Cautionary Statement Concerning Forward-Looking Statements

This Quarterly Report on Form 10-Q contains forward-looking statements, within the meaning of the Private Securities Litigation Reform Act of 1995, that reflect our current views with respect to, among other things, our operations and financial performance. Forward-looking statements include all statements that are not historical facts. These forward-looking statements relate to matters such as our industry, business strategy, goals, expectations concerning our market position, future operations, margins, profitability, capital expenditures, liquidity and capital resources, and other financial and operating information. These statements generally can be identified by the use of words such as "anticipate," "assume," "believe," "continue," "could," "estimate," "expect," "intend," "may," "plan," "potential," "predict," "project," "future," "will," "seek," "foreseeable," "outlook," the negative version of these words, or similar terms and phrases.

The forward-looking statements contained in this Quarterly Report on Form 10-Q are based on management's current expectations and are not guarantees of future performance. The forward-looking statements are subject to various risks, uncertainties, assumptions, or changes in circumstances that are difficult to predict or quantify, including those described in our Annual Report on Form 10-K for the fiscal year ended December 28, 2025 (our "Annual Report"). Our expectations, beliefs, and projections are expressed in good faith, and we believe there is a reasonable basis for them. However, there can be no assurance that management's expectations, beliefs, and projections will result or be achieved. Moreover, we operate in a very competitive and rapidly changing environment, and new risks emerge from time to time. Actual results may differ materially from these expectations due to changes in global, regional, or local economic, business, competitive, market, regulatory, and other factors, many of which are beyond our control. We believe that these factors include but are not limited to the following: we operate in a highly competitive industry; our future growth depends on our ability to open new restaurants while managing our growth effectively and maintaining our culture, and our historical growth may not be indicative of our future growth; we may not be able to successfully identify appropriate locations and develop and expand our operations in existing and new markets; new restaurants may not be profitable and may negatively affect sales at our existing locations; negative changes in guest perception of our brand could negatively impact our business; our efforts to market our restaurants and brand may not be successful; food safety issues and food-borne illness concerns may harm our business; if we are unable to maintain or increase prices, our margins may decrease; the growth of our business depends on our ability to accurately predict guest trends and demand and successfully introduce new menu offerings and improve our existing menu offerings; we are subject to risks associated with leasing property; we may not be able to successfully expand our digital and delivery business, which is subject to risks outside of our control; our inability or failure to utilize, recognize, respond to, and effectively manage the immediacy of social media could have a material adverse effect on our business; we may not realize the anticipated benefits from past and potential future acquisitions, investments, or other strategic initiatives; we may not be able to manage our manufacturing and supply chain effectively, which may adversely affect our results of operations; our reliance on third parties could have an adverse effect on our business, financial condition, and results of operations; we may not successfully optimize, operate, and manage our production facilities; we may experience shortages, delays, or interruptions in the delivery of food items and other products; we may face increases in food, commodity, energy, and other costs; we may face increases in labor costs, labor shortages, and difficulties in our ability to identify, hire, train, motivate, and retain the right team members; our success depends on our ability to attract, develop, and retain our management team and key team members; security breaches of our information systems or data including in relation to the electronic processing of credit and debit card transactions, the CAVA app, or confidential guest or team member information (including personal information) may adversely affect our business; our business is subject to complex and evolving laws and regulations regarding privacy, data protection, and cybersecurity; we rely heavily on information technology systems, and failures of, or interruptions in, or not effectively scaling and adapting our information technology systems could harm our business; we are subject to extensive laws and regulatory requirements, and failure to comply with, or changes in, these laws or regulations could have an adverse impact on our business; economic factors and guest behavior trends, which are uncertain and largely beyond our control, may adversely affect guests' behavior and our ability to maintain or increase sales at our restaurants; we are subject to evolving rules and regulations with respect to sustainability matters; climate change and volatile adverse weather conditions could adversely affect our restaurant sales or results of operations; and each of the other factors set forth in "Part I—Item 1A. Risk Factors" in our Annual Report, and in other reports filed with the United States Securities and Exchange Commission, all of which are available on the investor relations page of our website at investor.cava.com.

You should not put undue reliance on any forward-looking statements. You should understand that many important factors, including those discussed herein, could cause our results to differ materially from those expressed or suggested in any forward-looking statement. Except as required by law, we do not undertake any obligation to update or revise these forward-looking statements to reflect new information or events or circumstances that occur after the date of this Quarterly Report on Form 10-Q or to reflect the occurrence of unanticipated events or otherwise.

CAVA GROUP, INC.
NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

1. NATURE OF OPERATIONS AND BASIS OF PRESENTATION

CAVA Group, Inc. (together with its wholly owned subsidiaries, referred to as the "Company," "CAVA," "we," "us," and "our" unless specified otherwise) was formed as a Delaware corporation in 2015, and prior to that, the first CAVA restaurant opened in 2011 in Bethesda, Maryland. The Company is headquartered in Washington, D.C. and, as of July 12, 2026, the Company operated 476 fast-casual CAVA Restaurants in 29 states and Washington, D.C. The Company's authentic Mediterranean cuisine unites taste and health, with a menu that features chef-curated and customizable bowls and pitas. The Company centrally produces dips, spreads, and certain dressing bases for use in its restaurants while also selling its dips, spreads, and prepared dressings in grocery stores.

Interim Financial Statements—The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with generally accepted accounting principles and practices of the United States of America ("GAAP") for interim financial information. Certain information and footnote disclosures normally included in annual financial statements presented in accordance with GAAP have been omitted pursuant to rules and regulations of the Securities and Exchange Commission ("SEC"). In the opinion of management, all adjustments (consisting of normal recurring adjustments) considered necessary for a fair statement of the results for interim periods have been included.

The unaudited interim financial information should be read in conjunction with the audited consolidated financial statements included in the Company's Annual Report on Form 10-K for the fiscal year ended December 28, 2025. Interim results of operations are not necessarily indicative of the results that may be achieved for the full year.

Reclassification—Certain prior year amounts have been reclassified to conform to current year presentation.

Recently Issued Accounting Standards—In November 2024, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2024-03, *Disaggregation of Income Statement Expenses (Subtopic 220-40)*, which requires disaggregation, in tabular presentation, of certain income statement expenses into different categories, such as purchases of inventory, employee compensation, and depreciation. The FASB issued an update in January 2025, ASU 2025-01, which clarifies the effective date of ASU 2024-03. The amendment is effective for fiscal years beginning after December 15, 2026 (the Company's fiscal 2027), with early adoption permitted, and may be applied on a retrospective basis. The Company is currently evaluating the impact of adopting this ASU on its financial statements and disclosures.

In September 2025, the FASB issued ASU 2025-06, *Intangibles — Goodwill and Other — Internal-Use Software (Subtopic 350-40): Targeted Improvements to the Accounting for Internal-Use Software*, which modernizes the accounting guidance for costs incurred to develop or obtain internal-use software. The amendment aligns capitalization criteria with current development practices and eliminates separate guidance for website development costs. Under the new standard, capitalization of eligible costs begins when (i) management authorizes and commits to funding the project and (ii) it is probable that the project will be completed and the software will be used as intended. ASU 2025-06 is effective for fiscal years beginning after December 15, 2027 (the Company's fiscal 2028), and may be applied prospectively, on a modified basis for in-process projects, or retrospectively. The Company is currently evaluating the impact of this standard on its consolidated financial statements.

The Company reviewed all other recently issued accounting standards and determined they were either not applicable or not expected to have a material impact on the Company's financial position or results from operations.

In determining credit losses on its investments in an unrealized loss position, the Company considers certain factors that may include, among others, severity of the unrealized loss, security type, industry sector, credit rating, yield to maturity, profitability, and stock performance. Based on the Company's review of its investments in an unrealized loss position, it determined that the losses were due to non-credit factors and, therefore, it does not consider these securities to be credit impaired at July 12, 2026 or December 28, 2025. As of July 12, 2026 and December 28, 2025, the Company did not intend to sell any investments in an unrealized loss position, and it is not more likely than not that the Company will be required to sell any investments before recovery of their amortized cost basis.

Note Receivable

In the second quarter of fiscal 2025, the Company made a $5.0 million investment in a convertible promissory note of Hyphen Technologies, Inc., which develops and provides automated makelines designed to improve the speed and efficiency of food production. The Company is currently testing this technology in its digital business. During the first quarter of 2026, upon the achievement of a predefined milestone event, the Company made an additional $5.0 million investment in a convertible promissory note at terms substantially similar to the initial investment (collectively, the "Note Receivable").

The Note Receivable is presented within other long-term assets on the accompanying unaudited condensed consolidated balance sheets. Refer to Note 4 (Fair Value) for more information. As of July 12, 2026 and December 28, 2025, the Company's estimated fair value of the Note Receivable was $10.7 million and $5.3 million, respectively. The increase in the estimated fair value was primarily attributable to the additional investment described above, with the remaining increase recognized as a component of other income, net in the accompanying unaudited condensed consolidated statement of operations.

4. FAIR VALUE

Assets Measured at Fair Value on a Recurring Basis

Fixed income debt securities

The fair values of fixed income debt securities were based on the market values obtained from an independent asset management service. The asset management service utilizes the market approach in determining the fair values of the investments held by the Company. Typical inputs and assumptions to pricing models used to value the Company's investments in fixed income debt securities include, but are not limited to, benchmark yields, reported trades, broker-dealer quotes, credit spreads, credit ratings, bond insurance (if applicable), benchmark securities, bids, offers, reference data, and industry and economic events. For asset backed securities, inputs and assumptions may also include the structure of issuance, characteristics of the issuer, collateral attributes, and prepayment speeds.

Note Receivable

The Company has elected to account for the Note Receivable described in Note 3 (Investments) under the fair value option. As a result, the embedded conversion feature, which would otherwise require bifurcation, is not accounted for separately. The fair value of the Note Receivable is determined under a market approach utilizing Level 3 inputs such as estimates of the equity value of the underlying business, volatility, and a probability-weighted expected time to exit.

The fair value of the Company's assets that are measured on a recurring basis was as follows:

(in thousands)	July 12, 2026			
Security Type Category	**Level 1**	**Level 2**	**Level 3**	**Total**

Assets Measured at Fair Value on a Non-recurring Basis—Assets recognized or disclosed at fair value in the accompanying unaudited condensed consolidated financial statements on a nonrecurring basis may include items such as property and equipment, net, operating lease assets, goodwill, and intangible assets. These assets are measured at fair value whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. For the twenty-eight weeks ended July 12, 2026 and July 13, 2025, the Company recorded asset impairments of $1.7 million and $1.1 million, respectively, related to certain of the Company's restaurants, which utilized nonrecurring fair value measurements. The fair value of these assets was determined using an income approach (discounted cash flow method), which was measured using Level 3 inputs. Unobservable inputs include projected restaurant revenues and expenses and the discount rate.

6. DEBT

On March 20, 2026, the Company entered into Amendment No. 3 to the Credit Agreement dated March 11, 2022 (as amended, the "Credit Facility"), with JPMorgan Chase Bank, N.A. as administrative agent. Amendment No. 3 among other things, extended the maturity date from March 11, 2027 to March 20, 2031 and increased aggregate revolving commitments from $75.0 million to $150.0 million. Interest rates on loans under the Credit Facility are based on either: (i) the base rate plus an applicable margin ranging from 0.00% to 1.25% per annum or (ii) the Term Secured Overnight Financing Rate plus an applicable margin ranging from 1.00% to 2.25% per annum, in each case based on the Company's Total Rent Adjusted Net Leverage Ratio (as defined in the Credit Facility). The Company is also required to pay a commitment fee for unused amounts under the Credit Facility, which ranges from 0.20% to 0.30% based on the Total Rent Adjusted Net Leverage Ratio. The Credit Facility is unconditionally guaranteed by the Company's domestic restricted subsidiaries other than certain excluded subsidiaries and is secured, subject to certain exceptions, by a first-priority security interest in substantially all of the assets of the Company and the guarantors and a first-priority pledge of the capital stock of each subsidiary guarantor. The Credit Facility includes customary affirmative and negative covenants and events of default.

As of July 12, 2026, the Company had no borrowings under the Credit Facility and available borrowing capacity of $149.1 million, net of $0.9 million of outstanding letters of credit. As of July 12, 2026, the Company was in compliance with all financial and other covenants.

7. INCOME TAXES

Income taxes for the twelve and twenty-eight weeks ended July 12, 2026 have been included in the accompanying unaudited condensed consolidated financial statements on the basis of an estimated annual effective tax rate. In addition to the amount of tax resulting from applying the estimated annual effective tax rate to pre-tax income, the Company includes, when appropriate, certain items treated as discrete events to arrive at an estimated overall tax amount.

The Company's effective tax rate and the impact on the provision for income taxes associated with discrete tax benefits associated with equity-based compensation were as follows:

	Twelve Weeks Ended		Twenty-Eight Weeks Ended	
	July 12, 2026	July 13, 2025	July 12, 2026	July 13, 2025
Effective tax rate	24.7 %	22.5 %	23.2 %	0.0 %
Discrete tax benefit from equity-based compensation	$ 1,970	$ 1,728	$ 4,214	$ 12,449

The reductions to the provision for income taxes associated with equity-based compensation reflect excess tax benefits recognized when the tax deductions for vested or exercised awards exceed the related compensation expense recognized in accordance with GAAP.

8. LEASES

The Company leases all of its CAVA Restaurants, its Digital Kitchens, its production facility in Laurel, Maryland, its food distribution center in Edison, New Jersey, its restaurant collaboration center in Washington, D.C., and its support centers in Brooklyn, New York, Manhattan, New York, and Plano, Texas. The Company determines if a contract contains

a lease at inception and determines the classification of a lease, if necessary. Typically, restaurant leases have initial terms of 10 years and include five-year renewal options.

Supplemental disclosures of cash flow information related to leases were as follows:

	Twelve Weeks Ended		Twenty-Eight Weeks Ended

9. COMMITMENTS AND CONTINGENCIES

Purchase Obligations—The Company enters into various purchase obligations in the ordinary course of business, generally of a short-term nature. Those that are binding primarily relate to amounts owed for produce and other ingredients and supplies, including supplies and materials used for new restaurant openings.

Letters of Credit—As of July 12, 2026 and December 28, 2025, the Company had six irrevocable letters of credit in favor of various landlords in the aggregate amount of $0.9 million. The letters of credit do not require a compensating balance and automatically renew in accordance with the terms of the underlying lease agreement.

Litigation—The Company is currently involved in various claims and legal actions that arise in the ordinary course of its business, including claims resulting from employment related matters. While the ultimate outcome and the costs associated with litigation are inherently uncertain and difficult to predict, as of the date hereof, the Company does not believe that any of its pending legal proceedings, most of which are covered by insurance, will have a material effect on the Company’s business, financial condition, results of operations, or cash flows. However, a significant increase in the number of these claims or an increase in uninsured amounts owed under successful claims could materially and adversely affect the Company’s business, financial condition, results of operations, or cash flows.

On July 22, 2026, the Cleveland Bakers and Teamsters Pension Fund filed a derivative action in the Court of Chancery of the State of Delaware, purportedly on behalf of the Company, against certain of the Company's current and former officers and directors alleging breaches of fiduciary duty and unjust enrichment. The complaint seeks unspecified monetary damages, attorneys' fees and costs, and the disgorgement of alleged improperly obtained trading profits by the defendants. The action is in a preliminary stage and no discovery has taken place. The defendants deny they breached their fiduciary duties. The complaint does not seek damages from the Company.

10. EQUITY-BASED COMPENSATION

The Company recognized equity-based compensation expense (including applicable payroll taxes) of $5.7 million and $13.4 million during the twelve and twenty-eight weeks ended July 12, 2026, and $4.6 million and $11.2 million during the twelve and twenty-eight weeks ended July 13, 2025, respectively, related to its equity incentive plans and employee stock purchase plan, recorded within general and administrative expenses in the accompanying unaudited condensed consolidated statements of operations.

Diluted earnings per share is calculated by adjusting the weighted average shares outstanding for the dilutive effect of outstanding equity awards for the period using the treasury-stock method.

The following table sets forth the computation of earnings per common share:

	Twelve Weeks Ended		Twenty-Eight Weeks Ended

12. SEGMENT REPORTING

The Company's operations are conducted as two operating segments: CAVA and CAVA Foods. CAVA includes the operations of all company-owned CAVA restaurants. CAVA Foods includes the production of dips, spreads, and certain dressing bases used in CAVA restaurants as well as sales from the Company's CPG business. These segments were determined on the same basis that the Company's Chief Executive Officer ("CEO"), who is the chief operating decision maker ("CODM"), manages, evaluates, and makes key decisions regarding the business. The CODM does not manage the Company on a consolidated basis. CAVA Foods is below the quantitative thresholds for segment reporting purposes, resulting in CAVA being the Company's one reportable segment. Other revenue and Other non-reportable segment profit include the Company's CPG activity from CAVA Foods.

The CODM reviews segment performance and allocates resources based upon restaurant-level profit, which is defined as segment revenues less food, beverage, and packaging, labor, occupancy, and other operating expenses. Restaurant-level profit is used to measure the segment's profitability as corporate-level expenses are excluded from such measure. The CODM uses restaurant-level profit for each segment in the annual budget to make decisions about the allocation of resources, with the monitoring of actual results to determine appropriate changes to such allocation. All segment revenue is earned in the United States, and all intersegment revenues have been eliminated. Intersegment revenues represent the sale, from CAVA Foods to CAVA, of dips, spreads, and certain dressing bases used in CAVA restaurants. Sales from external customers are derived principally from sales of food, beverage, and CPG. The Company does not rely on any major customers as sources of sales. As the CODM does not review asset information by segment, assets are reported only on a consolidated basis.

The following table presents financial information about the Company's reportable segment and includes reconciliations of reportable segment revenue to consolidated revenue and reportable segment restaurant-level profit to income before taxes:

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion and analysis of our financial condition and results of operations should be read in conjunction with our unaudited interim condensed consolidated financial statements and the related notes included elsewhere in this Form 10-Q and our Annual Report on Form 10-K for the year ended December 28, 2025 (our "2025 Annual Report"). In addition to historical information, this discussion and analysis contains forward-looking statements based on current expectations that involve risks, uncertainties, and other factors outside the Company's control, as well as assumptions, such as our plans, objectives, expectations, and intentions. Our actual results may differ materially from those expressed or implied in the forward-looking statements as a result of various factors, including those described under the sections entitled "Cautionary Statement Concerning Forward-Looking Statements" above and "Risk Factors" in our 2025 Annual Report.

The Company centrally produces dips, spreads, and certain dressing bases for use in its restaurants while also selling its dips, spreads, and prepared dressings in grocery stores.

Segments

The Company's operations are conducted as two operating segments: CAVA and CAVA Foods. CAVA includes the operations of all company-owned CAVA restaurants. CAVA Foods includes the production of dips, spreads, and certain dressing bases used in CAVA restaurants as well as sales from the Company's CPG business. These segments were determined on the same basis that the Company's CEO, who is the CODM, manages, evaluates, and makes key decisions regarding the business. The CODM does not manage the Company on a consolidated basis.

CAVA Foods is below quantitative thresholds for segment reporting purposes, resulting in CAVA being the Company's one reportable segment. The Company's CPG operations are included in Other non-reportable segment. See Item 1. "Financial Statements," Note 12 (Segment Reporting) for more information.

Key Performance Measures

In assessing the performance of our business, in addition to considering a variety of measures in accordance with U.S. Generally Accepted Accounting Principles ("GAAP"), our management team also considers a variety of other key performance measures, including non-GAAP measures. The key performance measures used by our management for determining how our business is performing are detailed in the table below.

We believe that these key performance measures provide useful information to users of our financial statements in understanding and evaluating our results of operations in the same manner as our management team. The presentation of these key performance measures, including Adjusted EBITDA and Adjusted EBITDA margin, which are non-GAAP financial measures, is not intended to be considered in isolation or as a substitute for, or superior to, the financial information prepared and presented in accordance with GAAP. Revenue, Food, beverage, and packaging, Labor, Occupancy, and Other operating expenses:

The increases in Revenue, Food, beverage, and packaging, Labor, Occupancy, and Other operating expenses are primarily driven by the growth of our CAVA segment. Refer to "CAVA Segment Results" below for more information.

General and administrative expenses:

The increase in general and administrative expenses was primarily due to investments to support future growth and higher equity-based compensation, partially offset by costs associated with our CAVA Connect conference in the prior year quarter. As a percentage of revenue, general and administrative expenses decreased primarily due to leverage from higher sales, the timing of our CAVA Connect conference in the prior year quarter, and the timing of performance-based incentive compensation, partially offset by investments to support future growth.

Depreciation and amortization:

The increase in depreciation and amortization was primarily driven by the addition of assets from the 94 Net New CAVA Restaurant Openings during or subsequent to the twelve weeks ended July 13, 2025 and technology improvements.

Pre-opening costs:

The increase in pre-opening costs was due to the volume of new CAVA restaurants under construction and additional investments in new restaurant openings to support increased volumes.

Interest income, net:

The decrease in interest income, net, was due to lower interest rates on investments in fixed income debt securities and money market funds in the current year, partially offset by higher balances in these investments.

Provision for income taxes:

The effective tax rate for the twelve weeks ended July 12, 2026 and July 13, 2025 was 24.7% and 22.5%, respectively, which includes the impact of a $2.0 million and $1.7 million reduction to income tax expense associated with equity-based compensation, respectively.

Non-GAAP Financial Measures

In addition to our consolidated financial statements, which are prepared in accordance with GAAP, we present Adjusted EBITDA and Adjusted EBITDA margin as supplemental measures of financial performance that are not required by, or presented in accordance with, GAAP. We believe these non-GAAP financial measures assist investors and analysts in comparing our operating performance across reporting periods on a consistent basis by excluding items that we do not believe are indicative of our operating performance. Management believes Adjusted EBITDA and Adjusted EBITDA margin are useful to investors in highlighting trends in our operating performance, while other measures can differ significantly depending on long-term strategic decisions regarding capital structure, the tax jurisdictions in which we operate, and capital investments. Management uses Adjusted EBITDA and Adjusted EBITDA margin to supplement GAAP measures of performance in the evaluation of the effectiveness of our business strategies, to make budgeting decisions, and to compare our performance against that of other peer companies using similar measures. Management supplements GAAP results with non-GAAP financial measures to provide a more complete understanding of the factors and trends affecting the business than GAAP results alone provide.

Adjusted EBITDA and Adjusted EBITDA margin are not recognized terms under GAAP and should not be considered as alternatives to net income or net income margin as measures of financial performance, or cash provided by operating activities as measures of liquidity, or any other performance measure derived in accordance with GAAP. Additionally, these measures are not intended to be measures of cash flow available for management's discretionary use, as they do not consider certain cash requirements such as interest payments, tax payments, and debt service requirements. Because not all companies use identical calculations, the presentation of these measures may not be comparable to other similarly titled measures of other companies and can differ significantly from company to company.

Adjusted EBITDA and Adjusted EBITDA margin measures have limitations as analytical tools, and you should not consider them in isolation or as substitutes for analysis of our results as reported under GAAP. Some of these limitations are:

- Adjusted EBITDA does not reflect our cash expenditures or future requirements for capital expenditures or contractual commitments;
- Adjusted EBITDA does not reflect changes in, or cash requirements for, our working capital needs;
- Adjusted EBITDA does not reflect financing activities of our business;
- Adjusted EBITDA does not reflect period to period changes in taxes, income tax expense or the cash necessary to pay income taxes;
- Adjusted EBITDA does not reflect the impact of earnings or cash charges resulting from matters we consider not to be indicative of our ongoing operations;
- although depreciation and amortization are non-cash charges, the assets being depreciated and amortized will often have to be replaced in the future, and Adjusted EBITDA does not reflect any cash requirements for such replacements; and
- other companies in our industry may calculate Adjusted EBITDA and Adjusted EBITDA margin differently than we do, limiting their usefulness as comparative measures.

Because of these limitations, Adjusted EBITDA and Adjusted EBITDA margin should not be considered as measures of discretionary cash available to invest in business growth or to reduce any applicable indebtedness.

The following table provides a reconciliation of net income to Adjusted EBITDA and net income margin to Adjusted EBITDA margin:

Additional Factors Affecting Our Business

In July 2026, U.S. public health authorities identified a multistate outbreak of cyclosporiasis associated with iceberg lettuce. No ingredients in our supply chain have been implicated in the outbreak; however, broader consumer concerns related to the outbreak have adversely impacted our revenue during the third quarter to date. While the impact appears to be moderating, the duration and extent of any remaining impact remain uncertain.

Liquidity and Capital Resources

We assess our liquidity in terms of our ability to generate adequate amounts of cash to meet our current and expected future operating needs. Our expected primary uses of cash on a short- and long-term basis are for the expansion of our restaurant base, working capital, and other capital expenditures.

We believe that cash provided by operating activities and existing cash on hand, together with amounts available under our Credit Facility, will be sufficient to satisfy our anticipated cash requirements for the next twelve months and

foreseeable future, including our expected capital expenditures for expansion of our CAVA restaurant base, operating lease obligations, and working capital requirements. Our sources of liquidity could be affected by general macroeconomic conditions, as well as tariff policy and geopolitical tensions between the United States and foreign countries, as well as the factors described under the section entitled "Risk Factors" in our 2025 Annual Report. Depending on the severity and direct impact of these factors on us, we may not be able to secure additional financing on acceptable terms, or at all.

Cash Overview

We had cash and cash equivalents of $322.8 million and $282.9 million as of July 12, 2026 and December 28, 2025, respectively. In addition, we had investments in fixed income debt securities of $112.8 million and $110.1 million as of July 12, 2026 and December 28, 2025, respectively. For the twenty-eight weeks ended July 12, 2026, our operations were funded from cash flows from operations.

Cash Flows

The following table summarizes our cash flows:

	Twenty-Eight Weeks Ended		Change	
(in thousands)	July 12, 2026	July 13, 2025	$	%

Net change in cash and cash equivalents	$ 39,846	$ (75,948)	$ 115,794	*(152.5)%*

Operating Activities:

The increase in net cash provided by operating activities was primarily due to improved operating performance and favorable working capital changes primarily associated with performance-based incentive compensation.

Investing Activities:

The decrease in net cash used in investing activities was primarily due to launching an investment portfolio of fixed income debt securities in the first quarter of fiscal 2025 to optimize returns on our cash balance, partially offset by higher capital expenditures related to future new CAVA restaurant openings and an investment in a convertible promissory note described in Item 1, Financial Statements, Note 3 (Investments).

Financing Activities:

The increase in net cash provided by financing activities was primarily due to increased proceeds from shares purchased under equity plans, partially offset by fees associated with the refinancing of our credit agreement.

Material Cash Commitments

There have been no significant changes to the material cash commitments as disclosed in our 2025 Annual Report, other than those payments made in the ordinary course of business.

Credit Facility

Refer to Item 1, Financial Statements, Note 6 (Debt), for a description of our Credit Facility.

Critical Accounting Estimates

The preparation of financial statements in conformity with GAAP requires management to make certain estimates and assumptions that affect reported amounts of assets and liabilities and disclosure of contingent assets and liabilities as of the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. These estimates are based on information available as of the date of the consolidated financial statements; therefore, actual results could differ from those estimates. We had no significant changes to our critical accounting estimates as described in our 2025 Annual Report.

Recent Accounting Pronouncements

Refer to Item 1, Financial Statements, Note 1 (Nature of Operations and Basis of Presentation).

Item 3. Quantitative and Qualitative Disclosures About Market Risk

In the normal course of business, we are exposed to market risks, including commodity and food price risks, labor costs, effects of inflation, and interest rate risk. There have been no material changes to our exposure to market risks as described in our 2025 Annual Report.

Item 4. Controls and Procedures

Disclosure Controls and Procedures

Under the supervision and with the participation of our management, including the Chief Executive Officer and Chief Financial Officer, we conducted an evaluation of the effectiveness of our disclosure controls and procedures (as such term is defined in Rule 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the "Exchange Act")) as of the end of the period covered by this report. Based on this evaluation, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures were effective as of such date. Our disclosure controls and procedures are designed to ensure that information required to be disclosed in the reports we file or submit under the Exchange Act is recorded, processed, summarized, and reported within the time periods specified in the SEC's rules and forms and that such information is accumulated and communicated to management including the Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosures.

Changes in Internal Control Over Financial Reporting

There were no changes to our internal control over financial reporting (as defined in Rule 13a-15(f) under the Exchange Act) that occurred during the quarter ended July 12, 2026 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.
