SECURITIES AND EXCHANGE COMMISSION

Washington, D.C. 20549

Form 10-Q

☑ **QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934**
For the quarterly period ended
June 30, 2026
Or

☐ **TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934**

Commission File Number: 001-32410

Celanese

CELANESE CORPORATION

(Exact Name of Registrant as Specified in its Charter)

Delaware	**98-0420726**
(State or Other Jurisdiction of Incorporation or Organization)	*(I.R.S. Employer Identification No.)*

222 W. Las Colinas Blvd., Suite 900N
Irving, TX 75039-5421
(Address of Principal Executive Offices and zip code)

(972) 443-4000
(Registrant's telephone number, including area code)

Securities registered pursuant to Section 12(b) of the Act:

Title of Each Class	Trading Symbol(s)	Name of Each Exchange on Which Registered
Common Stock, par value $0.0001 per share	**CE**	**The New York Stock Exchange**
2.125% Senior Notes due 2027	**CE/27**	**The New York Stock Exchange**
0.625% Senior Notes due 2028	**CE/28**	**The New York Stock Exchange**
5.337% Senior Notes due 2029	**CE/29A**	**The New York Stock Exchange**
5.000% Senior Notes due 2031	**CE/31**	**The New York Stock Exchange**

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes ☑ No ☐

Indicate by check mark whether the registrant has submitted electronically every Interactive Data File required to be submitted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit such files). Yes ☑ No ☐

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, smaller reporting company, or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company," and "emerging growth company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer ☑ Accelerated filer ☐ Non-accelerated filer ☐ Smaller reporting company ☐ Emerging growth company ☐

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act. ☐

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes ☐ No ☑

The number of outstanding shares of the registrant's Common Stock, $0.0001 par value, as of August 3, 2026 was 109,748,926.

CELANESE CORPORATION AND SUBSIDIARIES
NOTES TO THE UNAUDITED INTERIM CONSOLIDATED FINANCIAL STATEMENTS

1. Description of the Company and Basis of Presentation

Description of the Company

Celanese Corporation and its subsidiaries (collectively, the "Company") is a global chemical and specialty materials company. The Company produces high performance engineered polymers that are used in a variety of high-value applications, as well as acetyl products, which are intermediate chemicals for nearly all major industries. The Company also engineers and manufactures a wide variety of products essential to everyday living. The Company's broad product portfolio serves a diverse set of end-use applications including automotive, chemical additives, construction, consumer and industrial adhesives, medical, consumer electronics, energy storage, filtration, paints and coatings, paper and packaging, industrial applications and textiles.

Definitions

In this Quarterly Report on Form 10-Q ("Quarterly Report"), the term "Celanese" refers to Celanese Corporation, a Delaware corporation, and not its subsidiaries. The term "Celanese U.S." refers to the Company's subsidiary, Celanese US Holdings LLC, a Delaware limited liability company, and not its subsidiaries.

Basis of Presentation

The unaudited interim consolidated financial statements for the three and six months ended June 30, 2026 and 2025 contained in this Quarterly Report were prepared in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP") for all periods presented and include the accounts of the Company, its majority owned subsidiaries over which the Company exercises control and, when applicable, variable interest entities in which the Company is the primary beneficiary. The unaudited interim consolidated financial statements and other financial information included in this Quarterly Report, unless otherwise specified, have been presented to separately show the effects of discontinued operations.

In the opinion of management, the accompanying unaudited consolidated balance sheets and related unaudited interim consolidated statements of operations, comprehensive income (loss), cash flows and equity include all adjustments, consisting only of normal recurring items necessary for their fair presentation in conformity with U.S. GAAP. Certain information and footnote disclosures normally included in financial statements prepared in accordance with U.S. GAAP have been condensed or omitted in accordance with rules and regulations of the Securities and Exchange Commission ("SEC"). These unaudited interim consolidated financial statements should be read in conjunction with the Company's consolidated financial statements as of and for the year ended December 31, 2025, filed on February 24, 2026 with the SEC as part of the Company's Annual Report on Form 10-K.

Operating results for the three and six months ended June 30, 2026 are not necessarily indicative of the results to be expected for the entire year.

In the ordinary course of business, the Company enters into contracts and agreements relative to a number of topics, including acquisitions, dispositions, joint ventures, supply agreements, product sales and other arrangements. The Company endeavors to describe those contracts or agreements that are material to its business, results of operations or financial position. The Company may also describe some arrangements that are not material but in which the Company believes investors may have an interest or which may have been included in a Form 8-K filing. Investors should not assume the Company has described all contracts and agreements relative to the Company's business in this Quarterly Report.

For those consolidated ventures in which the Company owns or is exposed to less than 100% of the economics, the outside shareholders' interests are shown as noncontrolling interests.

Immaterial Revision of Prior Period Financial Statements

During 2025, the Company identified immaterial errors in the estimate of the rebates accrual for certain distributors included in Customer rebates (Note 6) and prepaid insurance included in Current Other assets, respectively. The Company evaluated the errors, both quantitatively and qualitatively, and concluded that the impact of these errors is not material to any previously issued annual or interim consolidated financial statements for the impacted periods and is not material to the current periods if left uncorrected; however, to promote the consistency and comparability of the financial statements, the Company has voluntarily revised previously reported financial information.

The Company corrected these errors in the accompanying unaudited interim consolidated statements of equity for the three and six months ended June 30, 2025, decreasing Retained earnings by $22 million.

Estimates and Assumptions

The preparation of unaudited interim consolidated financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the unaudited interim consolidated financial statements and the reported amounts of net sales, expenses and allocated charges during the reporting period. Significant estimates pertain to impairments of goodwill, intangible assets and other long-lived assets, purchase price allocations, restructuring costs and other (charges) gains, net, income taxes, pension and other postretirement benefits, asset retirement obligations, environmental liabilities and loss contingencies, among others. Actual results could differ from those estimates.

2. Recent Accounting Pronouncements

The following table provides a brief description of recent Accounting Standard Updates ("ASU") issued by the Financial Accounting Standards Board ("FASB") and final rules issued by the SEC:

Standard/Final Rule	Description	Effective Date	Effect on the Financial Statements or Other Significant Matters
In May 2026, the FASB issued ASU 2026-02, *Environmental Credits and Environmental Credit Obligations* (Topic 818).	The new guidance is intended to improve the accounting for and disclosure of environmental credits and environmental credit obligations by providing recognition, measurement, presentation and disclosure requirements for all entities that generate, purchase or receive environmental credits or have a regulatory compliance obligation that may be settled with environmental credits.	Effective for annual periods beginning after December 15, 2027, and interim periods within those annual periods. Early adoption is permitted.	The Company is currently evaluating the impact of the adoption on its financial statements and related disclosures.
In December 2025, the FASB issued ASU 2025-11, Interim Reporting (Topic 270): *Narrow Scope Improvements*.	The new guidance clarifies the interim reporting requirements by improving navigability of Topic 270 and more clearly specifying what disclosures are required in an interim reporting period. The new guidance (i) specifies the form and content choices for interim financial statements and accompanying notes; (ii) adds a comprehensive list of required interim disclosures from numerous Codification Topics to Topic 270; and (iii) introduces a disclosure principle that requires disclosure of events since the end of the previous annual reporting period that materially affect the entity.	Effective for interim reporting periods within annual reporting periods beginning after December 15, 2027. Early adoption is permitted.	The Company is currently evaluating the impact of the adoption on its financial statement disclosures.

Standard/Final Rule	Description	Effective Date	Effect on the Financial Statements or Other Significant Matters
In November 2024, the FASB issued ASU 2024-03, *Disaggregation of Income Statement Expenses ("DISE")* and in January 2025, the FASB issued ASU 2025-01, *Clarifying the Effective Date*.	The new guidance requires the disclosure of additional information about certain costs and expenses on an annual and interim basis in the notes to financial statements. Specifically, in a tabular disclosure, the amounts of (a) purchases of inventory; (b) employee compensation; (c) depreciation; (d) intangible asset amortization; and (e) depreciation, depletion, and amortization recognized as part of oil- and gas-producing activities (or other amounts of depletion expense) included in each relevant expense caption. Within the same tabular disclosure, an entity is required to include certain expense, gain, or loss amounts that are already required to be disclosed under U.S. GAAP. In addition, an entity is required to disclose a qualitative description of the amounts remaining in relevant expense captions that are not separately disaggregated quantitatively. The guidance also requires an entity to disclose the total amount of selling expenses and, in annual reporting periods, an entity's definition of selling expenses.	Effective for annual periods beginning after December 15, 2026, and interim periods within annual periods beginning after December 15, 2027. Early adoption is permitted.	The Company is currently evaluating the impact of the adoption and expects that the adoption of the guidance will result in expanded financial statement disclosures related to expenses included within the Company's consolidated statement of operations.
In March 2024, the SEC issued Release No. 33-11275, *The Enhancement and Standardization of Climate-Related Disclosures for Investors*.	The final rule will require the disclosure of Scope 1 and Scope 2 greenhouse gas emissions, if material, which will be subject to phased-in assurance requirements, governance of climate-related risks, risk management processes and climate-related targets and goals. Within the notes to financial statements, the final rule requires disclosure of certain climate-related financial statement effects and metrics.	The effective date is delayed pending the completion of judicial review in consolidated Eighth Circuit petitions.	The Company is currently evaluating the impact of the adoption on its financial statement disclosures.

3. Acquisitions, Dispositions and Plant Closures

Dispositions

- ***Micromax***

On February 2, 2026, the Company completed the sale of the Micromax® business to Element Solutions Inc for a purchase price of $493 million, subject to customary transaction adjustments, resulting in a gain of $50 million included in Gain (loss) on disposition of businesses and assets, net in the unaudited interim consolidated statements of operations. The divestiture did not represent a strategic shift in the Company's future operations and financial results. The Micromax® business is included in the Engineered Materials segment and is classified as held for sale in the unaudited consolidated balance sheets as of December 31, 2025.

Plant Closures

- ***Lanaken, Belgium***

Exit and shutdown costs related to plant closures are as follows:

	Six Months Ended June 30, 2026
	(In $ millions)
Lanaken, Belgium[1]	
Restructuring (Note 18)	24
Accelerated depreciation expense[2]	35
Total	59

(1) In October 2025, the Company announced the intended closure of its facility in Lanaken, Belgium to streamline the Company's production costs across its global network. This operation is included in the Company's Acetyl Chain segment. The Company intends to permanently cease all manufacturing operations during the second half of 2026.

The Company expects to incur additional exit and shutdown costs related to the intended closure of its facility in Lanaken, Belgium of $60 million, including employee termination costs, through 2027.

(2) Included in Cost of sales in the unaudited interim consolidated statements of operations.

4. Inventories

(1) In February 2025, Moody's Ratings downgraded the Company's credit rating, which had the effect of increasing interest rates by 25 basis points on certain senior unsecured notes, effective on various dates beginning May 15, 2025 through January 19, 2026.

In November 2025, S&P Global Ratings and Moody's Ratings downgraded the Company's credit rating, which together had the effect of increasing interest rates for certain senior unsecured notes by an additional 50 basis points, effective on various dates beginning January 15, 2026 through May 15, 2026.

(2) Interest rates range from 4.1% to 4.3%.

(3) The weighted average interest rate was 2.4% and 2.4% as of June 30, 2026 and December 31, 2025, respectively.

(4) Related to the Company's long-term debt, excluding obligations under finance leases.

Senior Credit Facilities

In March 2022, Celanese U.S. entered into a $1.0 billion senior unsecured term loan credit agreement (as amended to date, the "March 2022 U.S. Term Loan Credit Facility") and in November 2024, Celanese U.S. entered into a $1.0 billion senior unsecured term loan credit agreement (the "November 2024 U.S. Term Loan Credit Facility"). The March 2022 U.S. Term Loan Credit Facility and the November 2024 U.S. Term Loan Facility were each fully repaid and terminated as of December 31, 2025.

In August 2025, Celanese U.S. entered into a new senior unsecured revolving credit agreement (the "U.S. Revolving Credit Facility" and together with the March 2022 U.S. Term Loan Credit Facility and the November 2024 U.S. Term Loan Credit Facility, the "U.S. Credit Facilities"), consisting of a $1.75 billion senior unsecured revolving credit facility (with a letter of credit sublimit), maturing in 2030. The margin for borrowings under the U.S. Revolving Credit Facility is 1.00% to 2.00% (or between 0.00% and 1.00% in the case of U.S. dollar base rate borrowings) above certain interbank rates at current Company credit ratings.

The U.S. Revolving Credit Facility is guaranteed by Celanese and certain domestic subsidiaries, together representing substantially all of the Company's U.S. assets and business operations (the "Subsidiary Guarantors").

Certain of the Company's subsidiaries in China (Celanese (Shanghai) International Trading Co., Ltd ("CSIT") and Celanese (Nanjing) Chemical Co., Ltd. ("CNCC") have outstanding senior unsecured bank obligations collectively, the "China Credit Facilities") as follows:

Subsidiary	Loan Origination Date	Maturity	Borrowing Capacity		Interest Rate	As of June 30, 2026	
			(In CNY millions)		(In percentages)	(In CNY millions)	(In $ millions)
CSIT	January 4, 2023	January 13, 2026	550	(1)	2.700	—	—

Total						4,172	614

(1) Revolving credit facility guaranteed by Celanese U.S. (the "CSIT Revolving Credit Facility"), which bears interest at a fixed rate. The CSIT Revolving Credit Facility was fully repaid on January 13, 2026.

(2) Senior unsecured working capital loan bearing interest at certain floating interest rates.

(3) Senior unsecured working capital loan bearing interest at a fixed interest rate.

In April 2025, CNCC entered into a CNY100 million revolving credit facility guaranteed by Celanese U.S. (the "CNCC Revolving Credit Facility" and together with the CSIT Revolving Credit Facility, the "China Revolving Credit Facilities") expiring 12 months from the drawdown date. No draws were initiated as of June 30, 2026.

The Company expects the China Credit Facilities will continue to facilitate its efficient repatriation of cash to the U.S. to repay debt and effectively redomicile a portion of its U.S. debt to China at a lower average interest rate.

The Company's debt balances and amounts available for borrowing under its senior unsecured revolving credit facilities are as follows:

	As of June 30, 2026
	(In $ millions)
U.S. Revolving Credit Facility	
Borrowings outstanding	—
Available for borrowing	1,750
China Revolving Credit Facilities	
Borrowings outstanding	—
Available for borrowing	96

Senior Notes

The Company has outstanding senior unsecured notes, issued in public offerings registered under the Securities Act of 1933, as amended (the "Securities Act") (collectively, the "Senior Notes"). The Senior Notes were issued by Celanese U.S. and are guaranteed on a senior unsecured basis by Celanese and the Subsidiary Guarantors. Celanese U.S. may redeem some or all of each of the Senior Notes, prior to their respective maturity dates, at a redemption price of 100% of the principal amount, plus a "make-whole" premium as specified in the applicable indenture, plus accrued and unpaid interest, if any, to the redemption date.

In March 2025, Celanese U.S. completed a public offering of senior unsecured notes registered under the Securities Act in aggregate principal amounts of €750 million and $1.8 billion (the "March 2025 Offering").

In addition, in March 2025, Celanese U.S. completed cash tender offers for €552 million and $500 million in aggregate principal amounts of senior unsecured notes (the "March 2025 Tender Offers"). The net proceeds from the March 2025 Offering, together with borrowings under the November 2024 U.S. Term Loan Credit Facility, were used (i) to fund the March 2025 Tender Offers, (ii) for repayment of other outstanding indebtedness and (iii) to pay related fees and expenses.

Deferred financing costs related to the March 2025 Offering were $34 million and are being amortized to Interest expense in the unaudited interim consolidated statements of operations over the terms of the applicable notes. Fees and expenses related to the March 2025 Tender Offers of $32 million, including accelerated amortization of deferred financing costs associated with the principal amounts tendered, are included in Refinancing expense in the unaudited interim consolidated statements of operations for the six months ended June 30, 2025.

In December 2025, Celanese U.S. completed a public offering of senior unsecured notes registered under the Securities Act in an aggregate principal amount of $1.4 billion (the "December 2025 Offering").

In addition, in December 2025, Celanese U.S. completed cash tender offers for $1.2 billion in aggregate principal amounts of senior unsecured notes (the "December 2025 Tender Offers"). The net proceeds from the December 2025 Offering were used to (i) fund the December 2025 Tender Offers, (ii) repay other outstanding indebtedness and (iii) pay related fees and expenses.

On June 25, 2026, Celanese U.S. redeemed all of its outstanding 4.777% unsecured senior notes due 2026 ("4.777% Notes") at a redemption price of 100% of the face amount for a total principal payment of $508 million plus accrued interest of $25 million. Cash on hand was used to fund the redemption.

Accounts Receivable Purchasing Facility

On May 22, 2026, the Company entered into an amendment to the amended and restated receivables purchase agreement (the "Amended Receivables Purchase Agreement") under its U.S. accounts receivable purchasing facility among certain of the Company's subsidiaries, a wholly-owned, "bankruptcy remote" special purpose subsidiary (the "U.S. SPE") and certain global financial institutions ("U.S. Purchasers"). The Amended Receivables Purchase Agreement extends the term of the U.S. accounts receivable purchasing facility such that the U.S. SPE may sell certain receivables until May 22, 2028. Under the Amended Receivables Purchase Agreement, transfers of U.S. accounts receivable from the U.S. SPE are treated as sales and are accounted for as a reduction in accounts receivable because the agreement transfers effective control over and risk related to the U.S. accounts receivable to the U.S. SPE. The Company and related subsidiaries have no continuing involvement in the transferred U.S. accounts receivable, other than collection and administrative responsibilities and, once sold, the U.S. accounts receivable are no longer available to satisfy creditors of the Company or the related subsidiaries. These sales are transacted at 100% of the face value of the relevant U.S. accounts receivable, resulting in derecognition of the U.S. accounts receivables from the Company's unaudited consolidated balance sheets. The Company de-recognized $738 million and $1.5 billion of accounts receivable under this agreement for the six months ended June 30, 2026 and year ended December 31, 2025, respectively, and collected $693 million and $1.5 billion of accounts receivable sold under this agreement during the same periods. Unsold U.S. accounts receivable of $124 million were pledged by the U.S. SPE as collateral to the U.S. Purchasers as of June 30, 2026.

Factoring and Discounting Agreements

The Company has factoring agreements in Europe, Japan and Singapore with financial institutions to sell 100%, 100% and 90% of certain accounts receivable, respectively, on a non-recourse basis. The Company also has a factoring agreement in China with a financial institution to sell 100% of certain accounts receivable on a limited recourse basis. These transactions are treated as sales and are accounted for as reductions in accounts receivable because the agreements transfer effective control over and risk related to the receivables to the buyer. The Company has no material continuing involvement in the transferred receivables, other than collection and administrative responsibilities and, once sold, the accounts receivable are no longer available to satisfy creditors in the event of bankruptcy. The Company de-recognized $350 million and $717 million of accounts receivable under these factoring agreements for the six months ended June 30, 2026 and year ended December 31, 2025, respectively, and collected $359 million and $724 million of accounts receivable sold under these factoring agreements during the same periods.

The Company has master discounting agreements (the "Master Discounting Agreements") with financial institutions in China to discount, on a non-recourse basis, banker's acceptance drafts ("BADs"), classified as accounts receivable. Under the Master Discounting Agreements, transfers of BADs are treated as sales and are accounted for as a reduction in accounts receivable because the Master Discounting Agreements transfer effective control over and risk related to the transferred BADs to the financial institutions. The Company has no continuing involvement in the transferred BADs, and the BADs are no longer available to satisfy creditors in the event of a bankruptcy. The Company received $42 million and $82 million from the accounts receivable transferred under the Master Discounting Agreements for the six months ended June 30, 2026 and year ended December 31, 2025, respectively.

Covenants

The Company's material financing arrangements contain customary covenants, such as events of default and change of control provisions. Failure to comply with these covenants, or the occurrence of any other event of default, could result in acceleration of the borrowings and other financial obligations.

On July 31, 2026, and during the year ended December 31, 2025, the Company amended certain covenants in certain U.S. Credit Facilities, including financial ratio maintenance covenants.

The Company is in compliance with the covenants in its material financing arrangements as of June 30, 2026. The Company expects to remain in compliance with such covenants over the twelve-month required evaluation period subsequent to the date of this filing based on current market conditions and the Company's current expectation of future results of operations and cash generation. However, should the Company's actual future results of operations and cash generation differ materially from its expectations, it may be required to seek an amendment to or waiver of any impacted covenants, or pursue other mitigation strategies.

8. Benefit Obligations

The components of net periodic benefit cost are as follows:

	Three Months Ended June 30,				Six Months Ended June 30,			
	2026		2025		2026		2025	
	Pension Benefits	Post-retirement Benefits	Pension Benefits	Post-retirement Benefits	Pension Benefits	Post-retirement Benefits	Pension Benefits	Post-retirement Benefits
	(In $ millions)							
Service cost	2	—	3	—	5	—	7	—
Interest cost	28	1	31	—	55	1	60	1
Expected return on plan assets	(33)	—	(32)	—	(65)	—	(64)	—
Amortization of prior service cost (credit)	(1)	—	—	—	(1)	—	—	—
Total	(4)	1	2	—	(6)	1	3	1

Benefit obligation funding is as follows:

	As of June 30, 2026	Total Expected 2026
	(In $ millions)	
Cash contributions to defined benefit pension plans	15	33
Benefit payments to nonqualified pension plans	9	17
Benefit payments to other postretirement benefit plans	2	3

The Company's estimates of its U.S. defined benefit pension plan contributions reflect the provisions of the Pension Protection Act of 2006.

Pension and postretirement benefit plan balances recognized in the unaudited consolidated balance sheets consist of the following:

	As of June 30, 2026		As of December 31, 2025	
	Pension Benefits	Post-retirement Benefits	Pension Benefits	Post-retirement Benefits
	(In $ millions)			
Noncurrent Other assets	169	—	159	—
Current Other liabilities	(22)	(4)	(22)	(3)
Benefit obligations	(285)	(33)	(307)	(32)
Net amount recognized	(138)	(37)	(170)	(35)

9. Environmental

The Company is subject to environmental laws and regulations worldwide that impose limitations on the discharge of pollutants into the air and water, establish standards for the treatment, storage and disposal of solid and hazardous wastes, and impose record keeping and notification requirements. Failure to timely comply with these laws and regulations may expose the Company to penalties. The Company believes that it is in substantial compliance with all applicable environmental laws and regulations and engages in an ongoing process of updating its controls to mitigate compliance risks. The Company is also subject to retained environmental obligations specified in various contractual agreements arising from the divestiture of certain businesses by the Company or one of its predecessor companies.

The components of environmental remediation liabilities, included in current and noncurrent Other liabilities, are as follows:

	As of June 30, 2026	As of December 31, 2025
	(In $ millions)	
Demerger obligations (Note 14)	15	24
Divestiture obligations (Note 14)	17	15
Active sites	22	23
U.S. Superfund sites	10	9
Other environmental remediation liabilities	2	2
Total	66	73

Remediation

Due to its industrial history and through retained contractual and legal obligations, the Company has the obligation to remediate specific areas on its own sites as well as on divested, demerger, orphan or U.S. Superfund sites (defined below). In addition, as part of the demerger agreement between the Company and Hoechst AG ("Hoechst"), a specified portion of the responsibility for environmental liabilities from a number of Hoechst divestitures was transferred to the Company (Note 14). Certain of these sites, at which the Company maintains continuing involvement, were and continue to be designated as discontinued operations when closed. The Company provides for such obligations when the event of loss is probable and reasonably estimable. The Company believes that environmental remediation costs will not have a material adverse effect on the financial position of the Company, but may have a material adverse effect on the results of operations or cash flows in any given period.

U.S. Superfund Sites

In the U.S., the Company may be subject to substantial claims brought by U.S. federal or state regulatory agencies or private individuals pursuant to statutory authority or common law. In particular, the Company has a potential liability under the U.S. Federal Comprehensive Environmental Response, Compensation and Liability Act of 1980, as amended, and related state laws (collectively referred to as "Superfund") for investigation and cleanup costs at certain sites. At most of these sites, numerous companies, including the Company, or one of its predecessor companies, have been notified that the U.S. Environmental Protection Agency ("EPA"), state governing bodies or private individuals consider such companies to be potentially responsible parties ("PRP") under Superfund or related laws. The proceedings relating to these sites are in various stages. The cleanup process has not been completed at most sites, and the status of the insurance coverage for some of these proceedings is uncertain. Consequently, the Company cannot accurately determine its ultimate liability for investigation or cleanup costs at these sites.

As events progress at each site for which it has been named a PRP, the Company accrues any probable and reasonably estimable liabilities. In establishing these liabilities, the Company considers the contaminants of concern, the potential impact thereof, the relationship of the contaminants of concern to its current and historic operations, its shipment of waste to a site, its percentage of total waste shipped to the site, the types of wastes involved, the conclusions of any studies, the magnitude of any remedial actions that may be necessary and the number and viability of other PRPs. Often the Company joins with other PRPs to sign joint defense agreements that settle, among PRPs, each party's percentage allocation of costs at the site. Although the ultimate liability may differ from the estimate, the Company routinely reviews the liabilities and revises the estimate, as appropriate, based on the most current information available.

One such site is the Diamond Alkali Superfund Site, which is comprised of a number of sub-sites, including the Lower Passaic River Study Area ("LPRSA"), which is the lower 17-mile stretch of the Passaic River ("Lower Passaic River Site"), and the Newark Bay Study Area. The Company and 70 other companies are parties to a May 2007 Administrative Order on Consent with the EPA to perform a Remedial Investigation/Feasibility Study ("RI/FS") at the Lower Passaic River Site in order to identify the levels of contaminants and potential cleanup actions, including the potential migration of contaminants between the LPRSA and the Newark Bay Study Area.

In March 2016, the EPA issued its final Record of Decision concerning the remediation of the lower 8.3 miles of the Lower Passaic River Site ("Lower 8.3 Miles"). Pursuant to the EPA's Record of Decision, the Lower 8.3 Miles must be dredged bank to bank and an engineered cap must be installed at an EPA estimated cost of approximately $1.4 billion. In September 2021, the EPA issued a Record of Decision selecting an interim remedial plan for the upper 9 miles of the Lower Passaic River ("Upper 9 Miles"). Pursuant to the EPA's Record of Decision, targeted dredging will be conducted in the Upper 9 Miles to address surface sediments with elevated contamination followed by the installation of an engineered cap at an EPA estimated cost of $441 million.

The Company owned and/or operated facilities in the vicinity of the Lower 8.3 Miles, but has found no evidence that it contributed any of the contaminants of concern to the Passaic River. In June 2018, Occidental Chemical Corporation ("OCC"), the successor to the Diamond Alkali Company, sued a subsidiary of the Company and 119 other parties alleging claims for joint and several damages, contribution and declaratory relief under Section 107 and 113 of Superfund for costs to clean up the LPRSA portion of the Diamond Alkali Superfund Site, Occidental Chemical Corporation v. 21st Century Fox America, Inc., et al, No. 2:18-CV-11273 (MCA) (LDW) (U.S. District Court New Jersey) (the "2018 OCC Lawsuit"), alleging that each of the defendants owned or operated a facility that contributed contamination to the LPRSA. With respect to the Company, the 2018 OCC lawsuit is limited to the former Celanese facility that Essex County, New Jersey has agreed to indemnify the Company for and does not change the Company's estimated liability for LPRSA cleanup costs.

Separately, the United States lodged a consent decree in U.S. District Court for the District of New Jersey in December 2022 (the "Consent Decree") that resolves the Company's liability (and that of more than 80 other settling defendants) to the EPA for costs to clean up both the Lower 8.3 Miles and Upper 9 Miles of the Lower Passaic River Site in exchange for a collective payment of $150 million, United States v. Alden Leeds, Inc., No. 2:22-7326 (MCA) (LDW) (U.S. District Court New Jersey) ("Consent Decree Action"). The Consent Decree also provides the Company protection from contribution claims by others for costs incurred to clean up both the Lower 8.3 Miles and Upper 9 Miles of the Lower Passaic River Site. The Company's proposed payment toward the $150 million collective settlement payment is not material to the Company's results of operations, cash flows or financial position.

In March 2023, the U.S. District Court for the District of New Jersey entered an order staying and administratively terminating the 2018 OCC Lawsuit, pending resolution of the request for judicial approval of the Consent Decree in the Consent Decree Action. Also, in March 2023, OCC filed a new lawsuit against 40 parties, including a subsidiary of the Company, seeking to recover costs for remedial design work the EPA has ordered OCC to undertake for a portion of the LPRSA at an estimated cost of $71 million, Occidental Chemical Corporation v. Givaudan Fragrances Corporation, No. 2:23-cv-1699 (U.S. District Court New Jersey) (the "2023 OCC Lawsuit"). Like the earlier lawsuit, the 2023 OCC Lawsuit concerns the facility Essex County, New Jersey purchased and for which Essex County, New Jersey has agreed to defend and indemnify the Company. This new lawsuit does not change the Company's estimated liability for LPRSA cleanup costs.

Like the earlier lawsuit, the 2023 OCC lawsuit also was stayed pending resolution of the request for judicial approval of the Consent Decree in the Consent Decree Action. On December 18, 2024, the U.S. District Court for the District of New Jersey granted the United States' motion to enter the Consent Decree in the Consent Decree Action. OCC and Nokia of America Corporation have appealed the District Court's decision entering the Consent Decree to the U.S. Court of Appeals for the Third Circuit. The briefing on appeal has been completed. No oral argument date has been set.

In the interim, the Company continues to vigorously defend these matters and continues to believe that its ultimate allocable share of the cleanup costs with respect to the Lower Passaic River Site, previously estimated at less than 1%, will not be material.

Other Environmental Matters

In April 2022, a methanol leak on a pipeline to the Company's Bishop, Texas facility was discovered. The release has been contained, the leak has been repaired and the pipeline has resumed operation. The Company promptly disclosed the incident to state and federal authorities, including the Texas Commission on Environmental Quality and the EPA, and remediation activities are now completed. While the Company has not received a notice of violation nor been assessed any fines or penalties to date, the Company recorded a reserve in Other current liabilities based on anticipated clean-up costs and possible penalties to state or federal authorities. The Company does not believe that resolution of this matter will have a material impact on its financial condition or results of operations.

10. Shareholders' Equity

Common Stock

The Company's Board of Directors follows a policy of declaring, subject to legally available funds, a quarterly cash dividend on each share of the Company's Common Stock, par value $0.0001 per share ("Common Stock"), unless the Company's Board of Directors, in its sole discretion, determines otherwise. The amount available to the Company to pay its current and anticipated regular quarterly cash dividends is not currently restricted by its existing material financing arrangements and its indentures governing its senior unsecured notes. Any decision to declare and pay dividends in the future will be made at the discretion of the Company's Board of Directors and will depend on, among other things, the results of operations, cash requirements, financial condition, contractual restrictions and other factors that the Company's Board of Directors may deem relevant.

Beginning in the first quarter of 2025, the Company reduced its quarterly dividend by approximately 95%.

The Company declared a quarterly cash dividend of $0.03 per share on its Common Stock on July 15, 2026, amounting to $3 million. The cash dividend will be paid on August 10, 2026 to holders of record as of July 28, 2026.

Treasury Stock

The Company's Board of Directors authorizes repurchases of Common Stock from time to time. These authorizations give management discretion in determining the timing and conditions under which shares may be repurchased. This repurchase program does not have an expiration date.

	Total From February 2008 Through June 30, 2026
Shares repurchased	69,324,429
Average purchase price per share	$ 83.71
Amount spent on repurchased shares (in $ millions)	5,803
Aggregate Board of Directors repurchase authorizations during the period (in $ millions)	6,866

The purchase of treasury stock reduces the number of shares outstanding. The repurchased shares may be used by the Company for compensation programs utilizing the Company's stock and other corporate purposes. The Company accounts for treasury stock using the cost method and includes treasury stock as a component of shareholders' equity.

The Company did not repurchase any Common Stock during the six months ended June 30, 2026 or 2025.

Other Comprehensive Income (Loss), Net

	Three Months Ended June 30,

11. Income Taxes

	Three Months Ended June 30,		Six Months Ended June 30,	
	2026	2025	2026	2025
	(In percentages)			
Effective income tax rate	8	(58)	20	(54)

The effective income tax rate for the three and six months ended June 30, 2026, was higher than for the same period in 2025. This increase was driven mainly by favorable tax items recorded in the prior-year period that did not recur in 2026, including net deferred tax benefits related to the relocation of certain intangible assets among wholly-owned foreign affiliates as part of the continued integration of global principal operations and a tax benefit associated with the settlement of German tax examinations for the 2008 through 2012 tax years. The higher rate also reflected unfavorable functional-currency tax impacts in certain jurisdictions during the current period. These effects were partially offset by favorable changes in the geographic mix of earnings in the current year and by reductions in valuation allowances on foreign tax credit carryforwards resulting from revised forecasts of foreign-sourced income and expenses during the applicable period.

In July 2025, the One Big Beautiful Bill Act ("OBBBA") was signed into law. Key provisions of the OBBBA include the permanent extension of certain expiring provisions of the Tax Cuts and Jobs Act (the "TCJA"), impacting the period of cost recovery for capital expenditures, the calculation of allowable business interest expense and the timing of deductions for domestic research and development expenses. The OBBBA also modifies international tax provisions to adjust tax rate increases scheduled for January 2026, the amount of allowable foreign tax credits to offset deemed income inclusions in the U.S. and the required allocation of U.S. expenses such as interest and stewardship to specific categories of international income. Although the Company is still actively evaluating the entire impact of the OBBBA on its operations, it does not currently expect the OBBBA to have a material impact on its effective tax rate and cash taxes.

Due to the 2017 TCJA and the resulting uncertainty as to future foreign source income, the Company previously recorded a valuation allowance on its foreign tax credit carryforwards. The Company is currently evaluating tax planning strategies to enable the use of its foreign tax credit carryforwards that may decrease the Company's effective tax rate in future periods as the valuation allowance is reversed.

In December 2021, the Organization for Economic Co-operation and Development ("OECD") issued final Model Rules for Pillars One and Two of its Base Erosion and Profit Shifting ("BEPS") project. In general, Pillar One addresses nexus concerns and the allocation of profits among companies in which a multinational enterprise ("MNE") conducts its business. Pillar Two aims to ensure that all MNEs pay an effective tax rate of no less than 15% on their adjusted net income in each of the jurisdictions in which they have operations. Pillar Two is more impactful to the Company as it allows for assessment even if the individual countries do not enact its minimum tax provisions. In effect, Pillar Two allows any country within which an MNE operates to levy tax upon that MNE to the extent it determines that the MNE is paying less than a 15% effective tax rate on its adjusted net income. The taxes levied may then be allocated among the jurisdictions that conform to the OECD rules.

On January 5, 2026, the OECD issued administrative guidance that establishes an exemption from the income inclusion rule and the undertaxed profits rule for MNE groups whose ultimate parent entity is located in a jurisdiction with a qualified side-by-side regime. Upon initial review, the U.S. would appear to qualify because it has a qualified domestic tax system and a qualified worldwide tax system. As a result, U.S. based groups are exempt from the OECD Pillar Two requirements other than for domestic top-up taxes and for certain reporting requirements. The Company will actively monitor the local country implementation of the new administrative guidance to determine the impact of the side-by-side system on its future filing positions.

The Company will continue to monitor the developments and implementation of the OECD BEPS projects. Currently the Company does not meet the requirements for the application of Pillar One. After an initial assessment of the application of the safe harbor provisions on a global basis, the Company determined that there was not a material impact from the local adoption of the OECD Pillar Two proposals in 2026, but is continuing to model the effect of these provisions, as well as the impact of the January 2026 administrative guidance, on its future effective tax rate and cash taxes.

The Company's tax returns for the years 2013 through 2015 have been subject to audit by the tax authorities in the United States, the Netherlands and Germany (collectively, the "Tax Authorities"). The Company and the Tax Authorities did not reach a joint resolution, and the audits proceeded on a jurisdiction by jurisdiction basis.

The Company has concluded settlement discussions with the Dutch and German tax authorities related to transfer pricing matters for the applicable periods. During the first quarter of 2026, the Company reached a resolution with the U.S. Internal Revenue Service (the "IRS") with respect to joint audit matters, as well as certain other transfer pricing issues for subsequent years through 2020. The Company expects to finalize the administrative resolution with the IRS prior to the end of 2026.

The audit by the U.S. tax authorities for the years 2016 through 2020 is in the data gathering phase.

During the first quarter of 2025, the Company initiated settlement discussions with the German tax authorities regarding certain matters related to the audit for periods after 2007. In the second quarter of 2025, the Company concluded settlement discussions with respect to the 2008 through 2012 tax years.

The Company will record the impacts of any additional audit settlements in income tax expense in the period in which such settlements are finalized. Based on information currently available, the Company does not expect any additional material impacts to the unaudited interim consolidated statements of operations.

As of June 30, 2026, the Company believes that an adequate provision for income taxes has been made for all open tax years related to the examinations by governmental authorities. However, the outcome of tax audits cannot be predicted with certainty. If any issues raised by the governmental authorities are resolved in a manner inconsistent with the Company's expectations or the Company is unsuccessful in defending its position, the Company could be required to adjust its provision for income taxes in the period such resolution occurs. If required, any such adjustments could be material to the statements of operations and cash flows in the period(s) recorded.

12. Derivative Financial Instruments

Information regarding changes in the fair value of the Company's derivative and non-derivative instruments is as follows:

	Gain (Loss) Recognized in Other Comprehensive Income (Loss)		Gain (Loss) Recognized in Earnings (Loss)		
	Three Months Ended June 30,				
	2026	2025	2026	2025	Statement of Operations Classification

(1) In March 2025, in conjunction with the March 2025 Offering (Note 7), the Company entered into cross-currency swaps to effectively convert $400 million of certain senior unsecured notes due April 15, 2030 into Japanese yen-denominated borrowings at prevailing yen interest rates, maturing on April 15, 2030. The swaps qualify and have been designated as fair value hedges of the Company's foreign currency exchange rate exposure on the long-term debt of its Japanese yen-denominated subsidiary.

(2) On June 10, 2026, the Company entered into a cross-currency swap to effectively convert $250 million of U.S. dollar-denominated borrowings into Chinese yuan-denominated borrowings at prevailing interest rates, maturing on May 15, 2027. The swap qualifies and has been designated as a net investment hedge of the Company's foreign currency exchange rate exposure on the net investment of certain of its Chinese yuan-denominated subsidiaries.

(1) In March 2025, in conjunction with the March 2025 Offering (Note 7), the Company entered into cross-currency swaps to effectively convert $400 million of certain senior unsecured notes due April 15, 2030 into Japanese yen-denominated borrowings at prevailing yen interest rates, maturing on April 15, 2030. The swaps qualify and have been designated as fair value hedges of the Company's foreign currency exchange rate exposure on the long-term debt of its Japanese yen-denominated subsidiary.

(2) On June 10, 2026, the Company entered into a cross-currency swap to effectively convert $250 million of U.S. dollar-denominated borrowings into Chinese yuan-denominated borrowings at prevailing interest rates, maturing on May 15, 2027. The swap qualifies and has been designated as a net investment hedge of the Company's foreign currency exchange rate exposure on the net investment of certain of its Chinese yuan-denominated subsidiaries.

See Note 13 for additional information regarding the fair value of the Company's derivative instruments.

Certain of the Company's commodity swaps, interest rate swaps, cross-currency swaps and foreign currency forwards and swaps permit the Company to net settle all contracts with the counterparty through a single payment in an agreed upon currency in the event of default or early termination of the contract, similar to a master netting arrangement.

Information regarding the gross amounts of the Company's derivative instruments and the amounts offset in the unaudited consolidated balance sheets is as follows:

	As of June 30, 2026	As of December 31, 2025
	(In $ millions)	
Derivative Assets		
Gross amount recognized	298	291
Gross amount offset in the consolidated balance sheets	—	—

Gross amount not offset in the consolidated balance sheets	29	28
Net amount	653	678

13. Fair Value Measurements

The Company's financial assets and liabilities are measured at fair value on a recurring basis as follows:

Derivative financial instruments include interest rate swaps, commodity swaps, cross-currency swaps and foreign currency forwards and swaps and are valued in the market using discounted cash flow techniques. These techniques incorporate Level 1 and Level 2 fair value measurement inputs such as interest rates and foreign currency exchange rates. These market inputs are utilized in the discounted cash flow calculation considering the instrument's term, notional amount, discount rate and credit risk. Significant inputs to the derivative valuation for interest rate swaps, commodity swaps, cross-currency swaps and foreign currency forwards and swaps are observable in the active markets and are classified as Level 2 in the fair value measurement hierarchy.

			Fair Value Measurement			
			Significant Other Observable Inputs (Level 2)			
			Other assets		Other liabilities	
		Notional Amount	Current	Noncurrent	Current	Noncurrent
		(In millions)	(In $ millions)			
As of June 30, 2026						
Derivatives Designated as Cash Flow Hedges						
Commodity swaps	$	56	3	37	1	—
Derivatives Designated as Fair Value Hedges						
Cross-currency swaps	€	909	15	—	7	65
Cross-currency swaps[1]	¥	132,242	42	96	7	—
Derivatives Designated as Net Investment Hedges						
Cross-currency swaps and foreign currency denominated debt	€	3,094	82	—	62	356
Cross-currency swaps[2]	¥	8,962	19	—	7	169
Derivatives Not Designated as Hedges						
Foreign currency forwards and swaps	$	1,539	4	—	8	—
Total			165	133	92	590
As of December 31, 2025						
Derivatives Designated as Cash Flow Hedges						
Commodity swaps	$	46	4	44	—	—
Derivatives Designated as Fair Value Hedges						
Cross-currency swaps	€	909	14	—	8	86
Cross-currency swaps[1]	¥	132,242	42	76	7	—
Derivatives Designated as Net Investment Hedges						
Cross-currency swaps and foreign currency denominated debt	€	4,899	82	—	65	429
Cross-currency swaps[2]	¥	7,268	17	—	6	89
Derivatives Not Designated as Hedges						
Foreign currency forwards and swaps	$	2,184	12	—	16	—
Total			171	120	102	604

(1) Notional amount denominated in Japanese yen.

(2) Notional amount denominated in Chinese yuan.

Carrying values and fair values of financial instruments that are not carried at fair value are as follows:

	Carrying Amount	Fair Value Measurement		
		Significant Other Observable Inputs (Level 2)	Unobservable Inputs (Level 3)	Total
	(In $ millions)			
As of June 30, 2026				
Equity investments without readily determinable fair values	170	—	—	—
Insurance contracts in nonqualified trusts	18	18	—	18
Long-term debt, including current installments of long-term debt	12,013	12,223	121	12,344
As of December 31, 2025				
Equity investments without readily determinable fair values	170	—	—	—
Insurance contracts in nonqualified trusts	18	19	—	19
Long-term debt, including current installments of long-term debt	12,614	12,592	129	12,721

In general, the equity investments included in the table above are not publicly traded and their fair values are not readily determinable. The Company believes the carrying values approximate fair value. Insurance contracts in nonqualified trusts consist of long-term fixed income securities, which are valued using independent vendor pricing models with observable inputs in the active market and therefore represent a Level 2 fair value measurement. The fair value of long-term debt is based on valuations from third-party banks and market quotations and is classified as Level 2 in the fair value measurement hierarchy. The fair value of obligations under finance leases, which are included in long-term debt in the unaudited consolidated balance sheets, is based on lease payments and discount rates, which are not observable in the market and therefore represents a Level 3 fair value measurement.

As of June 30, 2026 and December 31, 2025, the fair values of cash and cash equivalents, receivables, trade payables, short-term borrowings and the current installments of long-term debt approximate carrying values due to the short-term nature of these instruments. These items have been excluded from the table with the exception of the current installments of long-term debt.

14. Commitments and Contingencies

Commitments

Guarantees

The Company has agreed to guarantee or indemnify third parties for environmental and other liabilities pursuant to a variety of agreements, including asset and business divestiture agreements, leases, settlement agreements and various agreements with affiliated companies. Although many of these obligations contain monetary and/or time limitations, others do not provide such limitations.

The Company has accrued for all probable and reasonably estimable losses associated with all known matters or claims. These known obligations include the following:

- ***Demerger Obligations***

In connection with the Hoechst demerger, the Company agreed to indemnify Hoechst, and its legal successors, for various liabilities under the demerger agreement, including for environmental liabilities associated with contamination arising either from environmental damage in general ("Category A") or under 19 divestiture agreements entered into by Hoechst prior to the demerger ("Category B") (Note 9).

The Company's obligation to indemnify Hoechst, and its legal successors, is capped under Category B at €250 million. If and to the extent the environmental damage should exceed €750 million in aggregate, the Company's obligation to indemnify Hoechst and its legal successors applies, but is then limited to 33.33% of the remediation cost without further limitations. Cumulative payments under the divestiture agreements as of June 30, 2026 are $132 million. Though the Company is significantly under its obligation cap under Category B, most of the divestiture agreements have become time barred and/or any notified environmental damage claims have been partially settled.

The Company has also undertaken in the demerger agreement to indemnify Hoechst and its legal successors for (i) 33.33% of any and all Category A liabilities that result from Hoechst being held as the responsible party pursuant to public law or current or future environmental law or by third parties pursuant to private or public law related to contamination and (ii) liabilities that Hoechst is required to discharge, including tax liabilities, which are associated with businesses that were included in the demerger but were not demerged due to legal restrictions on the transfers of such items. These indemnities do not provide for any monetary or time limitations. The Company has not been requested by Hoechst to make any payments in connection with this indemnification. Accordingly, the Company has not made any payments to Hoechst and its legal successors.

Based on the Company's evaluation of currently available information, including the lack of requests for indemnification, the Company cannot estimate the remaining demerger obligations, if any, in excess of amounts accrued.

- ***Divestiture Obligations***

The Company and its predecessor companies agreed to indemnify third-party purchasers of former businesses and assets for various pre-closing conditions, as well as for breaches of representations, warranties and covenants. Such liabilities also include environmental liability, product liability, antitrust and other liabilities. These indemnifications and guarantees represent standard contractual terms associated with typical divestiture agreements and, other than environmental liabilities, the Company does not believe that they expose the Company to significant risk (Note 9).

The Company has divested numerous businesses, investments and facilities through agreements containing indemnifications or guarantees to the purchasers. Many of the indemnity or guarantee obligations contain monetary and/or time limitations, which time limitations extend through 2037. The aggregate amount of known and quantified obligations containing such limitations is $103 million as of June 30, 2026.

Based on the Company's evaluation of currently available information, including the number of requests for indemnification or other payment received by the Company, the Company cannot estimate the remaining divestiture obligations, if any, in excess of amounts accrued.

Purchase Obligations

In the normal course of business, the Company enters into various purchase commitments for goods and services. The Company maintains a number of "take-or-pay" contracts for purchases of raw materials, utilities and other services. Certain of the contracts contain a contract termination buy-out provision that allows for the Company to exit the contracts for amounts less than the remaining take-or-pay obligations. In addition, the Company has other outstanding commitments representing maintenance and service agreements, energy and utility agreements, consulting contracts and software agreements.

As of June 30, 2026, unconditional purchase obligations are expected to be paid through 2042 as follows:

	(In $ millions)
2026	253
2027	406
2028	280
2029	263
2030	242
Thereafter	1,299
Total	2,743

Contingencies

The Company is involved in legal and regulatory proceedings, lawsuits, claims and investigations incidental to the normal conduct of business, relating to such matters as product liability, land disputes, insurance coverage disputes, contracts, employment, antitrust or competition, intellectual property, personal injury, toxic tort, public nuisance and other actions in tort, workers' compensation, chemical exposure, asbestos exposure, taxes, trade compliance, acquisitions and divestitures, claims of current and legacy shareholders, past waste disposal practices and release of chemicals into the environment. The Company is actively defending those matters where the Company is named as a defendant and, based on the current facts, does not believe the outcomes from these matters would be material to the Company's results of operations, cash flows or financial position.

As previously reported, in July 2020, the Company settled a European Commission competition law investigation involving certain of its subsidiaries and three other companies related to certain past ethylene purchases. Shell Chemicals Europe ("Shell"), certain Repsol entities ("Repsol") represented by Stichting Ethylene Claims (the "Stichting"), TotalEnergies, OMV, Borealis, LyondellBasell, and certain Versalis entities represented by the Stichting have each filed separate claims for damages with the District Court of Amsterdam against four companies, including the Company, arising from those activities. Hearings have been held in certain of these matters. On July 30, 2026, the Court published rulings in the Shell and Repsol matters finding the claimants' damages claims not plausible and dismissing in their entirety all claims against the Company and the three other companies. BASF, Dow, ExxonMobil, BP, MOL Group and Braskem have filed similar claims against the Company in the Court of Munich, Germany, and Dow filed a second claim against the Company and others in the Court of Dortmund, Germany. To date, 14 claims have been filed against the Company and other ethylene purchasers since 2023; however, two of these claims have been dismissed, as detailed above, and are subject to appeal. It remains possible that new or existing claimants may assert additional claims or seek additional damages associated with the 2020 European Commission settlement. The Company expects additional hearings will take place and briefings will be filed in 2026. At this time, the Company cannot estimate but continues to assess any potential impact of these matters. The Company aggressively disputes these claims and intends to vigorously defend itself against them.

(1) Includes intersegment sales primarily related to the Acetyl Chain.

(2) Includes Foreign exchange gain (loss), net.

(3) Includes a decrease in accrued capital expenditures of $17 million and $33 million for the six months ended June 30, 2026 and 2025, respectively.

16. Revenue Recognition

The Company has certain contracts that represent take-or-pay revenue arrangements in which the Company's performance obligations extend over multiple years.

Remaining performance obligations related to take-or-pay contracts are expected to be recognized as follows:

	As of June 30, 2026
	(In $ millions)
2026	117
2027	121
2028	84
Thereafter	26
Total	348

Disaggregated Revenue

In general, the Company's business segmentation is aligned according to the nature and economic characteristics of its products and customer relationships and provides meaningful disaggregation of each business segment's results of operations.

The Company manages its Engineered Materials business segment through its project management pipeline, which is comprised of a broad range of projects that are solutions-based and are tailored to each customer's unique needs. Projects are identified and selected based on success rate and may involve a number of different polymers per project for use in multiple end-use applications. Therefore, the Company is agnostic toward products and end-use markets for the Engineered Materials business segment.

The Company manages its Acetyl Chain business segment by leveraging its ability to sell chemicals externally to end-use markets or downstream to its acetate tow, intermediate chemistry, emulsion polymers, redispersible powders and ethylene vinyl acetate polymers businesses. Decisions to sell externally and geographically or downstream and along the Acetyl Chain are based on market demand, trade flows and maximizing the value of its chemicals. Therefore, the Company's strategic focus is on executing within this integrated chain model and less on driving product-specific revenue.

Further disaggregation of Net sales by business segment and geographic destination is as follows:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2026	2025	2026	2025
	(In $ millions)

Exchange rate changes	—	(1)	—	(1)
As of June 30, 2026	14	32	9	55

19. Subsequent Events

On July 31, 2026, the Company entered into a receivables purchase and financing agreement (the "European Receivables Purchase and Financing Agreement") and established an accounts receivable purchasing and financing facility among certain of the Company's European subsidiaries, a wholly-owned, "bankruptcy remote" special purpose subsidiary (the "EU SPE") and certain global financial institutions. The European Receivables Purchase and Financing Agreement permits the EU SPE to either sell or borrow against certain receivables until July 31, 2028. Under the European Receivables Purchase and Financing Agreement, sales of accounts receivable from the EU SPE are treated as sales and are accounted for as a reduction in accounts receivable because the agreement transfers effective control over and risk related to such accounts receivable to the EU SPE. Borrowings against the receivables are not treated as sales and, as a result, are retained on the Company's unaudited consolidated balance sheets. The Company and related subsidiaries have no continuing involvement in the accounts receivable sold, other than collection and administrative responsibilities and such accounts receivable are no longer available to satisfy creditors of the Company or the related subsidiaries. The sales are transacted at 100% of the face value of the relevant accounts receivable, resulting in derecognition of such accounts receivables from the Company's unaudited consolidated balance sheets. On July 31, 2026, the Company sold $88 million of receivables under the European Receivables Purchase and Financing Agreement.

On August 5, 2026, Celanese U.S. repaid in full all of its outstanding 1.400% unsecured senior notes due on August 5, 2026 ("1.400% Notes") for a total principal payment of $400 million plus accrued interest of $3 million. Cash on hand was used to fund the repayment.

Item 2. ***Management's Discussion and Analysis of Financial Condition and Results of Operations***

In this Quarterly Report on Form 10-Q ("Quarterly Report"), the term "Celanese" refers to Celanese Corporation, a Delaware corporation, and not its subsidiaries. The terms the "Company," "we," "our" and "us," refer to Celanese and its subsidiaries on a consolidated basis. The term "Celanese U.S." refers to the Company's subsidiary, Celanese US Holdings LLC, a Delaware limited liability company, and not its subsidiaries.

The following discussion should be read in conjunction with the Celanese Corporation and Subsidiaries consolidated financial statements as of and for the year ended December 31, 2025 filed on February 24, 2026 with the Securities and Exchange Commission ("SEC") as part of the Company's Annual Report on Form 10-K ("2025 Form 10-K") and the unaudited interim consolidated financial statements and notes to the unaudited interim consolidated financial statements herein, which are prepared in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

Investors are cautioned that the forward-looking statements contained in this section and other parts of this Quarterly Report involve both risk and uncertainty. Several important factors could cause actual results to differ materially from those anticipated by these statements. Many of these statements are macroeconomic in nature and are, therefore, beyond the control of management. See "Forward-Looking Statements" below and at the beginning of our 2025 Form 10-K.

Forward-Looking Statements

Management's Discussion and Analysis of Financial Condition and Results of Operations ("MD&A") and other parts of this Quarterly Report contain certain forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995 and information relating to us that are based on the beliefs of our management as well as assumptions made by, and information currently available to, us. Generally, words such as "believe," "expect," "intend," "estimate," "anticipate," "project," "plan," "may," "can," "could," "might," and "will," and similar expressions, as they relate to us are intended to identify forward-looking statements. These statements reflect our current views and beliefs with respect to future events as of the date hereof, are not historical facts or guarantees of future performance and involve risks and uncertainties that are difficult to predict and many of which are outside of our control. Further, certain forward-looking statements are based upon assumptions as to future events that may not prove to be accurate. All forward-looking statements made in this Quarterly Report are made as of the date hereof, and the risk that actual results will differ materially from expectations expressed in this Quarterly Report will increase with the passage of time. We undertake no obligation, and disclaim any duty, to publicly update or revise any forward-looking statements, whether as a result of new information, future events, changes in our expectations or otherwise.

Risk Factors

See *Part I - Item 1A. Risk Factors* of our 2025 Form 10-K for a description of certain risk factors that you should consider which could significantly affect our business and/or financial results. In addition, the following factors, among others, could cause our actual results to differ materially from those results, performance or achievements that may be expressed or implied by such forward-looking statements:

- the ability to successfully achieve planned cost reductions;
- changes in general economic, business, political and regulatory conditions in the countries or regions in which we operate;
- the length and depth of product and industry business cycles particularly in the automotive, electrical, textiles, electronics and construction industries;
- potential liability resulting from pending or future claims or litigation, including investigations or enforcement actions, or from changes in the laws, regulations or policies of governments or other governmental activities, in the countries in which we operate;
- our level of indebtedness and our financial condition, each of which could diminish our ability to raise additional capital to fund operations, reduce our business and strategic flexibility, increase our interest expense, limit the success of our deleveraging efforts, and impact changes to our credit ratings, which could increase our interest expense in the event of additional downgrades;
- volatility or changes in the price and availability of raw materials and energy, particularly changes in the demand for, supply of, and market prices of ethylene, methanol, natural gas, carbon monoxide, wood pulp, hexamethylene diamine, Polyamide 66 ("PA66"), polybutylene terephthalate, ethanol, natural gas and fuel oil, and the prices for electricity and other energy sources;

- the ability to pass increases in raw materials prices, logistics costs and other costs on to customers or otherwise improve margins through price increases;
- the possibility that we will not be able to realize the anticipated benefits of the Mobility & Materials business (the "M&M Business") we acquired from DuPont de Nemours, Inc. (the "M&M Acquisition"), including synergies and growth opportunities, whether as a result of difficulties arising from the operation of the M&M Business or other unanticipated delays, costs, inefficiencies or liabilities;
- additional impairment of goodwill or intangible assets;
- increased commercial, legal or regulatory complexity of entering into, or expanding our exposure to, certain end markets and geographies;
- risks in the global economy and equity and credit markets and their potential impact on our ability to pay down debt in the future and/or refinance at suitable rates, in a timely manner, or at all;
- the ability to maintain plant utilization rates and to implement planned capacity additions, expansions and maintenance;
- the ability to reduce or maintain current levels of production costs and to improve productivity by implementing technological improvements to existing plants;
- increased price competition and the introduction of competing products by other companies;
- the ability to identify desirable potential acquisition or divestiture opportunities and to complete such transactions, including obtaining regulatory approvals, consistent with our strategy;
- market acceptance of our products and technology;
- compliance and other costs and potential disruption or interruption of production or operations due to accidents, interruptions in sources of raw materials, transportation, logistics or supply chain disruptions, cybersecurity incidents, AI-related vulnerabilities, terrorism or political unrest, public health crises, or other unforeseen events or delays in construction or operation of facilities, including as a result of geopolitical conditions, the direct or indirect consequences of acts of war or conflict (such as the Russia-Ukraine conflict or conflicts in the Middle East) or terrorist incidents or as a result of fire, flood, hurricanes, other severe weather, natural disasters, other catastrophic events or other crises;
- the ability to obtain governmental approvals and to construct facilities on terms and schedules acceptable to us;
- changes in applicable tariffs, duties, treaties and trade agreements, tax rates or legislation throughout the world including, but not limited to, anti-dumping and countervailing duties, adjustments, changes in estimates or interpretations or the resolution of tax examinations or audits that may impact recorded or future tax impacts and potential regulatory and legislative tax developments in the United States ("U.S.") and other jurisdictions;
- changes in the degree of intellectual property and other legal protection afforded to our products or technologies, or the theft of such intellectual property;
- potential liability for remedial actions and increased costs under existing or future environmental, health and safety regulations, including those relating to climate change or other sustainability matters;
- changes in currency exchange rates and interest rates;
- tax rates and changes thereto; and
- various other factors, both referenced and not referenced in this Quarterly Report.

Many of these factors are macroeconomic in nature and are, therefore, beyond our control. Should one or more of these risks or uncertainties materialize, affect us in ways or to an extent that we currently do not expect or consider to be significant, or should underlying assumptions prove incorrect, our actual results, performance or achievements may vary materially from those described in this Quarterly Report as anticipated, believed, estimated, expected, intended, planned or projected. We neither intend nor assume any obligation to update these forward-looking statements, which speak only as of the date hereof.

Overview

We are a global chemical and specialty materials company. We are a global producer of high performance engineered polymers that are used in a variety of high-value applications, as well as one of the world's largest producers of acetyl products, which are intermediate chemicals for nearly all major industries. As a recognized innovator in the chemicals industry, we engineer and manufacture a wide variety of products essential to everyday living. Our broad product portfolio serves a diverse set of end-use applications including automotive, chemical additives, construction, consumer and industrial adhesives, medical, consumer electronics, energy storage, filtration, paints and coatings, paper and packaging, industrial applications and textiles. Our products enjoy leading global positions due to our differentiated business models, large global production capacity, operating efficiencies, proprietary technology and competitive cost structures.

Our large and diverse global customer base primarily consists of major companies across a broad array of industries. We hold geographically balanced global positions and participate in diversified end-use applications. We combine a demonstrated track record of execution, strong performance built on differentiated business models and a clear focus on growth and value creation. Known for operational excellence, reliability and execution of our business strategies, we partner with our customers around the globe to deliver best-in-class technologies and solutions.

Impact of Tariffs

As we are a global company, tariffs, uncertainty regarding potential future tariffs and their potential effects may impact our business. We continue to analyze the impact of these tariffs and actions we can take to minimize their impact.

Acetyl Chain	(3)	7	2	6
Total Company	(3)	4	2	3

Consolidated Results

Three Months Ended June 30, 2026 Compared to Three Months Ended June 30, 2025

Net sales increased $220 million, or 9%, for the three months ended June 30, 2026 compared to the same period in 2025, primarily due to:

- higher pricing in our Acetyl Chain segment, primarily due to regional supply dislocation, as well as higher raw materials and sourcing costs;
- higher pricing in our Engineered Materials segment, primarily due to pricing actions implemented during the three months ended June 30, 2026, as well as a more favorable product mix; and
- a favorable currency impact from our Engineered Materials and Acetyl Chain segments, primarily resulting from a stronger euro and Chinese yuan relative to the U.S. dollar;

partially offset by:

- lower volume in our Engineered Materials segment, primarily due to the completed sale of the Micromax® business (see Note 3 - Acquisitions, Dispositions and Plant Closures in the accompanying unaudited interim consolidated financial statements for further information).

Operating profit increased $45 million, or 19%, for the three months ended June 30, 2026 compared to the same period in 2025, primarily due to:

- higher Net sales across all of our segments; and
- lower raw materials costs in our Engineered Materials segment, primarily driven by productivity initiatives and sourcing changes;

partially offset by:

- higher accelerated depreciation expense of $65 million during the three months ended June 30, 2026 in our Engineered Materials and Acetyl Chain segments, primarily related to the announced closure of our facilities in Sakra, Singapore and Ulsan, South Korea, and optimization of the North American nylon 6,6 polymerization units in our Engineered

Materials segment, and the previously announced closure of our facility in Lanaken, Belgium in our Acetyl Chain segment (see Note 3 - Acquisitions, Dispositions and Plant Closures and Note 18 - Other (Charges) Gains, Net in the accompanying unaudited interim consolidated financial statements for further information);

- higher raw materials and sourcing costs in our Acetyl Chain segment, primarily for ethylene and methanol;
- higher spending of $49 million in our Engineered Material segment, primarily as a result of higher inventory and turnaround costs at our Frankfurt polyoxymethylene ("POM") unit during the three months ended June 30, 2026;
- higher spending of $48 million in our Acetyl Chain and Other Activities segments during the three months ended June 30, 2026, primarily as a result of increased plant operating and maintenance expenses and higher logistics costs in our Acetyl Chain segment, as well as higher incentive compensation and merger and acquisition costs incurred in Other Activities; and
- an unfavorable impact of $20 million to Other (charges) gains, net in our Acetyl Chain segment, primarily related to restructuring costs associated with the previously announced closure of our facility in Lanaken, Belgium (see Note 3 - Acquisitions, Dispositions and Plant Closures and Note 18 - Other (Charges) Gains, Net in the accompanying unaudited interim consolidated financial statements for further information).

Equity in net earnings (loss) of affiliates decreased $18 million, or 62%, for the three months ended June 30, 2026 compared to the same period in 2025, primarily due to:

- a decrease in earnings from our Mylar Specialty Films strategic affiliate, primarily due to restructuring activities.

Our effective income tax rate for the three months ended June 30, 2026 was 8% compared to (58)% for the same period in 2025. The change in the effective income tax rate for the three months ended June 30, 2026 compared to the same period in 2025 was primarily due to favorable tax items recorded in the prior-year period that did not recur in 2026, including net deferred tax benefits related to the relocation of certain intangible assets among wholly-owned foreign affiliates as part of the continued integration of global principal operations and a tax benefit associated with the settlement of German tax examinations for the 2008 through 2012 tax years. The higher rate also reflected unfavorable functional-currency tax impacts in certain jurisdictions during the current period. These effects were partially offset by favorable changes in the geographic mix of earnings in the current year and by reductions in valuation allowances on foreign tax credit carryforwards resulting from revised forecasts of foreign-sourced income and expenses during the applicable carryforward period. See Note 11 - Income Taxes in the accompanying unaudited interim consolidated financial statements for further information.

Six Months Ended June 30, 2026 Compared to Six Months Ended June 30, 2025

Net sales increased $168 million, or 3%, for the six months ended June 30, 2026 compared to the same period in 2025, primarily due to:

- higher pricing in our Acetyl Chain segment, primarily due to regional supply dislocation, as well as higher raw materials and sourcing costs;
- higher pricing in our Engineered Materials segment, primarily due to pricing actions implemented during the three months ended June 30, 2026, as well as a more favorable product mix; and
- a favorable currency impact from our Engineered Materials and Acetyl Chain segments, primarily resulting from a stronger euro and Chinese yuan relative to the U.S. dollar;

partially offset by:

- lower volume in our Engineered Materials and Acetyl Chain segments, primarily due to the completed sale of the Micromax® business in our Engineered Materials segment (see Note 3 - Acquisitions, Dispositions and Plant Closures in the accompanying unaudited interim consolidated financial statements for further information), and decreased global demand in our Acetyl Chain segment.

Operating profit increased $94 million, or 24%, for the six months ended June 30, 2026 compared to the same period in 2025, primarily due to:

- higher Net sales across all of our segments;

- a gain of $50 million in our Engineered Materials segment, recognized on the completed sale of the Micromax® business (see Note 3 - Acquisitions, Dispositions and Plant Closures in the accompanying unaudited interim consolidated financial statements for further information); and
- lower raw materials costs in our Engineered Materials segment, primarily driven by productivity initiatives and sourcing changes;

partially offset by:

- higher accelerated depreciation expense of $85 million in our Engineered Materials and Acetyl Chain segments during the six months ended June 30, 2026, primarily related to the announced closure of our facilities in Sakra, Singapore and Ulsan, South Korea, and optimization of the North American nylon 6,6 polymerization units in our Engineered Materials segment, and the previously announced closure of our facility in Lanaken, Belgium in our Acetyl Chain segment (see Note 3 - Acquisitions, Dispositions and Plant Closures and Note 18 - Other (Charges) Gains, Net in the accompanying unaudited interim consolidated financial statements for further information);
- higher spending of $73 million in our Other Activities and Acetyl Chain segments during the six months ended June 30, 2026, primarily related to higher incentive compensation and merger and acquisition costs in Other Activities segment, and increased plant operating and maintenance expenses and higher logistics costs in our Acetyl Chain segment;
- higher raw materials costs in our Acetyl Chain segment, primarily for ethylene and methanol; and
- an unfavorable impact of $10 million to Other (charges) gains, net in our Acetyl Chain and Engineered Materials segments during the six months ended June 30, 2026, primarily related to restructuring costs associated with the previously announced closure of our facility in Lanaken, Belgium in our Acetyl Chain segment, and partially offset by lower restructuring costs related to the Company-wide business optimization projects in our Engineered Materials segment (see Note 3 - Acquisitions, Dispositions and Plant Closures and Note 18 - Other (Charges) Gains, Net in the accompanying unaudited interim consolidated financial statements for further information).

Our effective income tax rate for the six months ended June 30, 2026 was 20% compared to (54)% for the same period in 2025. The higher effective income tax rate was primarily due to favorable tax items recorded in the prior-year period that did not recur in 2026, including net deferred tax benefits related to the relocation of certain intangible assets among wholly-owned foreign affiliates as part of the continued integration of global principal operations and a tax benefit associated with the settlement of German tax examinations for the 2008 through 2012 tax years. The higher rate also reflected unfavorable functional-currency tax impacts in certain jurisdictions during the current period. These effects were partially offset by favorable changes in the geographic mix of earnings in the current year and by reductions in valuation allowances on foreign tax credit carryforwards resulting from revised forecasts of foreign-sourced income and expenses during the applicable carryforward period. See Note 11 - Income Taxes in the accompanying unaudited interim consolidated financial statements for further information.

Our Engineered Materials segment includes our engineered materials business and certain strategic affiliates. Our engineered materials business develops, produces and supplies a broad portfolio of high performance specialty polymers for automotive and medical applications, as well as industrial products and consumer electronics. Together with our strategic affiliates, our engineered materials business is a leading participant in the global specialty polymers industry.

The pricing of products within the Engineered Materials segment is primarily based on the value of the material we produce and is generally independent of changes in the cost of raw materials, but may be impacted during periods of inflation and increased costs. Therefore, in general, margins may expand or contract in response to changes in raw materials costs. We attempt to address increases in raw materials costs through appropriate pricing actions.

Three Months Ended June 30, 2026 Compared to Three Months Ended June 30, 2025

Net sales increased for the three months ended June 30, 2026 compared to the same period in 2025, primarily due to:

- higher pricing for most of our products, primarily due to pricing actions implemented during the three months ended June 30, 2026, as well as a more favorable product mix; and
- a favorable currency impact, primarily resulting from a stronger euro and Chinese yuan relative to the U.S. dollar;

largely offset by:

- lower volume, primarily due to the completed sale of the Micromax® business (see Note 3 - Acquisitions, Dispositions and Plant Closures in the accompanying unaudited interim consolidated financial statements for further information).

Operating profit decreased for the three months ended June 30, 2026 compared to the same period in 2025, primarily due to:

- higher spending of $49 million, primarily as a result of higher inventory and turnaround costs at our Frankfurt POM unit during the three months ended June 30, 2026; and
- accelerated depreciation expense of $43 million, primarily related to the announced closure of our facilities in Sakra, Singapore and Ulsan, South Korea, and optimization of the North American nylon 6,6 polymerization units during the three months ended June 30, 2026;

partially offset by:

- higher Net sales; and
- lower raw materials costs, primarily driven by productivity initiatives and sourcing changes.

Equity in net earnings (loss) of affiliates decreased for the three months ended June 30, 2026 compared to the same period in 2025, primarily due to:

- a decrease in earnings from our Mylar Specialty Films strategic affiliate, primarily due to restructuring activities.

Six Months Ended June 30, 2026 Compared to Six Months Ended June 30, 2025

Net sales increased for the six months ended June 30, 2026 compared to the same period in 2025, primarily due to:

- a favorable currency impact, primarily resulting from a stronger euro and Chinese yuan relative to the U.S. dollar; and
- higher pricing for most of our products, primarily due to pricing actions implemented during the three months ended June 30, 2026, as well as a more favorable product mix;

largely offset by:

- lower volume, primarily due to the completed sale of the Micromax® business (see Note 3 - Acquisitions, Dispositions and Plant Closures in the accompanying unaudited interim consolidated financial statements for further information).

Operating profit increased for the six months ended June 30, 2026 compared to the same period in 2025, primarily due to:

- higher Net sales;
- a gain of $50 million recognized on the completed sale of the Micromax® business (see Note 3 - Acquisitions, Dispositions and Plant Closures in the accompanying unaudited interim consolidated financial statements for further information);
- lower raw materials costs, primarily driven by productivity initiatives and sourcing changes; and
- a favorable impact of $16 million to Other (charges) gains, net, primarily due to lower restructuring costs related to the Company-wide business optimization projects during the six months ended June 30, 2026 (see Note 18 - Other (Charges) Gains, Net in the accompanying unaudited interim consolidated financial statements for further information);

partially offset by:

- higher accelerated depreciation expense of $45 million, primarily related to the announced closure of our facilities in Sakra, Singapore and Ulsan, South Korea, and optimization of the North American nylon 6,6 polymerization units during the six months ended June 30, 2026.

Acetyl Chain

	Three Months Ended June 30,			%	Six Months Ended June 30,			%
	2026	2025	Change	Change	2026	2025	Change	Change
	(unaudited) (In $ millions, except percentages)							
Net sales	1,329	1,115	214	19.2 %	2,365	2,231	134	6.0 %
Net Sales Variance								
Volume	— %				(3)%			
Price	18 %				7 %			
Currency	1 %				2 %			
Other (charges) gains, net	(21)	(1)	(20)	(2,000.0)%	(30)	(4)	(26)	(650.0)%
Operating profit (loss)	237	153	84	54.9 %	332	314	18	5.7 %
Operating margin	17.8 %	13.7 %			14.0 %	14.1 %		
Depreciation and amortization	86	64	22	34.4 %	167	125	42	33.6 %

Our Acetyl Chain segment, which includes the integrated chain of our intermediate chemistry, emulsion polymers, ethylene vinyl acetate polymers, redispersible powders and acetate tow businesses, is active in every major global industrial sector and serves diverse consumer end-use applications. These include conventional uses, such as paints, coatings, adhesives, and filter products, as well as other unique, high-value end uses including flexible packaging, thermal laminations, pharmaceuticals, wire and cable, and compounds. Together with our strategic affiliates, our Acetyl Chain businesses are leading producers and suppliers in multiple global industrial sectors.

The pricing of products within the Acetyl Chain is influenced by industry utilization rates and changes in the cost of raw materials. Therefore, in general, there is a directional correlation between these factors and our Net sales for most Acetyl Chain products. This impact to pricing typically lags changes in raw materials costs over months or quarters.

Three Months Ended June 30, 2026 Compared to Three Months Ended June 30, 2025

Net sales increased for the three months ended June 30, 2026 compared to the same period in 2025, primarily due to:

- higher pricing for most of our products globally, primarily due to regional supply dislocation, as well as higher raw materials and sourcing costs; and
- a favorable currency impact, primarily resulting from a stronger euro and Chinese yuan relative to the U.S. dollar.

Operating profit increased for the three months ended June 30, 2026 compared to the same period in 2025, primarily due to:

- higher Net sales;

partially offset by:

- higher raw materials and sourcing costs, primarily for ethylene and methanol;
- accelerated depreciation expense of $22 million and an unfavorable impact of $20 million to Other (charges) gains, net, primarily related to restructuring costs associated with the previously announced closure of our facility in Lanaken, Belgium (see Note 3 - Acquisitions, Dispositions and Plant Closures and Note 18 - Other (Charges) Gains, Net in the accompanying unaudited interim consolidated financial statements for further information); and
- higher spending of $11 million, primarily as a result of increased plant operating and maintenance expenses, and higher logistics costs during the three months ended June 30, 2026.

Six Months Ended June 30, 2026 Compared to Six Months Ended June 30, 2025

Net sales increased for the six months ended June 30, 2026 compared to the same period in 2025, primarily due to:

- higher pricing for most of our products globally, primarily due to regional supply dislocation, as well as higher raw materials and sourcing costs; and
- a favorable currency impact, primarily resulting from a stronger euro and Chinese yuan relative to the U.S. dollar;

partially offset by:

- lower volume for some of our products, primarily related to decreased global demand.

Operating profit increased for the six months ended June 30, 2026 compared to the same period in 2025, primarily due to:

- higher Net sales;

partially offset by:

- accelerated depreciation expense of $40 million and an unfavorable impact of $26 million to Other (charges) gains, net, primarily related to restructuring costs associated with the previously announced closure of our facility in Lanaken, Belgium (see Note 3 - Acquisitions, Dispositions and Plant Closures and Note 18 - Other (Charges) Gains, Net in the accompanying unaudited interim consolidated financial statements for further information);
- higher raw materials and sourcing costs, primarily for ethylene and methanol; and
- higher spending of $28 million, primarily as a result of increased plant operating and maintenance expenses, and higher logistics costs during the six months ended June 30, 2026.

Other Activities

	Three Months Ended June 30,				Six Months Ended June 30,			
	2026	2025	Change	% Change	2026	2025	Change	% Change
	(unaudited) (In $ millions, except percentages)							
Operating profit (loss)	(117)	(86)	(31)	(36.0)%	(219)	(176)	(43)	(24.4)%

Other Activities primarily consists of corporate center costs, including administrative activities such as finance, taxes, information technology and human resource functions, interest income and expense associated with financing activities and results of our captive insurance companies. Other Activities also includes the components of net periodic benefit cost (interest cost, expected return on assets and net actuarial gains and losses) for our defined benefit pension plans and other postretirement plans not allocated to our business segments.

Three Months Ended June 30, 2026 Compared to Three Months Ended June 30, 2025

Operating loss increased for the three months ended June 30, 2026 compared to the same period in 2025, primarily due to:

- higher spending of $37 million, primarily related to higher incentive compensation and merger and acquisition costs incurred during the three months ended June 30, 2026;

partially offset by:

- a favorable currency impact.

Six Months Ended June 30, 2026 Compared to Six Months Ended June 30, 2025

Operating loss increased for the six months ended June 30, 2026 compared to the same period in 2025, primarily due to:

- higher spending of $45 million, primarily related to higher incentive compensation and merger and acquisition costs incurred during the six months ended June 30, 2026.

Liquidity and Capital Resources

Our primary sources of liquidity are cash generated from operations, available cash and cash equivalents, dividends from our portfolio of strategic investments and available borrowings under our senior unsecured revolving credit facilities. As of June 30, 2026, we have $1.75 billion available for borrowing under our senior U.S. Revolving Credit Facility (defined below) and $96 million available for borrowing under our separate China Revolving Credit Facilities (defined below), if required, to meet our working capital needs and other contractual obligations (see *Covenants* section below for further information). In addition, we held cash and cash equivalents of $1.4 billion as of June 30, 2026. We are actively managing our business to maintain cash flow, and we believe that liquidity from the above-referenced sources will be sufficient to meet our operational and capital investment needs and financial obligations for the foreseeable future.

On February 2, 2026, we completed the sale of the Micromax® business to Element Solutions Inc for a purchase price of $493 million, subject to customary transaction adjustments. See Note 3 - Acquisitions, Dispositions and Plant Closures in the accompanying unaudited interim consolidated financial statements for further information.

In October 2025, we announced the intended closure of our facility in Lanaken, Belgium to streamline our production costs across our global network. We intend to permanently cease all manufacturing operations during the second half of 2026. We expect to incur additional exit and shutdown costs related to the closure of the facility of $60 million, including employee termination costs, through 2027. See Note 3 - Acquisitions, Dispositions and Plant Closures in the accompanying unaudited interim consolidated financial statements for further information.

Our incurrence of debt to finance the purchase price for the M&M Acquisition increased our leverage and our ratio of indebtedness to consolidated EBITDA as set forth in our senior unsecured credit facilities. We believe that cash flows from our operations, together with cost reduction initiatives, will support our deleveraging efforts over the next few years. However, we expect the weakened demand environment, as discussed below, to continue to adversely impact our cash generation in the near-term. In furtherance of our deleveraging efforts, we have paused our share repurchase program and are in the process of evaluating additional cash generation or conservation opportunities. As part of this process, we reduced our quarterly dividend by approximately 95% beginning in the first quarter of 2025. We will continue to evaluate our dividend policy, taking into account our ability to return to a more balanced capital allocation strategy. Our deleveraging efforts may also include, in addition to the sale of the Micromax® business described above, other opportunistic dispositions or monetization of other product or business lines or other assets.

While our contractual obligations, commitments and debt service requirements over the next several years are significant, we continue to believe we will have available resources to meet our liquidity requirements, including debt service, for the next twelve months. If our cash flow from operations is insufficient to fund our debt service and other obligations, we may be required to use other means available to us such as increasing our borrowings, reducing or delaying capital expenditures, seeking additional capital, further reducing or pausing dividend payments, or seeking to restructure or refinance our indebtedness. There can be no assurance, however, that we will continue to generate cash flows at or above current levels.

We continue to focus our near-term capital expenditures on required stewardship, maintenance, and productivity projects, as we continue to prioritize deleveraging and expect total capital expenditures to be approximately $300 million to $350 million in 2026. In Engineered Materials, at our Nanjing, China facility, our expansions of (1) the compounding plant was completed and began production activities during the three months ended December 31, 2025 and (2) the liquid crystal polymer ("LCP") facility is on schedule for completion in the second half of 2026. Our energy optimization productivity and greenhouse gas reduction project at our POM unit in Frankfurt, Germany is progressing on an extended schedule that aligns with our strategy for capital spending. In the Acetyl Chain, our planned expansion of our vinyl acetate ethylene ("VAE") emulsion plant in Frankfurt, Germany is in construction with start-up scheduled in the third quarter of 2026 to align with demand. We continue to see the investments made in recent years strengthen the growth and reliability, while lowering the carbon footprint, of our manufacturing network to best serve our customers.

On a stand-alone basis, Celanese and its immediate 100% owned subsidiary, Celanese U.S., have no independent external operations of their own. Accordingly, they generally depend on the cash flow of their subsidiaries and their ability to pay dividends and make other distributions to Celanese and Celanese U.S. in order to meet their obligations, including their obligations under senior credit facilities and senior notes, and to pay dividends on our Common Stock.

We are subject to capital controls and exchange restrictions imposed by the local governments in certain jurisdictions where we operate, such as China, South Korea, India and Indonesia. Capital controls impose limitations on our ability to exchange currencies, repatriate earnings or capital, lend via intercompany loans or create cross-border cash pooling arrangements. Our largest exposure to a country with capital controls is in China. Pursuant to applicable regulations, foreign-invested enterprises in China may pay dividends only out of their accumulated profits, if any, determined in accordance with Chinese accounting standards and regulations. In addition, the Chinese government imposes certain currency exchange controls on cash transfers out of China, puts certain limitations on duration, purpose and amount of intercompany loans, and restricts cross-border cash pooling. While it is possible that future tightening of these restrictions or application of new similar restrictions could impact us, these limitations do not currently restrict our operations.

Cash Flows

Cash and cash equivalents increased $101 million to $1.4 billion as of June 30, 2026 compared to December 31, 2025. As of June 30, 2026, $811 million of the $1.4 billion of cash and cash equivalents was held by our foreign subsidiaries. Cash and cash equivalents held by foreign subsidiaries are largely accessible without additional material tax consequences, if needed in the U.S., to fund operations. See Note 11 - Income Taxes in the accompanying unaudited interim consolidated financial statements for further information.

- ***Net Cash Provided by (Used in) Operating Activities***

Net cash provided by operating activities decreased $162 million to $285 million for the six months ended June 30, 2026 compared to net cash provided by operating activities of $447 million for the same period in 2025, primarily due to:

- unfavorable trade working capital of $396 million, primarily due to the timing of collections of trade receivables and inventory increases as a result of higher pricing and raw material costs, partially offset by timing of settlement of trade payables during the six months ended June 30, 2026; and
- a decrease in earnings performance after noncash adjustments;

partially offset by:

- favorable changes in other operating assets and liabilities of $275 million, primarily due to the timing of collections and settlements during the six months ended June 30, 2026.

- ***Net Cash Provided by (Used in) Investing Activities***

Net cash provided by investing activities increased $552 million to $366 million for the six months ended June 30, 2026 compared to net cash used in investing activities of $186 million for the same period in 2025, primarily due to:

- a cash inflow of $493 million related to sale of the Micromax® business (see Note 3 - Acquisitions, Dispositions and Plant Closures in the accompanying unaudited interim consolidated financial statements for further information); and
- a decrease of $67 million in capital expenditures during the six months ended June 30, 2026.

- ***Net Cash Provided by (Used in) Financing Activities***

Net cash used in financing activities increased $478 million to $549 million for the six months ended June 30, 2026 compared to net cash used in financing activities of $71 million for the same period in 2025, primarily due to:

- a decrease in proceeds from long-term debt, primarily due to the March 2025 Offering (defined below), of $2.6 billion during the six months ended June 30, 2025, which did not recur in the current year, and a decrease in proceeds of $119 million from our various long-term China working capital and term loans;

partially offset by:

- a decrease in repayments of long-term debt, primarily due to the March 2025 Tender Offers (defined below) of $1.1 billion, redemption of the 6.050% Senior Notes due March 15, 2025, partial repayment of $400 million of the March 2022 U.S. Term Loan Credit Facility (defined below), and redemption of the 1.250% Senior Notes due February 11, 2025, during the six months ended June 30, 2025, which did not recur in the current year, partially offset by the redemption of the 4.777% Notes (defined below), and repayment of certain long-term China working capital loans during the six months ended June 30, 2026; and

- a decrease in debt refinancing costs paid of $73 million during the six months ended June 30, 2025, which did not recur in the current year.

Debt and Other Obligations

- ***Senior Credit Facilities***

In March 2022, Celanese U.S. entered into a $1.0 billion senior unsecured term loan credit agreement (as amended to date, the "March 2022 U.S. Term Loan Credit Facility") and in November 2024, Celanese U.S. entered into a $1.0 billion senior unsecured term loan credit agreement (the "November 2024 U.S. Term Loan Credit Facility"). The March 2022 U.S. Term Loan Credit Facility and the November 2024 U.S. Term Loan Facility were each fully repaid and terminated as of December 31, 2025.

In August 2025, Celanese U.S. entered into a new senior unsecured revolving credit agreement (the "U.S. Revolving Credit Facility" and together with the March 2022 U.S. Term Loan Credit Facility and the November 2024 U.S. Term Loan Credit Facility, the "U.S. Credit Facilities"), consisting of a $1.75 billion senior unsecured revolving credit facility (with a letter of credit sublimit), maturing in 2030. The margin for borrowings under the U.S. Revolving Credit Facility is 1.00% to 2.00% (or between 0.00% and 1.00% in the case of U.S. dollar base rate borrowings) above certain interbank rates at current Company credit ratings.

The U.S. Revolving Credit Facility is guaranteed by Celanese and certain domestic subsidiaries, together representing substantially all of our U.S. assets and business operations (the "Subsidiary Guarantors").

Certain of our subsidiaries in China have outstanding senior unsecured bank obligations (collectively, the "China Credit Facilities"). Celanese (Shanghai) International Trading Co., Ltd ("CSIT") entered into a revolving credit facility guaranteed by Celanese U.S. (the "CSIT Revolving Credit Facility") which bears interest at a fixed rate. This revolving credit facility was fully repaid on January 13, 2026.

Celanese (Nanjing) Chemical Co., Ltd. ("CNCC") and CSIT entered into various working capital and term loans (the "China Working Capital and Term Loans") that bear interest at floating or fixed interest rates and expire on various dates beginning December 2026 through April 2031. During the three and six months ended June 30, 2026, CNCC and CSIT entered into four such agreements, with a combined borrowing capacity of CNY100 million and CNY1.8 billion, respectively. The China Working Capital and Term Loans have an outstanding balance of $614 million as of June 30, 2026.

In April 2025, CNCC entered into a CNY100 million revolving credit facility guaranteed by Celanese U.S. (the "CNCC Revolving Credit Facility" and together with the CSIT Revolving Credit Facility, the "China Revolving Credit Facilities") expiring 12 months from the drawdown date. No draws were initiated as of June 30, 2026.

We expect the China Credit Facilities will continue to facilitate our efficient repatriation of cash to the U.S. to repay debt and effectively redomicile a portion of our U.S. debt to China at a lower average interest rate.

- ***Senior Notes***

In March 2025, Celanese U.S. completed a public offering of senior unsecured notes registered under the Securities Act in aggregate principal amounts of €750 million and $1.8 billion (the "March 2025 Offering").

In addition, in March 2025, Celanese U.S. completed cash tender offers for €552 million and $500 million in aggregate principal amounts of senior unsecured notes (the "March 2025 Tender Offers"). The net proceeds from the March 2025 Offering, together with borrowings under the November 2024 U.S. Term Loan Credit Facility, were used (i) to fund the March 2025 Tender Offers, (ii) for repayment of other outstanding indebtedness and (iii) to pay related fees and expenses.

Deferred financing costs related to the March 2025 Offering were $34 million and are being amortized to Interest expense in the unaudited interim consolidated statements of operations over the terms of the applicable notes. Fees and expenses related to the March 2025 Tender Offers of $32 million, including accelerated amortization of deferred financing costs associated with the principal amounts tendered, are included in Refinancing expense in the unaudited interim consolidated statements of operations for the six months ended June 30, 2025.

In December 2025, Celanese U.S. completed a public offering of senior unsecured notes registered under the Securities Act in an aggregate principal amount of $1.4 billion (the "December 2025 Offering").

In addition, in December 2025, Celanese U.S. completed cash tender offers for $1.2 billion in aggregate principal amounts of senior unsecured notes (the "December 2025 Tender Offers"). The net proceeds from the December 2025 Offering were used to (i) fund the December 2025 Tender Offers, (ii) repay other outstanding indebtedness and (iii) pay related fees and expenses.

On June 25, 2026, Celanese U.S. redeemed all of its outstanding 4.777% unsecured senior notes due 2026 ("4.777% Notes") at a redemption price of 100% of the face amount for a total principal payment of $508 million plus accrued interest of $25 million. Cash on hand was used to fund the redemption.

On August 5, 2026, Celanese U.S. repaid in full all of its outstanding 1.400% unsecured senior notes due on August 5, 2026 ("1.400% Notes") for a total principal payment of $400 million plus accrued interest of $3 million. Cash on hand was used to fund the repayment.

There have been no material changes to our debt or other obligations described in our 2025 Form 10-K other than those disclosed above and in Note 7 - Debt in the accompanying unaudited interim consolidated financial statements.

- ***Accounts Receivable Purchasing Facility***

On May 22, 2026, we entered into an amendment to the amended and restated receivables purchase agreement under our U.S. accounts receivable purchasing facility among certain of our subsidiaries, a wholly-owned, "bankruptcy remote" special purpose subsidiary (the "U.S. SPE") and certain global financial institutions ("U.S. Purchasers"). We de-recognized $738 million and $1.5 billion of accounts receivable under this agreement for the six months ended June 30, 2026 and year ended December 31, 2025, respectively, and collected $693 million and $1.5 billion of accounts receivable sold under this agreement during the same periods. Unsold U.S. accounts receivable of $124 million were pledged by the U.S. SPE as collateral to the U.S. Purchasers as of June 30, 2026.

On July 31, 2026, we entered into a receivables purchase and financing agreement (the "European Receivables Purchase and Financing Agreement") and established an accounts receivable purchasing and financing facility among certain of our European subsidiaries, a wholly-owned, "bankruptcy remote" special purpose subsidiary (the "EU SPE") and certain global financial institutions. The European Receivables Purchase and Financing Agreement permits the EU SPE to either sell or borrow against certain receivables until July 31, 2028. Under the European Receivables Purchase and Financing Agreement, sales of accounts receivable from the EU SPE are treated as sales and are accounted for as a reduction in accounts receivable because the agreement transfers effective control over and risk related to such accounts receivable to the EU SPE. Borrowings against the receivables are not treated as sales and, as a result, are retained on our unaudited consolidated balance sheets. We and related subsidiaries have no continuing involvement in the accounts receivable sold, other than collection and administrative responsibilities and such accounts receivable are no longer available to satisfy our creditors or the related subsidiaries. The sales are transacted at 100% of the face value of the relevant accounts receivable, resulting in derecognition of such accounts receivables from our unaudited consolidated balance sheets. On July 31, 2026, we sold $88 million of receivables under the European Receivables Purchase and Financing Agreement.

- ***Factoring and Discounting Agreements***

We have factoring agreements in Europe, Japan, Singapore and China with financial institutions. We de-recognized $350 million and $717 million of accounts receivable under these factoring agreements for the six months ended June 30, 2026 and year ended December 31, 2025, respectively, and collected $359 million and $724 million of accounts receivable sold under these factoring agreements during the same periods.

We have master discounting agreements (the "Master Discounting Agreements") with financial institutions in China to discount, on a non-recourse basis, banker's acceptance drafts, classified as accounts receivable. We received $42 million and $82 million from the accounts receivable transferred under the Master Discounting Agreements for the six months ended June 30, 2026 and year ended December 31, 2025, respectively.

Covenants

Our material financing arrangements contain customary covenants, including the maintenance of certain financial ratios, events of default and change of control provisions. Failure to comply with these covenants, or the occurrence of any other event of default, could result in acceleration of the borrowings and other financial obligations.

On July 31, 2026, and during the year ended December 31, 2025, we amended certain covenants in certain U.S. Credit Facilities, including financial ratio maintenance covenants.

We are in compliance with the covenants in our material financing arrangements as of June 30, 2026. We expect to remain in compliance with such covenants over the twelve-month required evaluation period subsequent to the date of this filing based on current market conditions and our current expectation of future results of operations and cash generation. However, should our actual future results of operations and cash generation differ materially from our expectations, we may be required to seek an amendment to or waiver of any impacted covenants, or pursue other mitigation strategies.

See Note 7 - Debt in the accompanying unaudited interim consolidated financial statements for further information.

Guarantor Financial Information

We have outstanding senior unsecured notes, issued in public offerings registered under the Securities Act (collectively, the "Senior Notes"). The Senior Notes were issued by Celanese U.S. ("Issuer") and are guaranteed by Celanese Corporation ("Parent Guarantor") and the Subsidiary Guarantors (collectively the "Obligor Group"). See Note 7 - Debt in the accompanying unaudited interim consolidated financial statements for further information. The Issuer and Subsidiary Guarantors are 100% owned subsidiaries of the Parent Guarantor. The Subsidiary Guarantors are listed in Exhibit 22.1 to this Quarterly Report.

The Parent Guarantor and the Subsidiary Guarantors have guaranteed the Senior Notes on a full and unconditional, joint and several, senior unsecured basis. The guarantees are subject to certain customary release provisions, including that a Subsidiary Guarantor will be released from its respective guarantee in specified circumstances, including (i) the sale or transfer of all of its assets or capital stock; (ii) its merger or consolidation with, or transfer of all or substantially all of its assets to, another person; or (iii) its ceasing to be a majority-owned subsidiary of the Issuer in connection with any sale of its capital stock or other transaction. Additionally, a Subsidiary Guarantor will be released from its guarantee of the Senior Notes at such time that it ceases to guarantee the Issuer's obligations under the existing U.S. Credit Facilities (subject to the satisfaction of customary document delivery requirements). The obligations of the Subsidiary Guarantors under their guarantees are limited as necessary to prevent such guarantees from constituting a fraudulent conveyance or fraudulent transfer under applicable law.

The Parent Guarantor and the Issuer are holding companies that conduct substantially all of their operations through their subsidiaries, which own substantially all of our consolidated assets. The Parent Guarantor holds the stock of its immediate 100% owned subsidiary, the Issuer, but has no material consolidated assets. The principal source of cash to pay the Parent Guarantor's and the Issuer's obligations, including obligations under the Senior Notes and the guarantee of the Issuer's obligations under the existing U.S. Credit Facilities, is the cash that our subsidiaries generate from their operations. Each of the Subsidiary Guarantors and our non-guarantor subsidiaries is a distinct legal entity and, under certain circumstances, applicable country or state laws, regulatory limitations and terms of other debt instruments may limit our subsidiaries' ability to distribute cash to the Issuer and the Parent Guarantor.

For cash management purposes, we transfer cash among the Parent Guarantor, Issuer, Subsidiary Guarantors and non-guarantors through intercompany financing arrangements, contributions or declaration of dividends between the respective parent and its subsidiaries. While the non-guarantor subsidiaries do not guarantee the Issuer's obligations under our outstanding debt, the transfer of cash under these activities facilitates the ability of the recipient to make specified third-party payments for principal and interest on the Senior Notes, the existing U.S. Credit Facilities, other outstanding debt, Common Stock dividends and Common Stock repurchases.

The summarized financial information of the Obligor Group is presented below on a combined basis after the elimination of: (i) intercompany transactions among such entities and (ii) equity in earnings from and investments in the non-guarantor subsidiaries. Transactions with, and amounts due to or from, non-guarantor subsidiaries and affiliates are separately disclosed.

	Six Months Ended June 30, 2026
	(In $ millions) (unaudited)
Net sales to third parties	874
Net sales to non-guarantor subsidiaries	143
Total net sales	1,017
Gross profit	(82)
Earnings (loss) from continuing operations	(346)
Net earnings (loss)	(348)
Net earnings (loss) attributable to the Obligor Group	(348)

	As of June 30, 2026	As of December 31, 2025
	(In $ millions) (unaudited)	
Receivables from non-guarantor subsidiaries	2,797	1,176
Other current assets	2,667	2,503

Total noncurrent assets	7,284	7,156
Current liabilities due to non-guarantor subsidiaries	10,641	8,384
Current liabilities due to affiliates	4	5
Other current liabilities	1,719	1,666
Total current liabilities	12,364	10,055
Noncurrent liabilities due to non-guarantor subsidiaries	2,320	1,810
Other noncurrent liabilities	11,190	11,784
Total noncurrent liabilities	13,510	13,594

Share Capital

On July 15, 2026, we declared a quarterly cash dividend of $0.03 per share on our Common Stock amounting to $3 million. The cash dividend will be paid on August 10, 2026 to holders of record as of July 28, 2026. As indicated above, as part of our deleveraging efforts, we reduced our quarterly dividend by approximately 95% beginning in the first quarter of 2025. We will continue to evaluate our dividend policy, taking into account our ability to return to a more balanced capital allocation strategy.

There have been no material changes to our share capital described in our 2025 Form 10-K other than those disclosed above and in Note 10 - Shareholders' Equity in the accompanying unaudited interim consolidated financial statements.

Contractual Obligations

We have not entered into any material off-balance sheet arrangements.

Except as otherwise described in this report, there have been no material revisions outside the ordinary course of business to our contractual obligations as described in our 2025 Form 10-K.

Tax Return Audits

Our tax returns for the years 2013 through 2015 have been subject to audit by the tax authorities in the United States, the Netherlands and Germany (collectively, the "Tax Authorities"). The Company and the Tax Authorities did not reach a joint resolution, and the audits proceeded on a jurisdiction by jurisdiction basis. We have concluded settlement discussions with the Dutch and German tax authorities related to transfer pricing matters for the applicable periods. During the first quarter of 2026, we reached a resolution with the U.S. Internal Revenue Service (the "IRS") with respect to joint audit matters, as well as certain

other transfer pricing issues for subsequent years through 2020. We expect to finalize the administrative resolution with the IRS prior to the end of 2026.

The audit by the U.S. tax authorities for the years 2016 through 2020 is in the data gathering phase. During the first quarter of 2025, we initiated settlement discussions with the German tax authorities regarding certain matters related to the audit for periods after 2007. In the second quarter of 2025, the Company concluded settlement discussions with respect to the 2008 through 2012 tax years. We will record the impacts of any additional audit settlements in income tax expense in the period in which such settlements are finalized. Based on information currently available, we do not expect any additional material impacts to the unaudited interim consolidated statements of operations.

As of June 30, 2026, we believe that an adequate provision for income taxes has been made for all open tax years related to the examinations by governmental authorities. However, the outcome of tax audits cannot be predicted with certainty. If any issues raised by the governmental authorities are resolved in a manner inconsistent with our expectations or we are unsuccessful in defending our positions, we could be required to adjust our provision for income taxes in the period such resolution occurs. If required, any such adjustments could be material to the statements of operations and cash flows in the period(s) recorded. See Note 11 - Income Taxes in the accompanying unaudited interim consolidated financial statements for further information.

Business Environment

During the three months ended June 30, 2026, demand in the Western Hemisphere was supported by sequential seasonal improvement but remained overall muted in key end markets, including automotive, paints and coatings and construction, reflecting ongoing global macroeconomic weakness. Supply chain dislocations drove raw material and energy inflation, resulting in price escalation across the value chain particularly in Europe. We continue to identify and execute actions that aim to improve earnings, accelerate deleveraging and drive long-term shareholder value.

Critical Accounting Policies and Estimates

Our unaudited interim consolidated financial statements are based on the selection and application of significant accounting policies. The preparation of unaudited interim consolidated financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the unaudited interim consolidated financial statements and the reported amounts of Net sales, expenses and allocated charges during the reporting period. Actual results could differ from those estimates. However, we are not currently aware of any reasonably likely events or circumstances that would result in materially different results.

We describe our significant accounting policies in Note 2 - Summary of Accounting Policies, of the Notes to the Consolidated Financial Statements included in our 2025 Form 10-K. We discuss our critical accounting policies and estimates in MD&A in our 2025 Form 10-K.

Recent Accounting Pronouncements

See Note 2 - Recent Accounting Pronouncements in the accompanying unaudited interim consolidated financial statements included in this Quarterly Report for information regarding recent accounting pronouncements.

Item 3. *Quantitative and Qualitative Disclosures about Market Risk*

Market risk for the Company has not changed materially from the foreign exchange, interest rate and commodity risks disclosed in Item 7A. Quantitative and Qualitative Disclosures about Market Risk in our 2025 Form 10-K. See also Note 12 - Derivative Financial Instruments in the accompanying unaudited interim consolidated financial statements for further discussion of our market risk management and the related impact on the Company's financial position and results of operations.

Item 4. ***Controls and Procedures***

Disclosure Controls and Procedures

Under the supervision and with the participation of our management, including the Chief Executive Officer and Chief Financial Officer, we have evaluated the effectiveness of our disclosure controls and procedures pursuant to Rule 13a-15(b) under the Securities Exchange Act of 1934, as amended, as of the end of the period covered by this report. Based on that evaluation, as of June 30, 2026, the Chief Executive Officer and Chief Financial Officer have concluded that our disclosure controls and procedures are effective.

Changes in Internal Control Over Financial Reporting

During the period covered by this report, there were no changes in our internal control over financial reporting that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II — OTHER INFORMATION

Item 1. ***Legal Proceedings***

The Company is involved in legal and regulatory proceedings, lawsuits, claims and investigations incidental to the normal conduct of its business, relating to such matters as product liability, land disputes, insurance coverage disputes, contracts, employment, antitrust and competition, intellectual property, personal injury, toxic tort, public nuisance and other actions in tort, workers' compensation, chemical exposure, asbestos exposure, taxes, trade compliance, acquisitions and divestitures, claims of current and legacy shareholders, past waste disposal practices and release of chemicals into the environment. The Company is actively defending those matters where it is named as a defendant. Due to the inherent subjectivity of assessments and unpredictability of outcomes of legal proceedings, the Company's litigation accruals and estimates of possible loss or range of possible loss may not represent the ultimate loss to the Company from legal proceedings. See Note 9 - Environmental and Note 14 - Commitments and Contingencies in the accompanying unaudited interim consolidated financial statements for a discussion of material environmental matters and material commitments and contingencies related to legal and regulatory proceedings. There have been no significant developments in the "Legal Proceedings" described in our 2025 Form 10-K other than those disclosed in Note 9 - Environmental and Note 14 - Commitments and Contingencies in the accompanying unaudited interim consolidated financial statements. See *Part I - Item 1A. Risk Factors* of our 2025 Form 10-K for certain risk factors relating to these legal proceedings.

Item 1A. ***Risk Factors***

In addition to the information in this Quarterly Report, readers should carefully consider the information in *Part I, Item 1A. Risk Factors* of our 2025 Form 10-K.

Item 2. ***Unregistered Sales of Equity Securities and Use of Proceeds***

We did not repurchase any Common Stock during the three months ended June 30, 2026. As of June 30, 2026, our Board of Directors had authorized the repurchase of $6.9 billion of our Common Stock since February 2008, with approximately $1.1 billion value of shares remaining that may be purchased under the program. See Note 10 - Shareholders' Equity in the accompanying unaudited interim consolidated financial statements for further information.

Item 3. ***Defaults Upon Senior Securities***

None.

Item 4. ***Mine Safety Disclosures***

None.

Item 5. ***Other Information***

(c) Trading Plans

During the quarter ended June 30, 2026, no director or Section 16 officer adopted or terminated any Rule 10b5-1 trading plans or "non-Rule 10b5-1 trading arrangements" as defined in Item 408 of Regulation S-K.

Item 6. ***Exhibits***[(1)]

Exhibit Number	Description
3.1	Restated Certificate of Incorporation of Celanese Corporation, effective May 15, 2025 (incorporated by reference to Exhibit 3.3 to the Current Report on Form 8-K filed with the SEC on May 16, 2025).
3.2	Amended and Restated By-laws of Celanese Corporation, effective May 15, 2025 (incorporated by reference to Exhibit 3.4 to the Current Report on Form 8-K filed with the SEC on May 16, 2025).

104	The cover page from the Company's Quarterly Report on Form 10-Q for the quarter ended June 30, 2026 has been formatted in Inline XBRL.

* Filed herewith.
‡ Indicates a management contract or compensatory plan or arrangement.

(1) The Company and its subsidiaries have in the past issued, and may in the future issue from time to time, long-term debt. The Company may not file with the applicable report copies of the instruments defining the rights of holders of long-term debt to the extent that the aggregate principal amount of the debt instruments of any one series of such debt instruments for which the instruments have not been filed has not exceeded or will not exceed 10% of the assets of the Company at any pertinent time. The Company hereby agrees to furnish a copy of any such instrument(s) to the SEC upon request.
