UNITED STATES
SECURITIES AND EXCHANGE COMMISSION
WASHINGTON, D.C. 20549

FORM 10-Q

☒QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended June 30, 2024

OR

☐TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____

Commission file number 000-55497

Duos Technologies Group, Inc.

(Exact name of registrant as specified in its charter)

Florida	**65-0493217**
(State or other jurisdiction of incorporation or organization)	*(IRS Employer Identification No.)*

7660 Centurion Parkway, Suite 100, Jacksonville, Florida 32256
(Address of principal executive offices)

(904) 296-2807
(Registrant's telephone number, including area code)

Securities registered pursuant to Section 12(b) of the Act:

Title of each class	Trading Symbol(s)	Name of each exchange on which registered
Common Stock, par value $0.001	**DUOT**	**The Nasdaq Capital Market**

Indicate by check mark whether the registrant: (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes ☒ No ☐

Indicate by check mark whether the registrant has submitted electronically every Interactive Data File required to be submitted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit such files). Yes ☒ No ☐

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company, or an emerging growth company. See definitions of "large accelerated filer," "accelerated filer," "smaller reporting company," and "emerging growth company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer ☐
Non-accelerated filer ☒
Emerging growth company ☐

Accelerated filer ☐
Smaller reporting company ☒

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act. ☐

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes ☐ No ☒

As of August 9, 2024, the registrant has one class of common equity, and the number of shares outstanding of such common equity is 7,689,969.

DUOS TECHNOLOGIES GROUP, INC. AND SUBSIDIARIES
CONDENSED NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
June 30, 2024
(Unaudited)

NOTE 1 – NATURE OF OPERATIONS AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Nature of Operations

Duos Technologies Group, Inc. (the "Company"), through its operating subsidiaries, Duos Technologies, Inc. ("Duos") and Duos Edge AI, Inc. ("Edge") (collectively the "Company"), is a company that specializes in machine vision and artificial intelligence to analyze fast moving objects such as trains, trucks, automobiles, and aircraft. This technology can help improve safety, maintenance, and operating metrics.

The Company is the inventor of the Railcar Inspection Portal (RIP) and is currently the rail industry leader for machine vision/camera wayside detection systems that include the use of Artificial Intelligence at speeds up to 125 mph. The RIP inspects a train at full speed from the top, sides, and bottom looking at FRA/AAR mandated safety inspection points. The system also detects illegal riders, which can assist law enforcement agencies. Each rail car is scanned with machine vision cameras and other sensors from the top, sides, and bottom, where images are produced within seconds of the railcar passing. These images can then be used by the customer to help prevent derailments, improve maintenance operations, and assist with security. The Company self-performs all aspects of hardware, software, Information Technology ("IT"), and Artificial Intelligence development and engineering. The Company maintains significant intellectual property and continues to be awarded additional patents for both the technology and methodologies used. The Company also has a proprietary portfolio of approximately 53 Artificial Intelligence "Use Cases" that automatically flag defects. The Company has deployed this system with several Class 1 railroads and one major passenger carrier and anticipates an increased demand in the future from railcar operators, owners, shippers, transit railroads as well as law enforcement agencies.

During the three months ended June 30, 2024, the Company initiated a study to determine how to expand its market reach into non-rail markets. Using the information technology (IT) investments already made into the RIP in conjunction with the recently awarded patents for both methodology and artificial intelligence, the Company has determined that its use of Edge Data Centers for the processing of large volumes of image data has broad applicability to enabling local, high-speed processing in similar environments as being undertaken at the 13 current RIPs, that is, in rural and underserved areas. Accordingly, the Company has recently announced that effective early in the third quarter, it will be expanding into the market for the provision of bespoke Edge Data Centers (EDCs) for certain markets including remote education and healthcare facilities as well as other applications where high-speed, local processing is required.

The Company has also developed the Automated Logistics Information System ("ALIS") which automates gatehouse operations where trucks enter and exit large logistics and intermodal facilities. This solution also incorporates sensors and data points as necessary for each operation and directly interconnects with backend logistics databases and processes to streamline and significantly improve operations and security and, importantly, dramatically improve throughput on each lane on which the technology is deployed. The Company is not currently actively pursuing further customers for ALIS but will continue to analyze the potential market and, depending on market demand, may deploy an upgraded Truck Inspection Portal (TIP) which uses the same technology and lessons learned from the ALIS and RIP systems at some point in the future.

The Company's strategy for the rail industry is to expand beyond our existing customer base in the Class 1 and major passenger transit market and we expect to add additional users in the short line, industrial and regional transit markets in North America. In addition, we plan to expand our subscription offering to car owners and shippers and expand operations to meet the demand from international customers. The Company is prepared to respond and scale, if necessary, to react to increased demand for potential regulations that may be imposed around wayside detection technology. In the future the Company may put more emphasis on the trucking and intermodal sector with an updated Truck Inspection Portal solution. The Company continues to focus on operational and technical excellence, customer satisfaction, and maintaining a highly skilled and performance-based work force. The Company is also further investigating market opportunities for subsets of its technology including deployment and management of Edge Data Centers, a fundamental component of the distributed, rapid response data analysis used in the RIP.

Basis of Presentation

The accompanying unaudited consolidated financial statements have been prepared in accordance with U.S. generally accepted accounting principles ("GAAP") for interim financial information and with the instructions to Form 10-Q and Article 8 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by U.S. GAAP for complete financial statements. In the opinion of management, all adjustments (all of which are of a normal recurring nature) considered necessary for a fair presentation have been included. Operating results for the six months ended June 30, 2024 are not necessarily indicative of the results that may be expected for the year ending December 31, 2024 or for any other future period. These unaudited consolidated financial statements and the unaudited condensed notes thereto should be read in conjunction with the audited consolidated financial statements and notes thereto included in the Company's Annual Report on Form 10-K for the year ended December 31, 2023 filed with the Securities and Exchange Commission (the "SEC") on April 1, 2024.

Principles of Consolidation

The unaudited consolidated financial statements include Duos Technologies Group, Inc. and its wholly owned subsidiaries, Duos Technologies, Inc. and Duos Edge AI, Inc. All inter-company transactions and balances are eliminated in consolidation.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results may differ from these estimates. The most significant estimates in the accompanying unaudited consolidated financial statements include the initial valuation of a non-monetary transaction with a customer, valuation of intangible assets for impairment analysis, allowance on accounts receivable and notes receivable, valuation of common stock warrants received in exchange for an asset sale, valuation of deferred tax assets, and valuation of other long-lived assets, estimates of net contract revenues and the total estimated costs to determine progress towards contract completion, valuation of inventory, estimates of the valuation of right of use assets and corresponding lease liabilities, valuation of warrants issued with debt and valuation of stock-based awards. We base our estimates on historical experience and on various other assumptions that we believe are reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

Concentrations

Cash Concentrations

Cash is maintained at financial institutions and at times, balances may exceed federally insured limits. We have not experienced any losses related to these balances. As of June 30, 2024, the balance in one financial institution exceeded federally insured limits by approximately $163,603. Any loss incurred or a lack of access to such funds could have a significant adverse impact on the Company's consolidated financial condition, results of operation and cash flows.

Significant Customers and Concentration of Credit Risk

The Company had certain customers whose revenue individually represented 10% or more of the Company's total revenue, or whose accounts receivable balances individually represented 10% or more of the Company's total accounts receivable, as follows:

For the six months ended June 30, 2024, three customers accounted for 43%, 25% and 18% of revenues. For the six months ended June 30, 2023, two customers accounted for 61%, and 25% of revenues. In all cases, there are no minimum contract values stated. Each contract covers an agreement to deliver a Railcar Inspection Portal or services which, once accepted, must be paid in full, with 30% or more being due and payable prior to delivery. The balances of the contracts are for service and maintenance, which may be paid annually in advance with revenues recorded ratably over the contract period.

At June 30, 2024, two customers accounted for 53%, and 38% of accounts receivable. At December 31, 2023, two customers accounted for 83%, and 11% of accounts receivable. Much of the credit risk is mitigated since all the customers listed here are Class 1 railroads with a history of timely payments to us.

Geographic Concentration

For the six months ended June 30, 2024, approximately 65% of revenue was generated from three customers outside of the United States. For the six months ended June 30, 2023, approximately 31% of revenue was generated from three customers outside of the United States.

Significant Vendors and Concentration of Credit Risk

In some instances, the Company relies on a limited pool of vendors for key components related to the manufacturing of its subsystems. These vendors are primarily focused on camera, server, and lighting technologies integral to the Company's solution. Where possible, the Company seeks multiple vendors for key components to mitigate vendor concentration risk.

Fair Value of Financial Instruments and Fair Value Measurements

The Company follows Accounting Standards Codification ("ASC") 820, "Fair Value Measurements and Disclosures" ("ASC 820"), for assets and liabilities measured at fair value on a recurring basis. ASC 820 establishes a common definition for fair value to be applied to existing generally accepted accounting principles that requires the use of fair value measurements, establishes a framework for measuring fair value and expands disclosure about such fair value measurements.

ASC 820 defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Additionally, ASC 820 requires the use of valuation techniques that maximize the use of observable inputs and minimize the use of unobservable inputs.

These inputs are prioritized below:

Level 1:	Observable inputs such as quoted market prices in active markets for identical assets or liabilities.
Level 2:	Observable market-based inputs or unobservable inputs that are corroborated by market data.
Level 3:	Unobservable inputs for which there is little or no market data, which require the use of the reporting entity's own assumptions that the market participants would use in the valuation of the asset or liability based on the best available information.

The Company analyzes all financial instruments with features of both liabilities and equity under the Financial Accounting Standard Board's ("FASB") accounting standard for such instruments. Under this standard, financial assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement.

The estimated fair value of certain financial instruments, including accounts receivable, prepaid expenses, accounts payable, accrued expenses and notes payable are carried at historical cost basis, which approximates their fair values because of the short-term nature of these instruments.

Accounts Receivable

On January 1, 2023, the Company adopted ASC 326, "Financial Instruments - Credit Losses". In accordance with ASC 326, an allowance is maintained for estimated forward-looking losses resulting from the possible inability of customers to make the required payments (current expected losses). The amount of the allowance is determined principally on the basis of past collection experience and known financial factors regarding specific customers.

DUOS TECHNOLOGIES GROUP, INC. AND SUBSIDIARIES
CONDENSED NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
June 30, 2024
(Unaudited)

Accounts receivable are stated at estimated net realizable value. Accounts receivable are comprised of balances due from customers net of estimated credit loss allowances for uncollectible accounts. In determining the collections on the account, historical trends are evaluated, and specific customer issues are reviewed to arrive at appropriate allowances. The Company reviews its accounts to estimate losses resulting from the inability of its customers to make the required payments. Any required allowance is based on specific analysis of past due accounts and also considers historical trends of write-offs. Past due status is based on how recently payments have been received from customers.

Inventory

Inventory consists primarily of spare parts and consumables and long-lead time components to be used in the production of our technology systems or in connection with maintenance agreements with customers. Any inventory deemed to be obsolete is written off. Inventory is stated at the lower of cost or net realizable value. Inventory cost is primarily determined using the weighted average cost method.

Intangible Asset

In May 2024, the Company recognized an intangible asset which represents digital image data rights received under a license agreement as non-monetary consideration under a five-year customer contract. The intangible asset will be amortized over the five-year contractual term.

Long-lived assets

Long-lived assets are reviewed for impairment whenever events or changes in circumstances indicate that the book value of the asset may not be recoverable. The Company periodically evaluates whether events and circumstances have occurred that indicate possible impairment. When impairment indicators exist, the Company estimates the future undiscounted net cash flows of the related asset or asset group over the remaining life of the asset in measuring whether the long-lived asset

should be written down to fair value. Measurement of the amount of impairment would be based on generally accepted valuation methodologies, as deemed appropriate. If the carrying amount is greater than the undiscounted cash flows, the carrying amount of the asset is reduced to the asset's fair value. An impairment loss is recognized immediately as an operating expense in the consolidated statements of operations. Reversal of previously recorded impairment losses are prohibited.

Software Development Costs

Software development costs incurred prior to establishing technological feasibility are charged to operations and included in research and development costs. The technological feasibility of a software product is established when the Company has completed all planning, designing, coding, and testing activities that are necessary to establish that the product meets its design specifications, including functionality, features, and technical performance requirements. Software development costs incurred after establishing technological feasibility for software sold as a perpetual license, as defined within ASC 985-20 (Software – Costs of Software to be Sold, Leased, or Marketed), are capitalized and amortized on a product-by-product basis when the product is available for general release to customers. Software development costs are evaluated for impairment annually by comparing the net realizable value to the unamortized capitalized costs and writing these costs down to net realizable value.

Stock-Based Compensation

The Company accounts for employee and non-employee stock-based compensation in accordance with ASC 718-10, "Share-Based Payment," which requires the measurement and recognition of compensation expense for all share-based payment awards made to employees and directors including stock options, restricted stock units, and employee stock purchases based on estimated fair values. The stock-based compensation carries a graded vesting feature subject to the condition of time of employment service with awarded stock-based compensation tranches vesting evenly upon the anniversary date of the award.

The Company estimates the fair value of stock options granted using the Black-Scholes option-pricing formula. In accordance with ASC 718-10-35-8, the Company elected to recognize the fair value of the stock award using the graded vesting method as time of employment service is the criteria for vesting. The Company's determination of fair value using an option-pricing model is affected by the stock price as well as assumptions regarding a number of highly subjective variables.

The Company estimates volatility based upon the historical stock price of the Company and estimates the expected term for stock options using the simplified method for employees and directors and the contractual term for non-employees. The risk-free rate is determined based upon the prevailing rate of United States Treasury securities with similar maturities.

Revenue Recognition

The Company follows Accounting Standards Codification 606, Revenue from Contracts with Customers ("ASC 606"), that affects the timing of when certain types of revenues will be recognized. The basic principles in ASC 606 include the following: a contract with a customer creates distinct contract assets and performance obligations, satisfaction of a performance obligation creates revenue, and a performance obligation is satisfied upon transfer of control to a good or service to a customer.

Revenue is recognized by evaluating our revenue contracts with customers based on the five-step model under ASC 606:

1. Identify the contract with the customer;
2. Identify the performance obligations in the contract;
3. Determine the transaction price;

4. Allocate the transaction price to separate performance obligations; and
5. Recognize revenue when (or as) each performance obligation is satisfied.

The Company generates revenue from four sources:

(1) Technology Systems

(2) AI Technologies

(3) Technical Support

(4) Consulting Services

Technology Systems

For revenues related to technology systems, the Company recognizes revenue over time using a cost-based input methodology in which significant judgment is required to estimate costs to complete projects. These estimated costs are then used to determine the progress towards contract completion and the corresponding amount of revenue to recognize.

Accordingly, the Company now bases its revenue recognition on ASC 606-10-25-27, where control of a good or service transfers over time if the entity's performance does not create an asset with an alternative use to the entity and the entity has an enforceable right to payment for performance completed to date including a profit margin or reasonable return on capital. Control is deemed to pass to the customer instantaneously as the goods are manufactured and revenue is recognized accordingly.

In addition, the Company has adopted ASC 606-10-55-21 such that if the cost incurred is not proportionate to the progress in satisfying the performance obligation, we adjust the input method to recognize revenue only to the extent of the cost incurred. Therefore, the Company will recognize revenue at an equal amount to the

cost of the goods to satisfy the performance obligation. To accurately reflect revenue recognition based on the input method, the Company has adopted the implementation guidance as set out in ASC-606-10-55-187 through 192.

Under this method, contract revenues are recognized over the performance period of the contract in direct proportion to the costs incurred. Costs include direct material, direct labor, subcontract labor and other allocable indirect costs. All un-allocable indirect costs and corporate general and administrative costs are also charged to the periods as incurred. Any recognized revenues that have not been billed to a customer are recorded as an asset in "contract assets". Any billings of customers more than recognized revenues are recorded as a liability in "contract liabilities". However, in the event a loss on a contract is foreseen, the Company will recognize the loss when such loss is determined to be both probable and reasonably estimable.

AI Technologies

The Company has revenue from applications that incorporate artificial intelligence (AI) in the form of predetermined algorithms which provide important operating information to the users of our systems. The revenue generated from these applications of AI consists of a fixed fee related to the design, development, testing and incorporation of new algorithms into the system, which is recognized as revenue at a point in time upon acceptance, as well as an annual application maintenance fee, which is recognized as revenue ratably over the contracted maintenance term.

Technical Support

Technical support services are provided on both an as-needed and extended-term basis and may include providing both parts and labor. Maintenance and technical support provided outside of a maintenance contract are on an "as-requested" basis, and revenue is recognized over time as the services are provided. Revenue for maintenance and technical support provided on an extended-term basis is recognized over time ratably over the term of the contract.

Consulting Services

The Company's consulting services business generates revenues under contracts with customers from three sources: (1) Professional Services (consulting and auditing); (2) Customer service training and (3) Maintenance/support.

(1) Revenues for professional services, which are of short-term duration, are recognized when services are completed;

(2) Training sales are one-time upfront short-term training sessions and are recognized after the service has been performed; and

(3) Maintenance/support is an optional product sold to our software license customers under one-year or longer contracts. Accordingly, maintenance payments received upfront are deferred and recognized over the contract term.

Multiple Performance Obligations and Allocation of Transaction Price

Arrangements with customers may involve multiple performance obligations including project revenue and maintenance services in our Technology Systems business. Maintenance will occur after the project is completed and may be provided on an extended-term basis or on an as-needed basis. In our consulting services business, multiple performance obligations may include any of the above four sources. Training and maintenance on software products may occur after the software product sale while other services may occur before or after the software product sale and may not relate to the software product. Revenue recognition for a multiple performance obligations arrangement is as follows:

Each performance obligation is accounted for separately when each has value to the customer on a standalone basis and there is Company specific objective evidence of the selling price of each deliverable. For revenue arrangements with multiple deliverables, the Company allocates the total customer arrangement to the separate units of accounting based on their relative selling prices as determined by the price of the items when sold separately. Once the selling price is allocated, the revenue for each performance obligation is recognized using the applicable criteria under GAAP as discussed above for performance obligations sold in single performance obligation arrangements. A delivered item or items that do not qualify as a separate unit of accounting within the arrangement are combined with the other applicable undelivered items within the arrangement. The allocation of arrangement consideration and the recognition of revenue is then determined for those combined deliverables as a single unit of accounting. The Company sells its various services and software and hardware products at established prices on a standalone basis which provides Company specific objective evidence of selling price for purposes of performance obligations relative selling price allocation. The Company only sells maintenance services or spare parts based on its established rates after it has completed a system integration project for a customer. The customer is not required to purchase maintenance services. All elements in multiple performance obligations arrangements with Company customers qualify as separate units of account for revenue recognition purposes.

Leases

The Company follows ASC 842 "Leases". This guidance requires lessees to recognize right-of-use ("ROU") assets and lease liabilities for most operating leases. In addition, this guidance requires that lessors separate lease and non-lease components in a contract in accordance with the revenue guidance in ASC 606.

The Company made an accounting policy election to not recognize short-term leases with terms of twelve months or less on the balance sheet and instead recognize the lease payments as an expense when incurred. The Company has also elected to account for real estate leases that contain both lease and non-lease components as a single lease component.

At the inception of a contract the Company assesses whether the contract is, or contains, a lease. The Company's assessment is based on: (1) whether the contract involves the use of a distinct identified asset, (2) whether we obtain the right to substantially all the economic benefit from the use of the asset throughout the period,

and (3) whether we have the right to direct the use of the asset.

Operating ROU assets represent the right to use the leased asset for the lease term and operating lease liabilities are recognized based on the present value of minimum lease payments over the lease term at commencement date. As most leases do not provide an implicit rate, the Company uses an incremental borrowing rate based on the information available at the lease commencement date to determine the present value of future payments. The lease term includes all periods covered by renewal and termination options where the Company is reasonably certain to exercise the renewal options or not to exercise the termination options. Operating lease expense is recognized on a straight-line basis over the lease term and is included in general and administration expenses in the consolidated statements of operations.

Earnings (Loss) Per Share

Basic earnings per share (EPS) are computed by dividing the net loss applicable to common stock by the weighted average number of common shares outstanding. Diluted net loss per common share is computed by dividing the net loss applicable to common stock by the weighted average number of common shares outstanding for the period and, if dilutive, potential common shares outstanding during the period. Potential common shares consist of the incremental common shares issuable upon the exercise or conversion of stock options, stock warrants, convertible debt instruments, convertible preferred stock or other common stock equivalents. Potentially dilutive securities are excluded from the computation if their effect is anti-dilutive.

At June 30, 2024, there were (i) an aggregate of 44,644 outstanding warrants to purchase shares of common stock, (ii) employee stock options to purchase an aggregate of 1,340,903 shares of common stock, (iii) 506,333 common shares issuable upon conversion of Series D Convertible Preferred Stock, and (iv) subject to receipt of shareholder approval, 4,541,667 common shares issuable upon conversion of Series E Convertible Preferred Stock, all of which were excluded from the computation of diluted net earnings per share because their inclusion would have been anti-dilutive.

At June 30, 2023, there were (i) an aggregate of 80,091 outstanding warrants to purchase shares of common stock, (ii) employee stock options to purchase an aggregate of 1,217,775 shares of common stock, (iii) 433,000 common shares issuable upon conversion of Series D Convertible Preferred Stock and (iv) 1,333,334 common shares issuable upon conversion of Series E Convertible Preferred Stock, all of which were excluded from the computation of diluted earnings per share because their inclusion would have been anti-dilutive.

Recent Accounting Pronouncements

From time to time, the FASB or other standards setting bodies will issue new accounting pronouncements. Updates to the FASB ASC are communicated through issuance of an Accounting Standards Update ("ASU").

In November 2023, the FASB issued ASU 2023-07 Segment Reporting (Topic 280): Improvements to Reportable Segment Disclosures. ASU 2023-07 requires companies to disclose significant segment expenses that are regularly provided to the chief operating decision maker. ASU 2023-07 is effective for annual periods beginning on January 1, 2024 and interim periods beginning on January 1, 2025. ASU 2023-07 must be applied retrospectively to all prior periods presented in the financial statements. The Company has evaluated the disclosure impact of ASU 2023-07; and determined the standard will not have an impact on the Company's consolidated financial statements.

In December 2023, the FASB issued ASU No. 2023-09 Income Taxes (Topic 740): Improvements to Income Tax Disclosures. ASU 2023-09 requires companies to disclose, on an annual basis, specific categories in the effective tax rate reconciliation and provide additional information for reconciling items that meet a quantitative threshold. Further, ASU 2023-09 requires companies to disclose additional information about income taxes paid. ASU 2023-09 is effective for annual periods beginning January 1, 2025 and will be applied on a prospective basis with the option to apply the standard retrospectively. The Company is evaluating the disclosure impact of ASU 2023-09; however, the standard will not have an impact on the Company's consolidated financial statements.

Management does not believe that any other recently issued, but not yet effective accounting pronouncements, if adopted, would have a material effect on the accompanying financial statements.

NOTE 2 – LIQUIDITY

Under Accounting Codification ASC 205, Presentation of Financial Statements—Going Concern (Subtopic 205-40) ("ASC 205-40"), the Company has the responsibility to evaluate whether conditions and/or events raise substantial doubt about its ability to meet its future financial obligations as they become due within one year after the date that the financial statements are issued. As required by ASC 205-40, this evaluation shall initially not take into consideration the potential mitigating effects of plans that have not been fully implemented as of the date the financial statements are issued. Management has assessed the Company's ability to continue as a going concern in accordance with the requirement of ASC 205-40.

As reflected in the accompanying consolidated financial statements, the Company had a net loss of $5,956,480 for the six months ended June 30, 2024. During the same period, cash used in operating activities was $3,940,984. The working capital deficit and accumulated deficit as of June 30, 2024, were $2,380,098 and $69,560,032, respectively. In previous financial reports, the Company had raised substantial doubt about continuing as a going concern. This was principally due to a lack of working capital prior to underwritten offerings and private placements which were completed during 2022, 2023, and now the first and second quarters of 2024 as well.

As previously noted, the Company was successful during 2023 in raising gross proceeds of over $11,500,000 from the sale of Series E and F Preferred Stock. Additionally, in the first and second quarters of 2024, the Company raised gross proceeds of $2,995,000 from the issuance of a combination of Series D and E Preferred Stock (See Note 6). As part of its strategy, the Company will endeavor to utilize the Preferred Series E and the remainder of the Series D as additional funding mechanisms. Additionally, during the second quarter of 2024 the Company entered into an ATM Sales Agreement (the "Sales Agreement") with Ascendiant Capital Markets, LLC (the "Sales Agent" or "ACM") relating to the sale of our common stock, par value $0.001 per share, pursuant to the prospectus dated May 17,

2024. In accordance with the terms of the Sales Agreement, we may offer and sell shares of our common stock bearing an aggregate offering price of up to $7,500,000 from time to time through or to ACM, acting as an agent or principal. On July 22, 2024, the Company, through its wholly owned subsidiary Duos Edge AI, Inc., entered into secured promissory notes totaling $2.2 million in funding with two institutional investors. These notes mature on December 31, 2025, and bear an interest rate of 10% per annum, with all principal and accrued interest due at maturity. The proceeds are designated exclusively for the equipment and services required for the installation of the Company's previously announced edge data centers. In the long run, the continuation of the Company as a going concern is dependent upon the ability of the Company to continue executing its business plan, generate enough revenue, and attain consistently profitable operations. Although the lingering effects of the global pandemic related to the coronavirus (Covid-19) previously affected our operations, particularly in our supply chain, we now believe that the supply chain lags have largely been abated.

In the long run, the continuation of the Company as a going concern is dependent upon the ability of the Company to continue executing its business plan and growing the Company sufficiently to generate enough revenue to attain consistently profitable operations. The Company cannot currently quantify the uncertainty related to previous supply chain delays or the persistence of inflation and their effects on our customers in the coming quarters. We have analyzed our cash flow under “stress test” conditions and have determined that we have sufficient liquid assets on hand, forthcoming with ongoing business or available via the capital markets to maintain operations for at least twelve months from the date of this report.

In addition, management has been taking and continues to take actions including, but not limited to, elimination of certain costs that do not contribute to short term revenue, and re-aligning both management and staffing with a focus on improving certain skill sets necessary to build growth and profitability and focusing product strategy on opportunities that are likely to bear results in the relatively short term. The Company believes that, as described above, it will have sufficient sources of working capital to meet its obligations over the following twelve months. In the last twelve months the Company has experienced relatively steady contracted backlog as well as seen positive signs from new commercial engagements that indicate improvements in future commercial opportunities for both one-time capital and recurring services revenues.

Management believes that, at this time, the conditions in our market space with ongoing contract delays, the consequent need to procure certain materials in advance of a binding contract and the additional time needed to execute on new contracts previously reported have put a strain on our cash reserves. However, proactive management of our existing contracts, recent stock offerings and private placements as well as the availability to raise capital via the Sales Agreement indicate there is no substantial doubt that the Company can continue as a going concern for a period of twelve months from the issuance date of this report. We continue executing the plan to grow our business and achieve profitability. The Company may selectively look at opportunities for fund raising in the future. Management has extensively evaluated our requirements for the next twelve months and has determined that the Company currently has sufficient cash and access to capital to operate for at least that period.

While no assurance can be provided, management believes that these actions provide the opportunity for the Company to continue as a going concern and to grow its business and achieve profitability with access to additional capital funding. Ultimately the continuation of the Company as a going concern is dependent upon the ability of the Company to continue executing the plan described above which was put in place in late 2022, continued in 2023, and will continue in 2024 and beyond. These consolidated financial statements do not include any adjustments related to the recoverability and classification of recorded asset amounts and classification of liabilities that might be necessary should the Company be unable to continue as a going concern.

NOTE 3 – INTANGIBLE ASSET

In May 2024, the Company recorded an intangible asset with a fair value of $11,161,428. This asset represents non-monetary consideration received under a 5-year customer contract, in which the Company will provide maintenance services to the customer. The intangible asset represents Digital Image data rights in the form of a license agreement received by the Company from the customer.

The fair value of the asset was determined on the contract inception date based on the standalone selling price of the service and goods to be provided to the customer under the 5-year contract since the Company could not reasonably estimate the fair value of the data rights received. The non-monetary transaction was accounted for in accordance with Accounting Standards Codification (ASC) 606-10-32-21 through ASC 606-10-32-24.

On the contract inception date, the Company also recorded an immediate amortization of the intangible asset of $199,008 related to the pre-contract costs incurred relating to a pilot program for this contract and recorded deferred revenue of $11,161,428 as contract liabilities with a current and non-current component, and then immediately recognized $199,008 of this deferred revenue relating to the completed pilot program. The remaining deferred revenue will be recognized over the 5-year term.

In accordance with ASC 350-30-35-1, the amortization for the intangible asset is based on its useful life and the useful life of an intangible asset is the period over which it is expected to contribute directly or indirectly to the future cash flows of that entity. Accordingly, amortization of the intangible asset is recognized over the life of the contract of five years.

In accordance with ASC 350-30-35-14, an intangible asset that is subject to amortization shall be reviewed for impairment if the carrying amount of the asset is not recoverable and exceeds its fair value. There is no indication of impairment at June 30, 2024.

Intangible asset at June 30, 2024 and December 31, 2023 consists of:

	June 30, 2024	December 31, 2023
Intangible Asset, gross	$ 11,161,428	$ —
Accumulated Amortization	(473,069)	—
Intangible Asset, net	$ 10,688,359	$ —

Amortization of the intangible asset during the six months ended June 30, 2024 and June 30 2023, was $473,069 and zero respectively.

The future amortization of the intangible asset is as follows:

Calendar Year	Amount
2024	$ 1,096,241

2025	2,192,484
2026	2,192,484
2027	2,192,484
2028	2,192,484
2029	822,182
Total Intangible Asset Amortization	$ 10,688,359

NOTE 4 – DEBT

Notes Payable - Financing Agreements

The Company's notes payable relating to financing agreements classified as current liabilities consist of the following as of June 30, 2024 and December 31, 2023:

	June 30, 2024		December 31, 2023	
Notes Payable	**Principal**	**Interest**	**Principal**	**Interest**
Third Party - Insurance Note 1	$ 124,311	8.25%	$ 39,968	8.00%
Third Party - Insurance Note 2	16,316	—	2,008	—
Third Party - Insurance Note 3	100,825	—	—	—
Total	$ 241,452	—	$ 41,976	—

The Company entered into an agreement on April 15, 2023 with its insurance provider by issuing a note payable (Insurance Note 1) for the purchase of an insurance policy in the amount of $142,734, secured by that policy with an annual interest rate of 8.00% and payable in 11 monthly installments of principal and interest totaling $13,501. The Company renewed its agreement on April 15, 2024 with its insurance provider by issuing a note payable (Insurance Note 1) for the purchase of an insurance policy in the amount of $154,338, secured by that policy with an annual interest rate of 8.25% and payable in 10 monthly installments of principal and interest totaling $16,023. At June 30, 2024 and December 31, 2023, the balance of Insurance Note 1 was $124,311 and $39,968, respectively.

The Company renewed it's agreement on February 3, 2023 with its insurance provider by issuing a note payable (Insurance Note 2) for the purchase of an insurance policy in the amount of $24,140, and payable in 12 monthly installments of $2,012. The Company renewed it's agreement on February 3, 2024 with its insurance provider by issuing a note payable (Insurance Note 2) for the purchase of an insurance policy in the amount of $24,480, and payable in 12 monthly installments of $2,040. At June 30, 2024 and December 31, 2023, the balance of Insurance Note 2 was $16,316 and $2,008, respectively.

The Company entered into an agreement on February 3, 2024 with its insurance provider by issuing a note payable (Insurance Note 3) for the purchase of an insurance policy in the amount of $245,798 with a down payment paid in the amount of $84,473 in the first quarter of 2024 and ten monthly installments of $20,166. At June 30, 2024 and December 31, 2023, the balance of Insurance Note 3 was $100,825 and $0, respectively.

NOTE 5 – COMMITMENTS AND CONTINGENCIES

Operating Lease Obligations

On July 26, 2021, the Company entered a new operating lease agreement for office and warehouse combination space of 40,000 square feet, with the lease commencing on November 1, 2021 and ending April 30, 2032. This new space combines the Company's two separate work locations into one facility, which allows for greater collaboration and also accommodates a larger anticipated workforce and manufacturing facility. On November 24, 2021, the lease was amended to commence on December 1, 2021 and end on May 31, 2032. The Company recognized a ROU asset and operating lease liability in the amount of $4,980,104 at lease commencement. Rent for the first eleven months of the term was calculated based on 30,000 rentable square feet. The rent is subject to an annual escalation of 2.5%, beginning November 1, 2023. The Company made a security deposit payment in the amount of $600,000 on July 26, 2021. Per the contract, in the 18th month and every 12th month thereafter, the security deposit was reduced by $50,000. The right of use asset balance at June 30, 2024, net of accumulated amortization, was $4,204,593.

As of June 30, 2024, the office and warehouse lease is the Company's only lease with a term greater than twelve months. The office and warehouse lease has a remaining term of approximately 7.9 years and includes an option to extend for two renewal terms of five years each. The renewal options are not reasonably certain to be exercised, and therefore, they are not included when determining the lease term used to establish the right-of use asset and lease liability. The Company also has several short-term leases, primarily related to equipment. The Company made an accounting policy election to not recognize short-term leases with terms of twelve months or less on the consolidated balance sheet and instead recognize the lease payments in expense as incurred. The Company has also elected to account for real estate leases that contain both lease and non-lease components (such as common area maintenance) as a single lease component.

The following table shows supplemental information related to leases:

	Six Months Ended June 30,	
	2024	**2023**
Lease cost:		
Operating lease cost	$ 390,819	$ 390,819
Short-term lease cost	$ 10,916	$ 46,717
Other information:		
Operating cash outflow used for operating leases	$ 388,734	$ 316,040
Weighted average discount rate	9.0%	9.0%
Weighted average remaining lease term	8.0 years	9.0 years

As of June 30, 2024, future minimum lease payments due under our operating leases are as follows:

	Amount
Calendar year:	
2024	$ 390,353
2025	798,556
2026	818,518
2027	838,984
2028	859,856
Thereafter	3,183,571
Total undiscounted future minimum lease payments	6,889,838
Less: Impact of discounting	(2,048,510)
Total present value of operating lease obligations	4,841,328
Current portion, operating lease obligation	(788,801)
Operating lease obligations, less current portion	$ 4,052,527

NOTE 6 – STOCKHOLDERS' EQUITY

Series B Convertible Preferred Stock

The following summary of certain terms and provisions of our Series B Convertible Preferred Stock (the "Series B Convertible Preferred Stock") is subject to, and qualified in its entirety by reference to, the terms and provisions set forth in our certificate of designation of preferences, rights and limitations of Series B Convertible Preferred Stock (the "Series B Convertible Preferred Certificate of Designation") as previously filed. Subject to the limitations prescribed by our articles of incorporation, our board of directors is authorized to establish the number of shares constituting each series of preferred stock and to fix the designations, powers, preferences, and rights of the shares of each of those series and the qualifications, limitations and restrictions of each of those series, all without any further vote or action by our stockholders. Our board of directors designated 15,000 of the 10,000,000 authorized shares of preferred stock as Series B Convertible Preferred Stock with a stated value of $1,000 per share. The shares of Series B Convertible Preferred Stock were validly issued, fully paid and non-assessable.

Each share of Series B Convertible Preferred Stock was convertible at any time at the holder's option into a number of shares of common stock equal to $1,000 divided by the conversion price of $7.00 per share. Notwithstanding the foregoing, we could not effect any conversion of Series B Convertible Preferred Stock, with certain exceptions, to the extent that, after giving effect to an attempted conversion, the holder of shares of Series B Convertible Preferred Stock (together with such holder's affiliates, and any persons acting as a group together with such holder or any of such holder's affiliates) would beneficially own a number of shares of our common stock in excess of 4.99% (or, at the election of the purchaser, 9.99%) of the shares of our common stock then outstanding after giving effect to such conversion. The Series B Convertible Preferred Certificate of Designation does not prohibit the Company from waiving this limitation. Upon any liquidation, dissolution or winding-up of Company, whether voluntary or involuntary, the holders shall be entitled to participate on an as-converted-to-common stock basis (without giving effect to the Beneficial Ownership Limitation) with holders of the common stock in any distribution of assets of the Company to the holders of the common stock. As of June 30, 2024 and December 31, 2023, respectively, there are zero and zero shares of Series B Convertible Preferred Stock issued and outstanding.

Series C Convertible Preferred Stock

The Company's Board of Directors designated 5,000 shares as the Series C Convertible Preferred Stock (the "Series C Convertible Preferred Stock"). Each share of the Series C Convertible Preferred Stock had a stated value of $1,000. The holders of the Series C Convertible Preferred Stock, the holders of the common stock and the holders of any other class or series of shares entitled to vote with the common stock shall vote together as one class on all matters submitted to a vote of shareholders of the Company. Each share of Series C Convertible Preferred Stock has 172 votes (subject to adjustment); provided that in no event may a holder of Series C Convertible Preferred Stock be entitled to vote a number of shares in excess of such holder's Beneficial Ownership Limitation (as defined in the Certificate of Designation and as described below). Each share of Series C Convertible Preferred Stock was convertible, at any time and from time to time, at the option of the holder, into that number of shares of common stock (subject to the Beneficial Ownership Limitation) determined by dividing the stated value of such share ($1,000) by the conversion price, which is $5.50 (subject to adjustment). The Company shall not effect any conversion of the Series C Convertible Preferred Stock, and a holder shall not have the right to convert any portion of the Series C Convertible Preferred Stock, to the extent that after giving effect to the conversion sought by the holder such holder (together with such holder's Attribution Parties (as defined in the Certificate of Designation)) would beneficially own more than 4.99% (or upon election by a holder, 19.99%) of the number of shares of common stock outstanding immediately after giving effect to the issuance of shares of common stock issuable upon such conversion (the "Beneficial Ownership Limitation"). All holders of the Series C Preferred Stock elected the 19.99% Beneficial Ownership Limitation.

On February 26, 2021, the Company entered into a Securities Purchase Agreement (the "Purchase Agreement") with certain existing investors in the Company (the "Purchasers"). Pursuant to the Purchase Agreement, the Purchasers purchased 4,500 shares of a newly authorized Series C Convertible Preferred Stock, and the Company received proceeds of $4,500,000. The Purchase Agreement contains customary representations, warranties, agreements and indemnification rights and obligations of the parties. In January 2022, the 2,500 outstanding shares of Series C Convertible Preferred Stock were converted into 454,546 shares of common stock. As of June 30, 2024 and December 31, 2023, respectively, there were zero and zero shares of Series C Convertible Preferred Stock issued and outstanding.

In connection with the Purchase Agreement, the Company also entered into a Registration Rights Agreement with the Purchasers. Pursuant to the Registration Rights Agreement, the Company filed with the SEC a registration statement covering the resale by the Purchasers of the shares of common stock into which the shares of Series C Convertible Preferred Stock were convertible. The Registration Rights Agreement contains customary representations, warranties, agreements and indemnification rights and obligations of the parties.

Series D Convertible Preferred Stock

On September 28, 2022, the Company amended its articles of incorporation to designate 4,000 shares as the Series D Convertible Preferred Stock (the "Series D Convertible Preferred Stock"). Each share of the Series D Convertible Preferred Stock has a stated value of $1,000. The holders of the Series D Convertible Preferred Stock, the holders of the common stock and the holders of any other class or series of shares entitled to vote with the common stock shall vote together as one class on all matters submitted to a vote of shareholders of the Company. Each share of Series D Convertible Preferred Stock has 333 votes (subject to standard anti-dilution adjustment); provided that in no event may a holder of Series D Convertible Preferred Stock be entitled to vote a number of shares in excess of such holder's Beneficial Ownership Limitation (as defined in the Certificate of Designation and as described below). Each share of Series D Convertible Preferred Stock is convertible, at any time and from time to time, at the option of the holder, into that number of shares of common stock (subject to the Beneficial Ownership Limitation) determined by dividing the stated value of such share ($1,000) by the conversion price, which is $3.00 (subject to adjustment). The Company shall not effect any conversion of the Series D Convertible Preferred Stock, and a holder shall not have the right to convert any portion of the Series D Convertible Preferred Stock, to the extent that after giving effect to the conversion sought by the holder such holder (together with such holder's Attribution Parties (as defined in the Certificate of Designation)) would beneficially own more than 4.99% (or upon election by a holder, 19.99%) of the number of shares of common stock outstanding immediately after giving effect to the issuance of shares of common stock issuable upon such conversion (the "Beneficial Ownership Limitation"). All but one of the holders of the Series D Preferred Stock elected the 19.99% Beneficial Ownership Limitation. The Company shall reserve and keep available out of its authorized and unissued Common Stock, solely for the issuance upon the conversion of the Series D Convertible Preferred Stock, such a number of shares of Common Stock as shall from time to time be issuable upon the conversion of all of the shares of the Series D Convertible Preferred Stock then outstanding. Additionally, the Series D Convertible Preferred Stock does not have the right to dividends and in the event of an involuntary liquidation, the Series D shares shall be treated as a pro rata equivalent of common stock outstanding at the date of the liquidation event and have no liquidation preference.

On September 30, 2022, the Company entered into a Securities Purchase Agreement (the "Purchase Agreement") with certain existing investors in the Company (the "Purchasers"). Pursuant to the Purchase Agreement, the Purchasers purchased 999 shares of the newly authorized Series D Convertible Preferred Stock, and the Company received proceeds of $999,000. The Purchase Agreement contains customary representations, warranties, agreements and indemnification rights and obligations of the parties. On October 29, 2022, the Company entered into a Securities Purchase Agreement (the "Purchase Agreement") with a certain existing investor in the Company (the "Purchaser"). Pursuant to the Purchase Agreement, the Purchaser purchased 300 shares of the newly authorized Series D Convertible Preferred Stock, and the Company received proceeds of $300,000. The Purchase Agreement contains customary representations, warranties, agreements and indemnification rights and obligations of the parties.

On May 16, 2023, the Series D Convertible Preferred Stock was approved for conversion to common shares during the Company's annual shareholder meeting.

On March 22, 2024 and March 28, 2024, the Company entered into Securities Purchase Agreements (the "Purchase Agreements") with certain existing and other accredited investors (the "2024 Purchaser"). Pursuant to the Purchase Agreements, the 2024 Purchasers purchased an aggregate of 620 shares of Series D Preferred Stock, at a price of $1,000 per share, and the Company received proceeds of $620,000.

On April 3, 2024, the Company entered into a Securities Purchase Agreement (the "Purchase Agreement") with an accredited investor (the "2024 Purchaser"). Pursuant to the Purchase Agreement, the 2024 Purchasers purchased an aggregate of 250 shares of Series D Preferred Stock, at a price of $1,000 per share, and the Company received proceeds of $250,000.

In April and May of 2024, 650 outstanding shares of Series D Convertible Preferred Stock were converted into 216,668 shares of common stock. As of June 30, 2024 and December 31, 2023, respectively, there were 1,519 and 1,299 shares of Series D Convertible Preferred Stock issued and outstanding.

In connection with such Purchase Agreements, the Company entered into Registration Rights Agreements and filed registration statements with the SEC covering the resale by the Purchasers of the shares of common stock into which the shares of Series D Convertible Preferred Stock are convertible. The Registration Rights Agreements contain customary representations, warranties, agreements and indemnification rights and obligations of the parties.

The Registration Rights Agreements contain provisions for liquidated damages equal to 1% multiplied by the aggregate subscription amount paid, paid each month, in the event certain deadlines are missed.

Series E Convertible Preferred Stock

The Company's Board of Directors has designated 30,000 shares as the Series E Convertible Preferred Stock (the "Series E Convertible Preferred Stock"). Each share of the Series E Convertible Preferred Stock has a stated value of $1,000. The holders of the Series E Convertible Preferred Stock, the holders of the common stock and the holders of any other class or series of shares entitled to vote with the common stock shall vote as one class on all matters submitted to a vote of shareholders of the Company. Each share of Series E Convertible Preferred Stock has 333 votes (subject to adjustment); provided that in no event may a holder of Series E Convertible Preferred Stock be entitled to vote a number of shares in excess of such holder's Beneficial Ownership Limitation. Each share of Series E Convertible Preferred Stock is convertible, subject to shareholder approval (which has not yet been granted); at any time and from time to time, at the option of the holder, into that number of shares of common stock (subject to the Beneficial Ownership Limitation) determined by dividing the stated value of such share ($1,000) by the conversion price, which is $3.00 (subject to adjustment). The Company shall not effect any conversion of the Series E Convertible Preferred Stock, and the holder shall not have the right to convert any portion of the Series E Convertible Preferred Stock, to the extent that after giving effect to the conversion sought by the holder such holder (together with such holder's Attribution Parties (as defined in the Certificate of Designation)) would beneficially own more than 4.99% (or upon election by a holder, 19.99%) of the number of shares of common stock outstanding immediately after giving effect to the issuance of shares of common stock issuable upon such conversion (the "Beneficial Ownership Limitation"). All but one of the holders of the Series E Preferred Stock elected the 19.99% Beneficial Ownership Limitation.

The Company on March 27, 2023 entered into a Securities Purchase Agreement (the "Purchase Agreement") with an existing investor in the Company (the "Purchaser"). Pursuant to the Purchase Agreement, the Purchaser purchased 4,000 shares of a newly authorized Series E Convertible Preferred Stock at a price of $1,000 per share, and the Company received proceeds of $4,000,000. The Purchase Agreement contains customary representations, warranties, agreements and indemnification rights and obligations of the parties.

The existing investor's Purchase Agreement also provides that the Company will not, with certain exceptions, sell or issue common stock or Common Stock Equivalents (as defined in the Purchase Agreement) on or prior to December 31, 2023 that entitles any person to acquire shares of common stock at an effective price per share less than the then conversion price of the Series E Convertible Preferred Stock without the consent of the Purchaser.

On November 9, 2023, the Company entered into a Securities Purchase Agreement (the "Purchase Agreement") with an existing investor in the Company (the "Purchaser"). Pursuant to the Purchase Agreement, the Purchaser purchased 2,500 shares of authorized Series E Convertible Preferred Stock, at a price of $1,000 per share, and the Company received proceeds of $2,500,000.

The November Purchase Agreement also provides that the Company will not, with certain exceptions, sell or issue common stock or Common Stock Equivalents (as defined in the November Purchase Agreement) on or prior to June 30, 2024 that entitles any person to acquire shares of common stock at an effective price per share less than the then conversion price of the Series E Convertible Preferred Stock without the consent of the Purchasers. The conversion price of the Series E Convertible Preferred Stock currently is $3.00 per share (subject to adjustment). If the company sells shares less than the then conversion price, then the series E conversion price will be amended to that lower share price. As of June 30, 2024 there were no share sales at less than the $3.00 conversion price and this anti-dilution provision expired.

The Purchasers under the November Purchase Agreement also were the holders of the Company's Series F Convertible Preferred Stock issued on August 1, 2023. The purchase agreement relating to the shares of Series F Convertible Preferred Stock required the consent of the holders in the event the Company were to issue common stock or rights to acquire common stock prior to December 31, 2023 at an effective price per share less than the then conversion price of the Series F Convertible Preferred Stock, which was $6.20 per share. As a result, on November 10, 2023 the Company and the holders of the Series F Convertible Preferred Stock entered into Exchange Agreements pursuant to which the holders of Series F Convertible Preferred Stock exchanged their 5,000 shares of Series F Convertible Preferred Stock for an equal number of shares of Series E Convertible Preferred Stock. As a result of the November Purchase Agreement and the Exchange Agreements, the Company issued a total of 7,500 shares of Series E Convertible Preferred Stock and the 5,000 shares of Series F Convertible Preferred Stock were cancelled.

On March 22, 2024 and March 28, 2024, the Company entered into Securities Purchase Agreements (the "Purchase Agreements") with certain existing and other accredited investors (the "2024 Purchasers"). Pursuant to the Purchase Agreements, the 2024 Purchasers purchased an aggregate of 2,125 shares of Series E Convertible Preferred Stock, at a price in each case of $1,000 per share, and the Company received proceeds of $2,125,002.

As of June 30, 2024 and December 31, 2023, respectively, there were 13,625 and 11,500 shares of Series E Convertible Preferred Stock issued and outstanding.

In connection with such Purchase Agreements, the Company also entered into Registration Rights Agreements with the Purchasers. Pursuant to the Registration Rights Agreements, the Company filed with the SEC registration statements covering the resale by the Purchasers of the shares of common stock into which the shares of Series E Convertible Preferred Stock are convertible. The Registration Rights Agreements contain customary representations, warranties, agreements and indemnification rights and obligations of the parties.

The Registration Rights Agreements contain provisions for liquidated damages equal to 1% multiplied by the aggregate subscription amount paid, paid each month, in the event certain deadlines are missed.

Series F Convertible Preferred Stock

On August 2, 2023, the Company entered into a Securities Purchase Agreement (the "Purchase Agreement") with an existing, accredited investor in the Company (the "Purchaser"). Pursuant to the Purchase Agreement, the Purchaser purchased 5,000 shares of a newly authorized Series F Convertible Preferred Stock (the "Series F Convertible Preferred Stock"), and the Company received proceeds of $5,000,000. The Purchase Agreement contains customary representations, warranties, agreements and indemnification rights and obligations of the parties.

The Company's Board of Directors designated 5,000 shares as the Series F Preferred Stock. Each share of Series F Preferred Stock is convertible, at any time and from time to time, at the option of the holder, into that number of shares of common stock (subject to the beneficial ownership limitation described below) determined by dividing the stated value of such share ($1,000) by the conversion price, which is $6.20 (subject to adjustment) which equates to 161 common shares for each converted Series F preferred share. The Company, however, shall not effect any conversion of the Series F Preferred Stock, and the holder shall not have the right to convert any portion of the Series F Preferred Stock, to the extent that after giving effect to the conversion sought by the holder such holder (together with such holder's Attribution Parties (as defined in the Certificate of Designation)) would beneficially own more than 4.99% (or upon election by a holder, 19.99%) of the number of shares of common stock outstanding immediately after giving effect to the issuance of shares of common stock issuable upon such conversion. The purchasers of the Series F Preferred Stock elected that their ownership limitation would be 19.99%.

The holders of the Series F Preferred Stock, the holders of the common stock and the holders of any other class or series of shares entitled to vote with the common stock shall vote together as one class on all matters submitted to a vote of shareholders of the Company. Each share of Series F Preferred Stock had 161 votes (subject to adjustment); provided that in no event may a holder of Series F Preferred Stock be entitled to vote a number of shares in excess of such holder's ownership limitation.

The Company also agreed that it would not, with certain exceptions, sell or issue common stock or Common Stock Equivalents (as defined in the Purchase Agreement relating to the Series F Preferred Stock) on or prior to December 31, 2023 that entitled any person to acquire shares of common stock at an effective price per share less than the then conversion price of the Series F Preferred Stock without the consent of the holders. As a result of that agreement, upon the issuance of 2,500 shares of Series E Preferred Stock (which have a conversion price of $3.00 per share) on November 10, 2023, the holders exchanged their 5,000 shares of Series F Preferred Stock for 5,000 shares of Series E Preferred Stock. All of the shares of Series F Preferred Stock thereupon were cancelled with 0 shares now outstanding.

As of June 30, 2024 and December 31, 2023, respectively, there were zero and zero shares of Series F Convertible Preferred Stock issued and outstanding.

Common stock issued

Six Months Ended June 30, 2024

During the three months ended March 31, 2024, the Company issued 8,655 shares of common stock for payment of board fees to four directors in the amount of $37,500 for services to the board which was expensed during the three months ended March 31, 2024. The volume-weighted average price (VWAP) per share is $4.33.

On April 23, 2024, two shareholders converted 147 and 78 for a total of 225 shares of Series D Convertible Preferred Stock collectively with a stated value of $225,000 with a conversion price of $3.00 per common share resulting in the issuance of 49,000 and 26,000 shares of the Company's common stock.

On April 30, 2024, two shareholders converted 100 and 250 for a total of 350 shares of Series D Convertible Preferred Stock collectively with a stated value of $350,000

entities with a conversion price of $3.00 per common share resulting in the issuance of 33,334 and 83,334 shares of the Company's common stock.

On May 7, 2024, a shareholder converted 75 shares of Series D Convertible Preferred Stock with a stated value of $75,000 with a conversion price of $3.00 per common share resulting in the issuance of 25,000 shares of the Company's common stock.

On May 17, 2024, the Company entered into an At-the-Market Issuance Sales Agreement (the "Sales Agreement") with Ascendiant Capital Markets, LLC, as sales agent (the "Agent") providing for the sale by the Company of shares of our common stock, par value $0.001 per share, having an aggregate offering price of up to $7,500,000 from time to time through the Agent in connection with an "at-the-market" equity offering program (the "ATM Offering") as defined in Rule 415 under the Securities Act of 1933, as amended (the "Securities Act"). On May 17, 2024, the Company filed a prospectus supplement with the Securities and Exchange Commission ("SEC") relating to the offer and sale of up to $7,500,000 of common stock in the ATM Offering.

On June 12, 2024, the Company issued 11,239 shares of common stock at a price of $3.05 per share through its At-The-Market (ATM) offering program, generating total net proceeds of approximately $33,261.

On June 13, 2024, the Company issued 9,747 shares of common stock at a price of $3.15 per share through its At-The-Market (ATM) offering program, generating total net proceeds of approximately $29,626.

On June 17, 2024, the Company issued 400 shares of common stock at a price of $3.02 per share through its At-The-Market (ATM) offering program, generating total net proceeds of approximately $1,165.

On June 18, 2024, the Company issued 1,534 shares of common stock at a price of $3.03 per share through its At-The-Market (ATM) offering program, generating total net proceeds of approximately $4,507.

On June 25, 2024, the Company issued 15,610 shares of common stock at a price of $3.15 per share through its At-The-Market (ATM) offering program, generating total net proceeds of approximately $47,004.

In summary during the three months ended June 30, 2024, the Company issued an aggregate of 38,530 shares of common stock through its At-The-Market (ATM) offering program, generating total net proceeds of approximately $115,563.

During the three months ended June 30, 2024, the Company issued 15,041 shares of common stock for payment of board fees to four directors in the amount of $42,500 for services to the board which was expensed during the three months ended June 30, 2024. The volume-weighted average price (VWAP) per share used to value the services is $2.83.

On June 30, 2024, the Company issued 38,041 shares of common stock to employees participating in the Company's Employee Stock Purchase Plan at the end of a six-month offering period. The employee contributions totaled $87,348 for the six months ended June 30, 2024 which represented a purchase price of approximately $2.30 per share. The purchase price for one share of Common Stock under the ESPP is equal to 85% of the fair market value of one share of Common Stock on the first trading day of the offering period or the purchase date, whichever is lower (see below).

The Company also recognized compensation expense of $40,589 for the six months ended June 30, 2024.

Six Months Ended June 30, 2023

During the three months ended March 31, 2023, the Company issued 12,463 shares of common stock for payment of board fees to three directors in the amount of $32,500 for services to the board which was expensed during the three months ended March 31, 2023. The volume-weighted average price (VWAP) per share is $2.61.

During the three months ended June 30, 2023, the Company issued 5,645 shares of common stock for payment of board fees to three directors in the amount of $32,500 for services to the board which was expensed during the three months ended June 30, 2023. The volume-weighted average price (VWAP) per share is $5.76.

On June 30, 2023, the Company issued 65,561 shares of common stock to employees participating in the Company's Employee Stock Purchase Plan at the end of a six-month offering period. The employee contributions totaled $117,048 for the six months ended June 30, 2023 and represented a purchase price of $1.79 per share. The purchase price for one share of Common Stock under the ESPP is equal to 85% of the fair market value of one share of Common Stock on the first trading day of the offering period or the purchase date, whichever is lower (see below).

Employee Stock Purchase Plan

In the fourth quarter of 2022, the board of directors adopted an Employee Stock Purchase Plan ("ESPP") which was effective as of January 1, 2023 with a term of 10 years. The ESPP allows eligible employees to purchase shares of the Company's common stock at a discounted price, through payroll deductions from a minimum of 1% and up to 25% of their eligible compensation up to a maximum of $25,000 or the IRS allowable limit per calendar year. The Company's Chief Financial Officer administers the ESPP in conjunction with approvals from the Company's Compensation Committee, including with respect to the frequency and duration of offering periods, the maximum number of shares that an eligible employee may purchase during an offering period, and, subject to certain limitations set forth in the ESPP, the per-share purchase price. Currently, the maximum number of shares that can be purchased by an eligible employee under the ESPP is 10,000 shares per offering period and there are two six-month offering periods that begin in the first and third quarters of each fiscal year. The purchase price for one share of Common Stock under the ESPP is currently equal to 85% of the fair market value of one share of Common Stock on the first trading day of the offering period or the purchase date, whichever is lower (look-back feature). Although not required by the ESPP, all payroll deductions received or held by the Company under the ESPP are segregated until the completion of the offering period and redemption of the applicable shares and those withheld amounts are recorded as liabilities. The maximum aggregate number of shares of the Common Stock that may be issued under the ESPP is 1,000,000 shares.

Under ASC 718-50 "Employee Share Purchase Plans" the plan is considered a compensatory plan and the compensation for each six-month offering period is computed based upon the grant date (that is the first date of each offering period) fair value of the estimated shares to be purchased based on the estimated payroll deduction withholdings. Each grant date fair value is computed as the sum of (a) 15% purchase discount off of the grant date quoted trading price of the Company's common stock and (b) the fair value of the look-back feature of the Company's common stock on the grant date which consists of a call option on 85% of a share of common stock and a put option on 15% of a share of common stock.

DUOS TECHNOLOGIES GROUP, INC. AND SUBSIDIARIES
CONDENSED NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
June 30, 2024
(Unaudited)

The Company computed the fair value of the look-back feature call and put options for January 1, 2024 to June 30, 2024 using a Black Scholes option pricing model using the following assumptions:

	At June 30, 2024
Grant date share price at January 1, 2024	$ 2.70
Grant date exercise price	$ 2.30
Expected term	0.5 years
Expected volatility	67.3%
Risk-free rate	5.26%
Expected dividend rate	0%

During the offer period, the Company records stock-based compensation pro rata as an expense and a credit to additional paid-in capital. The Company issued 38,041 and 65,561 common shares on the option exercise date of June 30, 2024 and June 30, 2023 as follows:

	At June 30, 2024
Cash from employee withholdings used to purchase ESPP shares	$ 87,348
Stock based compensation expense	40,589
Total charges related to the Employee Stock Purchase Plan	$ 127,937

	At June 30, 2023
Cash from employee withholdings used to purchase ESPP shares	$ 117,048
Stock based compensation expense	66,217
Total charges related to the Employee Stock Purchase Plan	$ 183,265

Stock-Based Compensation

Stock-based compensation expense recognized under ASC 718-10 for the six months ended June 30, 2024 and 2023, was $201,109 and $236,527, respectively, for stock options granted to employees. This expense is included in general and administrative expenses in the unaudited consolidated statements of operations. Stock-based compensation expense recognized during the periods is based on the grant-date fair value of the portion of share-based payment awards that are ultimately expected to vest during the period. At June 30, 2024, the total compensation cost for stock options not yet recognized was $315,069. This cost will be recognized over the remaining vesting term of the options ranging from six months to two and one-half years.

DUOS TECHNOLOGIES GROUP, INC. AND SUBSIDIARIES
CONDENSED NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
June 30, 2024
(Unaudited)

On May 12, 2021, the Board adopted, with shareholder approval, the 2021 Equity Incentive Plan (the "2021 Plan") providing for the issuance of up to 1,000,000 shares of our common stock. The purpose of the 2021 Plan is to assist the Company in attracting and retaining key employees, directors and consultants and to provide incentives to such individuals to align their interests with those of our shareholders. During the third quarter of 2021, the shareholders approved the issuance of up to one million shares or share equivalents pursuant to the 2021 Plan. The Company filed an S-8 registration statement in concert with the 2021 Plan which was deemed effective on August 5, 2021. The plan covers a period of ten years.

As of June 30, 2024, and December 31, 2023, options to purchase a total of 1,340,903 (net of forfeitures) shares of common stock and 1,387,775 shares of common stock were outstanding, respectively. At June 30, 2024, 850,629 options were exercisable. Of the total options issued, 269,658 and 269,658 options were outstanding under the 2016 Equity Incentive Plan, 741,245 and 788,117 were outstanding under the 2021 Plan and a further 330,000 and 330,000 non-plan options to purchase common stock were outstanding as of June 30, 2024 and December 31, 2023, respectively. The non-plan options were granted to four executives as hiring incentives, including the Company's CEO in the fourth quarter of 2020.

	Number of Options	Weighted Average Exercise Price	Average Remaining Contractual Term (Years)	Aggregate Intrinsic Value
Outstanding at December 31, 2022	926,266	$ 5.74	3.3	$ —

NOTE 7 - REVENUE AND CONTRACT ACCOUNTING

Revenue Recognition and Contract Accounting

The Company generates revenue from four sources: (1) Technology Systems; (2) AI Technology which is included in the consolidated statements of operations line-item Technology Systems; (3) Technical Support; and (4) Consulting Services which is included in the consolidated statements of operations line-item Services and Consulting.

Contract assets and contract liabilities on uncompleted contracts for revenues recognized over time are as follows:

Contract Assets

Contract assets on uncompleted contracts represent cumulative revenues recognized in excess of billings and/or cash received on uncompleted contracts accounted for under the cost-to-cost input method, which recognizes revenue based on the ratio of cost incurred to total estimated costs.

At June 30, 2024 and December 31, 2023, contract assets on uncompleted contracts consisted of the following:

	June 30, 2024	December 31, 2023
Cumulative revenues recognized	$ 9,317,704	$ 8,820,256
Less: Billings or cash received	(8,178,309)	(8,178,309)
Contract assets	$ 1,139,395	$ 641,947

Contract Liabilities

Contract liabilities on uncompleted contracts represent billings and/or cash received that exceed cumulative revenues recognized on uncompleted contracts accounted for under the cost-to-cost input method, which recognizes revenues based on the ratio of the cost incurred to total estimated costs.

Contract liabilities on services and consulting revenues represent billings and/or cash received in excess of revenue recognized on service agreements that are not accounted for under the cost-to-cost input method.

At June 30, 2024 and December 31, 2023, contract liabilities on uncompleted contracts and contract liabilities on services and consulting consisted of the following:

	June 30, 2024	December 31, 2023
Billings and/or cash receipts on uncompleted contracts	$ 1,264,658	$ 1,264,658
Less: Cumulative revenues recognized	(237,382)	(199,976)
Contract liabilities, technology systems	1,027,276	1,064,682
Contract liabilities, services and consulting	2,649,291	601,561
Total contract liabilities, current	$ 3,676,567	$ 1,666,243
Total contract liabilities, services and consulting, non-current	$ 8,495,876	$ —

Contract liabilities at December 31, 2023 were $1,666,243; of which $37,407 for technology systems and $442,610 in services and consulting have been recognized as of June 30, 2024.

The Company expects to recognize all current contract liabilities within 12 months from the respective consolidated balance sheet date.

In May 2024, the Company recorded an initial deferred revenue as a contract liability in the amount of $11,161,428 of which $199,008 related to a pilot program was immediately recognized as revenue (See Note 3). This contract liability resulted from a five-year contract with a customer where the Company received non-monetary consideration recorded as intangible assets (See Note 3). This transaction was accounted for under ASC 606-10-32-21 through ASC-606-10-32-24, Non-Cash Consideration. The performance obligations, which include various support and maintenance services will be recognized as revenue pro-rata over time during the five-year contract term. The current contract liabilities of $2,192,483 as of June 30, 2024 relate to the portion of the contract value the Company expects to recognize pro-rata within the next twelve months. The non-current contract liabilities of $8,495,876 as of June 30, 2024 represent the portion of the contract value that is expected to be recognized pro-rata beyond the next twelve months. If the Digital Image License Agreement is terminated prior to the completion of the five-year term, then the customer will pay for the maintenance and support services annually in cash.

As of June 30, 2024 the balance in contract liabilities pertaining to the agreement is as follows:

Calendar Year	Amount
2024	$ 1,096,241
2025	2,192,484
2026	2,192,484
2027	2,192,484
2028	2,192,484
2029	822,182
Total CN agreement Contract Liabilities	$ 10,688,359

Disaggregation of Revenue

The Company is following the guidance of ASC 606-10-55-296 and 297 for disaggregation of revenue. Accordingly, revenue has been disaggregated according to the nature, amount, timing and uncertainty of revenue and cash flows. We are providing qualitative and quantitative disclosures.

Qualitative:

1. We have four distinct revenue sources:
    a. Technology Systems (Turnkey, engineered projects);
    b. AI Technology (Associated maintenance and support services);
    c. Technical Support (Licensing and professional services related to auditing of data center assets); and
    d. Consulting Services (Predetermined algorithms to provide important operating information to the users of our systems).
2. We currently operate in North America including the USA, Mexico and Canada.
3. Our customers include rail transportation, commercial, government, banking and IT suppliers.
4. Our services & maintenance contracts are fixed price and fall into two duration types:
    a. Turnkey engineered projects and professional service contracts that are less than one year in duration and are typically one to two quarters in length; and
    b. Maintenance and support contracts ranging from one to five years in length.

Quantitative:

NOTE 8 – DEFINED CONTRIBUTION PLAN

The Company has a 401(k)-retirement savings plan (the "401(k) Plan") covering all eligible employees. The 401(k) Plan allows employees to defer a portion of their annual compensation, and the Company may match a portion of the employees' contributions generally after the first six months of service. During the three months ended June 30, 2024, the Company matched 100% of the first 4% of eligible employee compensation that was contributed to the 401(k) Plan. For the three and six months ended June 30, 2024, the Company recognized expense for matching cash contributions to the 401(k) Plan totaling $56,340 and $111,438, respectively.

NOTE 9 – RELATED PARTY TRANSACTIONS

Frank Lonegro serves on the Board of Directors and is a member of the Audit Committee. Mr. Lonegro is the Chief Executive Officer of Landstar System, Inc. ("Landstar"), based in Jacksonville, Florida. The Company has previously utilized Landstar for shipping services including transporting large items. Most recently, Landstar was the designated vendor involved in shipping an Edge Data Center to an Amtrak site in Secaucus New Jersey. Mr. Lonegro was not involved in the selection of his company by Duos, with whom there was an existing relationship pre-dating Mr. Lonegro's appointment to the Board of Duos. Mr. Lonegro did not participate in any Board discussions or votes relating to the selection of Landstar nor approval of the transactions with Landstar. The terms of these transactions were reviewed and approved by the management team, which concluded that they are fair and reasonable to the Company and on terms no less favorable than could have been obtained from an unaffiliated party. For the six months ended June 30, 2024 and June 30, 2023 the Company expensed $43,137 and $11,397, respectively. As of June 30, 2024 and December 31, 2023 the amounts owed were $43,137 and $33,812, respectively, and are included in accounts payable in the accompanying balance sheets.

NOTE 10 – SALE OF ASSETS

On June 29, 2023, the Company completed a transaction whereby it sold assets related to its Integrated Correctional Automation System (iCAS) business with a single customer. In the fourth quarter of 2022, the Company elected to not renew a support contract due to the limited nature of the business. The transaction was completed with a third-party buyer of which the Company's former and now current Chief Financial Officer is a director. Said officer did not participate in the transaction on behalf of the Company.

The assets of the iCAS business were sold for a convertible promissory note with a principal amount of $165,000 with a 10% original issue discount as well as common stock purchase warrants. The note matures in 2 years from the date of sale and is convertible immediately through the later of the maturity date or payment by the borrower of the default amount, as defined in the note, into shares of the buyer's common stock at a conversion price of $0.003 or 55,000,000 shares. The conversion of the note carries restrictions which include limiting conversion to the extent it would exceed 4.99% of the common stock outstanding of the buyer. The convertible promissory note is subject to standard anti-dilution provisions.

The common stock purchase warrants are for a total of 55,000,000 common shares of the buyer at an exercise price of $0.01 per share. The warrants are subject to standard anti-dilution provisions. The warrants are not exercisable until on or after six months from the issuance date and no later than on or before the third anniversary of the issuance date. The Company may exercise the warrants at any time after the six-month anniversary of the issuance date on a cashless basis if there is no effective registration statement covering the resale of the Warrant Shares at prevailing market prices by the holder. The exercise of these warrants is subject to beneficial ownership limits of 4.99% which may be increased by the holder up to 9.99% as defined in the warrant. Given that the shares carried no intrinsic value at the time of the transaction and that the overall fair value is de minimis, the Company has not recorded the warrants associated with the transaction.

The Company recognized a gain on sale of assets of $150,000, which is included in other income in the second quarter of 2023.

The original issue discount is being accrued into interest income over the term of the note.

The note receivable was recorded as follows on June 30, 2024:

	June 30, 2024
Convertible note receivable	$ 165,000
Unamortized discount	(7,500)
Convertible note receivable, net	$ 157,500

NOTE 11 – SUBSEQUENT EVENTS

On July 5, 2024, a holder of our Series D Preferred Stock converted 120 shares of Series D Preferred Stock into 40,000 shares of Common Stock.

On July 22, 2024, the Company and Duos Edge AI, Inc. ("Edge"), a wholly owned subsidiary of the Company, entered into secured promissory notes (the "Notes") with two institutional investors in the Company. Under the Notes, Edge received an aggregate of $2.2 million. The Notes mature on December 31, 2025, and bear interest at the rate of 10% per annum. All principal and accrued interest under the Notes is due and payable on the maturity date. Edge will use the proceeds under the Notes solely to pay for the equipment and any services necessary to complete the installation of its previously announced edge data centers. As security for the Notes, Edge and the Company entered into a Security Agreement (the "Security Agreement"), pursuant to which Edge granted a first priority security interest in the equipment installed at the edge data centers, as well as all revenues from such equipment, and the Company pledged all proceeds from its previously announced "at-the-market" offering of its common stock pursuant to the prospectus dated May 17, 2024. All of the pledged revenues from the equipment and the at-the-market offering will be deposited in a blocked account and used solely to repay the Notes. In connection with the Notes, the Company issued warrants (the "Warrants") to purchase an aggregate of 300,000 shares of common stock. The Warrants are exercisable at $3.00 per share (subject to adjustment) and expire in five years. In the event the Notes are not paid by the maturity date, the interest rate on the Notes will increase to 18% per annum and the Company will issue additional warrants (with the same terms as the Warrants) to purchase an aggregate of 75,000 shares of common stock for each 30 days that the Notes are not paid after maturity. The Company has guaranteed all of Edge's obligations under the Notes pursuant to the terms of a Guaranty (the "Guaranty"). The Notes, Security Agreement and Guaranty contain customary representations, warranties, agreements, and indemnification rights and obligations of the parties.

Subsequent to the balance sheet date, in July 2024 the Company issued 27,695 shares of common stock at a weighted average price of $3.04 per share through its At-The-Market (ATM) offering program, generating total net proceeds of approximately $81,495.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operation.

This quarterly report on Form 10-Q and other reports filed by Duos Technologies Group, Inc., and its operating subsidiaries, Duos Technologies, Inc. ("Duos") and Duos Edge AI, Inc. ("Edge") (Duos Technologies Group, Inc., Duos and Edge, collectively the "Company" "we", "our", and "us") from time to time with the Securities and Exchange Commission (the "SEC") contain or may contain forward-looking statements and information that are based upon beliefs of, and information currently available to, the Company's management as well as estimates and assumptions made by Company's management. Readers are cautioned not to place undue reliance on these forward-looking statements, which are only predictions and speak only as of the date hereof. When used in the filings, the words "anticipate," "believe," "estimate," "expect," "future," "intend," "plan," "aim," "project," "target," "will," "may," "should," "forecast" or the negative of these terms and similar expressions as they relate to the Company or the Company's management identify forward-looking statements. Such statements typically address the Company's expected future business and financial performance and are subject to risks, uncertainties, assumptions, and other factors, including the risks contained in the "Risk Factors" section of the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2023, relating to the Company's industry, the Company's operations and results of operations, and any businesses that the Company may acquire. Should one or more of these risks or uncertainties materialize, or should the underlying assumptions prove incorrect, actual results may differ materially from those anticipated, believed, estimated, expected, intended, or planned.

These factors include, but are not limited to, risks related to the Company's ability to continue as a going concern, the Company's ability to generate sufficient cash to continue and expand operations, the competitive environment generally and in the Company's specific market areas, changes in technology, the availability of and the terms of financing, changes in costs and availability of goods and services, economic conditions in general and in the Company's specific market areas, changes in federal, state and/or local government laws and regulations potentially affecting the use of the Company's technology, changes in operating strategy or development plans and the ability to attract and retain qualified personnel. The Company cautions that the foregoing list of risks, uncertainties and factors is not exclusive. Additional information concerning these and other risk factors is contained in the Company's most recently filed Annual Report on Form 10-K, subsequent Quarterly Reports on Form 10-Q, recent Current Reports on Form 8-K, and other filings filed by the Company with the SEC, which are available at the SEC's website, http://www.sec.gov. The Company believes its plans, intentions and expectations reflected in or suggested by these forward-looking statements are based on reasonable assumptions. No assurance, however, can be given that the Company will achieve or realize these plans, intentions or expectations. Indeed, it is likely that some of the Company's assumptions may prove to be incorrect. The Company's actual results and financial position may vary from those projected or implied in the forward-looking statements and the variances may be material. Each forward-looking statement speaks only as of the date of the particular statement. We do not undertake or accept any obligation or undertaking to release publicly any updates or revisions to any forward-looking statements to reflect any change in our expectations or any change in events, conditions or circumstances on which any forward-looking statement is based, except as required by law. All subsequent written and oral forward-looking statements concerning the Company or other matters attributable to the Company or any person acting on its behalf are expressly qualified in their entirety by the cautionary statements above.

Our financial statements are prepared in accordance with accounting principles generally accepted in the United States ("GAAP"). These accounting principles require us to make certain estimates, judgments and assumptions. We believe that the estimates, judgments and assumptions upon which we rely are reasonable based upon information available to us at the time that these estimates, judgments and assumptions are made. These estimates, judgments and assumptions can affect the reported amounts of assets and liabilities as of the date of the financial statements as well as the reported amounts of revenues and expenses during the periods presented. Our financial statements would be affected to the extent there are material differences between these estimates and actual results. In many cases, the accounting treatment of a particular transaction is specifically dictated by GAAP and does not require management's judgment in its application. There are also areas in which management's judgment in selecting any available alternative would not produce a materially different result. The following discussion should be read in conjunction with our financial statements and notes thereto appearing elsewhere in this report.

Overview

The Company, operating under its brand name duostech, develops and deploys technology systems with focus on inspecting and evaluating moving vehicles. Its technology focus is within the Vision Technology market sector and, more specifically, the Machine Vision subsector. Machine Vision companies provide imaging-based automatic inspection and analysis for process control for industry with potential expansion into other markets. Duos has developed key technologies over the past several years in software, industry specific hardware and artificial intelligence and has demonstrated industrial strength usability of its systems supporting rail, logistics and intermodal businesses that streamline operations, improve safety and reduce costs. Our team includes engineering subject matter expertise in hardware, software, and information technology as well as industry specific applications of artificial intelligence also referred to as Expert Artificial Intelligence. We also have specific industry experts in the rail industry on staff and as consultants.

Duos is currently developing industry solutions for its target markets which will address rail, trucking, aviation and other vehicle-based processes. In addition, the Company has begun to evaluate using its patented technology and considerable experience in deploying information technology (IT) investments for the provision of Edge Data Centers, enabling local, high-speed processing in rural and underserved areas. The Company has recently announced that effective early in the third quarter, it will be expanding into the market for the provision of bespoke Edge Data Centers (EDCs) for remote education and healthcare facilities as well as other applications where high-speed, local processing is required. In order to facilitate this, the Company formed a new subsidiary, Duos Edge AI to pursue this market and has invested approximately $1,200,000 in acquiring assets to begin marketing the solution to defined markets starting in the third quarter.

Duos' legacy offering, the Railcar Inspection Portal (RIP), will continue to be the main revenue driver for the consolidated business. The RIP provides both freight and transit railroad customers and select government agencies the ability to conduct fully remote railcar inspections of trains while they are moving at full speed. The RIP utilizes a variety of sophisticated optical, laser and speed sensors to scan each passing railcar to create a high-resolution image-set of the top, sides and undercarriage. These images are then processed with our edge data center using artificial intelligence (AI) algorithms to identify safety and security defects on each railcar. The algorithms are developed in conjunction with industrial application experts, in this case resident Railcar Mechanical Engineers, to provide specific guidance in the analysis ("human in the loop"). Within seconds of the railcar passing through the RIP, a detailed report is sent to the customer where they are able to take action on identified issues. This solution has the potential to transform the railroad industry immediately, increasing safety, improving efficiency and reducing costs. The Company has already deployed this system with several Class 1 railroads and anticipates an increased demand from transit and other railroad customers along with selected government agencies that operate and/or manage rail traffic. The Company has deployed RIPs in Canada, Mexico and the United States and anticipates expanding this solution into Europe, Asia and the Middle East in coming years. The Company has recently secured two strategic patents for the overall concept and applied technology for rail car scanning and the Company is expecting further patent awards in the coming months for other related technologies.

The Company has also developed the Automated Logistics Information System (ALIS) which automates gatehouse operations where transport trucks enter and exit large logistics and intermodal facilities. This solution incorporates a similar set of sensors, data processing and artificial intelligence to streamline the customer's logistics transactions and tracking and can also automate the security and safety inspection if called for. The Company is evaluating other solutions for moving vehicles including aircraft, which could provide similar benefits in terms of safety and efficiency for required inspections as part of an operations process. The Company is not currently actively pursing further customers for ALIS but will continue to analyze the potential market and expects to deploy an upgraded Truck Inspector Portal (TIP) which uses the same technology and lessons learned from ALIS and RIP systems at some point in the future.

We have developed two proprietary solutions that operate our software and artificial intelligence. centraco® is an Enterprise Information Management Software platform that consolidates data and events from multiple sources into a unified and distributive user interface. Customized to the end user's Concept of Operations (CONOPS), it provides improved situational awareness and data visualization for operational objectives compared to traditional manual inspections. truevue360™ is our fully integrated platform that we utilize to develop and deploy Artificial Intelligence (AI) algorithms, including Machine Learning, Computer Vision, Object Detection and Deep Neural Network-based processing for real-time applications.

These same Artificial Intelligence applications have begun to open up other opportunities for the Company to provide revenue producing solutions with potentially high market adoption.

In the last quarter of 2022, the Company elected not to renew a support contract for its Integrated Correctional Automation System (iCAS) for one customer. The Company subsequently sold its iCAS assets to a buyer during the second quarter of 2023 for $165,000 via a convertible note.

The year 2022 ushered in a new phase in the Company's development. Although we continue to see an extension of challenges faced in past years, we also see positive changes and opportunities for our business that will be discussed in greater detail herein. They include:

- Introducing a new "subscription" based offering for access to data and images by a much broader target market including Class 1 railroads, railcar owners and lessors, and short-line railroads.
- Owning and operating a network of RIPs with multiple subscribers outside of the Company's traditional customer base.
- Selling customized RIPs to Class 1, short-line and other industrial companies where specialized applications or routes demand a bespoke solution.
- We are currently evaluating using our current operations experience within "edge data centers" (as deployed for our Railcar Inspection Portal) to drive additional revenues within other markets requiring this type of solution. Although no specific offering has been developed at this time, the Company is developing a plan to market the EDC product to non-rail markets and expects to announce this in Q3.

Prospects and Outlook

The Company's focus for the last several years was to improve operational and technical execution which will continue into the foreseeable future. This we expect will enable the commercial side of the business to expand delivery of the Company's products and services into existing customers and to expand and diversify our current customer base as well as enter new markets. The Company's primary customers have indicated readiness to order more equipment and services should the Company execute as expected on key deliverables. With the Company working toward a subscription platform approach for current and planned offerings and its expansion of its artificial intelligence offering, this will also open up additional commercial avenues to the Company. Historically, the Company has been focused on large, one-time sales with the subscription opportunities representing an expanded addressable market with an increasing emphasis on recurring revenues.

The Company expanded its focus in the rail industry to encompass passenger transportation and was awarded a large, multi-year contract with a national rail carrier in the second half of 2022. The Company has been developing and constructing the enhanced systems for this contract and anticipates that it will install a high performance, two-RIP solution for the carrier in 2024, with a long-term services agreement commencing upon delivery of the system.

The Company expanded its focus in the rail industry to encompass passenger transportation and was awarded a large, multi-year contract with a national rail carrier in 2022. The Company has been developing and constructing the enhanced systems for this contract and anticipates that it will install a high performance, two-RIP solution for the carrier in 2024, with a long-term services agreement commencing upon delivery of the system.

Although the Company's prospects for future revenue growth are anticipated to be favorable, investing in our securities involves risk and careful consideration should be made before deciding to purchase our securities. There are many risks that affect our business and results of operations, some of which are beyond our control and unexpected macro events can have a severe impact on the business. Please see the risk factors identified in "Item 1A – Risk Factors" of our Annual Report on Form 10-K filed with the SEC on April 1, 2024.

Results of Operations

The following discussion should be read in conjunction with the unaudited financial statements included in this report.

Comparison for the Three Months Ended June 30, 2024 Compared to Three Months Ended June 30, 2023

The following table sets forth a summary of our unaudited Consolidated Statements of Operations and is used in the following discussions of our results of operations:

	For the Three Months Ended June 30,	
	2024	2023
Revenues	$ 1,510,496	$ 1,770,059
Cost of revenues	1,725,060	1,528,722
Gross margin	(214,564)	241,337
Operating expenses	3,001,852	3,389,587
Loss from operations	(3,216,416)	(3,148,250)
Other income (expense)	12,245	158,850
Net loss	$ (3,204,171)	$ (2,989,400)

Revenues

	For the Three Months Ended June 30,		
	2024	2023	% Change
Revenues:			
Technology systems	$ 264,999	$ 870,494	-70%
Services and consulting	1,245,497	899,565	38%
Total revenues	$ 1,510,496	$ 1,770,059	-15%

The decrease in overall revenues for the quarter ended June 30, 2024, compared to the quarter ended June 30, 2023, is primarily attributed to delays outside of the Company's control with deployment of our two high-speed Railcar Inspection Portals, which are recorded in the technology systems portion of our business. Although these systems were largely ready for deployment in 2023, customer delays at the deployment site prevented installation even though these two high-speed Railcar Inspection Portals were deep into their production and manufacturing phases, which did not allow us to record the next phase of recognition. We believe that the customer is approaching the completion of the local site preparation and is preparing for field installation later this year. Additionally, the Company continues to see opportunities for expansion of its programs with existing customers. In spite of the timing delays that continue to impact the quarterly results, management remains confident in the long-term potential of the RIP product.

The increase in the services portion of our revenues stems from the addition of new AI and subscription customers that were not present in the same quarter last year as well as increases in service contract revenue due to higher service contract prices. The Company expects growth with new revenue from existing customers, including services revenue as the result of new maintenance contracts being established on installations coming on-line during 2024. The Company anticipates revenue growth from new and existing customers related to the subscription offering starting in the second half of 2024. The Company also anticipates renewals of existing and backlog contracts and a shift to the next generation of technology systems which are currently being manufactured and expect to be completed during early 2025.

Cost of Revenues

	For the Three Months Ended June 30,		
	2024	2023	% Change
Cost of revenues:			
Technology systems	$ 780,912	$ 1,072,106	-27%
Services and consulting	944,148	456,616	107%
Total cost of revenues	$ 1,725,060	$ 1,528,722	13%

Cost of revenues largely comprises equipment and labor necessary to support the implementation of new systems and support and maintenance of existing systems and software projects.

During the three months ended June 30, 2024, the cost of revenues on technology systems decreased compared to the equivalent period in 2023. This reduction is primarily due to the Company continuing the production and manufacturing phase of our two high-speed Railcar Inspection Portals during the second quarter of 2023. By the second quarter of 2024, we are approaching the end of the manufacturing cycle and beginning preparations for field installation later in the year, and thereby contributing to the decrease in cost of revenues year-over-year. Additionally, the Company records certain fixed, operating and servicing costs for both technology systems and services and consulting. These fixed costs, in part, contribute to the cost of revenues declining at a slower rate than that of revenue. While we expect that macro-economic factors will continue to drive prices, the Company continues to manage its costs and, where possible, pass through increased costs to customers in the form of higher prices, although this is not assured.

The cost of revenues for services and consulting increased in the three months ended June 30, 2024, compared to the same period last year. This increase is primarily due to $473,069 in amortization expense of the intangible asset related to a nonmonetary transaction, which was not present in the corresponding period of 2023. Excluding this, the cost of revenues for services and consulting remained relatively flat quarter over quarter.

Gross Margin

	For the Three Months Ended

	June 30,		
	2024	2023	%Change
Revenues	$ 1,510,496	$ 1,770,059	-15%
Cost of revenues	1,725,060	1,528,722	13%
Gross margin	$ (214,564)	$ 241,337	-189%

Gross margin decreased for the second quarter of 2024 as compared to the same period in 2023. As noted above, the decrease in margin was a direct result of the timing of business activity related to the manufacturing of two high-speed, transit-focused Railcar Inspection Portals. Those same project revenues and subsequent margin contributions were not present during the second quarter of 2024. It should be noted that when comparing the results between two periods, the stage of completion for manufacturing and installation can factor into those comparisons and should be taken into account when analyzing those periods.

Operating Expenses

	For the Three Months Ended June 30,		
	2024	2023	%Change
Operating expenses:			
Sales and marketing	$ 712,456	$ 301,077	137%
Research and development	390,000	537,801	-27%
General and administration	1,899,396	2,550,709	-26%
Total operating expenses	$ 3,001,852	$ 3,389,587	-11%

During the three months ended June 30, 2024, the Company experienced a decrease in overall operating expenses compared to the same period in 2023. There was a significant uptick in sales and marketing costs, primarily due to an expansion in staff after strengthening our commercial team in the latter half of 2023 in preparation for entering new markets. Conversely, research and development expenses fell by 27% owing to reduced personnel and scaled-back testing of prospective technologies. Moreover, general and administrative expenses decreased by 26% due to a reduction in personnel and a smaller bonus pool payout compared to the same period in 2023. Overall, the Company continues to focus on stabilizing operating expenses while meeting the increased needs of our customers. It should be noted that when comparing the results between two periods, the stage of completion for manufacturing and installation can factor into those comparisons and should be taken into account when analyzing those periods.

Loss from Operations

The loss from operations for the three months ended June 30, 2024 and 2023 was $3,216,416 and $3,148,250, respectively. The increase in loss from operations was primarily the result of lower revenues recorded in the quarter as a consequence of delays in going to field for the two high-speed RIPs for a passenger transit client offset by a planned reduction in expenses which resulted in a lower percentage increase in operating loss compared to a larger percentage decrease in revenue recorded during the quarter.

Other Income/Expense

Other income for the three months ended June 30, 2024 was $13,395 and $162,080 for the comparative period in 2023. The decrease in other income is attributed to the sale of assets related to the Integrated Correctional Automation System (iCAS) in June of 2023, there was no such transaction in 2024. Interest expense for the three months ended June 30, 2024 was $1,150 and $3,230 for the comparative period in 2023.

Net Loss

The net loss for the three months ended June 30, 2024 and 2023 was $3,204,171 and $2,989,400, respectively. The 7% increase in net loss was mostly attributed to the decrease in revenues as described above from timing delays. Net loss per common share was $0.43 and $0.42 for the three months ended June 30, 2024 and 2023, respectively.

Comparison for the Six Months Ended June 30, 2024 Compared to Six Months Ended June 30, 2023

The following table sets forth a summary of our unaudited Consolidated Statements of Operations and is used in the following discussions of our results of operations:

	For the Six Months Ended June 30,	
	2024	2023
Revenues	$ 2,581,176	$ 4,414,347
Cost of revenues	2,701,108	3,635,838
Gross margin	(119,932)	778,509
Operating expenses	5,857,530	6,073,557
Loss from operations	(5,977,462)	(5,295,048)
Other income (expense)	20,982	161,965
Net loss	$ (5,956,480)	$ (5,133,083)

Revenues

	For the Six Months Ended June 30,		
	2024	2023	% Change
Revenues:			
Technology systems	$ 534,854	$ 2,698,258	-80%
Services and consulting	2,046,322	1,716,089	19%
Total revenues	$ 2,581,176	$ 4,414,347	-42%

The decrease in overall revenues for the six months ended June 30, 2024, compared to the six months ended June 30, 2023, is primarily attributed to delays outside of the Company's control with deployment of our two high-speed Railcar Inspection Portals, which are recorded in the technology systems portion of our business. Although these systems were largely ready for deployment in 2023, customer delays at the deployment site prevented installation even though these two high-speed Railcar Inspection Portals were deep into their production and manufacturing phases, which did not allow us to record the next phase of recognition. We believe that the customer is approaching the completion of the local site preparation and is preparing for field installation later this year. Additionally, the Company continues to see opportunities for expansion of its programs with existing customers. In spite of the timing delays that continue to impact results, management remains confident in the long-term potential of the RIP product.

The increase in the services portion of our revenues stems from the addition of new AI and subscription customers that were not present in the same period last year as well as increases in service contract revenue due to higher service contract prices. The Company expects growth with new revenue from existing customers, including services revenue as the result of new maintenance contracts being established on installations coming on-line during 2024. The Company anticipates revenue growth from new and existing customers related to the subscription offering starting in the second half of 2024. The Company also anticipates renewals of existing and backlog contracts and a shift to the next generation of technology systems which are currently being manufactured and expect to be completed during early 2025.

Cost of Revenues

	For the Six Months Ended June 30,		
	2024	2023	% Change
Cost of revenues:			
Technology systems	$ 1,364,349	$ 2,839,315	-52%
Services and consulting	1,336,759	796,523	68%
Total cost of revenues	$ 2,701,108	$ 3,635,838	-26%

Cost of revenues largely comprises equipment and labor necessary to support the implementation of new systems and support and maintenance of existing systems and software projects.

During the six months ended June 30, 2024, the cost of revenues on technology systems decreased compared to the equivalent period in 2023. This reduction is primarily due to the Company continuing the production and manufacturing phase of our two high-speed Railcar Inspection Portals during the same period of 2023. By the second quarter of 2024, we are approaching the end of the manufacturing cycle and beginning preparations for field installation later in the year, and thereby contributing to the decrease in cost of revenues year-over-year. Additionally, the Company records certain fixed, operating and servicing costs for both technology systems and services and consulting. These fixed costs, in part, contribute to the cost of revenues declining at a slower rate than that of revenue. While we expect that macro-economic factors will continue to drive prices, the Company continues to manage its costs and, where possible, pass through increased costs to customers in the form of higher prices, although this is not assured.

The cost of revenues for services and consulting increased in the six months ended June 30, 2024, compared to the same period last year. This increase is primarily due to $473,069 in amortization expense of the intangible asset related to a nonmonetary transaction, which was not present in the corresponding period of 2023.

Gross Margin

	For the Six Months Ended June 30,		
	2024	2023	% Change
Revenues	$ 2,581,176	$ 4,414,347	-42%
Cost of revenues	2,701,108	3,635,838	-26%
Gross margin	$ (119,932)	$ 778,509	-115%

Gross margin decreased during the six months ended June 30, 2024, as compared to the same period in 2023 largely in line with the decline in revenue. As noted above, the decrease in margin was a direct result of the timing of business activity related to the manufacturing of two high-speed, transit-focused Railcar Inspection Portals. Those same project revenues and subsequent margin contributions were not present during the first and second quarters of 2024. It should be noted that when comparing the results between two periods, the stage of completion for manufacturing and installation can factor into those comparisons and should be taken into account when analyzing those periods.

Operating Expenses

	For the Six Months Ended June 30,		
	2024	2023	% Change
Operating expenses:			
Sales and marketing	$ 1,265,942	$ 608,654	108%
Research and development	772,142	942,686	-18%
General and administration	3,819,446	4,522,217	-16%

Total operating expenses	$ 5,857,530	$ 6,073,557	-4%

During the six months ended June 30, 2024, the Company experienced a modest decrease in overall operating expenses compared to the same period in 2023. There was a significant uptick in sales and marketing costs, primarily due to an expansion in staff after strengthening our commercial team in the latter half of 2023 in preparation for entering new markets. Conversely, research and development expenses fell by 18% owing to reduced personnel and scaled-back testing of prospective technologies. Moreover, general and administrative expenses decreased by 16% due to a reduction in personnel and personnel related expenses as well as a decrease in consulting expenses compared to the same period in 2023. Overall, the Company continues to focus on stabilizing operating expenses while meeting the increased needs of our customers. It should be noted that when comparing the results between two periods, the stage of completion for manufacturing and installation can factor into those comparisons and should be taken into account when analyzing those periods.

Loss from Operations

The loss from operations for the six months ended June 30, 2024 and 2023 was $5,977,462 and $5,295,048, respectively. The increase in loss from operations was primarily the result of lower revenues recorded in the period as a consequence of delays in going to field for the two high-speed RIPs for a passenger transit client offset by a planned reduction in expenses which resulted in a lower percentage increase in operating loss compared to a larger percentage decrease in revenue recorded during the quarter.

Other Income/Expense

Other income for the six months ended June 30, 2024 was $22,577 and $166,375 for the comparative period in 2023. The decrease in other income is attributed to the sale of assets related to the Integrated Correctional Automation System (iCAS) in June of 2023, there was no such transaction in 2024. Interest expense for the six months ended June 30, 2024 was $1,595 and $4,410 for the comparative period in 2023.

Net Loss

The net loss for the six months ended June 30, 2024 and 2023 was $5,956,480 and $5,133,083, respectively. The 16% increase in net loss was mostly attributed to the decrease in revenues as described above from timing delays. Net loss per common share was $0.81 and $0.72 for the six months ended June 30, 2024 and 2023, respectively.

Liquidity and Capital Resources

As of June 30, 2024, the Company has a working capital deficit of $2,380,096 and the Company had a net loss of $5,956,480 for the six months ended June 30, 2024.

Cash Flows

The following table sets forth the major components of our statements of cash flows data for the periods presented:

	For the Six Months Ended June 30,	
	2024	2023
Net cash used in operating activities	$ (3,940,984)	$ (1,923,071)
Net cash used in investing activities	(889,285)	(548,360)
Net cash provided by financing activities	2,894,541	3,802,587
Net (decrease) increase in cash	$ (1,935,728)	$ 1,331,156

Net cash used in operating activities for the six months ended June 30, 2024 and 2023 was $3,940,984 and $1,923,071, respectively. The increase in net cash used in operating activities for the six months ended June 30, 2024, was the result of cash outflows to procure necessary materials and overall sales and marketing, general and administration expenses offset by cash inflows from milestone payments related to current projects. In addition, there are two material changes in assets and liabilities that increased the use of cash in operating activities, notably the cash received for the reduction in accounts receivable and decreased contract assets related to lower overall project activities reported during the year.

Net cash used in investing activities for the six months ended June 30, 2024 and 2023 was $889,285 and $548,360, respectively, representing an increase in the purchase of various fixed assets including our three edge data centers that are currently being manufactured to be deployed in the later half of 2024; the remainder includes the purchase of computer equipment and product and software development and disbursements for patent costs.

Net cash provided by financing activities for the six months ended June 30, 2024 and 2023 was $2,894,541 and $3,802,587, respectively. Cash flows provided by financing activities during the first six months of 2024 were primarily attributable to gross proceeds of approximately $2,995,002 from issuances of Series D and Series E Convertible Preferred Stock. Cash flows from financing activities during the first six months of 2023 were primarily attributable to the issuance of Series E Convertible Preferred shares for $4,000,000 of gross proceeds offset by repayments of certain loans related to financing of insurance costs.

On a long-term basis, our liquidity is dependent on the continuation and expansion of operations and receipt of revenues. We believe our current capital and revenues are sufficient to fund such expansion and our operations over the next twelve months, although we are dependent on timely payments from our customers for projects and work in process. However, we expect such timely payments to continue. Material cash requirements for our rail inspection portal projects will be satisfied within the normal course of business including substantial upfront payments from our customers prior to starting projects However, for our edge data center business, upfront customer payments are not standard practice, and therefore, alternative funding arrangements may be necessary. The Company may elect to purchase materials and supplies in advance of contract award but where there is a high probability of that award.

Demand for our products and services will be dependent on, among other things, market acceptance of our products and services, the technology market in general, and general economic conditions, which are cyclical in nature. Because a major portion of our activities is the receipt of revenues from the sales of our products and services, our business operations may continue to be challenged by our competitors and prolonged recession periods.

Liquidity

Under Accounting Codification ASC 205, Presentation of Financial Statements—Going Concern (Subtopic 205-40) (“ASC 205-40”), the Company has the responsibility to evaluate whether conditions and/or events raise substantial doubt about its ability to meet its future financial obligations as they become due within one year after the date that the financial statements are issued. As required by ASC 205-40, this evaluation shall initially not take into consideration the potential

mitigating effects of plans that have not been fully implemented as of the date the financial statements are issued. Management has assessed the Company's ability to continue as a going concern in accordance with the requirement of ASC 205-40.

As reflected in the accompanying consolidated financial statements, the Company had a net loss of $5,956,480 for the six months ended June 30, 2024. During the same period, cash used in operating activities was $3,940,984. The working capital deficit and accumulated deficit as of June 30, 2024, were $2,380,098 and $69,560,032, respectively. In previous financial reports, the Company had raised substantial doubt about continuing as a going concern. This was principally due to a lack of working capital prior to underwritten offerings and private placements which were completed during 2022, 2023, and now the first and second quarters of 2024 as well.

As previously noted, the Company was successful during 2023 in raising gross proceeds of over $11,500,000 from the sale of Series E and F Preferred Stock. Additionally, in the first and second quarters of 2024, the Company raised gross proceeds of $2,995,000 from the issuance of a combination of Series D and E Preferred Stock (See Note 6). As part of its strategy, the Company will endeavor to utilize the Preferred Series E and the remainder of the Series D as additional funding mechanisms. Additionally, during the second quarter of 2024 the Company entered into an ATM Sales Agreement (the "Sales Agreement") with Ascendiant Capital Markets, LLC (the "Sales Agent" or "ACM") relating to the sale of our common stock, par value $0.001 per share, pursuant to the prospectus dated May 17, 2024. In accordance with the terms of the Sales Agreement, we may offer and sell shares of our common stock bearing an aggregate offering price of up to $7,500,000 from time to time through or to ACM, acting as an agent or principal.

ATM sales commenced in the second quarter, and the Company sold $115,563 in Common Stock during the month of June using the facility and we anticipate that approximate dollar amount raised in June will continue for each of the next twelve months.

On July 22, 2024, the Company, through its wholly owned subsidiary Duos Edge AI, Inc., entered into secured promissory notes totaling $2.2 million in funding with two institutional investors. These notes mature on December 31, 2025, and bear an interest rate of 10% per annum, with all principal and accrued interest due at maturity. The proceeds are designated exclusively for the equipment and services required for the installation of the Company's previously announced edge data centers.

In the long run, the continuation of the Company as a going concern is dependent upon the ability of the Company to continue executing its business plan, generate enough revenue, and attain consistently profitable operations. Although the lingering effects of the global pandemic related to the coronavirus (Covid-19) previously affected our operations, particularly in our supply chain, we now believe that the supply chain lags have largely been abated. We have analyzed our cash flow under "stress test" conditions and have determined that we have sufficient liquid assets on hand or available via the capital markets to maintain operations for at least twelve months from the issuance date of this report.

In addition, management has been taking and continues to take actions including, but not limited to, elimination of certain costs that do not contribute to short term revenue, and re-aligning both management and staffing with a focus on improving certain skill sets necessary to build growth and profitability and focusing product strategy on opportunities that are likely to bear results in the relatively short term. The Company believes that, as described above, it will have sufficient sources of working capital to meet its obligations over the following twelve months. In the last twelve months the Company has experienced relatively steady contracted backlog as well as seen positive signs from new commercial engagements that indicate improvements in future commercial opportunities for both one-time capital and recurring services revenues.

Management believes that, at this time, the conditions in our market space with ongoing contract delays, the consequent need to procure certain materials in advance of a binding contract and the additional time needed to execute on new contracts previously reported have put a strain on our cash reserves. However, proactive management of our existing contracts, recent stock offerings and private placements as well as the availability to raise capital via our at-the-market offering indicate there is no substantial doubt that the Company can continue as a going concern for a period of twelve months from the issuance date of this report. We continue executing the plan to grow our business and achieve profitability. The Company may selectively look at opportunities for fund raising in the future. Management has extensively evaluated our requirements for the next twelve months and has determined that the Company currently has sufficient cash and access to capital to operate for at least that period.

While no assurance can be provided, management believes that these actions provide the opportunity for the Company to continue as a going concern and to grow its business and achieve profitability with access to additional capital funding. Ultimately the continuation of the Company as a going concern is dependent upon the ability of the Company to continue executing the plan described above which was put in place in late 2022, continued in 2023, and will continue in 2024 and beyond. These consolidated financial statements do not include any adjustments related to the recoverability and classification of recorded asset amounts and classification of liabilities that might be necessary should the Company be unable to continue as a going concern.

Critical Accounting Estimates

Intangible Assets

In May 2024, the Company recorded an intangible asset with a fair value of $11,161,428. This asset represents non-monetary consideration received under a 5-year customer contract, in which the Company will provide maintenance services to the customer. The intangible asset represents Digital Image data rights in the form of a license agreement received by the Company from the customer.

Significant estimates relating to this transaction are the initial valuation of this non-monetary transaction with the customer and the subsequent impairment analysis.

Revenue Recognition

The Company follows Accounting Standards Codification 606, Revenue from Contracts with Customers ("ASC 606"), that affects the timing of when certain types of revenues will be recognized. The basic principles in ASC 606 include the following: a contract with a customer creates distinct contract assets and performance obligations, satisfaction of a performance obligation creates revenue, and a performance obligation is satisfied upon transfer of control to a good or service to a customer.

Revenue is recognized by evaluating our revenue contracts with customers based on the five-step model under ASC 606:

1. Identify the contract with the customer;
2. Identify the performance obligations in the contract;
3. Determine the transaction price;

4. Allocate the transaction price to separate performance obligations; and
5. Recognize revenue when (or as) each performance obligation is satisfied.

The Company generates revenue from four sources:

1. Technology Systems
2. AI Technologies
3. Technical Support
4. Consulting Services

Stock Based Compensation

The Company accounts for employee and non-employee stock-based compensation in accordance with ASC 718-10, "*Share-Based Payment*," which requires the measurement and recognition of compensation expense for all share-based payment awards made to employees and directors including stock options, restricted stock units, and employee stock purchases based on estimated fair values. The stock-based compensation carries a graded vesting feature subject to the condition of time of employment service with awarded stock-based compensation tranches vesting evenly upon the anniversary date of the award.

The Company estimates the fair value of stock options granted using the Black-Scholes option-pricing formula. In accordance with ASC 718-10-35-8, the Company elected to recognize the fair value of the stock award using the graded vesting method as time of employment service is the criteria for vesting. The Company's determination of fair value using an option-pricing model is affected by the stock price as well as assumptions regarding a number of highly subjective variables.

The Company estimates volatility based upon the historical stock price of the Company and estimates the expected term for stock options using the simplified method for employees and directors and the contractual term for non-employees. The risk-free rate is determined based upon the prevailing rate of United States Treasury securities with similar maturities.

Item 3. Quantitative and Qualitative Disclosures About Market Risk.

Not applicable.

Item 4. Controls and Procedures.

Evaluation of Disclosure Controls and Procedures

With the participation of our Chief Executive Officer, Chief Financial Officer and Controller, we have evaluated the effectiveness of our disclosure controls and procedures (as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the "Exchange Act")), as of the end of the period covered by this Report. Based upon such evaluation, our Chief Executive Officer, Chief Financial Officer and Controller have concluded that, as of the end of such period, our disclosure controls and procedures were effective to ensure that information required to be disclosed by us in the reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms and is accumulated and communicated to our management, including our Chief Executive Officer, Chief Financial Officer and Controller, as appropriate to allow timely decisions regarding required disclosure.

Changes in Internal Control over Financial Reporting

There were no changes in our internal control over financial reporting (as such term is defined in Rules 13a-15(f) and 15d-15(f) of the Exchange Act) during the quarter ended June 30, 2024 that have materially affected or are reasonably likely to materially affect our internal control over financial reporting.

PART II OTHER INFORMATION

Item 1. Legal Proceedings.

From time to time, we may be involved in litigation relating to claims arising out of our operations in the normal course of business. We are currently not involved in any litigation that we believe could have a material adverse effect on our financial condition or results of operations. There is no action, suit, proceeding, inquiry or investigation before or by any court, public board, government agency, self-regulatory organization or body pending or, to the knowledge of the executive officers of our Company or any of our subsidiaries, threatened against or affecting our Company, our common stock, any of our subsidiaries or any of our Company's or our subsidiaries' officers or directors in their capacities as such, in which an adverse decision could have a material adverse effect.

Item 1A. Risk Factors.

We believe there are no changes that constitute material changes from the risk factors previously disclosed in our Annual Report on Form 10-K, filed with the Securities and Exchange Commission on April 1, 2024.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.

None

Item 3. Defaults Upon Senior Securities.

There has been no default in the payment of principal, interest, sinking or purchase fund installment, or any other material default, with respect to any indebtedness of the Company.

Item 4. Mine Safety Disclosures.

Not applicable

Item 5. Other Information.

Trading Plans

During the quarter ended June 30, 2024, no director or Section 16 officer adopted or terminated any Rule 10b5-1 trading arrangements or non-Rule 10b5-1 trading arrangements (in each case, as defined in Item 408(a) of Regulation S-K).

Item 6. Exhibits.

Exhibit No.	Description
31.1*	Certification by the Principal Executive Officer of Registrant pursuant to Section 302 of the Sarbanes-Oxley Act of 2002 (Rule 13a-14(a) or Rule 15d-14(a)).
31.2*	Certification by the Principal Financial Officer of Registrant pursuant to Section 302 of the Sarbanes-Oxley Act of 2002 (Rule 13a-14(a) or Rule 15d-14(a)).
