NOTE ABOUT FORWARD-LOOKING STATEMENTS

This Quarterly Report on Form 10-Q may contain certain "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995, which may be identified by the use of such words as "may," "believe," "expect," "anticipate," "consider," "should," "plan," "estimate," "predict," "continue," "probable," and "potential" or the negative of these terms or other comparable terminology. Examples of forward-looking statements include, but are not limited to, estimates with respect to the financial condition, results of operations and business of Metropolitan Bank Holding Corp. (the "Company") and its wholly-owned subsidiary Metropolitan Commercial Bank (the "Bank"), share repurchases under the Company's share repurchase program, dividend payments and the Company's strategies, plans, objectives, expectations and intentions, and other statements contained in this Quarterly Report on Form 10-Q that are not historical facts. These statements are not guarantees of future performance and are subject to risks, uncertainties and other factors that are difficult to predict and are generally beyond our control and that may cause actual results to differ materially from future results expressed or implied by such forward-looking statements. Factors that may cause actual results to differ from those results expressed or implied include those factors listed under the heading "Risk Factors" in the Company's Annual Report on Form 10-K filed with the SEC on February 20, 2026 and in this Quarterly Report on Form 10-Q. In addition, these factors include but are not limited to:

- a failure to successfully manage our credit risk, nonperforming loan resolutions and the sufficiency of our allowance for credit losses;
- changes in loan demand and declines in real estate values in the Company's market area, which may adversely affect our loan production;
- borrower and depositor concentrations (e.g., by geographic area and by industry);
- the interest rate policies of the Federal Reserve and other regulatory bodies;
- general economic conditions, including unemployment rates, and potential recessionary and inflationary indicators, either nationally or locally, including the related effects on our borrowers and other clients, such as adverse changes to credit quality, and on our financial condition and results of operations;
- an unanticipated loss of key personnel or existing clients, or an inability to attract key employees;
- system failures or cybersecurity breaches of our information technology infrastructure and/or confidential information or those of the Company's third-party service providers;
- failure to maintain current technologies or technological changes and enhancements that may be more difficult or expensive to implement than anticipated, and failure to successfully implement future information technology enhancements;
- emerging issues related to the development and use of artificial intelligence that could give rise to legal or regulatory action, damage our reputation or otherwise materially harm our business or clients;
- the timely and efficient development of new products and services offered by the Company, as well as risks (including reputational and litigation) attendant thereto, and the perceived overall value and acceptance of these products and services by clients;
- the successful implementation or consummation of new business initiatives, which may be more difficult or expensive than anticipated;
- an unexpected adverse financial, regulatory, legal or bankruptcy event experienced by our financial service clients;
- unexpected increases in our expenses;
- changes in liquidity, including funding sources, deposit flows and the size and composition of our deposit portfolio, and the percentage of uninsured deposits in the portfolio;

- an unexpected deterioration in the performance of our loan or securities portfolios and our inability to absorb the amount of actual losses inherent in the portfolio;
- difficulties associated with achieving or predicting expected future financial results;
- growth that differed from expectations and our ability to manage our growth;
- increases in competitive pressures among financial institutions or from non-financial institutions which may result in unanticipated changes in our loan or deposit rates;
- unexpected adverse impacts related to future acquisitions or divestitures;
- impacts related to or resulting from regional and community bank failures and stresses to regional banks, or conditions in the securities markets or the banking industry being less favorable than currently anticipated;
- changes in accounting principles, policies or guidelines may cause the Company's financial condition or results of operation to be reported or perceived differently;
- legislative, tax or regulatory changes or actions, including changes and the potential for changes to regulatory policy and the promulgation of new laws and regulations following the inauguration of a new presidential administration, may adversely affect the Company's business;
- unanticipated increases in FDIC insurance premiums or future assessments;
- the costs, including the possible incurrence of fines, penalties, or other negative effects (including reputational harm) of any adverse judicial, administrative, or arbitral rulings or proceedings, regulatory enforcement actions, or other legal actions to which we or any of our subsidiaries are a party, and which may adversely affect our results;
- the current or the potential impact on the Company's operations, financial condition, and clients resulting from natural or man-made disasters, climate change, wars, military conflict, acts of terrorism, other geopolitical events, cyberattacks, and global pandemics, or localized epidemics; and
- unanticipated changes or developments in the industries and sectors in which we have made material investments in, as well as the impact of such changes or developments on our ability to provide banking services to those industries and sectors.

The Company's ability to predict results or the actual effects of its plans or strategies is inherently uncertain. As such, forward-looking statements can be affected by inaccurate assumptions made, or by known or unknown risks and uncertainties. Consequently, no forward-looking statement can be guaranteed. Readers are cautioned not to place undue reliance on these forward-looking statements, which reflect conditions only as of the date of this filing. Forward-looking statements speak only as of the date of this document. The Company undertakes no obligation (and expressly disclaims any obligation) to publicly release the results of any revisions which may be made to any forward-looking statements to reflect anticipated or unanticipated events or circumstances occurring after the date of such statements, except as may be required by law.

NOTE 1 — ORGANIZATION

Metropolitan Bank Holding Corp. (the "Company"), a New York corporation, is a bank holding company headquartered in New York, New York and registered under the BHC Act. Through its wholly owned bank subsidiary, Metropolitan Commercial Bank (the "Bank"), a New York state-chartered commercial bank, the Company provides a broad range of business, commercial and retail banking products and services to small businesses, middle-market enterprises, public entities and affluent individuals primarily in the New York metropolitan area. See the "GLOSSARY OF COMMON TERMS AND ACRONYMS" for the definition of certain terms and acronyms used throughout this Form 10-Q.

The Company's primary lending products are CRE loans (including multi-family loans) and C&I loans. Substantially all loans are secured by specific items of collateral including business assets, consumer assets, and commercial and residential real estate. Commercial loans are expected to be repaid from cash flows from the operations of businesses.

The Company's primary deposit products are checking, savings, and term deposit accounts, all of which are insured by the FDIC up to the maximum amounts allowed by law. In addition to traditional commercial banking products, the Company offers: corporate cash management and retail banking services; customized financial solutions for government entities, municipalities, public institutions and charter schools; specialized services to facilitate secure and efficient real estate transactions and tax-deferred exchanges for title and escrow and Section 1031 exchanges; and EB-5 Program escrow accounts of foreign investor funds for USCIS approved job-creating projects.

As a bank holding company, the Company is subject to the supervision of the Board of Governors of the Federal Reserve System. The Company is required to file with the FRB reports and other information regarding its business operations and the business operations of its subsidiaries. As a state-chartered bank that is a member of the FRB, the Bank is subject to FDIC regulations as well as supervision, periodic examination and regulation by the NYDFS as its primary state regulator and by the FRB as its primary federal regulator.

NOTE 2 — BASIS OF PRESENTATION

The accounting and reporting policies of the Company conform with GAAP and predominant practices within the U.S. banking industry. The Unaudited Consolidated Financial Statements ("unaudited financial statements") include the accounts of the Company and the Bank. All intercompany balances and transactions have been eliminated. The unaudited financial statements have been prepared in accordance with GAAP for interim financial information and with the instructions to Form 10-Q, Article 10 of Regulation S-X and predominant practices within the U.S. banking industry. Certain information and note disclosures normally included in the financial statements prepared in accordance with GAAP have been condensed or omitted pursuant to the rules and regulations of the SEC. The unaudited financial statements reflect all normal recurring adjustments that are, in the opinion of management, necessary for a fair presentation of the results for the interim periods presented.

In preparing the interim unaudited financial statements in conformity with GAAP, management has made estimates and assumptions based on available information. These estimates and assumptions affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expense during the reported periods, and actual results could differ from those estimated. Information available which could affect these judgments include, but are not limited to, changes in interest rates, changes in the performance of the economy, inflation and its related effects and changes in the financial condition of borrowers.

Some items in the prior year financial statements may have been reclassified to conform to the current presentation. Reclassification had no effect on prior year net income or stockholders' equity.

The results of operations for the three and six months ended June 30, 2026 and 2025 are not necessarily indicative of the results of operations that may be expected for the entire fiscal year or for any other period.

The unaudited financial statements presented in this report should be read in conjunction with the Company's audited consolidated financial statements and notes to the audited consolidated financial statements included in the Company's Annual Report on Form 10-K for the year ended December 31, 2025 as filed with the SEC.

Allowance for Credit Losses

The ACL for loans is measured on the loan's amortized cost basis, excluding interest receivable, and is initially recognized upon origination or purchase of the loans and subsequently remeasured on a recurring basis. The ACL is recognized as a contra-asset, and credit loss expense is recorded as a provision for credit losses in the consolidated statements of operations. Loan losses are charged-off against the ACL when management believes the loan is uncollectible. Subsequent recoveries, if any, are credited to the ACL. The Company does not recognize an ACL on accrued interest receivable, consistent with its policy to reverse interest income when interest is 90 days or more past due.

The Company also records an ACL on unfunded loan commitments, which is based on the same assumptions as funded loans and also considers the probability of funding. The ACL is recognized as a liability, and credit loss expense is recorded as a provision for unfunded loan commitments within the provision for credit losses in the consolidated statements of operations. Upon funding of the loan, any related ACL previously recorded on the unfunded amount is reversed and an ACL is subsequently recognized on the outstanding loan.

To calculate the ACL for loans and loan commitments collectively evaluated, the Company uses models developed by a third party. The lifetime loss rate models calculate the expected losses over the life of the loan based on exposure at default loan attributes and reasonable, supportable economic forecasts. The exposure at default considers the current unpaid balance, prepayment assumptions, and expected utilization assumptions.

Key assumptions used in the models include portfolio segmentation, prepayments, risk rating, a peer scalar, and the expected utilization of unfunded commitments among others. The portfolios are segmented by loan level attributes such as loan type, loan size, date of origination, and delinquency status to create homogenous loan pools. Pool level metrics are calculated, and loss rates are subsequently applied to the pools as the loans have similar characteristics. Prepayment assumptions, if applicable, are embedded within the models and are based on the same data used for model development and incorporate adjustments for reasonable and supportable forecasts. The models employ mean reversion techniques to predict credit losses for loans that are expected to mature beyond the forecast period.

To account for economic uncertainty, the Company uses multiple economic scenarios provided by the model vendor in determining the ACL. The forecasts include various projections based on variables such as, Gross Domestic Product, interest rates, property price indices, and employment measures, among others. The forecasts are probability-weighted based on available information at the time the calculation is conducted. Scenario weightings and model parameters are reviewed for each calculation and are subject to change.

The CRE and C&I lifetime loss rate models were developed using the historical loss experience of all banks in the model's developmental dataset. Banks in the model's developmental dataset may have different loss experiences due to geography and portfolio as well as operational and underwriting procedures that vary from those of the Company, and therefore, the Company calibrates expected losses using a peer scalar function provided by the model vendor. The peer scalar was calculated by examining the loss rates of peer banks that have similar asset bases and that operate in similar markets as the Company and comparing these peer group loss rates to the model results.

The Company also considers qualitative adjustments to expected credit loss estimates for information not already captured in the quantitative loss estimation models. Qualitative factor adjustments may increase or decrease management's estimate of expected credit losses. Qualitative loss factors are based on the Company's judgment of market, industry or business specific data, changes in loan composition, performance trends, regulatory changes, uncertainty of macroeconomic forecasts, and other asset specific risk characteristics.

When loans do not share risk characteristics with other financial assets they are evaluated individually. Management applies its normal loan review procedures in making these judgments. Individually evaluated loans consist of nonaccrual loans and loans that have been modified due to financial difficulty. In determining the ACL, the Company generally applies

a discounted cash flow method for instruments that are individually assessed. For collateral dependent financial assets where the borrower is experiencing financial difficulty, the ACL is measured based on the difference between the fair value of the collateral (less selling costs if applicable) and the amortized cost basis of the asset as of the measurement date. Fair value is generally calculated based on the value of the underlying collateral less an appraisal discount.

The measurement of all expected credit losses for financial assets held at amortized cost is based on historical experience, current conditions, and reasonable and supportable forecasts. The Company continuously monitors current conditions and events and will evaluate potential changes that will enhance the estimation process. During the quarter ended March 31, 2026, the peer group selection process, macroeconomic forecast weightings, and the qualitative factor process were adjusted to reflect current conditions and events. The Company accounted for these revisions prospectively as a change in accounting estimate beginning March 31, 2026, and no prior period amounts were adjusted. The effect of this change in accounting estimate for the three months ended March 31, 2026, was a net decrease in the provision for credit losses of $6.4 million, which is $4.6 million, net of tax, or $0.43 per basic earnings per share and $0.42 per dilutive earnings per share.

NOTE 3 — SUMMARY OF RECENT ACCOUNTING PRONOUNCEMENTS

In November 2024, the FASB issued ASU No. 2024-03, “Income Statement – Reporting Comprehensive Income – Expense Disaggregation Disclosures (Subtopic 220-40).” ASU 2024-03 requires disaggregation of certain expense captions into specified categories in disclosures within the footnotes to the financial statements. ASU No. 2024-03 does not change the expense captions an entity presents on the face of the income statement. Subsequently issued ASU No. 2025-01 amended the effective date of ASU No. 2024-03 to require all public business entities to adopt the new guidance for annual reporting periods beginning after December 15, 2026, and interim periods within fiscal years beginning after December 15, 2027. The guidance may be applied on a prospective or retrospective basis. The Company is currently evaluating the impact of ASU No. 2024- 03 on its consolidated financial statements.

ASU No. 2025-06, "Intangibles - Goodwill and Other - Internal-Use Software (Subtopic 350-40): Targeted Improvements to the Accounting for Internal-Use Software" clarifies the accounting for costs related to internal-use software. The new guidance clarifies the threshold entities apply to begin capitalizing costs and removes all references to project stages in ASC Subtopic 350-40. ASU No. 2025-06 is effective for the Company beginning in 2028. The new guidance may be applied using a prospective, retrospective or modified transition approach with early adoption permitted. The Company is currently evaluating the impact of ASU 2025-06 on its consolidated financial statements

In November 2025, the FASB issued ASU 2025-08, “Financial instruments – Credit Losses (Topic 326): Purchased Loans,” which amends the guidance in ASC 326 on the accounting for certain purchased loans. Under the ASU, entities must account for acquired loans (excluding credit cards) that meet certain criteria at acquisition (“purchased seasoned loans”) by recognizing them at their purchase price plus an allowance for expected credit losses (the “gross-up approach”). ASU 2025-08 also introduces an accounting policy election related to the subsequent measurement of expected credit losses for entities that use a method other than a discounted cash flow analysis to estimate credit losses on purchased seasoned loans. If this accounting policy is elected, entities can use the amortized cost basis of the asset to subsequently measure their credit loss allowance. ASU 2025-08 is effective for interim and annual reporting periods beginning after December 15, 2026. Early adoption is permitted in an interim or annual reporting period in which financial statements have not yet been issued or made available for issuance. The Company is currently evaluating the impact of ASU 2025-08 on its consolidated financial statements.

In November 2025, the FASB issued ASU 2025-09, “Derivatives and Hedging (Topic 815): Hedge Accounting Improvements,” which addresses five hedge accounting issues by providing additional guidance that is expected to enable entities to achieve and maintain hedge accounting for highly effective economic hedges and more closely aligning hedge accounting with risk management activities. This ASU is effective for annual reporting periods beginning after Dec. 15, 2026, with early adoption permitted. Guidance is to be applied on a prospective basis, however certain changes to existing cash flow hedges are permitted as of adoption. The Company is currently evaluating the impact of ASU 2025-09 on its consolidated financial statements.

NOTE 4 — INVESTMENT SECURITIES

The following tables summarize the amortized cost and fair value of AFS and HTM debt securities and equity investments and the corresponding amounts of gross unrealized gains and losses recognized in accumulated other comprehensive income (loss) and gross unrecognized gains and losses (in thousands):

At June 30, 2026	Amortized Cost	Gross Unrealized/ Unrecognized Gains	Gross Unrealized/ Unrecognized Losses	Fair Value
Available-for-Sale Securities:				
U.S. Government agency securities	$ 20,000	$ —	$ (1,819)	$ 18,181
U.S. State and Municipal securities	11,105	—	(1,413)	9,692
Residential MBS	649,390	626	(55,127)	594,889
Commercial MBS	45,367	—	(2,555)	42,812
Asset-backed securities	2,262	—	(58)	2,204
Total securities available-for-sale	$ 728,124	$ 626	$ (60,972)	$ 667,778
Held-to-Maturity Securities:				
U.S. State and Municipal securities	$ 14,937	$ —	$ (1,362)	$ 13,575
Residential MBS	392,067	17	(43,766)	348,318
Commercial MBS	8,037	—	(478)	7,559
Total securities held-to-maturity	$ 415,041	$ 17	$ (45,606)	$ 369,452
Equity Investments:				
CRA Mutual Fund	$ 5,948	$ —	$ (302)	$ 5,646
Total equity investment securities	$ 5,948	$ —	$ (302)	$ 5,646

At December 31, 2025	Amortized Cost	Gross Unrealized/ Unrecognized Gains	Gross Unrealized/ Unrecognized Losses	Fair Value
Available-for-Sale Securities:				
U.S. Government agency securities	$ 30,000	$ —	$ (1,886)	$ 28,114
U.S. State and Municipal securities	11,184	—	(1,456)	9,728
Residential MBS	543,349	2,409	(50,726)	495,032
Commercial MBS	45,560	79	(1,939)	43,700
Asset-backed securities	2,419	—	(61)	2,358
Total securities available-for-sale	$ 632,512	$ 2,488	$ (56,068)	$ 578,932
Held-to-Maturity Securities:				
U.S. State and Municipal securities	$ 15,065	$ —	$ (1,402)	$ 13,663
Residential MBS	333,515	—	(41,662)	291,853
Commercial MBS	8,047	—	(481)	7,566
Total securities held-to-maturity	$ 356,627	$ —	$ (43,545)	$ 313,082
Equity Investments:				
CRA Mutual Fund	$ 5,858	$ —	$ (249)	$ 5,609
Total equity investment securities	$ 5,858	$ —	$ (249)	$ 5,609

There were no proceeds from sales or calls of AFS securities for the three and six months ended June 30, 2026 and 2025.

The tables below summarize, by contractual maturity, the amortized cost and fair value of debt securities. The tables do not include the effect of principal repayments or scheduled principal amortization. Equity securities, primarily investments in mutual funds, have been excluded from the table. Expected maturities may differ from contractual maturities if borrowers have the right to call or prepay obligations with or without call or prepayment penalties (in thousands):

	Held-to-Maturity		Available-for-Sale	
At June 30, 2026	**Amortized Cost**	**Fair Value**	**Amortized Cost**	**Fair Value**
Due within 1 year	$ —	$ —	$ —	$ —
After 1 year through 5 years	—	—	15,000	14,318
After 5 years through 10 years	—	—	9,821	7,813
After 10 years	14,937	13,575	6,284	5,742
Mortgage-backed and Asset-backed Securities	400,104	355,877	697,019	639,905

	Held-to-Maturity		Available-for-Sale	
At December 31, 2025	**Amortized Cost**	**Fair Value**	**Amortized Cost**	**Fair Value**
Due within 1 year	$ —	$ —	$ 10,000	$ 9,960
After 1 year through 5 years	—	—	15,000	14,261
After 5 years through 10 years	—	—	4,823	3,985
After 10 years	15,065	13,663	11,361	9,636
Mortgage-backed and Asset-backed Securities	341,562	299,419	591,328	541,090
Total Securities	$ 356,627	$ 313,082	$ 632,512	$ 578,932

At June 30, 2026, there were $960.4 million of securities pledged to support wholesale funding, and to a lesser extent certain other types of deposits, of which $127.0 million was encumbered. At December 31, 2025, there were $807.5 million of securities pledged to support wholesale funding, and to a lesser extent certain other types of deposits, of which $118.2 million was encumbered.

At June 30, 2026 and December 31, 2025, there were no holdings of securities of any one issuer, other than the U.S. Government and its agencies, in an amount greater than 10% of stockholders' equity. At June 30, 2026 and December 31, 2025, all of the residential MBS and commercial MBS held by the Company were issued by U.S. Government-sponsored entities and agencies.

The following tables present debt securities with unrealized/unrecognized losses aggregated by investment category and length of time that individual securities have been in a continuous unrealized loss position (in thousands):

	Less than 12 Months		12 Months or More		Total	
At June 30, 2026	**Estimated Fair Value**	**Unrealized/ Unrecognized Losses**	**Estimated Fair Value**	**Unrealized/ Unrecognized Losses**	**Estimated Fair Value**	**Unrealized/ Unrecognized Losses**

Total securities held-to-maturity	$ —	$ —	$ 313,082	$ (43,545)	$ 313,082	$ (43,545)

Except for U.S. State and Municipal securities, the Company has a zero loss expectation for its HTM securities portfolio, and therefore has no ACL related to these securities. Obligations of U.S. State and Municipal securities were rated investment grade and the associated ACL was immaterial at June 30, 2026 and December 31, 2025.

AFS securities in unrealized loss positions are evaluated for impairment related to credit losses on a quarterly basis. The unrealized losses on AFS securities are primarily due to the changes in market interest rates subsequent to purchase. In addition, the Company does not intend, nor would it be required, to sell these investments until there is a full recovery of the unrealized loss, which may be at maturity. As a result, no ACL was recognized during the three and six months ended June 30, 2026 and 2025.

NOTE 5 — LOANS AND ALLOWANCE FOR CREDIT LOSSES

Loans, net of deferred costs and fees, consist of the following (in thousands):

	At June 30, 2026	At December 31, 2025
Real estate		
Commercial	$ 5,764,905	$ 5,201,489
Construction	244,244	261,804
Multi-family	414,331	397,010
One-to four-family	84,332	86,449
Total real estate loans	6,507,812	5,946,752
Commercial and industrial	831,436	871,652
Consumer	9,283	10,349
Total loans	7,348,531	6,828,753
Deferred fees, net of origination costs	(19,628)	(18,520)
Loans, net of deferred fees and costs	7,328,903	6,810,233
Allowance for credit losses	(62,012)	(97,081)
Net loans	$ 7,266,891	$ 6,713,152

At June 30, 2026, $3.5 billion of loans were pledged to support wholesale funding, of which $535.4 million were encumbered. At December 31, 2025, $3.7 billion of loans were pledged to support wholesale funding, of which $446.5 million were encumbered.

The following tables present the activity in the ACL for funded loans by segment. The portfolio segments represent the categories that the Company uses to determine its ACL (in thousands):

Three months ended June 30, 2026	CRE	C&I	Construction	Multi-family	One-to four-family	Consumer	Total
Allowance for credit losses:							
Beginning balance	$ 45,462	$ 12,586	$ 1,410	$ 21,796	$ 626	$ 191	$ 82,071
Provision/(credit) for credit losses	916	12,987	246	59	(18)	(25)	14,165
Loans charged-off	(538)	(14,397)	—	(19,903)	—	—	(34,838)
Recoveries	603	—	—	—	—	11	614
Total ending allowance balance	$ 46,443	$ 11,176	$ 1,656	$ 1,952	$ 608	$ 177	$ 62,012

Three months ended June 30, 2025	CRE	C&I	Construction	Multi-family	One-to four-family	Consumer	Total
Allowance for credit losses:							
Beginning balance	$ 44,647	$ 12,433	$ 2,518	$ 7,259	$ 602	$ 344	$ 67,803
Provision/(credit) for credit losses	5,808	166	(178)	412	(24)	70	6,254
Loans charged-off	—	—	—	—	—	(112)	(112)
Recoveries	—	125	—	—	—	1	126
Total ending allowance balance	$ 50,455	$ 12,724	$ 2,340	$ 7,671	$ 578	$ 303	$ 74,071

Six months ended June 30, 2026	CRE	C&I	Construction	Multi-family	One-to four-family	Consumer	Total
Allowance for credit losses:							
Beginning balance	$ 60,818	$ 10,181	$ 2,510	$ 22,619	$ 540	$ 413	$ 97,081
Provision/(credit) for credit losses	(6,467)	19,697	(854)	(764)	68	(83)	11,597
Loans charged-off	(8,511)	(18,727)	—	(19,903)	—	(153)	(47,294)
Recoveries	603	25	—	—	—	—	628
Total ending allowance balance	$ 46,443	$ 11,176	$ 1,656	$ 1,952	$ 608	$ 177	$ 62,012

Six months ended June 30, 2025	CRE	C&I	Construction	Multi-family	One-to four-family	Consumer	Total
Allowance for credit losses:							
Beginning balance	$ 42,070	$ 10,991	$ 1,962	$ 7,290	$ 577	$ 383	$ 63,273
Provision/(credit) for credit losses	8,385	1,428	378	381	1	150	10,723
Loans charged-off	—	—	—	—	—	(231)	(231)
Recoveries	—	305	—	—	—	1	306
Total ending allowance balance	$ 50,455	$ 12,724	$ 2,340	$ 7,671	$ 578	$ 303	$ 74,071

Net charge-offs for the three and six months ended June 30, 2026 were $34.2 million and $46.7 million, respectively. Net recoveries for the three and six months ended June 30, 2025 were $14,000 and $76,000, respectively.

The following tables present the activity in the ACL for unfunded loan commitments (in thousands):

	Three months ended June 30,		Six months ended June 30,	
	2026	2025	2026	2025

Balance at the beginning of period	$ 2,409	$ 2,046	$ 2,140	$ 2,008
Provision/(credit) for credit losses	(840)	124	(571)	162
Total ending allowance balance	$ 1,569	$ 2,170	$ 1,569	$ 2,170

The following tables present the recorded investment in non-accrual loans and loans past due 90 days and greater and still accruing, by class of loans (in thousands):

At June 30, 2026	Total Non-accrual	Non-accrual Without an ACL	Loans Past Due 90 Days and Greater and Still Accruing
Commercial real estate	$ 30,213	$ 6,713	$ —
Commercial & industrial	11,262	11,262	—
Multi-family	23,094	23,094	—
One-to-four family	2,401	2,401	—
Consumer	—	—	—
Total	$ 66,970	$ 43,470	$ —

At December 31, 2025	Total Non-accrual	Non-accrual Without an ACL	Loans Past Due 90 Days and Greater and Still Accruing
Commercial real estate	$ 32,809	$ 3,365	$ —
Commercial & industrial	8,989	6,989	—
Multi-family	42,599	7,861	—
One-to-four family	2,450	2,450	—
Consumer	—	—	37
Total	$ 86,847	$ 20,665	$ 37

Interest income on non-accrual loans recognized on a cash basis for the three and six months ended June 30, 2026 and 2025 was immaterial.

The following tables present the aging of the recorded investment in past due loans by class of loans (in thousands):

At June 30, 2026	30-59 Days	60-89 Days	Non-accrual or 90 Days and Greater	Total Past Due or Non-accrual	Current Loans	Total
Commercial real estate	$ 10,707	$ —	$ 30,213	$ 40,920	$ 5,723,985	$ 5,764,905
Commercial & industrial	—	600	11,262	11,862	819,574	831,436
Construction	—	—	—	—	244,244	244,244
Multi-family	8,846	—	23,094	31,940	382,391	414,331

Credit Quality Indicators

The Company aggregates loans into risk categories based on relevant information about the ability of borrowers to service their debt such as: current financial information, historical payment experience, credit documentation, public information, and current economic trends, among other factors. Except for one-to four-family loans and consumer loans, the Company analyzes loans individually by classifying the loans as to credit risk ratings at least annually. For one-to four-family loans and consumer loans, the Company evaluates credit quality based on the aging status of the loan. An analysis is performed on a quarterly basis for loans classified as special mention, substandard or doubtful. The Company uses the following definitions for risk ratings. Loans not meeting these definitions are considered to be pass-rated loans.

Special Mention - Loans classified as special mention have a potential weakness that deserves management's attention. If left uncorrected, these potential weaknesses may result in deterioration of the repayment prospects for the loan or of the Company's credit position at some future date.

Substandard - Loans classified as substandard are inadequately protected by the current net worth and paying capacity of the obligor or of the collateral pledged, if any. Loans so classified have a well-defined weakness or weaknesses that jeopardize the liquidation of the debt. They are characterized by the distinct possibility that the Company will sustain some loss if the deficiencies are not corrected.

Doubtful - Loans classified as doubtful have all the weaknesses inherent in those classified as substandard, with the added characteristic that the weaknesses make collection or liquidation in full, on the basis of currently existing facts, conditions and values highly questionable and improbable.

The following table presents loan balances by credit quality indicator and year of origination at June 30, 2026 and charge-offs for the six months ended June 30, 2026 (in thousands):

A loan is considered collateral dependent when the borrower is experiencing financial difficulties and repayment is expected to be substantially provided by the operation or sale of the collateral. The following table presents collateral dependent loans by portfolio segment as of June 30, 2026 and December 31, 2025. These loans are classified as substandard as of June 30, 2026 and December 31, 2025:

	June 30, 2026	December 31, 2025
Collateral dependent loans:		
Commercial real estate	$ 33,674	$ 36,284
Multi-family	23,094	42,599
One-to four-family	2,401	2,450
Total	$ 59,169	$ 81,333

The following tables show the amortized cost basis of modified loans to borrowers experiencing financial difficulty during the periods indicated (in thousands):

Three months ended June 30, 2026	Extension	Combination Term Extension and Interest Rate	Combination Term Extension Payment Deferral and Debt Forgiveness	Total	Modifications as a % of Loan Class
Commercial real estate	$ —	$ 23,500	$ —	$ 23,500	0.4%

There were $23.5 million of CRE loans and $13.9 million of multi-family loans that had a payment default during the three and six months ended June 30, 2026 that were modified in the prior 12 months before default to borrowers experiencing financial difficulty. At June 30, 2026 there were no additional commitments to lend to borrowers experiencing financial difficulty whose loans have been modified. There were $7.0 million of loans that had a payment default during the three and six months ended June 30, 2025 that were modified in the prior 12 months before default to borrowers experiencing financial difficulty. At June 30, 2025, there were no additional commitments to lend to borrowers experiencing financial difficulty whose loans have been modified.

NOTE 6 — BORROWINGS

Borrowings consisted of the following (in thousands):

	At June 30, 2026	At December 31, 2025	Interest Expense Three months ended June 30, 2026	Interest Expense Three months ended June 30, 2025	Interest Expense Six months ended June 30, 2026	Interest Expense Six months ended June 30, 2025
Federal funds purchased and securities sold under agreements to repurchase	$ —	$ —	$ —	$ 1,260	$ —	$ 2,670
Federal Home Loan Bank of New York advances	$ —	$ —	$ —	$ 1,829	$ —	$ 4,584
Secured and other borrowings:						
Secured borrowings	$ 15,938	$ 10,975	N.M.	N.M.	N.M	N.M

N.M. – not meaningful

Federal funds purchased are generally overnight transactions and FHLBNY advances are short-term transactions. At June 30, 2026, the Company had no outstanding Federal funds purchased or FHLBNY advances.

Secured borrowings are loan participation agreements with counterparties where the transfer of the participation interest did not qualify for sale treatment under GAAP.

At June 30, 2026, the Company had cash on deposit with the FRBNY and available secured wholesale funding borrowing capacity of $3.1 billion.

NOTE 7 — STOCKHOLDERS' EQUITY

The Board of Directors has authorized an aggregate of $150 million of repurchases of the Company's common stock since March 2025. During the three months ended June 30, 2026, the Company repurchased no shares of its common stock. During the six months ended June 30, 2026, the Company repurchased 123,061 shares of the Company's common stock at an average cost of $80.11 per share. At June 30, 2026, treasury stock at cost was $76.1 million. At June 30, 2026, the Company had $50 million of capacity for repurchases of its common stock remaining under the current authorization from the Board of Directors.

The Company may repurchase shares of common stock from time to time on the open market or by other means in accordance with applicable securities laws and other restrictions, including, in part, under a Rule 10b5-1 plan. The number of shares to be repurchased and the timing of additional repurchases, if any, will depend on several factors, including market conditions, prevailing share price, corporate and regulatory requirements, and other considerations. The share repurchase plan has no expiration date, may be discontinued or suspended at any time and does not obligate the Company to acquire any amount of its common stock. The Company records common stock that it repurchases as treasury stock at cost. Treasury stock is reissued at average cost.

During the first quarter of 2026, the Company completed a follow-on public equity offering of approximately 2.3 million shares of the Company's common stock (including the underwriters' overallotment option) at a public offering price of $85.00 per share, resulting in proceeds, net of underwriting discounts and commissions of approximately $186.5 million.

NOTE 8 — EARNINGS PER SHARE

The Company uses the two-class method in the calculation of basic and diluted earnings per share. Under the two-class method, earnings available to common shareholders for the period are allocated between common shareholders and participating securities according to dividends declared (or accumulated) and participation rights in undistributed earnings. The factors used in the earnings per share calculation are as follows (in thousands, except per share data).

	Three months ended June 30,		Six months ended June 30,	
	2026	2025	2026	2025
Basic				
Net income available to common stockholders	$ 19,223	$ 18,767	$ 50,648	$ 35,121
Weighted average common shares outstanding	12,381,794	10,564,275	11,413,075	10,886,120
Basic earnings per common share	$ 1.55	$ 1.78	$ 4.44	$ 3.23
Diluted				
Net income allocated to common stockholders	$ 19,223	$ 18,767	$ 50,648	$ 35,121
Weighted average common shares outstanding for basic earnings per common share	12,381,794	10,564,275	11,413,075	10,886,120
Add: Dilutive effects of assumed vesting of performance based restricted stock units	38,654	29,906	33,478	24,776
Add: Dilutive effects of assumed vesting of restricted stock units	95,491	82,697	74,854	64,535
Average shares and diluted potential common shares	12,515,939	10,676,878	11,521,407	10,975,431
Diluted earnings per common share	$ 1.54	$ 1.76	$ 4.40	$ 3.20

For the three and six months ended June 30, 2026, and 2025, respectively, all granted PRSUs and restricted stock units were considered in computing diluted earnings per common share.

NOTE 9 — STOCK COMPENSATION PLAN

Equity Incentive Plan

At June 30, 2026, the Company maintained a stock compensation plan, the Amended and Restated 2022 Equity Incentive Plan, as amended (the "2022 EIP").

The 2022 EIP was approved on May 31, 2022 by the stockholders of the Company and an amendment and restatement of the 2022 EIP was approved by the stockholders of the Company on May 29, 2024 to increase the number of shares of common stock that may be issued under the plan by 358,000. The stockholders of the Company subsequently approved an amendment to the 2022 EIP on May 28, 2025 to increase the number of shares of common stock that may be issued under the plan by an additional 750,000. Under the 2022 EIP, the remaining maximum number of shares of stock that may be delivered to participants in the form of restricted stock, restricted stock units and stock options, including ISOs and non-qualified stock options is 676,151 at June 30, 2026, subject to adjustment as set forth in the 2022 EIP.

Restricted Stock Awards and Restricted Stock Units

The Company grants restricted stock awards and restricted stock units under the 2022 EIP to certain key personnel. Each restricted stock grant vests based on the vesting schedule outlined in the respective grant agreement. Unvested restricted stock units are subject to forfeiture if the holder is not employed by the Company on the applicable vesting date.

In the first quarter of 2026 and 2025, 104,755 and 133,359 restricted stock units were granted to certain key personnel, respectively. One-third of these shares vest each year for three years beginning in March, 2027 and March, 2026, respectively. In the first quarter of 2026, 30,000 restricted stock units were granted to certain key personnel that fully vest one year from the grant date. Total compensation cost that has been charged against income for restricted stock grants was $2.7 million and $4.4 million for the three and six months ended June 30, 2026, respectively. Total compensation cost that has been charged against income for restricted stock grants was $1.5 million and $3.2 million for the three and six months ended June 30, 2025, respectively. As of June 30, 2026, there was $14.7 million of total unrecognized compensation expense related to the restricted stock grants. The cost is expected to be recognized over a weighted-average period of 2.03 years.

In January 2026, 27,500 restricted stock units were granted to members of the Company's Board of Directors, which fully vest one year from the grant date. In January 2025, 27,500 restricted stock units were granted to members of the Company's Board of Directors which vested in January 2026. Total expense for the restricted stock unit awards granted to members of the Board of Directors was $783,000 and $1.3 million for the three and six months ended June 30, 2026, respectively. Total expense for the awards granted to members of the Board of Directors was $452,000 and $905,000 for the three and six months ended June 30, 2025, respectively. As of June 30, 2026, total unrecognized expense for these awards was $1.3 million.

The following table summarizes the changes in the Company's restricted stock grants:

	Six months ended June 30, 2026	
	Number of Shares	Weighted Average Grant Date Fair Value per Share
Outstanding, beginning of period	261,475	$ 55.27
Granted	162,255	90.59
Forfeited	(3,465)	65.60
Vested	(147,129)	55.23
Outstanding at end of period	273,136	$ 74.37

Performance-Based Stock Units

During the second quarter of 2022, the Company established a long-term incentive award program under the 2022 EIP. Under the program, 39,018 PRSUs were granted in the first quarter of 2026. 11,148 of these PRSUs vest in equal installments over a three-year period beginning in March 2027 if certain performance criteria are met. 27,870 of these PRSUs cliff vest after three years from January 2026 if certain performance criteria are met. In the first quarter of 2025, 52,807 PRSUs were awarded, which vest in equal installments over a three-year period beginning in March 2026 if certain performance criteria are met. In the second quarter of 2024, 73,260 PRSUs were awarded, of which 31,746 met the performance criteria and vest in equal installments over a three-year period beginning in June 2025. If the performance criteria are not met, no compensation cost is recognized and any recognized compensation cost is reversed. The total weighted average service inception date fair value of the outstanding awarded shares was $7.8 million. Total compensation cost that has been charged/(reversed) against income for these PRSUs was $693,000 and $1.7 million for the three and six months ended June 30, 2026, respectively. Total compensation cost that has been charged/(reversed) against income for these PRSUs was $576,000 and $330,000 for the three and six months ended June 30, 2025, respectively. As of June 30, 2026, there was $4.0 million of total unrecognized compensation expense related to PRSUs. The cost is expected to be recognized over a weighted-average period of 2.40 years.

NOTE 10 — FAIR VALUE OF FINANCIAL INSTRUMENTS

The Company uses fair value measurements to record fair value adjustments to certain assets and to determine fair value disclosures. Accounting guidance establishes a fair value hierarchy which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The standard describes three levels of inputs that may be used to measure fair value:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the entity has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities, in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect a reporting entity's own judgments about the assumptions that market participants would use in pricing an asset or liability.

Assets and Liabilities Measured at Fair Value on a Recurring and Non-Recurring Basis

Assets measured on a recurring basis are limited to the Company's AFS securities portfolio, equity investments, and derivative contracts. The AFS portfolio is carried at estimated fair value with any unrealized gains and losses, net of taxes, reported as accumulated other comprehensive income or loss in shareholders' equity. Equity investments are carried at estimated fair value with changes in fair value reported on the statements of operations. Outstanding derivative contracts designated as cash flow hedges are carried at estimated fair value with changes in fair value reported as accumulated other comprehensive income or loss in shareholders' equity. Outstanding derivatives not designated as hedges are carried at estimated fair value with changes in fair value reported as non-interest income. The fair values for substantially all of these assets are obtained monthly from an independent nationally recognized pricing service. On a quarterly basis, the Company assesses the reasonableness of the fair values obtained for the AFS portfolio by reference to a second independent nationally recognized pricing service. Based on the nature of these securities, the Company's independent pricing service provides prices which are categorized as Level 2 since quoted prices in active markets for identical assets are generally not available for the majority of securities in the Company's portfolio. Various modeling techniques are used to determine pricing for the Company's mortgage-backed securities, including option pricing and discounted cash flow models. The inputs to these models include benchmark yields, reported trades, broker/dealer quotes, issuer spreads, two-sided markets, benchmark securities, bids, offers and reference data. On an annual basis, the Company obtains the models, inputs and assumptions utilized by its pricing service and reviews them for reasonableness. Other than derivative contracts, the Company did not have any liabilities that were measured at fair value at June 30, 2026 and December 31, 2025.

From time to time, the Company may be required to record at fair value other assets or liabilities on a non-recurring basis, such as certain loans where the carrying value is based on the fair value of the underlying collateral estimated using Level 3 inputs consisting of individual third-party appraisals that may be adjusted based on certain criteria.

Assets and liabilities measured at fair value on a recurring and non-recurring basis are summarized below (in thousands):

	Fair Value Measurement using:			
	Carrying Amount	Quoted Prices in Active Markets For Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
At June 30, 2026				
Recurring Fair Value Measurements:				
Assets				
U.S. Government agency securities	$ 18,181	$ —	$ 18,181	$ —
U.S. State and Municipal securities	9,692	—	9,692	—
Residential mortgage securities	594,889	—	594,889	—
Commercial mortgage securities	42,812	—	42,812	—
Asset-backed securities	2,204	—	2,204	—
CRA Mutual Fund	5,646	5,646	—	—
Derivative assets	4,021	—	4,021	—
Liabilities				
Derivative liabilities	268	—	268	—
Non-Recurring Fair Value Measurements:				
Assets				
Collateral dependent loans	34,980	—	—	34,980

	Fair Value Measurement using:			
	Carrying Amount	Quoted Prices in Active Markets For Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
At December 31, 2025				
Recurring Fair Value Measurements:				
Assets				
U.S. Government agency securities	$ 28,114	$ —	$ 28,114	$ —
U.S. State and Municipal securities	9,728	—	9,728	—
Residential mortgage securities	495,032	—	495,032	—
Commercial mortgage securities	43,700	—	43,700	—
Asset-backed securities	2,358	—	2,358	—
CRA Mutual Fund	5,609	5,609	—	—
Derivative assets	888	—	888	—
Liabilities				
Derivative liabilities	4,562	—	4,562	—
Non-Recurring Fair Value Measurements:				
Assets				
Collateral dependent loans	42,408	—	—	42,408

There were no transfers between Level 1 and Level 2 during the three and six months ended June 30, 2026 and 2025.

At June 30, 2026, a collateral dependent CRE loan with a total amortized cost of $23.5 million was reduced by an allowance for credit losses of $2.4 million for a reported total net carrying amount of $21.1 million. At June 30, 2026 collateral dependent multi-family loans with a total amortized cost of $33.8 million were reduced by $19.9 million of charge-offs to the allowance for credit losses for a reported total net carrying amount of $13.9 million. The collateral value for these loans was estimated using individual third party appraisals that utilized the sales comparison valuation technique. The

Company used Level 3 inputs to estimate the fair value including discounts to the appraisal for costs to sell, and other adjustments, ranging from -2% to -71%, and with a weighted-average of -27%.

At December 31, 2025, collateral dependent multi-family loans with a total amortized cost of $34.7 million were reduced by an allowance for credit losses of $19.9 million for a reported total net carrying amount of $14.8 million. At December 31, 2025, collateral dependent CRE loans with a total amortized cost of $32.0 million were reduced by an allowance for credit losses of $4.4 million for a reported total net carrying amount of $27.6 million. The collateral values for these loans were estimated using individual third party appraisals that utilized the sales comparison valuation technique. The Company used Level 3 inputs to estimate the fair value including discounts to the appraisals for costs to sell, and other adjustments ranging from -100% to 15%, and with a weighted-average of -40%.

Assets and Liabilities Not Measured at Fair Value

The Company has engaged independent pricing service providers to provide the fair values of its financial assets and liabilities not measured at fair value. These providers follow FASB's exit pricing guidelines, as required by ASC 820, Fair Value Measurement, when calculating the fair market value. Cash and cash equivalents include cash and due from banks and overnight deposits. The estimated fair values of cash and cash equivalents are assumed to equal their carrying values, as these financial instruments are either due on demand or have short-term maturities. For securities and the disability fund, if quoted market prices are not available for a specific security, then fair values are estimated by using pricing models, quoted prices of securities with similar characteristics, or discounted cash flows. These pricing models primarily use market-based or independently sourced market parameters as inputs, including, but not limited to, yield curves, interest rates, equity or debt prices, and credit spreads. The estimated fair value of loans are measured using an exit price notion. Ownership in equity securities of the FRB and FHLB is generally restricted and there is no established liquid market for their resale. The fair values of deposit liabilities with no stated maturity (i.e., money market and savings deposits, and non-interest-bearing demand deposits) are equal to the carrying amounts payable on demand. Time deposits are valued using a replacement cost of funds approach. Trust preferred securities are valued using a replacement cost of funds approach. For all other assets and liabilities it is assumed that the carrying value equals their current fair value.

Carrying amounts and estimated fair values of financial instruments not carried at fair value were as follows (in thousands):

		Fair Value Measurement Using:

Income tax (expense) benefit	—	—	99	(280)	Income tax expense
Total reclassifications, net of income tax	$ —	$ —	$ (232)	$ 631	

NOTE 12 — COMMITMENTS AND CONTINGENCIES

Financial instruments with off-balance-sheet risk

The Company is a party to financial instruments with off-balance-sheet risk in the normal course of business to meet the financing needs of its clients. These financial instruments include commitments to extend credit. These instruments involve, to varying degrees, elements of credit and interest rate risk in excess of the amount recognized in the financial statements. The Company's exposure to credit loss in the event of non-performance by the counterparty to the financial instrument for commitments to extend credit is represented by the contractual amount of those instruments. The Company uses the same credit policies in making commitments and conditional obligations as it does for on-balance-sheet instruments.

The following off-balance-sheet financial instruments, whose contract amounts represent credit risk, are outstanding (in thousands):

	At June 30, 2026		At December 31, 2025	
	Fixed Rate	Variable Rate	Fixed Rate	Variable Rate
Unused loan commitments	$ 110,475	$ 475,808	$ 113,438	$ 486,517
Standby and commercial letters of credit	34,559	—	26,388	—
	$ 145,034	$ 475,808	$ 139,826	$ 486,517

A commitment to extend credit is a legally binding agreement to lend to a client as long as there is no violation of any condition established in the contract. These commitments do not necessarily represent future cash requirements and generally expire within two years. At June 30, 2026, the Company's fixed rate loan commitments had interest rates ranging from 5.0% to 9.3% and the Company's variable rate loan commitments had interest rates ranging from 5.8% to 9.0%. At December 31, 2025, the Company's fixed rate loan commitments had interest rates ranging from 3.3% to 9.5% and the Company's variable rate loan commitments had interest rates ranging from 4.8% to 10.3%. The amount of collateral obtained, if any, by the Company upon extension of credit is based on management's credit evaluation of the borrower. Collateral held varies but may include mortgages on commercial and residential real estate, security interests in business assets, equipment, deposit accounts with the Company or other financial institutions and securities.

The Company's stand-by letters of credit amounted to $34.6 million and $26.4 million as of June 30, 2026 and December 31, 2025, respectively. The Company's stand-by letters of credit are collateralized by interest-bearing accounts of $29.4 million and $21.8 million as of June 30, 2026 and December 31, 2025, respectively.

Legal and Regulatory Proceedings

In the ordinary course of business, the Company is subject to various pending and threatened legal actions. With respect to the litigation brought by Michael Wyse, as Plan Administrator for the Voyager Wind-Down Debtor, the Company's motion to dismiss, filed in February 2025, was granted as to all counts on August 4, 2025. The Plaintiff has since filed its appeal with the U.S. Court of Appeals for the Second Circuit and oral arguments on that appeal were heard in March 2026. In addition to this matter, the Company is subject to various other pending and threatened legal actions relating to the conduct of its business activities, as well as inquiries and investigations from regulators. In addition to the foregoing, during the second quarter of 2026 the Company recorded a $1.8 million one-time legal accrual in connection with an adverse ruling in a matter precipitated by an administrative error. While the future outcome of litigation or regulatory matters cannot be determined at this time, in the opinion of management, as of June 30, 2026, the aggregate liability, if any, arising out of any such other pending or threatened matters are not expected, individually or in the aggregate to be material to the Company's financial condition, results of operations, and liquidity.

NOTE 13 — REVENUE FROM CONTRACTS WITH CUSTOMERS

All of the Company's revenue from contracts with customers that are in the scope of ASC 606, Revenue from Contracts with Customers, are recognized in non-interest income. The following table presents the Company's revenue from contracts with customers (in thousands):

	Three months ended June 30,		Six months ended June 30,	
	2026	2025	2026	2025
Service charges on deposit accounts	$ 2,229	$ 2,131	$ 4,503	$ 4,304
Other service charges and fees	357	479	692	1,871
Total	$ 2,586	$ 2,610	$ 5,195	$ 6,175

A description of the Company's revenue streams accounted for under the accounting guidance is as follows:

Service charges on deposit accounts

The Company offers business and personal retail products and services, which include, but are not limited to, online banking, mobile banking, Automated Clearing House ("ACH") transactions, and remote deposit capture. A standard deposit contract exists between the Company and all deposit customers. The Company earns fees from its deposit customers for transaction-based services (such as ATM use fees, stop payment charges, statement rendering, and ACH fees), account maintenance, and overdraft services. Transaction-based fees are recognized at the time the transaction is executed as that is the point in time the Company fulfills the client's request. Account maintenance fees, which relate primarily to monthly maintenance, are earned over the course of a month, representing the period over which the Company satisfies the performance obligation. Overdraft fees are recognized at the point in time that the overdraft occurs. Service charges on deposits are withdrawn from the client's account balance.

Other service charges

The primary component of other service charges relates to letter of credit fees and FX conversion fees. The Company outsources FX conversion for foreign currency transactions to correspondent banks. The Company earns a portion of an FX conversion fee that the client charges to process an FX conversion transaction. Revenue is recognized at the end of the month once the client has remitted the transaction information to the Company.

NOTE 14 — DERIVATIVES

On occasion, the Company enters into derivative contracts as a part of its asset liability management strategy to help manage its interest rate risk position. At June 30, 2026, these derivatives had a notional amount of $1.0 billion and contractual maturities ranging from April 24, 2027 to August 1, 2027. The notional amount of the derivatives does not represent the amount exchanged by the parties. The derivatives were designated as cash flow hedges of certain deposit liabilities and borrowings of the Company. The hedges were determined to be highly effective during the three and six months ended June 30, 2026. The Company expects the hedges to remain highly effective during the remaining term of the derivatives.

In addition, the Company periodically enters into certain commercial loan interest rate swap agreements to provide commercial loan clients the ability to convert loans from variable to fixed interest rates. Under these agreements, the Company enters into a variable-rate loan agreement with a client in addition to a swap agreement. This swap agreement effectively converts the client's variable rate loan into a fixed rate loan. The Company then enters into a corresponding swap agreement with a third party to offset its exposure on the variable and fixed components of the client agreement. As the interest rate swap agreements with the clients and third parties are not designated as hedges, the instruments are marked to market in earnings. At June 30, 2026, these interest rate swaps have a notional amount of $69.0 million and a contractual maturity of August 15, 2028.

The following tables reflect the derivatives recorded on the balance sheet (in thousands):

		Fair Value	
	Notional Amount	Other Assets	Other Liabilities
At June 30, 2026			
Derivatives designated as hedges:			
Interest rate swaps related to client deposits and borrowings	$ 1,000,000	$ 3,753	$ —
Derivatives not designated as hedges:			
Interest rate swaps	$ 69,000	$ 268	$ 268
At December 31, 2025			
Derivatives designated as hedges:			
Interest rate swaps related to client deposits and borrowings	$ 1,000,000	$ —	$ 3,674
Derivatives not designated as hedges:			
Interest rate swaps	$ 69,000	$ 888	$ 888

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Company Background

The Company is a bank holding company headquartered in New York, New York and registered under the BHC Act. Through its wholly owned bank subsidiary, Metropolitan Commercial Bank, a New York state-chartered commercial bank, the Company provides a broad range of business, commercial and retail banking products and services to small businesses, middle-market enterprises, public entities and individuals primarily in the New York metropolitan area. See the "GLOSSARY OF COMMON TERMS AND ACRONYMS" for the definition of certain terms and acronyms used throughout this Form 10-Q.

The Company's primary lending products are CRE, including multi-family loans, and C&I loans. Substantially all loans are secured by specific items of collateral including business and consumer assets, and commercial and residential real estate. Commercial loans are expected to be repaid from cash flows from operations of commercial enterprises. The Company has developed various deposit gathering strategies, which generate the funding necessary to operate without a large branch network. In addition to traditional commercial banking products, the Company offers: corporate cash management and retail banking services; tailored financial solutions for government entities, municipalities, and public institutions; specialized services to facilitate secure and efficient real estate transactions and tax-deferred exchanges for title and escrow and Section 1031 exchanges; and EB-5 Program escrow accounts of foreign investor funds for USCIS approved job-creating projects. The Company's primary deposit products are checking, savings, and term deposit accounts, all of which are insured by the FDIC up to the maximum amounts allowed by law. These activities, together with eight strategically located banking centers, generate a stable source of deposits to support the growth of our diverse loan portfolio and other assets.

The Company is focused on organically growing its position in the New York metropolitan area. Growth in other markets across the country is generally dependent on the business activities of our New York-based customers. Through an experienced team of commercial relationship managers and its integrated, client-centric approach, the Company has grown market share by deepening existing client relationships and continually expanding its client base through referrals and the ability to offer alternatives to traditional retail banking products. The Company has converted many of its commercial lending clients into full retail relationship banking clients. Given the size of the market in which the Company operates and its differentiated approach to client service, there is significant opportunity to further grow its loans and deposits. By combining high-tech service with the relationship-based focus of a community bank with an extensive suite of financial products and services, the Company is well-positioned to continue to capitalize on the significant growth opportunities available in the New York metropolitan area and elsewhere.

Recent Events

On June 6, 2026, William Reinhardt retired from the Board of Directors and the board of directors of the Bank.

On June 19, 2026, the Board of Directors of the Company approved a new share repurchase program pursuant to which the Company is authorized to repurchase up to $50.0 million of its outstanding common stock, par value $0.01 per share (the "Share Repurchase Program"). Repurchases under the Share Repurchase Program may be conducted from time to time on the open market or by other means in accordance with applicable securities laws and other restrictions, including, in part, under a Rule 10b5-1 plan, which allows stock repurchases when the Company might otherwise be precluded from doing so. The number of shares to be repurchased and the timing of repurchases, if any, will depend on several factors, including market conditions, prevailing share price, corporate and regulatory requirements, and other considerations.

The Share Repurchase Program represents a newly authorized program that replaces and supersedes the previously disclosed program that was authorized by the Company's Board of Directors on July 17, 2025.

The Company intends to fund the Share Repurchase Program with available cash. The Share Repurchase Program has no expiration date, may be discontinued or suspended at any time and does not obligate the Company to acquire any amount of its common stock. The Company records the purchase of treasury stock at cost.

Critical Accounting Policies

Critical accounting estimates are necessary in the application of certain accounting policies and procedures and are particularly susceptible to significant change. Critical accounting policies are defined as those involving significant judgments and assumptions by management that could have a material impact on the carrying value of certain assets or on income under different assumptions or conditions. Management believes the Company's most critical accounting policy, which involves the most complex or subjective decisions or assessments, is the allowance for credit losses.

Allowance for Credit Losses

The ACL has been determined in accordance with GAAP. The Company is responsible for the timely and periodic determination of the amount of the ACL. Management believes that the ACL for loans and loan commitments is adequate to cover expected credit losses over the life of the loan portfolio. Although management evaluates available information to determine the adequacy of the ACL, the level of allowance is an estimate which is subject to significant judgment and short-term change. Because of uncertainties associated with local and national economic forecasts, the operating and regulatory environment, collateral values and future cash flows from the loan portfolio, it is possible that a material change could occur in the ACL. The evaluation of the adequacy of loan collateral is often based upon estimates and appraisals. Because of uncertain economic conditions, the valuations determined from such estimates and appraisals may change. Accordingly, the Company may ultimately incur losses that vary from management's current estimates. Adjustments to the ACL will be reported in the period in which such adjustments become apparent and can be reasonably estimated. All loan losses are charged-off to the ACL when the loss actually occurs or when the collectability of principal is deemed to be unlikely. Recoveries are credited to the allowance at the time of recovery. Various regulatory agencies, as an integral part of their examination process, periodically review the Company's ACL. As a result of such examinations, the Company may need to recognize additions to the ACL based on the regulators' observations.

In estimating the ACL, the Company relies on models and economic forecasts developed by external parties as the primary driver of the ACL. These external models and forecasts are based on nationwide data sets. Economic forecasts can change significantly over an economic cycle and have a significant level of uncertainty associated with them. The performance of these models is dependent on the variables used in the models being reasonable predictors for the loan portfolio's performance. However, these variables may not capture all sources of risk within the portfolio. As a result, the Company reviews the results and makes qualitative adjustments to capture potential limitations of the external models as necessary. Such qualitative factors may include adjustments to better capture the imprecision associated with the economic forecasts, and the ability of the models to capture emerging risks within the portfolio that may not be represented in the data. These adjustments are evaluated through the Company's review process and revised on a quarterly basis to account for changes in forecasts, facts and circumstances.

The measurement of all expected credit losses for financial assets held at amortized cost is based on historical experience, current conditions, and reasonable and supportable forecasts. The Company continuously monitors current conditions and events and will evaluate potential changes that will enhance the estimation process. During the quarter ended March 31, 2026, the peer group selection process, macroeconomic forecast weightings, and the qualitative factor process were adjusted to reflect current conditions and events. The Company accounted for these revisions prospectively as a change in accounting estimate beginning March 31, 2026, and no prior period amounts were adjusted. The effect of this change in accounting estimate for the three months ended March 31, 2026, was a net decrease in the provision for credit losses of $6.4 million, which is $4.6 million, net of tax, or $0.43 per basic earnings per share and $0.42 per dilutive earnings per share.

One of the more significant judgments involved in estimating the Company's ACL relates to the macroeconomic forecasts used to estimate credit losses and the relative weightings applied to them. To illustrate the impact of changes in these forecasts to the Company's ACL, the Company performed a hypothetical sensitivity analysis that decreased the weight on the baseline scenario by 33% and equally allocated the difference to increase the weighting on the more optimistic and adverse scenarios. All else equal, the impact of this hypothetical forecast would result in a net increase of approximately $2.5 million, or 4.0%, in the Company's total ACL for loans and loan commitments as of June 30, 2026. This hypothetical analysis is intended to illustrate the impact of adverse changes in the macroeconomic forecasts at a point in time and is not intended to reflect the full nature and extent of potential future change in the ACL. It is difficult to estimate how potential

changes in any one of the quantitative inputs or qualitative factors might affect the overall ACL and the Company's current assessments may not reflect the potential future impact of changes to those inputs or factors.

Discussion of Financial Condition

The Company had total assets of $8.9 billion at June 30, 2026, an increase of $603.0 million, or 7.3%, from December 31, 2025. Total cash and cash equivalents were $239.3 million at June 30, 2026, as compared to $393.6 million at December 31, 2025.

Investments

Total securities were $1.1 billion at June 30, 2026, an increase of $147.3 million or 15.7%, from December 31, 2025. The increase was primarily due to the purchase of $230.7 million of AFS and HTM securities, partially offset by the $76.7 million paydown and maturities of AFS and HTM securities.

Loans

Total loans, net of deferred fees and unamortized costs, were $7.3 billion at June 30, 2026, an increase of $518.7 million, or 7.6%, from December 31, 2025. The increase in total loans from December 31, 2025 was due primarily to an increase of $563.4 million in CRE loans (including owner-occupied). At June 30, 2026, 73.2% of the CRE and C&I loan portfolio was concentrated in the New York metropolitan area, mainly New York City, and Florida.

As of June 30, 2026, total loans consisted primarily of CRE loans (including multi-family mortgage loans) and C&I loans. The Company's commercial loan portfolio includes loans to the following industries (dollars in thousands)

	At June 30, 2026	
	Balance	% of Total Loans
CRE [1]		
Skilled Nursing Facilities	$ 3,073,450	41.8 %
Office	462,601	5.6
Hospitality	425,080	6.3
Multi-family	414,332	4.7
Retail	375,036	5.8
Mixed Use	346,318	5.1
Construction	244,244	3.2
Land	237,681	2.2
Warehouse/Industrial	159,439	3.3
Other	685,299	9.4
Total CRE	$ 6,423,480	87.4 %
C&I		
Skilled Nursing Facilities	$ 209,845	2.9 %
Finance & Insurance	182,863	2.5
Services	107,956	1.4
Individuals	101,291	1.2
Healthcare	85,391	1.5
Other	72,623	0.8
Wholesale	60,205	0.2
Manufacturing	11,262	1.0
Total C&I	$ 831,436	11.5 %

(1) CRE, not including one-to four-family loans

The largest concentration in the loan portfolio is to the healthcare industry, which amounted to $3.4 billion, or 45.9% of total loans, at June 30, 2026, including $3.3 billion in loans to skilled nursing facilities.

Asset Quality

As the Company continues to work diligently toward the resolution of the credits that make up its nonperforming loan portfolio, non-performing loans decreased to $67.0 million at June 30, 2026 compared to $86.9 million at December 31, 2025. The decrease primarily reflects the charge-offs for two out-of-market CRE loan relationships, and two C&I loans, partially offset by the addition of one C&I loan in a non-core private equity portfolio segment that only contains one other loan. The loan portfolio remains fundamentally sound, with pass-rated loans representing approximately 97% of total loans. The table below sets forth key asset quality ratios (dollars in thousands):

	At or for the six months ended June 30, 2026	At or for the year ended December 31, 2025
Asset Quality Ratios		
Non-performing loans	$ 66,970	$ 86,884
Non-performing loans to total loans	0.91 %	1.28 %
Allowance for credit losses to total loans	0.85 %	1.43 %
Non-performing loans to total assets	0.76 %	1.05 %
Allowance for credit losses to non-performing loans	92.6 %	111.7 %
Ratio of net charge-offs (recoveries) to average loans outstanding in aggregate	1.35 %	0.06 %

Allowance for Credit Losses – Loans and Loan Commitments

The ACL for loans was $62.0 million at June 30, 2026, as compared to $97.1 million at December 31, 2025. The $35.1 million decrease in the ACL primarily reflects the charge-offs related to the two aforementioned out-of-market CRE loan relationships that were previously provisioned for, and adjustments made to the Bank's allowance for credit loss estimation process in the first quarter of 2026, partially offset by loan growth. The measurement of the ACL is based on historical experience, current conditions, and reasonable and supportable forecasts. Management believes that the ACL for loans and loan commitments is adequate to cover expected credit losses over the life of the loan portfolio. See "— Critical Accounting Policies" above for more information on the Bank's allowance for credit losses.

Deposits

Total deposits were $7.7 billion at June 30, 2026, an increase of $354.3 million, or 4.8%, from December 31, 2025. The increase in total deposits from December 31, 2025 was broadly distributed across the Bank's various deposit verticals. Non-interest-bearing demand deposits were 20.6% of total deposits at June 30, 2026, compared to 20.1% at December 31, 2025.

The table below summarizes the Company's deposit composition by segment for the periods indicated (dollars in thousands):

	At June 30, 2026	At December 31, 2025	Dollar Change	Percentage Change
Non-interest-bearing demand deposits	$ 1,591,126	$ 1,479,420	$ 111,706	7.6 %
Money market	5,977,600	5,698,748	278,852	4.9
Savings accounts	9,418	8,886	532	6.0
Time deposits	153,338	190,124	(36,786)	(19.3)
Total	$ 7,731,482	$ 7,377,178	$ 354,304	4.8 %

At June 30, 2026, the aggregate estimated amount of FDIC uninsured deposits was $2.1 billion, and the aggregate estimated amount of uninsured time deposits was $44.5 million. The following table presents the scheduled maturities of time deposits greater than $250,000 (in thousands):

	At June 30, 2026
Three months or less	$ 23,272
Over three months through six months	12,421
Over six months through one-year	8,153
Over one-year	685
Total	$ 44,531

Borrowings

To support the balance sheet, the Company may at times utilize FHLB advances or other funding sources. At June 30, 2026, and December 31, 2025, the Company had no outstanding Federal funds purchased or FHLBNY advances.

Accumulated Other Comprehensive Income

Accumulated other comprehensive loss, net of tax, was $39.0 million at June 30, 2026, a decrease of $0.7 million from December 31, 2025. The decrease from December 31, 2025 was primarily due to unrealized gains on cash flow hedges, as a result of changes in prevailing market interest rates, partially offset by unrealized losses on AFS securities.

Results of Operations

Net Income

Net income was $19.2 million for the second quarter of 2026, an increase of $456,000 as compared to $18.8 million for the second quarter of 2025. This increase was due primarily to a $16.8 million increase in net interest income, and a $1.7 million decrease in FDIC assessments, partially offset by a $6.9 million increase in the provision for credit losses, $5.1 million increase in compensation and benefits, and a $1.8 million one-time accrual for an adverse judgment in a legal matter.

Net income was $50.6 million for the six months ended June 30, 2026, an increase of $15.5 million as compared to $35.1 million for the six months ended June 30, 2025. This increase was due primarily to a $35.8 million increase in net interest income and a $2.8 million decrease in FDIC assessments, partially offset by a $7.5 million increase in compensation and benefits related to the increase in the number of employees, a $3.5 million increase in deposit related program fees, a $3.0 million increase in technology costs, and a $1.8 million one-time accrual for an adverse judgment in a legal matter.

Net Interest Income and Net Interest Margin

Net interest income is the difference between interest earned on assets and interest incurred on liabilities. The following table presents an analysis of net interest income by each major category of interest-earning assets and interest-bearing liabilities. The table presents the average yield on interest-earning assets and the average cost of interest-bearing liabilities. Yields and costs were derived by dividing income or expense by the average balance of interest-earning assets and interest-bearing liabilities, respectively, for the periods shown. Average balances were derived from daily balances over the periods indicated. Interest income includes fees that management considers to be adjustments to yields. Yields on tax-exempt obligations were not computed on a tax-equivalent basis. Non-accrual loans were included in the computation of average balances. The yields set forth below include the effect of deferred loan origination fees and costs, and purchase discounts and premiums that are amortized or accreted to interest income.

Net interest margin for the second quarter of 2026 was 4.08% compared to 3.83% for the second quarter of 2025. The 25 basis point increase reflects the decline in short-term interest rates.

(6) Determined by dividing annualized interest expense by the sum of total average interest-bearing liabilities and total average non-interest-bearing deposits.

The following table presents the effects of changing rates and volumes on net interest income for the periods indicated. The rate column shows the effects attributable to changes in rate (changes in rate multiplied by prior volume). The volume column shows the effects attributable to changes in volume (changes in volume multiplied by prior rate). For purposes of this table, changes attributable to both rate and volume, which cannot be segregated, have been allocated proportionately, based on the changes due to rate and the changes due to volume (in thousands).

Interest Income

Interest income increased $13.9 million to $140.9 million for the second quarter of 2026 compared to $127.0 million for the second quarter of 2025, primarily due to the $536.6 million increase in the average balance of loans, the $566.2 million increase in the average balance of overnight deposits, and the $89.5 million increase in the average balance of securities.

Interest income increased $30.1 million to $275.9 million for the six months ended June 30, 2026 as compared to $245.8 million for the six months ended June 30, 2025, primarily due to the $630.1 million increase in the average balance of loans and the $495.5 million increase in the average balance of overnight deposits.

Interest Expense

Interest expense decreased $2.9 million to $50.5 million for the second quarter of 2026 as compared to $53.4 million for the second quarter of 2025 due primarily to the 53 basis point decrease in the total cost of funds that reflects the reduction in short-term interest rates.

Interest expense decreased $5.7 million to $99.5 million for the six months ended June 30, 2026 as compared to $105.2 million for the six months ended June 30, 2025, due primarily to a 55 basis point decrease in the total cost of funds reflecting the reduction in short-term interest rates and the $324.4 million decrease in the average balance of borrowed funds.

Provision for Credit Losses – Loans and Loan Commitments

The provision for credit losses for the three months ended June 30, 2026 was $13.3 million, as compared to $6.4 million for the three months ended June 30, 2025. The increase in the provision for credit losses was driven primarily by a single C&I loan in a non-core portfolio segment.

The provision for credit losses for the six months ended June 30, 2026 was $11.0 million, as compared to $10.9 million for the six months ended June 30, 2025. The provision reflects $19.3 million of credit losses related to the aforementioned single C&I loan in a non-core portfolio segment as well as one C&I and two CRE loans that were provisioned and subsequently charged-off in the first quarter of 2026. The provision for the six months ended June 30, 2026 also reflects a decrease of $6.4 million due to the adjustments made to the Bank's allowance for credit loss estimation process. See "—Critical Accounting Policies" above for more information on the adjustments made to the Bank's allowance for credit loss estimation process.

Non-Interest Income

Non-interest income decreased $61,000 to $2.6 million for the second quarter of 2026, as compared to $2.6 million for the second quarter of 2025, driven primarily by a decrease in loan production fees, partially offset by an increase in service charges on deposit accounts.

Non-interest income decreased $1.1 million to $5.1 million for the six months ended June 30, 2026, as compared to $6.2 million for the six months ended June 30, 2025 driven primarily by a $1.2 million decrease in loan production fees.

Non-Interest Expense

Non-interest expense increased $8.7 million to $51.8 million for the second quarter of 2026, compared to the second quarter of 2025 due primarily to a $5.1 million increase in compensation and benefits, a $1.8 million one-time accrual for an adverse judgment in a legal matter, and $1.1 million increase in technology costs, partially offset by a $1.7 million decrease in the FDIC assessment.

Non-interest expense increased $12.4 million to $98.2 million for the six months ended June 30, 2026, as compared to the six months ended June 30, 2025, due primarily to an increase of $7.5 million in compensation and benefits due to the increase in the number of employees, a $3.5 million increase in deposit program related fees, a $3.0 million increase in technology costs, and a $1.8 million one-time legal accrual for an adverse judgment in legal matter, partially offset by a decrease of $2.8 million in FDIC assessment.

Income Tax Expense

The estimated effective tax rate for the second quarter of 2026 was 31.1% as compared to 29.9% for the second quarter of 2025. The effective tax rate for the six months ended June 30, 2026 was 29.9% compared to 30.0% for the six months ended June 30, 2025.

Off-Balance Sheet Arrangements

The Company is a party to financial instruments with off-balance sheet risk in the normal course of business to meet the financing needs of its customers. These financial instruments include commitments to extend credit, which involve elements of credit and interest rate risk in excess of the amount recognized in the consolidated statements of financial condition. Exposure to credit loss is represented by the contractual amount of the instruments. The Company uses the same credit policies in making commitments as it does for on-balance sheet instruments.

At June 30, 2026, the Company had $586.3 million in unused loan commitments and $34.6 million in standby and commercial letters of credit. At December 31, 2025, the Company had $600.0 million in unused commitments and $26.4 million in standby and commercial letters of credit.

Liquidity and Capital Resources

Liquidity

Liquidity is the ability to economically meet current and future financial obligations. The Company's primary sources of funds consist of deposit inflows, loan repayments and maturities, securities cash flows and borrowings. While maturities and scheduled amortization of loans, securities, and borrowings are predictable sources of funds, deposit flows, mortgage prepayments and securities cash flows may be greatly influenced by the general level of interest rates and changes thereto, economic conditions and competition.

The Company regularly reviews the need to adjust investments in liquid assets based upon its assessment of: (1) expected loan demand, (2) expected deposit flows, (3) yields available on interest-earning deposits and securities, and (4) the objectives of its asset/liability program. Excess liquidity is generally invested in interest earning deposits and short- and intermediate-term securities.

The Company's most liquid assets are cash and cash equivalents. The levels of these assets are dependent on the Company's operating, financing, lending and investing activities during any given period. At June 30, 2026 and December 31, 2025, cash and cash equivalents totaled $239.3 million and $393.6 million, respectively. Securities, which provide an additional source of liquidity, totaled $1.1 billion at June 30, 2026 and $941.2 million at December 31, 2025. At June 30, 2026, there were $960.4 million of securities pledged to support wholesale funding, and to a lesser extent certain other types of deposits, of which $127.0 million were encumbered. At December 31, 2025, there were $807.5 million of securities pledged to support wholesale funding, and to a lesser extent certain other types of deposits, of which $118.2 million were encumbered.

The Company's primary investing activities are the origination and, to a lesser extent, purchase of loans and securities. For the three and six months ended June 30, 2026, the Company's loan production was $718.9 million and $1.1 billion as compared to $492.0 million and $901.8 million, respectively, for the three and six months ended June 30, 2025.

During the three and six months ended June 30, 2026, the Company purchased $44.5 million and $153.5 million of AFS securities. During the three and six months ended June 30, 2025, the Company purchased $20.9 million and $85.1 million of AFS securities.

Financing activities consisted primarily of activity in deposit accounts and borrowings. The Company gathers deposits from businesses and individuals through client referrals and other relationships and through its retail presence. The Company has established deposit concentration thresholds to avoid the possibility of dependence on any single depositor

base for funds. Total deposits were $7.7 billion at June 30, 2026, an increase of $354.3 million, or 4.8%, from December 31, 2025.

At June 30, 2026, interest-bearing deposits were comprised of $6.0 billion of money market accounts and $153.3 million of time deposits. Time deposits due within one year of June 30, 2026 totaled $150.0 million, or 1.9%, of total deposits. At June 30, 2026, the aggregate estimated amount of FDIC uninsured deposits was $2.1 billion. At December 31, 2025, interest-bearing deposits were comprised of $5.7 billion of money market accounts and $190.1 million of time deposits. Time deposits due within one year of December 31, 2025 totaled $186.3 million or 2.5% of total deposits. Non-interest-bearing deposits were 20.6% of total deposits at June 30, 2026, as compared to 20.1% at December 31, 2025. At December 31, 2025, the aggregate estimated amount of FDIC uninsured deposits was $2.0 billion.

The Company has no material commitments or demands that are likely to affect its liquidity other than as set forth below. In the event loan demand were to increase faster than expected, or any other unforeseen demand or commitment were to occur, the Company could access its borrowing capacity with the FHLB or obtain additional funds through alternative funding sources, including the brokered deposit market. At June 30, 2026 and December 31, 2025, the Company had cash on deposit with the FRBNY and available secured wholesale funding borrowing capacity of $3.1 billion and $3.3 billion, respectively.

Capital Resources

The Company and the Bank are subject to various regulatory capital requirements administered by the federal banking agencies. At June 30, 2026 and December 31, 2025, the Bank met all applicable regulatory capital requirements to be considered "well capitalized" under regulatory guidelines. The Company and the Bank manage their capital to comply with their internal planning targets and regulatory capital standards administered by federal banking agencies. The Company and the Bank review capital levels on a monthly basis. Below is a table of the Company's and Bank's capital ratios for the periods indicated:

	At June 30, 2026	At December 31, 2025	Minimum Ratio to be "Well Capitalized"	Minimum Ratio Required for Capital Adequacy Purposes	Minimum Capital Conservation Buffer[1]
The Company					
Tier 1 leverage ratio	11.3 %	9.5 %	N/A	4.0 %	— %
Common equity tier 1	12.9 %	10.7 %	N/A	4.5 %	2.5 %
Tier 1 risk-based capital ratio	13.2 %	11.0 %	N/A	6.0 %	2.5 %
Total risk-based capital ratio	14.0 %	12.3 %	N/A	8.0 %	2.5 %
The Bank					
Tier 1 leverage ratio	11.1 %	9.1 %	5.00 %	4.0 %	— %
Common equity tier 1	12.9 %	10.5 %	6.50 %	4.5 %	2.5 %
Tier 1 risk-based capital ratio	12.9 %	10.5 %	8.00 %	6.0 %	2.5 %
Total risk-based capital ratio	13.7 %	11.7 %	10.00 %	8.0 %	2.5 %

(1) As of June 30, 2026, the capital conservation buffer for the Company and the Bank was 6.01% and 5.73%, respectively, which exceeded the minimum requirement of 2.5% required to be held by banking institutions.

At June 30, 2026 and December 31, 2025, total non-owner-occupied CRE loans were 304.1% and 376.5% of risk-based capital, respectively. The decrease in the CRE loan concentration ratio is primarily due to the increase in the Bank's total capital as a result of the completion of the Company's follow-on public equity offering of common stock in the first quarter of 2026.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

General

The principal objective of the Company's asset and liability management function is to evaluate the interest rate risk within the balance sheet and pursue a controlled assumption of IRR while maximizing net income and preserving adequate levels of liquidity and capital. The Board of Directors bears the ultimate oversight responsibility for the Company's asset and liability management function. The Company's ALCO is responsible for assisting the Board of Directors with this oversight. The ALCO has further assigned responsibility for the day-to-day management of IRR to the CFO, or their designee. The ALCO meets regularly to review, among other things, the sensitivity of earnings and the market value of assets and liabilities to market interest rate changes and local and national market conditions and market interest rates. That group also reviews liquidity, capital, deposit mix, loan mix and investment positions. Based upon the nature of its operations, the Company is not subject to FX or commodity price risk.

Interest Rate Risk

As a financial institution, the Company's primary market risk exposure is IRR. Fluctuations in interest rates will ultimately impact both the level of income and expense recorded on most assets and liabilities, and the fair value of all interest-earning assets and interest-bearing liabilities, other than those which have a short term to maturity. IRR is the potential for economic losses due to future interest rate changes. These economic losses can be reflected as a loss of future net interest income and/or a loss of current fair values. The objective is to measure the effect on net interest income and to adjust, as deemed appropriate, the balance sheet to manage the inherent risk while at the same time maximizing income.

The Company manages its exposure to interest rates primarily by prudently structuring its balance sheet in the ordinary course of business. The Company generally originates fixed and floating rate loans with maturities of less than five years. The IRR on these loans is offset to some degree by the mix and structure of the deposit portfolio. On occasion, the Company enters into derivative contracts as a part of its asset liability management strategy to help manage its IRR position.

Net Interest Income At-Risk

The Company analyzes its net interest income sensitivity to changes in interest rates through a simulation model, which estimates what net interest income would be for a one-year period based on current interest rates, and then calculates what the net interest income would be for the same period under different interest rate assumptions.

The following table shows the estimated impact on net interest income for the one-year period beginning June 30, 2026 resulting from potential changes in interest rates, expressed in basis points. These estimates require certain assumptions to be made, including loan and mortgage-related investment prepayment speeds, reinvestment rates, and deposit maturities and decay rates. These assumptions are inherently uncertain. As a result, no simulation model can precisely predict the impact of changes in interest rates on net interest income.

Although the net interest income table below provides an indication of the Company's IRR exposure at a particular point in time, such estimates are not intended to, and do not, provide a precise forecast of the effect of changes in market interest rates on net interest income and may differ from actual results. The following table indicates the sensitivity of projected annualized net interest income to the interest rate movements described above (dollars in thousands):

	At June 30, 2026	
Change in Interest Rates (basis points)	Net Interest Income Year 1 Forecast	Year 1 Change from Level
+300	376,535	(0.81)%
+200	377,408	(0.58)
+100	378,752	(0.23)
—	379,607	—
-100	385,974	1.68
-200	392,450	3.38
-300	404,603	6.58

The table above indicates that at June 30, 2026, in the event of an instantaneous and sustained parallel upward shift of 200 basis points in interest rates, the Company would experience a 0.58% decrease in net interest income. In the event of an instantaneous and sustained parallel downward shift of 200 basis points in interest rates, it would experience a 3.38% increase in net interest income.

Economic Value of Equity Analysis

The Company also analyzes the sensitivity of its financial condition to changes in interest rates through an EVE model. This analysis measures the difference between predicted changes in the fair value of assets and predicted changes in the present value of liabilities assuming various changes in current interest rates. The table below represents an analysis of IRR as measured by the estimated changes in EVE, resulting from instantaneous and sustained parallel shifts in the yield curve (+100, +200, +300 and -100, -200, -300 basis points) at June 30, 2026 (dollars in thousands):

		Estimated Increase (Decrease) in EVE	
Change in Interest Rates (basis points) [1]	Estimated EVE [2]	Dollars	Percent
+300	$ 1,389,060	$ (116,773)	(7.75)%
+200	1,430,333	(75,499)	(5.01)%
+100	1,473,902	(31,931)	(2.12)
—	1,505,833	—	—
-100	1,538,697	32,864	2.18
-200	1,560,688	54,855	3.64
-300	1,576,039	70,206	4.66

(1) Assumes an immediate uniform change in interest rates at all maturities.
(2) EVE is the fair value of expected cash flows from assets, less the fair value of the expected cash flows arising from the Company's liabilities adjusted for the value of off-balance sheet contracts.

The table above indicates that at June 30, 2026, in the event of an immediate upward shift of 200 basis points in interest rates, the Company would experience a 5.01% decrease in its EVE. In the event of an immediate downward shift of 200 basis points in interest rates, the Company would experience a 3.64% increase in its EVE.

The preceding simulation analyses do not represent a forecast of actual results and should not be relied upon as being indicative of expected operating results. These hypothetical estimates are based upon numerous assumptions, which are

subject to change, including: the nature and timing of interest rate levels including the yield curve shape, prepayments on loans and securities, deposit decay rates, pricing decisions on loans and deposits, reinvestment/replacement of asset and liability cash flows, and others. Also, as market conditions vary, prepayment/refinancing levels, the varying impact of interest rate changes on caps and floors embedded in adjustable-rate loans, early withdrawal of deposits, changes in product preferences, and other internal/external variables will likely deviate from those assumed.

ITEM 4. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

The Company's management, with the participation of its Chief Executive Officer, who is the Company's principal executive officer, and the Chief Financial Officer, who is the Company's principal financial officer, have evaluated the effectiveness of the Company's disclosure controls and procedures as of June 30, 2026, pursuant to Rule 13a-15 of the Securities Exchange Act of 1934, as amended (the "Exchange Act"). Based upon that evaluation, the principal executive officer and principal financial officer have concluded that the Company's disclosure controls and procedures were effective as of June 30, 2026. In addition, there have been no changes in the Company's internal control over financial reporting during the most recent fiscal quarter that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

Disclosure controls and procedures are designed with the objective of ensuring that information required to be disclosed in reports filed by the Company under the Exchange Act, such as this Quarterly Report, is recorded, processed, summarized and reported within the time periods specified in the rules and forms of the SEC. Disclosure controls and procedures are also designed with the objective of ensuring that such information is accumulated and communicated to management, including the Chief Executive Officer and the Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure.

PART II. OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

In the ordinary course of business, the Company is subject to various pending and threatened legal actions. With respect to the litigation brought by Michael Wyse, as Plan Administrator for the Voyager Wind-Down Debtor, the Company's motion to dismiss, filed in February 2025, was granted as to all counts on August 4, 2025. The Plaintiff has since filed its appeal with the U.S. Court of Appeals for the Second Circuit and oral arguments on that appeal were heard in March 2026, the court's ruling on which is pending. There have been no other significant developments with respect to other legal proceedings previously disclosed under Part I, Item 3 in our 2025 Form 10-K. While the future outcome of litigation or regulatory matters cannot be determined at this time, in the opinion of management, as of June 30, 2026, the aggregate liability, if any, arising out of any such pending or threatened legal actions are not expected, individually or in the aggregate, to be material to the Company's financial condition, results of operations, and liquidity. For additional information regarding certain legal proceedings, see "*Legal and Regulatory Proceedings*" in NOTE 12 — COMMITMENTS AND CONTINGENCIES to the Company's consolidated financial statements in this Form 10-Q.

ITEM 1A. RISK FACTORS

There are risks, many beyond our control, which could cause our results to differ significantly from management's expectations. For a description of these risks, please see the risk factors previously described in Part I, "Item 1A. Risk Factors" in our 2025 Form 10-K. There have been no material changes to our risk factors since the date of that filing. Any of the risks described in our 2025 Form 10-K could by itself or together with one or more other factors, materially and adversely affect our business, results of operations or financial condition. Additional risks and uncertainties not currently known to us or that we currently deem to be immaterial also may materially and adversely affect our business, results of operations or financial condition.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

The following table sets forth information regarding the shares of common stock repurchased by the Company during the three months ended June 30, 2026:

Period	Total Number of Shares Purchased	Average Price Paid Per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans	Dollar Value of Shares That May Yet Be Purchased Under the Plans [1]
April 1, 2026 to April 30, 2026	—	$ —	—	$ 17,535,739
May 1, 2026 to May 31, 2026	—	—	—	17,535,739
June 1, 2026 to June 30, 2026	—	—	—	50,000,000
Total	—	$ —	—	

(1) On June 19, 2026, the Board of Directors approved the Share Repurchase Program with authorization to repurchase up to $50.0 million of the Company's common stock. The Share Repurchase Program represents a newly authorized program that replaces and supersedes the previously disclosed program that was authorized by the Company's Board of Directors on July 17, 2025. In aggregate, the Board of Directors has authorized $150 million of repurchases of the Company's common stock since March 2025.

ITEM 3. DEFAULTS UPON SENIOR SECURITIES

None.

ITEM 4. MINE SAFETY DISCLOSURES

Not applicable.

ITEM 5. OTHER INFORMATION

On June 17, 2026, Nick Rosenberg, Executive Vice President and Chief Business Development Officer, adopted a Rule 10b5-1 trading arrangement that is intended to satisfy the affirmative defense of Rule 10b5-1(c) for the sale of up to 7,250 shares of the Company's common stock, commencing on September 17, 2026 and continuing until all shares are sold or September 16, 2027, whichever comes first.

ITEM 6. EXHIBITS

3.1	Certificate of Incorporation of Metropolitan Bank Holding Corp, as amended (incorporated by reference to Exhibit 3.1 to the Registration Statement on Form S-1 filed with the Securities and Exchange Commission on October 4, 2017 (File No. 333-220805)).
3.2	Certificate of Amendment to the Certificate of Incorporation of Metropolitan Bank Holding Corp. (incorporated by reference to Exhibit 3.2 to the Registration Statement on Form S-3 filed with the Securities and Exchange Commission on March 12, 2021 (File No. 333-254197)).
3.3	Amended and Restated Bylaws of Metropolitan Bank Holding Corp. (incorporated by reference to Exhibit 3.3 to the Quarterly Report on Form 10-Q filed with the Securities and Exchange Commission on November 8, 2024 (File No. 001-38282)).
31.1	Certification of the Principal Executive Officer of the Company, pursuant to Securities Exchange Act Rule 13a-14(a).
31.2	Certification of the Principal Financial Officer of the Company, pursuant to Securities Exchange Act Rule 13a-14(a).
32	Certification pursuant to 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002, signed by Principal Executive Officer of the Company and the Principal Financial Officer of the Company.
101	INS XBRL Instance Document (the instance document does not appear in the Interactive Data File because its XBRL tags are embedded within the Inline XBRL document)
101	SCH XBRL Taxonomy Extension Schema
101	CAL XBRL Taxonomy Extension Calculation Linkbase
101	DEF XBRL Taxonomy Extension Definition Linkbase
101	LAB XBRL Taxonomy Extension Label Linkbase
101	PRE XBRL Taxonomy Extension Presentation Linkbase
104	The cover page from Metropolitan Bank Holding Corp.'s Quarterly Report on Form 10-Q for the quarter ended June 30, 2026, formatted in Inline XBRL

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the Company has duly caused this report to be signed on its behalf by the undersigned thereunto duly authorized.

Metropolitan Bank Holding Corp.
