurement in the third quarter of fiscal 2024. In connection with the remeasurement, we updated the effective discount rate assumption for the impacted pension plan obligations from 5.52% to 5.20%, as of December 31, 2023. The settlement and related remeasurement resulted in the recognition of an immaterial settlement loss, reflected in pension and postretirement non-service income, as well as a loss in other comprehensive income (loss) totaling $6.8 million in the third quarter of fiscal 2024.

We recognize the funded status of our pension and postretirement plans in the Consolidated Balance Sheets. For our pension plans, we also recognize as a component of accumulated other comprehensive income, the net of tax results of the actuarial gains or losses within the corridor and prior service costs or credits that arise during the period but are not recognized in net periodic benefit cost. For our postretirement plans, we also recognize as a component of accumulated other comprehensive income, the net of tax results of the gains or losses and prior service costs or credits that arise during the period but are not recognized in net periodic benefit cost. These amounts will be adjusted out of accumulated other comprehensive income as they are subsequently recognized as components of net periodic benefit cost. For our pension plans, we have elected to immediately recognize actuarial gains and losses in our operating results in the year in which they occur, to the extent they exceed the corridor, eliminating amortization. Amounts are included in the components of pension and postretirement plan costs, below, as recognized net actuarial loss (gain).

The changes in benefit obligations and plan assets at May 31, 2026 and May 25, 2025 are presented in the following table.

	Pension Plans		Postretirement Plans	
	2026	2025	2026	2025
Change in Benefit Obligation				
Benefit obligation at beginning of year	$ 1,693.8	$ 2,574.7	$ 48.3	$ 48.1
Service cost	5.4	5.5	0.1	0.1
Interest cost	87.8	136.1	2.2	2.4
Amendments	1.5	0.1	—	—
Actuarial loss (gain)	66.5	(148.6)	(0.4)	4.4
Plan settlements	(40.3)	(679.4)	—	—
Benefits paid	(138.9)	(194.6)	(5.9)	(6.7)
Benefit obligation at end of year	$ 1,675.8	$ 1,693.8	$ 44.3	$ 48.3
Change in Plan Assets				
Fair value of plan assets at beginning of year	$ 1,946.8	$ 2,738.9	$ —	$ 3.7
Actual return on plan assets	173.5	70.0	—	(3.7)
Employer contributions	11.4	11.9	5.9	6.7
Plan settlements	(40.3)	(679.4)	—	—
Benefits paid	(138.9)	(194.6)	(5.9)	(6.7)
Fair value of plan assets at end of year	$ 1,952.5	$ 1,946.8	$ —	$ —

Notes to Consolidated Financial Statements
Fiscal Years Ended May 31, 2026, May 25, 2025, and May 26, 2024
(columnar dollars in millions except per share amounts)

The $66.5 million actuarial loss increasing our projected benefit obligation at the end of fiscal 2026 is principally related to the decrease in the discount rate from 5.91% to 5.65%.

The funded status and amounts recognized in our Consolidated Balance Sheets at May 31, 2026 and May 25, 2025 were as follows:

	Pension Plans		Postretirement Plans	
	2026	2025	2026	2025
Funded Status	$ 276.7	$ 253.0	$ (44.3)	$ (48.3)
Amounts Recognized in Consolidated Balance Sheets				
Other assets	$ 359.5	$ 342.8	$ —	$ —
Other accrued liabilities	(8.5)	(9.4)	(6.1)	(6.6)
Other noncurrent liabilities	(74.3)	(80.4)	(38.2)	(41.7)
Net Amount Recognized	$ 276.7	$ 253.0	$ (44.3)	$ (48.3)
Amounts Recognized in Accumulated Other Comprehensive Income (Pre-tax)				
Actuarial net gain	$ (24.6)	$ (49.6)	$ (29.9)	$ (33.1)
Net prior service cost (benefit)	6.8	6.8	(4.0)	(5.7)
Total	$ (17.8)	$ (42.8)	$ (33.9)	$ (38.8)
Weighted-Average Actuarial Assumptions Used to Determine Benefit Obligations at May 31, 2026 and May 25, 2025				
Discount rate	5.65%	5.91%	5.32%	5.43%
Long-term rate of compensation increase	N/A	N/A	N/A	N/A

The accumulated benefit obligation for all defined benefit pension plans was $1.68 billion and $1.69 billion at May 31, 2026 and May 25, 2025, respectively.

The projected benefit obligation and accumulated benefit obligation for pension plans with accumulated benefit obligations in excess of plan assets at May 31, 2026 and May 25, 2025 were as follows:

	2026	2025
Projected benefit obligation	$ 82.7	$ 89.8
Accumulated benefit obligation	82.7	89.8

Components of pension and postretirement plan costs included:

	Pension Plans			Postretirement Plans		
	2026	2025	2024	2026	2025	2024
Service cost	$ 5.4	$ 5.5	$ 5.8	$ 0.1	$ 0.1	$ 0.1
Interest cost	87.8	136.1	144.7	2.2	2.4	2.5
Expected return on plan assets	(109.6)	(146.3)	(141.3)	—	—	—
Amortization of prior service cost (benefit)	1.5	1.6	1.6	(1.7)	(1.7)	(1.7)
Recognized net actuarial gain	(25.2)	(3.5)	(12.5)	(3.6)	(1.5)	(4.7)
Settlement loss (gain)	2.7	(13.0)	1.1	—	—	—
Pension and postretirement cost (benefit) — Company plans	(37.4)	(19.6)	(0.6)	(3.0)	(0.7)	(3.8)
Pension cost (benefit) — multi-employer plans	9.1	9.5	9.0	—	—	—
Total pension and postretirement cost (benefit)	$ (28.3)	$ (10.1)	$ 8.4	$ (3.0)	$ (0.7)	$ (3.8)

In fiscal 2026, 2025, and 2024, the Company recorded gains of $25.2 million, $3.5 million, and $12.5 million, respectively, reflecting the year-end write-off of actuarial gains and losses in excess of 10% of our pension liability.

Notes to Consolidated Financial Statements
Fiscal Years Ended May 31, 2026, May 25, 2025, and May 26, 2024
(columnar dollars in millions except per share amounts)

Other changes in plan assets and benefit obligations recognized in other comprehensive income (loss) were as follows:

	Pension Plans		Postretirement Plans	
	2026	2025	2026	2025
Net actuarial gain (loss)	$ (2.5)	$ 72.3	$ 0.4	$ (8.2)
Amendments	(1.5)	(0.1)	—	—
Amortization of prior service cost (benefit)	1.5	1.6	(1.7)	(1.7)
Settlement loss (gain)	2.7	(13.0)	—	—
Recognized net actuarial gain	(25.2)	(3.5)	(3.6)	(1.5)
Net amount recognized	$ (25.0)	$ 57.3	$ (4.9)	$ (11.4)

Weighted-Average Actuarial Assumptions Used to Determine Net Expense

	Pension Plans			Postretirement Plans		
	2026	2025	2024	2026	2025	2024
Discount rate - interest cost	5.41%	5.51%	5.41%	4.97%	5.38%	5.36%
Discount rate - service cost	6.17%	5.72%	5.60%	5.53%	5.22%	5.31%
Long-term rate of return on plan assets	5.89%	5.53%	5.00%	N/A	N/A	N/A
Long-term rate of compensation increase	N/A	N/A	N/A	N/A	N/A	N/A

The Company uses a split discount rate (spot-rate approach) for the U.S. plans and certain foreign plans. The spot-rate approach applies separate discount rates for each projected benefit payment in the calculation of pension service and interest cost.

We amortize prior service cost for our pension and postretirement plans, as well as amortizable gains and losses for our postretirement plans, in equal annual amounts over the average expected future period of vested service. For plans with no active participants, average life expectancy is used instead of average expected useful service.

Plan Assets

The fair value of plan assets, summarized by level within the fair value hierarchy described in Note 19, as of May 31, 2026, was as follows:

	Level 1	Level 2	Level 3	Total
Cash and cash equivalents	$ 8.6	$ 83.3	$ —	$ 91.9
Equity securities:				
U.S. equity securities	87.7	9.5	—	97.2
International equity securities	45.0	—	—	45.0
Fixed income securities:				
Government bonds	—	736.3	—	736.3
Corporate bonds	—	816.6	—	816.6
Mortgage-backed bonds	—	81.5	—	81.5
Net payables for unsettled transactions	(60.7)	—	—	(60.7)
Fair value measurement of pension plan assets in the fair value hierarchy	$ 80.6	$ 1,727.2	$ —	$ 1,807.8
Investments measured at net asset value				144.7
Total pension plan assets				$ 1,952.5

Notes to Consolidated Financial Statements
Fiscal Years Ended May 31, 2026, May 25, 2025, and May 26, 2024
(columnar dollars in millions except per share amounts)

The fair value of plan assets, summarized by level within the fair value hierarchy described in Note 19, as of May 25, 2025, was as follows:

	Level 1	Level 2	Level 3	Total
Cash and cash equivalents	$ (0.3)	$ 93.4	$ —	$ 93.1
Equity securities:				
U.S. equity securities	73.6	25.3	—	98.9
International equity securities	38.3	—	—	38.3
Fixed income securities:				
Government bonds	—	373.5	—	373.5
Corporate bonds	—	1,145.9	—	1,145.9
Mortgage-backed bonds	—	78.0	—	78.0
Net payables for unsettled transactions	(43.0)	—	—	(43.0)
Fair value measurement of pension plan assets in the fair value hierarchy	$ 68.6	$ 1,716.1	$ —	$ 1,784.7
Investments measured at net asset value				162.1
Total pension plan assets				$ 1,946.8

Level 1 assets are valued based on quoted prices in active markets for identical securities. The majority of the Level 1 assets listed above include the common stock of both U.S. and international companies, mutual funds, and master limited partnership units, all of which are actively traded and priced in the market.

Level 2 assets are valued based on other significant observable inputs including quoted prices for similar securities, yield curves, indices, etc. Level 2 assets consist primarily of individual fixed income securities where values are based on quoted prices of similar securities and observable market data.

Level 3 assets consist of investments where active market pricing is not readily available and, as such, fair value is estimated using significant unobservable inputs.

Certain assets that are measured at fair value using the net asset value ("NAV") per share (or its equivalent) practical expedient have not been classified in the fair value hierarchy. Such investments are generally considered long-term in nature with varying redemption availability. For certain of these investments, with a fair value of approximately $21.9 million as of May 31, 2026, the asset managers have the ability to impose customary redemption gates which may further restrict or limit the redemption of invested funds therein. As of May 31, 2026, no such gates were imposed.

As of May 31, 2026, we have unfunded commitments for additional investments of $32.0 million in private equity funds and $5.4 million in natural resources funds. We expect unfunded commitments to be funded from plan assets rather than the general assets of the Company.

To develop the expected long-term rate of return on plan assets assumption for the pension plans, we consider the current asset allocation strategy, the historical investment performance, and the expectations for future returns of each asset class.

Our pension plan weighted-average asset allocations by asset category were as follows:

	May 31, 2026	May 25, 2025
Equity securities	8%	7%
Debt securities	82%	81%
Real estate funds	1%	1%
Private equity	3%	4%
Other	6%	7%
Total	100%	100%

Notes to Consolidated Financial Statements
Fiscal Years Ended May 31, 2026, May 25, 2025, and May 26, 2024
(columnar dollars in millions except per share amounts)

The Company's pension asset strategy is designed to align our pension plan assets with our projected benefit obligation to reduce volatility by targeting an investment strategy of approximately 90% in fixed-income securities and approximately 10% in return seeking assets, primarily equity securities, real estate, and private assets.

Assumed health care cost trend rates have a significant effect on the benefit obligation of the postretirement plans.

Assumed Health Care Cost Trend Rates at:	May 31, 2026	May 25, 2025
Initial health care cost trend rate	6.82%	6.67%
Ultimate health care cost trend rate	4.00%	4.42%
Year that the rate reaches the ultimate trend rate	2050	2033

We currently anticipate making contributions of approximately $10.3 million to our pension plans in fiscal 2027. We anticipate making contributions of $6.1 million to our other postretirement plans in fiscal 2027. These estimates are based on ERISA guidelines, current tax laws, plan asset performance, and liability assumptions, which are subject to change.

The following table presents estimated future gross benefit payments for our plans:

	Pension Plans	Postretirement Plans
2027	$ 133.8	$ 6.1
2028	125.4	5.5
2029	126.2	5.0
2030	126.8	4.6
2031	127.0	4.2
Succeeding 5 years	628.5	16.1

Multiemployer Pension Plans

The Company contributes to several multiemployer defined benefit pension plans under collective bargaining agreements that cover certain units of its union-represented employees. The risks of participating in such plans are different from the risks of single-employer plans, in the following respects:

a. Assets contributed to a multiemployer plan by one employer may be used to provide benefits to employees of other participating employers.

b. If a participating employer ceases to contribute to the plan, the unfunded obligations of the plan may be borne by the remaining participating employers.

c. If the Company ceases to have an obligation to contribute to a multiemployer plan in which it had been a contributing employer, it may be required to pay to the plan an amount based on the underfunded status of the plan and on the history of the Company's participation in the plan prior to the cessation of its obligation to contribute. The amount that an employer that has ceased to have an obligation to contribute to a multiemployer plan is required to pay to the plan is referred to as a withdrawal liability.

The Company's participation in multiemployer plans for the fiscal year ended May 31, 2026 is outlined in the table below. For each plan that is individually significant to the Company the following information is provided:

- The "EIN / PN" column provides the Employer Identification Number and the three-digit plan number assigned to a plan by the IRS.
- The most recent Pension Protection Act Zone Status available for 2025 and 2024 is for plan years that ended in calendar years 2025 and 2024, respectively. The zone status is based on information provided to the Company by each plan. A plan in the "red" zone has been determined to be in "critical status", based on criteria established under the

Notes to Consolidated Financial Statements
Fiscal Years Ended May 31, 2026, May 25, 2025, and May 26, 2024
(columnar dollars in millions except per share amounts)

Internal Revenue Code ("Code"), and is generally less than 65% funded. A plan in the "yellow" zone has been determined to be in "endangered status", based on criteria established under the Code, and is generally less than 80% funded. A plan in the "green" zone has been determined to be neither in "critical status" nor in "endangered status", and is generally at least 80% funded.

- The "FIP/RP Status Pending/Implemented" column indicates whether a Funding Improvement Plan, as required under the Code to be adopted by plans in the "yellow" zone, or a Rehabilitation Plan, as required under the Code to be adopted by plans in the "red" zone, is pending or has been implemented by the plan as of the end of the plan year that ended in calendar year 2025.
- Contributions by the Company are the amounts contributed in the Company's fiscal periods ending in the specified year.
- The "Surcharge Imposed" column indicates whether the Company contribution rate for its fiscal year that ended on May 31, 2026 included an amount in addition to the contribution rate specified in the applicable collective bargaining agreement, as imposed by a plan in "critical status", in accordance with the requirements of the Code.
- The last column lists the expiration dates of the collective bargaining agreements pursuant to which the Company contributes to the plans.

For plans that are not individually significant to Conagra Brands the total amount of contributions is presented in the aggregate.

		Pension Protection Act Zone Status		FIP / RP Status Pending / Implemented	Contributions by the Company (millions)				Expiration Dates of Collective Bargaining Agreements
Pension Fund	EIN / PN	2025	2024		FY26	FY25	FY24	Surcharge Imposed	
Central States, Southeast and Southwest Areas Pension Fund	36-6044243/001	Red, Critical and Declining	Red, Critical and Declining	RP Implemented	2.5	2.5	2.4	No	5/31/2029
Western Conference of Teamsters Pension Plan	91-6145047/001	Green	Green	N/A	4.5	4.7	4.3	No	4/30/2028
Other Plans					2.1	2.3	2.3		
Total Contributions					$ 9.1	$ 9.5	$ 9.0		

The Company was not listed in the Forms 5500 filed by any of the other plans or for any of the other years as providing more than 5% of the plan's total contributions. At the date our financial statements were issued, Forms 5500 were not available for plan years ending in calendar year 2025.

Certain employees are covered under defined contribution plans. The expense related to these plans was $65.3 million, $66.7 million, and $62.3 million in fiscal 2026, 2025, and 2024, respectively.

19. FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board guidance establishes a three-level fair value hierarchy based upon the assumptions (inputs) used to price assets or liabilities. The three levels of inputs used to measure fair value are as follows:

Level 1 — Unadjusted quoted prices in active markets for identical assets or liabilities,

Level 2 — Observable inputs other than those included in Level 1, such as quoted prices for similar assets and liabilities in active markets or quoted prices for identical assets or liabilities in inactive markets, and

Notes to Consolidated Financial Statements
Fiscal Years Ended May 31, 2026, May 25, 2025, and May 26, 2024
(columnar dollars in millions except per share amounts)

Level 3 — Unobservable inputs reflecting our own assumptions and best estimate of what inputs market participants would use in pricing the asset or liability.

The fair values of our Level 2 derivative instruments were determined using valuation models that use market observable inputs including both forward and spot prices for currencies and commodities. Derivative assets and liabilities included in Level 2 primarily represent commodity and foreign currency option and forward contracts.

The following table presents our financial assets and liabilities measured at fair value on a recurring basis, based upon the level within the fair value hierarchy in which the fair value measurements fall, as of May 31, 2026:

	Level 1	Level 2	Level 3	Total
Assets:				
Derivative assets	$ 3.1	$ 1.6	$ —	$ 4.7
Deferred compensation assets	6.6	—	—	6.6
Available-for-sale debt securities	—	—	2.0	2.0
Total assets	$ 9.7	$ 1.6	$ 2.0	$ 13.3
Liabilities:				
Derivative liabilities	$ —	$ 1.6	$ —	$ 1.6
Deferred compensation liabilities	81.4	—	—	81.4
Total liabilities	$ 81.4	$ 1.6	$ —	$ 83.0

The following table presents our financial assets and liabilities measured at fair value on a recurring basis, based upon the level within the fair value hierarchy in which the fair value measurements fall, as of May 25, 2025:

	Level 1	Level 2	Level 3	Total
Assets:				
Derivative assets	$ 4.7	$ —	$ —	$ 4.7
Deferred compensation assets	6.0	—	—	6.0
Available-for-sale debt securities	—	—	2.2	2.2
Total assets	$ 10.7	$ —	$ 2.2	$ 12.9
Liabilities:				
Derivative liabilities	$ —	$ 5.1	$ —	$ 5.1
Deferred compensation liabilities	70.9	—	—	70.9
Total liabilities	$ 70.9	$ 5.1	$ —	$ 76.0

Nonrecurring Fair Value Measurements

Certain assets and liabilities, including long-lived assets, goodwill, asset retirement obligations, and equity investments are measured at fair value on a nonrecurring basis using Level 3 inputs.

Impairment of Assets Held for Sale

During fiscal 2025 and 2024, we recognized impairment charges totaling $27.2 million in our Refrigerated & Frozen segment and $36.4 million in our International segment, respectively. The impairments were measured based upon the estimated sale prices of the disposal groups (see Note 7).

Impairment of Goodwill and Intangible Assets

We recognized charges for the impairment of certain indefinite-lived brands in fiscal 2026, 2025, and 2024. The fair values of these brands were estimated using the "relief from royalty" method (see Note 9). Impairments in our Grocery & Snacks segment totaled $216.7 million, $11.9 million, and $77.6 million for fiscal 2026, 2025, and 2024, respectively. Impairments in our Refrigerated & Frozen segment totaled $330.5 million, $60.2 million, and $352.6 million for fiscal 2026, 2025, and 2024, respectively.

Notes to Consolidated Financial Statements
Fiscal Years Ended May 31, 2026, May 25, 2025, and May 26, 2024
(columnar dollars in millions except per share amounts)

During fiscal 2026 and 2024, goodwill impairment charges totaling $2.38 billion and $526.5 million, respectively, were recognized within our Refrigerated & Frozen segment. The fair value of the goodwill was measured using a guideline public company method and discounted cash flow valuation method (see Note 9).

Other Asset Impairments

In fiscal 2025, we recognized charges of $64.7 million in our Refrigerated & Frozen segment for the impairment of certain long-lived assets based upon a discounted cash flow valuation model and included in restructuring activities (see Note 3). The impairments were based upon management's intent to exit a manufacturing facility which became probable in fiscal 2025, which reduced the future expected cash flows to be generated at this facility.

In fiscal 2024, we recognized charges for the impairment of certain long-lived assets based upon a discounted cash flow valuation model and included in restructuring activities (see Note 3). Impairments totaled $0.6 million in our Grocery & Snacks segment, $17.7 million in our Refrigerated & Frozen segment, and $14.1 million in our International segment. The majority of these impairment charges were based upon management's decision to exit certain manufacturing facilities in fiscal 2024, which reduced the future expected cash flows to be generated at these facilities.

Long-Term Debt Fair Value

The carrying amount of long-term debt (including current installments) was $7.23 billion as of May 31, 2026 and $7.26 billion as of May 25, 2025. Based on current market rates, the fair value of this debt (Level 2 liabilities) on May 31, 2026 and May 25, 2025 was estimated at $7.05 billion and $7.03 billion, respectively.

20. BUSINESS SEGMENTS AND RELATED INFORMATION

We reflect our results of operations in four reporting segments: Grocery & Snacks, Refrigerated & Frozen, International, and Foodservice.

The Grocery & Snacks reporting segment principally includes branded, shelf-stable food products sold in various retail channels in the United States.

The Refrigerated & Frozen reporting segment includes branded, temperature-controlled food products sold in various retail channels in the United States.

The International reporting segment principally includes branded food products, in various temperature states, sold in various retail and foodservice channels outside of the United States.

The Foodservice reporting segment includes branded and customized food products, including meals, entrees, sauces, and a variety of custom-manufactured culinary products packaged for sale to restaurants and other foodservice establishments primarily in the United States.

We do not aggregate operating segments when determining our reporting segments.

Our chief operating decision maker ("CODM") is identified as our Chief Executive Officer. Our CODM uses segment operating profit in the annual plan and forecasting process and considers year-over-year performance when making decisions about allocating resources to our segments. The CODM also uses segment operating profit as an input to the overall compensation measures under our incentive compensation plans. We believe it is appropriate to disclose this measure to help investors analyze segment performance and trends. Segment operating profit is defined as operating profit excluding the effect of items impacting comparability. Items impacting comparability are gains or losses that our CODM believes have had, or are likely to have, a significant impact on segment operating profit and are not indicative of our core operating results. Items impacting comparability include, when they occur, the impacts of gain or loss on divestitures, restructuring activities, deal costs, unrealized gains/(losses) on commodity and foreign exchange hedges (the unrealized gains and losses are recorded in general corporate expenses until realized; once realized, the gains and losses are recorded in the applicable segment's operating results), impairment losses, certain non-ordinary course legal and regulatory matters, and other

Notes to Consolidated Financial Statements
Fiscal Years Ended May 31, 2026, May 25, 2025, and May 26, 2024
(columnar dollars in millions except per share amounts)

unusual gains or losses that are not part of our measurement of segment performance. Corporate unallocated expense; pension and postretirement non-service income; interest expense, net; and equity method investment earnings are centrally managed costs and have been excluded from segment operating profit.

	2026

[1] Segment cost of goods sold does not include items recorded in the Cost of goods sold line on our income statement that are presented in the Other charges, net line of this table.
[2] Segment SG&A expenses are regularly provided to the CODM as a percent of net sales. Segment SG&A expenses do not include items recorded in the Selling, general and administrative expenses line of our income statement that are presented in the Other charges, net line of this table.
[3] General corporate expenses relate to certain costs that are shared across multiple segments but are not directly attributable, which include executive compensation, share-based payment expense, and costs associated with certain corporate functions.
[4] Other charges include the following: net charges related to our restructuring plans and net gains and losses associated with fire-related costs and insurance proceeds.

The following table presents further disaggregation of our net sales:

	2026	2025	2024
Frozen	$ 3,916.7	$ 3,945.5	$ 4,061.2
Staples			
Other shelf-stable	2,384.6	2,790.8	2,834.1
Refrigerated	725.1	716.8	804.3
Snacks	2,225.5	2,108.5	2,124.6
International	913.9	956.5	1,078.3
Foodservice	1,115.8	1,094.7	1,148.4
Total net sales	$ 11,281.6	$ 11,612.8	$ 12,050.9

To be consistent with how we present certain disaggregated net sales information to investors, we have categorized certain net sales of our segments as “Staples”, which includes all of our U.S. domestic retail refrigerated products and other shelf-stable grocery products. Management continues to regularly review financial results and make decisions about allocating resources based upon the four reporting segments outlined above.

Assets by Segment

The majority of our manufacturing assets are shared across multiple reporting segments. Output from these facilities used by each reporting segment can change over time. Also, working capital balances are not tracked by reporting segment. Therefore, it is impracticable to allocate those assets to the reporting segments, as well as disclose total assets and capital expenditures by segment. Our CODM does not use assets by segment to evaluate performance or allocate resources. Depreciation and amortization are allocated to our reporting segments based on the output of each reporting segment per facility during each reporting period.

Notes to Consolidated Financial Statements
Fiscal Years Ended May 31, 2026, May 25, 2025, and May 26, 2024
(columnar dollars in millions except per share amounts)

The following table presents depreciation and amortization by segment:

	2026	2025	2024
Grocery & Snacks	$ 146.9	$ 153.5	$ 149.2
Refrigerated & Frozen	173.3	163.1	176.2

Foodservice	45.8	45.1	44.5
Total Reporting Segments	380.6	375.9	386.7
Corporate	15.4	14.3	14.2
Total Company	$ 396.0	$ 390.2	$ 400.9

Other Information

Our operations are principally in the United States. With respect to operations outside of the United States, no single foreign country or geographic region was significant with respect to consolidated operations for fiscal 2026, 2025, and 2024. Foreign net sales, including sales by domestic segments to customers located outside of the United States, were approximately $945.4 million, $987.9 million, and $1.11 billion in fiscal 2026, 2025, and 2024, respectively. Our long-lived assets located outside of the United States are not significant.

Our largest customer, Walmart, Inc. and its affiliates, accounted for approximately 29% of consolidated net sales for fiscal 2026 and 2025 and 28% for fiscal 2024, significantly impacting the Grocery & Snacks and Refrigerated & Frozen segments.

Walmart, Inc. and its affiliates accounted for approximately 14% and 16% of consolidated net receivables as of May 31, 2026 and May 25, 2025, respectively.

Report of Independent Registered Public Accounting Firm

To the Stockholders and Board of Directors
Conagra Brands, Inc.:

Opinions on the Consolidated Financial Statements and Internal Control Over Financial Reporting

We have audited the accompanying consolidated balance sheets of Conagra Brands, Inc. and subsidiaries (the Company) as of May 31, 2026 and May 25, 2025, the related consolidated statements of operations, comprehensive income (loss), common stockholders' equity, and cash flows for each of the fiscal years in the three-year period ended May 31, 2026, and the related notes (collectively, the consolidated financial statements). We also have audited the Company's internal control over financial reporting as of May 31, 2026, based on criteria established in *Internal Control – Integrated Framework (2013)* issued by the Committee of Sponsoring Organizations of the Treadway Commission.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of the Company as of May 31, 2026 and May 25, 2025, and the results of its operations and its cash flows for each of the fiscal years in the three-year period ended May 31, 2026, in conformity with U.S. generally accepted accounting principles. Also in our opinion, the Company maintained, in all material respects, effective internal control over financial reporting as of May 31, 2026 based on criteria established in *Internal Control – Integrated Framework (2013)* issued by the Committee of Sponsoring Organizations of the Treadway Commission.

Basis for Opinions

The Company's management is responsible for these consolidated financial statements, for maintaining effective internal control over financial reporting, and for its assessment of the effectiveness of internal control over financial reporting, included in the accompanying Management's Annual Report on Internal Control Over Financial Reporting. Our responsibility is to express an opinion on the Company's consolidated financial statements and an opinion on the Company's internal control over financial reporting based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (PCAOB) and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement, whether due to error or fraud, and whether effective internal control over financial reporting was maintained in all material respects.

Our audits of the consolidated financial statements included performing procedures to assess the risks of material misstatement of the consolidated financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the consolidated financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements. Our audit of internal control over financial reporting included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. Our audits also included performing such other procedures as we considered necessary in the circumstances. We believe that our audits provide a reasonable basis for our opinions.

Definition and Limitations of Internal Control Over Financial Reporting

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention

or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Critical Audit Matter

The critical audit matter communicated below is a matter arising from the current period audit of the consolidated financial statements that was communicated or required to be communicated to the audit committee and that: (1) relates to accounts or disclosures that are material to the consolidated financial statements and (2) involved our especially challenging, subjective, or complex judgments. The communication of a critical audit matter does not alter in any way our opinion on the consolidated financial statements, taken as a whole, and we are not, by communicating the critical audit matter below, providing a separate opinion on the critical audit matter or on the accounts or disclosures to which it relates.

Evaluation of the recoverability of the carrying value of the Birds Eye indefinite-lived intangible asset and goodwill assigned to the Refrigerated & Frozen reporting unit

As discussed in Notes 1 and 9 to the consolidated financial statements, indefinite-lived intangible assets (consisting primarily of brand names and trademarks) and goodwill were $1.25 billion and $8.12 billion, respectively, as of May 31, 2026. For the fiscal year ended May 31, 2026, the Company recorded impairment charges totaling $547.2 million and $2.38 billion on indefinite-lived intangible assets and goodwill, respectively. In assessing indefinite-lived intangible assets and goodwill for impairment, the Company performs either a qualitative or quantitative assessment at least annually or whenever circumstances indicate a potential impairment exists. The Company estimated the fair value of its Birds Eye indefinite-lived intangible asset by using a discounted cash flow method that incorporates an estimated royalty rate that would be charged to a third party for the use of the brand. The Company estimated the fair value of its Refrigerated & Frozen reporting unit by using a combination of a discounted cash flow method and guideline public company method. Impairment charges are recorded for indefinite-lived intangible assets and goodwill with carrying values in excess of their respective estimated fair values.

We identified the evaluation of the recoverability of the carrying value of the Birds Eye indefinite-lived intangible asset and the goodwill assigned to the Refrigerated & Frozen reporting unit as a critical audit matter. Subjective and challenging auditor judgment was required to evaluate certain assumptions used in determining the fair value of these assets. These assumptions included the terminal growth rates, forecasted margins, royalty rate, discount rates, and the earnings before interest, taxes, depreciation, and amortization (EBITDA) market multiple. Changes to these assumptions could have had a significant effect on the Company's assessment of the carrying value of the Birds Eye indefinite-lived intangible asset and the goodwill assigned to the Refrigerated & Frozen reporting unit.

The following are the primary procedures we performed to address this critical audit matter. We evaluated the design and tested the operating effectiveness of certain internal controls over the impairment assessments, including controls over the development of the assumptions described above. To assess the Company's ability to forecast, we compared historical forecasts to actual results. We evaluated the terminal growth rates and forecasted margins, which were also used to support the royalty rate used in the Birds Eye indefinite-lived asset impairment testing, by considering current and past performance, as well as external market and industry outlook data. We also involved valuation professionals with specialized skills and knowledge, who assisted in:

- evaluating the terminal growth rates by comparing them to publicly available market data
- evaluating the royalty rate by determining that the selected royalty rate is supported by the brand name's margin and comparable third-party license agreements
- evaluating the discount rates by comparing each discount rate to a discount rate range that was independently developed using publicly available market data for comparable entities

Notes to Consolidated Financial Statements
Fiscal Years Ended May 31, 2026, May 25, 2025, and May 26, 2024
(columnar dollars in millions except per share amounts)

- evaluating the EBITDA market multiple by comparing it to an EBITDA market multiple range developed using publicly available market data for comparable entities and

- testing the estimated fair values of the Birds Eye indefinite-lived intangible asset and the Refrigerated & Frozen reporting unit using the Company's assumptions and comparing the results to the Company's fair value estimate.

/s/ KPMG LLP

We have served as the Company's auditor since 2005.

Chicago, Illinois
July 15, 2026

ITEM 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

None.

ITEM 9A. CONTROLS AND PROCEDURES

Disclosure Controls and Procedures

The Company's management carried out an evaluation, with the participation of the Company's Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of the Company's disclosure controls and procedures as defined in Rule 13a-15(e) under the Securities Exchange Act of 1934, as amended, as of May 31, 2026. Based upon that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that, as of the end of the period covered by this report, the Company's disclosure controls and procedures were effective.

Internal Control Over Financial Reporting

The Company's management, with the participation of the Company's Chief Executive Officer and Chief Financial Officer, evaluated any change in the Company's internal control over financial reporting that occurred during the quarter ended May 31, 2026 and determined that there was no change in our internal control over financial reporting for the quarter ended May 31, 2026 that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

Management's Annual Report on Internal Control Over Financial Reporting

Conagra Brands' management is responsible for establishing and maintaining adequate internal control over financial reporting of Conagra Brands (as defined in Rule 13a-15(f) under the Securities Exchange Act of 1934, as amended). Conagra Brands' internal control over financial reporting is designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with U.S. generally accepted accounting principles. Conagra Brands' internal control over financial reporting includes those policies and procedures that: (i) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of Conagra Brands; (ii) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with U.S. generally accepted accounting principles, and that receipts and expenditures of Conagra Brands are being made only in accordance with the authorization of management and directors of Conagra Brands; and (iii) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of Conagra Brands' assets that could have a material effect on the financial statements. Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluations of effectiveness to future periods are subject to the risk that controls may become inadequate because of the changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

With the participation of Conagra Brands' Chief Executive Officer and Chief Financial Officer, management assessed the effectiveness of Conagra Brands' internal control over financial reporting as of May 31, 2026. In making this assessment, management used criteria established in *Internal Control-Integrated Framework (2013)*, issued by the Committee of Sponsoring Organizations of the Treadway Commission ("COSO"). As a result of this assessment, management concluded that, as of May 31, 2026, its internal control over financial reporting was effective.

The effectiveness of Conagra Brands' internal control over financial reporting as of May 31, 2026 has been audited by KPMG LLP, an independent registered public accounting firm, as stated in their report, a copy of which is included in this annual report on Form 10-K.

ITEM 9B. OTHER INFORMATION

Trading Arrangements

None of the Company's directors or "officers" (as defined in Rule 16a-1(f) promulgated under the Securities Exchange Act of 1934, as amended) adopted, modified, or terminated a "Rule 10b5-1 trading arrangement" or a "non-Rule 10b5-1 trading arrangement," as each term is defined in Item 408 of Regulation S-K, during the Company's fiscal quarter ended May 31, 2026.

ITEM 9C. DISCLOSURE REGARDING FOREIGN JURISDICTIONS THAT PREVENT INSPECTIONS

Not applicable.

PART III

ITEM 10. DIRECTORS, EXECUTIVE OFFICERS AND CORPORATE GOVERNANCE

Information with respect to our directors will be set forth in the 2026 Proxy Statement under the heading "Proposal 1: Election of Directors," and the information is incorporated herein by reference. There were no material changes to the procedures by which security holders may recommend nominees to our Board during fiscal 2026.

Information regarding our executive officers is included in Part I of this Form 10-K under the heading "Information About Our Executive Officers," as permitted by the Instruction to Item 401 of Regulation S-K.

If applicable, information with respect to compliance with Section 16(a) of the Securities Exchange Act of 1934, as amended, by our directors, executive officers, and holders of more than ten percent of our equity securities will be set forth in the 2026 Proxy Statement under the heading "Information on Stock Ownership—Delinquent Section 16(a) Reports," and the information is incorporated herein by reference.

Information with respect to the Audit / Finance Committee and its financial experts will be set forth in the 2026 Proxy Statement under the heading "Corporate Governance—Board Committees—The Audit / Finance Committee," and the information is incorporated herein by reference.

We have adopted a code of ethics that applies to our Chief Executive Officer, Chief Financial Officer, and Controller. This code of ethics is available on our website at *www.conagrabrands.com* through the "Investors—Corporate Governance Documents" link. If we make any amendments to this code other than technical, administrative, or other non-substantive amendments, or grant any waivers, including implicit waivers, from a provision of this code of conduct to our Chief Executive Officer, Chief Financial Officer, or Controller, we will disclose the nature of the amendment or waiver, its effective date, and to whom it applies on our website at *www.conagrabrands.com* through the "Investors—Corporate Governance Documents" link.

We have adopted two Insider Trading Policies, each governing the purchase, sale and other dispositions of our securities by directors, officers and employees, that are reasonably designed to promote compliance with insider trading laws, rules and regulations and any applicable listing standards. Copies of our policies are filed with this Annual Report on Form 10-K as Exhibit 19.

ITEM 11. EXECUTIVE COMPENSATION

The information required by this item is incorporated by reference from the Company's definitive proxy statement, which will be filed no later than 120 days after May 31, 2026.

ITEM 12. SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT AND RELATED STOCKHOLDER MATTERS

The information required by this item with respect to security ownership of certain beneficial owners and management is incorporated by reference from the Company's definitive proxy statement, which will be filed no later than 120 days after May 31, 2026.

Equity Compensation Plan Information

The following table provides information about shares of our common stock that may be issued under existing equity compensation plans as of our most recent fiscal year-end, May 31, 2026.

Plan Category	Number of Securities to be Issued Upon Exercise of Outstanding Options, Warrants, and Rights (1)	Weighted-Average Exercise Price of Outstanding Options, Warrants, and Rights (2)	Number of Securities Remaining Available for Future Issuance Under Equity Compensation Plans (Excluding Securities Reflected in Column (1)) (3)
Equity compensation plans approved by security holders	8,245,933	$ 35.64	11,340,091
Equity compensation plans not approved by security holders	—	—	—
Total	8,245,933	$ 35.64	11,340,091

(1) Represents shares underlying outstanding awards that have been granted under the terms of the Conagra Brands, Inc. 2023 Stock Plan (the "Plan") and the Conagra Brands, Inc. 2014 Stock Plan. Table amounts are comprised of 2,503,873 shares that could be issued under outstanding performance shares (assuming target achievement); 4,762,409 shares issuable under outstanding restricted stock units; 345,335 shares issuable upon distribution of stock equivalents in our non-employee director deferred compensation plan; and 634,316 shares issuable pursuant to outstanding stock options.

The performance shares are earned and common stock issued if pre-set financial objectives are met. The number of shares issued may be equal to, less than, or greater than the number of outstanding performance shares included in column (1), depending on actual performance. The restricted stock units vest and are payable in common stock on a one-to-one basis after expiration of the time periods set forth in the related agreements. The stock equivalents in our non-employee director deferred compensation plan are issuable in common stock on a one-to-one basis upon distribution on the schedules selected by the participants.

(2) Reflects the weighted-average exercise price of stock options, and does not take into account performance shares, restricted stock units, or stock equivalents, as such securities have no exercise price.

(3) This number reflects securities available for future awards under the Plan.

ITEM 13. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS, AND DIRECTOR INDEPENDENCE

The information required by this item is incorporated by reference from the Company's definitive proxy statement, which will be filed no later than 120 days after May 31, 2026.

ITEM 14. PRINCIPAL ACCOUNTANT FEES AND SERVICES

Our independent registered public accounting firm is KPMG LLP, PCAOB ID: 185.

The information required by this item with respect to principal accountant fees and services is incorporated by reference from the Company's definitive proxy statement, which will be filed no later than 120 days after May 31, 2026.

PART IV

ITEM 15. EXHIBIT AND FINANCIAL STATEMENT SCHEDULES

a) List of documents filed as part of this report:

1. Financial Statements

All financial statements of the Company as set forth under Item 8 of this Annual Report on Form 10-K.

2. Financial Statement Schedules

All financial statement schedules are omitted because they are not applicable, not required, or because the required information is included in the consolidated financial statements, notes thereto.

3. Exhibits

All documents referenced below were filed pursuant to the Securities Exchange Act of 1934, as amended, by Conagra Brands, Inc. (file number 001-07275), unless otherwise noted.
