Item 6.	Exhibits.	41

Forward-Looking Statements

This Quarterly Report on Form 10-Q contains "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended (the "Exchange Act"), and are subject to the safe harbor created thereby under the Private Securities Litigation Reform Act of 1995. All statements, other than statements of historical or current fact, included in this Form 10-Q are forward-looking statements. Forward-looking statements reflect our current expectations and projections relating to our financial condition, results of operations, plans, objectives, future performance and business. These statements can be identified by the use of forward-looking words, such as "anticipate," "estimate," "expect," "project," "plan," "intend," "believe," "may," "will," "should," "can have," "future," "likely" and other words and terms of similar meaning (including their negative counterparts or other various or comparable terminology). For example, all statements we make relating to: our plans and objectives for future operations, growth results or initiatives, strategies, plans for enhancing shareholder value, pending acquisitions, our expected amount of capital expenditures and pension contributions for fiscal 2025, our expected effective tax rate for fiscal 2025, our future management of our fixed rate and variable rate long-term debt, the financial impact of any foreign jurisdiction's adoption of minimum effective tax rates as established by the Organization for Economic Co-operation and Development's Pillar Two Framework, the amount of future dividend payments in fiscal 2025 and beyond or the expected outcome or impact of pending or threatened litigation are forward-looking statements. All forward-looking statements are subject to risks and uncertainties that may cause actual results to differ materially from those that we expected, including:

- the cyclical nature of our business and general macroeconomic conditions;
- increased competition with respect to our business, including with respect to our material handling and precision conveyance products;
- our ability to successfully integrate our acquisitions;
- price fluctuations and trade tariffs on steel, aluminum, and other raw materials purchased to manufacture our products and our ability to pass on price increases to our customers;
- the scarcity or unavailability of the raw materials and critical components we use to manufacture our products and the impact of such scarcity or unavailability on our ability to operate our business;
- our ability to successfully manage our backlog;
- our ability to maintain relationships with the independent distributors we use to sell our products;
- our ability to continue to attract, develop, engage, and retain qualified employees;
- our ability to understand our customers' specific preferences and requirements, and to develop, manufacture and market products that meet customer demand as we expand into additional international markets;
- our ability to manage our indebtedness, including compliance with debt covenant restrictions in our Term Loan B, AR Securitization Facility and our Amended and Restated Revolving Credit Facility (each as defined herein);
- our ability to manage the risks of conducting operations outside of the United States, including currency fluctuations, trade barriers, labor unrest, geopolitical conflicts, more stringent labor regulation, tariffs, political and economic instability and governmental expropriation;
- potential product liability, as our products involve risks of personal injury and property damage;
- compliance with federal, state and local environmental protection laws, including regulatory measures meant to address climate change, which may be burdensome and lower our margins;
- our ability to adequately protect our intellectual property and refrain from infringing on the intellectual property of others;
- our ability to adequately manage and rely on our subcontractors and suppliers;
- our ability to adequately protect our information technology systems from cyberattacks or other interruptions;
- our ability to comply with the U.S. Foreign Corrupt Practices Act and other anti-corruption laws;
- our ability to retain key members of our management team; and
- the volatility of our common stock.

While we believe that the forward-looking statements in this Form 10-Q are reasonable, we caution that it is very difficult to predict the effect of known factors, and, it is impossible for us to anticipate all factors that could affect our actual results. Important factors that could cause actual results to differ materially from our expectations are disclosed under the sections entitled "Risk Factors" and "Management's Discussion and Analysis of Financial Condition and Results of Operations" in this Form 10-Q. All written and oral forward-looking statements attributable to us, or persons acting on our behalf, are expressly qualified in their entirety by the cautionary statements as well as other cautionary statements that are made from time to time in our other filings with the SEC and public communications. You should evaluate all forward-looking statements made in this Form 10-Q in the context of these risks and uncertainties.

We caution you that the important factors referenced above may not contain all of the factors that are important to you. In addition, we cannot assure you that we will realize the results or developments we expect or anticipate or, even if substantially

realized, that they will result in the outcomes or affect us or our operations in the way we expect. The forward-looking statements included in this Form 10-Q are made only as of the date hereof and are based on our current expectations. We undertake no obligation to publicly update or revise any forward-looking statement as a result of new information, future events or otherwise except to the extent required by applicable law.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(UNAUDITED)
December 31, 2024

1. Description of Business

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with U.S. generally accepted accounting principles ("U.S. GAAP") for interim financial information. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation of the financial position of Columbus McKinnon Corporation ("the Company") at December 31, 2024, the results of its operations for the three and nine months ended December 31, 2024 and December 31, 2023, and cash flows for the nine months ended December 31, 2024 and December 31, 2023, have been included. Results for the period ended December 31, 2024 are not necessarily indicative of the results that may be expected for the fiscal year ending March 31, 2025. The balance sheet at March 31, 2024 has been derived from the audited consolidated financial statements at that date but does not include all of the information and footnotes required by U.S. GAAP for complete financial statements. For further information, refer to the consolidated financial statements and footnotes thereto included in the Columbus McKinnon Corporation Annual Report on Form 10-K for the fiscal year ended March 31, 2024 (the "2024 10-K").

The Company is a leading worldwide designer, manufacturer, and marketer of intelligent motion solutions that efficiently and ergonomically move, lift, position, and secure materials. Key products include hoists, crane components, precision conveyor systems, accumulation tables, rigging tools, light rail workstations, and digital power and motion control systems. The Company is focused on commercial and industrial applications that require the safety and quality provided by its superior design and engineering know-how.

The Company's products are sold globally, principally to third party distributors and crane builders through diverse distribution channels, and to a lesser extent directly to end-users and integrators. During the three and nine months ended December 31, 2024, sales to customers in the United States were approximately 55% and 56% of total net sales.

2. Acquisitions & Disposals

On May 31, 2023, the Company completed its acquisition of montratec GmbH ("montratec") for $115,721,000 including $7,576,000 in cash acquired, a $540,000 working capital settlement, and a contingent payment of $6,680,000 that was earned based on montratec achieving a certain EBITDA level for the twelve-month period ended December 31, 2023. During the nine months ended December 31, 2024, the Company paid the contingent payment of $6,711,000 to montratec's previous owners. The difference between the originally recorded liability of $6,680,000 and the amount paid is the result of a change in the foreign currency rate at the time of payment as compared to the opening balance sheet rate. The Company initially financed the acquisition by borrowing $117,000,000 on its Amended and Restated Revolving Credit Facility, but later repaid the amount borrowed under the Amended and Restated Revolving Credit Facility by borrowing an additional $120,000,000. Utilizing the Accordion feature under the Company's existing Term Loan B facility ("Term Loan B"), the Company borrowed $75,000,000 and another $45,000,000 was borrowed through a new credit agreement secured by its U.S. accounts receivable balances. Refer to Note 9 for additional details on the Company's debt agreements.

montratec is a leading automation solutions company that designs and develops intelligent automation and transport systems for interlinking industrial production and logistics processes. montratec's product offerings complement the Company's previous acquisitions of both Dorner Mfg. Corp. ("Dorner") and Garvey Corporation ("Garvey"), and furthers the Company's shift to intelligent motion and serves as a platform to expand capabilities in advanced, higher technology automation solutions. As the Company determined that the acquisition is not material to its existing operations, certain disclosures, including pro forma financial information, have not been included. montratec's results have been included in the Company's results of operations from the acquisition date and the Company incurred $113,000 and $3,208,000 of acquisition and deal related costs classified as part of General and administrative expenses in the three and nine months ended December 31, 2023, respectively.

The purchase price has been allocated to the assets acquired and liabilities assumed as of the date of acquisition. The excess consideration of $66,566,000 has been recorded as goodwill. The identifiable intangible assets acquired include customer relationships valued at $33,470,000, a trade name valued at $2,915,000, and technology valued at $16,196,000. The weighted average life of the acquired identifiable intangible assets subject to amortization was estimated at 14 years at the time of acquisition. Of the $66,566,000 goodwill recorded from the acquisition, $7,531,000 is deductible for tax purposes.

The assignment of purchase consideration to the assets acquired and liabilities assumed is as follows (in thousands):

Cash	$	7,576
Working capital		4,523
Property, plant, and equipment, net		2,157
Intangible assets		52,581
Contingent liability (*see above)*		(6,680)
Other assets		7,239
Other non current liabilities		(18,241)
Goodwill		66,566
Total	$	115,721

On July 31, 2024 the Company announced that it would relocate its North American linear motion operations from Charlotte, North Carolina ("Charlotte Manufacturing Operations") to its manufacturing facility in Monterrey, Mexico. The Company recorded $3,567,000 in fixed asset impairment costs and inventory obsolescence, $3,268,000 in Right of Use lease asset impairment costs and $1,093,000 in employee related severance and retention costs during the nine months ended December 31, 2024, and immaterial costs were incurred during the three months ended December 31, 2024 in the Condensed Consolidated Statements of Operations. In total, $7,855,000 of these costs were included in Cost of products sold, $22,000 were included in Selling expenses, and $51,000 were included in General and administrative expenses.

On February 5, 2025, the Company announced that it would be relocating one of its Precision Conveyance businesses in the U.S. into a sole manufacturing facility in Hartland, Wisconsin. Further, the Company will also be consolidating its LATAM Precision Conveyance Business into to its manufacturing facilities in both Hartland, Wisconsin and Monterrey, Mexico. The Company expects to incur approximately $1,500,000 to $2,500,000 in asset related impairment costs, $700,000 to $1,000,000 in employee related severance and retention costs, and up to $1,000,000 in other costs.

On February 10, 2025, the Company announced entry into a definitive purchase agreement under which the Company will acquire Kito Crosby Limited (“Kito Crosby”) from leading global investment firm KKR in an all-cash transaction valued at $2,700,000,000 subject to customary post-closing purchase price adjustments and regulatory approval. Kito Crosby is a global leader in lifting solutions with multiple manufacturing assembly plants and nearly 4,000 employees serving over 50 countries. In 2024, Kito Crosby generated approximately $1,100,000,000 in revenue through its extensive global channel partner network. Together the combined company will be a leader in material handling solutions with greater scale and a strong presence in attractive verticals and target geographies, delivering exceptional innovation and products to customers.

The transaction has been approved by the Board of Directors of Columbus McKinnon. Columbus McKinnon intends to fund the acquisition through a combination of committed debt financing of $2,600,000,000 from J.P. Morgan Securities, LLC and a $800,000,000 of perpetual convertible preferred equity investment from Clayton, Dubliner & Rice (“CD&R”). Terms of the CD&R investment include a 7% coupon, payable in cash or payment-in-kind at Columbus McKinnon’s option, and a conversion price of $37.68, resulting in CD&R as-converted ownership of approximately 40% of the Company following completion of the transaction. CD&R has agreed to a customary lock-up on its shares.

3. Revenue & Receivables

Revenue Recognition:

Performance obligations

The Company has contracts with customers for standard products and custom engineered products and determines when and how to recognize revenue for each performance obligation based on the nature and type of contract.

Revenue from contracts with customers for standard products is recognized when legal title and significant risk and rewards has transferred to the customer, which is generally at the time of shipment. This is the point in time when control is deemed to transfer to the customer. The Company sells standard products to customers utilizing purchase orders. Payment terms for these types of contracts generally require payment within 30 to 60 days. Each standard product is deemed to be a single performance obligation and the amount of revenue recognized is based on the negotiated price. The transaction price for standard products is based on the price reflected in each purchase order. Sales incentives are offered to customers who purchase standard products and include offers such as volume-based discounts, rebates for priority customers, and discounts for early cash payments. These

sales incentives are accounted for as variable consideration included in the transaction price. Accordingly, the Company reduces revenue for these incentives in the period which the sale occurs and is based on the most likely amount method for estimating the amount of consideration the Company expects to receive. These sales incentive estimates are updated each reporting period as additional information becomes available.

The Company also sells custom engineered products and services, which are contracts that are typically completed within one quarter but can extend beyond one year in duration. For custom engineered products, the transaction price is based upon the price stated in the contract. Variable consideration has not been identified as a significant component of transaction price for custom engineered products and services. The Company generally recognizes revenue for custom engineered products upon satisfaction of its performance obligation under the contract which typically coincides with project completion which is when the products and services are controlled by the customer. Control is typically achieved at the later of when legal title and significant risk and rewards have transferred to the customer or the customer has accepted the asset. These contracts often require either up front or installment payments. These types of contracts are generally accounted for as one performance obligation as the products and services are not separately identifiable. The promised services (such as inspection, commissioning, and installation) are essential in order for the delivered product to operate as intended on the customer's site and the services are therefore highly interrelated with product functionality.

For most custom engineered products contracts, the Company determined that while there is no alternative use for the custom engineered products, the Company does not have an enforceable right to payment (which must include a reasonable profit margin) for performance completed to date in order to meet the over time revenue recognition criteria. Therefore, revenue is recognized at a point in time (when the contract is complete). For custom engineered products contracts that contain an enforceable right to payment (including reasonable profit margin) the Company satisfies the performance obligation over time and recognizes revenue based on the extent of progress towards completion of the performance obligation. The cost-to-cost measure of progress is an appropriate measure of progress toward satisfaction of performance obligations as this measure most accurately depicts the progress of work performed and transfer of control to the customers. Under the cost-to-cost measure of progress, the extent of progress toward completion is measured based on the ratio of costs incurred to date to the total estimated costs at completion of the performance obligation. Revenues are recognized proportionally as costs are incurred.

Sales and other taxes collected with revenue are excluded from revenue. Shipping and handling costs incurred prior to shipment are considered activities required to fulfill the Company's promise to transfer goods, and do not qualify as a separate performance obligation. Additionally, the Company offers standard warranties which are typically 12 months in duration for standard products and 24 to 36 months for custom engineered products. These types of warranties are included in the purchase price of the product and are deemed to be assurance-type warranties which are not accounted for as a separate performance obligation. Other performance obligations included in a contract (such as drawings, owner's manuals, and training services) are immaterial in the context of the contract and are not recognized as a separate performance obligation.

For additional information on the Company's revenue recognition policy refer to the consolidated financial statements included in the 2024 10-K.

Reconciliation of contract balances

The Company records a contract liability when cash is received prior to recording revenue. Some standard contracts require a down payment while most custom engineered contracts require installment payments. Installment payments for the custom engineered contracts typically require a portion due at inception while the remaining payments are due upon completion of certain performance milestones. For both types of contracts, these contract liabilities, referred to as customer advances, are recorded at the time payment is received and are included in Accrued liabilities on the Condensed Consolidated Balance Sheets. When the related performance obligation is satisfied and revenue is recognized, the contract liability is released into income.

The following table illustrates the balance and related activity for customer advances in the nine months ended December 31, 2024 and December 31, 2023 (in thousands):

Customer advances (contract liabilities)	December 31, 2024	December 31, 2023
March 31, beginning balance	$ 16,588	$ 27,003
Additional customer advances received	30,905	69,188
Revenue recognized from customer advances included in beginning of period	(16,588)	(27,003)
Other revenue recognized from customer advances	(14,989)	(47,055)
Customer advances recorded from acquisitions	—	3,866
Other (1)	(411)	284
December 31, ending balance	$ 15,505	$ 26,283

(1) Other includes the impact of foreign currency translation

Revenue was recognized prior to the right to invoice the customer which resulted in a contract asset balance in the amount of $13,924,000 and $2,541,000 as of December 31, 2024 and March 31, 2024, respectively. Contract assets are included in Prepaid expenses and other assets on the Condensed Consolidated Balance Sheets.

Remaining Performance Obligations

As of December 31, 2024, the aggregate amount of the transaction price allocated to the performance obligations that are unsatisfied (or partially unsatisfied) was approximately $45,223,000. We expect to recognize approximately 60% of these sales over the next twelve months.

Disaggregated revenue

In accordance with FASB ASC Topic 606, the Company is required to disaggregate revenue into categories that depict how economic factors affect the nature, amount, timing and uncertainty of revenue and cash flows.
The following table illustrates the disaggregation of revenue by product grouping for the three and nine months ended December 31, 2024 and December 31, 2023 (in thousands):

	Three Months Ended		Nine Months Ended	
Net Sales by Product Grouping	December 31, 2024	December 31, 2023	December 31, 2024	December 31, 2023
Industrial Products	$ 77,608	$ 83,033	$ 242,777	$ 253,925
Crane Solutions	98,856	103,775	299,057	303,746
Engineered Products	20,648	22,710	62,221	70,895
Precision Conveyor Products	36,998	44,588	111,967	119,379
All other	28	37	116	91
Total	$ 234,138	$ 254,143	$ 716,138	$ 748,036

Industrial products include: manual chain hoists, electrical chain hoists, rigging/clamps, industrial winches, hooks, shackles, and other forged attachments. Crane solutions products include: wire rope hoists, drives and controls, crane kits and components, and workstations. Engineered products include: linear and mechanical actuators, lifting tables, rail projects, and actuation systems. Precision conveyor products include: low profile, flexible chain, large scale, sanitary and vertical elevation conveyor systems, pallet system conveyors, accumulation systems, asynchronous conveyors as well as other high-precision conveyance systems. The All other product grouping includes miscellaneous revenue.

Practical expedients

Incremental costs to obtain a contract incurred by the Company primarily relate to sales commissions for contracts with a duration of one year or less. Therefore, these costs are expensed as incurred and are recorded in Selling expenses on the Condensed Consolidated Statements of Operations.

Unsatisfied performance obligations for contracts with an expected length of one year or less are not disclosed. Further, revenue from contracts with customers do not include a significant financing component as payment is generally expected within one year from when the performance obligation is controlled by the customer.

Accounts Receivable:

Under Accounting Standard Update ("ASU") 2016-13, the Company is required to remeasure expected credit losses for financial instruments held at the reporting date based on historical experience, current conditions and reasonable forecasts. In addition to these factors, the Company establishes an allowance for doubtful accounts based upon the credit risk of specific customers, historical trends, and other factors. Accounts receivable are charged against the allowance for doubtful accounts once all collection efforts have been exhausted. Due to the short-term nature of such accounts receivable, the estimated amount of accounts receivable that may not be collected is based on aging of the accounts receivable balances.

The following table illustrates the balance and related activity for the allowance for doubtful accounts as of December 31, 2024 and December 31, 2023 that is deducted from accounts receivable to present the net amount expected to be collected (in thousands):

Allowance for doubtful accounts	**December 31, 2024**	**December 31, 2023**
March 31, beginning balance	$ 3,827	$ 3,620
Bad debt expense	3,020	2,727
Less uncollectible accounts written off, net of recoveries	(1,883)	(2,490)
Allowance recorded from acquisitions	—	64
Other (1)	(134)	34
December 31, ending balance	$ 4,830	$ 3,955

(1) Other includes the impact of foreign currency translation

4. Fair Value Measurements

FASB ASC Topic 820 “Fair Value Measurements and Disclosures” establishes the standards for reporting financial assets and liabilities and nonfinancial assets and liabilities that are recognized or disclosed at fair value on a recurring basis (at least annually). Under these standards, fair value is defined as the price that would be received to sell an asset or paid to transfer a liability (i.e. the "exit price") in an orderly transaction between market participants at the measurement date.

ASC 820-10-35-37 establishes a hierarchy for inputs used in measuring fair value that maximizes the use of observable inputs and minimizes the use of unobservable inputs by requiring that the most observable inputs be used when available. Observable inputs are inputs that market participants would use in pricing the asset or liability developed based on market data obtained from sources independent of the Company. Unobservable inputs are inputs that reflect the Company's assumptions about the valuation techniques that market participants would use in pricing the asset or liability developed based on the best information available in the circumstances. The hierarchy is separated into three levels based on the reliability of inputs as follows:

Level 1 - Valuations based on quoted prices in active markets for identical assets or liabilities that the Company has the ability to access. Since valuations are based on quoted prices that are readily and regularly available in an active market, valuation of these products does not entail a significant degree of judgment.

Level 2 - Valuations based on quoted prices in markets that are not active or for which all significant inputs are observable, either directly or indirectly, involving some degree of judgment.

Level 3 - Valuations based on inputs that are unobservable and significant to the overall fair value measurement. The degree of judgment exercised in determining fair value is greatest for instruments categorized in Level 3.

The availability of observable inputs can vary and is affected by a wide variety of factors, including the type of asset/liability, whether the asset/liability is established in the marketplace, and other characteristics particular to the transaction. To the extent that valuation is based on models or inputs that are less observable or unobservable in the market, the determination of fair value requires more judgment. In certain cases, the inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, for disclosure purposes the level in the fair value hierarchy within which the fair value measurement in its entirety falls is determined based on the lowest level input that is significant to the fair value measurement in its entirety.

Fair value is a market-based measure considered from the perspective of a market participant rather than an entity-specific measure. Therefore, even when market assumptions are not readily available, assumptions are required to reflect those that market participants would use in pricing the asset or liability at the measurement date.

The Company uses quoted market prices when valuing its marketable securities and, consequently, the fair value is based on Level 1 inputs. These marketable securities consist of equity and fixed income securities. The Company's terminated pension assets consist of money market funds which are valued using quoted market prices, and consequently, the fair value is based on Level 1 inputs. Refer to Note 10 for additional information regarding the Company's terminated pension plan. The Company primarily uses readily observable market data in conjunction with internally developed discounted cash flow valuation models when valuing its derivative portfolio and, consequently, the fair value of the Company’s derivatives is based on Level 2 inputs. The carrying amount of the Company's pension-related annuity contract is recorded at net asset value of the contract and, consequently, its fair value is based on Level 2 inputs and is included in Other assets on the Condensed Consolidated Balance Sheets. The carrying value of the Company’s Term Loan B approximates fair value based on current market interest rates for debt instruments of similar credit standing and, consequently, their fair values are based on Level 2 inputs.

The following tables provide information regarding financial assets and liabilities measured or disclosed at fair value (in thousands):

		Fair value measurements at reporting date using		
Description	December 31, 2024	Quoted prices in active markets for identical assets (Level 1)	Significant other observable inputs (Level 2)	Significant unobservable inputs (Level 3)
Assets/(Liabilities) measured at fair value:				
Marketable securities	$ 10,565	$ 10,565	$ —	$ —
Annuity contract	1,217	—	1,217	—
Terminated pension plan assets	6,733	6,733		
Derivative Assets (Liabilities):				
Foreign exchange contracts	(236)	—	(236)	—
Interest rate swap	2,141	—	2,141	—
Cross currency swap	717	—	717	—
Disclosed at fair value:				
Term Loan B	$ (445,879)	$ —	$ (445,879)	$ —
AR Securitization Facility	$ (35,000)	$ —	$ (35,000)	$ —

Description	March 31, 2024	Fair value measurements at reporting date using: Quoted prices in active markets for identical assets (Level 1)	Significant other observable inputs (Level 2)	Significant unobservable inputs (Level 3)
Assets/(Liabilities) measured at fair value:				
Marketable securities	$ 11,447	$ 11,447	$ —	$ —
Annuity contract	1,390	—	1,390	—
Derivative assets (liabilities):				
Foreign exchange contracts	(77)	—	(77)	—
Interest rate swap	7,122	—	7,122	—
Cross currency swap	(2,342)	—	(2,342)	—
Disclosed at fair value:			—	
Term Loan B	$ (479,351)	$ —	$ (479,351)	$ —
AR Securitization Facility	$ (45,000)	$ —	$ (45,000)	$ —

The Company does not have any non-financial assets and liabilities that are recognized at fair value on a recurring basis. At December 31, 2024, the Term Loan B has been recorded at carrying value, which approximates fair value. In fiscal 2024, the Company borrowed an additional $45,000,000 under a new credit agreement secured by the Company's U.S. accounts receivable balances (the "AR Securitization Facility"). The balance of the AR Securitization Facility is $35,000,000 at December 31, 2024. The AR Securitization Facility has been recorded at carrying value which approximates fair value. Refer to Note 9 for additional information regarding the Company's long-term debt.

Market gains, interest, and dividend income on marketable securities are recorded in Investment (income) loss on the Condensed Consolidated Statements of Operations. Changes in the fair value of derivatives are recorded in foreign currency exchange (gain) loss or other comprehensive income (loss), to the extent that the derivative qualifies as a hedge under the provisions of FASB ASC Topic 815. Interest and dividend income on marketable securities are measured based upon amounts earned on their respective declaration dates.

There were no assets and liabilities preliminarily recorded at fair value on a non-recurring basis during the nine months ended December 31, 2024.

Refer to the 2024 10-K for a full description of the assets and liabilities measured on a non-recurring basis that are included in the Company's March 31, 2024 balance sheet.

5. Inventories

Inventories consisted of the following (in thousands):

	December 31, 2024	March 31, 2024
At cost - FIFO basis:		
Raw materials	$ 167,758	$ 151,031
Work-in-process	26,271	26,669
Finished goods	39,409	40,554
Total at cost FIFO basis	233,438	218,254
LIFO cost less than FIFO cost	(32,751)	(32,163)
Net inventories	$ 200,687	$ 186,091

An actual valuation of inventory under the LIFO method can be made only at the end of each year based on the inventory levels and costs at that time. Accordingly, interim LIFO calculations must necessarily be based on management's estimates of

expected year-end inventory levels and costs. Because these are subject to many factors beyond management's control, estimated interim results are subject to change in the final year-end LIFO inventory valuation.

6. Marketable Securities and Other Investments

In accordance with ASU 2016-01, “Financial Instruments - Overall (Subtopic 825-10): Recognition and Measurement of Financial Assets and Financial Liabilities,” all equity investments in unconsolidated entities (other than those accounted for using the equity method of accounting) are measured at fair value through earnings. The Company's marketable securities are recorded at their fair value, with unrealized changes in market value realized within Investment (income) loss on the Condensed Consolidated Statements of Operations. The impact on earnings for unrealized gains and losses was a loss of $349,000 and a gain of $660,000 in the three months ended December 31, 2024 and December 31, 2023, respectively, and a loss of $113,000 and a gain of $390,000 in the nine months ended December 31, 2024 and December 31, 2023, respectively.

Consistent with prior periods, the estimated fair value is based on quoted market prices at the balance sheet dates. The cost of securities sold is based on the specific identification method. Interest and dividend income are included in Investment (income) loss in the Condensed Consolidated Statements of Operations.

Marketable securities are carried as long-term assets since they are held for the settlement of the Company’s general and product liability insurance claims filed through CM Insurance Company, Inc. ("CMIC"), the Company's a wholly-owned captive insurance subsidiary. The marketable securities are not available for general working capital purposes.

Net realized gains related to sales of marketable securities were $217,000 in the three months ended December 31, 2024 and $275,000 in the nine months ended December 31, 2024 and were not material in the three and nine months ended December 31, 2023.

The Company owns a 49% ownership interest in Eastern Morris Cranes Company Limited ("EMC"), a limited liability company organized and existing under the laws and regulations of the Kingdom of Saudi Arabia. The Company's ownership represents an equity investment in a strategic customer of Stahl Cranesystems GmbH ("STAHL") serving the Kingdom of Saudi Arabia. The investment's carrying value is presented in Other assets in the Condensed Consolidated Balance Sheets in the amount of $3,676,000 and $3,377,000 at December 31, 2024 and March 31, 2024, respectively, and has been accounted for as an equity method investment. The investment value increased for the Company's ownership percentage of income earned by EMC in the amount of $99,000 and $5,000 in the three months ended December 31, 2024 and December 31, 2023, respectively, and increased by $436,000 and $589,000 in the nine months ended December 31, 2024 and December 31, 2023, respectively, recorded in Investment (income) loss on the Condensed Consolidated Statements of Operations. The December 31, 2024 and March 31, 2024 trade accounts receivable balances due from EMC were $9,500,000 and $10,300,000, respectively, and are comprised of amounts due from the sale of goods and services in the ordinary course of business.

7. Goodwill and Intangible Assets

Goodwill and indefinite lived trademarks are not amortized but are tested for impairment at least annually, in accordance with the provisions of ASC Topic 350-20-35-1. Goodwill impairment is deemed to exist if the net book value of a reporting unit exceeds its estimated fair value. The fair value of a reporting unit is determined using a discounted cash flow methodology. The Company’s reporting units are determined based upon whether discrete financial information is available and reviewed regularly, whether those units constitute a business, and the extent of economic similarities between those reporting units for purposes of aggregation. The Company’s reporting units identified under ASC Topic 350-20-35-33 are at the component level, or one level below the operating segment level as defined under ASC Topic 280-10-50-10 “Segment Reporting - Disclosure.” The Company has three reporting units as of December 31, 2024 and March 31, 2024. The Linear Motion Products reporting unit (formerly referred to as Duff-Norton) (which designs, manufactures and sources mechanical and electromechanical actuators and rotary unions) had goodwill of $9,699,000 at December 31, 2024 and March 31, 2024. The Rest of Products reporting unit (representing the hoist, chain, forgings, digital power, motion control, manufacturing, and distribution businesses) had goodwill of $297,709,000 and $304,760,000 at December 31, 2024 and March 31, 2024, respectively. The Precision Conveyance reporting unit (which represents high-precision conveying systems) had goodwill of $393,142,000 and $395,875,000 at December 31, 2024 and March 31, 2024, respectively. The goodwill associated with the fiscal 2024 acquisition of montratec, as described in Note 2, is included in the Precision Conveyance reporting unit.

Refer to the 2024 10-K for information regarding our annual goodwill and indefinite lived trademark impairment evaluation. Future impairment indicators, such as declines in forecasted cash flows, may cause impairment charges. Impairment charges could be based on such factors as the Company’s stock price, forecasted cash flows, assumptions used, control premiums or other variables. There were no such indicators during the nine months ended December 31, 2024.

A summary of changes in goodwill during the nine months ended December 31, 2024 is as follows (in thousands):

Balance at April 1, 2024	$ 710,334
Currency translation	(9,784)
Balance at December 31, 2024	$ 700,550

Goodwill is recognized net of accumulated impairment losses of $113,174,000 as of December 31, 2024 and March 31, 2024, respectively.

Identifiable intangible assets acquired in a business combination are amortized over their estimated useful lives. Identifiable intangible assets are summarized as follows (in thousands):

	December 31, 2024			March 31, 2024		
	Gross Carrying Amount	Accumulated Amortization	Net	Gross Carrying Amount	Accumulated Amortization	Net
Trademark	$ 22,445	$ (8,982)	$ 13,463	$ 22,404	$ (7,903)	$ 14,501
Indefinite lived trademark	45,504	—	45,504	46,254	—	46,254
Customer relationships	348,696	(121,428)	227,268	355,489	(108,688)	246,801
Acquired technology	111,698	(40,579)	71,119	112,467	(35,152)	77,315
Other	3,915	(3,119)	796	3,748	(2,985)	763
Total	$ 532,258	$ (174,108)	$ 358,150	$ 540,362	$ (154,728)	$ 385,634

The Company's intangible assets that are considered to have finite lives are amortized. The weighted-average amortization periods are 13 years for trademarks, 17 years for customer relationships, 16 years for acquired technology, 6 years for other, and 16 years in total. Trademarks with a carrying value of $45,504,000 as of December 31, 2024 have an indefinite useful life and are therefore not being amortized.

Total amortization expense was $7,501,000 and $7,486,000 for the three months ended December 31, 2024 and 2023, respectively. Total amortization expense was $22,548,000 and $21,871,000 for the nine months ended December 31, 2024 and 2023, respectively. Based on the current amount of identifiable intangible assets and current exchange rates, the estimated annual amortization expense for each of the succeeding five years is expected to be approximately $30,000,000.

8. Derivative Instruments

The Company uses derivative instruments to manage selected foreign currency and interest rate exposures. The Company does not use derivative instruments for speculative trading purposes. All derivative instruments must be recorded on the balance sheet at fair value. For derivatives designated as cash flow hedges, changes in the fair value of the derivative is recorded as accumulated other comprehensive loss, or "AOCL," and is reclassified to earnings when the underlying transaction has an impact on earnings. For foreign currency derivatives not designated as cash flow hedges, all changes in market value are recorded as a foreign currency exchange loss (gain) in the Company's Consolidated Statements of Operations. The cash flow effects of derivatives are reported within net cash (used for) provided by operating activities on the Condensed Consolidated Statements of Cash Flows.

The Company is exposed to credit losses in the event of non-performance by the counterparties on its financial instruments. The counterparties have investment grade credit ratings. The Company anticipates that these counterparties will be able to fully satisfy their obligations under the contracts.

The Company's agreements with its counterparties contain provisions pursuant to which the Company could be declared in default of its derivative obligations. As of December 31, 2024, the Company had not posted any collateral related to these agreements. If the Company had breached any of these provisions as of December 31, 2024, it could have been required to settle its obligations under these agreements at amounts which approximate the December 31, 2024 fair values reflected in the table below. During the nine months ended December 31, 2024, the Company was not in default of any of its derivative obligations.

As of December 31, 2024, the Company had no derivatives designated as net investments or fair value hedges in accordance with FASB ASC Topic 815, "Derivatives and Hedging."

The Company has a cross currency swap agreement that is designated as a cash flow hedge to hedge changes in the value of an intercompany loan to a foreign subsidiary due to changes in foreign exchange rates. This intercompany loan is related to the acquisition of STAHL. As of December 31, 2024, the notional amount of this derivative is $77,508,000, and this contract matures on March 31, 2028. From its December 31, 2024 balance of AOCL, the Company expects to reclassify approximately $713,000 out of AOCL, and into foreign currency exchange loss (gain), during the next 12 months based on the contractual payments due under this intercompany loan.

The Company has foreign currency forward agreements that are designated as cash flow hedges to hedge a portion of forecasted inventory purchases denominated in foreign currencies. As of December 31, 2024, the notional amount of those derivatives was $6,341,000, and all contracts mature by September 30, 2025. From its December 31, 2024 balance of AOCL, the Company expects to reclassify approximately $42,000 out of AOCL during the next 12 months based on the expected payments for the goods purchased.

The Company's policy is to maintain a capital structure that is comprised of 50-70% of fixed rate long-term debt and 30-50% of variable rate long-term debt. The Company has three outstanding interest rate swap agreements in which the Company receives interest at a variable rate and pays interest at a fixed rate. The Company's third and most recent interest rate swap with a notional amount of $75,000,000 was entered into during the three months ended September 30, 2024. After entry into this swap, the Company's percentage of fixed rate long-term debt exceeds the Company's policy described above at December 31, 2024, however, with one swap maturing later this fiscal year, the Company expects to be back in compliance with its policy at March 31, 2025. The three interest rate swap agreements are designated as cash flow hedges to hedge changes in interest expense due to changes in the variable interest rate of the Company's variable interest debt. The interest rate swaps mature on February 14, 2025, September 4, 2027 and April 30, 2028, and collectively have a total notional amount of $401,067,000 as of December 31, 2024. The effective portion of the changes in fair values of the interest rate swaps is reported in AOCL and will be reclassified to interest expense over the life of the swap agreements. From its December 31, 2024 balance of AOCL, the Company expects to reclassify approximately $1,051,000 of AOCL into interest and debt expense during the next 12 months.

The following is the effect of derivative instruments, net of tax on the Condensed Consolidated Statements of Operations for the three months ended December 31, 2024 and 2023 (in thousands):

Derivatives Designated as Cash Flow Hedges	Type of Instrument	Amount of Gain or (Loss) Recognized in Other Comprehensive Income (Loss) on Derivatives	Location of Gain or (Loss) Recognized in Income on Derivatives	Amount of Gain or (Loss) Reclassified from AOCL into Income
December 31, 2024	Foreign exchange contracts	$ (111)	Cost of products sold	$ 4
December 31, 2024	Interest rate swaps	3,517	Interest expense	2,048
December 31, 2024	Cross currency swaps	3,525	Foreign currency exchange (gain) loss	4,348
December 31, 2023	Foreign exchange contracts	(31)	Cost of products sold	(22)
December 31, 2023	Interest rate swap	(1,958)	Interest expense	(2,566)
December 31, 2023	Cross currency swaps	(2,921)	Foreign currency exchange (gain) loss	(3,248)

The following is the effect of derivative instruments, net of tax on the Condensed Consolidated Statements of Operations for the nine months ended December 31, 2024 and 2023 (in thousands):

Derivatives Designated as Cash Flow Hedges	Type of Instrument	Amount of Gain or (Loss) Recognized in Other Comprehensive Income (Loss) on Derivatives	Location of Gain or (Loss) Recognized in Income on Derivatives	Amount of Gain or (Loss) Reclassified from AOCL into Income
December 31, 2024	Foreign exchange contracts	$ (14)	Cost of products sold	$ (43)
December 31, 2024	Interest rate swaps	3,289	Interest expense	7,033
December 31, 2024	Cross currency swaps	2,328	Foreign currency exchange (gain) loss	2,429
December 31, 2023	Foreign exchange contracts	(211)	Cost of products sold	(75)

Interest rate swap	Other non current liabilities	—	(381)
Cross currency swap	Prepaid expenses and other	961	199
Cross currency swap	Other non current liabilities	(244)	(2,541)

9. Debt

During fiscal 2024, the Company amended its credit agreement (the "Amended and Restated Revolving Credit Facility") increasing the size of the revolving credit facility by $75,000,000 to a total of $175,000,000. The Company borrowed against the Amended and Restated Revolving Credit Facility in May of fiscal 2024 to initially fund the montratec acquisition as described in Note 2. The Company subsequently borrowed additional funds in accordance with the Accordion feature under its

existing Term Loan B to increase the principal amount of the Term Loan B by $75,000,000. The Company also borrowed an additional $45,000,000 under a new credit agreement secured by the Company's U.S. accounts receivable balances (the "AR Securitization Facility"). The U.S. accounts receivable balances which secure the AR Securitization Facility total $73,473,000 as of December 31, 2024. The Company used the proceeds from the $75,000,000 Accordion borrowing and the $45,000,000 AR Securitization Facility to fully repay borrowings on the Amended and Restated Revolving Credit Facility prior to June 30, 2023.

As of December 31, 2024, there have been no amortization events triggered in the AR Securitization Facility. The Company voluntarily paid down $10,000,000 on the AR Securitization Facility during the three months ended December 31, 2024. The Company has both the ability and intent to have the AR Securitization Facility remain outstanding for the next 12-months. As such, the Company has classified the full $35,000,000 outstanding borrowings under the AR Securitization Facility as long-term debt at December 31, 2024.

The outstanding principal balance of the Term Loan B was $442,560,000 as of December 31, 2024. The Company made $35,000,000 in principal payments on the Term Loan B during the nine months ended December 31, 2024 of which $3,732,000 was required. The Company is obligated to make $4,976,000 of principal payments on the Term Loan B over the next 12 months plus applicable Excess Cash Flow payments, if required, however, plans to pay down approximately $50,000,000 in principal payments in total during such 12 month period. This amount has been recorded within the current portion of long-term debt on the Company's Condensed Consolidated Balance Sheet with the remaining balance recorded as long-term debt. Refer to the 2024 10-K for further details on the Company's Term Loan B.

There were no outstanding borrowings and $15,440,000 in outstanding letters of credit issued against the Amended and Restated Revolving Credit Facility as of December 31, 2024. The outstanding letters of credit as of December 31, 2024 consisted of $15,440,000 of standby letters of credit.

The gross balance of deferred financing costs on the Term Loan B was $7,845,000 as of December 31, 2024 and March 31, 2024. The accumulated amortization balances were $3,894,000 and $2,971,000 as of December 31, 2024 and March 31, 2024, respectively. The gross balance of deferred financing costs associated with the AR Securitization Facility was $536,000 with an accumulated amortization balance of $283,000 and $149,000 as of December 31, 2024 and March 31, 2024, respectively.

The gross balance of deferred financing costs associated with the Amended and Restated Revolving Credit Facility is $4,828,000 as of December 31, 2024 and March 31, 2024, which is included in Other assets on the Condensed Consolidated Balance Sheet. The accumulated amortization balances were $3,464,000 and $2,655,000 as of December 31, 2024 and March 31, 2024, respectively.

The Company has a finance lease for a manufacturing facility in Hartland, WI under a 23-year lease agreement which terminates in 2035. The outstanding balance on the finance lease obligation is $12,442,000 as of December 31, 2024 of which $722,000 has been recorded within the Current portion of long-term debt and the remaining balance recorded within the Term loan, AR securitization facility and finance lease obligations on the Company's Condensed Consolidated Balance Sheet. See Note 15 for further details.

Unsecured and uncommitted lines of credit are available to meet short-term working capital needs for certain of our subsidiaries operating outside of the U.S. The lines of credit are available on an offering basis, meaning that transactions under the line of credit will be on such terms and conditions, including interest rate, maturity, representations, covenants and events of default, as mutually agreed between our subsidiaries and the local bank at the time of each specific transaction. As of December 31, 2024, unsecured credit lines totaled approximately $2,278,000, of which nothing was drawn. In addition, unsecured lines of $12,898,000 were available for bank guarantees issued in the normal course of business of which $8,243,000 was utilized as of December 31, 2024.

Refer to the Company’s consolidated financial statements included in the 2024 10-K for further information on its debt arrangements.

10. Net Periodic Benefit Cost

The following table sets forth the components of net periodic pension cost for the Company's defined benefit pension plans (in thousands):

	Three Months Ended		Nine Months Ended	
	December 31, 2024	December 31, 2023	December 31, 2024	December 31, 2023
Service costs	$ 102	$ 136	$ 349	$ 389
Interest cost	1,703	3,419	7,917	10,351
Expected return on plan assets	(1,176)	(2,867)	(6,169)	(8,759)
Net amortization	1	62	483	266
Settlement	433	4,639	23,634	4,720
Net periodic pension (benefit) cost	$ 1,063	$ 5,389	$ 26,214	$ 6,967

Components of the net benefit costs other than the service cost component are recorded in Other (income) expense, net on the Condensed Consolidated Statements of Operations. Service costs are recorded as part of Income from operations.

During fiscal year 2024, the Company began the process to terminate one of its U.S. pension plans. Lump sum payments were made to eligible participants who elected to receive them in the third and fourth quarter of fiscal year 2024 resulting in settlement charges which were disclosed in the 2024 10-K. On September 30, 2024, the Company purchased annuity contracts to settle the remaining liabilities of the terminated plan. The annuity contract purchase resulted in a non cash settlement charge of $23,634,000 during the nine months ended December 31, 2024 and $433,000 of non cash settlement charges in the three months ended December 31, 2024, which was recorded in Other (income) expense, net on the Condensed Consolidated Statements of Operations. The remaining surplus of the terminated plan of $6,733,000 will be used to fund certain obligations associated with the Company's U.S. defined contribution plans.

The Company currently plans to contribute approximately $5,183,000 to its pension plans in fiscal 2025.

For additional information on the Company's defined benefit pension and postretirement benefit plans, refer to the consolidated financial statements included in the 2024 10-K.

11. Earnings Per Share

The following table sets forth the computation of basic and diluted earnings per share (in thousands):

	Three Months Ended		Nine Months Ended	
	December 31, 2024	December 31, 2023	December 31, 2024	December 31, 2023
Numerator for basic and diluted earnings per share:				
Net income (loss)	$ 3,960	$ 9,728	$ (2,454)	$ 34,816
Denominators:				
Weighted-average common stock outstanding – denominator for basic EPS	28,631	28,744	28,778	28,711
Effect of dilutive employee stock options and other share-based awards	257	247	—	268
Adjusted weighted-average common stock outstanding and assumed conversions – denominator for diluted EPS	28,888	28,991	28,778	28,979

Stock options with respect to 578,000 common shares for the three months ended December 31, 2024 and 824,000 and 744,000 common shares for the three and nine months ended December 31, 2023, respectively, were not included in the computation of diluted income per share because they were antidilutive. Contingently issuable common shares of 244,000 for the three months ended December 31, 2024 and 165,000 for the three and nine months ended December 31, 2023, respectively, were not included in the computation of diluted income per share because a performance condition had not yet been met.

Stock options, restricted stock units, and performance shares with respect to 1,777,000 common shares for the nine months ended December 31, 2024 were not included in the computation of diluted income per share because they were antidilutive as a result of the Company's net loss.

The Company grants share based compensation to eligible participants under the Columbus McKinnon Corporation 2016 Long Term Incentive Plan, as Amended and Restated in June 2019 and July 2024 ("2016 LTIP"). The total number of shares of common stock with respect to which awards may be granted under the 2016 LTIP were increased by 2,500,000 as a result of the June 2019 amendment and restatement. In July of fiscal 2025, the 2016 LTIP was amended and restated a second time, which increased the total number of shares of common stock that may be granted under the 2016 LTIP by an additional 2,800,000 shares.

During the nine months ended December 31, 2024, the Company repurchased 293,000 shares of its common stock at an aggregate cost of $9,945,000 in accordance with the Company's previously adopted share repurchase program. The value of the shares purchased are reflected as Treasury stock on the Company's Condensed Consolidated Balance Sheet as of December 31, 2024.

During the first nine months of fiscal 2025, there were 12,000 shares of stock issued upon the exercise of stock options that were issued under the Company's 2016 LTIP. During the fiscal year ended March 31, 2024, 146,000 shares of restricted stock units vested and were issued.

On January 21, 2025, the Company's Board of Directors declared a dividend of $0.07 per common share. The dividend will be paid on February 18, 2025 to shareholders of record on February 7, 2025. The dividend payment is expected to be approximately $2,005,000.

Refer to the Company's consolidated financial statements included in the 2024 10-K for further information on its earnings per share and stock plans.

12. Loss Contingencies

From time to time, the Company is named a defendant in legal actions arising out of the normal course of business. The Company is not a party to any pending legal proceeding other than ordinary, routine litigation incidental to our business. The Company does not believe that any of its pending litigation will have a material impact on its business.

Accrued general and product liability costs are actuarially estimated reserves based on amounts determined from loss reports, individual cases filed with the Company, and an amount for losses incurred but not reported. The aggregate amounts of reserves were $19,841,000 (gross of estimated insurance recoveries of $7,052,000) as of December 31, 2024, of which $15,441,000 is included in Other non current liabilities and $4,400,000 in Accrued liabilities. The liability for accrued general and product liability costs are funded by investments in marketable securities (see Note 6).

The following table provides a reconciliation of the beginning and ending balances for accrued general and product liability (in thousands):

	December 31, 2024	March 31, 2024
Accrued general and product liability, beginning of period	$ 19,988	$ 21,103
Estimated insurance recoveries	(585)	(634)
Add provision for claims	2,800	2,226
Deduct payments for claims	(2,362)	(2,707)
Accrued general and product liability, end of period	$ 19,841	$ 19,988
Estimated insurance recoveries	(7,052)	(7,637)
Net accrued general and product liability, end of period	$ 12,789	$ 12,351

The per occurrence limits on the self-insurance for general and product liability coverage to Columbus McKinnon through CMIC, its wholly-owned captive insurance company were $2,000,000 from inception through fiscal 2003 and $3,000,000 for fiscal 2004 and thereafter. In addition to the per occurrence limits, the Company's coverage is also subject to an annual aggregate limit, applicable to losses only. These limits range from $2,000,000 to $6,000,000 for each policy year from inception

through fiscal 2025. The Company also purchases excess general and product liability insurance up to an aggregate $75,000,000 limit.

Asbestos

Like many industrial manufacturers, the Company is involved in asbestos-related litigation. In continually evaluating costs relating to its estimated asbestos-related liability, the Company reviews, among other things, the incidence of past and recent claims, the historical case dismissal rate, the mix of the claimed illnesses and occupations of the plaintiffs, its recent and historical resolution of the cases, the number of cases pending against it, the status and results of broad-based settlement discussions, and the number of years such activity might continue. Based on this review, the Company has estimated its share of liability to defend and resolve probable asbestos-related personal injury claims. This estimate is highly uncertain due to the limitations of the available data and the difficulty of forecasting with any certainty the numerous variables that can affect the range of the liability. The Company will continue to study the variables in light of additional information in order to identify trends that may become evident and to assess their impact on the range of liability that is probable and estimable.

Based on actuarial information, the Company has estimated its net asbestos-related aggregate liability including related legal costs to range between $4,300,000 and $7,900,000, net of insurance recoveries, using actuarial parameters of continued claims for a period of 38 years from December 31, 2024. The Company has estimated its asbestos-related aggregate liability that is probable and estimable, net of insurance recoveries, in accordance with U.S. generally accepted accounting principles approximates $6,031,000. The Company has reflected the liability gross of insurance recoveries of $7,052,000 as a liability in the Condensed Consolidated Balance Sheet as of December 31, 2024. The recorded liability does not consider the impact of any potential favorable federal legislation. This liability will fluctuate based on the uncertainty in the number of future claims that will be filed and the cost to resolve those claims, which may be influenced by a number of factors, including the outcome of the ongoing broad-based settlement negotiations, defensive strategies, and the cost to resolve claims outside the broad-based settlement program. Of this amount, management expects to incur asbestos liability payments of approximately $2,600,000 over the next 12 months. Because payment of the liability is likely to extend over many years, management believes that the potential additional costs for claims will not have a material effect on the financial condition of the Company or its liquidity, although the effect of any future liabilities recorded could be material to earnings in a future period.

A share of the Company’s previously incurred asbestos-related expenses and future asbestos-related expenses are covered by pre-existing insurance policies. The Company had been engaged in a legal action against the insurance carriers for those policies to recover past expenses and future costs incurred. The Company came to an agreement with the insurance carriers to settle its case against them for recovery of a portion of past costs and future costs for asbestos-related legal defense costs. The agreement was finalized during the quarter ended September 30, 2020. The terms of the settlement require the carriers to pay gross defense costs prior to retro-premiums of 65% for future asbestos-related defense costs subject to an annual cap of $1,650,000 for claims covered by the settlement.

Further, the insurance carriers are expected to cover 100% of indemnity costs related to all covered cases. Estimates of the future cost sharing have been included in the loss reserve calculation as of December 31, 2024 and March 31, 2024. The Company has recorded a receivable for the estimated future cost sharing in Other assets in the Condensed Consolidated Balance Sheet at December 31, 2024 in the amount of $7,052,000, which offsets its asbestos reserves.

In addition, one of the Company's subsidiaries, Magnetek, Inc. ("Magnetek"), has been named, along with multiple other defendants, in asbestos-related lawsuits associated with business operations previously acquired but which are no longer owned. During Magnetek's ownership, none of the businesses produced or sold asbestos-containing products. For such claims, Magnetek is uninsured and either contractually indemnified against liability, or contractually obligated to defend and indemnify the purchaser of these former business operations. The Company aggressively seeks dismissal from these proceedings. The asbestos-related liability including legal costs is estimated to be approximately $1,085,000 which has been reflected as a liability in the Condensed Consolidated Balance Sheet at December 31, 2024.

Product Liability

The Company is also involved in other unresolved legal actions that arise in the normal course of business. The most prevalent of these unresolved actions involve disputes related to product design, manufacture and performance liability. The Company's estimation of its product-related aggregate liability that is probable and estimable, in accordance with U.S. generally accepted accounting principles approximates $5,673,000, which has been reflected as a liability in the Condensed Consolidated Balance Sheet as of December 31, 2024. In some cases, the Company cannot reasonably estimate a range of loss because there is insufficient information regarding the matter.

In April of fiscal 2025, a trial involving a product liability claim against the Company resulted in a jury verdict demanding the Company to pay approximately $3,000,000 in damages. The Company plans to appeal and, along with its attorneys believes it will be successful in overturning this verdict and that payment of the damages is not probable. As such, the Company has not accrued the damages as a liability in the Condensed Consolidated Balance Sheet at December 31, 2024.

Management believes that the potential additional costs for claims will not have a material effect on the financial condition of the Company or its liquidity, although the effect of any future liabilities recorded could be material to earnings in a future period.

Litigation-Other

In October 2010, Magnetek received a request for indemnification from Power-One, Inc. ("Power-One") for an Italian tax matter arising out of the sale of Magnetek's power electronics business to Power-One in October 2006. With a reservation of rights, Magnetek affirmed its obligation to indemnify Power-One for certain pre-closing taxes. The sale included an Italian company, Magnetek, S.p.A., and its wholly owned subsidiary, Magnetek Electronics (Shenzhen) Co. Ltd. (the "Power-One China Subsidiary"). The tax authority in Arezzo, Italy, issued a notice of audit report in September 2010 wherein it asserted that the Power-One China Subsidiary had its administrative headquarters in Italy and, therefore, it should be considered resident in Italy and subject to taxation in Italy. In November 2010, the tax authority issued a notice of tax assessment for the period of July 2003 to June 2004, alleging that taxes of approximately $2,000,000 (Euro 1,900,000), plus interest, were due in Italy on taxable income earned by the Power-One China Subsidiary during this period. In addition, the assessment alleges potential penalties in the amount of approximately $2,300,000 (Euro 2,200,000) for the alleged failure of the Power-One China Subsidiary to file its Italian tax return. The Power-One China Subsidiary filed its response with the provincial tax commission of Arezzo, Italy in January 2011. A hearing before the Tax Court was held in July 2012 on the tax assessment for the period of July 2003 to June 2004. In September 2012, the Tax Court ruled in favor of the Power-One China Subsidiary dismissing the tax assessment for the period of July 2003 to June 2004. In February 2013, the tax authority filed an appeal of the Tax Court's September 2012 ruling. The Regional Tax Commission of Florence heard the appeal of the tax assessment dismissal for the period of July 2003 to June 2004 and thereafter issued its ruling finding in favor of the tax authority. Magnetek believed the court's decision was based upon erroneous interpretations of the applicable law and appealed the ruling to the Italian Supreme Court in April 2015. In April 2022, the Supreme Court upheld the appeal in favor of Power-One.

The tax authority in Arezzo, Italy also issued a tax inspection report in January 2011 for the periods July 2002 to June 2003 (fiscal period 2002/2003) and July 2004 to December 2006 (fiscal periods 2004/2005 and 2005/2006) claiming that the Power-One China Subsidiary failed to file Italian tax returns for the reported periods. In August 2012, the tax authority in Arezzo, Italy issued four notices of tax assessment for the periods July 2002 to June 2003 and July 2004 to December 2006, alleging that taxes of approximately $6,900,000 (Euro 6,700,000) were due in Italy on taxable income earned by the Power-One China Subsidiary together with an allegation of potential penalties in the amount of approximately $2,900,000 (Euro 2,800,000) for the alleged failure of the Power-One China Subsidiary to file its Italian tax returns.

On June 3, 2015, the Tax Court, ruled in favor of the Power-One China Subsidiary dismissing the tax assessments for the periods of July 2002 to June 2003 and July 2004 to December 2006. On July 27, 2015, the tax authority filed appeals of the Tax Court's ruling of June 3, 2015. In May 2016, the Regional Tax Court of Florence rejected the appeals of the tax authority and at the same time canceled the notices of assessment for the fiscal years of 2004/2005 and 2005/2006. In December 2016, the Power-One China Subsidiary was served by the Italian Revenue Agency with two appeals to the Italian Supreme Court regarding the two positive judgments on the tax assessments for the fiscal periods 2004/2005 and 2005/2006. In February 2017 the Power-One China Subsidiary filed two memorandums before the Italian Supreme Court in response to the appeals made by the tax authority against the positive judgments on the tax assessments for fiscal years 2004/2005 and 2005/2006.

In March 2017, the Regional Tax Court of Florence rejected the appeal of the assessment for the 2006 fiscal year (period July 2006-December 2006). In October 2017, the Power-One China Subsidiary was served by the Italian Revenue Agency with an appeal to the Italian Supreme Court against the positive judgment on the tax assessment for fiscal year 2006. In November 2017 the Power-One China Subsidiary filed a memorandum before the Italian Supreme Court in response to the appeal made by the tax authority against the positive judgment on the tax assessment for fiscal year 2006. In March 2018, the Regional Tax Court of Florence rejected the appeal of the assessment for the 2002/2003 fiscal year. In October 2018 the Power-One China Subsidiary was served by the Italian Revenue Agency with an appeal to the Italian Supreme Court against the positive judgment on the tax assessment for fiscal year 2002/2003. In November 2018 the Power-One China Subsidiary filed a memorandum with the Italian Supreme Court in response to the appeal made by the tax authority. The Supreme Court upheld the appeals of the Italian Tax Authority and remitted the proceedings back to the Regional Tax Court for a new evaluation of the substance of the dispute.

In December 2022 the Power One China Subsidiary resumed the proceedings concerning the tax assessments for fiscal years 2002/2003 and 2006 before the Regional Tax Court. A hearing was held before the Regional Tax Court in April and May of 2023, in two separate decisions, the court ruled in favor of the Company. The tax authority appealed this decision on December 6, 2023, and the Company filed the relevant counter claims in January of 2024.

In March 2023 the Power One China Subsidiary resumed the proceedings concerning the tax assessments for fiscal years 2004/2005 and 2005/2006 before the Regional Tax Court. The hearing was held in February 2024 where the court upheld the assessments. The Company is appealing the judgment and expects the Supreme court to reverse the judgment of the lower court as they have previously with the 2002/2003 and 2006 assessments.

The Company believes it will be successful and does not expect to incur a liability related to these assessments.

In September of 2017, Magnetek received a request for defense and indemnification from Monsanto Company, Pharmacia, LLC, and Solutia, Inc. (collectively, "Monsanto") with respect to: (1) lawsuits brought by plaintiffs claiming that Monsanto manufactured polychlorinated biphenyls ("PCBs"), exposure to which allegedly caused injury to plaintiffs; and (2) lawsuits brought by municipalities and municipal entities claiming that Monsanto should be responsible for a variety of damages due to the presence of PCBs in bodies of water in those municipalities and/or in water treated by those municipal entities. Monsanto claims to be entitled to defense and indemnification from Magnetek under a so-called "Special Undertaking" apparently executed by Magnetek's predecessor Universal Manufacturing ("Universal") in January of 1972, which purportedly required Universal to defend and indemnify Monsanto from liabilities "arising out of or in connection with the receipt, purchase, possession, handling, use, sale or disposition of" PCBs by Universal.

Magnetek has declined Monsanto's tender, and believes that it has meritorious legal and factual defenses to the demands made by Monsanto. Magnetek is vigorously defending against those demands and commenced litigation in New Jersey to, among other things, declare the Special Undertaking void and unenforceable. Monsanto has, in turn, commenced an action to enforce the Special Undertaking in Missouri and joined five additional companies as co-defendants in that Missouri action. The New Jersey action was recently dismissed in favor of the Missouri action.

Magnetek intends to continue to vigorously defend against Monsanto's action. The Company cannot reasonably estimate a potential range of loss with respect to Monsanto's tender because there is insufficient information regarding the underlying matters. Management believes, however, that the potential additional legal costs related to such matters will not have a material effect on the financial condition of the Company or its liquidity, although the effect of any future liabilities recorded could be material to earnings in a future period.

The Company had previously filed suit against Travelers in District Court seeking coverage under insurance policies in the name of Universal. In July 2019, the District Court ruled that Travelers is obligated to defend Magnetek under these policies in connection with Magnetek's litigation against Monsanto. The Court held that Monsanto's claims against Magnetek fall within the insuring agreement of the Travelers policies and that none of the policy exclusions precluded the possibility of coverage. The Court also held that Travelers prior settlements with other insureds under the policies did not cut off or release Magnetek's rights under the policies. Travelers moved for reconsideration which motion was denied. Travelers is currently defending the Company in its litigation with Monsanto.

The Company is also engaged in similar insurance coverage litigation against Transportation Insurance Company in the Circuit Court of Cook County, Illinois. That suit is presently stayed due to the bankruptcy of Velsicol Chemical, LLC, a third-party indemnitor of TIC and Travelers.

Environmental Matters

Along with other manufacturing companies, the Company is subject to various federal, state and local laws relating to the protection of the environment. To address the requirements of such laws, the Company has adopted a corporate environmental protection policy which provides that all of its owned or leased facilities shall, and all of its employees have the duty to, comply with all applicable environmental regulatory standards, and the Company utilizes an environmental auditing program for its facilities to ensure compliance with such regulatory standards. The Company has also established managerial responsibilities and internal communication channels for dealing with environmental compliance issues that may arise in the course of its business. Because of the complexity and changing nature of environmental regulatory standards, it is possible that situations will arise from time to time requiring the Company to incur expenditures in order to ensure environmental regulatory compliance. However, the Company is not aware of any environmental condition or any operation at any of its facilities, either individually or in the aggregate, which would cause expenditures having a material adverse effect on its results of operations,

financial condition or cash flows and, accordingly, has not budgeted any material capital expenditures for environmental compliance for fiscal 2025.

In 1986, Magnetek acquired the stock of Universal Manufacturing Corporation ("Universal") from a predecessor of Fruit of the Loom ("FOL"), and the predecessor agreed to indemnify Magnetek against certain environmental liabilities arising from pre-acquisition activities at a facility in Bridgeport, Connecticut. Environmental liabilities covered by the indemnification agreement included completion of additional cleanup activities, if any, at the Bridgeport facility and defense and indemnification against liability for potential response costs related to offsite disposal locations. Magnetek's leasehold interest in the Bridgeport facility was assigned to the buyer in connection with the sale of Magnetek's transformer business in June 2001. FOL, the successor to the indemnification obligation, filed a petition for Reorganization under Chapter 11 of the Bankruptcy Code in 1999 and Magnetek filed a proof of claim in the proceeding for obligations related to the environmental indemnification agreement. Magnetek believes that FOL had substantially completed the clean-up obligations required by the indemnification agreement prior to the bankruptcy filing. In November 2001, Magnetek and FOL entered into an agreement involving the allocation of certain potential tax benefits and Magnetek withdrew its claims in the bankruptcy proceeding. Magnetek further believes that FOL's obligation to the state of Connecticut was not discharged in the reorganization proceeding.

In January 2007, the Connecticut Department of Environmental Protection ("DEP") requested parties, including Magnetek, to submit reports summarizing the investigations and remediation performed to date at the site and the proposed additional investigations and remediation necessary to complete those actions at the site. DEP requested additional information relating to site investigations and remediation. Magnetek and the DEP agreed to the scope of the work plan in November 2010. The Company has recorded a liability of $430,000 included in the amount specified above, related to the Bridgeport facility, representing the best estimate of future site investigation costs and remediation costs which are expected to be incurred in the future.

For all of the currently known environmental matters, the Company has accrued as of December 31, 2024 a total of $788,000 which, in our opinion, is sufficient to deal with such matters. The Company is not aware of any environmental condition or any operation at any of its facilities, either individually or in the aggregate, which would cause expenditures to have a material adverse effect on its results of operations, financial condition or cash flows and, accordingly, has not budgeted any material capital expenditures for environmental compliance for fiscal 2025.

13. Income Taxes

The Company recorded an income tax expense of $1,929,000 and $442,000 for the three and nine months ended December 31, 2024, respectively, and income tax expense of $3,911,000 and $12,405,000 for the three and nine months ended December 31, 2023, respectively. Income tax as a percentage of pre-tax income was 33% in the three months ended December 31, 2024 and (22)% in the nine months ended December 31, 2024. Income tax as a percentage of pre-tax income was 29% and 26% in the three and nine months ended December 31, 2023, respectively. Typically these percentages vary from the U.S. statutory rate of 21% primarily due to varying statutory tax rates at the Company's foreign subsidiaries, and the jurisdictional mix of income for these subsidiaries. Additionally, during the three and nine months ended December 31, 2024, income tax when reflected as a percentage of Income (Loss) was impacted by immaterial discrete items.

The Company estimates that the effective tax rate related to continuing operations will be approximately 29% for fiscal 2025 which includes 3 percentage points related to the pension settlement expense recorded in fiscal 2025.

The Company is subject to the European Union's Pillar Two Directive legislation which generally provides for a minimum effective tax rate of 15%, as established by the Organization for Economic Co-operation and Development (OECD) Pillar Two Framework. Similar legislation has been implemented in other countries that is effective in fiscal year 2025. The Company does not expect a material impact to its fiscal year 2025 financial statements as a result of the Pillar Two legislation implemented by any jurisdiction.

Refer to the Company's consolidated financial statements included in the 2024 10-K for further information on income taxes.

14. Changes in Accumulated Other Comprehensive Loss

Changes in AOCL by component for the three and nine months ended December 31, 2024 are as follows (in thousands):

	Three months ended December 31, 2024			
	Retirement Obligations	Foreign Currency	Change in Derivatives Qualifying as Hedges	Total
Beginning balance net of tax	$ 9,309	$ (23,468)	$ (543)	$ (14,702)
Other comprehensive income (loss) before reclassification	(341)	(24,665)	6,931	(18,075)
Amounts reclassified from other comprehensive loss	294	—	(6,400)	(6,106)
Net current period other comprehensive income (loss)	(47)	(24,665)	531	(24,181)
Ending balance net of tax	$ 9,262	$ (48,133)	$ (12)	$ (38,883)

	Nine Months Ended December 31, 2024			
	Retirement Obligations	Foreign Currency	Change in Derivatives Qualifying as Hedges	Total
Beginning balance net of tax	$ (10,696)	$ (32,785)	$ 3,804	$ (39,677)
Other comprehensive income (loss) before reclassification	1,902	(15,348)	5,603	(7,843)
Amounts reclassified from other comprehensive loss	18,056	—	(9,419)	8,637
Net current period other comprehensive income (loss)	19,958	(15,348)	(3,816)	794
Ending balance net of tax	$ 9,262	$ (48,133)	$ (12)	$ (38,883)

Details of amounts reclassified out of AOCL for the three months ended December 31, 2024 are as follows (in thousands):

Details of AOCL Components	Amount reclassified from AOCL	Affected line item on Condensed Consolidated Statement of Operations
Net amortization of prior service cost and pension settlement expense		
	$ 388	
	388	Total before tax
	(94)	Tax (benefit) expense
	$ 294	Net of tax
Change in derivatives qualifying as hedges		
	$ (5)	Cost of products sold
	(2,740)	Interest expense
	(5,817)	Foreign currency
	(8,562)	Total before tax
	2,162	Tax (benefit) expense
	$ (6,400)	Net of tax

Details of amounts reclassified out of AOCL for the nine months ended December 31, 2024 are as follows (in thousands):

Details of AOCL Components	Amount reclassified from AOCL	Affected line item on Condensed Consolidated Statement of Operations
Net amortization of prior service cost and pension settlement expense		
	$ 23,978	
	23,978	Total before tax
	(5,922)	Tax (benefit) expense
	$ 18,056	Net of tax
Change in derivatives qualifying as hedges		
	$ 58	Cost of products sold
	(9,410)	Interest expense
	(3,250)	Foreign currency
	(12,602)	Total before tax
	3,183	Tax (benefit) expense
	$ (9,419)	Net of tax

These AOCL components are included in the computation of net periodic pension cost. (See Note 10 for additional details.)

15. Leases

The Company's lease arrangements generally include real estate (manufacturing facilities, sales offices, distribution centers, warehouses), vehicles, and equipment. Leases with a term greater than one year are recognized on the Consolidated Balance Sheet; the Company has elected not to recognize leases with terms of one year or less on the Consolidated Balance Sheet. Lease obligations and their corresponding ROU assets are recorded based on the present value of lease payments over the expected lease term. The Company recognizes lease expense on a straight-line basis over the lease term.

The Company's leases have lease terms ranging from 1 to 23 years, some of which include options to extend or terminate the lease. The exercise of lease renewal options is at the Company's sole discretion. When deemed reasonably certain of exercise, the renewal options are included in the determination of the lease term. The Company's lease agreements do not contain material residual value guarantees or any material restrictive covenants.

As described in Note 2, the Company relocated its Charlotte Manufacturing Operations to its manufacturing facility in Monterrey, Mexico during the quarter ended September 30, 2024. As a result, the Charlotte Manufacturing Operation's related right of use asset has been impaired resulting in an expense $3,268,000 recorded within Cost of products sold on the Company's Condensed Consolidated Statement of Operations for the nine months ended December 31, 2024.

The following table illustrates the lease-related assets and liabilities recorded on the Condensed Consolidated Balance Sheet (in thousands):

	December 31, 2024	March 31, 2024
Operating leases:		
Other assets	$ 62,037	$ 65,584
Accrued liabilities	9,290	8,723
Other non current liabilities	61,799	60,666
Total operating liabilities	$ 71,089	$ 69,389
Finance lease:		
Net property, plant, and equipment	$ 10,845	$ 11,596
Current portion of long-term debt and finance lease obligation	722	670
Term loan, AR securitization facility and finance lease obligations	11,720	12,267
Total finance liabilities	$ 12,442	$ 12,937

Operating lease expense of $3,593,000 and $10,963,000 and $3,216,000 and $9,429,000 for the three and nine months ended December 31, 2024 and December 31, 2023, respectively, is included in Income from operations on the Condensed Consolidated Statements of Operations. Short-term lease expense, sublease income, and variable lease expenses were not material for the three and nine months ended December 31, 2024 and December 31, 2023, respectively. Finance lease expense of $250,000 and $751,000 for the three and nine months ended December 31, 2024 and December 31, 2023, respectively, is included in Income from operations on the Condensed Consolidated Statements of Operations. Interest and debt expense related to the finance lease of $142,000 and $430,000 and $149,000 and $451,000 is included the Company's Condensed Consolidated Statements of Operations for the three and nine months ended December 31, 2024 and December 31, 2023, respectively.

Supplemental cash flow information related to leases is as follows (in thousands):

	Nine Months Ended December 31,	
	2024	2023
Cash paid for amounts included in the measurement of operating lease liabilities	$ 9,033	$ 7,771
Cash paid for amounts included in the measurement of finance lease liabilities	$ 925	$ 898
ROU assets obtained in exchange for new operating lease liabilities	$ 7,995	$ 17,442

16. Effects of New Accounting Pronouncements

Topics Not Yet Adopted

In November 2024, the FASB issued ASU 2024-03, Income Statement—Reporting Comprehensive Income—Expense Disaggregation Disclosures (Subtopic 220-40): Disaggregation of Income Statement Expenses. This ASU will improve disclosures about a public business entity's expenses and address requests from investors for more detailed information about the types of expenses commonly presented within the expense caption on the Company's Statement of Operations. The new guidance is effective for annual periods beginning after December 15, 2026 and interim periods within fiscal years beginning after December 15, 2027. The Company believes the adoption of this standard will result in additional disclosures, but will not have an overall material impact to the financial statements.

In November 2023, the FASB issued ASU 2023-07, Segment Reporting (Topic 280): Improvements to Reportable Segment Disclosures, which requires that a public entity disclose, on an annual and interim basis, significant segment expenses that are regularly provided to the chief operating decision maker and included within each reported measure of segment profit or loss. Additionally, it requires that a public entity (1) disclose an amount for “other segment items” by reportable segment, (2) provide all annual disclosures about a reportable segment’s profit or loss and assets currently required by Topic 280 in interim periods, and (3) requires that a public entity that has a single reportable segment provide all the disclosures required by the amendments in this proposed ASU and all existing segment disclosures in Topic 280. The new guidance is effective for annual periods beginning after December 15, 2023 and interim periods within fiscal years beginning after December 15, 2024. The

amendments in this proposed ASU should be applied retrospectively to all prior periods presented in the financial statements. The Company believes the adoption of this standard will result in certain additional disclosures, but will not have an overall material impact to the financial statements.

In December 2023, the FASB issued ASU No. 2023-09, Income Taxes (Topic 740): Improvements to Income Tax Disclosures. The ASU is intended to provide increased transparency about income tax information through improvements to income tax disclosures related to the rate reconciliation and income taxes paid. The Company believes the adoption of this standard will result in some additional disclosures, but will not have an overall material impact to the financial statements.

The Company is currently assessing the impact these ASUs will have on the footnotes of its annual and interim financial statements. The Company plans to adopt these standards in fiscal 2026 when required. ASUs not listed were assessed and determined to be either not applicable, or had or are expected to have an immaterial impact on our financial statements and related disclosures.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

Executive Overview

The Company is a leading worldwide designer, manufacturer and marketer of intelligent motion solutions, including motion control products, technologies, automated systems and services, that efficiently and ergonomically move, lift, position and secure materials. Our key products include hoists, crane components, precision conveyors, actuators, rigging tools, light rail workstations, and digital power and motion control systems. These are highly relevant, professional-grade solutions that solve customers' critical material handling requirements.

Founded in 1875, we have grown to our current size and leadership position through organic growth and acquisitions. We developed our leading market position over our 150-year history by emphasizing technological innovation, manufacturing excellence and superior customer service. In accordance with our strategic framework, we are building out our business system (CMBS) and growth framework to be market-led, customer-centric, and operationally excellent with our people and values at the core. We believe this will transform Columbus McKinnon into a top-tier Intelligent Motion Solutions company. We expect our strategy will enhance shareholder value by expanding EBITDA margins and return on invested capital ("ROIC").

Our revenue base is geographically diverse with approximately 44% of net sales derived from customers outside the U.S. for the nine months ended December 31, 2024. We believe this diversity balances the impact of changes that occur in local economies, as well as benefits the Company by providing access to growing emerging markets. We monitor both U.S. and Eurozone Industrial Capacity Utilization statistics as well as the ISM Production Index as indicators of anticipated demand for our products. In addition, we continue to monitor the potential impact of other global and U.S. trends including, industrial production, trade tariffs, raw material cost inflation, interest rates, foreign currency exchange rates, and activity of end-user markets around the globe.

From a strategic perspective, we are investing in new products as we focus on our greatest opportunities for growth. We maintain a strong North American market share with significant leading market positions in hoists, lifting and sling chain, forged attachments, actuators, precision conveyors and digital power and motion control systems for the material handling industry. We seek to maintain and enhance our market share by focusing our sales and marketing activities toward select North American and global market sectors including general industrial, energy, automotive, heavy OEM, entertainment, construction and infrastructure, life sciences food and beverage, e-commerce and battery production.

In fiscal 2024, the Company acquired montratec GmbH ("montratec"), a leading automation solutions company that designs and develops intelligent automation and transport systems for interlinking industrial production and logistics processes. montratec product offerings compliment the previous acquisitions of both Dorner and Garvey, and these acquisitions are collectively expected to accelerate the Company's shift into a provider of intelligent motion solutions and serve as a platform to expand capabilities in advanced, higher technology automation solutions.

Regardless of the economic climate and point in the economic cycle, we constantly explore ways to increase operating margins as well as further improve our productivity and competitiveness. We have specific initiatives to reduce lead-times, improve on-time deliveries, reduce warranty costs, and improve material and factory productivity. The initiatives are being driven by the implementation of our business operating system, CMBS. We are working to achieve these strategic initiatives through business simplification, operational excellence, and profitable growth initiatives. We believe these initiatives will enhance future operating margins.

Our principal raw materials and components purchases were approximately $396 million in fiscal 2024 (or 62% of Cost of product sold) and include steel, consisting of rod, wire, bar, structural, and other forms of steel; electric motors; bearings; gear reducers; castings; steel and aluminum enclosures and wire harnesses; electro-mechanical components; and standard variable drives and controls. These commodities are all available from multiple sources. We purchase most of these raw materials and components from a limited number of strategic and preferred suppliers under agreements which are negotiated on a Company-wide basis through our global purchasing group. While we are still experiencing some availability issues for select raw materials and components, we are working with our supply base to prioritize shipments and improve availability of key components.

We operate in a highly competitive and global business environment. We see a variety of opportunities in our markets and geographies, including trends toward automation and increasing labor productivity and the expansion of market opportunities in Asia and other emerging markets. While we execute our long-term growth strategy, we are supported by our strong free cash flow as well as our liquidity position and flexible debt structure.

Results of Operations

Three months ended December 31, 2024 and December 31, 2023

Net sales in the three months ended December 31, 2024 were $234,138,000, a decrease of $20,005,000 or 7.9% from the three months ended December 31, 2023 net sales of $254,143,000. Net sales were positively impacted by $2,333,000 due to price increases, offset by $21,295,000 of unfavorable sales volume. Foreign currency translation unfavorably impacted sales by $1,043,000 for the three months ended December 31, 2024.

Gross profit in the three months ended December 31, 2024 was $82,097,000, a decrease of $11,800,000 or 12.6% from the three months ended December 31, 2023 gross profit of $93,897,000. Gross profit margin was 35.1% in the fiscal 2025 third quarter compared to 36.9% in the fiscal 2024 third quarter. The decrease in gross profit was due to start-up costs totaling $2,603,000 related to the Monterrey, Mexico facility, $9,863,000 of lower gross profit due to lower sales volumes, and $1,999,000 due to higher product liability expenses. In addition, we incurred costs of $556,000 related to factory and warehouse consolidation activities and $376,000 of net business realignment costs. These were offset by $3,937,000 of price increases net of material inflation and other manufacturing costs changes. The translation of foreign currencies had an unfavorable impact on gross profit of $340,000 during in the three months ended December 31, 2024.

Selling expenses were $27,348,000 and $26,552,000, or 11.7% and 10.4% of net sales, in the fiscal 2025 and 2024 third quarters, respectively. The increase in selling expenses is primarily due to an increase in employee related costs of $728,000. Foreign currency translation had a $95,000 favorable impact on selling expenses in the three months ended December 31, 2024.

General and administrative expenses were $24,233,000 and $26,255,000, or 10.3% of net sales, in both the three months ended December 31, 2024 and 2023, respectively. General and administrative expenses decreased due to lower incentive-based compensation of $2,178,000 and stock based compensation of $660,000 compared to the prior year. This was offset by $1,299,000 of expense to record a reserve against an accounts receivable balance for a customer who declared bankruptcy in January of 2025. Foreign currency translation had a favorable impact of $442,000 on general and administrative expenses in the three months ended December 31, 2024.

Research and development expenses were $5,325,000 and $6,692,000, or 2.3% of net sales, in both the fiscal 2025 and 2024 third quarters.

Amortization of intangibles was $7,501,000 and $7,486,000 in the fiscal 2025 and 2024 third quarters, respectively, with the fluctuations related to foreign currency during the respective periods.

Interest and debt expense was $7,698,000 in the third quarter ended December 31, 2024 compared to $9,952,000 in the third quarter ended December 31, 2023. The decrease is a result of a reduction of the Company's long term debt as a result of accelerated principal payments and declining interest rates.

Investment income was $54,000 in the third quarter ended December 31, 2024 compared to $758,000 in the third quarter ended and December 31, 2023. Investment income relates to the mark-to-market adjustments on the marketable securities held in the Company’s wholly owned captive insurance subsidiary and the Company's equity method investment in EMC, described in Note 6 of the financial statements.

Other expense was $1,029,000 in the third quarter ended December 31, 2024 compared to $5,234,000 in the third quarter ended December 31, 2023. The decrease was due to a lump sum settlement charge of $4,599,000 incurred in the third quarter of fiscal 2024 associated with the process to terminate one of the Company's U.S. pension plans. The plan termination was completed in the second quarter of fiscal 2025. The Company incurred an additional non-cash settlement charge of $433,000 in the three months ended December 31, 2024, as described in Note 10 related to the termination of this same plan.

Income tax as a percentage of the pre-tax loss was 33% and income tax as a percentage of the pre-tax income was 29% in the third quarters ended December 31, 2024 and December 31, 2023, respectively. Typically, these percentages vary from the U.S. statutory rate of 21% primarily due to varying statutory tax rates at the Company's foreign subsidiaries, and the jurisdictional mix of income for these subsidiaries.

Nine Months Ended December 31, 2024 and December 31, 2023

Net sales in the nine months ended December 31, 2024 were $716,138,000, a decrease of $31,898,000 or 4.3% from the nine months ended December 31, 2023 net sales of $748,036,000. Net sales were positively impacted by $9,674,000 due to price increases, $2,655,000 of revenue from the montratec acquisition, offset by $42,838,000 of unfavorable sales volume. Foreign currency translation unfavorably impacted sales by $1,389,000 for the nine months ended December 31, 2024.

Gross profit in the nine months ended December 31, 2024 was $245,870,000, a decrease of $34,653,000 or 12.4% from the nine months ended December 31, 2023 gross profit of $280,523,000. Gross profit margin was 34.3% compared to 37.5% in the nine months ended December 31, 2024 and 2023. The decrease in gross profit was due to start-up costs totaling $6,413,000 related to the Monterrey, Mexico facility, $11,319,000 of asset impairment and other costs primarily related to the closure of our Charlotte Manufacturing Operations, $21,968,000 due to lower sales volume, $1,999,000 due to higher product liability expenses, $648,000 of net business realignment costs, and $171,000 of additional costs due to Hurricane Helene's impact on one of our facilities. These decreases were offset by $7,475,000 of price increases net of material inflation and other manufacturing costs changes and $799,000 as a result of the acquisition of montratec. The translation of foreign currencies had a $409,000 unfavorable impact on gross profit in the nine months ended December 31, 2024.

Selling expenses were $82,044,000 and $78,400,000, or 11.5% and 10.5% of net sales, in the nine months ended December 31, 2024 and 2023, respectively. Selling expenses increased by $909,000 related to the montratec acquisition, $802,000 primarily related to trade show and travel costs including the Company's strategic partner conference that was not held in the prior year and $732,000 of net factory and warehouse consolidation costs. The remaining increase is due to higher employee related costs during the nine months ended December 31, 2024. Foreign currency translation had a $175,000 unfavorable impact on selling expenses in the nine months ended December 31, 2024.

General and administrative expenses were $74,043,000 and $79,407,000, or 10.3% and 10.6% of net sales, in the nine months ended December 31, 2024 and 2023, respectively. The decrease is related to lower employee related costs of $3,202,000 including lower incentive-based compensation. Additionally, the Company had lower stock based compensation costs of $1,501,000 compared to the prior year and lower net headquarter relocation expenses of $1,562,000. This was offset by $1,299,000 of expense to record a reserve against an accounts receivable balance for a customer who declared bankruptcy in January of 2025. Foreign currency translation had a $504,000 favorable impact on general and administrative expenses in the nine months ended December 31, 2024.

Research and development expenses were $17,593,000 and $19,134,000, or 2.5% of net sales, in the nine months ended December 31, 2024 and 2023, respectively.

Amortization of intangibles was $22,548,000 and $21,871,000 in the nine months ended December 31, 2024 and 2023, respectively, with fluctuation attributable to foreign currency translation.

Interest and debt expense was $24,285,000 in the nine months ended December 31, 2024 compared to $28,788,000 in the nine months ended December 31, 2023. The decrease is a result of a reduction in the Company's long term debt as a result of accelerated principal payments and lower interest rates.

Investment income of $873,000 compared to $1,212,000 in the nine months ended December 31, 2024 and nine months ended December 31, 2023. Investment income relates to the mark-to-market adjustments on the marketable securities held in the Company’s wholly owned captive insurance subsidiary and the Company's equity method investment in EMC, described in Note 6 of the financial statements.

Other expense was $25,512,000 compared to $5,840,000 in the nine months ended December 31, 2024 and nine months ended December 31, 2023. The increase primarily relates to the non-cash settlement charge of $23,634,000 associated with the termination of one of the Company's U.S. pension plans in nine months ended December 31, 2024, described in Note 10 of the financial statements.

Income tax as a percentage of the pre-tax loss was (22)% and income tax as a percentage of the pre-tax income was 26% in the nine months ended December 31, 2024 and December 31, 2023, respectively. Typically, these percentages vary from the U.S. statutory rate of 21% primarily due to varying statutory tax rates at the Company's foreign subsidiaries, and the jurisdictional mix of income for these subsidiaries.

Liquidity and Capital Resources

Cash, cash equivalents, and restricted cash totaled $41,474,000 at December 31, 2024, a decrease of $72,902,000 from the March 31, 2024 balance of $114,376,000.

Cash flow from operating activities

Net cash provided by operating activities was $10,000,000 for the nine months ended December 31, 2024 compared to $28,591,000 for the nine months ended December 31, 2023. Net loss of $2,454,000 along with non-cash adjustments of $63,698,000 contributed to cash provided by operations. The non-cash adjustments included $36,230,000 of depreciation and amortization, $23,634,000 related to the settlement of one of the Company's pension plans, $7,657,000 of non-cash lease expense, $6,677,000 of stock-based compensation, and $3,268,000 related to the impairment of Charlotte Manufacturing Operation's lease. Changes in working capital reduced cash from operations by $46,505,000 as a result of an increase of $18,894,000 in inventories, an increase in prepaid expenses and other current assets of $14,565,000, a decrease in accrued expenses of $15,240,000, and a decrease of $8,061,000 in trade payables, offset by a decrease in trade accounts receivable of $10,255,000. The increase in inventories relates to purchases required for expected future customer demand. Cash provided by operations also included a decrease of $5,225,000 in other non-current liabilities primarily due to lease payments for the nine months ended December 31, 2024.

Cash flow from investing activities

Net cash used for investing activities was $14,222,000 for the nine months ended December 31, 2024 compared to $125,965,000 for the nine months ended December 31, 2023. The use of cash for the nine months ended December 31, 2024 primarily consisted of $15,266,000 in capital expenditures. In the nine months ended December 31, 2023, the most significant use of cash in the period related to the Company's purchase of montratec for $108,145,000.

Cash flow from financing activities

Net cash used for financing activities was $69,499,000 for the nine months ended December 31, 2024 and net cash provided by financing activities was $67,771,000 for the nine months ended December 31, 2023. The most significant uses of cash were for $45,495,000 in debt repayments, $9,945,000 of shares repurchased as treasury stock during the year, a $6,711,000 payment to the former owners of montratec for the contingent consideration agreement (refer to Note 2 for additional information) and $6,039,000 in dividend payments. Cash flows from hedging activities related to the Company's cross currency swap are classified as financing activities in the Statement of Cash Flows which resulted in a net cash inflow of $393,000 during the nine months ended December 31, 2024. In the nine months ended December 31, 2023, the significant source of cash was $120,000,000 in gross proceeds from the issuance of long-term debt, which was used to fund the montratec acquisition (refer to Note 2 for additional information).

We believe that our cash on hand, cash flows, and borrowing capacity under our Amended and Restated Revolving Credit Facility will be sufficient to fund our ongoing operations and debt obligations, and capital expenditures for at least the next twelve months. This belief is dependent upon successful execution of our current business plan and effective working capital utilization. No material restrictions exist in accessing cash held by our non-U.S. subsidiaries. We expect to meet our funding needs with cash provided by our U.S. operations, as well as by repatriating non-U.S. cash. We do not expect to incur significant incremental U.S. taxes as we repatriate funds. As of December 31, 2024, $38,017,000 of cash and cash equivalents were held by foreign subsidiaries.

Refer to Note 9 for further discussion of the Company's long-term debt and financing costs.

Capital Expenditures

In addition to keeping our current equipment and plants properly maintained, we are committed to replacing, enhancing and upgrading our property, plant and equipment to support new product development, improve productivity and customer responsiveness, reduce production costs, increase flexibility to respond effectively to market fluctuations and changes, meet environmental requirements, enhance safety and promote ergonomically correct work stations. Consolidated capital expenditures for the nine months ended December 31, 2024 and December 31, 2023 were $15,266,000 and $16,334,000, respectively. We expect capital expenditure spending in fiscal 2025 to range from $18,000,000 to $22,000,000.

Inflation and Other Market Conditions

Our costs are affected by inflation in the U.S. economy and, to a lesser extent, in non-U.S. economies including those of Europe, Canada, Mexico, South America, and Asia-Pacific. We do not believe that general inflation has had a material effect on our results of operations over the periods presented despite rising inflation due to our ability to pass on rising costs through price increases. In the past we have experienced higher raw material, freight, and logistics costs as a result of the COVID-19 pandemic, which we have been able to recover with pricing actions. In the future, we may not be able to pass on similar cost increases to our customers.

Goodwill Impairment Testing

We test goodwill for impairment at least annually and more frequently whenever events occur or circumstances change that indicate there may be impairment. These events or circumstances could include a significant long-term adverse change in the business climate, poor indicators of operating performance, or a sale or disposition of a significant portion of a reporting unit.

We test goodwill at the reporting unit level, which is one level below our operating segment. We identify our reporting units by assessing whether the components of our operating segment constitute businesses for which discrete financial information is available and segment management regularly reviews the operating results of those components. We also aggregate components that have similar economic characteristics into single reporting units (for example, similar products and / or services, similar long-term financial results, product processes, classes of customers, etc.). We have three reporting units: the Linear Motion Products reporting unit, the Rest of Products reporting unit, and the Precision Conveyance reporting unit, which have goodwill totaling $9,699,000, $297,709,000, and $393,142,000, respectively, as of December 31, 2024.

We currently do not believe that it is more likely than not that the fair value of any of our reporting units is less than its applicable carrying value. Additionally, we currently do not believe that we have any significant impairment indicators or that any of our reporting units with goodwill are at risk of failing Step One of the goodwill impairment test. However, if the projected long-term revenue growth rates, profit margins, or terminal growth rates are significantly lower, and/or the estimated weighted-average cost of capital is higher, future testing may indicate impairment of one or more of the Company's reporting units and, as a result, the related goodwill may be impaired.

Refer to our 2024 10-K for additional information regarding our annual goodwill impairment process.

Seasonality and Quarterly Results

Quarterly results may be materially affected by the timing of large customer orders, periods of high vacation and holiday concentrations, legal settlements, gains or losses in our portfolio of marketable securities, restructuring charges, favorable or unfavorable foreign currency translation, divestitures and acquisitions. Therefore, the operating results for any particular fiscal quarter are not necessarily indicative of results for any subsequent fiscal quarter or for the full fiscal year.

Effects of New Accounting Pronouncements

Information regarding the effects of new accounting pronouncements is included in Note 16 to the accompanying consolidated financial statements included in this Quarterly Report on Form 10-Q.

Item 3. Quantitative and Qualitative Disclosures About Market Risk.

There have been no material changes in the market risks as previously disclosed in the 2024 10-K.

Item 4. Controls and Procedures.

As of December 31, 2024, an evaluation was performed under the supervision and with the participation of the Company's management, including our Chief Executive Officer (the Company's principal executive officer) and Chief Financial Officer (the Company's principal financial officer), of the effectiveness of the design and operation of the Company's disclosure controls and procedures. These disclosure controls and procedures have been designed to provide reasonable assurance that information required to be disclosed in reports filed or submitted under the Exchange Act is made known to them on a timely basis, and that such information is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms. Based on that evaluation, the Company's management, including our Chief Executive Officer and Chief Financial Officer, concluded that the Company's disclosure controls and procedures were effective as of December 31, 2024.

There have been no other changes in the Company's internal control over financial reporting during the most recent quarter that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Part II. Other Information

Item 1. Legal Proceedings.

There have been no material developments from the legal proceedings as previously disclosed in the 2024 10-K and the notes to the consolidated financial statements thereto.

Item 1A. Risk Factors.

Except for the risk factors being updated below, there have been no material changes from the risk factors as previously disclosed in the 2024 10-K for the fiscal year ended March 31, 2024. The risks described in this report and in the 2024 10-K for the fiscal year ended March 31, 2024 are not the only risks facing us. Additional risks and uncertainties not currently known to us or that we currently deem to be immaterial also may materially adversely affect our business, financial condition and/or results of operations.

Our future operating results may be affected by price fluctuations and trade tariffs on steel, aluminum, and other raw materials purchased to manufacture our products. We may not be able to pass on increases in raw material costs to our customers.

The primary raw materials used in our chain, forging and crane building operations are steel, aluminum, and other raw materials such as motors, electrical and electronic components, castings and machined parts and components. The industries that produce these critical components and materials are also themselves highly cyclical and at times pricing and availability can be volatile due to a number of factors beyond our control, including general macroeconomic conditions, inflation, labor costs, competition, import duties, quotas, tariffs, trade regulations and agreements, and currency exchange rates. This volatility can significantly affect our raw material costs.

The United States has maintained tariffs on certain imported steel, aluminum and items originating from China, which have increased the cost of raw materials we purchase. The imposition of tariffs by the United States has resulted in retaliatory tariffs from a number of countries, including China, which also increase the cost of raw materials we purchase. The new U.S. presidential administration has implemented or announced plans to implement, as the case may be, new or increased tariffs, particularly relating to imports from China, Canada and Mexico, though it remains unclear exactly what actions will be taken or implemented. Any escalation of trade tensions, additional tariffs, retaliatory measures by foreign governments or shifts in U.S. or international trade policies could adversely impact our supply chain, increase our costs for raw materials, including significantly, or reduce demand for our products. A trade war or other significant changes in trade regulations could have a material adverse effect on our business, financial condition, results of operations and cash flows.

In an environment of increasing raw material prices and trade tariffs, duties and quotas, competitive conditions will determine how much of the price increases we can pass on to our customers. In the future, to the extent we are unable to pass on any steel, aluminum, or other raw material price increases to our customers, our profitability could be adversely affected.

Our operations outside the U.S. pose certain risks that may adversely impact sales and earnings.

We have operations and assets located outside of the U.S., primarily in Germany, the United Kingdom, Hungary, Russia, China, Malaysia and Mexico, including our new facility in Monterrey, Mexico. In addition, we import a portion of our hoist product line from Asia and sell our products to distributors located in approximately 50 countries. In our fiscal year ended March 31, 2024, approximately 43% of our net sales were derived from non-U.S. markets. These non-U.S. operations are subject to a number of special risks, in addition to the risks of our U.S. business, including but not limited to differing protections of intellectual property, trade barriers, labor unrest, geopolitical conflicts, exchange controls, regional economic uncertainty, differing (and possibly more stringent) labor regulation, risk of governmental expropriation, U.S. and foreign customs, quotas, import duties, and tariffs (in particular, the new tariffs proposed to be implemented by the new U.S. presidential administration on goods imported into the U.S. from Mexico, where we have manufacturing operations), political and economic instability in the jurisdictions in which we operate, foreign receivables collection risk, current and changing regulatory environments, difficulty in obtaining distribution support, difficulty in staffing and managing widespread operations, differences in the availability, and terms of financing, political instability and risks of increases in taxes. In particular, in connection with our Mexican manufacturing operations, if additional tariffs or trade restrictions are implemented by the U.S. or other countries, including in connection with a global trade war, the cost of our products manufactured in Mexico or other countries and imported into the U.S. or other countries could increase, which, in turn, could adversely affect the demand for these products, make our products less competitive and have an adverse effect on our business, results of operations and margins. Any of these factors, individually or together, could have a material adverse effect on our business, financial condition, results of operations and cash flows. Also, in some foreign jurisdictions, we may be subject to laws limiting the right and ability of entities organized or operating therein to pay dividends or remit earnings to affiliated companies unless specified conditions are met. These factors may adversely affect our future profits.

Part of our strategy is to expand our worldwide market share and reduce costs by strengthening our international distribution capabilities and sourcing components in lower cost countries, such as China, Mexico, Hungary and Malaysia, including through the use of our new facility in Monterey, Mexico. Implementation of this strategy may increase the impact of the risks described above, and we cannot assure you that such risks will not have a material adverse effect on our business, results of operations or financial condition.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.

The following table presents information with respect to purchase of common stock of the Company made during the three months ended December 31, 2024 by the Company:

Issuer Purchases of Equity Securities

Period	Total Number of Shares Purchased	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Approximate Dollar Value of Shares that May Yet be Purchased under the Plans or Programs (in thousands)[1]
October 1 - 31, 2024	148,916	$ 33.58	148,916	$ 9,055
November 1 - 30, 2024	—	$ —	—	$ —
December 1 - 31, 2024	—	$ —	—	$ —
Total	148,916	$ 33.58	148,916	$ 9,055

[1]The Company publicly announced on March 26, 2019 that its Board of Directors approved a share repurchase authorization for up to $20 million of shares of common stock of Columbus McKinnon Corporation, with no expiration. As of December 31, 2024, approximately $9 million remains available to repurchase shares of common stock under the current share repurchase authorization plan.

Item 3. Defaults Upon Senior Securities.

None.

Item 4. Mine Safety Disclosures.
Not applicable

Item 5. Other Information.

(c) During the three months ended December 31, 2024, no director or officer of the Company adopted or terminated a “Rule 10b5-1 trading arrangement” or “non-Rule 10b5-1 trading arrangement,” as each term is defined in Item 408(a) of Regulation S-K.

Item 6. Exhibits.

Exhibit 31.1*	Certification of principal executive officer pursuant to Rule 13a-14(a)/15d-14(a) of the Securities Exchange Act of 1934; as adopted pursuant to Section 302 of the Sarbanes-Oxley Act of 2002.
Exhibit 31.2*	Certification of principal financial officer pursuant to Rule 13a-14(a)/15d-14(a) of the Securities Exchange Act of 1934; as adopted pursuant to Section 302 of the Sarbanes-Oxley Act of 2002.
Exhibit 32**	Certification pursuant to 18 U.S.C. Section 1350 as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002.
