FORWARD-LOOKING STATEMENTS

This Quarterly Report on Form 10-Q (this "Report") contains "forward-looking statements" within the meaning of, and subject to the protection of, the Private Securities Litigation Reform Act of 1995. We intend such forward-looking statements to be covered by the safe harbor provisions for forward-looking statements contained in Section 27A of the Securities Act of 1933, as amended (the "Securities Act"), and Section 21E of the Securities Exchange Act of 1934, as amended (the "Exchange Act"). All statements other than statements of historical fact contained in this Report, including, without limitation, statements regarding our position as a leader within our industry; our future results of operations and financial position; our business strategies; objectives of management for future operations, including, among others, statements regarding our expected growth, international expansion and future capital expenditures; the impact of market conditions and other macroeconomic factors on our business, financial condition and results of operations; the timing and declaration of future dividends; the sufficiency of our cash and cash equivalents; our future capital expenditures and debt service obligations; and the expectations, anticipated benefits of and costs associated with acquisitions, are forward-looking statements.

Words such as "believes," "expects," "anticipates," "intends," "projects," "estimates," and "plans" and similar expressions of future or conditional verbs such as "will," "should," "would," "may," and "could" or the negatives of these terms or variations of them or similar terminology are generally forward-looking in nature and not historical facts. Readers are cautioned that any such forward-looking statements are not guarantees of future performance and may involve significant risks and uncertainties, and that actual results may vary materially from those in the forward-looking statements as a result of various factors. Among the factors that significantly impact our business and could impact our business in the future are:

- our reliance on our relationship with Popular, Inc. ("Popular") for a significant portion of our revenues pursuant to our second Amended and Restated Master Services Agreement ("A&R MSA") with them, and as it may impact our ability to grow our business;
- our ability to renew our client contracts on terms favorable to us, including but not limited to the current term and any extension of the A&R MSA with Popular and Amended and Restated Independent Sales Organization Sponsorship and Services Agreement (the "A&R ISO Agreement") with Banco Popular;
- our reliance on our information technology systems, employees and certain suppliers and counterparties, and certain failures or disruptions in those systems or chains could materially adversely affect our operations;
- the risk of security breaches or other confidential data theft from our systems;
- our ability to recruit, retain and develop qualified personnel;
- fraud by merchants or others;
- the credit risk of our merchant clients, for which we may also be liable;
- our use of artificial intelligence ("AI") and machine learning tools and the evolving regulatory framework governing such technology;
- a decreased client base due to consolidations and/or failures in the financial services industry;
- our ability to comply with existing and future rules and regulations in the jurisdictions in which we operate;
- a reduction in consumer confidence, whether as a result of a global economic downturn or otherwise, which leads to a decrease in consumer spending;
- our dependence on payment card network or other network rules, standards, mandates or fees;
- the geographical concentration of our business in Puerto Rico, including our business with the government of Puerto Rico and its instrumentalities, which are facing fiscal challenges and the effects of potential natural disasters;
- risks associated with our presence in international markets, including global political, social and economic instability;
- operating an international business in Latin America, Puerto Rico and the Caribbean, in jurisdictions with potential political and economic instability;
- the impact of exposure to foreign exchange fluctuations and capital controls on our costs, earnings and the value of some of our assets; our ability to protect our intellectual property rights against infringement and to defend ourselves against potential intellectual property infringement claims and the potential impact on our business of such claims, whether or not correct;
- the possibility that we could lose our preferential tax rate in Puerto Rico;

- the effect of purchases of our common stock pursuant to our stock repurchase plan on the value of our common stock; and
- the impact of our leverage on our ability to raise additional capital, that our leverage may limit our ability to react to changes in the economy or our industry, expose us to interest rate risk and prevent us from meeting our obligations with respect to our substantial indebtedness, and that we and our subsidiaries may be able to incur significant additional indebtedness, which could further increase such risks.

The forward-looking statements in this Report are only predictions. We have based these forward-looking statements largely on our current expectations and projections about future events and financial trends that we believe may affect our business, financial condition and results of operations. These forward-looking statements are subject to a number of important factors that could cause actual results to differ materially from those in the forward-looking statements, and should, therefore, be considered in light of various factors, including those set forth under Part 1, Item 1A. "Risk Factors," in our Annual Report on Form 10-K for the year ended December 31, 2025 filed with the Securities and Exchange Commission (the "SEC") on March 2, 2026 and in Part I, Item 2."Management's Discussion and Analysis of Financial Condition and Results of Operations" and elsewhere in this Report, as may be updated in our subsequent filings with the SEC. These forward-looking statements speak only as of the date of this Report, and, except as may be required by law, we do not undertake any obligation to publicly release any revisions to these forward-looking statements to reflect events or circumstances after the date of this Report or to reflect the occurrence of unanticipated events. Additionally, certain information we may disclose (either herein or elsewhere) is informed by the expectations of various stakeholders or third-party frameworks and, as such, may not necessarily be material for purposes of our filings under U.S. federal securities laws, even if we use "material" or similar language in discussing such matters.

WHERE YOU CAN FIND MORE INFORMATION

All reports we file with the SEC are available free of charge via the Electronic Data Gathering Analysis and Retrieval (EDGAR) System on the SEC's website at www.sec.gov. We also provide copies of our SEC filings at no charge upon request and make electronic copies of our reports available for download through our website at www.evertecinc.com as soon as reasonably practicable after filing such material with the SEC. Our website is not incorporated by reference into this Report, and you should not consider the information on our website to be part of this Report.

Note 1 – The Company and Basis of Presentation

The Company

EVERTEC, Inc. and its subsidiaries (collectively the "Company" or "EVERTEC") is a leading full-service transaction processing business and financial technology provider in Latin America and the Caribbean. The Company is based in Puerto Rico and provides a broad range of merchant acquiring, payment processing and business process management services across 26 countries in the region. EVERTEC owns and operates the ATH network, which we believe is one of the leading personal identification number ("PIN") debit networks in the Caribbean and Latin America. In addition, EVERTEC provides a comprehensive suite of services for core bank processing and cash processing in Puerto Rico and technology outsourcing in the regions the Company serves. EVERTEC serves a broad and diversified customer base of leading financial institutions, merchants, corporations, and government agencies with solutions that are essential to their operations, enabling them to issue, process and accept transactions securely.

Basis of Presentation

The unaudited condensed consolidated financial statements of EVERTEC have been prepared in accordance with accounting principles generally accepted in the United States of America ("GAAP") and in accordance with the instructions to Form 10-Q and Article 10 of Regulation S-X. The preparation of the accompanying unaudited condensed consolidated financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the unaudited condensed consolidated financial statements. Actual results could differ from these estimates.

Certain information and note disclosures normally included in the financial statements prepared in accordance with GAAP have been condensed or omitted from these statements pursuant to the rules and regulations of the Securities and Exchange Commission and, accordingly, these unaudited condensed consolidated financial statements should be read in conjunction with the Audited Consolidated Financial Statements of the Company for the year ended December 31, 2025, included in the Company's 2025 Annual Report on Form 10-K. In the opinion of management, the accompanying unaudited condensed consolidated financial statements, prepared in accordance with GAAP, contain all adjustments necessary for a fair presentation. Intercompany accounts and transactions are eliminated in consolidation. Certain amounts from prior periods have been reclassified to conform to the current period presentation.

Note 2 – Business Acquisitions

Tecnobank Tecnologia Bancária S.A. ("Tecnobank")

On October 1, 2025, Evertec Brasil Informática S.A. ("Evertec BR"), a wholly-owned subsidiary of EVERTEC, Inc., completed the purchase of 75% of the share capital of Tecnobank Tecnologia Bancária S.A. ("Tecnobank"). Tecnobank is a fintech vendor in Brazil's digital vehicle financing contract registration sector. The aggregate purchase price for the shares was BRL$791 million or approximately USD$150 million. This transaction enhances the Company's existing product offerings in the region.

The Company accounted for this transaction as a business combination, which generally requires that we recognize the assets acquired and liabilities assumed at fair value as of the acquisition date. In accordance with ASC 805-10-25-15, the Company is allowed a period, not to exceed 12 months from the acquisition date, to adjust the provisional amounts recognized for a business combination. The preliminary estimated acquisition-date fair values of major classes of assets acquired and liabilities assumed, including a reconciliation to the total purchase consideration, were as follows:

	Assets/Liabilities (at fair value)
(In thousands)	
Cash and cash equivalents	$ 4,784

Goodwill in connection with the Dimensa acquisition is attributable to the Latin America Payments and Solutions segment, refer to Note 5- *Goodwill and Other Intangible Assets* for further details. None of the goodwill is deductible for income tax purposes.

Note 3 - Investment in Equity Investees

In the third quarter of 2023, the Company, through its wholly owned subsidiary EVERTEC Costa Rica, S.A. ("EVERTEC CR"), entered into an agreement with a corporate partner to jointly develop and provide payment services in the Latin America region through a newly formed joint venture. The Company accounted for its investment under the equity method of accounting.

During the quarter ended June 30, 2026, management made the decision to exit its investment in the joint venture as part of its ongoing evaluation of strategic priorities and recorded an impairment charge of $8.9 million which is presented within "Losses (earnings) from equity investees" in the accompanying unaudited condensed consolidated statement of income. Such impairment charge considered the investment carrying value net of cash consideration the Company will receive from dissolution of the investment and the extinguishment of the Company's contractual obligations to provide services to the venture.

Note 4 – Property and Equipment, net

Property and equipment, net consisted of the following:

(Dollar amounts in thousands)	Useful life in years	June 30, 2026	December 31, 2025
Buildings	30	$ 2,404	$ 2,202
Data processing equipment	3 - 5	168,980	163,160

Depreciation and amortization expense related to property and equipment for the three and six months ended June 30, 2026 amounted to $6.1 million and $11.9 million, compared to $5.5 million and $11.0 million for the corresponding periods in 2025.

Note 5 – Goodwill and Other Intangible Assets

The changes in the carrying amount of goodwill, allocated by reporting unit, were as follows:

(In thousands)	Payment Services - Puerto Rico & Caribbean	Latin America Payments and Solutions	Merchant Acquiring, net	Business Solutions	Total
Balance at December 31, 2025	$ 160,972	$ 552,889	$ 138,121	$ 40,010	$ 891,992

Balance at June 30, 2026	$ 160,972	$ 731,391	$ 138,121	$ 40,010	$ 1,070,494

Goodwill is tested for impairment on an annual basis as of August 31, or more often if events or changes in circumstances indicate there may be impairment. The Company may test for goodwill impairment using a qualitative or a quantitative analysis. In a qualitative analysis, the Company assesses whether it is "more likely than not" that the fair value of a reporting unit is less than its carrying amount. In the quantitative analysis, the Company compares the estimated fair value of the reporting units to their carrying values, including goodwill. Based on the last analysis performed as of August 31, 2025, the fair value of the reporting units exceed the carrying amounts of the reporting units. No tests for impairment were required for the interim periods ended June 30, 2026 or 2025. Refer to Note 2 - *Business Acquisitions* for further details of goodwill acquired in 2026 and 2025.

The carrying amount of other intangible assets at June 30, 2026 and December 31, 2025 was as follows:

(3) Subject to a SOFR floor of 0.50% plus applicable margin of 2.25% at June 30, 2026 and December 31, 2025.
(4) Subject to a SOFR of 3.75% plus applicable margin of 2.00% at June 30, 2026 and to a Prime rate of 6.75% plus applicable margin of 0.75% at December 31, 2025.

Secured Credit Facilities

On December 1, 2022, EVERTEC and EVERTEC Group, entered into a credit agreement with a syndicate of lenders and Truist Bank, as administrative agent and collateral agent, providing for a $415.0 million term loan A facility (the "TLA Facility") that matures on December 1, 2027, and a $200.0 million revolving credit facility (the "Revolving Facility") that matures on December 1, 2027 (the "Credit Agreement"). Under the Revolving Facility the Company may request up to $20.0 million as part of the swingline, which consists of short-term borrowings, that allows the Company to obtain same-day, short-duration advances to address immediate liquidity needs. On October 30, 2023, EVERTEC and EVERTEC Group entered into a first amendment to the Credit Agreement with a syndicate of lenders and Truist, as administrative agent and collateral agent, providing for (i) additional term A loans in the amount of $60.0 million and a new tranche of term loan B commitments in the

amount of $600.0 million maturing October 30, 2030 (the "TLB Facility"). On May 16, 2024, November 26, 2024 and August 12, 2025, EVERTEC and EVERTEC Group entered into second, third and fourth amendments to its Credit Agreement, each providing for a pricing reduction to its TLB Facility. On November 25, 2025, EVERTEC and EVERTEC Group entered into the fifth amendment to its Credit Agreement which provides for an additional $150.0 million under the TLB Facility. On May 18, 2026, EVERTEC and EVERTEC Group entered into the sixth amendment to its Credit Agreement which provides for an additional $185.0 million under the TLB Facility.

At June 30, 2026, the unpaid principal balance of the TLA Facility and TLB Facility were $393.8 million and $875.0 million, respectively. At June 30,2026, the outstanding balance of the Revolving Facility was $35.0 million and the additional borrowing capacity for the Revolving Facility was $159.4 million, considering letters of credit issued. The Company issues letters of credit against the Revolving Facility which reduce the additional borrowing capacity of the Revolving Facility.

Deferred Consideration from Business Combinations

As part of the Company's merger and acquisition activities, the Company may enter into agreements by which a portion of the purchase price is financed directly by the seller. At June 30, 2026 and December 31, 2025, the unpaid principal balance of these agreements amounted to $2.3 million and $6.2 million, respectively. Obligations bear interest at rates ranging from 8.2% to 12.9% with maturities ranging from January 2027 through March 2027. Deferred consideration is presented in accounts payable on the Company's unaudited condensed consolidated balance sheet.

Note Payable

In September 2023, EVERTEC Group entered into a non-interest bearing financing agreement amounting to $10.1 million to purchase software and maintenance which the Company recorded on a discounted basis using an implied interest of 6.9%. As of June 30, 2026, the outstanding principal balance of the note payable on a discounted basis was $5.3 million. The current portion of the note is included in accounts payable and the long-term portion is included in other long-term liabilities on the Company's unaudited condensed consolidated balance sheet.

Interest Rate Swaps

As of June 30, 2026, the Company has three interest rate swap agreements which convert a portion of the interest rate payments on the Company's Facilities from variable to fixed. The interest rate swaps are used to hedge the market risk from changes in interest rates corresponding with the Company's variable rate debt. The interest rate swaps are designated as cash flow hedges and are considered highly effective. Cash flows from the interest rate swaps are included in the accrued liabilities and accounts payable line item in the Company's unaudited condensed consolidated statements of cash flows. Changes in the fair value of the interest rate swaps are recognized in other comprehensive income until the gains or losses are reclassified to earnings. Gains or losses reclassified to earnings are presented within interest expense in the accompanying condensed consolidated statements of income and comprehensive income.

Swap Agreement	Effective date	Maturity Date	Notional Amount	Variable Rate	Fixed Rate
2023 Swap	November 2024	December 2027	$250 million	1-month SOFR	3.375%
2024 Swap	March 2024	October 2027	$150 million	1-month SOFR	4.182%
2024 Swap	March 2024	October 2027	$150 million	1-month SOFR	4.172%

At June 30, 2026, the carrying amount of the derivatives included on the Company's unaudited condensed consolidated balance sheet was an asset $2.0 million and a liability of $0.8 million. At December 31, 2025, the carrying amount of the derivatives was a liability of $5.2 million. The fair value of these derivatives are estimated using Level 2 inputs in the fair value hierarchy on a recurring basis. Refer to Note 9 - *Equity* for disclosure of gains (losses) recorded on cash flow hedging activities.

During the three and six months ended June 30, 2026, the Company reclassified gains of $0.2 million and $0.4 million, from accumulated other comprehensive loss into interest expense compared to gains of $0.8 million and $1.5 million for the corresponding period in 2025. Based on expected SOFR rates, the Company expects to reclassify gains of $0.7 million from accumulated other comprehensive loss into interest expense over the next 12 months.

Note 7 – Financial Instruments and Fair Value Measurements

Recurring Fair Value Measurements

The following table presents assets and liabilities measured at fair value on a recurring basis at June 30, 2026 and December 31, 2025:

(In thousands)	June 30, 2026				December 31, 2025

Debt Securities Available for Sale ("AFS")

Costa Rica government obligations are held by a trust in the Costa Rica National Bank as a collateral requirement for settlement activities. The Company may substitute securities as needed but must maintain certain levels of collateral based on transaction volumes. The Company purchased debt securities amounting to $0.9 million during the six month period ended June 30, 2026, and $0.6 million for the corresponding period in 2025. Debt securities amounting to $1.0 million matured during the six month period ended June 30, 2025, none matured for the corresponding period in 2026. No debt securities were sold during the six month periods ended June 30, 2026 or 2025. A provision for credit losses was not required for either June 30, 2026 or 2025.

The fair value of debt securities is estimated based on observable inputs through corroboration with market data at the measurement date, therefore classified as a Level 2 asset within the fair value hierarchy.

Interest rate swaps

The fair value of the Company's interest rate swaps are estimated using Level 2 inputs under the fair value hierarchy. Refer to Note 6 - *Debt and Short-term Borrowings* for additional information related to the derivative instruments.

Equity Securities Measured at Net Asset Value (NAV)

At June 30, 2026 and December 31, 2025, the Company holds mutual funds classified as equity securities on the Company's unaudited condensed consolidated balance sheet that are measured at fair value using the NAV per share, or its equivalent, as a practical expedient. Mutual funds consist of investments in venture capital strategies and start-ups with a focus on privately held technology companies. The NAV is based on the fair value of the underlying net assets owned by the mutual funds and the relative interest of each participating investor in the fair value of the underlying assets.

Financial assets and liabilities not measured at fair value

The following table presents the carrying value and estimated fair value for financial instruments at June 30, 2026 and December 31, 2025:

(In thousands)	June 30, 2026		December 31, 2025	
	Carrying Amount	Fair Value	Carrying Amount	Fair Value
Financial liabilities:				
2027 Term A Loan Facility	$ 392,350	$ 392,327	$ 403,770	$ 405,737
2030 Term B Loan Facility	$ 857,932	$ 871,719	$ 673,127	$ 690,000
Revolving Facility	$ 35,000	$ 35,000	$ 10,000	$ 10,000

The fair value of the term loans and the revolving facility at June 30, 2026 and December 31, 2025 was obtained using prices provided by third party service providers. Their pricing is based on various inputs such as market quotes, recent trading activity in a non-active market or imputed prices. These inputs are considered Level 3 inputs under the fair value hierarchy. Also, the pricing may include the use of an algorithm that could take into account movements in the general high yield market, among other variants. The secured term loans are not accounted for at fair value in the balance sheet.

Note 8 – Redeemable Noncontrolling Interests

At June 30, 2026, redeemable noncontrolling interests ("RNCI") consist of interests in consolidated subsidiaries for which the Company has entered into separate option contracts by which the Company has the right to purchase the remaining non-controlling interests through a call option and the non-controlling interest holder has the right to sell the non-controlling interest to the Company through a put option.

The following table summarizes the terms of the issued options:

	Percentage of redeemable noncontrolling interest	Earliest exercise date	Formula of redemption value
Lote45 Participacoes S.A.	43.68%	January 1, 2027	Variable multiple of net sales dependent upon EBITDA margin attained plus net debt minus BRL$10.0 million times percentage of ownership
Tecnobank Tecnologia Bancária S.A.	25.00%	April 30, 2029	Variable multiple of net sales dependent upon EBITDA margin less net debt at the payment date times percentage of ownership

Given certain provisions within the option contracts, the Company has classified the RNCI as mezzanine equity on the Company's unaudited condensed consolidated balance sheets. RNCI are adjusted quarterly, if necessary, to their estimated redemption value. Adjustments to the redemption value impact stockholders' equity. The following table presents changes in RNCI for the six months ended June 30, 2026 and the twelve months ended December 31, 2025:

(In thousands)	Redeemable noncontrolling interests	
	June 30, 2026	December 31, 2025
Beginning balance	$ 89,155	$ 43,460
Fair value of redeemable non-controlling interest at acquisition date	—	53,569
Net income attributable non-controlling interests	2,520	3,177
Acquisition of shares from non-controlling interest	(22,379)	(7,276)
Adjustment of redeemable non-controlling interests to redemption value	7,289	1,180
Dividends declared on redeemable non-controlling interests	(2,421)	(4,976)
Foreign currency translation adjustments	7	21
Ending balance	$ 74,171	$ 89,155

During the six month period ended June 30, 2026, certain non-controlling interest holders exercised their Lote45 Participacoes S.A put options, and accordingly the Company acquired an additional 4.32% ownership interest in Lote45 Participacoes S.A. This transaction did not result in a change in control and was accounted for as an equity transaction, with a $0.7 million decrease to accumulated earnings reflected on the Company's condensed consolidated balance sheet for the difference between the carrying value of the redeemable noncontrolling interest at the date of purchase and the consideration paid. The payment of approximately $2.4 million for the acquisition of the redeemable noncontrolling interest is classified as a financing activity within the condensed consolidated statements of cash flows.

During the same period, the Company also acquired the remaining 49% ownership interest in Rosk Software S.A. and the remaining 40% ownership interest in Compliasset Software e Soluções Digitais Ltda. As none of these transactions resulted in a change of control, they were accounted for as equity transactions in accordance with ASC 810. In connection with the acquisitions of Rosk Software S.A. and Compliasset Software e Soluções Digitais Ltda, the carrying value of the redeemable noncontrolling interest at the dates of purchase approximated the consideration paid. Cash payments of approximately $17.8 million and $2.9 million, respectively, related to these acquisitions are classified as financing activities in the Company's condensed consolidated statements of cash flows.

Note 9 – Equity

Accumulated Other Comprehensive Loss

The following table provides a summary of the changes in the balances of accumulated other comprehensive loss for the six months ended June 30, 2026:

(In thousands)	Foreign Currency Translation Adjustments	Cash Flow Hedges	Unrealized Gains on Debt Securities AFS	Total

Note 10 – Share-based Compensation

Long-term Incentive Plan ("LTIP")

During the periods ended March 31, 2024, 2025 and 2026, the Compensation Committee (the "Compensation Committee") of the Company's Board of Directors ("Board") approved grants of restricted stock units ("RSUs") to executives and certain employees pursuant to the 2024 LTIP, 2025 LTIP and 2026 LTIP, respectively, all under the terms of the Company's 2022 Equity Incentive Plan. Under the LTIPs, the Company granted RSUs to eligible participants as time-based awards and/or performance-based awards.

The vesting of the RSUs is dependent upon service and/or performance conditions as defined in the award agreements. Employees that received time-based awards with service conditions are entitled to receive a specific number of shares of the Company's common stock on the vesting date if the employee provides services to the Company through the vesting date. Time-based awards generally vest over a period of three years in substantially equal installments commencing on the grant date and ending on February 28 of each year for the 2024 LTIP, February 28 of each year for the 2025 LTIP and March 5 of each year for the 2026 LTIP. In 2024, 2025 and 2026 the Company also granted time-based awards with a three year service vesting period which will vest on February 28, 2027, February 28, 2028 and March 5, 2029, respectively.

For the performance-based awards under the 2024 LTIP, the Compensation Committee established adjusted earnings before interest, income taxes, depreciation and amortization ("Adjusted EBITDA") as the primary performance measure while maintaining focus on total shareholder return through the use of a market-based total shareholder return ("TSR") performance modifier. The Adjusted EBITDA measure is based on annual Adjusted EBITDA targets and can result in a payout between 0% and 200%, depending on the performance level. The TSR modifier adjusts the shares earned based on the Adjusted EBITDA performance upwards or downwards (+/- 25%) based on the Company's relative TSR at the end of the three-year performance period as compared to the companies in the Russell 2000 Index. The Adjusted EBITDA performance measure will be calculated for the one-year period commencing on January 1 of the year of the grant and ending on December 31 of the same year, relative to the goals set by the Compensation Committee for this same period. The shares earned will be subject to an additional two-year service vesting period and will vest on February 28, 2027 for the 2024 LTIP.

For the performance-based awards under the 2025 LTIP and 2026 LTIP, the Compensation Committee established adjusted earnings before interest, income taxes, depreciation and amortization ("Adjusted EBITDA"), measured on a constant currency basis, which means results are calculated using consistent exchange rates to facilitate period-to-period comparability, as the primary performance measure while ensuring focus on total shareholder return through the use of a market-based TSR performance modifier. For the 2025 LTIP, Adjusted EBITDA measure is based on annual Adjusted EBITDA targets and can result in a payout between 0% and 200%, depending on the performance level. The TSR modifier adjusts the shares earned based on the Adjusted EBITDA performance upwards or downwards (+/- 25%) based on the Company's relative TSR at the end of the three-year performance period as compared to the companies in the Russell 2000 Index. For 2026 LTIP, the Compensation Committee approved a change in the Adjusted EBITDA performance modifier to be (+/-35%) based on the Company's relative TSR performance at the end of the applicable three-year performance period. The Adjusted EBITDA performance measure will be calculated for the one-year period commencing on January 1 of the year of the grant and ending on December 31 of the same year, relative to the goals set by the Compensation Committee for this same period. For the 2025 LTIP, the shares earned will be subject to an additional two-year service vesting period and will vest on February 28, 2028. For the 2026 LTIP, the shares earned will be subject to an additional three-year service vesting period and will vest on March 5, 2029. Unless otherwise specified in the award agreement, or in an employment agreement, awards are forfeited if the employee voluntarily ceases to be employed by the Company prior to vesting.

The following table summarizes nonvested RSUs activity for the six months ended June 30, 2026:

Nonvested RSUs	Shares	Weighted-average grant date fair value
Nonvested at December 31, 2025	2,034,626	$ 38.59
Granted	1,229,052	31.10
Vested	(846,342)	38.64
Forfeited	(45,580)	35.61
Nonvested at June 30, 2026	2,371,756	$ 34.76

For the three and six months ended June 30, 2026, the Company recognized $8.1 million and $15.7 million of share-based compensation expense, compared with $7.3 million and $14.5 million for the corresponding period in 2025.

As of June 30, 2026, the maximum unrecognized cost for RSUs was $56.8 million. The cost is expected to be recognized over a weighted average period of 2.1 years.

Note 11 – Revenues

Disaggregation of Revenue

The Company disaggregates revenue from contracts with customers into primary geographical markets, nature of the products and services, and timing of transfer of goods and services. The Company's operating segments are determined by the nature of the products and services the Company provides and the primary geographical markets in which the Company operates. Revenue disaggregated by segment is discussed in Note 16 - *Segment Information*.

In the following tables, revenue for each segment, excluding intersegment revenues, is disaggregated by timing of revenue recognition for the periods indicated.

Revenue concentration with a single customer, Popular, as a percentage of total revenues for the quarters ended June 30, 2026 and 2025 was approximately 24% and 31%, respectively. For the six months ended June 30, 2026 and 2025 this percentage was approximately 25% and 31%, respectively. Accounts receivable from Popular at June 30, 2026 and December 31, 2025 amounted to $40.2 million and $41.4 million, respectively.

Contract Balances

Contract assets of the Company arise when the Company has a contract with a customer for which revenue has been recognized (i.e., goods or services have been transferred), but the customer payment is subject to a future event (i.e., satisfaction of additional performance obligations). Contract assets will be considered a receivable when the rights to consideration of the Company become unconditional (i.e., the Company has a present right to payment). The current portion of contract assets is recorded as part of prepaid expenses and other assets, and the long-term portion is included in other long-term assets in the unaudited condensed consolidated balance sheets. Contract assets at June 30, 2026 and December 31, 2025 amounted to $18.4 million and $13.9 million, respectively.

Contract liability and Contract liability - long term, at June 30, 2026 amounted to $32.8 million and $35.0 million, respectively. Contract liability and Contract liability - long term, at December 31, 2025 amounted to $26.6 million and $47.0 million, respectively. Contract liability is mainly comprised of upfront fees for implementation or set up activities, including fees invoiced in pre-production periods in connection with hosting services, as well as amounts related to contracts entered into concurrently with the close of the Popular Transaction in the fiscal year 2022. Contract liability may also arise when consideration is received or due in advance from customers prior to performance. During the three and six month period ended June 30, 2026, the Company recognized revenue of $13.5 million and $21.6 million that was included in the Contract liability at December 31, 2025. During the three and six month period ended June 30, 2025, the Company recognized revenue of $8.0 million and $18.4 million that was included in the Contract liability at December 31, 2024.

Transaction price allocated to the remaining performance obligations

Revenues from recurring transaction-based and processing services represent the majority of the Company's total revenue. The Company recognizes revenues from recurring transaction-based and processing services over time at the amounts in which the Company has right to invoice, which corresponds directly to the value to the customer of the Company's performance completed to date.

The Company has elected to apply the practical expedient permitted under ASC 606, when applicable. Under this practical expedient, the Company is not required to disclose information about remaining performance obligations if the performance

obligation is part of a contract with an original expected duration of one year or less or if the Company recognizes revenue at the amount to which it has a right to invoice. The Company also applies the practical expedient for variable consideration when the variable consideration is allocated entirely to a wholly unsatisfied performance obligation or to a wholly unsatisfied promise to transfer a distinct good or service that forms part of a single performance obligation.

For contracts excluded from the application of the practical expedients noted above, the estimated aggregate amount of the transaction price allocated to performance obligations that are unsatisfied or partially satisfied at June 30, 2026 was $780.3 million, which is expected to be recognized over the next 6 years. The Company expects to recognize approximately 21% of the remaining performance obligations during 2026, approximately 36% during 2027, and the balance thereafter.

Note 12 – Current Expected Credit Losses

Allowance for Current Expected Credit Losses

Trade receivables from contracts with customers are financial assets analyzed by the Company under the expected credit loss model. To measure expected credit losses, trade receivables are grouped based on shared risk characteristics (i.e., the relevant industry sector and customer's geographical location) and days past due (i.e., delinquency status), while considering the following:

- Customers in the same geographical location share similar risk characteristics associated with the macroeconomic environment of their country.
- The Company has two main industry sectors: private and governmental. The private pool is comprised mainly of leading financial institutions, merchants and corporations, while the governmental pool is comprised of government agencies. Governmental customers possess different risk characteristics than private customers because although all invoices are due 30 days after issuance, governmental customers usually pay within 60 to 90 days after issuance.
- The expected credit loss rate is likely to increase as receivables move to older aging buckets. The Company used the following aging categories to estimate the risk of delinquency status: (i) 0 days past due; (ii) 1-30 days past due; (iii) 31-60 days past due; (iv) 61-90 days past due; and (v) over 90 days past due.

The credit losses of the Company's trade receivables have been historically low and most balances are collected within one year. Therefore, the Company determined that the expected loss rates should be calculated using the historical loss rates adjusted by macroeconomic factors. The historical rates are calculated for each of the aging categories used for pooling trade receivables. To determine the collected portion of each bucket, the collection time of each trade receivable is identified, to estimate the proportion of outstanding balances per aging bucket that ultimately will not be collected. This is used to determine the expectation of losses based on the history of uncollected trade receivables once the specific past due period is surpassed. The historical rates are adjusted to reflect current and forward-looking information on macroeconomic factors affecting the ability of customers to settle the receivables by applying a country risk premium as the forward-looking macroeconomic factor. Specific reserves are established for certain customers for which collection is doubtful.

Roll-forward of the Allowance for Expected Current Credit Losses

The following table provides information about the allowance for expected current credit losses on trade receivables for the six months ended June 30, 2026 and the year ended December 31, 2025:

(In thousands)	June 30, 2026	December 31, 2025
Balance at beginning of period	$ 3,208	$ 2,856
Current period provision for expected credit losses	1,395	727
Write-offs	(719)	(379)
Recoveries of amounts previously written-off	—	4
Balance at end of period	$ 3,884	$ 3,208

The Company does not have a delinquency threshold for writing-off trade receivables. The Company has a formal process for the review and approval of write-offs.

Impairment losses on trade receivables are presented as net impairment losses within cost of revenue, exclusive of depreciation and amortization in the unaudited condensed consolidated statements of income and comprehensive income. Subsequent recoveries of amounts previously written-off, when applicable, are credited against the allowance for expected current credit losses within accounts receivable, net on the unaudited condensed consolidated balance sheets.

Note 13 – Income Tax

The effective tax rate for the three and six months ended June 30, 2026 was 74.7% and 43.7%, respectively, compared to 9.0% and 10.0% for the corresponding periods in 2025. The effective tax rate for the current year periods exceeded the applicable statutory corporate income tax rate of 37.5%, primarily driven by discrete tax items, including taxes associated with a dividend distribution from a foreign subsidiary as part of the Company's capital allocation and funding strategy used to partially fund the acquisition of Dimensa, as well as a valuation allowance recorded against capital losses generated by impairment charges related to the Company's strategic decision to exit an Investment in equity investee as described in Note 3 - *Investment in Equity Investees*. The increase in the effective tax rate for the three and six months ended June 30, 2026 compared to the three and six months ended June 30, 2025 is also attributable to the geographic mix of taxable income, including a larger proportion of earnings generated in higher tax rate foreign jurisdictions, compared to Puerto Rico.

The Organization for Economic Co-operation and Development Inclusive Framework on Base Erosion and Profit Shifting Pillar Two Model Rules ("Pillar Two") for a global minimum tax were effective for the Company beginning January 1, 2026. Many countries have enacted certain aspects of the Pillar Two framework. Entities operating in countries where Pillar Two has been enacted are required to estimate Pillar Two top-up tax obligations, as applicable.

For the three and six months ended June 30, 2026, the Company did not estimate material Pillar Two top-up tax obligations impacting the Company's estimated annual effective tax rate. The Company will continue to evaluate the impact of proposed and enacted Pillar Two legislation based on its results and in particular the application of the qualified domestic minimum tax in Brazil.

Note 14 – Net Income Per Common Share

The reconciliation of the numerator and the denominator of net income per common share is as follows:

	Three months ended June 30,		Six months ended June 30,	
(In thousands, except per share information)	2026	2025	2026	2025

(1) Potential common shares consist of common stock issuable under RSUs awards using the treasury stock method.

On February 19, 2026, the Company's Board declared quarterly cash dividends of $0.05 per share of common stock, which was paid on March 6, 2026 to stockholders of record as of March 2, 2026. On April 30, 2026, the Company's Board declared quarterly cash dividends of $0.05 per share of common stock, which was paid on June 5, 2026 to stockholders of record as of May 11, 2026.

Note 15 – Commitments and Contingencies

EVERTEC is a defendant in a number of legal proceedings arising in the ordinary course of business. Based on the opinion of legal counsel and other factors, management believes that the final disposition of these matters will not have a material adverse effect on the business, results of operations, financial condition, or cash flows of the Company. The Company has identified certain claims in which a loss may be incurred, but in the aggregate the loss would be inconsequential. For other claims, where the proceedings are in an initial phase, the Company is unable to estimate the range of possible loss, if any, at this time, but management believes that any loss related to such claims will not be material.

Note 16 – Segment Information

The Company operates in four operating and reportable business segments: Payment Services - Puerto Rico & Caribbean, Latin America Payments and Solutions, Merchant Acquiring, and Business Solutions based upon organization of the Company by the nature of products and services provided to customers and geography.

The Payment Services - Puerto Rico & Caribbean segment revenues are comprised of revenues related to providing access to the ATH debit network and other card networks to financial institutions, including related services such as authorization, processing, management and recording of ATM and point of sales (POS) transactions, and ATM management and monitoring. The segment revenues also include revenues from card processing services (such as credit and debit card processing, authorization and settlement and fraud monitoring and control to debit or credit issuers), payment processing services (such as payment and billing products for merchants, businesses and financial institutions), ATH Movil (person-to-person) and ATH Business (person-to-merchant) digital transactions and EBT (which principally consist of services to the government of Puerto Rico for the delivery of benefits to participants). For ATH debit network and processing services, revenues are primarily driven by the number of transactions processed. Revenues are derived primarily from network fees, transaction switching and processing fees, and the leasing of POS devices. For card issuer processing, revenues are primarily dependent upon the number of cardholder accounts on file, transactions and authorizations processed, the number of cards embossed and other processing services. For EBT services, revenues are primarily derived from the number of beneficiaries on file.

The Latin America Payments and Solutions segment payment revenues consist of revenues related to providing access to the ATH network of ATMs and other card networks to financial institutions, including related services such as authorization, processing, management and recording of ATM and POS transactions, and ATM management and monitoring. The segment revenues also include revenues from card processing services (such as credit and debit card processing, authorization and settlement and fraud monitoring and control to debit or credit issuers), payment processing services (such as payment and billing products for merchants, businesses and financial institutions), as well as licensed software solutions for risk and fraud management and card payment processing. For network and processing services, revenues are primarily driven by the number of transactions processed. Revenues are derived primarily from transaction switching, processing fees, and the leasing of POS devices. For card issuer processing, revenues are primarily dependent upon the number of cardholder accounts on file, transactions and authorizations processed, the number of cards embossed, and other processing services. Solutions revenues consist of (a) licensing, support and maintenance (“subscription”), implementation and customization of software used to provide financial products in areas such as core banking, credit, investments, payments, foreign exchange, mutual funds, pension funds, consortium and insurance, in addition to software used to execute processes such as digital onboarding, digital signature, digital collection, and other digital transaction-related processes, including vehicle financing contract registration; and (b) outsourcing of mission critical IT services. Revenues are based on monthly fixed fees and, in several cases, variable fees based on usage.

The Merchant Acquiring segment consists of revenues from services that allow merchants to accept electronic methods of payment. In the Merchant Acquiring segment, revenues include a discount fee and membership fees charged to merchants, debit network fees and rental fees from POS devices and other equipment, net of credit card interchange and assessment fees charged by credit cards associations (such as VISA or MasterCard) or payment networks. The discount fee is generally a percentage of the transaction value. EVERTEC also charges merchants for other services that are unrelated to the number of transactions or the transaction value.

The Business Solutions segment consists of revenues from a full suite of business process management solutions in various product areas such as core bank processing, network hosting, managed services and managed security services, IT professional services, business process outsourcing, item processing, cash processing, and fulfillment. Core bank processing and network services revenues are derived in part from a recurrent fixed fee and from fees based on the number of accounts on file (i.e., savings or checking accounts, loans, etc.), server capacity usage or computer resources utilized. Revenues from other processing services within the Business Solutions segment are generally volume-based and depend on factors such as the number of accounts processed. In addition, EVERTEC is a reseller of hardware and software products and these resale transactions are generally non-recurring.

The Company’s Chief Operating Decision Maker ("CODM") is the President and Chief Executive Officer (“CEO”). The CODM uses revenue and Segment Adjusted EBITDA to evaluate segment performance and allocate resources, and regularly reviews performance at the segment level against budget and forecast when making decisions about the allocation of resources to each segment. Segment Adjusted EBITDA reviewed by the CODM is calculated as EBITDA further adjusted to exclude certain non-cash unrealized items and unusual expenses such as: share-based compensation, restructuring related expenses, fees and expenses from corporate transactions such as M&A activity and financing, equity investment income net of dividends received, and the impact from non-cash unrealized gains and losses on foreign currency remeasurement for assets and liabilities in non-functional currency. Segment Adjusted EBITDA is presented in conformity with ASC Topic 280, *Segment Reporting*, given that it is used by the CODM for purposes of evaluating performance and allocating resources.

The Company does not report assets or other balance sheet information to the CODM on a segment basis as the Company's CODM does not assess performance, make strategic decisions, or allocate resources based on this information. No segment expense information is regularly provided to the CODM and therefore the Company does not report significant segment expenses.

Expense information that is regularly provided to the CODM on a consolidated financial statement basis include personnel costs, professional fees, equipment expenses and cost of sales, adjusted primarily for the impact of share-based compensation, restructuring related expenses, and fees and expenses from corporate transactions such as M&A activity and financing.

The following tables set forth information about the Company's operations by its four reportable segments for the periods indicated:

Note 18 – Subsequent Events

On July 23, 2026, the Board declared a regular quarterly cash dividend of $0.05 per share on the Company's outstanding shares of common stock. The dividend is expected to be paid on September 4, 2026 to stockholders of record as of the close of business on August 3, 2026. The Board anticipates declaring this dividend in future quarters on a regular basis; however future declarations of dividends are subject to the Board's approval and may be adjusted as business needs or market conditions change.

On July 31, 2026, Evertec Brasil Informática S.A., a wholly-owned subsidiary of Evertec completed the previously announced purchase of 67% ownership stake in BB Chain, a startup specializing in blockchain infrastructure for financial institutions. The aggregate investment was approximately R$28 million or approximately USD$5.6 million, subject to customary closing adjustments. The transaction was funded with the Company's existing liquidity.

On July 31, 2026, the Company's Board of Directors approved an increase to Evertec's existing share repurchase authorization to permit future repurchases of up to an aggregate of $150 million worth of shares of the Company's common stock, par value $0.01 per share while maintaining the current expiration date of December 31, 2027.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Overview

EVERTEC is a leading full-service transaction-processing business and financial technology provider in Latin America, Puerto Rico and the Caribbean, providing a broad range of merchant acquiring, payment services and business solutions. We believe we are one of the largest merchant acquirers in Latin America based on total number of transactions and we also believe we are the largest merchant acquirer in the Caribbean. We serve 26 countries out of 24 offices, including our headquarters in Puerto Rico. We own and operate the ATH network, which we believe is one of the leading debit networks in Latin America. We process over ten billion transactions annually through a system of electronic payment networks in Puerto Rico and Latin America and provide a comprehensive suite of services for core banking, cash processing, fulfillment in Puerto Rico and a "one-stop shop" set of products for the financial sector in Latin America, which include solutions such as core banking, investments, asset management, pension funds, consortium and insurance. Additionally, we offer managed services, managed security services and payment transactions fraud monitoring to all the regions where we do business. We serve a diversified customer base of leading financial institutions, merchants, corporations, and government agencies with "mission-critical" technology solutions that enable them to issue, process and accept transactions securely. We believe our business is well-positioned to continue to expand across the fast-growing Latin America region.

We are differentiated, in part, by our diversified business model, which enables us to provide our varied customer base with a broad range of transaction-processing services from a single source across numerous channels and geographic markets. We believe this capability provides several competitive advantages that will enable us to continue to penetrate our existing customer base with complementary new services, gain new customers, develop new sales channels, and enter new markets. We believe these competitive advantages include:

- Our ability to provide competitive products;
- Our ability to provide in one package a range of services that traditionally had to be sourced from different vendors;
- Our ability to serve customers with disparate operations in several geographies with technology solutions that enable them to manage their business as one enterprise; and
- Our ability to capture and analyze data across the transaction-processing value chain and use that data to provide value-added services that are differentiated from those offered by pure-play vendors that serve only one portion of the transaction-processing value chain (such as only merchant acquiring or only payment services).

Our broad suite of services spans the entire payment processing value chain and includes a range of front-end customer-facing solutions such as the electronic capture and authorization of transactions at the point-of-sale for both card present transactions and card-not-present transactions, as well as back-end support services such as the clearing and settlement of transactions and account reconciliation for card issuers. These include: (i) merchant acquiring services, which enable point of sales ("POS") and e-commerce merchants to accept and process electronic methods of payment such as debit, credit, prepaid and electronic benefit transfer ("EBT") cards; (ii) payment processing services, which enable financial institutions and other issuers to manage, support and facilitate the processing for credit, debit, prepaid, automated teller machines ("ATM") and EBT card programs; and (iii) business process management solutions, which provide "mission-critical" technology solutions such as core bank processing, as well as IT outsourcing and cash management services to financial institutions, corporations and governments. We provide these services through scalable, end-to-end technology platforms that we manage and operate in-house and that generate significant operating efficiencies that enable us to maximize profitability.

We sell and distribute our services primarily through a proprietary direct sales force with established customer relationships. We continue to pursue joint ventures and merchant acquiring alliances. We benefit from an attractive business model, the hallmarks of which are recurring revenue, scalability, significant operating margins and moderate capital expenditure requirements. Our revenue is predominantly recurring in nature because of the mission-critical and embedded nature of the services we provide. In addition, we generally enter into multi-year contracts with our customers. We believe our business model should enable us to continue to grow our business organically in the primary markets we serve without significant incremental capital expenditures.

Factors and Trends Affecting the Results of Our Operations

The ongoing migration from cash and paper methods of payment to electronic payments continues to benefit the transaction- processing industry globally. We continue to believe that the penetration of electronic payments in the markets in which we operate is significantly lower relative to the U.S. market, which, together with the ongoing shift from cash and paper methods of payment to electronic payments will continue to generate growth opportunities for our business. For example, the adoption of banking products, including electronic payments, in the Latin America and Caribbean region is lower relative to the mature U.S. and European markets. We believe that the unbanked and underbanked population in our markets will continue to shrink, and therefore drive incremental penetration and growth of electronic payments in Puerto Rico and other Latin America regions. We also benefit from the outsourcing of technology systems and processes trend for financial institutions and government. Many medium- and small-size institutions in the Latin American markets in which we operate have outdated systems and updating these IT legacy systems is financially and logistically challenging, which presents a business opportunity for us.

In recent years, consumer preference has accelerated its shift away from cash and paper payment methods, noting increased demand for omni-channel payment services that facilitate cashless and contactless transactions. The ongoing migration to digital payment methods continues to benefit the transaction-processing industry globally. Technologies such as contactless payments, QR codes, tap to pay, mobile commerce, "e-wallets" and advanced and smart POS devices continue to drive the shift away from cash and other traditional payment methods. The Company has benefited from an increase in transaction volumes for these types of payment solutions. As consumers and merchants increase demand for contactless and mobility-based solutions, the Company has continued to innovate and invest, expanding the footprint and functionality of digital solutions such as Placetopay, our e-commerce gateway platform, our wallet ATH Movil and ATH Business, and Paystudio our issuing and acquiring processing platform. Additionally, aligned with this trend, the Company has also developed software to take advantage of Brazil's fastest instant money transfer system, Pix. We believe that the ongoing shift to digital payments will continue to generate substantial growth opportunities for our business.

Our payment businesses also generally experience moderate increased activity during the traditional holiday shopping periods and around other nationally recognized holidays, which follow consumer spending patterns.

Finally, our financial condition and results of operations are, in part, dependent on the economic and general conditions of the geographies in which we operate. Rising interest rates, inflationary pressures, foreign currency fluctuations, new or increased tariffs or the imposition of other trade barriers and economic uncertainty in the markets in which we operate may affect consumer confidence, which could result in a decrease in consumer spending and an impact to our financial results.

Relationship with Popular

On September 30, 2010, EVERTEC Group entered into a 15-year Master Service Agreement ("MSA"), and several related agreements with Popular. On July 1, 2022, we modified and extended the main commercial agreements with Popular, including obtaining a 10-year extension of the Merchant Acquiring Independent Sales Organization Agreement, a 5-year extension of the ATH Network Participation Agreement and a 3-year extension of the MSA (as amended, the "A&R ISO Agreement"). The

A&R ISO Agreement, which defines our merchant acquiring relationship with Popular, now includes revenue sharing provisions with Popular. The MSA modifications also include the elimination of the exclusivity requirement, the inclusion of annual MSA minimums through September 30, 2028, a 10% discount on certain MSA services which began in October of 2025 and adjustments to the CPI pricing escalator clause. On the same date, we also sold to Popular certain assets in exchange for 4.6 million shares of EVERTEC common stock owned by Popular (collectively with the contract amendments, the "Popular Transaction"). On August 15, 2022, through a secondary offering, Popular sold its remaining shares of EVERTEC common stock. EVERTEC is no longer deemed a subsidiary of Popular under the Bank Holding Company Act. Popular continues to be the Company's largest customer and for the six months ended June 30, 2026 approximately 25% of our revenues were generated from this relationship.

Results of Operations

Comparison of the three months ended June 30, 2026 and 2025

In thousands	Three months ended June 30, 2026	2025	Variance	
Revenues	$ 274,820	$ 229,607	$ 45,213	20 %
Operating costs and expenses				
Cost of revenues, exclusive of depreciation and amortization	124,241	110,060	14,181	13 %
Selling, general and administrative expenses	57,310	35,104	22,206	63 %

Income from operations	$ 53,278	$ 56,134	$ (2,856)	(5)%

Revenues

Total revenue for the three months ended June 30, 2026 was $274.8 million, an increase of 20% compared with $229.6 million in the prior year quarter driven by organic growth across most of the Company's segments, contributions from the recent acquisitions completed in the current and prior year and favorable foreign currency fluctuations. Merchant acquiring revenue benefited from higher sales volume, higher non-transactional revenues and an improvement in spread. Payments Puerto Rico revenue benefited from higher POS transactions and growth in ATH Movil, primarily in ATH Business, as well as a non-recurring volume-based benefit recognized during the quarter. Latin America revenue benefited from the contributions of recent acquisitions, and continued organic growth across the region. Revenue also benefited from foreign currency exchange rate fluctuations of $9.1 million, primarily in Brazil. Business Solutions revenue contracted mainly as a result of the 10% discount to Popular that came into effect in the fourth quarter of 2025.

Cost of Revenues

Cost of revenues, exclusive of depreciation and amortization, for the three months ended June 30, 2026 amounted to $124.2 million, an increase of $14.2 million or 13% when compared to the same period in the prior year. This increase was driven by the increase in revenue, primarily driven by higher personnel costs and professional fees related to the acquisitions completed in the current quarter and in the prior year, as well as higher cloud expenses.

Selling, General and Administrative Expenses

Selling, general and administrative expenses for the three months ended June 30, 2026 amounted to $57.3, an increase of $22.2 million or 63% when compared to the same period in the prior year. This increase was mainly driven by higher professional fees and personnel costs related to the acquisitions completed in the current quarter and in the prior year, coupled with higher equipment expenses and costs related to the cybersecurity incident response and remediation activities.

Depreciation and Amortization

Depreciation and amortization expense for the three months ended June 30, 2026 amounted to $40.0 million, an increase of $11.7 million or 41% when compared to the same period in the prior year. The increase was primarily driven by the amortization of intangible assets recognized in the recent acquisitions.

Non-Operating Expenses

In thousands	Three months ended June 30, 2026	2025	Variance	
Interest income	$ 3,727	$ 3,079	$ 648	21 %
Interest expense	(20,264)	(16,719)	(3,545)	21 %
(Loss) gain on foreign currency remeasurement	(698)	1,348	(2,046)	(152)%

Total non-operating expenses	$ (26,127)	$ (11,091)	$ (15,036)	136 %

Non-operating expenses for the three months ended June 30, 2026 increased by $15.0 million to $26.1 million when compared to the same period in the prior year. The increase was mainly related to an impairment loss of $8.9 million related to an Investment in equity investee, an increase in foreign currency remeasurement loss of $2.0 million and an increase in interest expense of $3.5 million resulting from the increased debt raised to finance the Dimensa and Tecnobank acquisitions, partially offset by an increase in interest income of $0.6 million.

Income Tax Expense

In thousands	Three months ended June 30, 2026	2025	Variance	
Income tax expense	$ 20,274	$ 4,070	$ 16,204	398 %

Income tax expense for the three months ended June 30, 2026 amounted to $20.3 million, compared to $4.1 million in the prior period. The effective tax rate for the period was 74.7%, compared with 9.0% in the prior year period. This increase was primarily driven by discrete tax items, including taxes associated with a dividend distribution from a foreign subsidiary as part of the Company's capital allocation and funding strategy used to partially fund the acquisition of Dimensa, as well as a valuation allowance recorded against capital losses generated by impairment charges related to the Company's strategic decision to exit an Investment in equity investee. This increase is also attributable to the geographic mix of taxable income, including a larger proportion of income generated in higher tax rate foreign jurisdictions, as compared with Puerto Rico.

Comparison of the six months ended June 30, 2026 and 2025

In thousands	Six months ended June 30, 2026	2025	Variance	
Revenues	$ 522,743	$ 458,399	$ 64,344	14 %

Income from operations	97,847	105,634	(7,787)	(7)%

Revenues

Total revenue for the six months ended June 30, 2026 was $522.7 million, an increase of 14% compared with $458.4 million in the prior year period for the same reasons explained above for the quarter. As it related to Business Solutions, revenue decreased primarily due to the same factors explained for above in the quarter and a non-recurring hardware and software sales executed in the prior year.

Cost of Revenues

Cost of revenues, exclusive of depreciation and amortization, for the six months ended June 30, 2026 amounted to $242.5 million, an increase of $17.8 million or 8% when compared to the same period in the prior year. This increase was driven by the same factors explained for above in the quarter.

Selling, General and Administrative Expenses

Selling, general and administrative expenses for the six months ended June 30, 2026 amounted to $105.2 million, an increase of $33.8 million or 47% when compared to the same period in the prior year. This increase was mainly driven by the same factors explained for above in the quarter and cash payment of contingent considerations related to prior acquisitions.

Depreciation and Amortization

Depreciation and amortization expense for the six months ended June 30, 2026 amounted to $77.3 million, an increase of $20.5 million or 36% when compared to the same period in the prior year. The increase was primarily driven by the same factors explained for above in the quarter.

Non-Operating Expenses

Total non-operating expenses	(41,717)	(23,364)	(18,353)	79 %

Non-operating expenses for the six months ended June 30, 2026 increased by $18.4 million to $41.7 million when compared to the same period in the prior year. The increase was primarily driven by a $9.3 million unfavorable change in earnings from equity investees, as a result of $8.9 million of impairment losses recognized during the period, a $4.9 million increase in foreign currency remeasurement losses, an increase in interest expense of $3.9 million resulting from the increased debt raised to finance the Dimensa and Tecnobank acquisitions. These increases were partially offset by an increase in interest income of $1.3 million.

Income Tax Expense

	Six months ended June 30,			
In thousands	2026	2025	Variance	
Income tax expense	24,506	8,206	$ 16,300	199 %

Income tax expense for the six months ended June 30, 2026 amounted to $24.5 million, compared to $8.2 million in the prior period. The effective tax rate for the period was 43.7%, compared with 10.0% in the prior year period. The increase in the effective tax rate was primarily driven by the same factors explained for above in the quarter.

Segment Results of Operations

The Company has four operating and reportable segments: Payment Services - Puerto Rico & Caribbean, Latin America Payments and Solutions, Merchant Acquiring, and Business Solutions based upon organization of the Company by the nature of products and services provided to customers and geography.

The Payment Services - Puerto Rico & Caribbean segment revenues are comprised of revenues related to providing access to the ATH debit network and other card networks to financial institutions, including related services such as authorization, processing, management and recording of ATM and POS transactions, and ATM management and monitoring. The segment revenues also include revenues from card processing services (such as credit and debit card processing, authorization and settlement and fraud monitoring and control to debit or credit issuers), payment processing services (such as payment and billing products for merchants, businesses and financial institutions), ATH Movil (person-to-person) and ATH Business (person-to-merchant) digital transactions and EBT (which principally consist of services to the government of Puerto Rico for the delivery of benefits to participants). For ATH debit network and processing services, revenues are primarily driven by the number of transactions processed. Revenues are derived primarily from network fees, transaction switching and processing fees, and the leasing of POS devices. For card issuer processing, revenues are primarily dependent upon the number of cardholder accounts on file, transactions and authorizations processed, the number of cards embossed and other processing services. For EBT services, revenues are primarily derived from the number of beneficiaries on file.

The Latin America Payments and Solutions segment payment revenues consist of revenues related to providing access to the ATH network of ATMs and other card networks to financial institutions, including related services such as authorization, processing, management and recording of ATM and POS transactions, and ATM management and monitoring. The segment revenues also include revenues from card processing services (such as credit and debit card processing, authorization and settlement and fraud monitoring and control to debit or credit issuers), payment processing services (such as payment and billing products for merchants, businesses and financial institutions), as well as licensed software solutions for risk and fraud management and card payment processing. For network and processing services, revenues are primarily driven by the number of transactions processed. Revenues are derived primarily from transaction switching, processing fees, and the leasing of POS devices. For card issuer processing, revenues are primarily dependent upon the number of cardholder accounts on file, transactions and authorizations processed, the number of cards embossed, and other processing services. Solutions revenues consist of (a) licensing, support and maintenance (“subscription”), implementation and customization of software used to provide financial products in areas such as core banking, credit, investments, payments, foreign exchange, mutual funds, pension funds, consortium and insurance, in addition to software used to execute processes such as digital onboarding, digital signature, digital collection, and other digital transaction -related processes, including vehicle financing contract registration; and (b) outsourcing of mission critical IT services. Revenues are based on monthly fixed fees and, in several cases, variable fees based on usage.

The Merchant Acquiring segment consists of revenues from services that allow merchants to accept electronic methods of payment. In the Merchant Acquiring segment, revenues include a discount fee and membership fees charged to merchants, debit network fees and rental fees from POS devices and other equipment, net of credit card interchange and assessment fees charged by credit cards associations (such as VISA or MasterCard) or payment networks. The discount fee is generally a percentage of the transaction value. EVERTEC also charges merchants for other services that are unrelated to the number of transactions or the transaction value.

The Business Solutions segment consists of revenues from a full suite of business process management solutions in various product areas such as core bank processing, network hosting, managed services and managed security services, IT professional services, business process outsourcing, item processing, cash processing, and fulfillment. Core bank processing and network services revenues are derived in part from a recurrent fixed fee and from fees based on the number of accounts on file (i.e., savings or checking accounts, loans, etc.), server capacity usage or computer resources utilized. Revenues from other processing services within the Business Solutions segment are generally volume-based and depend on factors such as the number of accounts processed. In addition, EVERTEC is a reseller of hardware and software products and these resale transactions are generally non-recurring.

The Company’s Chief Operating Decision Maker ("CODM") is the President and Chief Executive Officer (“CEO”). The CODM uses revenue and Segment Adjusted EBITDA to evaluate segment performance and allocate resources, and regularly reviews performance at the segment level against budget and forecast when making decisions about the allocation of resources to each segment. Segment Adjusted EBITDA reviewed by the CODM is calculated as EBITDA further adjusted to exclude certain non-cash unrealized items and unusual expenses such as: share-based compensation, restructuring related expenses, fees and expenses from corporate transactions such as M&A activity and financing, equity investment income net of dividends received, and the impact from non-cash unrealized gains and losses on foreign currency remeasurement for assets and liabilities in non-functional currency. Segment Adjusted EBITDA is presented in conformity with ASC Topic 280, *Segment Reporting*, given that it is used by the CODM for purposes of evaluating performance and allocating resources.

Expense information that is regularly provided to the CODM on a consolidated financial statement basis includes personnel costs, professional fees, equipment expenses and cost of sales, adjusted primarily for the impact of share-based compensation, restructuring related expenses, and fees and expenses from corporate transactions such as M&A activity and financing.

The Company does not report assets or other balance sheet information to the CODM on a segment basis as the Company's CODM does not assess performance, make strategic decisions, or allocate resources based on this information. No segment expense information is regularly provided to the CODM and therefore the Company does not report significant segment expenses.

The following tables set forth information about the Company's operations by its four reportable segments for the periods indicated below.

Comparison of the three months ended June 30, 2026 and 2025

Payment Services - Puerto Rico & Caribbean

	Three months ended June 30,	
In thousands	**2026**	**2025**
Revenues	$ 60,869	$ 56,421
Segment Adjusted EBITDA	36,894	33,028
Segment Adjusted EBITDA Margin	60.6 %	58.5 %

Payment Services - Puerto Rico & Caribbean segment revenues for the three months ended June 30, 2026 increased by $4.4 million to $60.9 million when compared to the same period in the prior year. The increase in revenues was primarily driven by higher POS revenues driven by transaction growth, the continued strength in ATH Movil, primarily ATH Business coupled with higher vehicle registration and fine processing fees and a non-recurring volume-based benefit recognized during the quarter. Segment Adjusted EBITDA increased by $3.9 million to $36.9 million, driven by revenue growth, partially offset by higher cloud expenses.

Latin America Payments and Solutions

	Three months ended June 30,

Latin America Payments and Solutions segment revenues for the three months ended June 30, 2026 increased by $44.8 million to $130.9 million when compared to the same period in the prior year, driven by the contribution from the acquisitions completed in the prior and current year and the continued organic growth across the region. Revenue also benefited from favorable foreign currency exchange rate fluctuations of $9.1 million, primarily in Brazil. Segment Adjusted EBITDA increased by $16.3 million to $39.7 million, primarily driven by the increase in revenue partially offset by higher personnel costs resulting from incremental headcount across the region, cloud expenses and higher professional fees.

Merchant Acquiring

	Three months ended June 30,	
In thousands	**2026**	**2025**
Revenues	$ 52,301	$ 47,292
Segment Adjusted EBITDA	21,805	20,002
Segment Adjusted EBITDA Margin	41.7 %	42.3 %

Merchant Acquiring segment revenues for the three months ended June 30, 2026 increased by $5.0 million to $52.3 million when compared to the same period in the prior year. The revenue increase was primarily driven by higher sales volume, higher non-transactional revenues, as well as an improvement in spread. Segment Adjusted EBITDA increased by $1.8 million to $21.8 million mainly driven by higher revenue growth, partially offset by higher processing costs from the Payments Puerto Rico segment.

Business Solutions

Revenues	$ 58,825	$ 64,519
Segment Adjusted EBITDA	22,556	26,032
Segment Adjusted EBITDA Margin	38.3 %	40.3 %

Business Solutions segment revenues for the three months ended June 30, 2026 decreased by $5.7 million to $58.8 million as compared to the prior year period. This decrease was primarily driven by the 10% discount to Popular that came into effect in the fourth quarter of 2025. Segment Adjusted EBITDA decreased by $3.5 million to $22.6 million as compared to the prior period primarily driven by the 10% discount to Popular partially offset by lower equipment expenses.

Payment Services - Puerto Rico & Caribbean segment revenues for the six months ended June 30, 2026 increased by $7.7 million to $119.3 million when compared to the same period in the prior year. The increase in revenues was primarily driven by the same factors explained for above in the quarter, as well as higher revenue from services provided to the Latin America Payments and Solutions segment. Segment Adjusted EBITDA increased by $7.2 million to $71.6 million, primarily driven by the same factors explained for above in the quarter.

Latin America Payments and Solutions

In thousands	Six months ended June 30, 2026	2025
Revenues	$ 241,203	$ 169,830
Segment Adjusted EBITDA	72,456	48,245
Segment Adjusted EBITDA Margin	30.0 %	28.4 %

Latin America Payments and Solutions segment revenues for the six months ended June 30, 2026 increased by $71.4 million to $241.2 million when compared to the same period in the prior year, driven by the same factors explained for above in the quarter. Revenue also benefited from favorable foreign currency exchange rate fluctuations of $15.8 million, primarily in Brazil. Segment Adjusted EBITDA increased by $24.2 million to $72.5 million, primarily driven by the same factors explained for above in the quarter.

Revenues	$ 118,363	$ 130,083
Segment Adjusted EBITDA	44,193	48,243
Segment Adjusted EBITDA Margin	37.3 %	37.1 %

Business Solutions segment revenues for the six months ended June 30, 2026 decreased by $11.7 million to $118.4 million as compared to the prior year period. This decrease was primarily driven by the same factors explained for above in the quarter, as well as the impact from the non-recurring hardware and software sales executed during the prior year. Segment Adjusted EBITDA decreased by $4.1 million to $44.2 million as compared to the prior period primarily driven by the same factors explained for above in the quarter, partially offset by lower programming and infrastructure expenses.

Liquidity and Capital Resources

As of June 30, 2026, there were no material changes to our primary short-term and long-term requirements for liquidity and capital resources as disclosed in Part II, Item 7, "Management's Discussion and Analysis of Financial Condition and Results of Operation" of our Annual Report on Form 10-K for the year ended December 31, 2025, filed with the SEC on March 2, 2026. Our principal source of liquidity is cash generated from operations, and our primary liquidity requirements are the funding of working capital needs, capital expenditures, acquisitions, dividend payments, share repurchases and debt service. We also have a $200.0 million Revolving Facility, of which $159.4 million was available for borrowing as of June 30, 2026. The Company issues letters of credit against our Revolving Facility which reduce our availability of funds to be drawn.

As of June 30, 2026, we had cash and cash equivalents of $260.7 million, of which $226.3 million resides in our subsidiaries located outside of Puerto Rico for purposes of (i) funding the respective subsidiary's current business operations and (ii) funding potential future investment outside of Puerto Rico. We intend to reinvest these funds outside of Puerto Rico, and based on our liquidity forecast, we will not need to repatriate this cash to fund the Puerto Rico operations or to meet debt-service obligations. However, if in the future we determine that we no longer need to maintain cash balances within our foreign subsidiaries, we may elect to distribute such cash to the Company in Puerto Rico. Distributions from the foreign subsidiaries to Puerto Rico may be subject to tax withholding and other tax consequences. Additionally, our credit agreement imposes certain restrictions on the distribution of dividends from subsidiaries.

Our primary use of cash is for operating expenses, working capital requirements, capital expenditures, acquisitions, dividend payments, share repurchases, debt service, and other transactions as opportunities present themselves.

Based on our current level of operations, we believe our existing cash flows from operations and the available secured Revolving Facility will be adequate to meet our liquidity needs for at least the next twelve months from the date of this Report. However, our ability to fund future operating expenses, dividend payments, capital expenditures, mergers and acquisitions, and our ability to make scheduled payments of interest, to pay principal on or refinance our indebtedness and to satisfy any other of our present or future debt obligations will depend on our future operating performance, which may be affected by general economic, financial and other factors beyond our control.

(In thousands)	Six months ended June 30, 2026	2025
Cash provided by operating activities	$ 90,691	$ 86,128
Cash used in investing activities	(228,949)	(42,680)
Cash provided by (used in) financing activities	77,762	(40,325)
Effect of foreign exchange rate on cash, cash equivalents and restricted cash	16,563	15,205
Net decrease in cash, cash equivalents and restricted cash	$ (43,933)	$ 18,328

Net cash provided by operating activities increased by $4.6 million to $90.7 million for the six months ended June 30, 2026, compared to $86.1 million for the same period in the prior year. The increase was primarily driven by higher non-cash adjustments to net income, including an increase of $20.5 million in depreciation and amortization expense and the recognition of an $8.9 million non-cash impairment loss on an investment in an equity investee. Operating cash flows also benefited from favorable changes in working capital, primarily an increase of $25.1 million in accrued liabilities and accounts payable. These increases were partially offset by lower net income of $42.4 million, higher accounts receivable of $3.1 million, and decreases in income tax payable of $6.4 million and contract liabilities of $2.4 million during the period.

Net cash used in investing activities for the six months ended June 30, 2026 was $228.9 million compared to $42.7 million for the same period in the prior year. The increase was primarily attributable to the acquisition completed during the current quarter for $179.8 million, net of cash acquired and an increase of $5.7 million in software additions.

Net cash provided by financing activities for the six months ended June 30, 2026 was $77.8 million compared with cash used of $40.3 million for the same period in the prior year. The net cash provided by financing activities reflected the impact of the issuance of long term debt in connection with the Dimensa acquisition, partially offset by an increase in share repurchases of $67.0 million, an increase of $17.9 million related to the payment of the remaining non-controlling interests in Brazil, and an increase in settlement activities of $4.7 million.

Capital Resources

Our principal capital expenditures are for hardware and computer software (purchased and internally developed) and additions to our property and equipment. During the six months ended June 30, 2026 and 2025, we invested approximately $47.8 million and $42.3 million in our capital resources, respectively. Generally, we fund capital expenditures with cash generated from operations and, if necessary, borrowings under our Revolving Facility.

Dividend Payments

On February 19, 2026, the Company's Board declared quarterly cash dividends of $0.05 per share of common stock, which was paid on March 6, 2026 to stockholders' of record on March 2, 2026. On April 30, 2026, the Board declared quarterly cash dividends of $0.05 per share of common stock, which was paid on June 5, 2026 to stockholders' of record on May 11, 2026. On July 23, 2026, the Board declared a regular quarterly cash dividend of $0.05 per share on the Company’s outstanding shares of common stock. The dividend is expected to be paid on September 4, 2026 to stockholders of record as of the close of business on August 3, 2026. The Board anticipates declaring this dividend in future quarters on a regular basis; however future declarations of dividends are subject to the Board’s approval and may be adjusted as business needs or market conditions change.

Financial Obligations

Secured Credit Facilities

On December 1, 2022, EVERTEC and EVERTEC Group, entered into a credit agreement with a syndicate of lenders and Truist Bank, as administrative agent and collateral agent, providing for a $415.0 million term loan A facility (the “TLA Facility”) that matures on December 1, 2027, and a $200.0 million revolving credit facility (the “Revolving Facility”) that matures on December 1, 2027 (the “Credit Agreement”). Under the Revolving Facility the Company may request up to $20.0 million as part of the swingline, which consists of short-term borrowings, that allows the Company to obtain same-day, short-duration advances to address immediate liquidity needs. On October 30, 2023, EVERTEC and EVERTEC Group entered into a first amendment to the Credit Agreement with a syndicate of lenders and Truist, as administrative agent and collateral agent, providing for (i) additional term A loans in the amount of $60.0 million and a new tranche of term loan B commitments in the amount of $600.0 million maturing October 30, 2030 (the “TLB Facility”). On May 16, 2024, November 26, 2024 and August 12, 2025, EVERTEC and EVERTEC Group entered into second, third and fourth amendments to its Credit Agreement, each providing for a pricing reduction to its TLB Facility. On November 25, 2025, EVERTEC and EVERTEC Group entered into the fifth amendment to its Credit Agreement which provides for an additional $150.0 million under its TLB Facility. On May 18, 2026, EVERTEC and EVERTEC Group entered into the sixth amendment to its Credit Agreement which provides for an additional $185.0 million under its TLB Facility.

At June 30, 2026, the unpaid principal balance of the TLA Facility and TLB Facility were $393.8 million and $875.0 million, respectively. At June 30,2026, the outstanding balance of the Revolving Facility was $35.0 million and the additional borrowing capacity for the Revolving Facility was $159.4 million, considering letters of credit issued. The Company issues letters of credit against the Revolving Facility which reduce the additional borrowing capacity of the Revolving Facility.

Deferred Consideration from Business Combinations

As part of the Company’s merger and acquisition activities, the Company may enter into agreements by which a portion of the purchase price is financed directly by the seller. At June 30, 2026 and December 31, 2025, the unpaid principal balance of these agreements amounted to $2.3 million and $6.2 million, respectively. Obligations bear interest at rates ranging from 8.2% to 12.9% with maturities ranging from January 2027 through March 2027. Deferred consideration is presented in accounts payable on the Company's unaudited condensed consolidated balance sheet.

Note Payable

In September 2023, EVERTEC Group entered into a non-interest bearing financing agreement amounting to $10.1 million to purchase software and maintenance which the Company recorded on a discounted basis using an implied interest of 6.9%. As of June 30, 2026, the outstanding principal balance of the note payable on a discounted basis was $5.3 million. The current portion of the note is included in accounts payable and the long-term portion is included in other long-term liabilities on the Company's unaudited condensed consolidated balance sheet.

Interest Rate Swaps

As of June 30, 2026, the Company has three interest rate swap agreements which convert a portion of the interest rate payments on the Company's Facilities from variable to fixed. The interest rate swaps are used to hedge the market risk from changes in interest rates corresponding with the Company's variable rate debt. The interest rate swaps are designated as cash flow hedges and are considered highly effective. Cash flows from the interest rate swaps are included in the accrued liabilities and accounts payable line item in the Company's unaudited condensed consolidated statements of cash flows. Changes in the fair value of the interest rate swaps are recognized in other comprehensive income (loss) until the gains or losses are reclassified to earnings. Gains or losses reclassified to earnings are presented within interest expense in the accompanying condensed consolidated statements of income and comprehensive income.

Swap Agreement	Effective date	Maturity Date	Notional Amount	Variable Rate	Fixed Rate
2023 Swap	November 2024	December 2027	$250 million	1-month SOFR	3.375%
2024 Swap	March 2024	October 2027	$150 million	1-month SOFR	4.182%
2024 Swap	March 2024	October 2027	$150 million	1-month SOFR	4.172%

At June 30, 2026, the carrying amount of the derivatives included on the Company's unaudited condensed consolidated balance sheet was an asset $2.0 million and a liability of $0.8 million. At December 31, 2025, the carrying amount of the derivatives was a liability of $5.2 million. The fair values of these derivatives are estimated using Level 2 inputs in the fair value hierarchy on a recurring basis. Refer to Note 9 - *Equity* for disclosure of gains (losses) recorded on cash flow hedging activities.

During the three and six months ended June 30, 2026, the Company reclassified gains of $0.2 million and $0.4 million, from accumulated other comprehensive loss into interest expense compared to gains of $0.8 million and $1.5 million for the corresponding period in 2025. Based on expected SOFR rates, the Company expects to reclassify gains of $0.7 million from accumulated other comprehensive loss into interest expense over the next 12 months.

Covenant Compliance

As of June 30, 2026, the total secured net leverage ratio was 2.55 to 1.00. As of the date of filing of this Report, no event has occurred that constitutes an Event of Default or Default.

In this Report, we refer to the term "Adjusted EBITDA" to mean EBITDA as so defined and calculated in a substantially consistent manner for purposes of determining compliance with the total secured net leverage ratio based on the financial information for the last twelve months at the end of each quarter.

Net Income Reconciliation to EBITDA, Adjusted EBITDA, Adjusted Net Income and Adjusted Earnings per common share (Non-GAAP Measures)

The non-GAAP measures referenced in this Report are supplemental measures of the Company's performance and are not required by, or presented in accordance with, accounting principles generally accepted in the United States of America ("GAAP"). They are not measurements of the Company's financial performance under GAAP and should not be considered as alternatives to total revenue, net income or any other performance measures derived in accordance with GAAP or as alternatives to cash flows from operating activities, as indicators of operating performance or as measures of the Company's liquidity. In addition to GAAP measures, management uses these non-GAAP measures to focus on the factors the Company believes are pertinent to the daily management of the Company's operations and believes that they are also frequently used by analysts, investors and other stakeholders to evaluate companies in our industry. These measures have certain limitations in that they do not include the impact of certain expenses that are reflected in our unaudited condensed consolidated statements of income and comprehensive income that are necessary to run our business. Other companies, including other companies in our industry, may not use these measures or may calculate these measures differently than as presented herein, limiting their usefulness as comparative measures.

Reconciliations of the non-GAAP measures to the most directly comparable GAAP measure are included below. These non-GAAP measures include EBITDA, Adjusted EBITDA, Adjusted Net Income and Adjusted Earnings per common share, each as defined below.

EBITDA is defined as earnings before interest, taxes, depreciation and amortization.

Adjusted EBITDA is defined as EBITDA further adjusted to exclude certain non-cash items and unusual expenses such as: share-based compensation, restructuring related expenses, fees and expenses from corporate transactions such as M&A activity and financing, multi-year non-recurring gains recognized in connection with the sale of tax credits, equity investment income net of dividends received, and the impact from unrealized gains and losses on foreign currency remeasurement for assets and liabilities in non-functional currency. Segment Adjusted EBITDA which is the measure reported to the chief operating decision maker for purposes of making decisions about allocating resources to the segments and assessing their performance, is presented in conformity with Accounting Standards Codification 280, Segment Reporting, and for this reason is excluded from the definition of non-GAAP financial measures under the Securities and Exchange Commission's Regulation G and Item 10(e) of Regulation S-K. See Note 16 – Segment Information for further information. The Company's presentation of Adjusted EBITDA is substantially consistent with the equivalent measurements that are contained in the secured credit facilities in testing EVERTEC Group's compliance with covenants therein such as the secured leverage ratio. Adjusted EBITDA Margin is defined as Adjusted EBITDA as a percentage of total revenues.

Adjusted Net Income is defined as Adjusted EBITDA less: operating depreciation and amortization expense, defined as GAAP Depreciation and amortization less amortization of intangibles related to acquisitions such as customer relationships, trademarks, non-compete agreements, among others; cash interest expense defined as GAAP interest expense, less GAAP interest income adjusted to exclude non-cash amortization of debt issue costs and premiums and accretion of discount; income tax expense which is calculated on adjusted pre-tax income using the applicable GAAP tax rate, adjusted for uncertain tax position releases, tax true-ups, windfall from share-based compensation, unrealized gains and losses from foreign currency remeasurement, among others; and non-controlling interests, net of amortization for intangibles created as part of the purchase.

Adjusted Earnings per common share is defined as Adjusted Net Income divided by diluted shares outstanding.

The Company uses Adjusted Net Income to measure the Company's overall profitability because the Company believes it better reflects the comparable operating performance by excluding the impact of the non-cash amortization and depreciation that was created as a result of merger and acquisition activity. In addition, in evaluating EBITDA, Adjusted EBITDA, Adjusted Net Income and Adjusted Earnings per common share, you should be aware that in the future the Company may incur expenses such as those excluded in calculating them.

A reconciliation of net income to EBITDA, Adjusted EBITDA, Adjusted Net Income and Adjusted Earnings per common share is provided below:

1) Represents the elimination of non-cash equity earnings from equity investments, net of dividends received and non- recurring impairment charges.
2) Primarily represents share-based compensation and severance payments.
3) Primarily represents fees and expenses associated with transactions as defined in the Credit Agreement and other non-recurring expenses.
4) Represents non-cash unrealized losses and (gains) on foreign currency remeasurement for assets and liabilities denominated in non-functional currencies.
5) Represents operating depreciation and amortization expense, which excludes amounts generated as a result of merger and acquisition activity.
6) Represents interest expense, less interest income, as they appear on the unaudited condensed consolidated statements of income and comprehensive income (loss), adjusted to exclude non-cash amortization of the debt issue costs and premiums, and accretion of discount.
7) Represents income tax expense calculated on adjusted pre-tax income using the applicable GAAP tax rate, adjusted for certain discrete items and other non-recurring tax items.
8) Represents the non-controlling equity interests, net of amortization for intangibles created as part of the acquisition.

Critical Accounting Estimates

Our consolidated financial statements are prepared in accordance with GAAP. In connection with the preparation of our financial statements, we are required to make estimates and assumptions about future events and apply judgments that affect the reported amounts of certain assets and liabilities, and in some instances, the reported amounts of revenues and expenses during the period. We base our assumptions, estimates, and judgments on historical experience, current events, and other factors that management believes to be relevant at the time our condensed consolidated financial statements are prepared. However, because future events are inherently uncertain and their effects cannot be determined with certainty, actual results could differ from our assumptions and estimates, and such differences could be material. For a description of the Company's critical accounting estimates, refer to "Part II—Item 7-Management's Discussion and Analysis of Financial Condition and Results of

Operations-Critical Accounting Estimates" in the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2025 filed with the SEC on March 2, 2026.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

We are exposed to market risks arising from our normal business activities. These market risks principally involve the possibility of changes in interest rates that will adversely affect the value of our financial assets and liabilities or future cash flows and earnings, foreign currency exchange risk that may result in unfavorable foreign currency translation adjustments and inflation. Market risk is the potential loss arising from adverse changes in market rates and prices. The following analysis provides quantitative and qualitative information regarding these risks.

Interest Rate Risks

Interest rate risk is highly sensitive due to many factors, including U.S. monetary and tax policies, U.S. and international economic factors and other factors beyond our control.

We issued floating-rate debt which is subject to fluctuations in interest rates. Our secured credit facilities accrue interest at variable rates and are subject to a floor or a minimum rate. Based upon a sensitivity analysis of our outstanding debt on June 30, 2026, a hypothetical 100 basis point increase in interest rates over our floor on our debt balances outstanding as of June 30, 2026, under the secured credit facilities, would increase our annual interest expense by approximately $7.5 million. The impact on future interest expense as a result of future changes in interest rates will depend largely on the gross amount of our borrowings at that time.

As of June 30, 2026, the Company has three interest rate swap agreements which convert a portion of the interest rate payments on the Company's Term Loan Facilities from variable rate debt to fixed.

The interest rate swap exposes us to credit risk in the event that the counterparty to the swap agreement does not or cannot meet its obligations. The notional amount is used to measure interest to be paid or received and does not represent the amount of exposure to credit loss. The loss would be limited to the amount that would have been received, if any, over the remaining life of the swap. The counterparties to the swaps are major U.S. based financial institutions, and we expect all counterparties to be able to perform its obligations under the swaps. We use derivative financial instruments for hedging purposes only and not for trading or speculative purposes.

See Note 6 of the Unaudited Condensed Consolidated Financial Statements appearing elsewhere in this report for additional information related to the secured credit facilities.

Foreign Exchange Risk

We conduct business in certain countries in Latin America for which we have determined that the functional currency is other than the U.S. dollar. Given this, our operating results are exposed to volatility due to fluctuations in exchange rates for the countries' functional currencies. Non-functional currency transactions are remeasured into the functional currency which results in a foreign exchange gain or loss recorded through Other income. For the six months ended June 30, 2026, the Company recognized non-cash unrealized foreign currency remeasurement losses of $0.7 million compared to gains of $1.3 million for the same period in 2025. For subsidiaries whose functional currency is other than the U.S. dollar, their assets and liabilities are translated into U.S. dollars at exchange rates at the balance sheet date, and revenues and expenses are translated using average exchange rates in effect during the period. The resulting foreign currency translation adjustments are reported in accumulated other comprehensive loss in the condensed consolidated balance sheets. As of June 30, 2026, the Company had $4.6 million in an unfavorable foreign currency translation adjustment as part of accumulated other comprehensive loss compared with an unfavorable foreign currency translation adjustment of $63.4 million as of December 31, 2025.

Inflation Risk

While it is difficult to accurately measure the impact of inflation on our results of operations and financial condition, we believe the effects of inflation, if any, on our historical results of operations and financial condition have been immaterial. General inflation in the geographies in which we operate has risen to levels that have not been experienced in recent years; however, inflation has historically had a minimal net effect on our operating results given that overall inflation has been offset by sales and cost reduction actions. Rising prices for input costs, including wages and benefits, occupancy and general administrative costs, could potentially have a negative impact on our results of operations and financial condition which may not be readily recoverable from our customers. In addition, inflation has led to enhanced volatility on foreign currency exchange rates. While

we proactively try to mitigate these rising costs, we may not be able to fully offset these impacts, which could result in negative effect on our results of operation. Thus, we cannot assure you that our results of operations and financial condition will not be materially impacted by inflation in the future.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

Our management, with the participation of the Chief Executive Officer and the Chief Financial Officer, has evaluated the effectiveness of our disclosure controls and procedures (as such term is defined in Rule 13a-15(e) and Rule 15d-15(e) under the Securities Exchange Act of 1934, as amended (the "Exchange Act")) as of the end of the period covered by this Report. Based upon their evaluation, the Chief Executive Officer and Chief Financial Officer have concluded that as of June 30, 2026, the Company's disclosure controls and procedures were effective.

Changes in Internal Control Over Financial Reporting

There were no changes in the Company's internal control over financial reporting (as such term is defined in Rule 13a -15(f) and Rule 15d-15(f) under the Exchange Act) that occurred during the fiscal quarter ended June 30, 2026 that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

We are, from time to time, party to various claims and legal proceedings arising in the ordinary course of our business.

Data Breach Litigation:

Beginning on June 12, 2026, a series of putative class action lawsuits were filed in the United States District Court for the District of Puerto Rico, and in the Superior Court of the Commonwealth of Puerto Rico, against the Company relating to a cybersecurity incident (the "Incident") involving a third-party support platform that exposed certain customer data and transaction records primarily affecting financial institutions in Puerto Rico. Plaintiffs are individual consumers who allege that their personal information was impacted in the Incident, which they allege may have included their names, contact information, transaction records, and payment card numbers. Plaintiffs generally allege that the Incident occurred due to the Company's failure to implement adequate and reasonable cybersecurity procedures and protocols, and bring claims for negligence, breach of contract, unjust enrichment on behalf of a proposed class of all individuals impacted by the Incident.

Plaintiffs have moved to consolidate the four cases pending in federal court and intend to file a consolidated complaint. The Company intends to file a motion to dismiss the consolidated complaint and intends to separately move to dismiss the pending Superior Court case. The Company believes that the lawsuits relating to the Incident are without merit and intends to vigorously defend them.

See Part I, Item 1 "Financial Statements (Unaudited) - Note 15, Commitments and Contingencies," incorporated herein by reference, for a discussion of material legal proceedings.

Item 1A. Risk Factors

There have been no material changes to the risk factors described in our Annual Report on Form 10-K for the year ended December 31, 2025 filed with the SEC on March 2, 2026. For a discussion of the potential risks and uncertainties related to us, see "Item 1A. Risk Factors" in our Annual Report on Form 10-K for the year ended December 31, 2025.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

The following table summarizes repurchases of the Company's common stock in the three month period ended June 30, 2026:

Period	Total number of shares purchased	Average price paid per share	Total number of shares purchased as part of a publicly announced program (1)	Approximate dollar value of shares that may yet be purchased under the program
5/1/2026-5/31/2026	992,500	23.38	992,500
