Forward-Looking Statements and Factors that Could Affect Future Results

The information below includes forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended, with respect to the financial condition, liquidity, results of operations, future performance and business of CNB Financial Corporation (the "Corporation"). These forward-looking statements are intended to be covered by the safe harbor for "forward-looking statements" provided by the Private Securities Litigation Reform Act of 1995. Forward-looking statements are those that are not historical facts. Forward-looking statements include statements with respect to beliefs, plans, objectives, goals, expectations, anticipations, estimates and intentions that are subject to significant risks and uncertainties and are subject to change based on various factors (some of which are beyond the Corporation's control). Forward-looking statements often include the words "believes," "expects," "anticipates," "estimates," "forecasts," "intends," "plans," "targets," "potentially," "probably," "projects," "outlook" or similar expressions or future conditional verbs such as "may," "will," "should," "would" and "could." The Corporation's actual results may differ materially from those contemplated by the forward-looking statements, which are neither statements of historical fact nor guarantees or assurances of future performance.

Factors that could cause the actual results to differ materially from the statements, include, but are not limited to, (i) adverse changes or conditions in capital and financial markets, including actual or potential stresses in the banking industry; (ii) changes in the interest rate environment; (iii) the credit risks of lending activities, including our ability to estimate credit losses and the allowance for credit losses, as well as the effects of changes in the level of, and trends in, loan delinquencies and write-offs; (iv) effectiveness of our data security controls in the face of cyber attacks and any reputational risks following a cybersecurity incident; (v) the duration and scope of a pandemic and the local, national and global impact of a pandemic; (vi) changes in general business, industry or economic conditions or competition; (vii) changes in any applicable law, rule, regulation, policy, guideline or practice governing or affecting financial holding companies and their subsidiaries or with respect to tax or accounting principles or otherwise; (viii) higher than expected costs or other difficulties related to integration of combined or merged businesses; (ix) the effects of business combinations and other acquisition transactions, including the inability to realize our loan and investment portfolios; (x) changes in the quality or composition of our loan and investment portfolios; (xi) adequacy of loan loss reserves; (xii) increased competition; (xiii) loss of certain key officers; (xiv) deposit attrition; (xv) rapidly changing technology; (xvi) unanticipated regulatory or judicial proceedings and liabilities and other costs; (xvii) changes in the cost of funds, demand for loan products or demand for financial services; and (xviii) other economic, competitive, governmental or technological factors affecting our operations, markets, products, services and prices. Such developments could have an adverse impact on the Corporation's financial position and results of operations.

The forward-looking statements contained herein are based upon management's beliefs and assumptions. Any forward-looking statement made herein speaks only as of the date on which it is made. Factors or events that could cause our actual results to differ may emerge from time to time, and it is not possible for us to predict all of them. The Corporation undertakes no obligation to publicly update or revise any forward-looking statements included in this Quarterly Report on Form 10-Q, whether as a result of new information, future events or otherwise, except to the extent required by law. In light of these risks, uncertainties and assumptions, the forward-looking events discussed might not occur and you should not put undue reliance on any forward-looking statements.

Part I Financial Information

CNB FINANCIAL CORPORATION
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(UNAUDITED)

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND DISCLOSURE RULES

Nature of Operations

CNB Financial Corporation (the "Corporation") is headquartered in Clearfield, Pennsylvania, and provides a full range of banking and related services through its wholly owned subsidiary, CNB Bank (the "Bank"). In addition, the Bank provides wealth and asset management services, including the administration of trusts and estates, retirement plans, and other employee benefit plans as well as a full range of wealth management services. The Bank serves individual and corporate customers and is subject to competition from other financial institutions and intermediaries with respect to these services. In addition to the Bank, the Corporation also operates a consumer discount loan and finance business through its wholly owned subsidiary, Holiday Financial Services Corporation ("Holiday"). The Corporation and its other subsidiaries are subject to examination by federal and state regulators. The Corporation's market area is primarily concentrated in the Central and Northwest regions of the Commonwealth of Pennsylvania, the Central and Northeast regions of the State of Ohio, Western region of the State of New York and the Southwest region of the Commonwealth of Virginia.

Basis of Presentation

The accompanying condensed consolidated financial statements have been prepared pursuant to rules and regulations of the SEC and in compliance with U.S. generally accepted accounting principles ("GAAP"). Because this report is based on an interim period, certain information and footnote disclosures normally included in the consolidated financial statements prepared in accordance with GAAP have been condensed or omitted.

In the opinion of management of the registrant, the accompanying condensed consolidated financial statements as of March 31, 2024 and for the three months ended March 31, 2024 and 2023 include all adjustments, consisting of only normal recurring adjustments, necessary for a fair presentation of the financial condition and the results of operations for the periods presented. The financial performance reported for the Corporation for the three months ended March 31, 2024 is not necessarily indicative of the results to be expected for the full year.

This information should be read in conjunction with the Corporation's Annual Report on Form 10-K for the year ended December 31, 2023 (the "2023 Form 10-K"). Certain amounts appearing in the condensed consolidated financial statements and notes thereto for prior periods may be reclassified to conform with the current presentation. If there are reclassifications, the reclassifications had no effect on net income or shareholders' equity as previously reported. Dollar amounts in tables are stated in thousands, except for per share amounts.

Use of Estimates

To prepare financial statements in conformity with GAAP, management makes estimates and assumptions based on available information. These estimates and assumptions affect the amounts reported in the condensed consolidated financial statements and the disclosures provided and future results could differ.

Operating Segments

While the Corporation's Chief Operating Decision Maker ("CODM") monitors the revenue streams of the various products and services, operations are managed and financial performance is evaluated on a Corporation-wide basis, and operating divisions are aggregated into one as operating results for all segments are similar. Accordingly, all of the financial services operations are considered by management to be aggregated in one reportable operating segment.

Goodwill Assessment

The Corporation's policy is to test goodwill for impairment annually on November 30 or on an interim basis if an event triggering impairment may have occurred. Management evaluated current conditions and concluded there have been no significant changes in the economic environment or future projections since the annual goodwill impairment test performed as of November 30, 2023 and therefore, believes that there is no impairment as of March 31, 2024. Management will continue to evaluate the economic conditions at future reporting periods for applicable changes.

2. RECENT ACCOUNTING PRONOUNCEMENTS

Accounting Standards Adopted in 2023

In October 2021, the FASB issued ASU 2021-08, "Business Combinations (Topic 805), Accounting for Contract Assets and Contract Liabilities from Contracts with Customers." This ASU requires that an acquirer recognize and measure contract assets and contract liabilities acquired in a business combination in accordance with Topic 606, "Revenue from Contracts with Customers." ASU 2021-08 was effective for the Corporation on January 1, 2023 and did not have a material impact on its condensed consolidated financial statements and related disclosures.

In March 2022, the FASB issued ASU 2022-01, "Derivatives and Hedging (Topic 815): Fair Value Hedging - Portfolio Layer Method." Under prior guidance, entities can apply the last-of-layer hedging method to hedge the exposure of a closed portfolio of prepayable financial assets to fair value changes due to changes in interest rates for a portion of the portfolio that is not expected to be affected by prepayments, defaults, and other events affecting the timing and amount of cash flows. ASU 2022-01 expands the last-of-layer method, which permits only one hedge layer, to allow multiple hedged layers of a single closed portfolio. To reflect that expansion, the last-of-layer method is renamed the portfolio layer method. ASU 2022-01 also (i) expands the scope of the portfolio layer method to include non-prepayable financial assets, (ii) specifies eligible hedging instruments in a single-layer hedge, (iii) provides additional guidance on the accounting for and disclosure of hedge basis adjustments under the portfolio layer method and (iv) specifies how hedge basis adjustments should be considered when determining credit losses for the assets included in the closed portfolio. ASU 2022-01 was effective for the Corporation on January 1, 2023 and did not have a material impact on its condensed consolidated financial statements and related disclosures.

In March 2022, the FASB issued ASU 2022-02, "Financial Instruments – Credit Losses (Topic 326): Troubled Debt Restructurings and Vintage Disclosures." This ASU eliminates the separate recognition and measurement guidance for Troubled Debt Restructurings ("TDRs") by creditors. The elimination of the TDRs guidance may be adopted prospectively for loan modifications after adoption or on a modified retrospective basis, which would also apply to loans previously modified, resulting in a cumulative effect adjustment to retained earnings in the period of adoption for changes in the allowance for credit losses. ASU 2022-02 was effective for the Corporation on January 1, 2023 and did not have a material impact on its condensed consolidated financial statements and related disclosures.

In July 2023, FASB issued ASU 2023-03, "Presentation of Financial Statements (Topic 205), Income Statement - Reporting Comprehensive Income (Topic 220), Distinguishing Liabilities from Equity (Topic 480), Equity (Topic 505), and Compensation - Stock Compensation (Topic 718): Amendments to SEC Paragraphs Pursuant to SEC Staff Accounting Bulletin No. 120, SEC Staff Announcement at the March 24, 2022 Emerging Issues Task Force ("EITF") Meeting, and Staff Accounting Bulletin Topic 6.B, Accounting Series Release 280 - General Revision of Regulation S-X: Income or Loss Applicable to Common Stock." This ASU amends the FASB Accounting Standards Codification for SEC updates pursuant to SEC Staff Accounting Bulletin No. 120; SEC Staff Announcement at the March 24, 2022 EITF Meeting; and Staff Accounting Bulletin Topic 6.B, Accounting Series Release 280 - General Revision of Regulation S-X: Income or Loss Applicable to Common Stock. The updates were effective immediately. These updates did not have a material impact on the Corporation's condensed consolidated financial statements and related disclosures.

Accounting Standards Adopted in 2024

In June 2022, FASB issued ASU 2022-03, "Fair Value Measurement (Topic 820): Fair Value Measurement of Equity Securities Subject to Contractual Sale Restrictions." In this ASU, a contractual restriction on the sale of an equity security is not considered in measuring the security's fair value. The ASU also requires certain disclosures for equity securities that are subject to contractual restrictions. This guidance was effective for the Corporation on January 1, 2024. These updates did not have a material impact on the Corporation's condensed consolidated financial statements and related disclosures.

In March 2023, FASB issued ASU 2023-01, "Leases (Topic 842): Common Control Arrangements." This ASU requires the Corporation to amortize leasehold improvements associated with common control leases over the useful life to the common control group. This guidance is effective for the Corporation on January 1, 2024. These updates did not have a material impact on the Corporation's condensed consolidated financial statements and related disclosures.

In March 2023, FASB issued ASU 2023-02, "Investments—Equity Method and Joint Ventures (Topic 323): Accounting for Investments in Tax Credit Structures Using the Proportional Amortization Method." In this ASU, these amendments allow the Corporation to elect to account for qualifying tax equity investments using the proportional amortization method, regardless of the program giving rise to the related income tax credits. This guidance is effective for the Corporation on January 1, 2024.

These updates did not have a material impact on the Corporation's condensed consolidated financial statements and related disclosures.

Accounting Pronouncements Pending Adoption

In August 2023, FASB issued ASU 2023-05, "Business Combinations - Joint Venture Formations (Subtopic 805-60): Recognition and Initial Measurement." ASU 2023-05 requires certain joint ventures to apply a new basis of accounting upon formation by recognizing and initially measuring most of their assets and liabilities at fair value. The objectives of the amendments are to provide decision-useful information to investors and other allocators of capital in a joint venture's financial statements and also to reduce diversity in practice. ASU 2023-05 should be applied prospectively and is effective for all newly formed joint venture entities with a formation date on or after January 1, 2025. Early adoption is permitted, and joint ventures formed prior to the adoption date may elect to apply the new guidance retrospectively back to their original formation date. The Corporation is evaluating the effect that ASU 2023-05 will have on its condensed consolidated financial statements and related disclosures.

In October 2023, FASB issued ASU 2023-06, "Disclosure Improvements: Codification Amendments in Response to the SEC's Disclosure Update and Simplification Initiative." The ASU amends the ASC to incorporate certain disclosure requirements from SEC Release No. 33-10532 - Disclosure Update and Simplification that was issued in 2018. The effective date for each amendment will be the date on which the SEC's removal of that related disclosure from Regulation S-X or Regulation S-K becomes effective, with early adoption prohibited. The Corporation is evaluating the effect that ASU 2023-06 will have on its condensed consolidated financial statements and related disclosures.

In November 2023, FASB issued ASU 2023-07, "Improvements to Reportable Segment Disclosures (Topic 280)." This ASU updates reportable segment disclosure requirements by requiring disclosures of significant reportable segment expenses that are regularly provided to the CODM and included within each reported measure of a segment's profit or loss. This ASU also requires disclosure of the title and position of the individual identified as the CODM and an explanation of how the CODM uses the reported measures of a segment's profit or loss in assessing segment performance and deciding how to allocate resources. The ASU is effective for annual periods beginning after December 15, 2023, and interim periods within fiscal years beginning after December 15, 2024. Adoption of the ASU should be applied retrospectively to all prior periods presented in the financial statements. Early adoption is also permitted. The Corporation is evaluating the effect that ASU 2023-07 will have on its condensed consolidated financial statements and related disclosures.

In December 2023, the FASB issued ASU 2023-09, "Improvements to Income Tax Disclosures (Topic 740)." The ASU requires disaggregated information about a reporting entity's effective tax rate reconciliation as well as additional information on income taxes paid. The ASU is effective on a prospective basis for annual periods beginning after December 15, 2024. Early adoption is also permitted for annual financial statements that have not yet been issued or made available for issuance. The Corporation is evaluating the effect that ASU 2023-09 will have on its condensed consolidated financial statements and related disclosures.

In March 2024, the FASB issued ASU 2024-01, "Compensation - Stock Compensation (Topic 718)." The ASU adds an illustrative example to demonstrate how an entity should apply the scope guidance in paragraph 718-10-15-3 to determine whether profits interest and similar awards ("profits interest awards") should be accounted for in accordance with Topic 718, Compensation—Stock Compensation. The amendment in this ASU should be applied either (1) retrospectively to all prior periods presented in the financial statements or (2) prospectively to profits interest and similar awards granted or modified on or after the date at which the entity first applies the amendments. If the amendments are applied retrospectively, an entity is required to provide the disclosures in paragraphs 250-10-50-1 through 50-3 in the period of adoption. If the amendment is applied prospectively, an entity is required to disclose the nature of and reason for the change in accounting principle. The ASU is effective for annual periods beginning after December 15, 2024, and interim periods within those annual periods. Early adoption is also permitted for interim and annual financial statements that have not yet been issued or made available for issuance. If an entity adopts the amendments in an interim period, it should adopt the amendment as of the beginning of the annual period that includes that interim period. The Corporation is evaluating the effect that ASU 2024-01 will have on its condensed consolidated financial statements and related disclosures.

In March 2024, the FASB issued ASU 2024-02, "Codification Improvements—Amendments to Remove References to the Concepts Statements." The ASU contains amendments to the *FASB Accounting Standards Codification* that remove references to various Concepts Statements. In most instances, the references are extraneous and not required to understand or apply the guidance. In other instances, the references were used in prior Concept Statements to provide guidance in certain topical areas. The amendment in this ASU should be applied using one of the following transition methods: (1) prospectively to all new transactions recognized on or after the date that the entity first applies the amendments; or (2) retrospectively to the beginning of the earliest comparative period presented in which the amendments were first applied. An entity should adjust the opening balance of retained earnings (or other appropriate components of equity or net assets in the statement of financial position) as of the beginning of the earliest comparative period presented. The ASU is effective for annual periods beginning after December 15, 2024, and interim periods within those annual periods. Early application of the amendment is permitted for any fiscal year or interim period for which financial statements have not yet been issued, or made available for issuance. If an entity adopts the amendment in an interim period, it must adopt the amendment as of the beginning of the fiscal year that includes that interim period. The Corporation is evaluating the effect that ASU 2024-02 will have on its condensed consolidated financial statements and related disclosures.

Securities and Exchange Commission ("SEC") Disclosure Rules

In March 2024, the SEC adopted its final rule under SEC Release no. 33-11275, *The Enhancement and Standardization of Climate-Related Disclosures for Investors*. In April 2024, the SEC stayed the final climate rule pending the completion of judicial review of an Eighth Circuit challenge seeking to vacate the rule. This rule would require registrants to disclose certain climate-related information in registration statements and annual reports. The disclosure requirements would apply to the Corporation's fiscal year beginning January 1, 2026. The Corporation is currently evaluating the final rule to determine its impact on the Corporation's disclosures.

3. SECURITIES

Debt securities available-for-sale ("AFS") at March 31, 2024 and December 31, 2023 were as follows:

	March 31, 2024				
	Amortized Cost	Unrealized Gains	Unrealized Losses	Allowance For Credit Losses	Fair Value
U.S. Government sponsored entities	$ 19,506	$ —	$ (31)	$ —	$ 19,475
State & political subdivisions	104,979	6	(13,743)	—	91,242
Residential & multi-family mortgage	220,199	—	(35,417)	—	184,782
Corporate notes & bonds	48,281	3	(5,317)	—	42,967
Pooled SBA	11,029	—	(930)	—	10,099
Total	$ 403,994	$ 9	$ (55,438)	$ —	$ 348,565

	December 31, 2023				
	Amortized Cost	Unrealized Gains	Unrealized Losses	Allowance For Credit Losses	Fair Value
U.S. Government sponsored entities	$ 5,024	$ —	$ (36)	$ —	$ 4,988
State & political subdivisions	105,102	22	(13,315)	—	91,809
Residential & multi-family mortgage	225,871	1	(34,353)	—	191,519
Corporate notes & bonds	48,459	13	(5,333)	—	43,139
Pooled SBA	11,347	—	(847)	—	10,500
Total	$ 395,803	$ 36	$ (53,884)	$ —	$ 341,955

Debt securities held-to-maturity ("HTM") at March 31, 2024 and December 31, 2023 were as follows:

	March 31, 2024				
	Amortized Cost	Unrealized Gains	Unrealized Losses	Allowance For Credit Losses	Fair Value
U.S. Government sponsored entities	$ 298,024	$ —	$ (19,373)	$ —	$ 278,651
Residential & multi-family mortgage	83,682	—	(10,195)	—	73,487
Total	$ 381,706	$ —	$ (29,568)	$ —	$ 352,138

	December 31, 2023				
	Amortized Cost	Unrealized Gains	Unrealized Losses	Allowance For Credit Losses	Fair Value
U.S. Government sponsored entities	$ 302,945	$ —	$ (19,038)	$ —	$ 283,907
Residential & multi-family mortgage	86,023	—	(9,360)	—	76,663
Total	$ 388,968	$ —	$ (28,398)	$ —	$ 360,570

The Corporation elected to transfer 74 AFS securities with an aggregate fair value of $213.7 million to a classification of HTM during the twelve months ended December 31, 2022. In accordance with FASB ASC 320-10-55-24, the transfer from AFS to HTM must be recorded at the fair value of the AFS securities at the time of transfer. The net unrealized holding loss of $5.6 million, net of tax, at the date of transfer was retained in accumulated other comprehensive income (loss), with the associated pre-tax amount retained in the carrying value of the HTM securities. Such amounts will be amortized to comprehensive income over the remaining life of the securities.

Information pertaining to security sales on AFS securities is as follows:

	Proceeds	Gross Gains	Gross Losses
Three months ended March 31, 2024	$ —	$ —	$ —
Three months ended March 31, 2023	9,659	22	—

The tax provision related to these net realized gains was zero for the three months ended March 31, 2024 and $5 thousand for the three months ended March 31, 2023.

The table below illustrates the maturity distribution of debt securities at amortized cost and fair value as of March 31, 2024:

	Available-for-sale		Held-to-maturity	
	Amortized Cost	Fair Value	Amortized Cost	Fair Value
1 year or less	$ 18,688	$ 18,582	$ 87,559	$ 85,994
1 year – 5 years	50,847	48,517	172,326	160,096
5 years – 10 years	81,804	70,462	38,139	32,561
After 10 years	21,427	16,123	—	—
	172,766	153,684	298,024	278,651
Residential & multi-family mortgage	220,199	184,782	83,682	73,487
Pooled SBA	11,029	10,099	—	—
Total debt securities	$ 403,994	$ 348,565	$ 381,706	$ 352,138

Mortgage securities and pooled SBA securities are not due at a single date; periodic payments are received based on the payment patterns of the underlying collateral.

On March 31, 2024 and December 31, 2023, securities carried at $492.4 million and $489.0 million, respectively, were pledged to secure public deposits and for other purposes as provided by law.

At March 31, 2024 and December 31, 2023, there were no holdings of securities of any one issuer, other than the U.S. Government sponsored entities, in an amount greater than 10% of shareholders' equity. The Corporation's residential and multi-family mortgage securities are issued by government sponsored entities.

AFS debt securities with unrealized losses at March 31, 2024 and December 31, 2023, aggregated by investment category and length of time that individual securities have been in a continuous unrealized loss position, were as follows:

March 31, 2024

	Less than 12 Months		12 Months or More		Total	
Description of Securities	Fair Value	Unrealized Loss	Fair Value	Unrealized Loss	Fair Value	Unrealized Loss
U.S. Government sponsored entities	$ 18,028	$ (7)	$ 1,447	$ (24)	$ 19,475	$ (31)
State & political subdivisions	5,266	(188)	81,595	(13,555)	86,861	(13,743)
Residential & multi-family mortgage	112	(3)	184,580	(35,414)	184,692	(35,417)
Corporate notes and bonds	986	(14)	41,314	(5,303)	42,300	(5,317)
Pooled SBA	84	(1)	9,924	(929)	10,008	(930)
	$ 24,476	$ (213)	$ 318,860	$ (55,225)	$ 343,336	$ (55,438)

December 31, 2023

	Less than 12 Months		12 Months or More		Total	
	Fair Value	Unrealized Loss	Fair Value	Unrealized Loss	Fair Value	Unrealized Loss
U.S. Government sponsored entities	$ 2,487	$ (1)	$ 1,956	$ (35)	$ 4,443	$ (36)
State & political subdivisions	749	—	84,828	(13,315)	85,577	(13,315)
Residential & multi-family mortgage	—	—	191,436	(34,353)	191,436	(34,353)
Corporate notes and bonds	978	(22)	41,488	(5,311)	42,466	(5,333)
Pooled SBA	—	—	10,409	(847)	10,409	(847)
	$ 4,214	$ (23)	$ 330,117	$ (53,861)	$ 334,331	$ (53,884)

HTM debt securities with unrealized losses at March 31, 2024 and December 31, 2023, aggregated by investment category and length of time that individual securities have been in a continuous unrealized loss position, were as follows:

March 31, 2024

	Less than 12 Months		12 Months or More		Total	
Description of Securities	Fair Value	Unrealized Loss	Fair Value	Unrealized Loss	Fair Value	Unrealized Loss
U.S. Government sponsored entities	$ —	$ —	$ 278,651	$ (19,373)	$ 278,651	$ (19,373)
Residential & multi-family mortgage	—	—	73,487	(10,195)	73,487	(10,195)
	$ —	$ —	$ 352,138	$ (29,568)	$ 352,138	$ (29,568)

December 31, 2023

	Less than 12 Months		12 Months or More		Total	
	Fair Value	Unrealized Loss	Fair Value	Unrealized Loss	Fair Value	Unrealized Loss
U.S. Government sponsored entities	$ —	$ —	$ 283,907	$ (19,038)	$ 283,907	$ (19,038)
Residential & multi-family mortgage	—	—	76,663	(9,360)	76,663	(9,360)
	$ —	$ —	$ 360,570	$ (28,398)	$ 360,570	$ (28,398)

At March 31, 2024 and December 31, 2023, management performed an assessment for possible impairment related to credit losses of the Corporation's debt securities, relying on information obtained from various sources, including publicly available financial data, ratings by external agencies, brokers and other sources. Based on the results of the assessment, management believes there is no credit related impairment of these debt securities at March 31, 2024 and December 31, 2023.

For the securities that comprise corporate notes and bonds and the securities that are issued by state and political subdivisions, management monitors publicly available financial information, such as filings with the Securities and Exchange Commission, in order to evaluate the securities for potential credit impairment. For financial institution issuers, management monitors information from quarterly "call" report filings that are used to generate Uniform Bank Performance Reports. All other securities that were in an unrealized loss position at the balance sheet date were reviewed by management, and issuer-specific documents were reviewed as appropriate given the following considerations; the financial condition and near-term prospects of the issuer and whether downgrades by bond rating agencies have occurred, the length of time and extent to which fair value has been less than cost, and whether management does not have the intent to sell these securities and it is likely that it will not be required to sell the securities before their anticipated recovery.

As of March 31, 2024 and December 31, 2023, management concluded the debt securities described in the previous paragraphs were not impaired for reasons due to credit quality for the following reasons:

- There is no indication of any significant deterioration of the creditworthiness of the institutions that issued the securities.
- All contractual interest payments on the securities have been received as scheduled, and no information has come to management’s attention through the processes previously described which would lead to a conclusion that future contractual payments will not be timely received.
- The unrealized losses were deemed to be temporary changes in value related to market movements in interest yields.

The Corporation does not intend to sell and it is not more likely than not that it will be required to sell the securities in an unrealized loss position before recovery of its amortized cost basis.

Equity securities at March 31, 2024 and December 31, 2023 were as follows:

	March 31, 2024	December 31, 2023
Corporate equity securities	$ 5,416	$ 5,341
Mutual funds	2,278	2,223
Money market funds	1355	1,103
Corporate notes	532	634
Total	$ 9,581	$ 9,301

4. LOANS RECEIVABLE AND ALLOWANCE FOR CREDIT LOSSES

Total net loans receivable at March 31, 2024 and December 31, 2023 are summarized as follows:

	March 31, 2024	Percentage of Total	December 31, 2023	Percentage of Total
Farmland	$ 31,145	0.7 %	$ 31,869	0.7 %
Owner-occupied, nonfarm nonresidential properties	511,219	11.5	493,064	11.0
Agricultural production and other loans to farmers	1,759	—	1,652	—
Commercial and Industrial	658,791	14.9	726,442	16.3
Obligations (other than securities and leases) of states and political subdivisions	151,139	3.4	152,201	3.4
Other loans	25,129	0.6	25,507	0.6
Other construction loans and all land development and other land loans	532,730	12.0	491,539	11.0
Multifamily (5 or more) residential properties	248,123	5.6	254,342	5.7
Non-owner occupied, nonfarm nonresidential properties	887,336	20.0	896,043	20.1
1-4 Family Construction	42,919	1.0	51,207	1.1
Home equity lines of credit	133,290	3.0	130,700	2.9
Residential Mortgages secured by first liens	989,544	22.3	990,986	22.2
Residential Mortgages secured by junior liens	92,614	2.1	91,063	2.0
Other revolving credit plans	38,318	0.9	42,877	1.0
Automobile	23,436	0.5	25,315	0.6
Other consumer	50,968	1.2	51,592	1.1
Credit cards	12,683	0.3	11,785	0.3
Overdrafts	255	—	292	—
Total loans receivable	$ 4,431,398	100.0 %	$ 4,468,476	100.0 %
Less: Allowance for credit losses	(45,832)		(45,832)	
Loans receivable, net	$ 4,385,566		$ 4,422,644	
Net deferred loan origination fees included in the above table	$ 1,984		$ 2,448	

The Corporation's outstanding loans receivable and related unfunded commitments are primarily concentrated within Central and Northwest Pennsylvania, Central and Northeast Ohio, Western New York and Southwest Virginia. The Bank attempts to limit concentrations within specific industries by utilizing dollar limitations to single industries or customers, and by entering into participation agreements with third parties. Collateral requirements are established based on management's assessment of the customer. The Corporation maintains lending policies to control the quality of the loan portfolio. These policies delegate the authority to extend loans under specific guidelines and underwriting standards. These policies are prepared by the Corporation's management and reviewed and approved annually by the Corporation's Board of Directors.

Syndicated loans, net of deferred fees and costs, are included in the commercial and industrial classification and totaled $78.7 million and $108.7 million as of March 31, 2024 and December 31, 2023, respectively.

Transactions in the allowance for credit losses for the three months ended March 31, 2024 were as follows:

	Beginning Allowance	(Charge-offs)	Recoveries	Provision (Benefit) for Credit Losses on Loans Receivable[1]	Ending Allowance
Farmland	$ 126	$ —	$ —	$ 9	$ 135
Owner-occupied, nonfarmnonresidential properties	3,949	(596)	9	1,111	4,473
Agricultural production and other loans to farmers	7	—	—	1	8
Commercial and Industrial	9,433	(71)	29	(418)	8,973
Obligations (other than securities and leases) of states and political subdivisions	2,613	—	—	(76)	2,537
Other loans	387	—	—	(9)	378
Other construction loans and all land development and other land loans	4,033	—	—	222	4,255
Multifamily (5 or more) residential properties	1,030	—	—	37	1,067
Non-owner occupied, nonfarmnonresidential properties	9,170	—	—	(385)	8,785
1-4 Family Construction	356	—	—	(53)	303
Home equity lines of credit	831	—	1	65	897
Residential Mortgages secured by first liens	8,050	(64)	—	382	8,368
Residential Mortgages secured by junior liens	1,476	—	—	(45)	1,431
Other revolving credit plans	973	(15)	3	(107)	854
Automobile	358	(10)	3	(47)	304
Other consumer	2,653	(517)	27	548	2,711
Credit cards	95	(29)	5	27	98
Overdrafts	292	(144)	25	82	255
Total loans	$ 45,832	$ (1,446)	$ 102	$ 1,344	$ 45,832

[1] Excludes provision for credit losses related to unfunded commitments. Note 9, "Off-Balance Sheet Commitments and Contingencies," to the condensed consolidated financial statements provides more detail concerning the provision for credit losses related to unfunded commitments of the Corporation.

Transactions in the allowance for credit losses for the three months ended March 31, 2023 were as follows:

	Beginning Allowance	(Charge-offs)	Recoveries	Provision (Benefit) for Credit Losses on Loans Receivable[1]	Ending Allowance
Farmland	$ 159	$ —	$ —	$ (30)	$ 129
Owner-occupied, nonfarmnonresidential properties	2,905	(26)	8	(341)	2,546
Agricultural production and other loans to farmers	6	—	—	(3)	3
Commercial and Industrial	9,766	(46)	145	(922)	8,943
Obligations (other than securities and leases) of states and political subdivisions	1,863	—	—	(15)	1,848
Other loans	456	—	—	138	594
Other construction loans and all land development and other land loans	3,253	—	—	141	3,394
Multifamily (5 or more) residential properties	2,353	(65)	—	247	2,535
Non-owner occupied, nonfarmnonresidential properties	7,653	—	—	606	8,259
1-4 Family Construction	327	—	—	71	398

[1] Excludes provision for credit losses related to unfunded commitments. Note 9, "Off-Balance Sheet Commitments and Contingencies," to the condensed consolidated financial statements provides more detail concerning the provision for credit losses related to unfunded commitments of the Corporation.

The Corporation's allowance for credit losses is influenced by loan volumes, risk rating migration, delinquency status and other conditions influencing loss expectations, such as reasonable and supportable forecasts of economic conditions.

For the three months ended March 31, 2024, the allowance for credit losses remained unchanged. The growth in the Corporation's loan portfolio in new market areas was offset by improvements in the Corporation's historical loss rates, as well as the impact of net charge-offs. Significant uncertainty persists regarding the domestic and global economy, tightening credit conditions, persistent inflation, and higher interest rates. Management will continue to proactively evaluate its estimate of expected credit losses as new information becomes available.

Provision for credit losses was $1.3 million for the three months ended March 31, 2024, compared to $1.3 million for the three months ended March 31, 2023. Included in the provision for credit losses for the three months ended March 31, 2024 was a benefit of $24 thousand related to the allowance for unfunded commitments compared to $59 thousand provision towards the allowance for unfunded commitments for the three months ended March 31, 2023, respectively.

The following tables present the amortized cost basis of loans receivable on nonaccrual status and loans receivable past due over 89 days still accruing as of March 31, 2024 and December 31, 2023, respectively:

	March 31, 2024		
	Nonaccrual	Nonaccrual With No Allowance for Credit Loss	Loans Receivable Past Due over 89 Days Still Accruing
Farmland	$ 734	$ 734	$ —
Owner-occupied, nonfarm nonresidential properties	2,058	1,358	—
Commercial and Industrial	7,186	4,382	—
Other construction loans and all land development and other land loans	1,606	101	—
Multifamily (5 or more) residential properties	300	300	—
Non-owner occupied, nonfarm nonresidential properties	9,068	6,716	—
Home equity lines of credit	1,124	1,124	—
Residential Mortgages secured by first liens	5,551	5,152	—
Residential Mortgages secured by junior liens	236	236	—
Other revolving credit plans	127	127	—
Automobile	73	73	—
Other consumer	688	688	—
Credit cards	—	—	49
Total	$ 28,751	$ 20,991	$ 49

	December 31, 2023		
	Nonaccrual	Nonaccrual With No Allowance for Credit Loss	Loans Receivable Past Due over 89 Days Still Accruing
Farmland	$ 1,083	$ 1,083	$ —
Owner-occupied, nonfarm nonresidential properties	2,673	1,488	—
Commercial and Industrial	7,512	4,389	—
Other construction loans and all land development and other land loans	1,653	104	—
Multifamily (5 or more) residential properties	305	305	—
Non-owner occupied, nonfarm nonresidential properties	9,076	6,716	—
Home equity lines of credit	940	940	—
Residential Mortgages secured by first liens	5,316	4,902	23
Residential Mortgages secured by junior liens	123	123	—
Other revolving credit plans	81	81	—
Automobile	79	79	—
Other consumer	798	798	—
Credit cards	—	—	32
Total	$ 29,639	$ 21,008	$ 55

All payments received while on nonaccrual status are applied against the principal balance of the loan. The Corporation does not recognize interest income while a loan is on nonaccrual status.

The following table presents the amortized cost basis of loans receivable that are individually evaluated and collateral-dependent by class of loans as of March 31, 2024:

	Real Estate Collateral	Non-Real Estate Collateral
Farmland	$ 430	$ —
Owner-occupied, nonfarm nonresidential properties	5,376	4
Commercial and Industrial	—	7,668
Other construction loans and all land development and other land loans	1,505	—

Loan Modifications

The Corporation adopted ASU 2022-02, Financial Instruments - Credit Losses (Topic 326) Troubled Debt Restructurings and Vintage Disclosures effective January 1, 2023. The amendments in ASU 2022-02 eliminated the recognition and measure of troubled debt restructurings and enhanced disclosures for loan modifications to borrowers experiencing financial difficulty.

Occasionally, the Corporation modifies loans to borrowers in financial distress by providing principal forgiveness, term extension, an other-than-insignificant payment delay or interest rate reduction. When principal forgiveness is provided, the amount of forgiveness is charged-off against the allowance for credit losses.

In some cases, the Corporation provides multiple types of concessions on one loan. Typically, one type of concession, such as a term extension, is granted initially. If the borrower continues to experience financial difficulty, another concession, such as principal forgiveness, may be granted. For the loans included in the "combination" columns below, multiple types of modifications have been made on the same loan within the current reporting period. The combination is at least two of the following: a term extension, principal forgiveness, an other-than-insignificant payment delay and/or an interest rate reduction.

The following table presents the amortized cost basis of loans at March 31, 2024 that were both experiencing financial difficulty and modified during the three months ended March 31, 2024, by class and by type of modification. The percentage of the amortized cost basis of loans that were modified to borrowers in financial distress as compared to the amortized cost basis of each class of financing receivable is also presented below:

	Principal Forgiveness	Payment Delay	Term Extension	Interest Rate Reduction	Combination Payment Delay and Term Extension	Total Class of Financing Receivable
Owner-occupied, nonfarm nonresidential properties	$ —	$ 288	$ —	$ —	$ —	0.1 %
Commercial and Industrial	—	—	505	—	—	0.1
Total	$ —	$ 288	$ 505	$ —	$ —	— %

The following table presents the amortized cost basis of loans at March 31, 2023 that were both experiencing financial difficulty and modified during the three months ended March 31, 2023, by class and by type of modification. The percentage of the amortized cost basis of loans that were modified to borrowers in financial distress as compared to the amortized cost basis of each class of financing receivable is also presented below:

	Principal Forgiveness	Payment Delay	Term Extension	Interest Rate Reduction	Combination Payment Delay and Term Extension	Total Class of Financing Receivable
Owner-occupied, nonfarm nonresidential properties	$ —	$ 98	$ —	$ —	$ —	— %
Commercial and Industrial	—	2,573	612	371	122	0.5
Other construction loans and all land development and other land loans	—	1,538	—	—	—	0.4
Non-owner occupied, nonfarm nonresidential properties	—	—	1,562	—	—	0.2
Total	$ —	$ 4,209	$ 2,174	$ 371	$ 122	0.2 %

The Corporation had no unfunded available credit to customers whose loan receivables are included in the previous tables.

The Corporation closely monitors the performance of loans that are modified to borrowers experiencing financial difficulty to understand the effectiveness of its modification efforts.

The following table presents the performance of such loans that have been modified during the twelve months ended March 31, 2024:

	Current	30 - 59 Days Past Due	60 - 89 Days Past Due	Greater Than 89 Days Past Due	Total Past Due
Owner-occupied, nonfarm nonresidential properties	$ 696	$ 288	$ —	$ —	$ 288
Commercial and Industrial	3,705	321	—	—	321
Non-owner occupied, nonfarm nonresidential properties	6,696	—	—	—	—
Residential Mortgages secured by first liens	399	—	—	—	—
Residential Mortgages secured by junior liens	29	—	—	—	—
Total	$ 11,525	$ 609	$ —	$ —	$ 609

The following table presents the performance of such loans that have been modified during the three months ended March 31, 2023:

	Current	30 - 59 Days Past Due	60 - 89 Days Past Due	Greater Than 89 Days Past Due	Total Past Due
Owner-occupied, nonfarm nonresidential properties	$ —	$ 98	$ —	$ —	$ 98
Commercial and Industrial	3,678	—	—	—	—
Other construction loans and all land development and other land loans	—	—	1,538	—	1,538
Non-owner occupied, nonfarm nonresidential properties	1,562	—	—	—	—
Total	$ 5,240	$ 98	$ 1,538	$ —	$ 1,636

The following table presents the financial effect of the loan modifications presented above to borrowers experiencing financial difficulty for the three months ended March 31, 2024:

	Principal Forgiveness	Weighted Average Term Extension (in years)	Weighted Average Interest Rate Reduction
Commercial and Industrial	$ —	1.00	— %
Total	$ —	1.00	— %

The following table presents the financial effect of the loan modifications presented above to borrowers experiencing financial difficulty for the three months ended March 31, 2023:

	Principal Forgiveness	Weighted Average Term Extension (in years)	Weighted Average Interest Rate Reduction
Commercial and Industrial	$ —	0.97	0.5 %
Non-owner occupied, nonfarm nonresidential properties	—	0.50	— %
Total	$ —	0.65	— %

The following table presents the amortized cost basis of loans that had a payment default during the three months ended March 31, 2024 and were modified in the twelve months prior to that default to borrowers experiencing financial difficulty.

	Principal Forgiveness	Payment Delay	Term Extension	Interest Rate Reduction	Combination Payment Delay and Term Extension
Owner-occupied, nonfarm nonresidential properties	$ —	$ 308	$ —	$ —	$ —
Commercial and Industrial	—	—	—	301	—
Total	$ —	$ 308	$ —	$ 301	$ —

There were no loans that had a payment default during the three months ended March 31, 2023 and were modified in the twelve months prior to that default to borrowers experiencing financial difficulty.

If the Corporation determines that a modified loan (or portion of a loan) has subsequently been deemed uncollectible, the loan (or a portion of the loan) is written off and the amortized cost basis of the loan is reduced by the uncollectible amount and the allowance for credit losses is adjusted by the same amount.

Credit Quality Indicators

The Corporation categorizes loans receivable into risk categories based on relevant information about the ability of borrowers to service their debt such as: current financial information, historical payment experience, credit documentation, public information, and current economic trends, among other factors. The Corporation analyzes loans individually to classify the loans as to credit risk.

The Corporation uses the following definitions for risk ratings:

Special Mention: A loan classified as special mention has a potential weakness that deserves management's close attention. If left uncorrected, these potential weaknesses may result in deterioration of the repayment prospects for the loan or of the Corporation's credit position at some future date.

Substandard: A loan classified as substandard is inadequately protected by the current net worth and paying capacity of the obligor or of the collateral pledged, if any. The loan has a well-defined weakness or weaknesses that jeopardize the liquidation of the debt. A substandard loan is characterized by the distinct possibility that the Corporation will sustain some loss if the deficiencies are not corrected.

Doubtful: A loan classified as doubtful has all the weaknesses inherent in those classified as substandard, with the added characteristic that the weaknesses make collection or liquidation in full, on the basis of currently existing facts, conditions, and values, highly questionable and improbable.

The following tables represent the Corporation's commercial credit risk profile by risk rating. Loans receivable not rated as special mention, substandard, or doubtful are considered to be pass rated loans.

	March 31, 2024					
		Non-Pass Rated				
	Pass	Special Mention	Substandard	Doubtful	Total Non-Pass	Total
Farmland	$ 30,411	$ —	$ 734	$ —	$ 734	$ 31,145

The Corporation considers the performance of the loan portfolio and its impact on the allowance for credit losses. For 1-4 family construction, home equity lines of credit, residential mortgages secured by first liens, residential mortgages secured by junior liens, automobile, credit cards, other revolving credit plans and other consumer segments, the Corporation evaluates credit quality based on the performance status of the loan, which was previously presented, and by payment activity. Nonperforming loans include loans receivable on nonaccrual status and loans receivable past due over 89 days and still accruing interest.

Holiday's loan portfolio, included in other consumer loans above, is summarized as follows at March 31, 2024 and December 31, 2023:

	March 31, 2024	December 31, 2023
Gross other consumer	$ 28,962	$ 31,242
Less: other consumer unearned discounts	(5,086)	(5,696)
Total other consumer loans, net of unearned discounts	$ 23,876	$ 25,546

5. LEASES

Operating lease assets represent the Corporation's right to use an underlying asset during the lease term and operating lease liabilities represent the Corporation's obligation to make lease payments arising from the lease. Operating lease assets and liabilities are recognized at lease commencement based on the present value of the remaining lease payments using a discount rate that represents the Corporation's incremental borrowing rate at the lease commencement date. Operating lease cost, which is comprised of amortization of the operating lease asset and the implicit interest accreted on the operating lease liability, is recognized on a straight-line basis over the lease term, and is recorded in net occupancy expense in the condensed consolidated statements of income.

The Corporation leases certain full-service branch offices, land, and equipment. Leases with an initial term of twelve months or less are not recorded on the balance sheet. Most leases include one or more options to renew and the exercise of the lease renewal options are at the Corporation's sole discretion. The Corporation includes lease extension and termination options in the lease term if, after considering relevant economic factors, it is reasonably certain the Corporation will exercise the option. Certain lease agreements of the Corporation include rental payments adjusted periodically for changes in the consumer price index.

Leases	Classification	March 31, 2024	December 31, 2023
Assets:			
Operating lease assets	Operating lease assets	$ 35,775	$ 35,699
Finance lease assets	Premises and equipment, net [1]	197	215
Total leased assets		$ 35,972	$ 35,914
Liabilities:			
Operating lease liabilities	Operating lease liabilities	$ 37,832	$ 37,650
Finance lease liabilities	Accrued interest payable and other liabilities	271	294
Total leased liabilities		$ 38,103	$ 37,944

[1] Finance lease assets are recorded net of accumulated amortization of $1.0 million as of March 31, 2024 and $1.0 million as of December 31, 2023.

The components of the Corporation's net lease expense for the three months ended March 31, 2024 and 2023, respectively, were as follows:

Lease Cost	Classification	Three Months Ended March 31, 2024	2023
Operating lease cost	Net occupancy expense	$ 742	$ 697
Variable lease cost	Net occupancy expense	27	22
Finance lease cost:			
Amortization of leased assets	Net occupancy expense	18	18
Interest on lease liabilities	Interest expense - borrowed funds	3	4
Sublease income [1]	Net occupancy expense	(24)	(23)
Net lease cost		$ 766	$ 718

[1] Sublease income excludes rental income fromowned properties.

The following table sets forth future minimum rental payments under noncancellable leases with initial terms in excess of one year as of March 31, 2024:

Maturity of Lease Liabilities as of March 31, 2024	Operating Leases [1]	Finance Leases	Total
2024	$ 1,922	$ 78	$ 2,000
2025	2,636	105	2,741
2026	2,627	105	2,732
2027	2,604	—	2,604
2028	2,625	—	2,625
After 2028	48,001	—	48,001
Total lease payments	60,415	288	60,703
Less: Interest	22,583	17	22,600
Present value of lease liabilities	$ 37,832	$ 271	$ 38,103

[1] Operating lease payments include payments related to options to extend lease terms that are reasonably certain ofbeing exercised and exclude $8.6 million oflegally binding minimumlease payments for leases signed, but not yet commenced.

Lease terms and discount rates related to the Corporation's lease liabilities as of March 31, 2024 and December 31, 2023 were as follows:

Lease Term and Discount Rate	March 31, 2024	December 31, 2023
Weighted-average remaining lease term (years)		
Operating leases	22.7	23.0
Finance leases	2.7	3.0
Weighted-average discount rate		
Operating leases	4.06 %	4.05 %
Finance leases	4.49 %	4.49 %

Other information related to the Corporation's lease liabilities as of March 31, 2024 and 2023, respectively, was as follows:

Other Information	March 31, 2024	March 31, 2023
Cash paid for amounts included in the measurement of lease liabilities		
Operating cash flows from operating leases	$ 268	$ 307

6. DEPOSITS

The following table reflects time certificates of deposit accounts included in total deposits and their remaining maturities at March 31, 2024:

Time deposits maturing:	
2024	$ 373,105
2025	135,638
2026	12,805
2027	6,214
2028	2,925
Thereafter	2,084
	$ 532,771

Certificates of deposits of $250 thousand or more totaled $104.2 million and $100.2 million at March 31, 2024 and December 31, 2023, respectively.

The Corporation had $206.8 million in brokered deposits as of March 31, 2024 compared to $208.3 million at December 31, 2023. In addition, the Corporation had $784.8 million and $739.3 million in reciprocal deposits at March 31, 2024 and December 31, 2023, respectively.

7. BORROWINGS

At March 31, 2024 and December 31, 2023, the Corporation had available one $10.0 million unsecured line of credit with an unaffiliated institution. Borrowings under the line of credit bear interest at a variable rate equal to the Secured Overnight Finance Rate ("SOFR") plus 2.85%. There were no borrowings under the line of credit at March 31, 2024 and December 31, 2023.

FHLB Borrowings

The Bank has the ability to borrow funds from the Federal Home Loan Bank ("FHLB"). The Bank maintains a $250.0 million line-of-credit (Open Repo Plus) with the FHLB which is a revolving term commitment available on an overnight basis. The term of this commitment may not exceed 364 days and it reprices daily at market rates. Under terms of a blanket collateral agreement with the FHLB, the line-of-credit and long term advances are secured by FHLB stock and the Bank pledges its single-family residential mortgage loan portfolio, certain commercial real estate loans, and certain agriculture real estate loans as security for any advances.

Total loans pledged to the FHLB at March 31, 2024, and December 31, 2023 were $1.8 billion and $1.8 billion, respectively. The Bank could obtain advances of up to approximately $995.1 million from the FHLB at March 31, 2024 and $993.8 million at December 31, 2023.

At March 31, 2024 and December 31, 2023, outstanding advances from the FHLB were as follows.

	March 31, 2024	December 31, 2023
Open Repo borrowing at an interest rate of 5.67% and 5.68% at March 31, 2024 and December 31, 2023, respectfully. The maximum amount of the Open Repo borrowing available is $250,000.	$ —	$ —
Total	$ —	$ —

At March 31, 2024 and December 31, 2023, municipal deposit letters of credit issued by the FHLB on behalf of the Bank naming applicable municipalities as beneficiaries were $158.0 million and $155.7 million, respectively. The letters of credit were utilized in place of securities pledged to the municipalities for their deposits maintained at the Bank.

Federal Reserve Borrowings

In June 2023, the Bank was approved by the Federal Reserve Bank of Philadelphia (the "Federal Reserve") for its Borrower-in-Custody ("BIC") program. At March 31, 2024, the Bank had borrowing capacity through the Federal Reserve BIC program of $242.9 million. Borrowings under the BIC program are overnight advances with interest chargeable at the discount window ("primary credit") borrowing rate. At March 31, 2024, the Bank has pledged certain qualifying loans with an unpaid principal balance of $258.6 million and securities with a carrying value of $78.4 million as collateral.

At March 31, 2024 and December 31, 2023, the Bank had no borrowings from the Federal Reserve BIC program, discount window and no borrowings under the Federal Reserve's Bank Term Facility Program ("BTFP"), which opened March 12, 2023.

Other Borrowings

At March 31, 2024 and December 31, 2023, the Bank had no outstanding borrowings from unaffiliated institutions under overnight borrowing agreements.

Subordinated Debentures

In 2007, the Corporation issued two $10.0 million floating rate trust preferred securities as part of a pooled offering of such securities. The interest rate on each offering was determined quarterly and floated based upon three-month LIBOR plus 1.55%. Effective September 15, 2023, the interest rate calculation method was revised. The interest rate is now determined quarterly, and floats based on the three-month SOFR plus a credit spread adjustment of 0.26161% plus 1.55%. This change reflects the transition from LIBOR to SOFR as the reference rate. The all-in rate was 7.14% at March 31, 2024 and 7.20% at December 31, 2023. The Corporation issued subordinated debentures to the trusts in exchange for the proceeds of the offerings, which debentures represent the sole assets of the trusts. The subordinated debentures must be redeemed no later than 2037. The Corporation may redeem the debentures, in whole or in part, at face value at any time. The Corporation has the option to defer interest payments from time to time for a period not to exceed five consecutive years. Although the trusts are variable interest entities, the Corporation is not the primary beneficiary. As a result, because the trusts are not consolidated with the Corporation, the Corporation does not report the securities issued by the trusts as liabilities. Instead, the Corporation reports as liabilities the subordinated debentures issued by the Corporation and held by the trusts, since the liabilities are not eliminated in consolidation. The trust preferred securities were designated to qualify as Tier 1 capital under the Federal Reserve's capital guidelines.

Subordinated Notes

In June 2021, the Corporation sold $85.0 million aggregate principal amount of its fixed-to-floating rate subordinated notes to eligible purchasers in a private offering in reliance on the exemption from the registration requirements of Section 4(a)(2) of the Securities Act and the provisions of Rule 506 of Regulation D thereunder. The notes will mature in June 2031, and initially bear interest at a fixed rate of 3.25% per annum, payable semi-annually in arrears, to, but excluding, June 15, 2026, and thereafter to, but excluding, the maturity date or earlier redemption, the interest rate will reset quarterly to an interest rate per annum equal to the then current three-month average SOFR plus 2.58%. The net proceeds from the sale were approximately $83.5 million, after deducting offering expenses. These subordinated notes were designed to qualify as Tier 2 capital under the Federal Reserve's capital guidelines and were given an investment grade rating of BBB- by Kroll Bond Rating Agency. The unamortized debt issuance costs were $0.7 million and $0.7 million as of March 31, 2024 and December 31, 2023, respectively.

8. RELATED PARTY TRANSACTIONS

Some of the Corporation's directors, executive officers, and their related interests had transactions with the Bank in the ordinary course of business. All loan and deposit transactions were made on substantially the same terms, such as interest rates and collateral, as those prevailing at the time for comparable transactions. In the opinion of management, these transactions do not involve more than the normal risk of collectability nor do they present other unfavorable features. It is anticipated that similar transactions will be entered into in the future.

Loans to principal officers, directors, and their affiliates during the three months ended March 31, 2024 were as follows:

Beginning balance	$	40,129
New loans and advances		67
Effect of changes in composition of related parties		119
Repayments		(5,163)
Ending balance	$	35,152

Deposits from directors, executive officers, and their affiliates were $9.9 million and $11.4 million at March 31, 2024 and December 31, 2023, respectively.

9. OFF-BALANCE SHEET COMMITMENTS AND CONTINGENCIES

Financial Instruments with Off-Balance Sheet Risk

The Corporation is a party to financial instruments with off-balance sheet risk in the normal course of business to meet the financial needs of its customers. These financial instruments include commitments to extend credit and standby letters of credit. Those instruments involve, to varying degrees, elements of credit and interest rate risk in excess of the amount recognized in the condensed consolidated balance sheets. The Corporation's exposure to credit loss in the event of nonperformance by the other party of the financial instrument for commitments to extend credit and standby letters of credit is represented by the contract or notional amount of those instruments. The Corporation uses the same credit policies for underwriting all loans, including these commitments and conditional obligations.

As of March 31, 2024 and December 31, 2023, the Corporation did not own or trade other financial instruments with significant off-balance sheet risk including derivatives such as futures, forwards, option contracts and the like, although such instruments may be appropriate to use in the future to manage interest rate risk. See Note 12, "Derivative Instruments," for a description of interest rate derivatives entered into by the Corporation.

Standby letters of credit are conditional commitments issued by the Corporation to guarantee the performance of a customer to a third party. The contract or notional amount of these instruments reflects the maximum amount of future payments that the Corporation could be required to pay under the guarantees if there were a total default by the guaranteed parties, without consideration for possible recoveries under recourse provisions or from collateral held or pledged. In addition, many of these commitments are expected to expire without being drawn upon; therefore, the total commitment amounts do not necessarily represent future cash requirements.

The Corporation's maximum obligation to extend credit for loan commitments (unfunded loans and unused lines of credit) and standby letters of credit outstanding as of March 31, 2024 and December 31, 2023 were as follows:

	March 31, 2024		December 31, 2023	
	Fixed Rate	Variable Rate	Fixed Rate	Variable Rate
Commitments to extended credit	$ 107,587	$ 346,930	$ 111,526	$ 370,437
Unused lines of credit	22,066	803,451	11,219	789,534
Standby letters of credit	20,832	3,264	18,649	2,480

Commitments to extend credit are agreements to lend to a customer as long as there is no violation of any condition established in the contract. Commitments generally have fixed expiration dates or other termination clauses and may require payment of a fee. Since many of the commitments are expected to expire without being drawn upon, the total commitment amounts do not necessarily represent future cash requirements. The Corporation evaluates each customer's creditworthiness on a case-by-case basis. The amount of collateral obtained, if deemed necessary by the Corporation upon extension of credit, is based on management's credit evaluation of the counterparty. Collateral that is held varies but may include securities, accounts receivable, inventory, property, plant and equipment, and residential and income-producing commercial properties.

Allowance for Credit Losses on Unfunded Loan Commitments

The Corporation maintains an allowance for credit losses on unfunded commercial lending commitments and letters of credit to provide for the risk of loss inherent in these arrangements. The allowance is computed using a methodology similar to that used to determine the allowance for credit losses for loans receivable, modified to take into account the probability of a draw-down on the commitment. The provision for credit losses on unfunded loan commitments is included in the provision for credit losses on the Corporation's condensed consolidated statements of income. The allowance for unfunded commitments is included in other liabilities in the condensed consolidated balance sheets. Note 4, "Loans Receivable and Allowance for Credit Losses," in the condensed consolidated financial statements provides more detail concerning the provision for credit losses related to the loan portfolio of the Corporation.

The following table presents activity in the allowance for credit losses on unfunded loan commitments for the three months ended March 31, 2024 and 2023, respectively:

	Three Months Ended March 31,	
	2024	2023
Beginning balance	$ 759	$ 603
Provision for credit losses on unfunded loan commitments [1]	(24)	59
Ending balance	$ 735	$ 662

[1] Excludes provision for credit losses related to the loan portfolio.

Other Off-Balance Sheet Commitments

The Corporation makes investments in limited partnerships, including certain small business investment corporations and low income housing partnerships. Capital contributions for investments in small business companies ("SBIC") and other limited partnerships, reported in FHLB and other restricted stock holdings and investments on the condensed consolidated balance sheet, as of March 31, 2024 and December 31, 2023 were $22.2 million and $21.7 million, respectively. Unfunded capital commitments in investments in SBIC's and other limited partnerships totaled $6.3 million and $6.8 million as of March 31, 2024 and December 31, 2023, respectively. These investments are accounted for under the equity method of accounting.

Qualified Affordable Housing Project Investments

The carrying value of investments in the low income housing partnerships, reported in FHLB and other restricted stock holdings and investments on the condensed consolidated balance sheet, as of March 31, 2024 and December 31, 2023 were $3.6 million and $3.8 million, respectively. The related amortization for the three months ended March 31, 2024 and 2023 was $178 thousand and $186 thousand, respectively. Unfunded commitments, reported in accrued interest payable and other liabilities on the condensed consolidated balance sheets, as of March 31, 2024 and December 31, 2023 were $529 thousand and $796 thousand, respectively.

Litigation

The Corporation is subject to claims and lawsuits that arise primarily in the ordinary course of business. It is the opinion of management the disposition or ultimate resolution of such claims and lawsuits will not have a material adverse effect on the consolidated financial position, results of operations and cash flows of the Corporation.

10. STOCK COMPENSATION

The Corporation has a stock incentive plan, which is administered by a committee of the Board of Directors and which permits the Corporation to provide various types of stock-based compensation to its key employees, directors, and/or consultants, including time-based and performance-based shares of restricted stock. The Corporation previously maintained the CNB Financial Corporation 2009 Stock Incentive Plan, which terminated in accordance with its terms on February 10, 2019, and currently maintains the CNB Financial Corporation 2019 Omnibus Incentive Plan (the "2019 Stock Incentive Plan"), which was approved by the Corporation's shareholders and became effective on April 16, 2019.

The 2019 Stock Incentive Plan provides for up to 507,671 shares of common stock to be awarded in the form of nonqualified options or restricted stock. For key employees, the vesting of time-based restricted stock is one-third, one-fourth, or one-fifth of the granted restricted shares per year, beginning one year after the grant date, with 100% vesting on the third, fourth or fifth anniversary of the grant date, respectively. Stock compensation received by non-employee directors vests immediately.

At March 31, 2024, there was no unrecognized compensation cost related to stock-based compensation awarded under this plan and, except for the time-based and performance-based restricted stock awards disclosed below and in previous filings, no other stock-based compensation was granted during the three months ended March 31, 2024 and 2023.

Compensation expense for the restricted stock awards is recognized over the requisite service period based on the fair value of the shares at the date of grant on a straight-line basis. Non-vested restricted stock awards are recorded as a reduction of additional paid-in-capital in shareholders' equity until earned. Compensation expense resulting from time-based, performance-based and director restricted stock awards was $883 thousand for the three months ended March 31, 2024, and $616 thousand for the three months ended March 31, 2023, respectively. The total income tax benefit related to the recognized compensation cost of vested restricted stock awards was $185 thousand for the three months ended March 31, 2024, and $129 thousand for the three months ended March 31, 2023, respectively.

A summary of changes in time-based unvested restricted stock awards for the three months ended March 31, 2024 follows:

	Shares	Per Share Weighted Average Grant Date Fair Value
Unvested at beginning of period	124,934	$ 24.09
Granted	112,828	21.26
Forfeited	(2,443)	22.76
Vested	(42,132)	24.22
Unvested at end of period	193,187	$ 22.42

The above table excludes 18,029 shares in restricted stock awards that were granted to the Corporation's Board of Directors at a weighted average fair value of $21.35 and immediately vested. As of March 31, 2024 and December 31, 2023, there was $4.1 million and $2.1 million, respectively, of total unrecognized compensation cost related to non-vested shares granted under the 2019 Stock Incentive Plan. The fair value of shares vested was $1.4 million during the three months ended March 31, 2024, and $970 thousand during the three months ended March 31, 2023.

In addition to the time-based restricted stock disclosed above, the Corporation's Board of Directors grants performance-based restricted stock awards ("PBRSAs") to key employees. The number of PBRSAs will depend on certain performance conditions earned over a three year period and are also subject to service-based vesting. In 2024, awards with a maximum of 29,992 shares in aggregate were granted to key employees. In 2023, awards with a maximum of 23,124 shares in aggregate were granted to key employees. In 2022, awards with a maximum of 13,761 shares in aggregate were granted to key employees.

In 2023, the 2021 PBRSAs were fully earned and in 2024, 9,667 shares were fully distributed. The fair value of the shares distributed in 2024 was $206 thousand.

11. EARNINGS PER COMMON SHARE

Basic earnings per common share is computed by dividing net income available to common shareholders by the weighted average number of common shares outstanding during the applicable period, excluding outstanding participating securities. Diluted earnings per common share is computed using the weighted average number of common shares determined for the basic computation plus the dilutive effect of potential common shares issuable under certain stock compensation plans. For the three months ended March 31, 2024 and 2023, there were no outstanding stock options to include in the diluted earnings per common share calculations.

Unvested share-based payment awards that contain nonforfeitable rights to dividends or dividend equivalents (whether paid or unpaid) are participating securities and are included in the computation of earnings per common share pursuant to the two-class method. The Corporation has determined that its outstanding non-vested time-based restricted stock awards are participating securities.

The computation of basic and diluted earnings per common share is shown below:

	Three Months Ended March 31,	
	2024	2023
Basic earnings per common share computation:		
Net income per condensed consolidated statements of income	$ 11,525	$ 15,414
Net earnings allocated to participating securities	(92)	(78)
Net earnings allocated to common stock	$ 11,433	$ 15,336
Distributed earnings allocated to common stock	$ 3,646	$ 3,673
Undistributed earnings allocated to common stock	7,787	11,663
Net earnings allocated to common stock	$ 11,433	$ 15,336
Weighted average common shares outstanding, including shares considered participating securities	20,979	21,143
Less: Average participating securities	(155)	(100)
Weighted average shares	20,824	21,043
Basic earnings per common share	$ 0.55	$ 0.73
Diluted earnings per common share computation:		
Net earnings allocated to common stock	$ 11,433	$ 15,336
Weighted average common shares outstanding for basic earnings per common share	20,824	21,043
Add: Dilutive effect of stock compensation	63	35
Weighted average shares and dilutive potential common shares	20,887	21,078
Diluted earnings per common share	$ 0.55	$ 0.73

12. DERIVATIVE INSTRUMENTS

On September 7, 2018, the Corporation executed an interest rate swap agreement with a 5-year term and an effective date of September 15, 2018 in order to hedge cash flows associated with $10.0 million of a subordinated trust preferred security that was issued by the Corporation during 2007 and elected cash flow hedge accounting for the agreement. The Corporation's objective in using this derivative is to add stability to interest expense and to manage its exposure to interest rate risk. The interest rate swap involves the receipt of variable-rate amounts in exchange for fixed-rate payments from September 15, 2018 to September 15, 2023 without the exchange of the underlying notional amount. The swap expired on September 15, 2023 and was not renewed.

As of March 31, 2024 and December 31, 2023, no derivatives were designated as fair value hedges or hedges of net investments in foreign operations. Additionally, the Corporation does not use derivatives for trading or speculative purposes and currently does not have any derivatives that are not designated as hedges.

The following tables provide information about the amounts and locations of activity related to the interest rate swaps designated as cash flow hedges within the Corporation's condensed consolidated statements of income for the three months ended March 31, 2024 and 2023:

For the Three Months Ended March 31, 2024	(a)	(b)	(c)	(d)	(e)
Interest rate contracts	$ —	Interest expense – subordinated notes and debentures	$ —	Other income	$ —
For the Three Months Ended March 31, 2023	(a)	(b)	(c)	(d)	(e)
Interest rate contracts	$ (37)	Interest expense – subordinated notes and debentures	$ (45)	Other income	$ —

(a) Amount of Gain or (Loss) Recognized in Other Comprehensive Loss on Derivative (Effective Portion), net of tax
(b) Location of Gain or (Loss) Reclassified from Accumulated Other Comprehensive Loss into Income (Effective Portion)
(c) Amount of Gain or (Loss) Reclassified from Accumulated Other Comprehensive Loss into Income (Effective Portion)
(d) Location of Gain or (Loss) Recognized in Income on Derivative (Ineffective Portion and Amount Excluded from Effectiveness Testing)
(e) Amount of Gain or (Loss) Recognized in Income on Derivative (Ineffective Portion and Amount Excluded from Effectiveness Testing)

Derivatives on Behalf of Customers

The Corporation entered into certain interest rate swap contracts that are not designated as hedging instruments. These derivative contracts relate to transactions in which the Corporation enters into an interest rate swap with a customer while at the same time entering into an offsetting interest rate swap with another financial institution. In connection with each swap transaction, the Corporation agrees to pay interest to the customer on a notional amount at a variable interest rate and receive interest from the customer on a similar notional amount at a fixed interest rate. Concurrently, the Corporation agrees to pay another financial institution the same fixed interest rate on the same notional amount and receive the same variable interest rate on the same notional amount. The transaction allows the Corporation's customers to effectively convert a variable rate loan to a fixed rate. Because the Corporation acts as an intermediary for its customer, changes in the fair value of the underlying derivative contracts offset each other and do not impact the Corporation's results of operations.

The Corporation pledged cash collateral to another financial institution with a balance $483 thousand as of March 31, 2024 and $173 thousand as of December 31, 2023. This balance is included in cash and cash equivalents due from banks on the condensed consolidated balance sheets. The Corporation may require its customers to post cash or securities as collateral on its program of back-to-back swaps depending upon the specific facts and circumstances surrounding each loan and individual swap. In addition, certain language is included in the International Swaps and Derivatives Association agreement and loan documents where, in default situations, the Corporation is permitted to access collateral supporting the loan relationship to recover any losses suffered on the derivative asset or liability. The Corporation may be required to post additional collateral to swap counterparties in the future in proportion to potential increases in unrealized loss positions. Effective on September 30, 2023 the Corporation amended all of the back-to-back swap contracts to reference the 1-month SOFR plus a credit spread adjustment of 11.448 basis points "Fallback SOFR."

The following table provides information about the amounts and locations of activity related to the back-to-back interest rate swaps within the Corporation's condensed consolidated balance sheet as of March 31, 2024 and December 31, 2023:

		Fair Value			
	Notional Amount	Asset		Liability	
March 31, 2024	$ 59,171	$ 1,560	(a)	$ 1,560	(b)
December 31, 2023	$ 21,302	$ 1,013	(a)	$ 1,013	(b)

(a) Reported in accrued interest receivable and other assets within the condensed consolidated balance sheets
(b) Reported in accrued interest payable and other liabilities within the condensed consolidated balance sheets

Risk Participation Agreements

The Corporation's existing credit derivatives result from participations in or out of interest rate swaps provided by or to external lenders as part of loan participation arrangements, therefore, are not used to manage interest rate risk in the Corporation's assets or liabilities. Derivatives not designated as hedges are not speculative and result from a service the Corporation provides to certain lenders which participate in loans.

The Corporation entered into Risk Participation Agreement ("RPA") swaps with other financial institutions related to loans in which the Corporation is a participant in. The RPA provides credit protection to the financial institution should the borrower fail to perform on its interest rate derivative contract with the financial institution. The notional amount of this contingent agreement is $21.6 million as of March 31, 2024 and $14.0 million as of December 31, 2023.

The Corporation entered into RPA swaps with other financial institutions related to loans in which the Corporation is a participant out. The RPA provides credit protection to the Corporation should the borrower fail to perform on its interest rate derivative contract with the financial institution. The notional amount of this contingent agreement is $25.5 million as of March 31, 2024 and zero as of December 31, 2023.

The fair value of the RPAs swaps was $19 thousand and $49 thousand as of March 31, 2024 and December 31, 2023, respectively, and is reported in accrued interest payable and other liabilities within the condensed consolidated balance sheets.

13. FAIR VALUE

Fair Value Measurement

Fair value is defined as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date.

The following three levels of inputs are used to measure fair value:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the entity has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect a company's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

The Corporation used the following methods and significant assumptions to estimate fair value:

Investment Securities: The fair values for investment securities are determined by quoted market prices, if available (Level 1). For securities where quoted prices are not available, fair values are calculated based on market prices of similar securities (Level 2), using matrix pricing. Matrix pricing is a mathematical technique commonly used to price debt securities that are not actively traded, values debt securities without relying exclusively on quoted prices for the specific securities but rather by relying on the securities' relationship to other benchmark quoted securities (Level 2 inputs). For securities where quoted prices or market prices of similar securities are not available, fair values are calculated using discounted cash flows or other market indicators (Level 3).

Loans Held for Sale: Loans held for sale are carried at the lower of cost or fair value, which is evaluated on a loan-level basis. The fair value of loans held for sale is determined using quoted prices for similar assets, adjusted for specific attributes of that loan or other observable market data, such as outstanding commitments from third party investors (Level 2).

Derivatives: The fair values of derivatives are based on valuation models using observable market data as of the measurement date (Level 2). The Corporation's derivatives are traded in an over-the-counter market where quoted market prices are not always available. Therefore, the fair values of derivatives are determined using quantitative models that utilize multiple market inputs. The inputs will vary based on the type of derivative, but could include interest rates, prices, and indices to generate continuous yield or pricing curves, prepayment rates, and volatility factors to value the position. The majority of market inputs are actively quoted and can be validated through external sources, including brokers, market transactions, and third-party pricing services.

Individually Evaluated Loans: The fair value of individually evaluated loans with specific allocations of the allowance for credit losses is generally based on recent real estate appraisals prepared by third-parties. These appraisals may utilize a single valuation approach or a combination of approaches including comparable sales and the income approach. Adjustments are routinely made in the appraisal process by the appraisers to adjust for differences between the comparable sales and income data available. Management also adjusts appraised values based on the length of time that has passed since the appraisal date and other factors. Such adjustments are usually significant and typically result in a Level 3 classification of the inputs for determining fair value. Non-real estate collateral may be valued using an appraisal, net book value per the borrower's financial statements, or aging reports, adjusted or discounted based on management's historical knowledge, changes in market conditions from the time of the valuation, and management's expertise and knowledge of the client and client's business, resulting in a Level 3 fair value classification. Individually evaluated loans are evaluated on a quarterly basis for additional impairment and adjusted in accordance with the allowance policy.

Assets and liabilities measured at fair value on a recurring basis are as follows at March 31, 2024 and December 31, 2023:

		Fair Value Measurements at March 31, 2024 Using:		
Description	Total	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)

Residential mortgages secured by first liens	871	—	—	871

A loan is considered to be a collateral dependent loan when, based on current information and events, the Corporation expects repayment of the financial assets to be provided substantially through the operation or sale of the collateral and the Corporation has determined that the borrower is experiencing financial difficulty as of the measurement date. The allowance for credit losses is measured by estimating the fair value of the loan based on the present value of expected cash flows, the market price of the loan, or the underlying fair value of the loan's collateral. For real estate loans, fair value of the loan's collateral is determined by third-party appraisals, which are then adjusted for the estimated selling and closing costs related to liquidation of the collateral. For this asset class, the actual valuation methods (income, sales comparable, or cost) vary based on the status of the project or property. For example, land is generally based on the sales comparable method while construction is based on the income and/or sales comparable methods. The unobservable inputs may vary depending on the individual assets with no one of the three methods being the predominant approach. The Corporation reviews the third-party appraisal for appropriateness and may adjust the value downward to consider selling and closing costs. For non-real estate loans, fair value of the loan's collateral may be determined using an appraisal, net book value per the borrower's financial statements, or aging reports, adjusted or discounted based on management's historical knowledge, changes in market conditions from the time of the valuation, and management's expertise and knowledge of the client and client's business.

The following table presents quantitative information about Level 3 fair value measurements for financial instruments measured at fair value on a non-recurring basis at March 31, 2024:

	Fair value	Valuation Technique	Unobservable Inputs	Range (Weighted Average)
Collateral-dependent loans receivable:				
Farmland	$ 430	Valuation of third party appraisal on underlying collateral	Loss severity rates	31% (31%)
Owner-occupied, nonfarm nonresidential properties	4,080	Valuation of third party appraisal on underlying collateral	Loss severity rates	0%-100% (31%)
Commercial and industrial	4,696	Valuation of third party appraisal on underlying collateral	Loss severity rates	4%-53% (20%)
Other construction loans and all land development loans and other land loans	1,255	Valuation of third party appraisal on underlying collateral	Loss severity rates	32% (32%)
Multifamily (5 or more) residential properties	300	Valuation of third party appraisal on underlying collateral	Loss severity rates	30% (30%)
Non-owner occupied, nonfarm nonresidential	6,970	Valuation of third party appraisal on underlying collateral	Loss severity rates	28%-49% (44%)
Home equity lines of credit	302	Valuation of third party appraisal on underlying collateral	Loss severity rates	17%-19% (17%)
Residential Mortgages secured by first liens	839	Valuation of third party appraisal on underlying collateral	Loss severity rates	19%-44% (33%)

The following table presents quantitative information about Level 3 fair value measurements for financial instruments measured at fair value on a non-recurring basis at December 31, 2023:

	Fair value	Valuation Technique	Unobservable Inputs	Range (Weighted Average)
Collateral-dependent loans receivable:				
Farmland	$ 736	Valuation of third party appraisal on underlying collateral	Loss severity rates	29%-31% (30%)
Owner-occupied, nonfarm nonresidential properties	5,589	Valuation of third party appraisal on underlying collateral	Loss severity rates	9%-100% (14%)
Commercial and industrial	7,425	Valuation of third party appraisal on underlying collateral	Loss severity rates	8%-75% (31%)
Other construction loans and all land development loans and other land loans	1,299	Valuation of third party appraisal on underlying collateral	Loss severity rates	32% (32%)
Multifamily (5 or more) residential properties	305	Valuation of third party appraisal on underlying collateral	Loss severity rates	28% (28%)
Non-owner occupied, nonfarm nonresidential	7,216	Valuation of third party appraisal on underlying collateral	Loss severity rates	32%-48% (43%)
Home equity lines of credit	308	Valuation of third party appraisal on underlying collateral	Loss severity rates	15%-17% (15%)
Residential mortgages secured by first liens	871	Valuation of third party appraisal on underlying collateral	Loss severity rates	17%-42% (31%)

Fair Value of Financial Instruments

The following table presents the carrying amount and fair value of financial instruments at March 31, 2024:

	Carrying Amount	Fair Value Measurement Using: Level 1	Level 2	Level 3	Total Fair Value
ASSETS

Accrued interest payable	(3,550)	—	(3,550)	—	(3,550)

While estimates of fair value are based on management's judgment of the most appropriate factors as of the balance sheet dates, there is no assurance that the estimated fair values would have been realized if the assets had been disposed of or the liabilities settled at that date, since market values may differ depending on various circumstances. The estimated fair values would also not apply to subsequent dates. The fair value of other equity interests is based on the net asset values provided by the underlying investment partnership. ASU 2015-7 removes the requirement to categorize within the fair value hierarchy all investments measured using the net asset value per share practical expedient and related disclosures. In addition, other assets and liabilities that are not financial instruments, such as premises and equipment, are not included in the disclosures.

Also, non-financial assets such as, among other things, the estimated earnings power of core deposits, the earnings potential of trust accounts, the trained workforce, and customer goodwill, which typically are not recognized on the balance sheet, may have value but are not included in the fair value disclosures.

ITEM 2
MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

GENERAL OVERVIEW

The following discussion and analysis of the condensed consolidated financial statements of the Corporation is presented to provide insight into management's assessment of financial results. The terms "we", "us" and "our" refer to CNB Financial Corporation and its subsidiaries. The financial condition and results of operations of the Corporation and its consolidated subsidiaries are not necessarily indicative of future performance.

The Corporation's subsidiary, CNB Bank (the "Bank"), provides financial services to individuals and businesses. The Bank franchise's primary market areas are the Pennsylvania counties of Blair, Cambria, Centre, Clearfield, Elk, Indiana, Jefferson, and McKean. ERIEBANK, a division of the Bank, operates in the Pennsylvania counties of Crawford, Erie, and Warren and in the Ohio counties of Ashtabula, Cuyahoga, Geauga, Lake, and Lorain. FCBank, a division of the Bank, operates in the Ohio counties of Crawford, Delaware, Franklin, Knox, Marion, Morrow and Richland. BankOnBuffalo, a division of the Bank, operates in the New York counties of Erie and Niagara. Ridge View Bank, a division of the Bank, operates in the Virginia counties of Botetourt, Craig, Franklin, and Roanoke. Impressia Bank, a division of the Bank, operates in the Bank's primary market areas. Although the Corporation's strategies, through the Bank, are executed based on the divisions discussed above, the Bank is a single Pennsylvania-chartered bank whereby all divisions of the Bank conduct their business on a doing business as basis.

In addition to the Bank, the Corporation has four other subsidiaries. CNB Securities Corporation is incorporated in Delaware and currently maintains investments in debt and equity securities. CNB Insurance Agency, incorporated in Pennsylvania, provides for the sale of nonproprietary annuities and other insurance products. CNB Risk Management, Inc., incorporated in Delaware, is a captive insurance company that insures against certain risks unique to the operations of the Corporation and its subsidiaries and for which insurance may not be currently available or economically feasible in today's insurance marketplace. Holiday Financial Services Corporation, incorporated in Pennsylvania, offers small balance unsecured loans and secured loans, primarily collateralized by automobiles and equipment, to borrowers with higher risk characteristics.

The following discussion should be read in conjunction with the Corporation's consolidated financial statements and notes thereto for the year ended December 31, 2023, included in its Annual Report on Form 10-K for the year ended December 31, 2023 (the "2023 Form 10-K"), and in conjunction with the condensed consolidated financial statements and notes thereto included in Item 1 of this report. Operating results for the three months ended March 31, 2024 are not necessarily indicative of the results for the full year ending December 31, 2024, or any future period.

NON-GAAP FINANCIAL INFORMATION

This report contains references to financial measures that are not defined in GAAP. Management uses non-GAAP financial information in its analysis of the Corporation's performance. Management believes that these non-GAAP measures provide a greater understanding of ongoing operations, enhance comparability of results of operations with prior periods and show the effects of significant gains and charges in the periods presented. The Corporation's management believes that investors may use these non-GAAP measures to analyze the Corporation's financial performance without the impact of unusual items or events that may obscure trends in the Corporation's underlying performance. This non-GAAP data should be considered in addition to results prepared in accordance with GAAP, and is not a substitute for, or superior to, GAAP results. Limitations associated with non-GAAP financial measures include the risks that persons might disagree as to the appropriateness of items included in these measures and that different companies might calculate these measures differently.

Non-GAAP measures reflected within the discussion below include:

- Tangible book value per share;
- Tangible common equity/tangible assets;
- Net interest margin (fully tax-equivalent basis);
- Efficiency ratio;
- Pre-provision net revenue ("PPNR");
- Return on average tangible common equity; and
- Non-interest income excluding realized gains on available-for-sale ("AFS") securities.

A reconciliation of these non-GAAP financial measures is provided below in the "Non-GAAP Financial Measures" section.

PRIMARY FACTORS USED TO EVALUATE PERFORMANCE

Management considers return on average assets, return on average equity, return on average tangible common equity, earnings per common share, tangible book value per common share, asset quality, net interest margin, and other metrics as key measures of the financial performance of the Corporation. The interest rate environment will continue to play an important role in the future earnings of the Corporation. To address the challenging interest rate and competitive environments, the Corporation continues to evaluate, develop and implement strategies necessary to support its ongoing financial performance objectives and future growth goals. Additionally, management frequently evaluates the potential impact of economic and geopolitical events that may have an impact on the credit risk profile of its customers and develops proactive strategies to mitigate such potential impacts on the Corporation's loan portfolio.

CASH AND CASH EQUIVALENTS

Cash and cash equivalents totaled $301.5 million at March 31, 2024, including additional excess liquidity of $259.5 million held at the Federal Reserve, compared to $222.0 million at December 31, 2023. These excess funds, when combined with $3.6 billion in (i) available borrowing capacity from the Federal Home Loan Bank of Pittsburgh ("FHLB") and the Federal Reserve, and (ii) available unused commitments from brokered deposit sources and other third-party funding channels, including previously established lines of credit from correspondent banks, result in the total on-hand and contingent liquidity sources for the Corporation to be approximately 4.3 times the estimated amount of adjusted uninsured deposit balances.

Management believes the liquidity needs of the Corporation are satisfied primarily by the current balance of cash and cash equivalents, customer and brokered deposits, FHLB financing, the portions of the securities and loan portfolios that mature within one year, and other third-party funding channels. The Corporation expects that these sources of funds will enable it to meet cash obligations and off-balance sheet commitments as they come due. In addition to the above noted liquidity sources, the Corporation maintains access to the Federal Reserve discount window.

SECURITIES

AFS debt securities and equity securities combined totaled $358.1 million and $351.3 million at March 31, 2024 and December 31, 2023, respectively. At March 31, 2024, the total balance of investments classified as held-to-maturity ("HTM") debt securities was $381.7 million compared to $389.0 million at December 31, 2023.

The Corporation's objective is to maintain the investment securities portfolio at an appropriate level to balance the earnings and liquidity provided by the portfolio. Note 3, "Securities," to the condensed consolidated financial statements provides more detail concerning the composition of the Corporation's securities portfolio and the process for evaluating securities for impairment.

The following table summarizes the maturity distribution schedule with corresponding weighted-average yields of AFS debt securities as of March 31, 2024. Weighted-average yields have been computed on a fully taxable-equivalent basis using a tax rate of 21%. Mortgage-backed securities are included in maturity categories based on their stated maturity date.

	March 31, 2024									
	Within One Year		After One But Within Five Years		After Five But Within Ten Years		After Ten Years		Total

The following table summarizes the weighted average modified duration of AFS securities as of March 31, 2024.

	Weighted Average Modified Duration (in Years)
U.S. Government Sponsored Entities	1.29
State and Political Subdivisions	5.60
Residential and multi-family mortgage	6.18
Corporate notes and bonds	4.17
Pooled SBA	2.46
Total	5.40

The following table summarizes the weighted average modified duration of securities HTM as of March 31, 2024.

	Weighted Average Modified Duration (in Years)
U.S. Government Sponsored Entities	2.35
Residential and multi-family mortgage	6.31
Total	3.22

The portfolio contains no holdings of a single issuer that exceeds 10% of shareholders' equity other than U.S. government sponsored entities.

The Corporation generally purchases debt securities over time and does not attempt to "time" its transactions, which allows for more efficient management of fluctuations in the interest rate environment. The Corporation's strategy given the current environment is to focus on lower risk securities and shorter durations that complement the current portfolio investment ladder, coupled with consistent reinvestment of cash flows to replace lower earning assets.

The Corporation monitors the earnings performance and the effectiveness of the liquidity of the securities portfolio on a regular basis through meetings of the Asset/Liability Committee ("ALCO"). The ALCO also reviews and manages interest rate risk for the Corporation. Through active balance sheet management and analysis of the securities portfolio, a sufficient level of liquidity is maintained to satisfy depositor requirements and various credit needs of our customers.

LOANS RECEIVABLE

Note 4, "Loans Receivable and Allowance for Credit Losses," to the condensed consolidated financial statements provides more detail concerning the loan portfolio of the Corporation.

At March 31, 2024, loans, excluding the impact of (i) syndicated loans, and (ii) any remaining balance on Paycheck Protection Program ("PPP") loans, net of PPP-related fees (such loans being referred to as the "PPP-related loans"), totaled $4.4 billion, representing an decrease of $7.0 million, or 0.16% year to date decline (0.65% annualized), from December 31, 2023. The decrease in loans was primarily driven by an increase in early loan payoffs combined with the Corporation remaining strategically focused on both managing the concentration in its commercial real estate loan portfolio, and remaining disciplined with loan pricing in support of its net interest margin.

At March 31, 2024, the Corporation's condensed consolidated balance sheet reflected a decrease in syndicated lending balances of $30.0 million compared to December 31, 2023, primarily resulting from scheduled paydowns or early payoffs of certain syndicated credits. The syndicated loan portfolio totaled $78.7 million, or 1.78% of total loans, at March 31, 2024, compared to $108.7 million, or 2.43% of total loans at December 31, 2023. The Corporation continues to de-emphasize syndicated loans as it focuses on prioritizing funding on organic loan growth from its customer relationships.

Loan Origination/Risk Management

The Corporation has certain lending policies and procedures in place that are designed to maximize loan income within an acceptable level of risk. Management reviews and approves these policies and procedures on a regular basis. A reporting system supplements the review process by providing management with frequent reports related to loan production, loan quality, concentrations of credit, loan delinquencies and nonperforming and potential problem loans. Diversification in the loan portfolio is a means of managing risk associated with fluctuations in economic conditions. The Corporation has not underwritten any hybrid loans, payment option loans, or low documentation/no documentation loans. Variable rate loans are generally underwritten at the fully indexed rate. Loan underwriting policies and procedures have not changed materially between any periods presented. As discussed more fully above, syndicated loan purchases are underwritten utilizing the same process as the Corporation’s originated loans.

The Corporation continues to explore the credit and reputational risks associated with climate change and their potential impact on the foregoing, while closely monitoring regulatory developments on climate risk. This includes, among other things, researching and developing a formalized approach to considering climate change related risks in the Corporation's underwriting processes. This approach will be impacted, in part, by the accessibility and reliability of both customer climate risk data and climate risk data in general. One of the objectives of these efforts is to enable the Corporation to better understand the climate change related risks associated with the Corporation's customers' business activities and to be able to monitor their response to those risks and their ultimate impact on the Corporation's customers.

Loan Portfolio Profile

As part of its lending policy and risk management activities, the Corporation tracks lending exposure by industry classification and type to determine potential risks associated with industry concentrations, and whether any risk issues could lead to additional credit loss exposure. In the current post-pandemic and inflationary economic environment, the Corporation has evaluated its exposure to the office, hospitality, and multifamily industries within its commercial real estate portfolio. Even given the Corporation’s historically sound underwriting protocols and high credit quality ratings for borrowers in these industries, the Corporation monitors numerous relevant sensitivity elements at both underwriting and through and beyond the funding period, including projects occupancy, loan-to-value, absorption and cap rates, debt service coverage and covenant compliance, and developer/lessor financial strength both in the project and globally. At March 31, 2024, the Corporation had the following key metrics related to its office, hospitality and multifamily portfolios:

- Commercial office loans
  - 120 outstanding loans, totaling $114.3 million, or 2.58%, of the Corporation loans outstanding;
  - Nonaccrual commercial office loans (one customer relationship) totaled $508 thousand, or 0.44% of total office loans outstanding. One customer relationship had a related specific loss reserve of approximately $289 thousand, at March 31, 2024; and
  - The average outstanding balance per commercial office loan was $952 thousand.

- Commercial hospitality loans
  - 171 outstanding loans, totaling $263.5 million, or 5.95%, of total Corporation loans outstanding;
  - There were no nonaccrual commercial hospitality loans at March 31, 2024; and
  - The average outstanding balance per commercial office loan was $1.5 million.

- Commercial multifamily loans
  - 208 outstanding loans, totaling $213.8 million, or 4.82%, of total Corporation loans outstanding;
  - Nonaccrual commercial multifamily loans (one customer relationship) totaled $300 thousand, or 0.09% of total multifamily loans outstanding. The one customer relationship did not have a related specific loss reserve at March 31, 2024; and
  - The average outstanding balance per commercial office loan was $1.0 million.

The following table summarize the geographic region (based upon metropolitan statistical areas) in which the commercial office, hospitality and multifamily loans were originated as of March 31, 2024:

	March 31, 2024
Commercial Office

The Corporation had no commercial office, hospitality or multifamily loan relationships considered by the banking regulators to be a high volatility commercial real estate ("HVCRE") credit.

Maturities and Sensitivities of Loans Receivable to Changes in Interest Rate

The following table presents the maturity distribution of the Corporation's loans receivable at March 31, 2024. The table also presents the portion of loans receivable that have fixed interest rates or variable interest rates that fluctuate over the life of the loans in accordance with changes in an interest rate index.

	March 31, 2024				
	Due in One Year or Less	After One, but Within Five Years	After Five but Within Fifteen Years	After Fifteen Years	Total
Loans Receivable with Fixed Interest Rate					
Farmland	$ —	$ 1,756	$ 7,581	$ —	$ 9,337
Owner-occupied, nonfarmnonresidential properties	23,605	29,918	19,173	4,518	77,214
Agricultural production and other loans to farmers	15	123	—	—	138
Commercial and Industrial	21,943	224,217	28,264	94	274,518

[1] 1-4 family construction loans and other construction loans and all land development and other land loans segments include loans that are construction to permanent loans in which the loan segment will change when the construction period has concluded.

Loans Receivable Concentration

At March 31, 2024, no industry concentration existed which exceeded 10% of the total loan portfolio.

Loans Receivable Credit Quality

The following table presents information concerning the loan portfolio delinquency and other nonperforming assets at March 31, 2024 and December 31, 2023:

	March 31, 2024	December 31, 2023
Nonaccrual loans	$ 28,751	$ 29,639
Accrual loans greater than 90 days past due	49	55
Total nonperforming loans	28,800	29,694
Other real estate owned	1,864	2,111
Total nonperforming assets	$ 30,664	$ 31,805
Total loans receivable	$ 4,431,398	$ 4,468,476
Nonaccrual loans as a percentage of total loans receivable	0.65 %	0.66 %
Total assets	$ 5,801,412	$ 5,752,957
Nonperforming assets as a percentage of total assets	0.53 %	0.55 %
Allowance for credit losses on loans receivable	$ 45,832	$ 45,832
Allowance for credit losses / Total loans	1.03 %	1.03 %
Ratio of allowance for credit losses to nonaccrual loans	159.41 %	154.63 %

Total nonperforming assets were $30.7 million, or 0.53% of total assets, as of March 31, 2024, compared to $31.8 million, or 0.55% of total assets, as of December 31, 2023. In addition, the allowance for credit losses as a percentage of nonaccrual loans was 159.41% at March 31, 2024, compared to 154.63% at December 31, 2023. The decrease in nonperforming assets was due to paydowns and payoffs combined with a $596 thousand charge-down of one owner-occupied commercial real estate relationship (remaining balance of $308 thousand).

The Corporation has established written lending policies and procedures that require underwriting standards, loan documentation, and credit analysis standards to be met prior to funding a loan. Subsequent to the funding of a loan, ongoing review of credits is required. Credit reviews are performed quarterly by an outsourced loan review firm and cover approximately 65% of the commercial loan portfolio on an annual basis. In addition, the external independent loan review firm reviews past due loans and all significant classified assets and nonaccrual loans annually.

Potential problem loans consist of loans that are performing in accordance with contractual terms but for which management has concerns about the ability of a borrower to continue to comply with contractual repayment terms because of the borrower’s potential operating or financial difficulties. Management monitors these "watchlist" loans monthly to determine potential losses within the commercial loan portfolio. The "watchlist" is comprised of all credits risk rated special mention, substandard and doubtful.

ALLOWANCE FOR CREDIT LOSSES

The amount of each allowance for credit losses account represents management's best estimate of current expected credit losses on these financial instruments considering available information, from internal and external sources, relevant to assessing exposure to credit loss over the contractual term of the instrument. Relevant available information includes historical credit loss experience, current conditions, and reasonable and supportable forecasts. While historical credit loss experience provides the basis for the estimation of expected credit losses, adjustments to historical loss information may be made for differences in current portfolio-specific risk characteristics, environmental conditions or other relevant internal and external factors. While management utilizes its best judgment and information available, the ultimate adequacy of the Corporation's allowance for credit losses account is dependent upon a variety of factors beyond the Corporation's control, including the performance of the Corporation's loan portfolios, the economy, changes in interest rates, and the view of the regulatory authorities toward classification of assets. The adequacy of the allowance for credit losses is subject to a formal analysis by the Credit Administration and Finance Departments of the Corporation. For additional information regarding the Corporation's accounting policies related to credit losses, refer to Note 1, "Summary of Significant Accounting Policies" to the consolidated financial statements in the 2023 Form 10-K and Note 4, "Loans Receivable and Allowance for Credit Losses" to these condensed consolidated financial statements elsewhere in this report.

The tables below provide an allocation of the allowance for credit losses on loans receivable by loan portfolio segment at March 31, 2024 and December 31, 2023; however, allocation of a portion of the allowance for credit losses to one segment does not preclude its availability to absorb losses in other segments.

	March 31, 2024			
	Amount of Allowance Allocated	Percent of Loans in Each Category to Total Loans Receivable	Total Loans Receivable	Ratio of Allowance Allocated to Loans Receivable in Each Category
Farmland	$ 135	0.7 %	$ 31,145	0.43 %

Credit cards	95	0.3	11,785	0.81
Overdrafts	292	—	292	100.00
Total	$ 45,832	100.0 %	$ 4,468,476	1.03 %

The allowance for credit losses measured as a percentage of total loans receivable was both 1.03% as of March 31, 2024 and December 31, 2023.

The Corporation's allowance for credit losses is influenced by loan volumes, risk rating migration, delinquency status and other internal and external conditions influencing loss expectations, such as reasonable and supportable forecasts of economic conditions and other external factors.

For the three months ended March 31, 2024, the allowance for credit losses remained unchanged. The growth in the Corporation's loan portfolio in new market areas was offset by improvements in the Corporation's historical loss rates, as well as the impact of net charge-offs. Significant uncertainty persists regarding the domestic and global economy, tightening credit conditions, persistent inflation, and higher interest rates. Management will continue to proactively evaluate its estimate of expected credit losses as new information becomes available.

Note 4, "Loans Receivable and Allowance for Credit Losses," to the condensed consolidated financial statements provides further disclosure of loan balances by portfolio segment as of March 31, 2024 and December 31, 2023.

Additional information related to provision for credit loss expense and net charge-offs and recoveries for the three months ended March 31, 2024 and 2023 is presented in the tables below.

	Three Months Ended March 31, 2024			
	Provision (Benefit) for Credit Losses on Loans Receivable [1]	Net (Charge-Offs) Recoveries	Average Loans Receivable	Ratio of Annualized Net (Charge-Offs) Recoveries to Average Loans Receivable

Total	$ 1,231	$ (686)	$ 4,257,033	(0.07)

[1] Excludes provision for credit losses related to unfunded commitments. Note 9, "Off-Balance Sheet Commitments and Contingencies," to the condensed consolidated financial statements provides more detail concerning the provision for credit losses related to unfunded commitments of the Corporation.

Provision for credit losses remained stable at $1.3 million for the three months ended March 31, 2024 and for the three months ended March 31, 2023. Included in the provision for credit losses for the three months ended March 31, 2024 was a $24 thousand benefit related to the allowance for unfunded commitments compared to $59 thousand provision for the three months ended March 31, 2023.

DEPOSITS

The Corporation's sources of funds are deposits, borrowings, amortization and repayment of loan principal, interest earned on or maturation of investment securities, and funds provided from operations. The Corporation considers deposits to be its primary source of funding in support of growth in assets.

	March 31, 2024	Percent of Deposits in Each Category to Total Deposits	December 31, 2023	Percent of Deposits in Each Category to Total Deposits	Percentage Change in Each Category 2024 vs. 2023
Demand, noninterest-bearing	$ 749,178	14.8 %	$ 728,881	14.6 %	2.8%
Demand, interest-bearing	719,781	14.3	803,093	16.1	(10.4)
Savings deposits	3,035,823	60.3	2,960,282	59.2	2.6
Time deposits	532,771	10.6	506,494	10.1	5.2
Total deposits	$ 5,037,553	100.0 %	$ 4,998,750	100.0 %	0.8%

At March 31, 2024, total deposits were $5.0 billion, reflecting an increase of $38.8 million, or 0.78%, from December 31, 2023. The increase in deposit balances was primarily attributable to an increase in municipal and retail deposits, partially offset by seasonal fluctuations in business deposits. In addition, the total number of deposit households increased by approximately 0.77% from December 31, 2023.

The following table sets forth the average balances of and the average rates paid on deposits for the periods indicated.

	Three Months Ended March 31,			
	2024		2023	
	Average Amount	Annual Rate	Average Amount	Annual Rate
Demand, noninterest-bearing	$ 736,965	—%	$ 837,734	—%
Demand, interest-bearing	739,931	0.65	936,147	0.48
Savings deposits	2,965,279	3.47	2,343,188	2.21
Time deposits	523,925	3.64	490,815	2.36
Total	$ 4,966,100		$ 4,607,884	

At March 31, 2024, the average deposit balance per account for the Bank was approximately $33 thousand. The Bank had increases in municipal deposits, as well as retail customer household deposits, including those added from the 2023 launches of (i) the Bank's "At Ease" account, a service for U.S. service member and veteran families, and (ii) the Corporation's women-focused banking division, Impressia Bank.

The following table presents additional information about our March 31, 2024 and December 31, 2023 deposits:

	March 31, 2024	December 31, 2023
Time deposits not covered by deposit insurance	$ 45,709	$ 44,665
Total deposits not covered by deposit insurance	1,423,606	1,438,944

At March 31, 2024, the total estimated uninsured deposits for the Bank were approximately $1.4 billion, or approximately 27.70% of total Bank deposits. However, when excluding $101.1 million of affiliate company deposits and $437.9 million of pledged-investment collateralized deposits, the adjusted amount and percentage of total estimated uninsured deposits was approximately $884.6 million, or approximately 17.21% of total Bank deposits as of March 31, 2024.

At December 31, 2023, the total estimated uninsured deposits for the Bank were approximately $1.4 billion, or approximately 28.2% of total Bank deposits. However, when excluding affiliate company deposits of $101.3 million and pledged-investment collateralized deposits of $400.5 million, the adjusted amount and percentage of total estimated uninsured deposits was approximately $937.1 million, or approximately 18.4% of total Bank deposits as of December 31, 2023.

Scheduled maturities of time deposits not covered by deposit insurance at March 31, 2024 were as follows:

	March 31, 2024
3 months or less	$ 18,861
Over 3 through 6 months	10,929
Over 6 through 12 months	10,416
Over 12 months	5,503
Total	$ 45,709

LIQUIDITY AND CAPITAL RESOURCES

Liquidity

Liquidity measures an organization’s ability to meet its cash obligations as they come due. The liquidity of a financial institution reflects its ability to meet loan requests, to accommodate possible outflows in deposits and to take advantage of interest rate market opportunities. The ability of a financial institution to meet its current financial obligations is a function of its balance sheet structure, its ability to liquidate assets and its access to alternative sources of funds.

The Corporation’s expected material cash requirements for the twelve months ended March 31, 2025 and thereafter consist of withdrawals by depositors, credit commitments to borrowers, shareholder dividends, share repurchases, operating expenses, and capital expenditures that are pursuant to the Corporation's strategic initiatives. The Corporation expects to satisfy these short-term and long-term cash requirements through deposit growth, principal and interest payments from loans and investment securities, maturing loans and investment securities, as well as by maintaining access to wholesale funding sources.

The objective of the Corporation's liquidity management is to manage cash flow and liquidity reserves so that they are adequate to fund the Corporation's operations and to meet cash obligations and other commitments on a timely basis and at a reasonable cost. The Corporation seeks to achieve this objective and ensure that funding needs are met by maintaining an appropriate level of liquid funds through asset/liability management, which includes managing the mix and time to maturity of financial assets and financial liabilities on its balance sheet. The Corporation's liquidity position is enhanced by its ability to raise additional funds as needed in the wholesale markets.

Asset liquidity is provided by liquid assets which are readily marketable or pledgeable or which will mature in the near future. Liquid assets include cash, interest-bearing deposits in banks, including the Federal Reserve, and AFS debt securities. Liability liquidity is provided by access to funding sources which include core deposits, correspondent banks and other wholesale funding sources.

The Corporation's liquidity position is continuously monitored and adjustments are made to the balance between sources and uses of funds as deemed appropriate. Liquidity risk management is an important element in the Corporation's asset/liability management process. The Corporation regularly models liquidity stress scenarios to assess potential liquidity outflows or potential funding shortfalls resulting from economic disruptions, volatility in the financial markets, unexpected credit events or other significant occurrences deemed problematic by management. These scenarios are incorporated into the Corporation's contingency funding plan, which provides the basis for the identification of its liquidity needs.

At March 31, 2024, the Corporation’s cash and cash equivalents position was approximately $301.5 million, including liquidity of $259.5 million held at the Federal Reserve. These excess funds, when combined with $3.6 billion in (i) available borrowing capacity from the FHLB and the Federal Reserve, and (ii) available unused commitments from brokered deposit sources and other third-party funding channels, including previously established lines of credit from correspondent banks, result in the total on-hand and contingent liquidity sources for the Corporation to be approximately 4.3 times the estimated amount of adjusted uninsured deposit balances discussed above.

The following table summarizes the Corporation's net available liquidity and borrowing capacities as of March 31, 2024:

	Net Available
FHLB borrowing capacity [1]	$ 995,073
Federal Reserve borrowing capacity [2]	434,070
Brokered deposits [3]	1,887,944
Other third-party funding channels [3] [4]	260,137
Total net available liquidity and borrowing capacity	$ 3,577,224

[1] Availability contingent on the FHLB activity-based stock ownership requirement
[2] Includes access to discount window and BIC program
[3] Availability contingent on internal borrowing guidelines
[4] Availability contingent on correspondent bank approvals at time of borrowing

As of March 31, 2024, management is not aware of any events that are reasonably likely to have a material adverse effect on the Corporation's liquidity, capital resources or operations. In addition, management is not aware of any regulatory recommendations regarding liquidity that would have a material adverse effect on the Corporation.

In the ordinary course of business, the Corporation has entered into contractual obligations and have made other commitments to make future payments. Refer to the accompanying notes to condensed consolidated financial statements elsewhere in this report for the expected timing of such payments as of March 31, 2024. The Corporation’s material contractual obligations as of March 31, 2024 consist of (i) long-term borrowings - Note 7, "Borrowings," (ii) operating leases - Note 5, "Leases," (iii) time deposits with stated maturity dates - Note 6, "Deposits," and (iv) commitments to extend credit and standby letters of credit - Note 9, "Off-Balance Sheet Commitments and Contingencies."

Shareholders’ Equity, Capital Ratios and Metrics

As of March 31, 2024, the Corporation’s total shareholders’ equity was $578.6 million, representing an increase of $7.4 million, or 1.29%, from December 31, 2023, primarily due to an increase in the Corporation's retained earnings (quarterly net income, partially offset by the common and preferred dividends paid in the quarter).

The Corporation has complied with the standards of capital adequacy mandated by government regulations. Bank regulators have established "risk-based" capital requirements designed to measure capital adequacy. Risk-based capital ratios reflect the relative risks of various assets banks hold in their portfolios. A weight category (0% for the lowest risk assets and increasing for each tier of higher risk assets) is assigned to each asset on the balance sheet.

As of March 31, 2024 all of the Corporation's capital ratios exceeded regulatory "well-capitalized" levels. The Corporation's capital ratios and book value per common share at March 31, 2024 and December 31, 2023 were as follows:

	March 31, 2024	December 31, 2023
Total risk-based ratio	16.27 %	15.99 %
Tier 1 risk-based ratio	13.43 %	13.20 %
Common equity tier 1 ratio	11.70 %	11.49 %
Tier 1 leverage ratio	10.64 %	10.54 %
Common shareholders' equity/total assets	8.98 %	8.93 %
Tangible common equity/tangible assets[(1)]	8.28 %	8.22 %
Book value per common share	$ 24.77	$ 24.57
Tangible book value per common share[(1)]	$ 22.67	$ 22.46

[(1)] Tangible common equity, tangible assets and tangible book value per common share are non-GAAP financial measures calculated using GAAP amounts. Tangible common equity is calculated by excluding the balance of goodwill and other intangible assets and preferred equity from the calculation of shareholders' equity. Tangible assets is calculated by excluding the balance of goodwill and other intangible assets from the calculation of total assets. Tangible book value per common share is calculated by dividing tangible common equity by the number of shares outstanding. The Corporation believes that these non-GAAP financial measures provide information to investors that is useful in understanding its financial condition. Because not all companies use the same calculation of tangible common equity and tangible assets, this presentation may not be comparable to other similarly titled measures calculated by other companies. A reconciliation of these non-GAAP financial measures is provided in the "Non-GAAP Financial Measures" section in Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

At March 31, 2024, the Corporation's pre-tax net unrealized losses on available-for-sale and held-to-maturity securities totaled approximately $85.0 million, or 14.69% of total shareholders' equity, compared to $82.2 million, or 14.40% of total shareholders' equity at December 31, 2023. The change is unrealized losses was primarily due to changes in the yield curve in the first quarter of 2024 compared to the fourth quarter of 2023, relative to the Corporation's scheduled bond maturities. Importantly, all regulatory capital ratios for the Corporation would exceed regulatory "well-capitalized" levels as of both March 31, 2024 and December 31, 2023 if the net unrealized losses were fully recognized. Additionally, the Corporation maintains $100.3 million of liquid funds at its holding company, which more than covers the $85.0 million in unrealized losses on investments held primarily in its wholly-owned banking subsidiary, as an immediately available source of contingent capital to be down-streamed to the Bank, if necessary.

AVERAGE BALANCES, INTEREST RATES AND YIELDS

The loans receivable categories used to monitor and analyze interest income and yields are different than the portfolio segments used to determine the allowance for credit losses for loans receivable. The allowance for credit losses was calculated by pooling loans of similar credit risk characteristics and credit monitoring procedures. See Note 4, "Loans Receivable and Allowance for Credit Losses," for more information about pooling of loans receivable for the allowance for credit losses.

The following table presents average balances of certain measures of our financial condition and net interest margin for the three months ended March 31, 2024 and 2023:

	Average Balances, Income and Interest Rates on a Taxable Equivalent Basis					
	For the Three Months Ended,					
	March 31, 2024			March 31, 2023		
	Average Balance	Annual Rate	Interest Inc./Exp.	Average Balance	Annual Rate	Interest Inc./Exp.
ASSETS:						
Securities:						
Taxable [1] [4]	$ 696,851	1.96 %	$ 3,651	$ 748,171	1.90 %	$ 3,766
Tax-exempt [1] [2] [4]	27,743	2.59	191	33,390	2.67	234

Interest expense/Earning assets		2.43	32,683		1.50	19,001
Net interest margin (fully tax-equivalent)		3.38 %	$ 45,439		3.79 %	$ 47,909

[1] Includes unamortized discounts and premiums.
[2] Average yields are stated on a fully taxable equivalent basis (calculated using statutory rates of 21%) resulting from tax-free municipal securities in the investment portfolio and tax-free municipal loans in the commercial loan portfolio. The taxable equivalent adjustment to net interest income for the three months ended March 31, 2024 and 2023 was $217 thousand and $270 thousand, respectively.

(3) Average loans receivable outstanding includes the average balance outstanding of all nonaccrual loans. Loans receivable consist of the average of total loans receivable less average unearned income. In addition, loans receivable interest income consists of loans receivable fees, including PPP deferred processing fees.
(4) Average balance is computed using the fair value of AFS securities and amortized cost of HTM securities. Average yield has been computed using amortized cost average balance for AFS and HTM securities. The adjustment to the average balance for securities in the calculation of average yield for the three months ended March 31, 2024 and 2023 was $(55.1) million and $(58.7) million, respectively.

VOLUME ANALYSIS OF CHANGES IN NET INTEREST INCOME

The following table presents the change in net interest income for the three months ended March 31, 2024 and 2023:

Net Interest Income Rate-Volume Variance	For Three Months Ended March 31, 2024 over (under) 2023 Due to Change In (1)		
	Volume	Rate	Net
Assets			
Securities:			
Taxable	$ (219)	$ 104	$ (115)
Tax-exempt (2)	(37)	(6)	(43)
Equity securities (2)	(45)	47	2
Total securities	(301)	145	(156)
Loans receivable:			
Commercial (2)	(1,037)	2,168	1,131
Mortgage (2) (3)	3,604	4,068	7,672
Consumer	267	77	344
Total loans receivable	2,834	6,313	9,147
Other earning assets	2,731	(510)	2,221
Total Earning Assets	$ 5,264	$ 5,948	$ 11,212
Liabilities and Shareholders' Equity			
Interest-Bearing Deposits			
Demand – interest-bearing	$ (219)	$ 313	$ 94
Savings	3,581	9,290	12,871
Time	217	1,667	1,884
Total interest-bearing deposits	3,579	11,270	14,849
Short-Term Borrowings	(1,259)	—	(1,259)
Finance lease liabilities	(1)	—	(1)
Subordinated debentures	12	81	93
Total Interest-Bearing Liabilities	$ 2,331	$ 11,351	$ 13,682
Change in Net Interest Income	$ 2,933	$ (5,403)	$ (2,470)

(1) Changes in interest income or expense not arising solely as a result of volume or rate variances are allocated to volume changes.
(2) Changes in interest income on tax-exempt securities and loans receivable are presented on a fully taxable-equivalent basis, using the Corporation's marginal federal income tax rate of 21% for the three months ended March 31, 2024 and March 31, 2023.
(3) Includes loans held for sale.

RESULTS OF OPERATIONS
Three Months Ended March 31, 2024 and 2023

OVERVIEW

Net income available to common shareholders ("earnings") was $11.5 million, or $0.55 per diluted share, for the three months ended March 31, 2024. The Corporation's earnings for the three months ended March 31, 2023 were $15.4 million, or $0.73 per diluted share. The decrease in diluted earnings per share comparing the quarter ended March 31, 2024 to the quarter ended March 31, 2023 was primarily due to the significant year-over-year increase in deposit costs primarily resulting from Federal Reserve rate increases throughout 2023 and the resulting market impact to the Corporation's deposit base.

Annualized return on average equity was 8.79% for the three months ended March 31, 2024, compared to 12.60% for the three months ended March 31, 2023. Annualized return on average tangible common equity, a non-GAAP measure, was 9.77% for the three months ended March 31, 2024, compared to 14.58% for the three months ended March 31, 2023.

The Corporation's efficiency ratio was 69.08% for the three months ended March 31, 2024, compared to 61.04% for the three months ended March 31, 2023. The efficiency ratio on a fully tax-equivalent basis, a non-GAAP ratio, was 68.29% for the three months ended March 31, 2024, compared to 60.47% for the three months ended March 31, 2023.

NET INTEREST INCOME

Net interest income was $45.2 million for the three months ended March 31, 2024, compared to $47.6 million, for the three months ended March 31, 2023. When comparing the first quarter of 2024 to the first quarter of 2023, the decrease in net interest income of $2.4 million, or 5.07%, was primarily due to an increase in the Corporation's interest expense as a result of targeted interest-bearing deposit rate increases to ensure both deposit relationship retention, and new deposit growth in recently entered expansion markets.

Net interest margin was 3.40% and 3.81% for the three months ended March 31, 2024 and March 31, 2023, respectively. Net interest margin on a fully tax-equivalent basis, a non-GAAP measure, was 3.38% and 3.79%, for the three months ended March 31, 2024 and March 31, 2023, respectively.

The yield on earning assets of 5.81% for the three months ended March 31, 2024 increased 52 basis points from March 31, 2023, primarily as a result of the net benefit of higher interest rates on both variable-rate loans and new loan production.

PROVISION FOR CREDIT LOSSES

The provision for credit losses was $1.3 million for the three months ended March 31, 2024 and March 31, 2023, respectively. Included in the provision for credit losses for the three months ended March 31, 2024 was $24 thousand income related to the allowance for unfunded commitments compared to $59 thousand expense for the three months ended March 31, 2023.

Management believes the charges to the provision for credit losses for the three months ended March 31, 2024 were appropriate and the allowance for credit losses was adequate to absorb current expected credit losses in the loan portfolio at March 31, 2024.

NON-INTEREST INCOME

Total non-interest income was $9.0 million for the three months ended March 31, 2024 compared to $8.0 million for the three months ended March 31, 2023. During the three months ended March 31, 2024, notable changes compared to the three months ended March 31, 2023, included higher pass-through income from small business investment companies coupled with an increase in net realized and unrealized gains on equity securities.

NON-INTEREST EXPENSE

For the three months ended March 31, 2024, total non-interest expense was $37.4 million, compared to $34.0 million for the three months ended March 31, 2023. The increase of $3.4 million, or 10.1%, from the three months ended March 31, 2023 was primarily a result of higher salaries and benefits driven by an increase in personnel costs related to merit increases and growth in the Corporation's staff and new offices in its expansion markets, coupled with year-over-year investments in technology applications aimed at enhancing both customer online banking capabilities, customer call center communications and in-branch technology delivery channels. In addition, card processing and interchange expense for the first quarter of 2024 was $1.2 million, or 58.45% of card processing and interchange income, compared to $1.5 million, or 72.37% of card processing and interchange income for the first quarter of 2023.

INCOME TAX EXPENSE

Income tax expense was $2.8 million, representing a 18.36% effective tax rate, compared to $3.9 million, representing a 19.18% effective tax rate for the three months ended March 31, 2024 and 2023, respectively.

OFF-BALANCE SHEET ARRANGEMENTS

In the normal course of business, the Corporation enters into various transactions, which, in accordance with GAAP, are not included in its condensed consolidated balance sheets. The Corporation enters into these transactions to meet the financing needs of its customers. These transactions include commitments to extend credit and standby and commercial letters of credit, which involve, to varying degrees, elements of credit risk and interest rate risk in excess of the amounts recognized in the condensed consolidated balance sheets. For further information, see Note 9, "Off-Balance Sheet Commitments and Contingencies," to the condensed consolidated financial statements.

CRITICAL ACCOUNTING POLICIES

The Corporation's accounting and reporting policies are in accordance with GAAP and conform to general practices within the financial services industry. Accounting and reporting practices for the allowance for credit losses and the fair value of assets acquired and liabilities assumed in connection with business combinations, including the associated goodwill and intangibles that was recorded, required the use of material estimates. Application of assumptions different than those used by management could result in material changes in the Corporation's financial position or results of operations. Note 1 (Summary of Significant Accounting Policies) and Note 4 (Loans) of the 2023 Form 10-K provide additional detail with regard to the Corporation's accounting for the allowance for credit losses and loans receivable. There have been no other significant changes in the application of accounting policies since December 31, 2023.

NON-GAAP FINANCIAL MEASURES

The following tables reconcile the non-GAAP financial measures to their most directly comparable measures under GAAP.

	(unaudited) March 31, 2024	December 31, 2023
Calculation of tangible book value per common share and tangible common equity/tangible assets (non-GAAP):		
Shareholders' equity	$ 578,640	$ 571,247
Less: preferred equity	57,785	57,785
Common shareholders' equity	520,855	513,462
Less: goodwill and other intangibles	43,874	43,874
Less: core deposit intangible	260	280
Tangible common equity (non-GAAP)	$ 476,721	$ 469,308
Total assets	$ 5,801,412	$ 5,752,957
Less: goodwill and other intangibles	43,874	43,874
Less: core deposit intangible	260	280
Tangible assets (non-GAAP)	$ 5,757,278	$ 5,708,803
Ending shares outstanding	21,024,695	20,896,439
Book value per common share (GAAP)	$ 24.77	$ 24.57
Tangible book value per common share (non-GAAP)	$ 22.67	$ 22.46
Common shareholders' equity / Total assets (GAAP)	8.98 %	8.93 %
Tangible common equity / Tangible assets (non-GAAP)	8.28 %	8.22 %

NON-GAAP FINANCIAL MEASURES (continued)

	(unaudited) Three Months Ended March 31,	
	2024	2023
Calculation of efficiency ratio:		
Non-interest expense	$ 37,424	$ 33,990
Non-interest income	$ 8,955	$ 8,042
Net interest income	45,222	47,639
Total revenue	$ 54,177	$ 55,681
Efficiency ratio	69.08 %	61.04 %
Calculation of efficiency ratio (fully tax equivalent basis) (non-GAAP):		
Non-interest expense	$ 37,424	$ 33,990
Less: core deposit intangible amortization	20	22
Adjusted non-interest expense (non-GAAP)	$ 37,404	$ 33,968
Non-interest income	$ 8,955	$ 8,042
Net interest income	$ 45,222	$ 47,639
Less: tax exempt investment and loan income, net of TEFRA (non-GAAP)	1,337	1,318
Add: tax exempt investment and loan income (fully tax equivalent basis) (non-GAAP)	1,932	1,806
Adjusted net interest income (fully tax equivalent basis) (non-GAAP)	45,817	48,127
Adjusted net revenue (fully tax equivalent basis) (non-GAAP)	$ 54,772	$ 56,169
Efficiency ratio (fully tax equivalent basis) (non-GAAP)	68.29 %	60.47 %

	(unaudited) Three Months Ended March 31,	
	2024	2023
Calculation of net interest margin:		
Interest income	$ 77,905	$ 66,640
Interest expense	32,683	19,001
Net interest income	$ 45,222	$ 47,639
Average total earning assets	$ 5,350,126	$ 5,068,689
Net interest margin (GAAP) (annualized)	3.40 %	3.81 %
Calculation of net interest margin (fully tax equivalent basis) (non-GAAP):		
Interest income	$ 77,905	$ 66,640
Tax equivalent adjustment (non-GAAP)	217	270
Adjusted interest income (fully tax equivalent basis) (non-GAAP)	78,122	66,910
Interest expense	32,683	19,001
Net interest income (fully tax equivalent basis) (non-GAAP)	$ 45,439	$ 47,909
Average total earning assets	$ 5,350,126	$ 5,068,689
Less: average mark to market adjustment on investments (non-GAAP)	(55,146)	(58,664)
Adjusted average total earning assets, net of mark to market (non-GAAP)	$ 5,405,272	$ 5,127,353
Net interest margin, fully tax equivalent basis (non-GAAP) (annualized)	3.38 %	3.79 %

NON-GAAP FINANCIAL MEASURES (continued)

	(unaudited) Three Months Ended March 31,	
	2024	2023
Calculation of PPNR (non-GAAP): [1]		
Net interest income	$ 45,222	$ 47,639
Add: Non-interest income	8,955	8,042
Less: Non-interest expense	37,424	33,990
PPNR (non-GAAP)	$ 16,753	$ 21,691

[1] Management believes that this is an important metric as it illustrates the underlying performance of the Corporation, it enables investors and others to assess the Corporation's ability to generate capital to cover credit losses through the credit cycle and provides consistent reporting with a key metric used by bank regulatory agencies.

	(unaudited) Three Months Ended March 31,	
	2024	2023
Calculation of return on average tangible common equity (non-GAAP):		
Net income	$ 12,600	$ 16,489
Less: preferred stock dividends	1,075	1,075
Net income available to common shareholders	$ 11,525	$ 15,414
Average shareholders' equity	$ 576,528	$ 530,806
Less: average goodwill & intangibles	44,147	44,208
Less: average preferred equity	57,785	57,785
Tangible common shareholders' equity (non-GAAP)	$ 474,596	$ 428,813
Return on average equity (GAAP) (annualized)	8.79 %	12.60 %
Return on average common equity (GAAP) (annualized)	8.04 %	11.78 %
Return on average tangible common equity (non-GAAP) (annualized)	9.77 %	14.58 %

	(unaudited) Three Months Ended March 31,	
	2024	2023
Calculation of non-interest income excluding net realized gains on available-for-sale securities (non-GAAP):		
Non-interest income	$ 8,955	$ 8,042
Less: net realized gains on available-for-sale securities	—	22
Adjusted non-interest income (non-GAAP)	$ 8,955	$ 8,020

ITEM 3

QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

The disclosures set forth in this item are qualified by Item 1A. Risk Factors and the section captioned "Forward-Looking Statements and Factors that Could Affect Future Results" included in this report, and other cautionary statements set forth elsewhere in this report.

As a financial institution, the Corporation's primary source of market risk exposure is interest rate risk, which influences fluctuations in the Corporation's future earnings due to changes in interest rates. This risk is closely correlated to the repricing characteristics of the Corporation's portfolio of assets and liabilities, with each asset or liability repricing either at maturity or during the instrument's life cycle.

The Corporation's interest rate risk measurement philosophy focuses on maintaining an appropriate balance between the theoretical and the practical, especially given that the primary objective of the Corporation's overall asset/liability management process is to assess the level of interest rate risk in the Corporation's balance sheet. Therefore, the Corporation models a set of interest rate scenarios capturing the financial effects of a range of plausible rate scenarios. The collective impact of these scenarios is designed to enable the Corporation to understand the nature and extent of its sensitivity to interest rate changes. Doing so necessitates an assessment of rate changes over varying time horizons and of varying/sufficient degrees such that the impact of embedded options within the balance sheet are sufficiently examined.

The Corporation has designed its interest rate risk measurement activities to include the following core elements: (i) interest rate ramps and shocks, (ii) parallel and non-parallel yield curve shifts, and (iii) a set of alternative rate scenarios, the nature of which change based upon prevailing market conditions.

The Corporation's primary tools in managing Interest Rate Risk ("IRR") are income simulation models. The income simulation models are utilized to quantify the potential impact of changing interest rates on earnings and to identify expected earnings trends given longer-term rate cycles. Standard gap reports are also utilized to provide supporting detailed information.

The Corporation also recognizes that a sustained environment of higher/lower interest rates will affect the underlying value of the Corporation's assets, liabilities and off-balance sheet instruments since the present value of their future cash flows (and the cash flows themselves) change when interest rates change. In order to monitor the long-term structural and economic position of the balance sheet, the ALCO reviews the Economic Value of Equity measure on a quarterly basis.

IRR considerations include inherent assumptions and estimates, including the maturity and repricing characteristics of assets and liabilities, prepayments on amortizing assets, non-maturing deposit sensitivity, and loan and deposit pricing. These assumptions are subject to uncertainty due to the timing, magnitude, and frequency of rate changes, market conditions, and management strategies.

The following table demonstrates the annualized result of an interest rate simulation and the estimated effect that a parallel interest rate shift, or "shock," in the yield curve and subjective adjustments in deposit pricing might have on the Corporation's projected net interest income over the next 12 months. This simulation assumes that there is no growth in interest-earning assets or interest-bearing liabilities over the next 12 months. The changes to net interest income shown below are in compliance with the Corporation's policy guidelines.

	% Change in Net Interest Income	
	March 31, 2024	December 31, 2023
+300 basis points	2.7%	2.6%
+200 basis points	4.2%	3.8%
+100 basis points	5.6%	4.6%
-100 basis points	(0.1)%	(3.8)%

At March 31, 2024, the Corporation has approximately $2.0 billion in outstanding loans receivable balances that are rate sensitive balances over the next twelve months.

ITEM 4

CONTROLS AND PROCEDURES

The Corporation's management, under the supervision of and with the participation of the Corporation's Principal Executive Officer and Principal Financial Officer, has carried out an evaluation of the design and effectiveness of the Corporation's disclosure controls and procedures as defined in Rule 13a-15I and Rule 15d-15(e) of the Securities Exchange Act of 1934 as of the end of the period covered by this report. Based upon that evaluation, management, including the Principal Executive Officer and Principal Financial Officer, have concluded that, as of the end of such period, the Corporation's disclosure controls and procedures are effective to provide reasonable assurance that all material information required to be disclosed in reports the Corporation files or submits under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported, within the time periods specified in the Securities and Exchange Commission's rules and forms.

There was no significant change in the Corporation's internal control over financial reporting that occurred during the quarter ended March 31, 2024 that has materially affected, or that is reasonably likely to materially affect, our internal control over financial reporting.

PART II
OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

There are no pending legal proceedings to which the Corporation or any of its subsidiaries is a party, or of which any of their properties is the subject, except ordinary routine proceedings which are incidental to the business.

ITEM 1A. RISK FACTORS

There have been no material changes to the risk factors disclosed in Part I, Item 1A of the 2023 Form 10-K.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

The following table provides information with respect to any purchase of shares of the Corporation's common stock made by or on behalf of the Corporation for the three months ended March 31, 2024.

Period	Total Number of Shares Purchased	Average Price Paid per Common Share [2]	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Maximum Number of Shares that May Yet Be Purchased Under the Plans or Programs [1]
January 1 – 31, 2024	—	$ —	—	173,541
February 1 – 29, 2024	—	—	—	173,541
March 1 – 31, 2024	—	—	—	173,541

[1] On May 17, 2022, the Corporation's Board of Directors authorized a common stock repurchase plan (the "Repurchase Plan") pursuant to which the Corporation is authorized to repurchase up to 500,000 shares of common stock, provided that the aggregate purchase price of shares of common stock repurchased does not exceed $15 million. The repurchases of common stock, if any, were originally authorized to be made during the period beginning on June 2, 2022 (the date on which the Company received acknowledgement of the repurchase program from the Federal Reserve Bank) through and including May 17, 2023. On May 9, 2023, the Corporation's Board of Directors amended the Repurchase Plan to extend its duration to May 17, 2024. Common stock repurchases under the Repurchase Plan may be conducted through open market purchases or, privately negotiated transactions. Depending on market conditions and other factors, these repurchases may be commenced or suspended without prior notice. As of March 31, 2024, there were 173,541 shares remaining for repurchase under the program

[2] The aggregate purchase price and weighted average price per share does not include the effect of excise tax expense incurred on net stock repurchases.

Additionally, during the quarter ended March 31, 2024, certain employees surrendered shares of common stock owned by them to satisfy their statutory minimum U.S. federal and state tax obligations associated with the vesting of shares of restricted common stock issued under the CNB Financial Corporation 2019 Omnibus Incentive Plan.

Dividend Restrictions

The Corporation is a legal entity separate and distinct from the Bank. Declaration and payment of cash dividends by the Corporation depends upon cash dividend payments to the Corporation by the Bank, which is our primary source of revenue and cash flow.

As a Pennsylvania state-chartered bank, the Bank is subject to regulatory restrictions on the payment and amounts of dividends under the Pennsylvania Banking Code. Further, the ability of banking subsidiaries to pay dividends is also subject to their profitability, financial condition, capital expenditures and other cash flow requirements.

The payment of dividends by the Bank and the Corporation may also be affected by other factors, such as the requirement to maintain adequate capital above regulatory requirements. The federal banking agencies have indicated that paying dividends that deplete a depository institution's capital base to an inadequate level would be an unsafe and unsound banking practice. A depository institution may not pay any dividend if payment would cause it to become undercapitalized or if it already is undercapitalized. Moreover, the federal banking agencies have issued policy statements that provide that bank holding companies and insured banks should generally only pay dividends out of current operating earnings. Federal banking regulators have the authority to prohibit banks and bank holding companies from paying a dividend if the regulators deem such payment to be an unsafe or unsound practice.

The amount and timing of dividends is subject to the discretion of the Board of Directors and depends upon business conditions and regulatory requirements. The Board of Directors has the discretion to change the dividend at any time for any reason. The Board of Directors presently intends to continue the policy of paying quarterly cash dividends. The amount of any future dividends will depend on economic and market conditions, the Corporation's financial condition and operating results and other factors, including applicable government regulations and policies.

ITEM 3. DEFAULTS UPON SENIOR SECURITIES

None.

ITEM 4. MINE SAFETY DISCLOSURES

Not applicable.

ITEM 5. OTHER INFORMATION

Rule 10b5-1 Trading Plans

During the quarter ended March 31, 2024, none of the Corporation's directors or executive officers adopted or terminated any contract, instruction or written plan for the purchase or sale of Corporation securities that was intended to satisfy the affirmative defense conditions of Rule 10b5-1(c) or any "non-Rule 10b5-1 trading arrangement."

ITEM 6. EXHIBITS

Exhibit No.	Description
3.1	Third Amended and Restated Articles of Incorporation of CNB Financial Corporation (incorporated by reference to Exhibit 3.1 to the Corporation's Current Report on Form 8-K filed on April 18, 2024)
