CAUTIONARY NOTE REGARDING FORWARD-LOOKING STATEMENTS

This report contains forward-looking statements that are based on management's beliefs, assumptions, current expectations, estimates and projections about the financial services industry, the economy, and Northpointe Bancshares, Inc. ("Northpointe" or the "Company"). Forward-looking statements are identifiable by words or phrases such as "outlook", "plan" or "strategy"; that an event or trend "could", "may", "should", "will", "is likely", or is "possible" or "probable" to occur or "continue", has "begun" or "is scheduled" or "on track" or that the Company or its management "anticipates", "believes", "estimates", "plans", "forecasts", "intends", "predicts", "projects", or "expects" a particular result, or is "committed", "confident", "optimistic" or has an "opinion" that an event will occur, or other words or phrases such as "ongoing", "future", "signs", "efforts", "tend", "exploring", "appearing", "until", "near term", "concern", "going forward", "focus", "starting", "initiative," "trend" and variations of such words and similar expressions.

Such statements are based upon current beliefs and expectations and involve substantial risks and uncertainties which could cause actual results to differ materially from those expressed or implied by such forward-looking statements. These statements include, among others, those related to future levels of earning assets, future composition of our loan portfolio, trends in credit quality metrics, future capital levels and capital needs, real estate valuation, future levels of repossessed and foreclosed properties and nonperforming assets, future levels of losses and costs associated with the administration and disposition of repossessed and foreclosed properties and nonperforming assets, future levels of loan charge-offs, future levels of other real estate owned, future levels of provisions for credit losses and reserve recoveries, the rate of asset dispositions, future dividends, future growth and funding sources, future cost of funds, future liquidity levels, future profitability levels, future interest rate levels, future net interest margin levels, the effects on earnings of changes in interest rates, future economic conditions, future effects of new or changed accounting standards, future loss recoveries, loan demand and loan growth, future amounts of unrecognized tax benefits and the future level of other revenue sources. Management's determination of the provision and allowance for credit losses, the appropriate carrying value of intangible assets (including deferred tax assets) and other real estate owned, and the fair value of investment securities involves judgments that are inherently forward-looking. All statements with references to future time periods are forward-looking. All of the information concerning interest rate sensitivity is forward-looking. Our ability to sell other real estate owned at its carrying value or at all, successfully implement new programs and initiatives, increase efficiencies, maintain our current levels of deposits and other sources of funding, maintain liquidity, respond to declines in collateral values and credit quality, respond to a changing interest rate environment, increase loan volume, originate high quality loans, maintain or improve mortgage banking income, realize the benefit of our deferred tax assets, continue payment of dividends and improve profitability is not entirely within our control and is not assured. The future effect of changes in the real estate, financial and credit markets and the national and regional economy on the banking industry, generally, and Northpointe Bancshares, Inc., specifically, are also inherently uncertain.

These statements are not guarantees of future performance and involve certain risks, uncertainties and assumptions ("risk factors") that are difficult to predict with regard to timing, extent, likelihood and degree of occurrence. Therefore, actual results and outcomes may materially differ from what may be expressed or forecasted in such forward-looking statements.

Risk factors include, but are not limited to, the risk factors described in "Item 1A - Risk Factors" of the Company's Annual Report on Form 10-K for the year ended December 31, 2024 (the "2024 Form 10-K") and in this report. These and other factors are representative of the risk factors that may emerge and could cause a difference between an ultimate actual outcome and the preceding forward-looking statements.

A number of important factors could cause our actual results to differ materially from those indicated in these forward-looking statements, including those factors discussed elsewhere in the 2024 Form 10-K, elsewhere in this report, and the following:

- general economic and business conditions nationally and in our local markets, including conditions affecting employment levels, interest rates, inflation, slowdowns in economic growth and the threat of recession, volatile equity capital markets, supply chain issues, property and casualty insurance costs, collateral values, customer income, creditworthiness and confidence, spending and savings that may affect customer bankruptcies, defaults, charge-offs and deposit activity; and the impact of the foregoing on customer and client behavior (including the velocity and levels of deposit withdrawals and loan repayment);
- changes in the interest rate environment (including changes to the federal funds rate and the impact on the level and composition of deposits (as well as the cost of, and competition for, deposits), loan demand, liquidity and the values of loan collateral, securities and market fluctuations, and interest rate sensitive assets and liabilities), and competition in our markets may result in increased funding costs or reduced earning assets yields, thus reducing our margins and net interest income;

- uncertainties surrounding geopolitical events, trade policy, taxation policy, and monetary policy which continue to impact the outlook for future economic growth, including U.S. imposition of tariffs and consideration of responsive actions by the impacted nations and/or the expansion of import fees and tariffs among a larger group of nations, which is bringing greater ambiguity to the outlook for future economic growth;
- adverse developments in the banking industry and the impact of such developments on customer confidence, liquidity and regulatory responses to these developments (including increases in the cost of our deposit insurance assessments and increased regulatory scrutiny), our ability to effectively manage our liquidity risk and any growth plans and the availability of capital and funding;
- our ability to comply with applicable capital and liquidity requirements, including our ability to generate liquidity internally or raise capital on favorable terms, including continued access to the debt and equity capital markets;
- the risk that a future economic downturn and contraction could have a material adverse effect on our capital, financial condition, credit quality, results of operations and future growth, including the risk that the strength of the current economic environment could be weakened by the continued impact of elevated or rising interest rates and inflation;
- factors that can impact the performance of our loan portfolio, including real estate values and liquidity in our primary market areas, the financial health of our borrowers and the success of various projects that we finance;
- changes in the prices, values and sales volumes of commercial and residential real estate, especially as they relate to the value of collateral supporting the Company's loans;
- weakness in the real estate market, including the secondary residential mortgage market, which can affect, among other things, the value of collateral securing mortgage loans, mortgage loan originations and delinquencies, profits on sales of mortgage loans, and the value of mortgage servicing rights;
- credit and lending risks associated with our loan portfolios;
- negative impact on our mortgage banking services, including declines in our mortgage originations or profitability due to prolonged elevated or rising interest rates and increased competition and regulation, the Bank's or third party's failure to satisfy mortgage servicing obligations, loan modifications, the effects of judicial or regulatory requirements or guidance, and the possibility of the Bank being required to repurchase mortgage loans or indemnify buyers;
- the impact of prolonged elevated interest rates on our financial projections, models and guidance;
- our ability to attract sufficient loans that meet prudent credit standards;
- our ability to attract and maintain business banking relationships with well-qualified businesses, real estate developers and investors with proven track records in our market areas;
- our ability to successfully manage our credit risk and the sufficiency of our allowance for credit losses ("ACL");
- the adequacy of our reserves (including ACL) and the appropriateness of our methodology for calculating such reserves;
- our ability to successfully execute our business strategy to achieve profitable growth;
- the concentration of our business within our geographic areas of operation;
- our ability to manage our growth;
- our ability to increase our operating efficiency;
- significant turbulence or a disruption in the capital or financial markets and the effect of a fall in stock market prices on our investment securities;
- risks that our cost of funding could increase, in the event we are unable to continue to attract stable, low-cost deposits and reduce our cost of deposits;
- inability of our risk management framework (including internal controls) to effectively mitigate credit risk, interest rate risk, liquidity risk, price risk, compliance risk, operational risk (including by virtue of our relationships with third-party business partners, as well as our relationships with third-party vendors and other service providers), strategic risk, reputational risk and other risks inherent to the business of banking;
- our ability to maintain expenses in line with current projections;
- the makeup of our asset mix and investments;

- external economic, political and/or market factors, such as changes in monetary and fiscal policies and laws, and also including the interest rate policies of the Federal Reserve, inflation or deflation, changes in the demand for loans, and fluctuations in consumer spending, borrowing and savings habits, which may have an adverse impact on our financial condition;
- the institution and outcome of litigation and other legal proceeding against us or to which we may become subject to and the potential effect of our reputation;
- the impact of recent and future legislative and regulatory changes;
- the potential implementation of a regulatory reform agenda under the current presidential administration that is significantly different than that of the prior administration, impacting rulemaking, supervision, examination and enforcement priorities of the federal banking agencies;
- examinations by our regulatory authorities;
- continued or increasing competition from other financial institutions, credit unions, and non-bank financial services companies (including fintech companies), many of which are subject to different regulations than we are;
- challenges arising from unsuccessful attempts to expand into new geographic markets, products, or services;
- restraints on the ability of Northpointe Bank (the "Bank") to pay dividends to us, which could limit our liquidity;
- increased capital requirements imposed by banking regulators, which may require us to raise capital at a time when capital is not available on favorable terms or at all;
- inaccuracies in our assumptions about future events, which could result in material differences between our financial projections and actual financial performance;
- changes in our management personnel or our inability to retain motivate and hire qualified management personnel;
- the dependence of our operating model on our ability to attract and retain experienced and talented bankers in each of our markets, which may be impacted as a result of labor shortages;
- our ability to identify and address cyber-security risks, fraud and systems errors, including the impact on our reputation and the costs and effects required to address such risks, fraud and systems errors;
- disruptions, security breaches, or other adverse events, failures or interruptions in, or attacks on, our information technology systems, which may be exacerbated by the development of generative artificial intelligence, and the cost of defending against them and any reputational or other financial risks following such a cybersecurity incident;
- our business relationships with, and reliance upon, third parties that have strategic partnerships with us or that provide key components of our business infrastructure, including the costs of services and products provided to us by third parties, and disruptions in service, security breaches, financial difficulties with or other adverse events affecting a third-party vendor or business relationship;
- an inability to keep pace with the rate of technological advances due to a lack of resources to invest in new technologies;
- fraudulent and negligent acts by our clients, employees or vendors and our ability to identify and address such acts;
- risks related to potential acquisitions;
- the impact of any claims or legal actions to which we may be subject, including any effect on our reputation;
- compliance with governmental and regulatory requirements, including the Dodd-Frank Act and others relating to banking, consumer protection, securities and tax matters, and our ability to maintain licenses required in connection with commercial mortgage origination, sale and servicing operations;
- changes in the scope and cost of Federal Deposit Insurance Corporation ("FDIC") insurance and other coverage;
- changes in our accounting standards;
- changes in tariffs and trade barriers;
- changes in federal tax law or policy;
- the effects of war or other conflicts, civil unrest, acts of terrorism, acts of God, natural disasters, health emergencies, epidemics or pandemics, climate changes, or other catastrophic events that may affect general economic conditions or

cause other disruptions and/or increase costs, including, but not limited to, property and casualty and other insurance cost;

- risks related to diversity, equity and inclusion (“DEI”) and environmental, social and governance ("ESG") strategies and initiatives, the scope and pace of which could alter the Company’s reputation and stockholder, associate, customer and third-party affiliations or result in litigation in connection with anti-DEI and anti-ESG laws, rules or activism;
- a deterioration of the credit rating for U.S. long-term sovereign debt, actions that the U.S. government may take to avoid exceeding the debt ceiling, and uncertainties surrounding the debt ceiling and the federal budget; and
- other factors and risks described under “Risk Factors” and “Management’s Discussion and Analysis of Financial Condition and Results of Operations” herein and in any of the Company’s subsequent reports filed with the SEC and available on its website at www.sec.gov.

The foregoing factors should not be construed as exhaustive and should be read together with the other cautionary statements included in Item 1A of the 2024 Form 10-K and in any of Northpointe’s subsequent SEC filings. Because of these risks and other uncertainties, our actual future results, performance or achievement, or industry results, may be materially different from the results indicated by the forward looking statements. In addition, our past results of operations are not necessarily indicative of our future results. You should not rely on any forward looking statements, which represent our beliefs, assumptions and estimates only as of the dates on which they were made, as predictions of future events. Any forward-looking statement speaks only as of the date on which it is made, and we do not undertake any obligation to update or review any forward-looking statement, whether as a result of new information, future developments or otherwise.

Northpointe Bancshares, Inc.

Notes to Consolidated Financial Statements (unaudited)

Note 1 — Summary of Significant Accounting Policies

Basis of Presentation and Consolidation

The consolidated financial statements include the accounts of Northpointe Bancshares, Inc. and its wholly owned subsidiary, Northpointe Bank. All significant intercompany balances and transactions have been eliminated in consolidation. The accompanying Unaudited Consolidated Financial Statements as of June 30, 2025 and for the three and six months ended June 30, 2025 and 2024 have been prepared in accordance with GAAP for interim financial information and Article 10 of Regulation S-X and, therefore, do not include all of the information and footnotes required by GAAP for complete financial statements. Accordingly, these statements should be read in conjunction with the Company's audited Consolidated Financial Statements included in the Company's Annual Report on Form 10-K for the year ended December 31, 2024. The accounts of the Company and its consolidated subsidiary are included in the Consolidated Financial Statements. The information furnished in these interim statements reflects all adjustments that are, in the opinion of management, necessary for a fair statement of the results for each respective period presented. Such adjustments are of a normal, recurring nature. The results of operations in the interim statements are not necessarily indicative of the results that may be expected for any other quarter or for the full year.

Significant Group Concentrations of Credit Risk

The Company’s only banking branch is located in Michigan, but the Company markets its banking products to deposit customers located throughout the United States. The Company is also active nationwide in mortgage lending through a network of mortgage bankers and other financial institutions. Note 3 discusses the types of lending in which the Company engages. The Company’s primary concentration is in real estate lending, including the origination and sale of 1 – 4 family real estate mortgages to the secondary market to Government Sponsored Entities (“GSEs”).

Change in Presentation due to Stock Split

On December 19, 2024, the stockholders approved a 10-for-1 stock split whereby each holder of common stock received nine additional shares of common stock for each share owned as of the record date of December 19, 2024. Such shares were distributed on December 30, 2024. All share and per share amounts set forth in the consolidated financial statements of the Company have been retroactively restated to reflect the stock split as if it had occurred as of the earliest period presented.

Use of Estimates

In preparing the consolidated financial statements in conformity with accounting principles generally accepted in the United States of America, management is required to make estimates and assumptions that affect the reported amounts of assets and liabilities as of the date of the consolidated balance sheets and reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates. Material estimates that are particularly susceptible to significant change in the near term relate to the determination of the allowance for credit losses, mortgage servicing rights, and the lender risk account.

Repurchase Reserve

The Company sells residential mortgage loans to investors in the normal course of business. Residential mortgage loans sold to investors are predominantly conventional residential first lien mortgages originated under our usual underwriting procedures and are sold on a nonrecourse basis. The Company’s agreements to sell residential mortgage loans usually require general representations and warranties on the underlying loans sold, related to credit information, loan documentation, collateral, and insurability, which if subsequently untrue or breached, could require the Company to indemnify or repurchase certain loans affected. The balance in the repurchase reserve at the balance sheet date reflects the estimated amount of potential loss the Company could incur from repurchasing a loan, as well as loss reimbursements, indemnification, and other “make whole” settlement resolutions. The Company’s repurchase reserve was approximately $2.4 million and $2.6 million as of June 30, 2025 and December 31, 2024, respectively, and is included in other liabilities on the consolidated balance sheet.

Initial Public Offering

On February 13, 2025, the Company completed an initial public offering of its common stock, resulting in the issuance of 8,621,539 new shares of common stock and proceeds of 114.2 million, net of offering expenses.

Emerging Growth Company Status

The Company is an "emerging growth company" ("EGC") as defined in the Jumpstart Our Business Startups Act of 2012, or the JOBS Act. Section 107 of the JOBS Act provides that an EGC can take advantage of the extended transition period when complying with new or revised accounting standards. This allows an EGC to delay adoption of certain accounting standards until those standards apply to private companies; however, the EGC can still early adopt new or revised accounting standards. We have elected to take advantage of this extended transition period, which means these financial statements, as well as financial statements we file in the future will be subject to all new or revised accounting standards generally applicable to private companies, unless stated otherwise. This decision will remain in effect until the Company loses its EGC status.

Reclassifications

Some items in the prior year consolidated financial statements were reclassified to conform to the current presentation. These reclassifications had no impact on prior year net income or stockholders' equity.

Mortgage Purchase Program ("MPP")

Our Mortgage Purchase Program business (which we refer to as Mortgage Purchase Program, or "MPP"), provides independent mortgage bankers with an alternative to traditional mortgage warehouse lending. MPP utilizes a collateralized mortgage purchase facility with individual advances under the facility which are reviewed and approved by the Company and secured by our mortgage bankers' originated one-to-four family mortgage loans. These facilities enable the Company's MPP clients to close and fund their mortgages and during a relatively short period (typically less than 30 days), the originated loans are sold into the secondary market via government agencies (Fannie Mae, Freddie Mac or Ginnie Mae) or institutional investors (banks, large mortgage companies, insurance companies, mortgage REIT's) or are securitized.

The Company, from time to time, also participates out portions of the individual advances ("the participating interest") through participation agreements with other financial institutions. Cash flows associated with the individual advances are shared on a pro-rata basis with the participating banks.

The Company charges the mortgage banker an administrative fee per individual mortgage loan and earns interest while the loan is owned by the Company. Fee income is included in MPP fees on the Consolidated Statements of Income. There were no delinquent loans and or credit losses in the Company's MPP business during the three and six months ended June 30, 2025 or 2024.

Extended dwell sub-limits of purchase facilities, which have longer than expected standard turn times to be sold, may be issued to the mortgage bankers to facilitate loans that may not be delivered to the secondary market within the terms of the original advance. At June 30, 2025 and December 31, 2024, the Bank had outstanding balances on these facilities of $22.5 million and $31.4 million, respectively.

Participations of the individual advances referenced above are accounted for as sales, when control over the assets has been surrendered. Control over transferred assets is deemed to be surrendered when (1) the assets have been isolated from the Company, (2) the transferee obtains the right (free of conditions that constrain it from taking advantage of the right) to pledge or exchange the transferred assets, and (3) the Company does not maintain effective control over the transferred assets through an agreement to repurchase them before their maturity.

Lender Risk Account

A Lender Risk Account ("LRA") has been established for loans sold by the Company to the Federal Home Loan Bank of Indianapolis ("FHLB"). The LRA is funded through a reduction of the purchase price and maintained by the FHLB at an initial amount of 1.20% of the loan balance and is used to offset credit losses over the life of the loans sold by the Company to the FHLB. If the LRA has not been depleted by losses, funds are returned to the Company over time, beginning after five years and continuing through 25 years. As of June 30, 2025 and December 31, 2024, the Company had on deposit with the FHLB $54.8 million and $54.7 million, respectively, in these LRAs. Additionally, as of June 30, 2025 and December 31, 2024, the Company estimated the guaranty account, which is recorded in other liabilities in the Company's Consolidated Balance Sheets, to be $4.3 million and $3.9 million, respectively. The Company carries the LRA asset at fair value in the Company's Consolidated Balance Sheets in other assets with changes in the fair value included in the consolidated statements of income with net gain on sale of loans. The fair value of the LRA was $28.8 million and $28.4 million at June 30, 2025 and December 31, 2024,

respectively. See Note 17 for a description of the methods and assumptions used to determine fair value at June 30, 2025 and December 31, 2024.

Loans

In addition to the MPP program noted within this section, the Company also originates residential mortgages, including a specialized first mortgage revolving equity line of credit linked by one account to a demand deposit bank account of the borrower (which we refer to as All-in-One, or "AIO" loans). Excluding AIO loans, virtually all the Company's residential mortgages are saleable through an end investor. The ability of the Company's debtors to honor their contracts is dependent upon the real estate and general economic conditions in the markets where the Company has originated loans.

Loans that management has the intent and ability to hold for the foreseeable future or until maturity or pay-off and where the fair value option has not been elected are reported at their outstanding unpaid principal balances adjusted for charge-offs, the allowance for credit losses, and any deferred fees or costs on originated loans. Interest income is accrued on the unpaid principal balance. Loan origination fees, net of certain direct origination costs, are deferred and recognized as an adjustment of the related loan yield using the interest method.

Accrued interest receivable for loans is included in other assets on the Company's consolidated balance sheet. The Company elected not to measure an allowance for accrued interest receivable and instead elected to reverse accrued interest income on loans that are placed on nonaccrual status. Accrued interest on loans totaled $23.7 million and $20.8 million as of June 30, 2025 and December 31, 2024, respectively, and is included in other assets in the Consolidated Balance Sheets.

The accrual of interest on loans is discontinued at the time the loan is delinquent (120 days for mortgages and 90 days for commercial) unless the credit is well secured and in process of collection. In all cases, loans are placed on nonaccrual or charged off at an earlier date if collection of principal or interest is considered doubtful.

All interest accrued but not collected for loans that are placed on nonaccrual or charged off is reversed against interest income. The interest on these loans is accounted for on the cash basis or cost-recovery method, until qualifying for return to accrual. Loans are returned to accrual status when all the principal and interest amounts contractually due are brought current and future payments are reasonably assured.

Allowance for Credit Losses ("Allowance" or "ACL")

Management estimates the allowance by using relevant available information from internal and external sources related to historical loss experience, current borrower risk characteristics, current economic conditions, reasonable and supportable forecasts, and other relevant factors. The allowance is measured on a collective or pool basis when similar risk characteristics exist or on an individual basis when loans have unique risk characteristics which differentiate them from other loans within the loan segment. The process for estimating credit losses incorporates methodologies and procedures specific to the residential and commercial loan portfolios, each of which has unique risk characteristics. Each of these portfolios is further disaggregated into loan segments, which are discussed in more detail below.

A loss given default methodology is utilized to estimate losses on the residential loan portfolio, which makes up substantially all held-for-investment loans. This methodology is used to project a default rate, prepayment rate, and severity factor for each loan in the portfolio to arrive at the lifetime credit loss for the construction, land development, home equity, and closed end first and second lien loans. The accumulated expected credit losses are impacted by changes in borrower delinquencies, changes in loan to values, and changes in FICO scores. Lifetime credit losses are also adjusted by reasonable and supportable economic forecasts. As of June 30, 2025 and December 31, 2024, the Moody's Baseline June 2025 and December 2024 U.S. Macroeconomic Outlook, respectively, were utilized.

For the majority of the commercial loan portfolio, a discounted cash flow methodology adjusted for peer group benchmarks on probability of default, prepayment speeds, and curtailment rate is used. For MPP, as the Company has not experienced any losses, the accumulated expected credit losses are currently derived based on qualitative factors described below. Within these portfolios, management utilizes an internal loan grading system and assigns each loan a grade of pass, special mention, substandard, or doubtful, which are more fully explained in Note 3. The amount of credit losses, if any, is measured by a comparison of the loan's carrying value to the net present value of future cash flows using the loan's existing rate or at the fair value of collateral if repayment is expected to solely from the collateral.

Loans that do not share risk characteristics are evaluated on an individual basis and are not included in the collective evaluation. Factors considered by management in determining credit losses include payment status, collateral value, and the probability of collecting scheduled principal and interest payments when due. Loans that experience insignificant payment delays and payment shortfalls generally are not classified as individually evaluated. Management determines the significance of payment delays and payment shortfalls on a case-by-case basis, taking into consideration all of the circumstances surrounding the loan and the borrower, including length of the delay, the reasons for the delay, the borrower's prior payment record, and the amount of the shortfall in relation to the principal and interest owed. Credit losses are individually analyzed by either the present value of expected future cash flows discounted at the loan's effective interest rate, the loan's obtainable market price, or the fair value of the collateral if the loan is collateral dependent.

Qualitative Factors

Each quarter, management also considers the need to adjust historical loss rates as determined to reflect the extent to which current conditions and reasonable and supportable economic forecasts are expected to differ or where specific risks and uncertainties are not fully captured by the quantitative model. These qualitative adjustments may increase or decrease the estimate of expected future credit losses. The qualitative factors include economic forecast uncertainty, underwriting and collection trends, changes in nature and volume of portfolio, changes in the volume and severity of past due loans, collateral trends, concentration risk, quality of loan review, changes in personnel, external factors, and other considerations.

Residential Loan Segments

Construction and land development: Construction and land development loans consist of loans to individuals for the construction of their primary residences. Loans to individuals for the construction of their residences typically run for up to 12 or 18 months and then convert to permanent loans. These construction loans have rates and terms comparable to one-to-four family loans. During the construction phase, the borrower pays interest only. The maximum loan-to-value ratio of owner-occupied single-family construction loans is 80%. Residential construction loans are generally underwritten pursuant to the same guidelines used for originating permanent residential loans.

Construction loans generally are made for relatively short terms. However, to the extent construction loans are not made to owner-occupants of single-family homes, they are more vulnerable to changes in economic conditions and the concentration of credit with a limited number of borrowers. Further, the nature of these loans is such that they are more difficult to evaluate and monitor. The risk of loss on a construction loan is dependent largely upon the accuracy of the initial estimate of the property's value upon timely completion of the project and the estimated cost (including interest) of the project.

Note 1 — Summary of Significant Accounting Policies (continued)

Home equity lines of credit: Home equity lines of credit mainly consist of variable-rate home equity lines of credit secured by a lien on the borrower's primary residence. These include first-lien home equity lines which are tied seamlessly to a demand deposit sweep account, which are limited to 80% of the property value. Home equity products are limited to 90% of the property value less any other mortgages if the first loan is with the Bank. Home equity products in a secondary lien position are limited to 85% of the property value less any superior liens. The Company uses the same underwriting standards for home equity lines of credit as it uses for one-to-four family residential mortgage loans. Home equity lines of credit provide for an initial draw period of up to ten years. Home equity loans are susceptible to weakening general economic conditions and increase in unemployment rates and declining real estate values.

Closed end, first and second liens: Closed end, first and second liens consist of one-to-four family residential loans which are primarily loans secured by first or second liens or mortgages on primary residences. The Company originates adjustable-rate and fixed-rate, one-to-four-family residential real estate loans for the construction, purchase or refinancing of a mortgage. These loans are collateralized by owner-occupied properties. Loans on one-to-four-family residential real estate are generally originated in amounts of up to 90% for owner-occupied one-to-four family homes and up to 85% for non-owner occupied homes. Mortgage title insurance and hazard insurance are normally required. Such loans are susceptible to weakening general economic conditions and increases in unemployment rates and declining real estate values.

Commercial Loan Segments

Commercial: Commercial business loans and lines of credit consist of loans to small- and medium- sized companies in the Company's market area. Commercial business loans are generally used for working capital purposes. Risk to this category include declining valuation of collateral and weakening general economic conditions.

MPP: Individual advances under the facility are reviewed and approved by the Company and are secured by specific one-to-four family mortgage loans, which the mortgage banker intends to sell and deliver to the secondary market within 60 days. The MPP business is susceptible to weakening general economic conditions and increases in unemployment rates and declining real estate values.

Unfunded Loan Commitments

The Company is also required to consider expected credit losses associated with loan commitments over the contractual period in which it is exposed to credit risk on the underlying commitments unless the obligation is unconditionally cancellable by the Company. Any allowance for off balance sheet credit exposure is reported in other liabilities on the Company's consolidated balance sheets and is increased or decreased by provision for credit losses on the Company's consolidated statement of income. The calculation uses the same methodology, inputs, and assumptions as the funded portion of the loans at the segment level applied to the amount of commitments expected to be funded.

Off-balance-sheet Instruments

In the ordinary course of business, the Company may enter into commitments under commercial letters of credit and standby letters of credit. Such financial instruments are recorded when they are funded. There were no letter of credit commitments as of June 30, 2025 or December 31, 2024.

Other Real Estate Owned

Assets acquired through, or in lieu of, loan foreclosure are held for sale and are initially recorded at fair value (less costs to sell) at the date of the foreclosure, establishing a new cost basis. Subsequent to foreclosure, valuations are periodically performed by management and the assets are carried at the lower of carrying amount or fair value less costs to sell. Related revenue, expenses, and changes in the valuation allowance are included in other expenses. Total other real estate owned included in other assets at June 30, 2025 and December 31, 2024 were approximately $203,000 and $3.0 million, respectively. The Company had real estate in the process of foreclosure totaling $6.8 million as of June 30, 2025 and $2.2 million as of December 31, 2024.

Leases

ASU 2016-02, Leases establishes a right-of-use ("ROU") model that requires a lessee to record a ROU asset and a lease liability on the balance sheet for all leases with terms longer than 12 months. Leases are classified as either finance or operating,

with classification affecting the pattern of expense recognition in the income statement. Right of use assets and lease liabilities are recognized at lease commencement date based upon the estimated present value of lease payments over the lease term.

The ROU assets and lease liabilities were both $1.2 million at June 30, 2025 and were both $1.5 million at December 31, 2024. ROU assets are included in other assets and ROU lease liabilities are include in other liabilities in the Company's Consolidated Balance Sheets.

New Accounting Pronouncements

In December 2023, the FASB issued ASU 2023-09, "Income Taxes: Improvement to Income Tax Disclosures (Topic 740)." This ASU requires entities to disclose specific categories in the rate reconciliations and provide additional information for reconciling items that meet a quantitative threshold. The ASU requires all entities to disclose the amount of income taxes paid, disaggregated by federal state and foreign taxes, the amount of income taxes paid disaggregated by individual jurisdictions in which income taxes paid is equal or greater than 5% of total income taxes paid. The ASU also requires that entities disclose income (loss) from continuing operations before income tax expense (or benefit) disaggregated between domestic or foreign and income tax expense (or benefit) from continuing operations disaggregated by federal, state, and foreign. This ASU is effective for annual periods beginning after December 15, 2024. The adoption of this ASU did not have a material impact on the Consolidated Financial Statements or related income tax footnotes.

In November 2024, the FASB issued ASU 2024-03, Income Statement—Reporting Comprehensive Income—Expense Disaggregation Disclosures (Subtopic 220-40): Disaggregation of Income Statement Expenses. The amendments in this ASU require disclosure, in the notes to financial statements, of specified information about certain costs and expenses, including (a) purchases of inventory, (b) employee compensation, (c) depreciation, (d) intangible asset amortization, and (e) depreciation, depletion, and amortization recognized as part of oil-and gas-producing activities (DD&A) (or other amounts of depletion expense) included in each relevant expense caption. The ASU is effective for public business entities for annual periods beginning after December 15, 2026, and interim periods beginning after December 15, 2027. Early adoption is allowed. The ASU can be applied prospectively. The Company is currently assessing the impact of the update and its operations, financial position, and disclosures.

Subsequent Events

The consolidated financial statements and related disclosures include evaluation of events through the date the consolidated financial statements were available to be issued.

Note 2 — Debt Securities

The amortized costs, fair values, and unrealized gains and losses of debt securities available for sale were as follows as of the dates indicated (dollars in thousands):

June 30, 2025	Amortized Cost	Gross Unrealized Gains	Gross Unrealized Losses	Fair Value
Debt securities available for sale				
Subordinated corporate bonds	$ 9,000	$ —	$ (215)	$ 8,785
Total	$ 9,000	$ —	$ (215)	$ 8,785

December 31, 2024	Amortized Cost	Gross Unrealized Gains	Gross Unrealized Losses	Fair Value
Debt securities available for sale				
Subordinated corporate bonds	$ 9,000	$ —	$ (424)	$ 8,576
Total	$ 9,000	$ —	$ (424)	$ 8,576

As of June 30, 2025 and December 31, 2024, there was no allowance for credit losses on debt securities available for sale.

There were no sales of debt securities available for sale in the three and six months ended June 30, 2025. Proceeds from the sale of debt securities available for sale were $5.8 million in the three months ended June 30, 2024, resulting in no net gain. Proceeds from the sale of debt securities available for sale were $10.9 million in the six months ended June 30, 2024, resulting in a net gain of $83,000. On July 24, 2025, the Company sold $4.0 million of debt securities available for sale at par, recognizing no gain or loss on the sale.

The following tables show investments with gross unrealized losses and their market value aggregated by investment category and length of time that individual securities have been in a continuous unrealized loss position at the dates indicated (dollars in thousands):

	Less Than 12 Months		12 Months or More		Total	
June 30, 2025	Fair Value	Unrealized Loss	Fair Value	Unrealized Loss	Fair Value	Unrealized Loss
Debt securities available for sale						
Subordinated corporate bonds	$ —	$ —	$ 8,785	$ (215)	$ 8,785	$ (215)
Total	$ —	$ —	$ 8,785	$ (215)	$ 8,785	$ (215)

	Less Than 12 Months		12 Months or More		Total	
December 31, 2024	Fair Value	Unrealized Loss	Fair Value	Unrealized Loss	Fair Value	Unrealized Loss
Debt securities available for sale						
Subordinated corporate bonds	$ —	$ —	$ 8,576	$ (424)	$ 8,576	$ (424)
Total	$ —	$ —	$ 8,576	$ (424)	$ 8,576	$ (424)

Debt securities, at par value, have the following contractual maturities as of June 30, 2025 (dollars in thousands):

June 30, 2025	Within 1 Year	1 - 5 Years	5 - 10 Years	Greater than 10 years	Total
Debt securities available for sale					
Subordinated corporate bonds	$ —	$ —	$ 9,000	$ —	$ 9,000
Total	$ —	$ —	$ 9,000	$ —	$ 9,000

Note 3 — Loans and Allowance for Credit Losses

The following table shows a summary of the balances of loans as of the dates indicated (dollars in thousands):

	June 30, 2025	December 31, 2024
Residential	$ 2,596,123	$ 2,699,890
Commercial	856	8,013
MPP	2,891,668	1,710,820
Total loans	5,488,647	4,418,723
Less:		
Allowance for credit losses	12,375	11,190
Net deferred loan (cost)/fees	(8,159)	(9,031)
Net loans	$ 5,484,431	$ 4,416,564

The residential mortgage loan portfolio includes $175.1 million and $173.0 million of loans measured at fair value on June 30, 2025 and December 31, 2024, respectively.

Activity in the allowance for credit losses for the three months ended June 30, 2025 is summarized as follows (dollars in thousands):

	Three Months Ended June 30, 2025				
	Residential	Commercial	MPP	Unallocated	Total
Beginning balance	$ 11,321	$ 4	$ 987	$ 3	$ 12,315
Charge-offs	(495)	—	—	—	(495)
Recoveries	4	3	—	—	7
Provision (benefit)	383	(4)	170	(1)	548
Ending balance	$ 11,213	$ 3	$ 1,157	$ 2	$ 12,375

Activity in the allowance for loan losses for the three months ended June 30, 2024 is summarized as follows (dollars in thousands):

	Three Months Ended June 30, 2024				
	Residential	Commercial	MPP	Unallocated	Total
Beginning balance	$ 12,088	$ 8	$ 534	$ 5	$ 12,635
Charge-offs	(755)	—	—	—	(755)
Recoveries	8	5	—	—	13
Provision (benefit)	316	(8)	92	(3)	397
Ending balance	$ 11,657	$ 5	$ 626	$ 2	$ 12,290

Note 3 — Loans and Allowance for Credit Losses (continued)

Activity in the allowance for credit losses for the six months ended June 30, 2025 is summarized as follows (dollars in thousands):

	Six Months Ended June 30, 2025				
	Residential	Commercial	MPP	Unallocated	Total
Beginning balance	$ 10,468	$ 32	$ 684	$ 6	$ 11,190
Charge-offs	(806)	—	—	—	(806)
Recoveries	52	7	—	—	59

Ending balance	$ 330	$ 806	$ 330	$ 806

Note 3 — Loans and Allowance for Credit Losses (continued)

Nonaccrual Loans

The following table presents the amortized cost basis of loans on nonaccrual status and loans past due over 90 days still accruing in the held for investment portfolio, excluding those loans carried at fair value, as of June 30, 2025 (dollars in thousands):

	June 30, 2025				
	Nonaccrual with No Allowance	Nonaccrual with Allowance	Total Nonaccrual	Over 90 days Accruing	Total
Residential:					
Construction and land development	$ 3,640	$ 2,776	$ 6,416	$ 354	$ 6,770
Home equity lines of credit	12,986	967	13,953	351	14,304
Closed end, first liens	35,080	12,983	48,063	2,844	50,907
Closed end, second liens	1,058	1,061	2,119	752	2,871
Commercial	162	—	162	—	162
Total	$ 52,926	$ 17,787	$ 70,713	$ 4,301	$ 75,014

The following table presents the amortized cost basis of loans on nonaccrual status and loans past due over 90 days still accruing in the held for investment portfolio, excluding those loans carried at fair value, as of December 31, 2024 (dollars in thousands):

	December 31, 2024				
	Nonaccrual with No Allowance	Nonaccrual with Allowance	Total Nonaccrual	Over 90 days Accruing	Total
Residential:					
Construction and land development	$ 2,583	$ 1,650	$ 4,233	$ —	$ 4,233
Home equity lines of credit	8,420	2,387	10,807	200	11,007
Closed end, first liens	36,192	11,514	47,706	4,020	51,726
Closed end, second liens	287	1,247	1,534	31	1,565
Total	$ 47,482	$ 16,798	$ 64,280	$ 4,251	$ 68,531

The Bank has not recognized any material interest income on nonaccrual loans during the three and six months ended June 30, 2025 or 2024.

Note 3 — Loans and Allowance for Credit Losses (continued)

Collateral dependent loans are loans for which the repayment is expected to be provided substantially through the sale of the collateral and the borrower is experiencing financial difficulty. The allowance is calculated on an individual loan basis of the shortfall between the fair value of the loan's collateral, which is adjusted for selling costs, and the loan's amortized cost. If the fair value of the collateral exceeds the loan's amortized cost, no allowance is necessary.

The amortized cost of collateral dependent loans by class as of June 30, 2025 and December 31, 2024 was as follows (dollars in thousands):

	June 30, 2025		
	Collateral Type		
	Real Estate	Other	Allowance Allocated
Residential:			
Construction and land development	$ 4,944	$ —	$ 25
Home equity lines of credit	13,079	—	18
Closed end, first liens	48,632	—	109
Closed end, second liens	1,291	—	79
Commercial	162	$ —	—
Total	$ 68,108	$ —	$ 231

	December 31, 2024		
	Collateral Type		
	Real Estate	Other	Allowance Allocated
Residential:			
Construction and land development	$ 3,066	$ —	$ 4
Home equity lines of credit	9,748	—	40
Closed end, first liens	45,340	—	341
Closed end, second liens	469	—	114
Commercial	118	$ —	—
Total	$ 58,741	$ —	$ 499

Age Analysis of Loans

The following tables detail the age analysis of loans, excluding those loans carried at fair value, at June 30, 2025 and December 31, 2024 (dollars in thousands):

	June 30, 2025					
	30 - 59 Days Past Due	60 - 89 Days Past Due	Greater than 90 Days	Total Past Due	Current	Total Loans
Residential:						
Construction and land development	$ 5,088	$ 3,279	$ 4,801	$ 13,168	$ 159,259	$ 172,427
Home equity lines of credit	7,832	1,437	10,436	19,705	699,590	719,295
Closed end, first liens	22,107	7,700	34,132	63,939	1,395,347	1,459,286
Closed end, second liens	2,486	136	2,042	4,664	73,540	78,204
Commercial	—	67	162	229	627	856
MPP	—	—	—	—	2,891,668	2,891,668
Total	$ 37,513	$ 12,619	$ 51,573	$ 101,705	$ 5,220,031	$ 5,321,736

Note 3 — Loans and Allowance for Credit Losses (continued)

	December 31, 2024					
	30 - 59 Days Past Due	60 - 89 Days Past Due	Greater than 90 Days	Total Past Due	Current	Total Loans
Residential:						
Construction and land development	$ 3,321	$ 847	$ 2,935	$ 7,103	$ 209,853	$ 216,956
Home equity lines of credit	4,161	1,826	8,639	14,626	696,541	711,167
Closed end, first liens	26,555	6,412	33,766	66,733	1,459,810	1,526,543

MPP	—	—	—	—	1,710,820	1,710,820
Total	$ 34,832	$ 9,752	$ 45,893	$ 90,477	$ 4,164,318	$ 4,254,795

Modifications to Borrowers Experiencing Financial Difficulty

On occasion, the Company modifies loans to borrowers in financial distress by providing principal forgiveness, term extensions, interest rate reductions, or payment delays. When principal forgiveness is provided, the amount of forgiveness is charged-off against the allowance for credit losses. In some cases, the Company provides multiple types of concessions on one loan.

During the three months ended June 30, 2025, there were 6 closed end, first lien loans, totaling $1.7 million that were both experiencing financial difficulty and modified during the period. These loans were a combination of term extensions and interest rate reductions and each were on nonaccrual status at time of modification. During the three months ended June 30, 2024, there were 2 closed end, first lien loans, totaling $212,000 that were both experiencing financial difficulty and modified. These loans were a combination of term extension and interest rate reduction. There were no material modifications to borrowers experiencing financial difficulty within the previous twelve months that became 30 days or more past due during the three months ended June 30, 2025 and 2024.

During the six months ended June 30, 2025, there were $4.2 million in loans that were both experiencing financial difficulty and modified during the period: 14 closed end, first liens, for $4.0 million and 1 home equity lines of credit for $249,000. These loans were a combination of term extensions and interest rate reductions and each were on nonaccrual status at time of modification. During the six months ended June 30, 2024, there were $2.4 million in loans that were both experiencing financial difficulty and modified during the period: 7 closed end, first lien loans for $2.4 million. These loans were a combination of term extension and interest rate reduction. There were no material modifications to borrowers experiencing financial difficulty within the previous twelve months that became 30 days or more past due during the six months ended June 30, 2025 and 2024.

Note 3 — Loans and Allowance for Credit Losses (continued)

Credit Quality Indicators

The Company categorized each loan into credit risk categories based on current financial information, overall debt service coverage, comparison against industry averages, collateral coverage, historical payment experience, and current economic trends. Residential real estate is evaluated for credit risk based on performing or non-performing classification. The Company uses the following definitions for credit risk ratings:

Performing

Residential real estate credits not covered by the non-performing definition below.

Non-performing

Residential real estate loans classified as non-performing are generally loans on nonaccrual status.

Pass

Commercial credits not covered by the definitions below are pass credits, which are not considered to be adversely rated.

Special Mention

Loans classified as special mention, or watch credits, have a potential weakness or weaknesses that deserves management's close attention. If left uncorrected, these potential weaknesses may result in deterioration of the repayment prospects for the loan or of the institution's credit position at some future date.

Substandard

Loans classified as substandard are inadequately protected by the current net worth and paying capacity of the obligor or of the collateral pledged, if any. Loans so classified have a well-defined weakness or weaknesses that jeopardize the liquidation of the debt. They are characterized by the distinct possibility that the institution may sustain some loss if the deficiencies are not corrected.

Note 3 — Loans and Allowance for Credit Losses (continued)

The following table reflects amortized cost basis of loans and year to date charge-offs (excluding those loans carried at fair value) as of June 30, 2025 based on year of origination (dollars in thousands):

	2025	2024	2023	2022	2021	Prior	Revolving Loans Amortized Cost Basis	Total
Construction and land development:

There were no revolving loans converted to term loans during 2024.

Note 4 — Bank Premises and Equipment, Net

The following table shows a summary of the cost and accumulated depreciation of premises and equipment as of the dates indicated (dollars in thousands):

	June 30, 2025	December 31, 2024
Land	$ 6,325	$ 6,325
Leasehold improvements	163	163
Buildings and building improvements	24,717	24,673
Furniture, fixtures, and equipment	10,547	10,414
Construction in progress	1,285	—
Total cost	43,037	41,575
Accumulated depreciation	(15,558)	(14,283)
Net	$ 27,479	$ 27,292

Depreciation expense for the three months ended June 30, 2025 and 2024 amounted to $613,000 and $716,000, respectively. Depreciation expense for the six months ended June 30, 2025 and 2024 amounted to $1.3 million and $1.5 million, respectively.

Future undiscounted lease payments for operating leases with initial terms of one year of more as of June 30, 2025 are as follows (dollars in thousands):

2025	$ 370
2026	466
2027	244
2028	63
2029	36
Total undiscounted lease payments	1,179
Less discount to net present value	(27)
Total operating lease liabilities	$ 1,152

The lease liability is included in other liabilities in the Company's Consolidated Balance Sheet.

The weighted average remaining discount rate was 3.59% and weighted average remaining life was 2.58 years at June 30, 2025.

The leases contain options to extend for periods from 3 to 4 years. The cost of such rentals is not included above. Total rent expense for the three months ended June 30, 2025 and 2024 amounted to $328,000 and $461,000, respectively. Total rent expense for the six months ended June 30, 2025 and 2024 amounted to $635,000 and $1.0 million, respectively.

The Company also leases portions of its deposit branch and its operations center to third parties. The amounts included in occupancy and equipment expense are net of rental income of $292,000 and $282,000 for the three months ended June 30, 2025 and 2024, respectively and $580,000 and $569,000 for the six months ended June 30, 2025 and 2024, respectively.

Future income from non-cancelable lease agreements in effect at June 30, 2025 is as follows (dollars in thousands):

2025	$ 623
2026	1,181
2027	1,106
2028	713
2029	360
Thereafter	339
Total	$ 4,322

Note 5 — Mortgage Servicing Rights

The right to service loans for others is recognized as a mortgage servicing right ("MSR") on the balance sheet. MSRs are recognized either when purchased or when originated loans are sold with servicing retained. The unpaid principal balances of loans serviced for others were approximately $1.5 billion and $1.3 billion at June 30, 2025 and December 31, 2024, respectively. In addition, approximately $2.4 billion and $3.0 billion at June 30, 2025 and December 31, 2024, respectively, of loans were sub-serviced on behalf of other unaffiliated investors.

The following summarizes the components of loan servicing fees which are reported in loan servicing fees in the Company's Consolidated Statements of Income as of the periods set forth in the table below (dollars in thousands):

	Three Months Ended June 30,		Six Months Ended June 30,	
	2025	2024	2025	2024
Contractual servicing fees	$ 1,817	$ 3,156	$ 3,499	$ 8,623
Late fees	10	139	27	321
Other fees	—	17	3	37
Change in fair value of MSRs	$ (302)	$ (915)	$ (1,009)	$ (2,722)
Total	$ 1,525	$ 2,397	$ 2,520	$ 6,259

At June 30, 2025 the fair value of mortgage servicing rights was determined using discount rates between 9.5% and 12.0%, average cost of servicing between $70 and $85 per file per year, and a prepayment speed of 9.8%. At December 31, 2024 the fair value of mortgage servicing rights was determined using discount rates between 10.0% and 12.0%, average cost of servicing between $70 and $85 per file per year, and a prepayment speed of 9.7%.

The following summarizes mortgage servicing rights capitalized and amortized as of the periods set forth in the table below (dollars in thousands):

	Three Months Ended June 30,		Six Months Ended June 30,	
	2025	2024	2025	2024
Balance – Beginning of period	$ 15,492	$ 94,016	$ 15,133	$ 95,339
Additions	902	1,608	1,968	2,093
Paid in full loans	(172)	(486)	(300)	(1,326)
Change in fair value	(130)	(428)	(709)	(1,396)
Proceeds from sale	—	(80,782)	—	(80,782)
Bulk purchases	296	—	296	—
Loss on sale	—	(1,058)	—	(1,058)
Balance – End of period	$ 16,388	$ 12,870	$ 16,388	$ 12,870

The following table summarizes the hypothetical effect on the fair value of servicing rights using adverse changes of 10.0% and 20.0% to the weighted-average of certain significant assumptions used in valuing these assets as of the dates indicated (dollars in thousands, except per loan):

	June 30, 2025			December 31, 2024		
	Actual	10% Adverse Change	20% Adverse Change	Actual	10% Adverse Change	20% Adverse Change
Discount rate change	10.1 %	$ 15,730	$ 15,121	10.6 %	$ 14,493	$ 13,904
Constant prepayment rate	9.8 %	15,803	15,260	9.7 %	14,606	14,117
Cost to service (per loan)	$ 75	16,168	15,949	$ 75	14,947	14,761

Note 6 — Derivative Financial Instruments

Forward contracts are contracts for delayed delivery of loans or mortgage-backed securities in which the seller agrees to make delivery at a future date of a specified instrument, at a specified price or yield. Risks arise from the possible inability of the Company to compile a portfolio of loans and from movements in interest rates. These contracts are used primarily to reduce the exposure to interest rate fluctuations for loans in progress and in loan inventory held for sale to investors. Most forward contracts are for terms of 30 days to 90 days. The Company had outstanding forward contracts of approximately $136.9 million and $110.6 million at June 30, 2025 and December 31, 2024, respectively. Forward commitments represent forward contracts, closed held for sale loans with a committed investor, and pair-off contracts.

Interest rate lock commitments, which are included in the commitments to extend credit in other assets and other liabilities in the consolidated balance sheets with the income offset recorded to gain on sale of loans, net in the consolidated statements of income, represent commitments to lend to customers at predetermined interest rates.

The following table presents the recorded gain/(loss) on derivative financial instruments at period end (dollars in thousands):

	June 30, 2025	December 31, 2024
Interest rate-lock commitments	$ 4,312	$ 2,047
Forward commitments	(1,176)	(1,201)

The following table provide details on the Company's derivative financial instruments at June 30, 2025 and December 31, 2024 (dollars in thousands):

	June 30, 2025		
	Notional Amount	Asset	Liability
Interest rate-lock commitments	$ 161,460	$ 4,312	$ —
Forward commitments	290,989	62	1,238
Total	$ 452,449	$ 4,374	$ 1,238

	December 31, 2024		
	Notional Amount	Asset	Liability
Interest rate-lock commitments	$ 90,500	$ 2,064	$ 17
Forward commitments	202,441	1,332	131
Total	$ 292,941	$ 3,396	$ 148

As of June 30, 2025 and December 31, 2024, the counterparty collateral asset balance was $42,000 and $0, respectively, and was included in other assets in the consolidated balance sheets. As of June 30, 2025 and December 31, 2024, the counterparty collateral liability balance was $30,000 and $43,000, respectively, and was included in other liabilities in the consolidated balance sheets.

Note 7 — Deposits

The following is a summary of the distribution of deposits at period end (dollars in thousands):

	June 30, 2025	December 31, 2024
Noninterest-bearing deposits	$ 201,449	$ 208,938
Interest-bearing demand deposits	749,479	690,340
Savings and money market accounts	327,244	334,308
Time:		
Under $250,000	3,042,984	2,047,754
$250,000 and over	152,915	141,215
Total	$ 4,474,071	$ 3,422,555

The Company recently completed an initiative to bring in approximately $250 million in new custodial deposits (categorized in interest-bearing demand deposits), which is expected to occur during the third quarter of 2025.

Brokered time deposits totaled $2.79 billion and $1.82 billion at June 30, 2025 and December 31, 2024, respectively.

At June 30, 2025, the scheduled maturities of time deposits are as follows (dollars in thousands):

2025	$ 2,952,848
2026	147,029
2027	22,567
2028	47,233
2029	25,818
Thereafter	404
Total	$ 3,195,899

Note 8 — Borrowings

The Bank has an advance agreement with the FHLB. At June 30, 2025, the Bank had 33 advances totaling $1.2 billion carrying a fixed interest rate ranging between 1.04% and 4.84% with scheduled maturities between 1 month and 8.7 years. The weighted average rate was 3.93% for the three months ended March 31, 2025. At December 31, 2024, the Bank had 34 advances totaling $1.3 billion carrying a fixed interest rate ranging between 1.04% and 4.84% with scheduled maturities between 4 months and 9.2 years. The weighted average rate was 3.83% at December 31, 2024.

The advances are collateralized by approximately $4.0 billion and $3.2 billion of mortgage loans and loans held for sale as of June 30, 2025 and December 31, 2024, respectively, under an agreement which calls for specific identification of pledged loans. Included in the above, advances totaling $10.0 million as of June 30, 2025 and December 31, 2024 are putable advances.

At June 30, 2025, the scheduled maturities of the advances are as follows (dollars in thousands):

2025	$ 172,500
2026	60,000
2027	325,000
2028	50,000
2029	227,500
Thereafter	400,000
Total	$ 1,235,000

In January 2025, the Bank executed an extinguishment of $102.5 million in FHLB advances, recognizing a $2.0 million gain on extinguishment as part of the Company's strategy to reduce its wholesale funding ratio.

Note 8 — Borrowings (continued)

The Bank also has a line of credit included under the collateral agreement mentioned above, allowing borrowing up to $100.0 million. The interest rate on the line of credit is a floating rate determined by the FHLB and the line of credit matures on May 12, 2026. The Bank had $39.9 million and $0 outstanding borrowings on the line of credit at June 30, 2025 and December 31, 2024, respectively. Also included in borrowings are overnight borrowing lines. These lines had no balances at either June 30, 2025 or December 31, 2024.

Note 9 — Subordinated Debentures

On September 28, 2018, the Bank issued $15.0 million of subordinated notes due October 1, 2028. The notes were redeemable on October 1, 2023. Interest payments were due April 1 and October 1 of each year at a fixed rate of 6.875% through October 1, 2023 and converted to a variable rate of the three-month LIBOR plus 3.765% with payments due quarterly January 1, April 1, July 1, and October 1 of each year. The notes included fall back language to determine an alternative index rate calculation if the three-month LIBOR rate index is unavailable. The alternative index rate was the three-month CME Term SOFR plus 4.03%. All notes in this issuance were redeemed and repaid in January 2025.

On August 22, 2024, the Company issued $25.0 million of subordinated notes due September 1, 2034. The notes become redeemable on September 1, 2029. Interest payments are due on March 1 and September 1 of each year at a fixed rate of 9.0% through September 1, 2029 and convert to a variable rate of three month SOFR plus 5.50% with payments due quarterly.

As of June 30, 2025, maturities of subordinated debt were as follows (dollars in thousands):

2034	$	25,000
Total		25,000
Less unamortized deferred costs		819
Total maturities, net unamortized deferred costs	$	24,181

Note 10 — Issuance of Preferred Stock

On December 30, 2021, the Company issued $25.0 million of 7.25% Fixed-to-Floating Rate Non-Cumulative Perpetual Preferred Stock, Series B ("Series B Preferred Stock"), no par value, with a liquidation preference of $1,000 per share. When, as, and if declared by the board of directors of the Company, dividends will be payable at an annual rate of 7.25%, payable quarterly, in arrears.

On December 29, 2020, the Company issued $95.0 million of 8.25% Fixed-to-Floating Rate Non- Cumulative Perpetual Preferred Stock, Series A, no par value, with a liquidation preference of $1,000 per share ("Series A Preferred Stock"). When, as, and if declared by the board of directors of the Company, dividends will be payable at an annual rate of 8.25%, payable quarterly, in arrears. The cash raised by the Company through these issuances of preferred stock was used as a source of capital for the Bank's organic growth, and general corporate matters. During 2024, the Company redeemed 13,000 shares of the Series A Preferred Stock for $11.6 million. On March 31, 2025, the Company redeemed an additional 5,000 shares of the Series A Preferred Stock for $4.9 million.

Preferred stock dividend expense for the three and six month periods ended June 30, 2025 include a non-recurring special dividend of $2.50 per share, paid on June 30, 2025 on the Company's Series A Preferred Stock and the Company's Series B Preferred Stock. This special dividend was paid in connection with amendments made to the Company's Series A Preferred Stock on May 16, 2025 and to the Series B Preferred Stock on May 21, 2025 to extend the registration rights agreements deadlines to January 2, 2026 for the Series A Preferred Stock and to January 2, 2027 for the Series B Preferred Stock.

Note 11 — Off-balance-sheet Activities

Credit-related Financial Instruments

The Company is a party to credit-related financial instruments with off-balance-sheet risk in the normal course of business to meet the financing needs of its customers. These financial instruments include commitments to extend credit, standby letters of credit, and commercial letters of credit. Such commitments involve, to varying degrees, elements of credit and interest rate risk in excess of the amount recognized in the consolidated balance sheet.

The Company's exposure to credit loss is represented by the contractual amount of these commitments. The Company follows the same credit policies in making commitments as it does for on-balance-sheet instruments.

At June 30, 2025 and December 31, 2024, the following financial instruments were outstanding whose contract amounts represent credit risk (dollars in thousands):

	Contract Amount	
	June 30, 2025	December 31, 2024
Commitments to grant loans	$ 3,657,280	$ 2,407,551
Unfunded commitments under lines of credit	363,644	334,180

Commitments to extend credit are agreements to lend to a customer as long as there is no violation of any condition established in the contract. Commitments generally have fixed expiration dates or other termination clauses and may require payment of a fee. The commitments for equity lines of credit may expire without being drawn upon. Therefore, the total commitment amounts do not necessarily represent future cash requirements. The amount of collateral obtained, if it is deemed necessary by the Company, is based on management's credit evaluation of the customer.

Unfunded commitments under lines of credit are commitments for possible future extensions of credit to existing customers. These lines of credit are collateralized and usually do not contain a specified maturity date and may not be drawn upon to the total extent to which the Company is committed.

The Company is required to consider expected credit losses associated with unfunded commitments. Any allowance for unfunded commitment credit exposure is reported in other liabilities on the consolidated balance sheets and is increased or decreased through the provision (benefit) for credit losses on the consolidated statement of income. The calculated allowance for unfunded commitments was $330,000 as of June 30, 2025 and $385,000 as of December 31, 2024.

Collateral Requirements

To reduce credit risk related to the use of credit-related financial instruments, the Company might deem it necessary to obtain collateral. The amount and nature of the collateral obtained are based on the Company's credit evaluation of the customer. Collateral held varies but may include cash, securities, accounts receivable, inventory, property, plant, and equipment, and real estate.

If the counterparty does not have the right and ability to redeem the collateral or the Company is permitted to sell or re-pledge the collateral on short notice, the Company records the collateral in its consolidated balance sheet at fair value with a corresponding obligation to return it.

Legal Contingencies

Various legal claims also arise from time to time in the normal course of business which, in the opinion of management, will have no material effect on the Company's consolidated financial statements.

Note 12 — Employee Benefits

The Company sponsors a 401(K) plan which contains an employee stock ownership plan ("ESOP") investment option. The 401(k) Plan is available to all employees, on the 1st of the month following 90 days of employment. Participants in the plan have the option to contribute from 0% to 100% of their annual compensation, up to the IRS allowable limits. FICA taxes must be paid based on total compensation. The Company matches 60% of participant contributions up to 7% of gross pay. The Company's matching contributions were $314,000 and $303,000 for the three months ended June 30, 2025 and 2024, respectively and were $686,000 and $350,000 for the six months ended June 30, 2025 and 2024, respectively. Participants are immediately 100% vested in salary and rollover contributions and any income or loss thereon. Vesting in the matching contributions is based on years of service. Participants vest in contributions made by the Company 20% after one year of service and another 20% per year per until they become fully vested after five years of service. If a participant is not fully vested on their termination date, the non-vested amount is forfeited. Forfeitures are used to reduce company contributions and/or to pay administrative expenses of the plan.

In connection with the Company's initial public stock offering, all ESOP shares were converted into registered shares of Northpointe Bancshares, Inc. and moved from the ESOP to the 401k plan. The ESOP held 951,600 shares of the Company's common stock at December 31, 2024. All shares have been allocated to participants. The fair value to repurchase the shares held at December 31, 2024 was approximately $13.7 million.

The Company has a self-insured medical insurance plan covering all of its eligible employees. The Company's individual excess risk benefit level per employee was $185,000 (with no aggregate exposure limitation) at June 30, 2025. Losses in excess of the limitation are covered by reinsurance. Amounts expensed by the Company under the plan were approximately $1.5 million and $1.6 million for the three months ended June 30, 2025 and 2024, respectively, and were $2.7 million and $2.4 million for the six months ended June 30, 2025 and 2024, respectively. These expenses were recorded in salaries and employee benefits on the consolidated statement of income. The Company recorded an accrual of approximately $270,000 and $390,000 at June 30, 2025 and December 31, 2024, respectively, for known claims and estimated claims incurred but not reported, reported in other liabilities on the consolidated balance sheets.

Note 13 — Stock Compensation Plans

The Company has utilized three share based compensation plans, which are described below. No stock option expense was recorded for the three or six months ended June 30, 2025 and 2024. The stock option plan and stock appreciation rights plan are both legacy plans which the Company does not intend to issue any new shares under after 2024.

The Company has a stock option plan for its non-employee directors, executive officers and certain employees under which options may be granted at not less than the fair value of the underlying stock on the date of the grant. These options are subject to a vesting schedule under which one-third vests at each anniversary date of the grant. Under the stock option plan, the Company may grant options to its directors for up to 500,000 shares of common stock and up to 1,000,000 shares of common stock to its executive officers and certain employees.

All options granted expire within 10 years of the date of grant, subject to certain cancellation provisions related to an individual's affiliation with the Company.

The calculated value of each option award is estimated on the date of grant using a Black-Scholes option valuation model that uses the weighted average assumptions. Expected volatilities are based on similar volatilities of comparable banks. The Company uses comparable bank data to estimate option exercise and employee termination within the valuation model. The risk-free rate for periods within the contractual life of the option is based on the U.S. Treasury yield curve in effect at the time of grant. There were no stock option grants in the three or six months ended June 30, 2025 or 2024.

Note 13 — Stock Compensation Plans (continued)

A summary of option activity under the Plan for the six months ended June 30, 2025 is presented below:

Options	Number of Shares	Weighted Average Exercise Price	Weighted Average Remaining Contractual Term (in years)
Outstanding at January 1, 2024	19,000	$ 2.00	0.6
Granted	—	—	
Exercised	(9,000)	(1.50)	
Forfeited or expired	—	—	
Outstanding at June 30, 2025	10,000	$ 2.45	0.6
Vested at June 30, 2025	10,000	$ 2.45	0.6

The total intrinsic value of the options exercised during the three and six months ended June 30, 2025 was approximately $0 and $116,000. No options were exercised in the three or six months ended June 30, 2024. The total intrinsic value of the options outstanding at June 30, 2025 and December 31, 2024 was approximately $113,000 and $236,000, respectively.

As of June 30, 2025 and 2024, there was no unrecognized compensation cost related to non- vested share-based compensation arrangements granted under the plan.

The Company also has a stock appreciation rights plan for executive officers and certain employees. Stock appreciation rights are primarily granted with a price equal to the market value of common stock on the date of the grant. These awards generally have a five year vesting schedule but may vest early in accordance with accelerated vesting provisions. Compensation expense is recognized over the vesting period of the awards based on the fair value of the stock. For periods prior to the Company's initial public offering, the Bank utilized a third party valuation service for the measurement of fair value of the Company's stock price as provided for in the Employee Stock Ownership Plan Report.

A summary of stock appreciation right awards for the six months ended June 30, 2025 is as follows:

Stock Appreciation Right Awards	Number of Shares	Weighted Average Exercise Price
Non-vested at January 1, 2025	545,000	$ 11.00
Granted	—	—
Exercised	(75,000)	5.60
Forfeited or expired	(20,000)	11.73
Outstanding at June 30, 2025	450,000	$ 11.87

The Company also has a restricted stock award plan which was implemented during 2024. Restricted stock awards generally have vesting periods of three years with vesting at the rate of one-third each year. Restricted stock awards granted to the Company's Chief Executive Officer in connection with the Company's initial public offering were assigned a five year vesting period. Restricted stock awards have no other performance conditions required for vesting.

Note 13 — Stock Compensation Plans (continued)

A summary of changes in the Company's nonvested restricted stock awards for the six months ended June 30, 2025 follows (dollars in thousands for aggregate intrinsic value):

Nonvested Stock Awards	Number of Shares	Weighted Average Grant-Date Fair Value	Aggregate Intrinsic Value
Outstanding at January 1, 2025	849,530	$14.40	$ 11,647
Granted	164,000	13.50	2,248
Vested	(49,560)	14.40	(679)
Forfeited	—	—	—
Outstanding at June 30, 2025	963,970	$14.25	$ 13,216

Compensation cost related to restricted stock awards totaled $898,000 and $0 for the three months ended June 30, 2025 and 2024, respectively, and totaled $2.2 million and $0 for the six months ended June 30, 2025 and 2024, respectively.

As of June 30, 2025, there was $12.9 million of total remaining compensation cost related to nonvested restricted stock awards granted under the Company's stock-based compensation plans. The cost is expected to be recognized over a weighted-average period of 1.9 years. Restricted stock awards totaling 49,560 shares vested during the three and six months ended June 30, 2025. The intrinsic value of restricted stock awards vested totaled $679,000 in the three and six months ended June 30, 2025. There was no vesting of restricted stock awards during the three and six months ended 2024.

Note 14 — Income Taxes

The components of the income tax provision are detailed as follows for the dates indicated (dollars in thousands):

	Three Months Ended June 30,		Six Months Ended June 30,	
	2025	2024	2025	2024
Current income tax expense	$ 6,098	$ 22,734	$ 12,044	$ 26,739
Deferred tax expense	211	(18,551)	(386)	(18,591)
Total income tax expense	$ 6,309	$ 4,183	$ 11,658	$ 8,148

Note 14 — Income Taxes (Continued)

A reconciliation of taxes on income from the statutory income tax rate to income tax expense is as follows for the periods indicated (dollars in thousands):

	Three Months Ended June 30, 2025			Three Months Ended June 30, 2024		
	Amount		Percent	Amount		Percent
Income tax expense, computed at federal statutory rate of pretax income	$ 5,597		21.00 %	$ 3,655		21.00 %
State and local income taxes	562		2.11 %	515		2.96 %
Effect of nontaxable income and nondeductible expenses	20		0.07 %	13		0.07 %
Other	130		0.49 %	—		— %
Total income tax expense	$ 6,309		23.67 %	$ 4,183		24.03 %

	Six Months Ended June 30, 2025			Six Months Ended June 30, 2024		
	Amount		Percent	Amount		Percent
Income tax expense, computed at statutory rate of pretax income	$ 10,343		21.00 %	$ 7,060		21.00 %
State and local income taxes	1,146		2.33 %	1,010		3.00 %
Effect of nontaxable income and nondeductible expenses	39		0.08 %	56		0.17 %
Other	130		0.26 %	22		0.07 %
Total income tax expense	$ 11,658		23.67 %	$ 8,148		24.24 %

Deferred tax assets and liabilities consisted of the following as of period end (dollars in thousands):

	June 30, 2025	December 31, 2024
Allowance for credit losses	$ 2,929	$ 2,649
Accrued expenses and other reserve accounts	1,893	1,762
Nonaccrual loan interest	682	957
Stock compensation	518	379
Unrealized loss on debt securities available for sale	33	82
Other deferred tax assets	137	211
Total deferred tax assets	6,192	6,040
Mortgage servicing rights	3,784	3,558
Fixed assets	2,922	3,135
Goodwill and intangibles	522	581
Deferred loan costs/fees	1,931	2,138
Other deferred tax liabilities	174	106
Total deferred tax liabilities	9,333	9,518
Net deferred tax liability	$ (3,141)	$ (3,478)

Note 14 — Income Taxes (Continued)

The Company and its subsidiaries file consolidated tax returns. The Company accounts for income taxes in accordance with income tax accounting guidance (ASC 740, Income Taxes). The income tax accounting guidance results in two components of income tax expense: current and deferred. Current income tax expense reflects taxes to be paid or refunded for the current period by applying the provisions of the enacted tax law to the taxable income or excess of deductions over revenues. The Company determines deferred income taxes using the liability (or balance sheet) method. Under this method, the net deferred tax asset or liability is based on the tax effects of the differences between the book and tax bases of assets and liabilities, and enacted changes in tax rates and laws are recognized in the period in which they occur. Deferred income tax expense results from changes in deferred tax assets and liabilities between periods. Deferred tax assets are reduced by a valuation allowance if, based on the weight of evidence available, it is more likely than not that some portion or all of a deferred tax asset will not be realized. Deferred tax assets are included in other assets in the consolidated balance sheets and deferred tax liabilities are included in other liabilities in the Consolidated Balance Sheets.

Uncertain tax positions are recognized if it is more likely than not, based on the technical merits, that the tax position will be realized or sustained upon examination. The term more likely than not means a likelihood of more than 50 percent; the terms examined and upon examination also include resolution of the related appeals or litigation processes, if any. A tax position that meets the more-likely-than-not recognition threshold is initially and subsequently measured as the largest amount of tax benefit that has a greater than 50 percent likelihood of being realized upon settlement with a taxing authority that has full knowledge of all relevant information. The determination of whether or not a tax position has met the more-likely-than- not recognition threshold considers the facts, circumstances, and information available at the reporting date and is subject to management's judgment. There were no uncertain tax positions recognized at June 30, 2025 or December 31, 2024.

With a few exceptions, the Company is no longer subject to U.S. federal tax examinations by tax authorities for years before 2022, and state and local income tax examinations by tax authorities for years before 2022. For federal tax purposes, the Company recognizes interest and penalties on income taxes as a component of income tax expense.

On July 4, 2025, the President signed H.R. 1, the "One Big Beautiful Bill Act," into law. The legislation includes several changes to federal tax law that generally allow for more favorable deductibility of certain business expenses beginning in 2025, including the restoration of immediate expensing of domestic R&D expenditures, reinstatement of 100% bonus depreciation, and more favorable rules for determining the limitation on business interest expense. These changes were not reflected in the income tax provision for the three and six months ended June 30, 2025, as enactment occurred after the balance sheet date. The Company is currently evaluating the impact on future periods.

Note 15 — Minimum Regulatory Capital Requirements

The Company and Bank are subject to various regulatory capital requirements administered by the Federal banking agencies. Failure to meet minimum capital requirements can result in certain mandatory — and possibly additional discretionary — actions by regulators that, if undertaken, could have a direct material effect on the Company's financial statements. Under capital adequacy guidelines and the regulatory framework for prompt corrective action, the Company and Bank must meet specific capital guidelines that involve quantitative measures of the Company and the Bank's assets, liabilities, and certain off-balance sheet items as calculated under U.S. GAAP, regulatory reporting requirements and regulatory capital standards. The Company and Bank's capital amounts and classification are also subject to qualitative judgments by the regulators about components, risk weightings, and other factors. Furthermore, the Company and Bank's regulators could require adjustments to regulatory capital not reflected in the consolidated financial statements.

Quantitative measures established by regulatory capital standards to ensure capital adequacy require the Company and the Bank to maintain minimum amounts and ratios (set forth in the table below) of total capital, Tier 1 capital (as defined), and common equity Tier 1 capital (as defined) to risk-weighted assets (as defined) and of Tier 1 capital (as defined) to average total assets (as defined). Additionally, to make distributions or discretionary bonus payments, the Company and Bank must maintain a capital conservation buffer of 2.5% of risk-weighted assets.

Management believes that the Company and the Bank met all capital adequacy requirements to which it is subject at June 30, 2025 and December 31, 2024. As of the latest balance sheet date, the most recent regulatory notifications categorized the Bank as well capitalized under the regulatory framework for prompt corrective action. To be categorized as well capitalized, the Bank must maintain minimum ratios as set forth in the following table. There are no conditions or events since that notification that management believes have changed the institution's category.

As of June 30, 2025 (dollars in thousands)	Actual		For Capital Adequacy Purposes		To be Well Capitalized Under Prompt Corrective Action Provisions	
	Amount	Ratio	Amount	Ratio	Amount	Ratio
CET1 (to risk weighted assets)						
Consolidated	$ 506,203	9.25%	$ 246,135	4.50%	N/A	N/A
Northpointe Bank	610,113	11.15%	246,131	4.50%	$ 355,523	6.50%
Tier 1 Capital (to risk weighted assets)						
Consolidated	609,936	11.15%	328,179	6.00%	N/A	N/A
Northpointe Bank	610,113	11.15%	328,175	6.00%	437,566	8.00%
Total Capital (to risk weighted assets)						
Consolidated	645,209	11.80%	437,572	8.00%	N/A	N/A
Northpointe Bank	620,386	11.34%	437,566	8.00%	546,958	10.00%
Tier 1 capital (to average assets)						
Consolidated	609,936	9.98%	244,436	4.00%	N/A	N/A

Note 16 — Restrictions on Dividends, Loans, and Advances

Banking regulations place certain restrictions on dividends paid and loans or advances made by the Bank to the Company. The total amount of dividends which may be paid at any date is generally limited to the retained earnings of the Bank. However, dividends paid by the Bank would be prohibited if the effect thereof would cause the Bank's capital to be reduced below applicable minimum standards without prior approval from the bank regulators.

Note 17 — Fair Value Measurements

Accounting standards define fair value as the exchange price that would be received for an asset or paid to transfer a liability in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. It also establishes a fair value hierarchy which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value.

The standard describes three levels of inputs that may be used to measure fair value:

Level 1: Valuation is based upon quoted prices (unadjusted) for identical assets or liabilities in active markets that we have the ability to access as of the measurement date.

Level 2: Valuation is based upon significant other observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in markets that are not active; or other inputs that are observable or can be derived from or corroborated by observable market data by correlation or other means.

Level 3: Valuation is based upon significant unobservable inputs that reflect our own conclusions about the assumptions that market participants would use in pricing an asset or liability.

In instances whereby inputs used to measure fair value fall into different levels in the above fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Company's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

The Company records the fair values of financial assets and liabilities on a recurring and non-recurring basis using the following methods and assumptions:

Note 17 — Fair Value Measurements (continued)

Equity Securities

Equity securities with readily determinable fair value are reported at fair value. Fair value for these investments is primarily determined using a quoted price in an active market or exchange (Level 1).

Available for Sale Debt Securities

Where quoted market prices are available in an active market, securities are classified as Level 1 of the valuation hierarchy. The Company does not currently have any Level 1 debt securities. If quoted prices are not available, fair values can be estimated using (1) quoted market prices of securities with similar characteristics, (2) matrix pricing, which is a mathematical technique used widely in the industry to value debt securities without relying exclusively on quoted prices for specific securities but rather by relying on the securities' relationship to other benchmark quoted prices, or (3) a discounted cash flow analysis whose significant fair value inputs can generally be verified and do not typically involve judgment by management. Included in the Company's available for sale debt securities are corporate bonds which are classified as Level 2 assets. The valuation of these corporate bonds is determined using third-party quoted market prices of securities with similar characteristics.

Loans

Certain loans held for sale and held for investment are measured at fair value on a recurring basis due to the Company's election to adopt fair value accounting treatment for those loans originated for which the Company has entered into certain derivative financial instruments as part of its mortgage banking and related risk management activities. These instruments include interest rate lock commitments and mandatory forward commitments to sell these loans to investors known as forward mortgage-backed securities trades. This election allows for a more effective offset of the changes in fair values of the assets and the mortgage related derivative instruments used to economically hedge them without the burden of complying with the requirements for hedge accounting under ASC 815, Derivatives and Hedging. Mortgage loans held for sale, for which the fair value option was elected, are valued using a market approach by utilizing either: (i) the fair value of securities backed by similar mortgage loans, adjusted for certain factors to approximate the fair value of a whole mortgage loan, including the value attributable to mortgage servicing and credit risk, (ii) current commitments to purchase loans or (iii) recent observable market trades for similar loans, adjusted to credit risk and other individual loan characteristics. As these prices are derived from market observable inputs, the Company classifies these valuations as Level 2 in the fair value disclosures. For mortgage loans held for sale for which the fair value option was elected, the earned current contractual interest payment is recognized in interest income, loan origination costs and fees on fair value option loans are recognized in earnings as incurred and not deferred. The Company has no continuing involvement in any residential mortgage loans sold.

Loans held for investment that are measured at fair value are those that initially were intended for sale and then transferred to portfolio. At June 30, 2025, these loans had an aggregate unpaid principal balance of $202.3 million and aggregate fair value of $175.1 million. At December 31, 2024, these loans had an aggregate unpaid principal balance of $203.0 million and aggregate fair value of $173.0 million.

Note 17 — Fair Value Measurements (continued)

At June 30, 2025 and December 31, 2024, the fair value option was applied to loans that had been transferred from held for sale to portfolio and also to mortgage loans held for sale. The fair value adjustments are reflected in Net Gain on Sale of Loans on the Company's Consolidated Statements of Income. At June 30, 2025, the Company transferred $40.3 million in unpaid principal balance of home equity (non AIO) loans from loans HFI to loans held for sale related to an agreement to sell those loans and recognized a positive fair value adjustment of $1.4 million, which is included in Net Gain on Sale of Loans on the Company's Consolidated Statements of Income for the three and six months ended June 30, 2025.

The table below shows the income statement impact for these fair value adjustments for the three and six months ended June 30, 2025 and 2024:

	For the Three Months Ended June 30,		For the Six Months Ended June 30,	
(dollars in thousands)	2025	2024	2025	2024
Loans	$ 1,359	$ (1,115)	$ 4,277	$ (726)
Loans held for sale	2,024	589	3,835	(192)

Loans reported at the fair value which were over 90 days past due amounted to $270,000 and $148,000 in unpaid principal balance with a fair values of $253,000 and $145,000 as of June 30, 2025 and December 31, 2024, respectively. The accrual of interest on loans is discontinued at the time the loan is delinquent (120 days for mortgages). Non-accrual loans reported at fair value amounted to $11.2 million in unpaid principal balance and $8.8 million in fair value as of June 30, 2025. Non-accrual loans reported at fair value amounted to $10.3 million in unpaid principal balance and $8.3 million in fair value as of December 31, 2024.

Interest Rate Lock Commitments

The estimated fair values of interest rate lock commitments utilize current secondary market prices for underlying loans and estimated servicing value with similar coupons, maturity and credit quality, subject to the anticipated loan funding probability (pull-through rate). The fair value of interest rate lock commitments is subject to change primarily due to changes in interest rates and the estimated pull-through rate. Given the significant and unobservable nature of the pull-through factor, interest rate lock commitments are classified as Level 3.

Forward Sales Commitments

Forward mortgage-backed securities trades are exchange-traded or traded within highly active dealer markets. In order to determine the fair value of these instruments, the Company utilized the exchange price or dealer market price for the particular derivative contract; therefore these contracts are classified as Level 2. The estimated fair values are subject to change primarily due to changes in interest rates.

Mortgage Service Rights

Mortgage service rights are carried at fair value. Fair value is determined using an income approach with various assumptions including expected cash flows, market discount rates, prepayment speeds, servicing costs, and other factors. As such, MSRs are considered Level 3.

Lender Risk Account

The Company's Lender risk account is carried at fair value. Fair value is determined using an income approach with various assumptions including expected cash flows, market discount rates, prepayment speeds, and other factors. As such, the lender risk account is considered Level 3.

Note 17 — Fair Value Measurements (continued)

The following tables present information about the Company's assets measured at fair value on a recurring basis at June 30, 2025 and December 31, 2024 and the valuation techniques used by the Company to determine those fair values (dollars in thousands):

	Fair Value on a Recurring Basis at June 30, 2025			
	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total
Financial Assets:				
Equity securities	$ 1,329	$ —	$ —	$ 1,329
Available for sale debt securities	—	8,785	—	8,785
Mortgage banking assets:				
Loans held for sale	—	331,199	—	331,199
Loans held for Investment	—	175,070	—	175,070
Interest rate lock commitments	—	—	4,312	4,312
Forward sales commitments	—	62	—	62
Mortgage servicing rights	—	—	16,388	16,388
Lender risk account	—	—	28,816	28,816
Financial Liabilities:				
Interest rate lock commitments	—	—	—	—
Forward sales commitments	—	1,238	—	1,238

	Fair Value on a Recurring Basis at December 31, 2024			
	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total
Financial Assets:				
Equity securities	$ 1,305	$ —	$ —	$ 1,305
Available for sale debt securities	—	—	8,576	8,576
Mortgage banking assets:				
Loans held for sale	—	217,073	—	217,073
Loans held for investment	—	172,960	—	172,960
Interest rate lock commitments	—	—	2,064	2,064
Forward sales commitments	—	1,332	—	1,332
Mortgage servicing rights	—	—	15,133	15,133
Lender risk account	—	—	28,436	28,436
Financial Liabilities:				
Interest rate lock commitments	—	—	17	17
Forward sales commitments	—	131	—	131

The Company's policy is to recognize transfers in and transfers out of Level 1, 2, and 3 fair value classifications as of the actual date of the event of change in circumstances that caused the transfer. On June 30, 2025, the Company transferred debt securities available for sale from Level 3 to Level 2 of the fair value hierarchy. As a result, debt securities totaling $8.8 million (based on fair value) were reclassified from Level 3 to Level 2 as of June 30, 2025. These securities were previously classified as Level 3, but were moved to Level 2 after further review. The move from Level 3 to Level 2 did not impact the fair value measurement, only the classification of input used to determine that fair value.

Note 17 — Fair Value Measurements (continued)

Changes in mortgage servicing rights as well as the related weighted average unobservable inputs are included in Note 5.

The following table presents a reconciliation of the Level 3 available for sale debt securities measured at fair value on a recurring basis for the three and six months ended June 30, 2025 and 2024 (dollars in thousands):

	For the Three Months Ended June 30,		For the Six Months Ended June 30,	
	2025	2024	2025	2024
Balance at beginning of period	$ 8,594	$ 8,963	$ 8,576	$ 8,923
Unrealized	191	(931)	209	(891)
Transfer to Level 2	(8,785)	—	(8,785)	—
Balance at end of period	$ —	$ 8,032	$ —	$ 8,032

The following table presents a reconciliation of the Level 3 interest rate lock commitments measured at fair value on a recurring basis for the three and six months ended June 30, 2025 and 2024 (dollars in thousands):

	For the Three Months Ended June 30,		For the Six Months Ended June 30,	
	2025	2024	2025	2024
Balance at beginning of period	$ 4,550	$ 3,693	$ 2,047	$ 2,948
Change in fair value	(238)	(92)	2,265	653
Balance at end of period	$ 4,312	$ 3,601	$ 4,312	$ 3,601

The following is a summary of the key unobservable inputs used in the valuation of the Level 3 interest rate lock commitments:

	June 30,	
	2025	2024
Pull-through rate	83.0 %	85.1 %

The following table presents a reconciliation of the Level 3 lender risk account measured at fair value on a recurring basis for the three months ended June 30, 2025 and 2024 (dollars in thousands):

	For the Three Months Ended June 30,		For the Six Months Ended June 30,	
	2025	2024	2025	2024
Beginning of period	$ 29,037	$ 29,381	$ 28,436	$ 31,694
Due to loan sales	325	577	724	788
Releases and claims paid to the Company	(1,043)	(2,479)	(1,670)	(4,800)
Change in fair value recognized in gain on sale of loans	497	460	1,326	257
End of period	$ 28,816	$ 27,939	$ 28,816	$ 27,939

Both observable and unobservable inputs may be used to determine the fair value of the lender risk account, which is classified as a Level 3 asset. As a result, the unrealized gains for these assets presented in the tables above may include changes in fair value that were attributable to both observable and unobservable inputs.

Note 17 — Fair Value Measurements (continued)

The Company estimates the fair value of the lender risk account using management's best estimate of key assumptions. These assumptions include prepayment rates, discount rates, and projected annual losses on unpaid principal of the sold loan portfolio. The weighted average of unobservable inputs for these valuation assumptions is as follows as of the dates indicated (dollars in thousands):

	Fair Value	Valuation Technique	Unobservable Inputs	Range of Inputs	Weighted Average
Assets:					
June 30, 2025					
Lender Risk Account	$ 28,816	Present value of	Credit losses	—% - 0.26%	0.11 %
		cash flows	Prepayment rates	8.92 %	8.92 %
			Discount rates	5.29% - 6.77%	6.05 %
December 31, 2024					
Lender Risk Account	$ 28,436	Present value of	Credit losses	—% - 0.21%	0.08 %
		cash flows	Prepayment rates	11.97 %	11.97 %
			Discount rates	5.86% - 6.70%	6.39 %

The Company also has assets that under certain conditions are subject to measurement at fair value on a nonrecurring basis. These assets include individually analyzed loans and other real estate which are periodically reviewed for impairment and measured at fair value if the fair value of the asset is below the recorded book value. The Company has estimated the fair values of these assets based primarily on Level 3 inputs as described above.

The following asset classes were measured at fair value on the accompanying consolidated balance sheets as of the dates indicated due to declines in the fair value. Certain individually analyzed loans and other real estate carried at original cost, which exceeds fair value, have been omitted from the disclosure below (dollars in thousands):

	Assets Measured at Fair Value on a Nonrecurring Basis at June 30, 2025			
	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Balance at December 31
Individually analyzed loans	—	—	$ 7,237	$ 7,237
Other real estate owned	—	—	203	203

	Assets Measured at Fair Value on a Nonrecurring Basis at December 31, 2024			
	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Balance at December 31
Individually analyzed loans	—	—	$ 6,603	$ 6,603
Other real estate owned	—	—	1,651	1,651

Note 17 — Fair Value Measurements (continued)

The following presents estimated fair values of the Company's financial instruments and the level within the fair value hierarchy in which fair value measurements falls as of the dates indicated (dollars in thousands):

	June 30, 2025		
	Fair Value Hierarchy	Carrying Value	Fair Value
Financial Assets:			
Cash and cash equivalents	Level 1	$ 415,659	$ 415,659
Equity securities	Level 1	1,329	1,329
Debt securities available for sale	Level 2	8,785	8,785
FHLB stock	Level 2	69,574	69,574
Loans held for sale	Level 2	331,199	331,199
Loans, net	Level 2	5,484,431	5,428,581
Interest receivable	Level 2	23,769	23,769
Financial Liabilities:			
Deposits	Level 2	4,474,071	4,476,326
Borrowings	Level 2	1,274,929	1,273,623
Subordinated debentures	Level 2	24,181	24,181
Subordinated debentures issued through trusts	Level 2	5,000	5,000
Interest payable	Level 2	19,607	19,607

	December 31, 2024		
	Fair Value Hierarchy	Carrying Value	Fair Value
Financial Assets:			
Cash and cash equivalents	Level 1	$ 376,295	$ 376,295
Equity securities	Level 1	1,305	1,305
Debt securities available for sale	Level 3	8,576	8,576
FHLB stock	Level 2	69,574	69,574
Loans held for sale	Level 2	217,073	217,073
Loans, net	Level 2	4,416,564	4,312,773
Interest receivable	Level 2	20,934	20,934
Financial Liabilities:			
Deposits	Level 2	3,422,555	3,423,196
Borrowings	Level 2	1,258,750	1,232,310
Subordinated debentures	Level 2	38,933	38,933
Subordinated debentures issued through trusts	Level 2	5,000	5,000
Interest payable	Level 2	8,114	8,114

Note 18 — Related Parties

There was no loan activity with principal officers, directors, and their affiliates during the three and six months ended June 30, 2025 and no outstanding loan balances at June 30, 2025 or December 31, 2024.

Deposits from principal officers, directors, and their affiliates were $7.8 million at June 30, 2025 and $3.8 million at December 31, 2024.

Note 19 — Earnings Per Share

The following table presents the computation of basic and diluted earnings per share for the periods presented below (dollars in thousands):

	For the Three Months Ended June 30,		For the Six Months Ended June 30,	
	2025	2024	2025	2024
Earnings per common share:				
Net income	$ 20,344	$ 13,221	$ 37,592	$ 25,465
Preferred stock dividends	2,296	1,839	4,503	4,252
Net income available to common stockholders	$ 18,048	$ 11,382	$ 33,089	$ 21,213
Weighted average common shares	34,574,086	25,689,560	32,208,838	25,689,560
Basic earnings per common share	$ 0.52	$ 0.44	$ 1.03	$ 0.83
Dilutive earnings per common share:				
Net income available to common stockholders	$ 18,048	$ 11,382	$ 33,089	$ 21,213
Weighted average common shares	34,574,086	25,689,560	32,208,838	25,689,560
Effect of dilutive shares	644,876	66,871	625,067	66,871
Weighted average dilutive common shares	35,218,962	25,756,431	32,833,905	25,756,431
Dilutive earnings per common share	$ 0.51	$ 0.44	$ 1.01	$ 0.82

Note 20 — Segment Information

Our reportable segments are Retail Banking and MPP, which have been determined based on management's focus and internal reporting structure. The MPP segment provides a collateralized mortgage purchase facility marketed to independent mortgage bankers nationwide. The Retail Banking segment provides a vast array of financial products and services to consumers nationwide. These include residential mortgages, AIO equity loans, other consumer loans, and loan servicing, as well as various types of deposit products, including checking, savings and time deposit accounts. The residential mortgage loans we originate are directly originated within our branch network or from our consumer direct business, and are typically underwritten to agency and/or third-party standards, and either sold (servicing retained or released) or held on our balance sheet.

Net interest income in each segment reflects our internal funds transfer pricing ("FTP") methodology, which is designed to capture interest rate and liquidity risk. Under our methodology, average assets, net of deposits, receive a funding charge based on market interest rates of similar duration liabilities. MPP receives an FTP charge and the residual gain is retained within Retail Banking.

Provision (benefit) for credit losses is allocated to MPP based on the cumulative expected loss rate from the Company's allowance for credit loss process and applied to any change in period end loan balances.

Financial results are presented, to the extent possible, as if each business operated on a standalone basis, and includes expense allocations for corporate overhead services used by the business segments. Shared corporate overhead expenses reside in Retail Banking but are allocated back to MPP through our expense allocation based on occupancy rates and percentage of time spent supporting the segment.

Results of the Company's operating segments are regularly reviewed by the Company's Chief Operating Decision Maker (the "CODM"), the Company's Chief Executive Officer. More specifically, the CODM analyzes quarterly financial results, including net income, to assess performance and allocate resources. However, the CODM may use other metrics and ad hoc reports on a limited purpose basis as needed.

In evaluating segment performance, the Company primarily evaluates total revenues (net interest income plus noninterest income) and net income before preferred dividends.

Northpointe Bancshares, Inc.

Note 20 — Segment Information (continued)

The following tables present the operating segment results for the periods presented below (dollars in thousands):

	As of or for the Three Months Ended June 30,					
	2025			2024		
(Dollars in thousands)	Retail Banking	MPP	Total	Retail Banking	MPP	Total
Interest income	$ 47,976	$ 45,117	$ 93,093	$ 51,158	$ 27,741	$ 78,899
Interest expense	(56,573)	—	(56,573)	(50,302)	—	(50,302)
Funds transfer pricing	30,020	(30,020)	—	18,969	(18,969)	—
Net interest income	**21,423**	**15,097**	**36,520**	**19,825**	**8,772**	**28,597**
Provision (benefit) for credit losses	414	169	583	206	92	298
Net income after provision	**21,009**	**14,928**	**35,937**	**19,619**	**8,680**	**28,299**
Noninterest income [1]	21,083	1,355	22,438	15,564	1,341	16,905
Salaries and employee benefits	(20,483)	(1,751)	(22,234)	(18,728)	(1,290)	(20,018)
Occupancy and equipment	(731)	(187)	(918)	(1,124)	(22)	(1,146)
Other noninterest expense [2]	(8,521)	(49)	(8,570)	(6,463)	(173)	(6,636)
Noninterest expense	(29,735)	(1,987)	(31,722)	(26,315)	(1,485)	(27,800)
Expense allocation [3]	1,321	(1,321)	—	851	(851)	—
Net income before taxes	**13,678**	**12,975**	**26,653**	**9,719**	**7,685**	**17,404**
Income tax expense	(3,238)	(3,071)	(6,309)	(2,364)	(1,819)	(4,183)
Net income before preferred dividends	**$ 10,440**	**$ 9,904**	**$ 20,344**	**$ 7,355**	**$ 5,866**	**$ 13,221**
Average balance sheet assets	$ 3,172,383	$ 2,558,877	$ 5,731,260	$ 3,707,743	$ 1,374,716	$ 5,082,459
Period end assets	$ 3,539,226	$ 2,891,668	$ 6,430,894	$ 3,719,424	$ 1,504,587	$ 5,224,011

(1) Noninterest income for MPP only includes MPP related fees. All other noninterest income is reflected in Retail Banking.
(2) Includes data processing, professional services, office supplies and other miscellaneous expenses.
(3) Reflects corporate overhead expense allocations used by both business segments; primarily consisting of corporate administration, finance, technology, human resources, risk, marketing and occupancy related allocations.

Note 20 — Segment Information (continued)

	As of or for the Six Months Ended June 30,

(1) Noninterest income for MPP only includes MPP related fees. All other noninterest income is reflected in Retail Banking.
(2) Includes data processing, professional services, office supplies and other miscellaneous expenses.
(3) Reflects corporate overhead expense allocations used by both business segments; primarily consisting of corporate administration, finance, technology, human resources, risk, marketing and occupancy related allocations.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Introduction

The following section presents additional information and highlights significant changes in the financial condition of Northpointe Bancshares, Inc. (the "Company") and our wholly owned subsidiary, Northpointe Bank (the "Bank"), from December 31, 2024 through June 30, 2025, and on our results of operations for the three and six months ended June 30, 2025 and 2024. The following discussion and analysis of our financial condition and results of operations should be read in conjunction with our consolidated financial statements and related notes included elsewhere in this Quarterly Report on Form 10-Q. This discussion and analysis contains forward-looking statements that involve risk, uncertainties and assumptions. Certain risks, uncertainties and other factors, including but not limited to those set forth under "Cautionary Note Regarding Forward-Looking Statements," "Risk Factors," and elsewhere in this Quarterly Report on Form 10-Q, may cause actual results to differ materially from those projected in the forward looking statements. We assume no obligation to update any of these forward-looking statements.

Unless otherwise stated, all information in this document gives effect to a ten-for-one stock split, whereby each holder of our common stock received nine additional shares of common stock for each share owned as of the record date of December 19, 2024, which was distributed on December 30, 2024. The effect of the stock dividend on outstanding shares and per share figures has been retroactively applied to all periods presented in this document.

Business Overview

Headquartered in Grand Rapids, Michigan, we are a bank holding company that focuses on (1) providing a best-in-class platform for independent mortgage bankers nationwide to utilize as an alternative to traditional mortgage warehouse lending (we refer to this business as our Mortgage Purchase Program, or "MPP") and (2) offering attractive products and services to our residential mortgage and digital banking retail customers. Our residential lending business provides a comprehensive range of financing options nationwide through two main channels: consumer direct and traditional retail. We have a total of 130 mortgage originators across 27 states. These channels combine the convenience of online, self-service platforms with the personalized service of an experienced residential mortgage loan officer. Both residential mortgage loan origination channels are supported by our proprietary point-of-service digital platform that streamlines the loan application and closing processes. Our consumer direct and traditional retail channels primarily originate mortgage loans which are saleable through an end investor. In addition, our traditional retail channel selectively originates first-lien home equity lines which are tied seamlessly to a demand deposit sweep account (we refer to the loans we originate as "All-in-One" or "AIO" loans). We have one bank branch located in Grand Rapids, Michigan and physical loan production offices located in 23 cities in 15 states across the country, which are supported by our centralized operations and back-office support teams based in Grand Rapids, Michigan.

Our results of operations are driven by a combination of net interest income, which is the difference between interest income from interest-earning assets and interest expense on interest-bearing liabilities, as well as fee income from a variety of sources. Key components of noninterest income include gains from the sale of newly originated loans, loan servicing fees, MPP fees, service charges from our deposit services, and other fees. Our principal operating expense, aside from interest expense, consists of salaries and employee benefits, including commissions paid to loan originators, occupancy and equipment costs, data processing expense, professional fees, and provisions for credit losses. Our income is affected by regulatory, economic, and competitive factors that influence interest rates, residential loan demand and deposits costs. In addition, we are subject to interest rate risk to the degree that our interest-earnings assets mature or reprice at different times or at different speeds than our interest-bearing liabilities.

Critical Accounting Policies and Estimates

Our consolidated financial statements are prepared in accordance with United States generally accepted accounting principles ("GAAP") and follow general practices within the banking industry. Application of these principles requires management to make estimates, assumptions and complex judgements that affect amounts presented in our consolidated financial statements. These estimates, assumptions and judgements are based on information available as of the date of the financial statements; accordingly, as this information changes, the consolidated financial statements could reflect different estimates, assumptions, and judgements. Our critical accounting policies are described in detail in our 2024 Form 10-K.

Our accounting and reporting policies are in accordance with accounting principles generally accepted in the United States of America and conform to general practices within the banking industry. Accounting and reporting policies for the allowance

for credit losses ("ACL"), lender risk account and capitalized mortgage loan servicing rights are deemed critical since they involve the use of estimates and require significant management judgments. Application of assumptions different than those that we have used could result in material changes in our financial position or results of operations.

Our methodology for determining the ACL and related provision for credit losses is described later in this section under "Provision for Credit Losses" and "Loan Portfolio". In particular, this area of accounting requires a significant amount of judgment because a multitude of factors can influence the ultimate collection of a loan or other type of credit. It is extremely difficult to precisely measure the amount of expected credit losses in our loan portfolio. We use a rigorous process to attempt to accurately quantify the necessary ACL and related provision for credit losses, but there can be no assurance that our modeling process will successfully identify all of the expected credit losses in our loan portfolio. The assumptions around establishing reasonable and supportable economic forecasts are particularly subjective. As a result, we could record future provisions for credit losses that may be significantly different than the levels that we recorded in prior periods.

A Lender Risk Account ("LRA") has been established for loans we have sold to the Federal Home Loan Bank of Indianapolis ("FHLB"). The LRA is funded and maintained by the FHLB at 1.20% of the loan balance and is used to offset credit losses over the life of the loans sold to the FHLB. If the LRA has not been depleted by losses, funds are returned to the Company over time, beginning after five years and continuing through 25 years. We carry the asset at estimated fair value. Fair value is determined using an income approach with various assumptions including expected cash flows, market discount rates, prepayment speeds, and other factors. These assumptions are particularly subjective and can have a material effect on the estimated LRA balance and income. We believe the assumptions that we utilize in estimating fair value are reasonable based upon accepted industry practices and represent neither the most conservative nor aggressive assumptions.

We establish mortgage servicing right ("MSR") assets when we sell loans with servicing retained and when we purchase mortgage servicing. The fair value of our mortgage loan servicing rights has been determined based on a valuation model used by an independent third party. There are several critical assumptions involved in establishing the value of this asset including estimated future prepayment speeds on the underlying mortgage loans, the interest rate used to discount the net cash flows from the mortgage loan servicing, the estimated amount of ancillary income that will be received in the future (such as late fees) and the estimated cost to service the mortgage loans. We believe the assumptions that we utilize in our valuation are reasonable based upon accepted industry practices for valuing mortgage loan servicing rights and represent neither the most conservative nor aggressive assumptions.

Emerging Growth Company

Pursuant to the JOBS Act, as an emerging growth company, we can elect to opt out of the extended transition period for adopting any new or revised accounting standards. We have elected to take advantage of the extended transition period, which means that when a standard is issued or revised and it has different application dates for public or private companies, we may adopt the standard on the application date for private companies. We have elected to take advantage of the scaled disclosures and other relief under the JOBS Act, and we may take advantage of some or all of the reduced regulatory and reporting requirements that will be available to us under the JOBS Act, so long as we qualify as an emerging growth company.

Recent Developments

On July 4, 2025, "An Act to Provide for Reconciliation Pursuant to Title II of H. Con. Res. 14," more commonly referred to as the "One Big Beautiful Bill Act" (OBBBA) was signed into law. OBBBA enacted broad changes to the domestic and international taxation arena by extending many expiring Tax Cuts and Jobs Act tax provisions among other individual and business tax relief measures, along with funding national defense and border security, cutting certain federal spending programs, phasing out certain renewable energy credits created by the Inflation Reduction Act, and raising the national debt ceiling, among other things. Management is currently evaluating the potential impacts of the provisions of the OBBBA to the Company, however, based on information available to date, we do not anticipate the OBBBA will have a material impact on the Company's consolidated financial position or results of operations, absent any further changes in law.

Highlights of the Second Quarter of 2025

- Net income available to common stockholders was $18.0 million for the three months ended June 30, 2025, an increase of $6.7 million, or 58.6%, from $11.4 million for the three months ended June 30, 2024.

- Earnings per diluted common share was $0.51 for the three months ended June 30, 2025, as compared to $0.44 for the three months ended June 30, 2024.
- Net interest income before provision for credit losses was $36.5 million for the three months ended June 30, 2025, an increase of $7.9 million from the three months ended June 30, 2024, reflecting strong growth in MPP and AIO loans and an 11 basis point increase in net interest margin.
- Noninterest income was $22.4 million for the three months ended June 30, 2025, an increase of $5.5 million from the three months ended June 30, 2024, driven primarily by higher gain on sale of loans and other noninterest income, partially offset by lower loan servicing fees.
- Noninterest expense was $31.7 million for the three months ended June 30, 2025, an increase of $3.9 million from the three months ended June 30, 2024, driven primarily by higher salaries and benefits, largely attributable to bonus and incentive compensation and mortgage-related variable compensation, partially offset by lower expenses across several other categories.
- Loans held for investment ("HFI") portfolio was $5.50 billion at June 30, 2025, an increase of $1.07 billion from December 31, 2024, reflecting increases of $1.18 billion in MPP balances and $50.7 million in AIO loans over the period.
- MPP loans increased to 49.6% of total gross loans at June 30, 2025 from 36.8% at December 31, 2024, and residential mortgage loans decreased to 31.9% of total gross loans at June 30, 2025 from 41.9% at December 31, 2024.
- Liquidity remained stable, and total cash and cash equivalents increased to $415.7 million at June 30, 2025, as compared to $376.3 million at December 31, 2024.
- As of June 30, 2025, our capital ratios were above all regulatory requirements to be considered well-capitalized.

Results of Operations

Net Interest Income

The following table presents average balance sheet information, interest income, interest expense and the corresponding average yield earned and rates paid for the three months ended June 30, 2025 and 2024:

	For the Three Months Ended June 30,					
	2025			2024		
(Dollars in thousands)	Average Balance	Interest Inc/Exp	Average Yield/Rate	Average Balance	Interest Inc/Exp	Average Yield/Rate

	$ 6,110,405			$ 5,082,459		
Net interest spread[5]			1.92%			1.73%
Net interest margin[6]		$ 36,520	2.44%		$ 28,597	2.33%

(1) Loan balance includes loans held for investment and held for sale. Nonaccrual loans are included in total loan balances and no adjustment has been made for these loans in the yield calculation. Interest income on loans includes amortization of deferred loan fees, net of deferred loan costs.

(2) Net loan fees of $30,000 and $62,000 for the three months ended June 30, 2025 and 2024, respectively, are included in interest income.

(3) Average yield based on carrying value and there are no tax-exempt securities in the portfolio.

(4) Noninterest earning assets includes the allowance for credit losses.

(5) Net interest spread is the average yield on total interest-earning assets minus the average rate on total interest-bearing liabilities.

(6) Net interest margin is annualized net interest income divided by total average interest-earning assets.

The following table presents average balance sheet information, interest income, interest expense and the corresponding average yield earned and rates paid for the six months ended June 30, 2025 and 2024:

	For the Six Months Ended June 30,					
	2025			2024		
(Dollars in thousands)	Average Balance	Interest Inc/Exp	Average Yield/Rate	Average Balance	Interest Inc/Exp	Average Yield/Rate

Total interest-bearing deposits	3,664,843	79,893	4.40%	2,797,353	71,032	5.11%
Sub debt	29,154	1,564	10.82%	34,280	1,584	9.29%
Borrowings	1,229,809	23,877	3.92%	1,327,686	23,076	3.50%
Total interest-bearing liabilities	4,923,806	105,334	4.31%	4,159,319	95,692	4.63%
Noninterest-bearing liabilities						
Noninterest-bearing deposits	203,177			266,471		
Other noninterest-bearing liabilities	38,581			64,356		
Total noninterest-bearing liabilities	241,758			330,827		
Equity	565,696			442,625		
	$ 5,731,260			$ 4,932,771		
Net interest spread[5]			1.86%			1.76%
Net interest margin[6]		$ 66,909	2.40%		$ 55,788	2.35%

(1) Loan balance includes loans held for investment and held for sale. Nonaccrual loans are included in total loan balances and no adjustment has been made for these loans in the yield calculation. Interest income on loans includes amortization of deferred loan fees, net of deferred loan costs.

(2) Net loan fees of $70,000 and $134,000 for the six months ended June 30, 2025 and 2024, respectively, are included in interest income.

(3) Average yield based on carrying value and there are no tax-exempt securities in the portfolio.

(4) Noninterest earning assets includes the allowance for credit losses.

(5) Net interest spread is the average yield on total interest-earning assets minus the average rate on total interest-bearing liabilities.

(6) Net interest margin is annualized net interest income divided by total average interest-earning assets.

For the three months ended June 30, 2025, net interest income was $36.5 million, an increase of $7.9 million, or 27.7%, from $28.6 million for the same period in 2024. This increase was driven primarily by a 21.7% increase in earning assets and an 11 basis point improvement in net interest margin.

For the six months ended June 30, 2025, net interest income increased to $66.9 million, an increase of $11.1 million, or 19.9%, from $55.8 million for the same period in 2024. This increase was driven primarily by an 18.0% increase in earning assets and a 5 basis point improvement in net interest margin.

The increase in average interest-earning assets in both the three and six month periods of 2025, as compared to the same periods in 2024, reflect the strong growth within the MPP and AIO portfolios, partially offset by the continued run-off from the remainder of the loans HFI portfolio.

Net interest margin was 2.44% for the three months ended June 30, 2025, an increase of 11 basis points from 2.33% for the three months ended June 30, 2024. Net interest margin was 2.40% for the six months ended June 30, 2025, an increase of 5 bps from 2.35% for the six months ended June 30, 2025.

The increase in net interest margin in both the three and six month periods of 2025, as compared to the same periods in 2024, was driven primarily by a decrease in the average rate paid on interest-bearing liabilities, which was partially offset by a smaller decrease in the average yield earned on interest-earning assets, both attributable to decreases in the federal funds rate. The net interest margin also continued to benefit from an improvement in the mix of interest-earning assets, with virtually all of the growth in loans coming from MPP and AIO, both of which carry higher average yields than the rest of the loan portfolio.

Yield and Volume Impact on Net Interest Income

Increases and decreases in interest income and interest expense result from changes in average balances (volume) of interest-earning assets and interest-bearing liabilities, as well as changes in average interest rates. The following table shows the effect that these factors had on the interest earned from our interest-earning assets and interest incurred on our interest-bearing liabilities. The effect of changes in volume is determined by multiplying the change in volume by the current period's average rate. The effect of rate changes is calculated by multiplying the change in average rate by the previous period's volume. The change in interest due to both rate and volume has been allocated to rate and volume changes in proportion to the relationship of the absolute dollar amounts of the changes in each.

	For the Three Months Ended June 30,			For the Six Months Ended June 30,

Provision for Credit Losses and Unfunded Commitments

The provision for credit losses represents a charge to earnings necessary to establish an allowance for credit losses that, in management's evaluation, is adequate to provide coverage for all expected future credit losses. The provision for credit losses is impacted by inherent risk characteristics in our loan portfolio, the level of nonperforming loans and net charge-offs, both current and historic, recent historical and projected future economic conditions, loan growth, loan mix, the direction of the change in collateral values, and the level of actual net charge-offs incurred. Our provision for credit losses reflects risks in the loans HFI portfolio, which is comprised predominately of collateralized single-family mortgage loans, with very low historical loss experience. Our provision for credit losses reflects both our loans HFI portfolio and the unfunded commitments on that portfolio.

For the three months ended June 30, 2025, the total provision for credit losses was $583,000, as compared to $298,000 for the same period in 2024. The provision for credit losses related to loans was an expense of $548,000 for the three months ended

June 30, 2025, reflecting net charge-offs of $488,000 and an ending allowance for credit losses of $12.4 million. For the three months ended June 30, 2024, the provision for credit losses related to loans was an expense of $397,000, reflecting $742,000 in net charge-offs and an ending allowance for credit losses of $12.3 million. The increase in provision for credit losses for the three months ended June 30, 2025, as compared to the same period in 2024, was driven primarily by continued growth in the MPP portfolio, credit migration trends, and changes in the economic forecasts used in the credit models, partially offset by lower net charge-offs.

The provision for unfunded loan commitments was $35,000 for the three months ended June 30, 2025, as compared to a benefit of $99,000 for the three months ended June 30, 2024. The benefit in the 2024 period reflects lower levels of unfunded commitments driven primarily by continued run-off in the construction loan portfolio.

For the six months ended June 30, 2025, the total provision for credit losses was $1.9 million, as compared to a benefit of $60,000 for the same period in 2024. The provision for credit losses related to loans was $1.9 million for the six months ended June 30, 2025, reflecting net charge-offs of $747,000 and an ending allowance for credit losses of $12.4 million. For the six months ended June 30, 2024, the provision for credit losses related to loans was $728,000, reflecting $733,000 in net charge-offs and an ending allowance for credit losses of $12.3 million. The increase in provision for credit losses for the six months ended June 30, 2025, as compared to the same period in 2024, reflects continued continued growth in the MPP portfolio, credit migration trends, and changes in the economic forecasts used in the credit models, partially offset by lower net charge-offs.

The provision for unfunded loan commitments was a benefit of $55,000 for the six months ended June 30, 2025, as compared to a benefit of $788,000 for the six months ended June 30, 2024. The benefits in both the periods reflects lower levels of unfunded commitments driven primarily by continued run-off in the construction loan portfolio.

Noninterest Income

The following table presents the major components of our noninterest income for the three and six month periods ended June 30, 2025 and 2024:

(Dollars in thousands) Noninterest Income	For the Three Months Ended June 30,		$ Increase (Decrease)	% Change
	2025	2024		
Service charges on deposits and other fees	$ 239	$ 516	$ (277)	(53.7) %
Loan servicing fees	1,525	2,397	(872)	(36.4) %
MPP fees	1,355	1,341	14	1.0 %
Net gain on sale of loans	19,351	13,714	5,637	41.1 %
Other noninterest income	(32)	(1,063)	1,031	(97.0) %
	$ 22,438	**$ 16,905**	**$ 5,533**	**32.7 %**

(Dollars in thousands) Noninterest Income	For the Six Months Ended June 30,		$ Increase (Decrease)	% Change
	2025	2024		
Service charges on deposits and other fees	$ 419	$ 1,024	$ (605)	(59.1) %
Loan servicing fees	2,520	6,259	(3,739)	(59.7) %
MPP fees	2,496	2,285	211	9.2 %
Net gain on sale of loans	37,938	25,065	12,873	51.4 %
Other noninterest income	1,939	(1,083)	3,022	(279.0) %
	$ 45,312	**$ 33,550**	**$ 11,762**	**35.1 %**

For the three months ended June 30, 2025, noninterest income was $22.4 million, an increase of $5.5 million compared to the same period in 2024, driven primarily by higher net gains on sales of loans and other noninterest income, partially offset by lower loan servicing fees. For the six months ended June 30, 2025, noninterest income was $45.3 million, an increase of $11.8 million compared to the same period in 2024, driven primarily by higher net gains on sales of loans and other noninterest income, partially offset by lower loan servicing fees.

The following tables present the major components of our loan servicing fees and net gain on sale of loans for the three and six month periods ended June 30, 2025 and 2024:

(Dollars in thousands) Loan Servicing Fees	For the Three Months Ended June 30, 2025	 2024	$ Increase (Decrease)	% Change
Fees on servicing	$ 1,827	$ 3,312	$ (1,485)	(44.8) %
Change in fair value of MSRs [1]	(302)	(915)	613	(67.0) %
	$ 1,525	**$ 2,397**	**$ (872)**	**(36.4)%**

(1) - Includes change in fair value and paid in full MSRs.

(Dollars in thousands) Loan Servicing Fees	For the Six Months Ended June 30, 2025	 2024	$ Increase (Decrease)	% Change
Fees on servicing	$ 3,529	$ 8,981	$ (5,452)	(60.7) %
Change in fair value of MSRs [1]	(1,009)	(2,722)	1,713	(62.9) %
	$ 2,520	**$ 6,259**	**$ (3,739)**	**(59.7)%**

(1) - Includes change in fair value and paid in full MSRs.

For the three months ended June 30, 2025, loan servicing fees decreased by $872,000 compared to the same period in 2024. For the six months ended June 30, 2025, loan servicing fees decreased by $3.7 million compared to the same period in 2024. The decrease in loan servicing fees in both the three and six month periods of 2025, as compared to the same periods in 2024, was driven primarily by lower revenues associated with a large bulk sale of serviced loans in the first quarter of 2024, as we made the strategic decision to scale back that part of our business. The decreases in each respective period was partially offset by an increase in the fair value of the MSR.

For the three months ended June 30, 2025, MPP fees increased by $14,000, as compared to the same period in 2024. For the six months ended June 30, 2025, MPP fees increased by $211,000 compared to the same period in 2024. The increase in MPP fees in both the three and six month periods of 2025, as compared to the same periods in 2024, was driven primarily by an increase in overall volume of the MPP program.

(Dollars in thousands) Net Gain on Sale of Loans	For the Three Months Ended June 30, 2025	 2024	$ Increase (Decrease)	% Change
Capitalized MSRs	$ 902	$ 1,608	$ (706)	(43.9) %
Change in fair value of loans [1]	3,340	(658)	3,998	(607.6) %
Gain on sale of loans, net [2]	15,109	12,764	2,345	18.4 %
	$ 19,351	**$ 13,714**	**$ 5,637**	**41.1 %**

(1) - Includes the change in fair value of interest rate locks, loans held for sale, and held for investment.

(2) - Includes (a) net gain on sale of loans, (b) loan origination fees, points and costs, (c) provision from investor reserves, (d) gain or loss from forward commitments from hedging, and (e) fair value of LRA.

(Dollars in thousands) Net Gain on Sale of Loans	For the Six Months Ended June 30, 2025	 2024	$ Increase (Decrease)	% Change
Capitalized MSRs	$ 1,968	$ 2,093	$ (125)	(6.0) %
Change in fair value of loans [1]	8,018	(1,843)	9,861	(535.1) %
Gain on sale of loans, net [2]	27,952	24,815	3,137	12.6 %
	$ 37,938	**$ 25,065**	**$ 12,873**	**51.4 %**

(1) - Includes the change in fair value of interest rate locks, loans held for sale, and held for investment.

(2) - Includes (a) net gain on sale of loans, (b) loan origination fees, points and costs, (c) provision from investor reserves, (d) gain or loss from forward commitments from hedging, and (e) fair value of LRA.

For the three months ended June 30, 2025, net gain on sale of loans increased by $5.6 million, as compared to the same period in 2024. This was driven primarily by an increase in the fair value of loans of $4.0 million, which included a $1.4 million increase related to an agreement entered into at the end of the second quarter of 2025 to sell $40.3 million in unpaid principal balance of home equity (non AIO) loans, along with higher gains on the sales of loans resulting from increased saleable mortgage volume over the same period.

For the six months ended June 30, 2025, gain on sale of loans increased by $12.9 million, as compared to the same period in 2024. This was driven primarily by an increase in the fair value of loans of $9.9 million, which was attributable to lower market interest rates, higher gains on sale of loans, and the $1.4 million increase in fair value from the home equity (non AIO) loan sale agreement.

For the three months ended June 30, 2025, other noninterest income increased by $1.0 million, as compared to the same period in 2024. Included in other noninterest income for the three month period ended June 30, 2024 was a loss of $1.1 million on the sale of MSRs. We did not have any such losses in the 2025 period. For the six months ended June 30, 2025, other noninterest income increased by $3.0 million compared to the same period in 2024. For the six months ended June 30, 2025, we recognized a $2.0 million gain on debt extinguishment of $102.5 million in FHLB advances, and we did not have any such debt extinguishment gain or loss for the same period in 2024. Additionally, in the six months ended June 30, 2024 we recognized the loss of $1.1 million on the sale of MSRs. We had no such loss in the 2025 period.

Noninterest Expense

The following tables present the major components of our noninterest expense for the three and six month periods ended June 30, 2025 and 2024:

(Dollars in thousands) Noninterest Expense	For the Three Months Ended June 30, 2025	2024	$ Increase (Decrease)	% Change
Salaries and employee benefits	22,234	20,018	$ 2,216	11.1 %
Occupancy and equipment	918	1,146	(228)	(19.9) %
Data processing expense	2,155	2,341	(186)	(7.9) %
Professional fees	1,793	1,082	711	65.7 %
Other taxes and insurance	1,190	1,482	(292)	(19.7) %
Other	3,432	1,731	1,701	98.3 %
	$ 31,722	**$ 27,800**	**$ 3,922**	**14.1 %**

(Dollars in thousands) Noninterest Expense	For the Six Months Ended June 30, 2025	2024	$ Increase (Decrease)	% Change
Salaries and employee benefits	42,677	38,039	$ 4,638	12.2 %
Occupancy and equipment	1,890	2,442	(552)	(22.6) %
Data processing expense	4,262	4,840	(578)	(11.9) %
Professional fees	3,021	2,201	820	37.3 %
Other taxes and insurance	2,977	3,292	(315)	(9.6) %
Other	6,267	4,971	1,296	26.1 %
	$ 61,094	**$ 55,785**	**$ 5,309**	**9.5 %**

For the three months ended June 30, 2025, noninterest expense was $31.7 million, an increase of $3.9 million, compared to the same period in 2024. For the six months ended June 30, 2025, noninterest expense was $61.1 million, an increase of $5.3 million, compared to the same period in 2024. Salaries and employee benefits expense represent the largest component of our noninterest expense, which are broken out in the below tables for the three and six month periods ended June 30, 2025 and 2024:

(Dollars in thousands) Salaries and Employee Benefits	For the Three Months Ended June 30, 2025	2024	$ Increase (Decrease)	% Change
Salaries and other compensation	$ 8,737	$ 9,108	$ (371)	(4.1) %
Salary deferral from loan origination	(991)	(1,159)	168	(14.5) %
Bonus and incentive compensation	3,564	2,260	1,304	57.7 %
Mortgage production - variable compensation	7,730	6,621	1,109	16.7 %
Employee benefits	3,194	3,188	6	0.2 %
Total salaries and employee benefits	**$ 22,234**	**$ 20,018**	**$ 2,216**	**11.1 %**

(Dollars in thousands) Salaries and Employee Benefits	For the Six Months Ended June 30, 2025	2024	$ Increase (Decrease)	% Change
Salaries and other compensation	$ 17,343	$ 18,181	$ (838)	(4.6) %
Salary deferral from loan origination	(1,959)	(2,137)	178	(8.3) %
Bonus and incentive compensation	7,206	3,958	3,248	82.1 %
Mortgage production - variable compensation	13,788	12,487	1,301	10.4 %
Employee benefits	6,299	5,550	749	13.5 %
Total salaries and employee benefits	**$ 42,677**	**$ 38,039**	**$ 4,638**	**12.2 %**

For the three months ended June 30, 2025, salaries and employee benefits increased by $2.2 million, as compared to the same period in 2024. Of this increase, $1.3 million was from higher bonus and incentive compensation expense, attributable to the improvement in financial performance and restricted stock expense, and an increase of $1.1 million in variable commission compensation associated with higher mortgage volume. Partially offsetting this was a decrease in base salaries and other compensation of $371,000 largely attributable to the Company's strategic initiative to private label outsource its non-specialized mortgage servicing.

For the six months ended June 30, 2025, salaries and employee benefits increased by $4.6 million, as compared to the same period in 2024. Of this increase, $3.2 million was from higher bonus and incentive compensation expense, attributable to the improvement in financial performance and restricted stock expense, $1.3 million was from higher variable commission compensation associated with higher mortgage volume and $749,000 was from higher employee benefits expense. Partially offsetting this was a decrease in base salaries and other compensation of $838,000 largely attributable to the Company's strategic initiative to private label outsource its non-specialized mortgage servicing.

For the three months ended June 30, 2025, occupancy and equipment expense decreased by $228,000, as compared to the same period in 2024. For the six months ended June 30, 2025, occupancy and equipment expense decreased by $552,000, as compared to the same period in 2024. The decrease in occupancy and equipment expense in both the three and six month periods of 2025, as compared to the same periods in 2024, was driven primarily by lower building lease expense.

For the three months ended June 30, 2025, data processing fees decreased by $186,000, as compared to the same period in 2024. For the six months ended June 30, 2025, data processing fees decreased by $578,000, as compared to the same period in 2024. These decreases from 2024 are consistent with our outsourcing of mortgage servicing as much of our data processing costs are unit based so lower volume results in lower data processing costs.

For the three months ended June 30, 2025, professional fees increased by $711,000, as compared to same period in 2024, and increased by $820,000 for the six months ended June 30, 2025, as compared to the same period in 2024. The increase in professional fees in both the three and six month periods of 2025, as compared to the same periods in 2024, was driven primarily by higher public company compliance costs.

For the three months ended June 30, 2025, other expenses increased by $1.7 million, as compared to the same period in 2024. For the six months ended June 30, 2025, other expenses increased by $1.3 million, as compared to the same period in 2024. Other expenses include several categories of expenses including sub-servicing expense, marketing, loan collection, credit reporting fees, loan repurchase reserve and other variable expenses tied to mortgage volume. The largest driver of the increase in other expenses in both the three and six month periods of 2025, as compared to the same periods in 2024, was from higher sub-servicer expenses resulting from the Company's strategic initiative to private label outsource its non-specialized mortgage servicing. This incremental sub-servicer expense was more than offset by the savings in salaries and benefits expense achieved as a result of the strategic initiative. The remainder of the increase in other expenses in both the three and six month periods of 2025, as compared to the same periods in 2024, was driven primarily by lower levels of loan repurchase reserve net benefit, partially offset by lower expenses across a number of categories.

We had a loan repurchase reserve net benefit of $98,000 in the three months ended June 30, 2025 compared to a net benefit of $1.1 million for the same period in 2024. For the six months ended June 30, 2025, we had a loan repurchase reserve net benefit of $165,000 compared to a net benefit of $2.0 million for the same period in 2024.

Income Tax Expense

For the three months ended June 30, 2025, total income tax expense was $6.3 million, as compared to $4.2 million for the same period in 2024. For the six months ended June 30, 2025, total income tax expense was $11.7 million, as compared to $8.1 million for the same period in 2024. The effective tax rate was 23.67% for the both the three and six months ended June 30, 2025, as compared to 24.03% and 24.24%, respectively, for the same periods in 2024.

Preferred Stock Dividends

For the three months ended June 30, 2025, our preferred stock dividend expense was $2.3 million, as compared to $1.8 million for the same period in 2024. For the six months ended June 30, 2025, our preferred stock dividend expense was $4.5 million, as compared to $4.3 million for the same period in 2024. Preferred stock dividend expense for the three and six month periods ended June 30, 2025 include an additional special one-time dividend of $2.50 per share paid on June 30, 2025 on the Company's 8.25% Fixed-to-Floating Rate Non-Cumulative Perpetual Preferred Stock, Series A ("Series A"), and the Company's 7.25% Fixed-to-Floating Rate Non-Cumulative Perpetual Preferred Stock, Series B ("Series B"). This dividend was paid in connection with amendments made to the Company's Series A and Series B preferred stock to extend the registration rights agreements deadlines to January 2, 2026 for Series A and to January 2, 2027 for Series B. Preferred stock dividend expense for the three and six month periods ended June 30, 2024 include a gain related to the repurchase of $5 million in preferred stock.

Operating Segment Analysis

We have two reporting segments, Retail Banking and MPP. As discussed in Note 20 of our Consolidated Financial Statements, our reportable segments have been determined based on management's focus and internal reporting structure.

The MPP segment provides collateralized mortgage purchase facilities to independent mortgage bankers nationwide. The Retail Banking segment provides a vast array of financial products and services to consumers nationwide. These include residential mortgages, AIO Loans, other consumer loans, and loan servicing, as well as various types of deposit products, including checking, savings and time deposit accounts. It also includes general and administrative expenses for the enterprise-wide support functions, which are allocated among the segments, internal funds transfer pricing offsets resulting from allocations to or from the other segments, and certain elimination entries.

Our reported segments and the financial information disclosed in the reported segments are not necessarily comparable with similar information reported by other financial institutions. Furthermore, changes in management structure or allocation methodologies and procedures may result in future changes to previously reported operating segment financial information.

The following tables presents our reported segment results for the three and six month periods ended June 30, 2025 and 2024:

	As of or for the Three Months Ended June 30,					
	2025			2024		
(Dollars in thousands)	Retail Banking	MPP	Total	Retail Banking	MPP	Total
Interest income	$ 47,976	$ 45,117	$ 93,093	$ 51,158	$ 27,741	$ 78,899
Interest expense	(56,573)	—	(56,573)	(50,302)	—	(50,302)

Income tax expense	(6,466)	(5,192)	(11,658)	(4,831)	(3,317)	(8,148)
Net income before preferred dividends	**$ 20,849**	**$ 16,743**	**$ 37,592**	**$ 14,770**	**$ 10,695**	**$ 25,465**
Average balance sheet assets	$ 3,552,020	$ 2,179,240	$ 5,731,260	$ 3,683,285	$ 1,249,486	$ 4,932,771
Period end assets	$ 3,539,226	$ 2,891,668	$ 6,430,894	$ 3,719,424	$ 1,504,587	$ 5,224,011

(1) Noninterest income for MPP only includes MPP related fees. All other noninterest income is reflected in Retail Banking.
(2) Includes data processing, professional services, office supplies and other miscellaneous expenses.
(3) Reflects corporate overhead expense allocations used by both business segments; primarily consisting of corporate admin, finance, technology, human resources, risk, marketing and occupancy related allocations.

MPP

For the three months ended June 30, 2025, our MPP segment reported net income before preferred dividends of $9.9 million, an increase of $4.0 million, or 68.8%, over the $5.9 million reported for the same period in 2024. This increase was driven primarily by an 86.1% increase in average balances which drove higher net interest income and fees. For the six months ended June 30, 2025, our MPP segment reported net income before preferred dividends of $16.7 million, an increase of $6.0 million, or 56.5%, over the $10.7 million reported for the same period in 2024. This increase was driven primarily by a 74.4% increase in average balances which drove higher net interest income and fees. The increase in average balances in both periods reflects strong loan growth from new customer acquisition and market share gains.

Retail Banking

For the three months ended June 30, 2025, our Retail Banking segment reported net income before preferred dividends of $10.4 million, an increase of $3.1 million, or 41.9%, over the $7.4 million reported for the same period in 2024. For the six months ended June 30, 2025, our Retail Banking segment reported net income before preferred dividends of $20.8 million, an increase of $6.1 million, or 41.2%, over the $14.8 million reported for the same period in 2024. These increases were driven primarily by higher interest income and noninterest income, which outpaced the increase in noninterest expense. The increase in noninterest expense reflects higher variable mortgage commissions and higher professional fees and overhead associated with being a public company.

Discussion and Analysis of Financial Condition

The following table summarizes selected components of our balance sheets at June 30, 2025 and December 31, 2024:

(Dollars in thousands)	June 30, 2025	December 31, 2024
BALANCE SHEET DATA		
Total assets	$ 6,430,894	$ 5,224,011
Cash and cash equivalents	415,659	376,295
Equity and debt securities	10,114	9,881
FHLB stock	69,574	69,574
Loans and loans held for sale, net	5,815,630	4,633,637
Deposits	4,474,071	3,422,555
Borrowings	1,274,929	1,258,750
Subordinated debentures	29,181	43,933
Total equity capital	604,277	462,490

Total Assets

Total assets were $6.43 billion at June 30, 2025, as compared to $5.22 billion at December 31, 2024. This $1.21 billion increase in total assets was driven primarily by higher balances of net loans (particularly MPP loans) and loans held for sale, along with higher cash and cash equivalents.

Loan Portfolio

The following table presents the balance and associated percentage of each major loan type within our portfolio, including net deferred fees and costs, as of the dates indicated:

	June 30, 2025		December 31, 2024	
(Dollars in thousands)	**Amount**	**% of Total Gross Loans**	**Amount**	**% of Total Gross Loans**
Residential:				
Construction	$ 27,144	0.5%	$ 51,408	1.1%
All-in-One (AIO)[1]	662,829	11.4%	612,080	13.2%
Other consumer / home equity[1]	54,495	0.9%	97,258	2.1%
Residential mortgage[2]	1,859,814	31.9%	1,948,175	41.9%
Commercial	856	0.0%	8,013	0.2%
MPP	2,891,668	49.6%	1,710,820	36.8%
Total loans held for investment	5,496,806	94.3%	4,427,754	95.3%
Loans held for sale	331,199	5.7%	217,073	4.7%
Total gross loans (HFI and HFS)	$ 5,828,005	100.0%	$ 4,644,827	100.0%

(1) AIO and Other Consumer / Home Equity are aggregated into Home equity lines of credit loans within the tables in our consolidated financial statements.

(2) Residential Mortgage loans consist of Closed end first liens, Closed end second liens, and Land development loans.

Our loan portfolio includes both loans held for investment and loans held for sale. Our loans held for investment portfolio comprises over 94% of our total gross loans.

Our MPP business offers facilities to independent mortgage banking companies located nationwide. These are floating rate, short term advances that are collateralized by one-to-four family mortgage loans that our mortgage bankers are preparing to be delivered to the secondary mortgage market. In most cases, these mortgage loans sit in our mortgage banking client's facility for less than 30 days after the loan is purchased.

Residential mortgage loans include fixed or adjustable-rate residential real estate loans collateralized by one-to-four family properties. Our portfolio is geographically diversified across the United States. To mitigate interest rate risk, most of the loans we choose to hold in our portfolio are floating rate loans. The majority of our residential mortgage loans at June 30, 2025 are first liens.

AIO loans are floating rate, first mortgage revolving equity loans that include a checking account linked to the revolving equity loans.

We also have a smaller portfolio of construction loans, home equity lines of credit, and commercial loans, which combined represented less than 2% of the overall loan portfolio as of June 30, 2025.

At June 30, 2025, our total loans net of allowance for credit losses including loans held for sale was $5.82 billion, as compared to $4.64 billion on December 31, 2024. This increase of $1.18 billion since year end 2024 was driven primarily by the strong growth in MPP and AIO balances, which increased by $1.18 billion and $50.7 million, respectively. Growing the MPP business remains one of our top strategic priorities, and reflects the strength of our scalable technology, long-standing strong relationships, as well as our ability to capitalize on recent market disruption within the business line. We also remain focused on prudently growing the portfolio of first-lien home equity lines, which includes AIO loans.

As of June 30, 2025, residential mortgage comprised 31.9% of our total loan portfolio compared to 49.6% for MPP and 11.4% for AIO loans. As of December 31, 2024, residential mortgage comprised 41.9% of our total loan portfolio compared to 36.8% for MPP and 13.2% for AIO loans. The reduction in residential mortgages reflects normal amortization and pay-offs, as we are not strategically growing this portfolio.

Contractual Maturities and Rate Structures of Loan Portfolio

The following table sets forth the contractual maturities and rate structures at June 30, 2025 and December 31, 2024:

Contractual Loan Maturities as of June 30, 2025

	Due in 1 Year or less		Due after 1 Year through 5 years		Due after 5 Years through 15 years		Due after 15 years

(1) AIO and Other Consumer / Home Equity are aggregated into Home equity lines of credit loans within the tables in our consolidated financial statements.

(2) Residential Mortgage loans consist of Closed end first liens, Closed end second liens, and Land development loans.

Our mortgage loan portfolio has ARMs which reset annually after the initial fixed rate period, which ranges from one to 10 years. AIO loans are adjustable rate and reset monthly. Expected maturities may differ from contractual maturities if borrowers have the right to call or prepay obligations with or without call or prepayment penalties.

As of June 30, 2025, 49.7% of our total loan portfolio had a contractual maturity of less than one year, up from 37.3% at December 31, 2024. The increase was primarily due to growth in our MPP business over this period. Our MPP facilities are floating rate and generally have terms of 30 days or less given that is the time period that a funded mortgage stays in our mortgage banking client's facility prior to the sale of the mortgage in the secondary market. Very few of our loans have intermediate contractual maturities of between one and fifteen years. As of June 30, 2025, 49.8% of total loans had contractual maturities of longer than 15 years, compared to 62.1% at December 31, 2024. For our two largest categories of long duration loans as of June 30, 2025, 76.4% of residential mortgage and 100% of our AIO Loans were floating rate.

Nonperforming Assets

The following table provides details of our nonperforming and restructured assets (including both loans held for investment and loans held for sale) as of the dates presented and certain other related information:

(Dollars in thousands)	June 30, 2025	December 31, 2024
Nonaccrual loans[1]:		
Commercial	162	118
Construction	2,555	1,921
Land development	4,582	2,312
Home equity lines of credit	13,953	10,807
First lien mortgage	31,030	25,706
First lien mortgage wholly or partially guaranteed by the U.S Government	27,577	32,159
Junior lien mortgage	2,120	1,532
MPP	—	—
	81,979	74,555
Loans past due 90 days or more and still accruing[1]:		
Commercial	—	—
Construction	—	—
Land development	354	—
Home equity lines of credit	351	200
First lien mortgage	2,481	3,823
First lien mortgage wholly or partially guaranteed by the U.S Government	974	346
Junior lien mortgage	752	30
MPP	—	—
	4,912	4,399
Total nonperforming loans	86,891	78,954
Other real estate owned	203	3,030
Total nonperforming assets	$ 87,094	$ 81,984
Nonaccrual loans to total loans	1.41%	1.61%
Nonperforming loans to total loans	1.49%	1.70%
Nonperforming assets to total assets	1.35%	1.57%
Allowance for credit losses to nonaccrual loans	15.10%	15.01%
Ratios excluding loans wholly or partially guaranteed by the U.S Government		
Nonaccrual loans to total loans	0.93%	0.91%
Nonperforming loans to total loans	1.01%	1.00%
Nonperforming assets to total assets	0.91%	0.95%
Allowance for credit losses to nonaccrual loans	22.75%	26.39%

(1) Includes loans which are reported at fair value (see Note 17 of our consolidated financial statements).

At June 30, 2025, nonperforming assets were $87.1 million compared to $82.0 million at December 31, 2024. Nonperforming assets as a percent of total assets was 1.35% at June 30, 2025 compared to 1.57% at December 31, 2024.

A substantial portion of the Company's non-performing loans are wholly or partially guaranteed by the U.S. Government, so asset quality metrics within this Quarterly Report on Form 10-Q are shown with and without these guaranteed loans. Excluding the portion of our loans that are wholly or partially guaranteed by the U.S. Government, nonperforming assets to total assets decreased to 0.91% at June 30, 2025, compared to 0.95% at December 31, 2024. At June 30, 2025, approximately 33% of our nonperforming loans have a form of government guarantee.

The Company uses a risk grading system for our loans to aid us in evaluating the overall credit of our loan portfolio and assessing the adequacy of our allowance for credit losses. All loans are categorized into a risk category at the time of origination. Loans are re-evaluated for proper risk grading as new information such as payment patterns, collateral condition and other relevant information comes to our attention. Our classified assets are described in more detail in Note 3 of the Notes to Consolidated Financial Statements.

Allowance for Credit Losses and Net Charge-Offs

The allowance for credit losses is established through a provision for credit losses charged to operations. Loans are charged against the allowance for credit losses when management believes that the collectability of the principal is unlikely. Subsequent recoveries of previously charged off amounts, if any, are credited to the allowance for credit losses. The allowance for credit losses is evaluated on a regular basis by management and is based on management's periodic review of the collectability of the loans considering historical experience, the nature and volume of the loan portfolio, adverse situations that may affect the borrower's ability to repay, estimated value of any underlying collateral, and prevailing economic conditions. This evaluation is inherently subjective, as it requires estimates that are susceptible to significant revision as more information becomes available. While the entire allowance for credit losses is available to absorb losses from all loans, the following table represents management's allocation of our allowance for credit losses by loan category, and the percentage of allowance for credit losses in each category, for the periods indicated:

	June 30, 2025		December 31, 2024	
(Dollars in thousands)	**Dollars**	**% of Total**	**Dollars**	**% of Total**
Collectively allocated for impairment:				
Commercial	$ 3	—%	$ 32	0.3%
Construction	382	3.1%	390	3.5%

Allowance for credit losses to loans held for investment	0.23%		0.28%	
Net charge-offs (recoveries) to average loans	0.03%		0.03%	

(1) Net charge-offs annualized for interim period.

The allowance for credit losses was 0.23% of total loans at June 30, 2025, as compared to 0.25% as of December 31, 2024. Management estimates the allowance by using relevant available information from internal and external sources related to historical loss experience, current borrower risk characteristics, current economic conditions, reasonable and supportable forecasts, and other relevant factors. The allowance is measured on a collective or pool basis when similar risk characteristics exist or on an individual basis when loans have unique risk characteristics which differentiate them from other loans within the loan segment. The process for estimating credit losses incorporates methodologies and procedures specific to the residential and commercial loan portfolios, each of which has unique risk characteristics. Our allowance for credit losses methodology is described in more detail in Notes 1 and 3 of the Notes to Consolidated Financial Statements.

Our allowance for credit losses, and associated percentage of total loans, reflect the relative credit risk of our loan portfolio. These include the seasoning of the portfolio, LTV, FICO score, debt to income ratio ("DTI") and collateral coverage. Given these risk characteristics, and the stark contrast to other financial institutions with a commercial heavy loan portfolio, our allowance and associated ratios will be much lower than those of bank peers with similar asset size. This nuance is also evidenced by the low level of charge-offs we have historically incurred. Additionally, as discussed above, our MPP portfolio makes up an increasing portion of our total loan portfolio and we have yet to experience any loss on that portfolio. We also have purchased mortgage insurance on certain high loan to value loans, further minimizing our loss potential on those loans. Our annualized net charge-off rate was 0.04% for the three months ended June 30, 2025 and 0.03% for the six months ended June 30, 2025, as compared to 0.07% and 0.03%, respectively, for the same periods in 2024.

Investment Portfolio

The Company has historically maintained a very small debt securities portfolio relative to other banking institutions, preferring to invest in highly liquid loans or hold its liquidity in cash or cash equivalents. At June 30, 2025, debt securities totaled $8.8 million, or 0.14%, of total assets compared to $8.6 million, or 0.16%, at December 31, 2024. The increase in balance from year end 2024 was due to an increase in the fair value of the securities held.

The following table presents the carrying value of our investment portfolio as of the dates indicated:

(Dollars in thousands)	June 30, 2025 Carrying Value	June 30, 2025 % of Total	December 31, 2024 Carrying Value	December 31, 2024 % of Total
Available for sale securities:				
Corporate debt	$ 8,785	100.0%	$ 8,576	100.0%
Total available for sale securities	8,785	100.0%	8,576	100.0%
Total investment securities	$ 8,785	100.0%	$ 8,576	100.0%

The following table presents the par value of our debt securities by their stated maturities, as well as the weighted average yields for each maturity range as of the dates indicated (dollars in thousands):

(1) Weighted-average yields on investment securities are computed based on par value and exclude any premiums or discounts recorded. There are no tax-exempt securities in the portfolio.

Deposits

Deposits are the primary source of funding for our business operations. At June 30, 2025, total deposits were $4.47 billion, as compared to $3.42 billion at December 31, 2024. This $1.05 billion increase in deposits since year end 2024 was driven primarily by higher brokered CDs, along with increases in the Company's diversified digital deposit banking platform including non-interest bearing demand, interest-bearing demand, retail CDs and rateboard CDs.

The following table summarizes our deposit composition by average deposits and average rates paid for the periods indicated:

	June 30, 2025			December 31, 2024		
(Dollars in thousands)	Average Amount	Weighted Avg Rate Paid	Percent of Total Deposits	Average Amount	Weighted Avg Rate Paid	Percent of Total Deposits
Noninterest bearing demand	$ 203,177	0.00%	5%	$ 250,135	0.00%	8%
Interest bearing demand	752,548	4.39%	19%	412,396	4.83%	12%
Savings & money market	331,730	3.87%	9%	380,131	4.39%	12%
Time	2,580,565	4.47%	67%	2,221,123	5.16%	68%
Total deposits	$ 3,868,020	4.17%	100%	$ 3,263,785	4.63%	100%

The following tables set forth the maturity of time deposits for the period ending indicated (dollars in thousands):

(dollars in thousands)

June 30, 2025	Three Months or Less	Three to Six Months	Six to Twelve Months	After Twelve Months	Total
Brokered CDs	$ 2,700,547	$ —	$ —	$ 87,330	$ 2,787,877
All other CDs	176,035	76,266	71,768	83,952	408,021
Total time deposits	$ 2,876,582	$ 76,266	$ 71,768	$ 171,282	$ 3,195,898

(dollars in thousands)

December 31, 2024	Three Months or Less	Three to Six Months	Six to Twelve Months	After Twelve Months	Total
Brokered CDs	$ 1,731,707	$ —	$ —	$ 87,330	$ 1,819,037
All other CDs	69,327	60,775	151,851	87,979	369,932
Total time deposits	$ 1,801,034	$ 60,775	$ 151,851	$ 175,309	$ 2,188,969

Total uninsured deposits were $342.5 million at June 30, 2025 and $309.9 million at December 31, 2024.

The following table shows the portion of time deposits that are uninsured, by remaining time until maturity, at June 30, 2025:

(Dollars in thousands)	June 30, 2025
3 months or less	$ 57,808
Over 3 through 6 months	20,281
Over 6 through 12 months	17,799
Over 12 months	9,986
Total:	**$ 105,874**

Borrowings

Another key source of funding for the Company are collateralized borrowings from the FHLB. At June 30, 2025, our total FHLB borrowings were $1.27 billion, as compared to $1.26 billion at December 31, 2024. At June 30, 2025, we had $1.30 billion in additional borrowing capacity at the FHLB. Early in the first quarter of 2025, we paid off $102.5 million in FHLB advances, recognizing a gain of $2.0 million. This extinguishment was funded through our receipt of new contractual interest bearing deposits with a similar duration, as part of our strategy to reduce the wholesale funding ratio. At June 30, 2025, we had $162.4 million in outstanding short-term borrowings and our line of credit with the FHLB. We had no such borrowings at December 31, 2024. We also make use of overnight borrowings when necessary, but did not have any overnight borrowings at either June 30, 2025 or December 31, 2024.

The following table is a summary of our outstanding FHLB advances for the periods indicated:

(Dollars in thousands)	June 30, 2025	December 31, 2024
Period ending balance	$ 1,274,929	$ 1,258,750
Average balance during period	1,221,142	1,300,488
Maximum outstanding at any month end	1,281,158	1,371,422
Weighted average rate paid	3.86%	3.82%

Subordinated Debentures and Subordinated Debentures Issued through Trusts

At June 30, 2025, we had $25.0 million in outstanding subordinated debenture notes, which is detailed in the tables below and described further in Note 9 to the Condensed Consolidated Financial Statements included within this report.

At December 31, 2024, we had $40.0 million in outstanding subordinated debenture notes, which were issued to investors in two separate private placements, one in 2018 and one in 2024. On January 1, 2025, we redeemed $15.0 million of these subordinated debentures.

At both June 30, 2025 and December 31, 2024, we had $5.0 million in subordinated debentures issued through trusts due on March 17, 2034, but callable on March 17, 2025.

The following tables provide a summary of our outstanding subordinated notes and subordinated debentures issued through trusts for the periods indicated:

Subordinated Notes and Subordinated Debentures issued through Trusts as of June 30, 2025

(Dollars in thousands)	Issuance Date	Amount of Notes	Current Coupon	Next Call Date	Maturity Date
Subordinated notes:					
Fixed to floating due 2034	August 22, 2024	25,000	9.00% (fixed)	September 1, 2029	September 1, 2034
Subordinated debentures issued through trusts:					
Trust preferred due 2034	March 17, 2004	5,000	7.34% (3 mo SOFR + 2.79)%	September 17, 2025	March 17, 2034
		30,000			
Unamortized issuance costs		(819)			
		$ 29,181			

Subordinated Notes and Subordinated Debentures issued through Trusts as of December 31, 2024

(Dollars in thousands)	Issuance Date	Amount of Notes	Current Coupon	Next Call Date	Maturity Date
Subordinated notes:					
Fixed to floating due 2028 (issued at Bank)	September 28, 2018	$ 15,000	8.718% (3 mo SOFR + 4.03)%	January 1, 2025	October 1, 2028
Fixed to floating due 2034	August 22, 2024	25,000	9.00% (fixed)	September 1, 2029	September 1, 2034
Subordinated debentures issued through trusts:					
Trust preferred due 2034	March 17, 2004	5,000	7.74% (3 mo SOFR + 2.79)%	March 17, 2025	March 17, 2034
		45,000			
Unamortized issuance costs		(1,103)			
		$ 43,897			

Impact of Inflation and Changing Prices

The Company's financial statements included herein have been prepared in accordance with accounting principles generally accepted in the United States ("GAAP"). GAAP presently requires the Company to measure financial position and operating results primarily in terms of historic dollars. Changes in the relative value of money due to inflation or recession are generally not considered. The primary effect of inflation on the operations of the Company is reflected in increased operating costs, and the Company has experienced material effects of inflation during the last four fiscal years due to the government's monetary policies and the current economic climate. In management's opinion, changes in interest rates affect the financial condition of a financial institution to a far greater degree than changes in the inflation rate. While interest rates are greatly influenced by changes in the inflation rate, they do not necessarily change at the same rate or in the same magnitude as the inflation rate. Interest rates are highly sensitive to many factors that are beyond the control of the Company, including changes in the expected rate of inflation, the influence of general and local economic conditions and the monetary and fiscal policies of the United States government, its agencies and various other governmental regulatory authorities, among other things, as further discussed in the next section.

Liquidity

Liquidity refers to our capacity to meet our cash obligations at a reasonable cost. Our cash obligations require us to have cash flow that is adequate to fund loan growth and maintain on-balance sheet liquidity while meeting present and future obligations of deposit withdrawals, borrowing maturities and other contractual cash obligations. In managing our cash flows, management regularly confronts situations that can give rise to increased liquidity risk. These include funding mismatches, market constraints in accessing sources of funds and the ability to convert assets into cash. Changes in economic conditions or exposure to credit, market, operational, legal and reputational risks also could affect our Bank's liquidity risk profile and are considered in the assessment of liquidity management. The Company is a corporation separate and apart from our Bank and, therefore, must provide for its own liquidity, including liquidity required to meet its debt service requirements on its senior notes and junior subordinated debentures. The Company's main source of cash flow is dividends declared and paid to it by the Bank.

There are statutory and regulatory limitations that affect the ability of our Bank to pay dividends to the Company. See the section entitled "Supervision and Regulation" and our forward looking statements in our 2024 Form 10-K for more information. We believe that these limitations will not impact our ability to meet our ongoing short-term cash obligations. For contingency purposes, the Company typically maintains a minimum level of cash to fund two year's projected operating cash flow needs and debt service. We continually monitor our liquidity position to ensure that our assets and liabilities are managed in a manner to meet all reasonably foreseeable short-term, long-term and strategic liquidity demands. Management has established a comprehensive management process for identifying, measuring, monitoring and controlling liquidity risk.

Because of its critical importance to the viability of our Bank, liquidity risk management is fully integrated into our risk management processes. Critical elements of our liquidity risk management include: effective corporate governance consisting of oversight by the board of directors and active involvement by management; appropriate strategies, policies, procedures and

limits used to manage and mitigate liquidity risk; comprehensive liquidity risk measurement and monitoring systems including stress tests that are commensurate with the complexity of our business activities; active management of intraday liquidity and collateral; an appropriately diverse mix of existing and potential future funding sources; adequate levels of highly liquid marketable securities free of legal, regulatory, or operational impediments, that can be used to meet liquidity needs in stressful situations; comprehensive contingency funding plans that sufficiently address potential adverse liquidity events and emergency cash flow requirements; and internal controls and internal audit processes sufficient to determine the adequacy of our Bank's liquidity risk management process.

The Company considers the maintenance of adequate liquidity to be an important part of managing risk. Consistent with our balance sheet strategy, we have intentionally kept our liquidity primarily in cash and interest-bearing deposits rather than investing heavily in investment securities, which typically includes significant unrealized gains or losses.

Our liquidity position is supported by management of our liquid assets and liabilities and access to alternative sources of funds. Our liquidity requirements are met primarily through our deposits, FHLB advances and the principal and interest payments we receive on loans and investment securities. Cash on hand, cash at third-party banks, and maturing or prepaying balances in our loan portfolios are our most liquid assets. Additionally, the Company has a unilateral right not to fund its MPP facilities, it could exercise within 30 days, if needed or as necessary, to generate additional liquidity. Other sources of liquidity that are routinely available to us include funds from retail and wholesale deposits, advances from the FHLB and proceeds from the sale of loans. See "FHLB Advances" above for more information regarding FHLB advances that are available to us. Less commonly used sources of funding include other borrowings and lines of credit. We believe we have ample liquidity resources to fund future growth and meet other cash needs as necessary.

Capital Adequacy

We and our Bank are subject to various regulatory capital requirements administered by the federal and state banking regulators. Our capital management consists of providing equity to support our current operations and future growth. Failure to meet minimum regulatory capital requirements may result in mandatory and possible additional discretionary actions by regulators that, if undertaken, could have a direct material effect on our consolidated financial statements. Under capital adequacy guidelines and the regulatory framework for prompt corrective action, our Bank must meet specific capital guidelines that involve quantitative measures of our assets, liabilities and off-balance sheet items as calculated under regulatory accounting policies. At June 30, 2025, we and our Bank exceeded all applicable minimum regulatory capital requirements, including the capital conservation buffer applicable to our Bank, and our Bank qualified as "well-capitalized" for purposes of the FDIC's prompt corrective action regulations.

The following table presents our regulatory capital ratios as of the dates presented, as well as the regulatory capital ratios that are required by FDIC regulations for our Bank to maintain "well-capitalized" status:

Regulatory Capital Ratios

	Actual		Required for Capital Adequacy Purposes		Required to be Well Capitalized Under PCA	
(Dollars in thousands)	**Amount**	**Ratio**	**Amount**	**Ratio**	**Amount**	**Ratio**
Northpointe Bancshares Inc.						
As of June 30, 2025

Tier 1 capital to RWA	$487,519	11.56%	$252,932	6.00%	$337,242	8.00%
Common Equity Tier 1 to RWA	$487,519	11.56%	$189,699	4.50%	$274,010	6.50%
Tier 1 capital to average assets (leverage)	$487,519	9.09%	$214,419	4.00%	$268,024	5.00%

At June 30, 2025, we had a total of $98.7 million of preferred stock outstanding, as compared to $103.6 million at December 31, 2024. On March 31, 2025, we redeemed 5,000 shares of our 8.25% Fixed-to-Floating Rate Non-Cumulative Perpetual Preferred Stock, Series A for $4.9 million. In 2024, we redeemed an additional 13,000 shares of the Series A Preferred Stock for $11.6 million.

Off-balance Sheet Arrangements

In the normal course of business, we enter into lending commitments that are not on our consolidated balance sheet. The largest component is lending commitments to our MPP customers, which the Company has a unilateral right not to fund. The remainder are undrawn revolving loan commitments on our AIO Loans and undrawn commitments on home equity lines of credit. While these commitments represent contractual cash requirements, a portion of these commitments to extend credit are expected to expire without being drawn upon. Therefore, future commitments do not necessarily represent future cash requirements.

The following is a summary of our off-balance commitments outstanding as of the dates presented.

(Dollars in thousands)	**June 30, 2025**	**December 31, 2024**
Commitments to fund loans held for investment	$ 3,657,280	$ 2,407,551
Unused Commitments	363,644	334,180

Item 3. Quantitative and Qualitative Disclosures About Market Risk

Market risk represents the risk of loss due to changes in market values of assets and liabilities. We incur market risk in the normal course of business through exposures to market interest rates, equity prices, and credit spreads. We have identified interest rate risk as our primary source of market risk. Our primary business activities include gathering retail deposits, non-brokered rateboard time deposits, brokered CDs, and funding from the FHLB and other smaller facilities, which are used to invest in cash and loans. These activities involve interest rate risk, which arises from factors such as timing and volume differences in the repricing of our rate-sensitive assets and liabilities, changes in credit spreads, fluctuations in the general level of market interest rates, and shifts in the shape and level of market yield curves. Changes in interest rates can affect our current and prospective earnings, through volatility in our net interest income and the level of other interest rate-sensitive revenues and operating expenses. Interest rate fluctuations can also influence the underlying economic value of our assets, liabilities and off-balance sheet items. This is driven by the fact that the present values of future cash flows, and potentially the cash flows themselves, may change when interest rates materially move up or down depending on the economic environment.

Interest rate risk is generally considered a significant market risk for financial institutions. The Bank's Asset Liability Committee ("ALCO") establishes broad policy limits with respect to interest rate risk. We have established a system for monitoring our net interest rate sensitivity positions. Our ALCO meets monthly to monitor the level of interest rate risk sensitivity to ensure compliance with the risk and policy limits. Effective management of interest rate risk begins with understanding the dynamic characteristics of assets and liabilities and determining the appropriate interest rate risk posture given business forecasts, management objectives, market expectations, and policy constraints. However, it is important to note that despite these measures, significant changes in interest rates could potentially impact our earnings, liquidity and capital positions.

An asset sensitive position refers to a balance sheet position in which an increase in short-term interest rates is expected to generate higher net interest income, as rates earned on our interest-earning assets would reprice upward more quickly than rates paid on our interest-bearing liabilities, thus expanding our net interest margin. Conversely, a liability sensitive position refers to a balance sheet position in which an increase in short-term interest rates is expected to generate lower net interest income, as rates paid on our interest- bearing liabilities would reprice upward more quickly than rates earned on our interest-earning assets, thus compressing our net interest margin.

We use interest rate risk models and rate shock simulations to assess the interest rate risk ("IRR") sensitivity of net interest income and the economic value of equity ("EVE") over a variety of parallel and non-parallel rate scenarios. A number of assumptions are used to calculate the impact of interest rate fluctuations on our net interest income, including asset prepayment speeds, non-maturity deposit price sensitivity, and decay rates. Due to the inherent use of estimates and assumptions in the model, our actual results may, and most likely will, differ from our simulated results. Any key model or input changes are reported to ALCO monthly. Management engages a third-party to review its IRR assumptions on an annual basis. Key findings are presented to ALCO.

Potential changes to our net interest income in hypothetical rising and declining rate scenarios are calculated at June 30, 2025 and December 31, 2024 and are presented in the table below:

	Net Interest Income Sensitivity			
	12 Month Projection			
(Shock in basis points)	-200	-100	+100	+200
June 30, 2025	-7.21%	-3.59%	3.94%	7.86%
December 31, 2024	-8.91%	-4.35%	5.24%	10.36%

We also model the impact of interest rate changes on our EVE. We base the modeling of EVE on interest rate shocks as shocks are considered more appropriate for EVE, which accelerates future interest rate risk into current capital via a present value calculation of all future cash flows from our Bank's existing inventory of assets and liabilities. The results from our EVE modeling reflect only assets and liabilities that exist on our balance sheet in that period, and do not incorporate the large

increases to noninterest income we generate when industry residential loan originations are significantly higher, such as in 2020 and 2021. The results of the model are presented in the table below:

	Economic Value of Equity Sensitivity			
(Shock in basis points)	-200	-100	+100	+200
June 30, 2025	-0.22%	0.57%	-0.78%	-1.82%
December 31, 2024	2.13%	2.53%	-1.88%	-4.30%

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

As of the end of the period covered by this Quarterly Report on Form 10-Q, the Company carried out an evaluation, under the supervision and with the participation of its management, including its Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of its disclosure controls and procedures. In designing and evaluating the disclosure controls and procedures, management recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives, and management was required to apply judgment in evaluating its controls and procedures. Based on their evaluation of the Company's disclosure controls and procedures as of June 30, 2025, the Company's Chief Executive Officer and Chief Financial Officer have concluded that the Company's disclosure controls and procedures (as defined in 13a-15(e) and Rule 15d-15(e) under the Securities Exchange Act of 1934, as amended ("Exchange Act")) are designed to ensure that information required to be disclosed by the Company in reports that it files or submits under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission rules and regulations and are operating in an effective manner.

Changes in Internal Control Over Financial Reporting

There were no changes in the Company's internal control over financial reporting (as such term is defined in 13a-15(f) and Rule 15d-15(f) under the Exchange Act) that occurred during the quarter ended June 30, 2025, that materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

Part II - Other Information

Item 1. Legal Proceedings

We are a party to various legal proceedings such as claims and lawsuits arising in the course of our normal business activities. Although the ultimate outcome of all claims and lawsuits outstanding as of June 30, 2025 cannot be ascertained at this time, it is the opinion of management that these matters, when resolved, will not have a material adverse effect on our business, results of operations or financial condition.

Item 1A. Risk Factors

In addition to the other information set forth in this Quarterly Report on Form 10-Q, you should carefully consider the factors discussed in "Part I – Item 1A – Risk Factors" of the Company's 2024 Form 10-K, which could materially affect its business, financial position, results of operations, cash flows, or future results. Please be aware that these risks may change over time and other risks may prove to be important in the future. New risks may emerge at any time, and we cannot predict such risks or estimate the extent to which they may affect our business, financial condition or results of operations, or the trading price of our securities.

There are no material changes during the period covered by this Report to the risk factors previously disclosed in the Company's 2024 Form 10-K.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

Unregistered Sales of Equity Securities

We made no unregistered sales of equity securities during the quarter ended June 30, 2025.

Issuer Purchases of Equity Securities

The Company has no publicly announced repurchase plans or programs.

The following table provides information regarding the Company's purchase of its own common stock during the second quarter of 2025:

Northpointe Bancshares, Inc. Purchases of Equity Securities

Period	Total Number of Shares Purchased	Average Price Paid Per Share
April 1 - April 30, 2025	$ —	$ —
May 1 - May 31, 2025	—	—
June 1 - June 30, 2025	—	—

Item 3. Defaults Upon Senior Securities

Not applicable.

Item 4. Mine Safety Disclosures

Not applicable.

Item 5. Other Information

During the second quarter of 2025, none of our directors or officers adopted or terminated any contract, instruction or written plan for the purchase or sale of Company securities that was intended to satisfy the affirmative defense conditions of Rule 10b5-1(c) or any "non-Rule 10b5-1 trading arrangement," as that term is used in SEC regulations.

Item 6. Exhibits

List of Exhibits

Number	Description
3.1	Amended and Restated Articles of Incorporation. Previously filed with the Commission on February 7, 2025 in Northpointe Bancshares, Inc's Form S-1, Exhibit 3.1. Here incorporated by reference.
3.2	Amended and Restated Bylaws. Previously filed with the Commission on February 7, 2025 in Northpointe Bancshares, Inc.'s Form S-1, Exhibit 3.2. Here incorporated by reference.
10.1	Employment Agreement with Amy M. Butler, Executive Vice President of National Sales of Northpointe Bank.
10.2	Employment Agreement with David J. Christel, President of the Northpointe Bank's Mortgage Purchase Program business unit.
10.3	Employment Agreement with Kevin J. Comps, President of Northpointe Bancshares, Inc. and Northpointe Bank.
10.4	Employment Agreement with Brad T. Howes, Executive Vice President and Chief Financial Officer of Northpointe Bancshares, Inc. and Northpointe Bank.
10.5	First Amendment to Registration Rights Agreement, dated May 16, 2025, by and between Northpointe Bancshares, Inc. and the investors listed on the signature pages thereto. Previously filed with the Commission on May 22, 2025 on Form 8-K, Exhibit 10.1. Here incorporated by reference.
10.6	First Amendment to Registration Rights Agreement, dated May 21, 2025, by and between Northpointe Bancshares, Inc. and the investors listed on the signature pages thereto. Previously filed with the Commission on May 22, 2025 on Form 8-K, Exhibit 10.2. Here incorporated by reference.
