("$ in thousands" - except share data)

1. DESCRIPTION OF ORGANIZATION AND BUSINESS OPERATIONS

Resolute Holdings Management, Inc. ("Resolute Holdings") is a Delaware corporation formed on September 27, 2024 ("Inception Date"). It is organized to provide operating management services to CompoSecure Holdings, L.L.C. ("CompoSecure Holdings"), a direct, wholly owned subsidiary of CompoSecure, Inc. ("CompoSecure") and other companies it may manage in the future, both in the United States and internationally, to generate recurring, long-duration management fees. Resolute Holdings applies a differentiated approach of value creation through the systematic deployment of the Resolute Operating System to drive performance at businesses it manages with the intention of creating value at both the underlying managed businesses, including CompoSecure Holdings, and at Resolute Holdings. Resolute Holdings also applies its M&A and capital markets expertise to drive inorganic growth of its managed businesses.

CompoSecure Holdings, located in Somerset, New Jersey, is a manufacturer and designer of complex metal, composite and proprietary financial transaction cards. CompoSecure Holdings was founded and commenced operations in 2000 and provides products and services primarily to global financial institutions, plastic card manufacturers, system integrators, and security specialists. Since its inception, CompoSecure Holdings has established itself as a technology partner to market leaders, fintechs and consumers enabling trust for millions of people around the globe. CompoSecure Holdings combines elegance, simplicity and security to deliver exceptional experiences and peace of mind in the physical and digital world. Its innovative payment card technology and metal cards with Arculus secure authentication and digital asset storage capabilities deliver unique, premium branded experiences, enable people to access and use their financial and digital assets, and ensure trust at the point of a transaction.

CompoSecure Holdings creates newly innovated, highly differentiated and customized quality financial payment products for banks and other payment card issuers to support and increase their customer acquisition, customer retention and organic customer spend. Its customers consist primarily of leading international and domestic banks and other payment card issuers primarily within the United States ("U.S."), with additional direct and indirect customers in Europe, Asia, Latin America, Canada, and the Middle East. CompoSecure Holdings is a platform for next generation payment technology, security, and authentication solutions. CompoSecure Holdings maintains trusted, highly-embedded and long-term customer relationships with an expanding set of global issuers. It has established a niche position in the financial payment card market with over 20 years of innovation and experience and is focused primarily on this attractive subsector of the financial technology market. CompoSecure Holdings serves a diverse set of direct customers and indirect customers, including some of the largest issuers of credit cards in the U.S.

On February 28, 2025, CompoSecure distributed all shares of common stock of its wholly owned subsidiary, Resolute Holdings, on a pro rata basis to the holders of CompoSecure's Class A Common Stock as of the February 20, 2025 record date ("Spin-Off"). Each stockholder of record who held shares of CompoSecure Class A Common Stock as of the close of business on February 20, 2025, received one share of Resolute Holdings common stock for every twelve shares of CompoSecure common stock then held. On February 28, 2025, Resolute Holdings started trading regular-way on The Nasdaq Stock Market LLC under the ticker symbol "RHLD".

In connection with the completion of the Spin-Off, Resolute Holdings entered into a management agreement with CompoSecure Holdings (the "CompoSecure Management Agreement"), pursuant to which Resolute Holdings is responsible for managing the day-to-day business and operations and overseeing the strategy of CompoSecure Holdings and its controlled affiliates. In accordance with ASC 810 and due to the terms of the CompoSecure Management Agreement, Resolute Holdings (together with CompoSecure Holdings, the "Company") is required to consolidate CompoSecure Holdings because it is a variable interest entity ("VIE") in which Resolute Holdings is deemed to be the primary beneficiary (see Notes 2, 9, and 14). Resolute Holdings does not own any equity interests or common stock in CompoSecure Holdings or CompoSecure.

Pursuant to the CompoSecure Management Agreement, CompoSecure Holdings pays Resolute Holdings a quarterly management fee (the "CompoSecure Management Fee"), payable in arrears, in a cash amount equal to 2.5% of CompoSecure Holdings' last 12 months' Adjusted EBITDA, as defined in the Management Agreement, measured for the period ending on the fiscal quarter then ended ("Management Agreement Adjusted EBITDA"). Management Agreement Adjusted EBITDA reflects a) CompoSecure Holdings' earnings before interest, taxes, depreciation, depletion and amortization, extraordinary losses and expenses, one-time and non-recurring expenses, and the CompoSecure Management Fee, less b) CompoSecure's selling, general and

administrative expenses, adjusted for the same items above ("Parent Allocated Expense", as defined in the CompoSecure Management Agreement). CompoSecure Holdings is also required to reimburse Resolute Holdings and its affiliates for Resolute Holdings' documented costs and expenses incurred on behalf of CompoSecure Holdings other than those expenses related to Resolute Holdings' or its affiliates' personnel who provide services to CompoSecure Holdings under the CompoSecure Management Agreement. Resolute Holdings will determine, in its sole and absolute discretion, whether a cost or expense will be borne by Resolute Holdings or by CompoSecure Holdings.

The CompoSecure Management Agreement has an initial term of 10 years and shall automatically renew for successive ten-year terms unless terminated in accordance with its terms. Resolute Holdings and CompoSecure Holdings may each terminate the CompoSecure Management Agreement upon the occurrence of certain other limited events, and in connection with certain of these limited events, Resolute Holdings has the right to require CompoSecure Holdings to pay a termination fee, which may be paid in cash, shares of common stock of CompoSecure or a combination of cash and stock. The CompoSecure Management Agreement also provides for certain indemnification rights in Resolute Holdings' favor, as well as certain additional covenants, representations and warranties.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The accompanying consolidated financial statements are presented in conformity with Generally Accepted Accounting Principles ("U.S. GAAP") and pursuant to the rules and regulations of the U.S. Securities and Exchange Commission ("SEC"). Any reference in these notes to applicable guidance is meant to refer to U.S. GAAP as found in the Accounting Standards Codification ("ASC") and Accounting Standards Updates ("ASU") promulgated by the Financial Accounting Standards Board ("FASB"). All dollar amounts are in thousands, unless otherwise noted. Share and per share amounts are adjusted retroactively for all periods presented to reflect the change in the Company's capital structure on a post-Spin-Off basis, unless otherwise noted.

Following the execution of the Management Agreement on February 28, 2025, Resolute Holdings determined that CompoSecure Holdings is a VIE in which Resolute Holdings is deemed the primary beneficiary and as a result, CompoSecure Holdings is consolidated pursuant to ASC 810, *Consolidation* ("ASC 810"). The assets, liabilities and non-controlling interests of CompoSecure Holdings were initially measured at the amounts in which they were carried in the accounting records of CompoSecure, the reporting entity that formerly controlled CompoSecure Holdings, with no adjustment to current fair values, and no recognition of gain or loss because Resolute Holdings and CompoSecure were both under common control. See Note 9 for the non-controlling interest recorded related to CompoSecure Holdings.

The Company's financial statements are presented on a consolidated basis and include the results of operations and financial position of CompoSecure Holdings for the period in which control of CompoSecure Holdings occurred as though such control had occurred at the beginning of the period. All intercompany accounts and transactions have been eliminated in consolidation.

In accordance with ASC 850-50, the Company's financial statements for the prior periods were retrospectively adjusted in the periods in which Resolute Holdings and CompoSecure Holdings were under common control. For periods in which Resolute Holdings and CompoSecure Holdings were not under common control, the financial statements presented are those of CompoSecure Holdings as it is the entity that was first controlled by the common parent and is considered the predecessor entity. Thus, only the results of operations and cash flows of CompoSecure Holdings are presented for the three and six months ended June 30, 2024.

The Company's significant accounting policies are detailed in the Company's Annual Report on Form 10-K for the year ended December 31, 2024 as filed with the SEC.

Interim Financial Statements

The accompanying consolidated financial statements have been prepared in accordance with U.S. GAAP and Article 10 of Regulation S-X of the SEC for interim financial information and should be read in conjunction with the Company's Annual Report on

Form 10-K for the year ended December 31, 2024. The financial statements presented in this Quarterly Report on Form 10-Q are unaudited; however, in the opinion of management, the financial statements reflect all adjustments, consisting solely of normal, recurring adjustments, necessary for the fair presentation of the financial statements for the periods presented. The results disclosed in the Consolidated Statements of Operations for the three and six months ended June 30, 2025 are not necessarily indicative of the results to be expected for the full year.

Use of Estimates

The preparation of the consolidated financial statements requires management to make a number of estimates and assumptions relating to the reported amount of assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the period. The Company bases its estimates on historical experience, current business factors and various other assumptions believed to be reasonable under the circumstances, all of which are necessary in order to form a basis for determining the carrying values of assets and liabilities. Actual results may differ from those estimates and assumptions. The Company evaluates the adequacy of its reserves and the estimates used in calculations on an on-going basis. Significant areas requiring management to make estimates include the valuation of equity instruments and estimates of derivative liability associated with the Exchangeable Notes (as defined below), which were marked to market each quarter based on a Lattice model approach, derivative asset for the interest rate swap, reserve for excess and obsolete inventory, estimated useful lives and impairment of property and equipment, and lease term, discount rates and other inputs used to measure right of use assets and lease liabilities.

Reclassifications

Certain prior year amounts have been reclassified for consistency with the current year presentation. These reclassifications had no effect on the reported results of operations.

Revenue Recognition

The Company recognizes revenue in accordance with ASC 606 when the performance obligations under the terms of the Company's contracts with its customers have been satisfied. This occurs at the point in time when control of the specific goods or services as specified by each purchase order are transferred to customers. Specific goods refers to the products offered by the Company, including metal cards, high security documents, and pre-laminated materials. Transfer of control passes to customers upon shipment or upon receipt, depending on the agreement with the specific customers. ASC 606 requires entities to record a contract asset when a performance obligation has been satisfied or partially satisfied, but the amount of consideration has not yet been received because the receipt of the consideration is conditioned on something other than the passage of time. ASC 606 also requires an entity to present a revenue contract as a contract liability in instances when a customer pays consideration, or an entity has a right to an amount of consideration that is unconditional (e.g. receivable), before the entity transfers a good or service to the customer. The Company did not have any contract assets as of June 30, 2025 or December 31, 2024, and had $1.9 million and $0.4 million of contract liabilities as of June 30, 2025 and December 31, 2024, respectively.

The Company invoices its customers at the time at which control is transferred, with payment terms ranging between 15 and 60 days depending on each individual contract. As the payment is due within 60 days of the invoice, a significant financing component is not included within the contracts.

The majority of the Company's contracts with its customers have the same performance obligation of manufacturing and transferring the specified number of cards to the customer. Each individual card included within an order constitutes a separate performance obligation, which is satisfied upon the transfer of goods to the customer. The contract term as defined by ASC 606 is the length of time it takes to deliver the goods or services promised under the purchase order or statement of work. As such, the Company's contracts are generally short-term in nature.

Revenue is measured in an amount that reflects the consideration the Company expects to receive in exchange for those products or services. Revenue is recognized net of variable consideration such as discounts, rebates, and returns which is measured based on the expected value or most likely amount of variable consideration, as applicable.

The Company's products do not include an unmitigated right of return unless the product is non-conforming or defective. If the goods are non-conforming or defective, the defective goods are replaced or reworked or, in certain instances, a credit is issued for the portion of the order that was non-conforming or defective. A provision for sales returns and allowances is recorded based on experience with goods being returned. Most returned goods are re-worked and subsequently re-shipped to the customer and recognized as revenue. Historically, returns have not been material to the Company.

Additionally, the Company has a rebate program with certain customers allowing for a rebate based on achieving a certain level of shipped sales during the calendar year. This rebate is estimated and updated throughout the year and recorded against revenues and the related accounts receivable.

On occasion, the Company receives requests from customers to hold purchased products. The Company evaluates these requests as bill and hold arrangements. The Company recognizes revenue from such bill and hold arrangements in accordance with the guidance provided in ASC 606 which indicates that for a customer to have obtained control of a product in a bill and hold arrangement, all of the following criteria must be met: (a) the reason for the bill and hold is substantive, (b) the product has separately been identified as belonging to the customer, (c) the product is currently ready for physical transfer to the customer, and (d) the Company does not have the ability to use the product or direct it to another customer. During the three months ended June 30, 2025 and June 30, 2024 the Company recognized $628 and $0 of revenue under bill and hold arrangements, respectively. During the six months ended June 30, 2025 and June 30, 2024 the Company recognized $1,168 and $0 of revenue under bill and hold arrangements, respectively.

Variable Interest Entities

The Company evaluates its contractual, ownership, and other interests in entities to determine if it has any variable interest in a VIE. These evaluations are complex and involve judgment. If the Company determines that an entity in which it holds a contractual or ownership interest is a VIE and that the Company is the primary beneficiary, the Company consolidates such entity in its consolidated financial statements. The primary beneficiary of a VIE is the party that meets both of the following criteria: (i) has the power to make decisions that most significantly affect the economic performance of the VIE; and (ii) has the obligation to absorb losses or the right to receive benefits that in either case could potentially be significant to the VIE. Management performs ongoing reassessments of whether changes in the facts and circumstances regarding the Company's involvement with a VIE will cause the consolidation conclusion to change. Changes in consolidation status are applied prospectively.

Segment Information

The Company is managed and operated as two businesses given each of Resolute Holdings and CompoSecure Holdings are distinct operating businesses and legal entities that are consolidated only for U.S. GAAP accounting purposes. The Chief Executive Officer of Resolute Holdings is the Company's chief operating decision-maker ("CODM") who makes resource allocation decisions and assesses performance based on income from operations of each business.

Characteristics of the consolidated organization which were relied upon in making the determination that the Company operates two reportable segments include the existence of the CompoSecure Management Agreement as Resolute Holdings' sole source of revenue that is eliminated in consolidation, the similar nature of all of the products that CompoSecure Holdings sells, the separate and distinct organizational structure of each of Resolute Holdings and CompoSecure Holdings, and the reports that are regularly reviewed by the CODM for the purpose of assessing performance and allocating resources.

Software Development Costs

The Company applies the principles of ASC 350-40, *Accounting for the Cost of Computer Software Developed or Obtained for Internal Use* ("ASC 350-40"). ASC 350-40 requires that software development costs incurred before the preliminary project stage be expensed as incurred. The Company capitalizes development costs related to these software applications once the preliminary project stage is complete and it is probable that the project will be completed and the software will be used to perform the functions intended. The Company capitalized $822 and $398 of software development costs for the six months ended June 30, 2025 and June 30, 2024, respectively. Capitalized software costs are presented as part of deposits and other assets on the consolidated balance sheets. The carrying value of capitalized software costs was $1,486 and $985 as of June 30, 2025 and December 31, 2024, respectively. Capitalized software costs are amortized between one and two years and $371 and $0 was amortized during the six months ended June 30, 2025 and June 30, 2024, respectively.

Investments

In November 2024, the Company invested $1,500 in a Simple Agreement for Future Equity ("SAFE") with Signify Holdings, Inc., also known as Rain Cards ("Rain Cards"). Rain Cards is an issuer with the Visa Network and offers solutions for card programs across a number of regions and use cases. In accordance with ASC 321, *Investments*, the Company originally elected to account for this investment at cost. On February 10, 2025, the Company's Rain Cards SAFE investment was converted to an equity interest under the terms of the agreement. No impairment has been recorded on the Rain Cards SAFE investment during the quarter ended June 30, 2025. Investment in Rain Cards is included as part of deposits and other assets on the consolidated balance sheets.

Net Income (Loss) Per Share

The Company complies with accounting and disclosure requirements of ASC Topic 260, *Earnings Per Share*. Net income (loss) per common share is computed by dividing net income (loss) attributable to common stockholders by the weighted-average number of common shares outstanding during the period. The weighted-average number of common shares outstanding during the period includes Resolute Holdings' common stock as if the common stock distributed in the Spin-Off were outstanding from January 1, 2024 until the date of the Spin-Off.

Diluted net income (loss) per share is computed by dividing the net income (loss) attributable to common stockholders by the basic weighted-average number of common shares outstanding during the period, adjusted for the potentially dilutive shares of common stock equivalents only if the effect is not anti-dilutive.

Recent Accounting Pronouncements

On May 12, 2025, the FASB released Accounting Standards Update No. 2025-03, Determining the Accounting Acquirer in the Acquisition of a Variable Interest Entity ("ASU 2025-03"), which is based on an EITF Issue. ASU 2025-03 revised the guidance in ASC 805 to clarify that, in determining the accounting acquirer in "a business combination that is effected primarily by exchanging equity interests in which a VIE is acquired," an entity would be required to consider the factors in ASC 805-10-55-12 through 55-15. Previously, the accounting acquirer in such transactions was always the primary beneficiary. For all entities, ASU 2025-03 will become effective for annual reporting periods beginning after December 15, 2026, including interim reporting periods within those annual reporting periods. The Company is still assessing the impact that the adoption of this ASU will have on the Company's consolidated financial statements.

On November 4, 2024, the FASB issued ASU 2024-03, *Income Statement—Reporting Comprehensive Income—Expense Disaggregation Disclosures (Subtopic 220-40): Disaggregation of Income Statement Expenses*, which requires disaggregated disclosure of income statement expenses for public business entities (PBEs). The ASU does not change the expense captions an entity presents on the face of the income statement; rather, it requires disaggregation of certain expense captions into specified categories in disclosures within the footnotes to the financial statements. ASU 2024-03 is effective for all PBEs for fiscal years beginning after December 15, 2026, and interim periods within fiscal years beginning after December 15, 2027. Early adoption is permitted. On January 7, 2025, the FASB released ASU 2025-01, which revises the effective date of ASU 2024-03 "to clarify that all public business

entities are required to adopt the guidance in annual reporting periods beginning after December 15, 2026, and interim periods within annual reporting periods beginning after December 15, 2027." The Company is still assessing the impact that the adoption of this ASU will have on the Company's consolidated financial statements.

On November 27, 2023, the FASB issued ASU 2023-07, *Improvements to Reportable Segment Disclosures*, which applies to all public entities that are required to report segment information in accordance with Topic 280, Segment Reporting. The guidance will be applied retrospectively and is effective for fiscal years beginning after December 15, 2023, and interim periods within fiscal years beginning after December 15, 2024. The guidance improves financial reporting by requiring disclosure of incremental segment information on an annual and interim basis for all public entities to enable investors to develop more decision-useful financial analysis. The Company adopted ASU 2023-07 and has reflected updates to its segment reporting in the Company's consolidated financial statements.

On December 2023, the FASB issued ASU 2023-09, *Improvements to Income Tax Disclosures*, which applies to all entities subject to income taxes. For PBEs, the new requirements will be effective for annual periods beginning after December 15, 2024. The guidance will be applied on a prospective basis with the option to apply the standard retrospectively. Early adoption is permitted. The amendments in this update require that PBEs on an annual basis disclose specific categories in the rate reconciliation and provide additional information for reconciling items that meet a quantitative threshold if the effect of those reconciling items is equal to or greater than five percent of the amount computed by multiplying pretax income (or loss) by the applicable statutory income tax rate. The new guidance focuses on two specific disclosure areas: rate reconciliation and income taxes paid. ASU 2023-09 is effective for the Company's annual financial statements as of December 31, 2025 and for the year then ended. The Company believes that ASU 2023-09 will not have a material impact on the Company's financial statements or disclosures.

3. EQUITY-BASED COMPENSATION

The following table summarizes equity-based compensation expense included in selling, general and administrative expenses within the consolidated statements of operations under the Resolute Holdings Management, Inc. 2025 Omnibus Incentive Plan (the "Resolute Equity Plan") and the CompoSecure, Inc. 2021 Incentive Equity Plan (the "CompoSecure Equity Plan"). The Company is required to expense equity-based compensation granted under the CompoSecure Equity Plan due to the consolidation of CompoSecure Holdings and because CompoSecure and Resolute Holdings are under common control. Equity granted under the CompoSecure Equity Plan relates to CompoSecure Class A common stock and has no impact on Resolute Holdings' common stock outstanding or its diluted earnings per share. In accordance with the CompoSecure Equity Plan, outstanding awards at the time of the Spin-Off were adjusted to maintain the aggregate intrinsic value of the awards ("Spin-Off Adjustment") before and after the Spin-Off.

4. INCOME TAXES

The Company recorded income tax provision of $299 and $0 for the three months ended June 30, 2025, and June 30, 2024, respectively. The Company recorded income tax provision of $867 and $0 for the six months ended June 30, 2025 and June 30, 2024, respectively.

In calculating the provision for income taxes on an interim basis, the Company uses an estimate of the annual effective tax rate based upon currently known facts and circumstances and applies that rate to its year-to-date earnings or losses. The Company's effective tax rate is based on expected income and statutory tax rates and takes into consideration permanent differences between financial statement and tax return income applicable to the Company in the various jurisdictions in which the Company operates. The effect of discrete items, such as changes in estimates, changes in enacted tax laws or rates or tax status, and unusual or infrequently occurring events, is recognized in the interim period in which the discrete item occurs. The accounting estimates used to compute the provision for income taxes may change as new events occur, additional information is obtained or as the result of new judicial interpretations or regulatory or tax law changes.

The Company's effective tax rate was 0.8% and 0% for the three months ended June 30, 2025 and June 30, 2024, respectively. The Company's effective tax rate was 1.4% and 0% for the six months ended June 30, 2025 and June 30, 2024, respectively. The Company's effective income tax rate differs from the U.S. statutory rate primarily due to the non-controlling interest adjustment as the income attributable to the non-controlling interest in CompoSecure Holdings is pass-through income which flows through to its 100% owner CompoSecure. Additionally, there are effective tax rate reconciling items due to the impacts of disallowed compensation expense related to excess officers' compensation and expenses allocated to Resolute Holdings for which the income tax deduction will ultimately be determined at CompoSecure.

5. EARNINGS (LOSS) PER SHARE

The following table sets forth the computation of net income (loss) used to compute basic and diluted net earnings per share attributable to common stockholders for the three and six months ended June 30, 2025 and June 30, 2024, respectively.

	Three months ended June 30,		Six months ended June 30,	
	2025	2024	2025	2024
Basic and diluted:				
Net income (loss)	$ 38,297	$ 27,902	$ 60,912	$ 54,288
Less: Net (income) loss attributable to non-controlling interest	(38,908)	(27,902)	(64,889)	(54,288)
Net income (loss) attributable to common stockholders	$ (611)	$ —	$ (3,977)	$ —
Weighted average common shares outstanding used in computing attributable net income (loss) per share	8,525,998	8,525,998	8,525,998	8,525,998
Net income (loss) per share attributable to common stockholders - basic & diluted	$ (0.07)	$ —	$ (0.47)	$ —

Basic net income (loss) per share attributable to common stockholders for the three and six months ended June 30, 2025 was calculated by dividing net loss attributable to common stockholders of $611 and $3,977, respectively, divided by 8,525,998 of weighted average common shares outstanding during the period ended. Since all of the Resolute Equity Plan awards outstanding as of June 30, 2025 were antidilutive, diluted net loss per share is equal to the basic net loss per share.

Securities that could potentially be dilutive are excluded from the computation of diluted earnings per share when the exercise price exceeds the average closing price of the Company's common stock during the period, because their inclusion would result in an antidilutive effect on per share amounts.

The following amounts were not included in the calculation of net income (loss) per diluted share attributable to common stockholders because their effects were anti-dilutive:

	Three months ended June 30,		Six months ended June 30,	
	2025	2024	2025	2024
Potentially dilutive securities:				
Resolute Equity Plan awards	61,336	—	61,336	—

Finished goods	1,509	505
Inventory reserve	(3,903)	(2,805)
	$ 44,239	$ 44,833

The Company reviews inventory for slow moving or obsolete amounts based on expected product sales volume and provides reserves against the carrying amount of inventory as appropriate.

Depreciation and amortization expense for property and equipment was $4,243 and $4,601 for the six months ended June 30, 2025 and June 30, 2024, respectively.

8. DEBT

Resolute Credit Agreement

On February 28, 2025, Resolute Holdings entered into a credit agreement with JPMorgan Chase Bank, N.A. ("JPMC"), as lender (the "Resolute Credit Agreement"). The Resolute Credit Agreement provides for a $5,000 senior secured revolving credit facility available to be used by Resolute Holdings. The revolving credit facility matures on May 31, 2026. Borrowings of the revolving loans shall bear interest at a fluctuating rate per annum equal to, at the option of Resolute Holdings, (i) a rate equal to the higher of (a) the rate of interest last quoted by the Wall Street Journal as the prime rate in the U.S. or (b) 2.5% or (ii) a Term SOFR based benchmark rate for the applicable interest period (provided that in no event shall such Term SOFR rate be less than 0.00% per annum) plus an applicable margin of 2.25%. The terms of the revolving credit facility impose financial covenants, measured at the Resolute Holdings legal entity level, including a minimum liquidity ratio, a minimum revenue requirement and, beginning with the fiscal quarter ending March 31, 2026, a minimum leverage ratio which shall not be greater than 1.50 to 1.00 on the last day of any fiscal quarter. The revolving credit facility is subject to an unused commitment fee of 0.25%.

As of June 30, 2025 and December 31, 2024, there was no balance outstanding on the Resolute Credit Agreement. As of June 30, 2025, there was $5,000 of availability for borrowing under the Resolute Credit Agreement. Creditors of the Resolute Credit Agreement have no recourse to any assets or liabilities of CompoSecure Holdings.

CompoSecure Holdings Credit Facility

On August 7, 2024, CompoSecure Holdings, together with its operating subsidiaries, entered into a Fourth Amended and Restated Credit Agreement with JPMC (the "CompoSecure Holdings Credit Facility"). The CompoSecure Holdings Credit Facility had an initial maximum borrowing capacity of $330,000, comprised of a term loan of $200,000 (the "CompoSecure Holdings Term Loan") and a revolving credit facility of $130,000 (the "CompoSecure Holdings Revolver"). The CompoSecure Holdings Credit Facility has a maturity date of August 7, 2029. CompoSecure has pledged its ownership interests in CompoSecure Holdings (representing 100% ownership) as collateral pursuant to a pledge and security agreement with the lenders under the CompoSecure Holdings Credit Facility.

On December 30, 2024, CompoSecure Holdings, together with its operating subsidiaries, executed Amendment No. 1 to the CompoSecure Holdings Credit Facility (the "December 2024 Amendment") to allow CompoSecure to facilitate the Spin-Off. There were no changes to the lenders as a result of the December 2024 Amendment and the December 2024 Amendment was accounted for as a debt modification. In connection with the December 2024 Amendment, the Company incurred $215 in lenders fees which were capitalized and will be amortized to interest expense through the maturity of the CompoSecure Holdings Credit Facility.

The CompoSecure Holdings Credit Facility requires the Company to make quarterly principal payments until maturity, at which point a balloon principal payment is due for the outstanding principal. The CompoSecure Holdings Credit Facility also requires the Company to make monthly interest payments as well as pay a quarterly unused commitment fee of 0.35% for any unused portion of the CompoSecure Holdings Revolver. The CompoSecure Holdings Credit Facility provides for CompoSecure Holdings to prepay the CompoSecure Term Loan without penalty or premium. The CompoSecure Holdings Credit Facility is secured by substantially all of the assets of CompoSecure Holdings.

Interest on the CompoSecure Holdings Revolver and the CompoSecure Holdings Term Loan are based on outstanding principal amount during the interest period multiplied by the quoted SOFR rate plus the applicable margin of 1.75% to 2.75% based on CompoSecure Holdings' leverage ratio. At June 30, 2025 and December 31, 2024, the effective interest rate on the CompoSecure Holdings Revolver and CompoSecure Holdings Term Loan was 6.87% and 6.81% per year, respectively

The Company recognized $3,373 and $4,166 of interest expense related to the CompoSecure Holdings Credit Facility for the three months ended June 30, 2025 and June 30, 2024, respectively. The Company recognized $6,756 and $8,434 of interest expense related to the CompoSecure Holdings Credit Facility for the six months ended June 30, 2025 and June 30, 2024, respectively

The CompoSecure Holdings Credit Facility contains certain financial covenants including a minimum interest coverage ratio, a maximum total debt to EBITDA ratio and a minimum fixed charge coverage ratio related to financial performance solely at CompoSecure Holdings. As of June 30, 2025 and December 31, 2024, CompoSecure Holdings was in compliance with all financial covenants. The fair value of the CompoSecure Holdings Credit Facility approximates the carrying value for all periods presented. Creditors of the CompoSecure Holdings Credit Facility have no recourse to any assets or liabilities of Resolute Holdings.

As of June 30, 2025 and December 31, 2024, there were no balances outstanding on the CompoSecure Holdings Revolver. As of June 30, 2025, there was $130,000 of availability for borrowing at CompoSecure Holdings under the CompoSecure Holdings Revolver.

The balances payable under all CompoSecure Holdings borrowing facilities are as follows:

	June 30, 2025	December 31, 2024
	Term Loan	Term Loan
Loan Balance	$ 192,500	$ 197,500
Less: current portion of term loan (scheduled payments)	(13,750)	(11,250)
Less: net deferred financing costs	(1,679)	(1,861)
Total Long Term debt	$ 177,071	$ 184,389

The maturity of all the CompoSecure Holdings borrowings facilities is as follows:

Remainder of 2025	$ 6,250
2026	15,000
2027	16,250
2028	20,000
2029	135,000
Total	$ 192,500

In order to hedge CompoSecure Holdings' exposure to variable interest rate fluctuations related to the borrowings under the CompoSecure Holdings Credit Facility, CompoSecure Holdings entered into an interest rate swap agreement with Bank of America on January 11, 2022, with an effective date of December 5, 2023 for a notional amount of $125,000 (the "Interest Rate Swap Agreement"). The Interest Rate Swap Agreement is set to expire in December 2025. The Interest Rate Swap is settled at the end of the month between the parties and is designated as a cash flow hedge for accounting purposes.

The Company determined the fair value of the Interest Rate Swap Agreement to be zero at the inception of the agreement and $1,377 and $2,749 as of June 30, 2025 and December 31, 2024, respectively. The Company reflects the realized gains and losses of the actual monthly settlement activity of the Interest Rate Swap Agreement through interest income or expense in its consolidated statements of operations. The Company reflects the unrealized changes in fair value of the Interest Rate Swap Agreement at each reporting period in other comprehensive income. A derivative asset or liability is recognized at each reporting period in the Company's consolidated balance sheets for the Interest Rate Swap Agreement. Interest related to the Interest Rate Swap Agreement converted from LIBOR to SOFR in February 2023.

CompoSecure Holdings Exchangeable Senior Notes

On April 19, 2021 , CompoSecure and CompoSecure Holdings entered into subscription agreements (the "Note Subscription Agreements") with certain investors ("Notes Investors") pursuant to which such Notes Investors, severally and not jointly, purchased on December 27, 2021, the Exchangeable Notes issued by CompoSecure Holdings and guaranteed by its operating subsidiaries, CompoSecure, L.L.C. and Arculus Holdings, L.L.C., in an aggregate principal amount of up to $130,000 that were exchangeable into shares of Class A common stock of CompoSecure at an initial conversion price of $11.50 per CompoSecure share, subject to the terms and conditions of an indenture (the "Indenture") entered into by CompoSecure and its wholly owned subsidiary, CompoSecure Holdings, and the trustee under the Indenture ("Exchangeable Notes").

All Exchangeable Notes were exchanged prior to November 29, 2024. An aggregate of $130,000 of the Exchangeable Notes were surrendered and exchanged for an aggregate of 13,587,565 newly-issued shares of CompoSecure Class A Common Stock. As a result of the exchange, all Exchangeable Notes were extinguished.

The Company assessed all terms and features of the Exchangeable Notes in order to identify any potential embedded features that would require bifurcation. As part of this analysis, the Company assessed the economic characteristics and risks of the Exchangeable Notes, including the conversion, put and call features. In consideration of these provisions, the Company determined that the optional redemption with a make-whole provision feature required bifurcation as a derivative liability. The fair value of the optional redemption with a make-whole provision feature was determined based on the difference between the fair value of the Exchangeable Notes with the redemption with a make-whole provision feature and the fair value of the Exchangeable Notes without the redemption with a make-whole provision feature. The Company employed a Lattice model to determine the fair value of the derivative liability upon issuance of the Exchangeable Notes and at the end of each reporting period when the derivative liability was remeasured to its fair value. The Company recorded a favorable (unfavorable) change in fair value of $0 and $178 for the three months ended June 30, 2025 and June 30, 2024, respectively. The Company recorded a favorable (unfavorable) change in fair value of $0 and $(119) for the six months ended June 30, 2025 and June 30, 2024, respectively. The derivative liability was written off when the Exchangeable Notes were surrendered and exchanged in 2024.

During the three months ended June 30, 2025 and June 30, 2024, the Company recognized $0 and $2,398 respectively, of interest expense related to the Exchangeable Notes at the effective interest rate of 7.4%. During the six months ended June 30, 2025 and June 30, 2024, the Company recognized $0 and $4,794 respectively, of interest expense related to the Exchangeable Notes at the effective interest rate of 7.4%.

In accordance with ASC 810 and due to the terms of the CompoSecure Management Agreement, Resolute Holdings must consolidate CompoSecure Holdings because it is a VIE in which Resolute Holdings is deemed to be the primary beneficiary. In accordance with ASC 810, the Company is required to reflect the equity interests in CompoSecure Holdings that are held by CompoSecure as a non-controlling interest in the Company's consolidated financial statements. The Company's net income (loss) is allocated to non-controlling interest and is removed from the consolidated net income (loss) on the Consolidated Statements of Operations to derive net income or loss attributable to common stockholders. Refer to Note 13 for segment financial information of the Company.

10. LEASES

The Company leases certain office space and manufacturing space under arrangements currently classified as leases under ASC 842, *Leases*. The Company recognizes lease expense for these leases on a straight-line basis over the lease term. Most leases include one or more options to renew, with renewal options ranging from one to five years. The exercise of lease renewal options is at the Company's sole discretion.

The Company's leases have remaining lease terms of one to nine years. The Company does not include any renewal options in lease terms when calculating lease liabilities as the Company is not reasonably certain that it will exercise these options. Three of the Company's leases provide an early termination option, however, the option was not included in the lease terms when calculating the lease liability since the Company determined that it is reasonably certain the Company will not terminate the leases prior to the termination date.

The weighted-average remaining lease term for the Company's leases is 5.3 years as of June 30, 2025. The weighted-average discount rate used in the measurement of the lease liabilities was 6.39% as of June 30, 2025.

The Company has lease agreements that contain both lease and non-lease components. The Company accounts for lease components together with non-lease components (e.g., common-area maintenance). 14. VARIABLE INTEREST ENTITIES

The Company evaluates its contractual, ownership, and other interests in entities to determine if it has any variable interest in a VIE. These evaluations are complex and involve judgment. If the Company determines that an entity in which it holds a contractual or ownership interest is a VIE and that the Company is the primary beneficiary, the Company consolidates such entity in its consolidated financial statements. The primary beneficiary of a VIE is the party that meets both of the following criteria: (i) has the power to make decisions that most significantly affect the economic performance of the VIE; and (ii) has the obligation to absorb losses or the right to receive benefits that in either case could potentially be significant to the VIE. Management performs ongoing reassessments of whether changes in the facts and circumstances regarding the Company's involvement with a VIE will cause the consolidation conclusion to change. Changes in consolidation status are applied prospectively.

Following the execution of the Management Agreement on February 28, 2025, CompoSecure Holdings is deemed to be a VIE in which Resolute Holdings is the primary beneficiary and CompoSecure Holdings is consolidated due to the terms of the CompoSecure Management Agreement pursuant to which Resolute Holdings is responsible for managing the day-to-day business and operations and overseeing the strategy of CompoSecure Holdings and its controlled affiliates in exchange for the CompoSecure Management Fee. The nature of Resolute Holdings' involvement in CompoSecure Holdings' activities is outlined in the CompoSecure Management Agreement. Creditors of Resolute Holdings have no recourse to the assets or liabilities of CompoSecure Holdings, and

creditors of CompoSecure Holdings have no recourse to the assets or liabilities of Resolute Holdings. Resolute Holdings has no obligation to provide any financial support to CompoSecure Holdings. See Note 13 for details of CompoSecure Holdings' assets and liabilities.

Recent Developments

Each stockholder of record who held shares of CompoSecure Class A Common Stock as of the close of business on February 20, 2025, received one share of Resolute Holdings common stock for every twelve shares of CompoSecure common stock then held. On February 28, 2025, Resolute Holdings started trading regular-way on The Nasdaq Stock Market LLC under the ticker symbol "RHLD".

In connection with the completion of the Spin-Off, Resolute Holdings entered into a management agreement with CompoSecure Holdings (the "CompoSecure Management Agreement"), pursuant to which Resolute Holdings is responsible for managing the day-to-day business and operations and overseeing the strategy of CompoSecure Holdings and its controlled affiliates. CompoSecure Holdings is also required to reimburse Resolute Holdings and its affiliates for Resolute Holdings' documented costs and expenses incurred on behalf of CompoSecure Holdings other than those expenses related to Resolute Holdings' or its affiliates' personnel who provide services to CompoSecure Holdings under the CompoSecure Management Agreement. Resolute Holdings will determine, in its sole and absolute discretion, whether a cost or expense will be borne by Resolute Holdings or by CompoSecure Holdings.

The CompoSecure Management Agreement has an initial term of 10 years and shall automatically renew for successive ten-year terms unless terminated in accordance with its terms. Resolute Holdings and CompoSecure Holdings may each terminate the CompoSecure Management Agreement upon the occurrence of certain other limited events, and in connection with certain of these limited events, Resolute Holdings has the right to require CompoSecure Holdings to pay a termination fee, which may be paid in cash, shares of common stock of CompoSecure or a combination of cash and stock. The CompoSecure Management Agreement also provides for certain indemnification rights in Resolute Holdings' favor, as well as certain additional covenants, representations and warranties.

Use of Non-GAAP Financial Measures

This Quarterly Report on Form 10-Q includes certain non-GAAP financial measures that are not prepared in accordance with accounting principles generally accepted in the United States ("U.S. GAAP") and that may be different from non-GAAP financial measures used by other companies. The Company believes Fee-Related Earnings and Fee-Related Earnings per share are useful to investors in evaluating the Company's financial performance. Fee-Related Earnings is calculated based on net income (loss) attributable to common stockholders of Resolute Holdings, and adding back a) equity-based compensation under the CompoSecure Equity Plan, b) Management Fees for the period during which expenses were incurred from Jan 1, 2025 until February 27, 2025 but prior to execution of the Management Agreement, c) one-time Spin-Off related costs, less the net tax impact of such adjustments at Resolute Holdings' expected tax rate of 31%. The Company believes that these non-GAAP financials represent the best presentation regarding the performance of the Company that is attributable to Resolute Holdings common stockholders. Fee-Related Earnings and Fee-Related Earnings per share should not be considered as measures of financial performance under U.S. GAAP, and the items excluded from Fee-Related Earnings and Fee-Related Earnings per share are significant components in understanding and assessing the Company's financial performance. Accordingly, these key business metrics have limitations as an analytical tool. They should not be considered as an alternative to net income or any other performance measures derived in accordance with U.S. GAAP or as an alternative to cash flows from operating activities as a measure of the Company's liquidity, and may be different from similarly titled non-GAAP measures used by other companies.

The following unaudited table presents the reconciliation of U.S. GAAP net income attributable to common stockholders to non-GAAP Fee-Related Earnings and Fee-Related Earnings per share for the three months ended June 30, 2025:

(1) Equity-based compensation required to be reported by the Company related to awards issued under the CompoSecure Equity Plan. Equity granted under the CompoSecure Equity Plan relates to CompoSecure Class A common stock and has no impact on Resolute Holdings' common stock outstanding.

(2) Incremental management fees as if the CompoSecure Management Agreement was executed on January 1, 2025.

(3) One-time costs associated with the Spin-Off from CompoSecure.

(4) Tax-effect of adjustments at a 31% effective tax rate. Only applied to those adjustments that would impact Resolute Holdings' taxes. Equity-based compensation expense under the CompoSecure Equity Plan is expensed for tax purposes at CompoSecure and not Resolute Holdings.

Critical Accounting Policies and Estimates

Critical accounting policies are detailed in the Company's Annual Report on Form 10-K for the year ended December 31, 2024 and reference is made to Note 2 of Notes to Financial Statements – unaudited in Item 1, "Financial Statements". Critical accounting policies adopted since the Company's Annual Report on Form 10-K for the year ended December 31, 2024 include the following:

Reclassifications: Certain prior year amounts have been reclassified for consistency with the current year presentation. These reclassifications had no effect on the reported results of operations.

Variable Interest Entities: The Company evaluates its contractual, ownership, and other interests in entities to determine if it has any variable interest in a VIE. These evaluations are complex and involve judgment. If the Company determines that an entity in which it holds a contractual or ownership interest is a VIE and that the Company is the primary beneficiary, the Company consolidates such entity in its consolidated financial statements. The primary beneficiary of a VIE is the party that meets both of the following criteria: (i) has the power to make decisions that most significantly affect the economic performance of the VIE; and (ii) has the obligation to absorb losses or the right to receive benefits that in either case could potentially be significant to the VIE. Management

performs ongoing reassessments of whether changes in the facts and circumstances regarding the Company's involvement with a VIE will cause the consolidation conclusion to change. Changes in consolidation status are applied prospectively.

New Accounting Pronouncements

Reference is made to Note 2 of Notes to Financial Statements - unaudited in Item 1, "Financial Statements," for information concerning recent accounting pronouncements since the filing of the Company's Annual Report on Form 10-K for the year ended December 31, 2024.

Liquidity and Capital Resources

Resolute Holdings' primary sources of liquidity are the CompoSecure Management Agreement, its existing cash and cash equivalents balances, and borrowings on the Resolute revolving credit facility. CompoSecure Holdings' primary sources of liquidity are its existing cash and cash equivalents, cash flows from operations, and borrowings on the CompoSecure Holdings term loan and revolving credit facility as detailed in Note 8 of Notes to Financial Statements – unaudited in Item 1, "Financial Statements". The Company's primary cash requirements at Resolute Holdings and CompoSecure Holdings include operating expenses, debt service payments (principal and interest), and capital expenditures (including property and equipment and software).

As of June 30, 2025, the Company had cash and cash equivalents of $99.9 million, consisting of $8.2 million at Resolute Holdings and $91.7 million at CompoSecure Holdings. The Company had debt principal outstanding of $192.5.million at CompoSecure Holdings. As of December 31, 2024, the Company had cash and cash equivalents of $71.6 million and total debt principal outstanding of $197.5 million, all at CompoSecure Holdings.

Resolute Holdings and CompoSecure Holdings are distinct legal entities and operating businesses that must separately maintain sufficient liquidity independent of each other. Debt at each entity is non-recourse to the other. Resolute Holdings is dependent on payment of the CompoSecure Management Fee from CompoSecure Holdings to maintain sufficient liquidity. The Company believes that the cash flows from operations and available cash and cash equivalents, as well as the availability of a $5.0 million revolving credit facility at Resolute Holdings, are sufficient to meet the liquidity needs of Resolute Holdings for at least the next 12 months from the date of filing of this Form 10-Q. The Company believes that the cash flows from operations and available cash and cash equivalents, as well as the availability of a $130.0 million revolving credit facility at CompoSecure Holdings, are sufficient to meet the liquidity needs of CompoSecure Holdings, including the repayment of its outstanding debt, for at least the next 12 months from the date of filing of this Form 10-Q.

The Company anticipates that to the extent Resolute Holdings requires additional liquidity, it shall do so through borrowings on its revolving credit facility, the incurrence of other indebtedness, or a combination thereof and offering of its shares in capital markets. The Company anticipates that to the extent CompoSecure Holdings requires additional liquidity, it shall do so through borrowings on its revolving credit facility, the incurrence of other indebtedness, or a combination thereof and offering of CompoSecure shares in capital markets. The Company cannot be assured that each of Resolute Holdings and CompoSecure Holdings will be able to obtain this additional liquidity on reasonable terms, or at all. Additionally, the liquidity of Resolute Holdings and CompoSecure Holdings and their ability to meet their respective obligations and fund their capital requirements are also dependent on their respective future financial performance, which is subject to general economic, financial and other factors that are beyond its control. Accordingly, the Company cannot be assured that its business will generate sufficient cash flows from operations or that future borrowings will be available from additional indebtedness or otherwise to meet its liquidity needs. Although the Company has no specific current plans to do so, if the Company decides to pursue one or more significant acquisitions, the Company may incur additional debt to finance such acquisitions.

On February 28, 2025, Resolute Holdings entered into a credit agreement with JPMorgan Chase Bank, N.A ("JPMC")., as lender (the "Resolute Credit Agreement"). The Resolute Credit Agreement provides for a $5.0 million loan through a senior secured revolving credit facility available to be used by Resolute Holdings. The revolving credit facility matures on May 31, 2026. Borrowings of the revolving loans shall bear interest at a fluctuating rate per annum equal to, at the option of Resolute Holdings, (i) a rate equal to the higher of (a) the rate of interest last quoted by the Wall Street Journal as the prime rate in the U.S. or (b) 2.5% or (ii) a Term SOFR based benchmark rate for the applicable interest period (provided that in no event shall such Term SOFR rate be less than 0.00% per annum) plus an applicable margin of 2.25%. The terms of the revolving credit facility impose financial covenants, measured at the Resolute Holdings legal entity level, including a minimum liquidity ratio, a minimum revenue requirement and, beginning with the

fiscal quarter ending March 31, 2026, a minimum leverage ratio which shall not be greater than 1.50 to 1.00 on the last day of any fiscal quarter. The revolving credit facility is subject to an unused commitment fee of 0.25%. No amounts were drawn on the Resolute Holdings revolving credit facility as of June 30, 2025. As of June 30, 2025, Resolute Holdings met the covenants of the Resolute Credit Agreement.

On August 7, 2024, CompoSecure Holdings, together with its operating subsidiaries, entered into a Fourth Amended and Restated Credit Agreement with JPMC (the "CompoSecure Holdings Credit Facility"). The CompoSecure Holdings Credit Facility had an initial maximum borrowing capacity of $330,000, comprised of a term loan of $200,000 (the "CompoSecure Holdings Term Loan") and a revolving credit facility of $130,000 (the "CompoSecure Holdings Revolver"). The CompoSecure Holdings Credit Facility has a maturity date of August 7, 2029. At June 30, 2025, there was $192.5 million of total debt outstanding under the CompoSecure Holdings Credit Facility. No amounts were drawn on the CompoSecure Holdings Revolver as of June 30, 2025. Additional amounts may be available for borrowing during the term of the revolving loan, up to the full $130 million, as long as CompoSecure Holdings maintains a net leverage ratio as stipulated in the credit facility agreement. As of June 30, 2025, CompoSecure Holdings' net leverage ratio met the requirement for the available borrowing as defined in the terms of the credit facility agreement. The CompoSecure Holdings Credit Facility will mature on August 7, 2029. CompoSecure has pledged its ownership interests in CompoSecure Holdings (representing 100% ownership) as collateral pursuant to a pledge and security agreement with the lenders under the CompoSecure Holdings Credit Facility.

The CompoSecure Holdings Credit Facility requires CompoSecure Holdings to make quarterly principal payments until maturity, at which point a balloon principal payment is due for the outstanding principal. The CompoSecure Holdings Credit Facility also requires CompoSecure Holdings to make monthly interest payments as well as pay a quarterly unused commitment fee of 0.35% for any unused portion of the CompoSecure Holdings Revolver. The CompoSecure Holdings Credit Facility provides for CompoSecure Holdings to prepay the term loans without penalty or premium. The CompoSecure Holdings Credit Facility is secured by substantially all assets of CompoSecure Holdings.

Interest on the CompoSecure Holdings Revolver and CompoSecure Holdings Term Loan are based on the outstanding principal amount during the interest period multiplied by the quoted SOFR rate plus the which can range from 1.75% to 2.75% based on CompoSecure Holdings' leverage ratio. The CompoSecure Holdings Credit Facility also requires the Company to make monthly interest payments as well as pay a quarterly unused commitment fee of 0.35% for any unused portion of the CompoSecure Holdings Revolver. The CompoSecure Holdings Credit Facility contains customary covenants, including among other things, certain restrictions or limitations on indebtedness, issuance of liens, investments, asset sales, certain mergers or consolidations, sales, transfers, leases or dispositions of substantially all of CompoSecure Holdings assets, and affiliate transactions. CompoSecure Holdings may also be required to make repayments in advance of the maturity date based on a calculation of excess cash flows, as defined in the agreement, with any required payments to be made after the issuance of CompoSecure Holdings annual financial statements. CompoSecure Holdings was in compliance with all covenants of the CompoSecure Holdings Credit Facility as of June 30, 2025. See Note 8 in Notes to Consolidated Financial Statements in this Quarterly Report on Form 10-Q.

Net Cash Provided by Operations

Cash provided by the Company's operating activities for the six months ended June 30, 2025 was $67.3 million compared to cash provided by operating activities of $71.8 million during the six months ended June 30, 2024. The decrease in cash provided by operating activities of $4.5 million was primarily attributable to an increase in receivables, partially offset by an increase in accounts payable and accrued expenses.

Net Cash Used in Investing Activities

Cash used in the Company's investing activities for the six months ended June 30, 2025 was $2.8 million primarily relating to capital expenditures of $2.0 million and capitalized software expenditures of $0.8 million, compared to cash used in investing activities for the six months ended June 30, 2024 of $3.5 million.

Net Cash Used in Financing Activities

Cash used in the Company's financing activities for the six months ended June 30, 2025 was $36.2 million compared to cash used in the Company's financing activities for the six months ended June 30, 2024 of $79.4 million. Cash used in financing activities

for the six months ended June 30, 2025 primarily related to a distribution to CompoSecure of $15.9 million, payments for taxes related to net share settlement of CompoSecure equity awards of $15.3 million and repayment of scheduled principal payments of the term loan of $5.0 million. Cash used in financing activities for the six months ended June 30, 2024 primarily related to distributions to then-members of CompoSecure Holdings including CompoSecure, repayment of scheduled term loan principal payments, and payments for taxes related to net share settlement of CompoSecure equity awards.

Contractual Obligations

A summary of our minimum contractual obligations related to our material outstanding contractual commitments is included in our Annual Report on Form 10-K for the year ended December 31, 2024 as filed with the SEC. Our long-term contractual obligations include commitments and estimated purchase obligations entered into in the normal course of business. As of June 30, 2025, the Company has purchase commitments with a supplier of approximately $8.8 million for the remainder of 2025 and $2.0 million for 2026.

Financing

Resolute Holdings is a party to the Resolute Credit Facility and CompoSecure Holdings is a party to the CompoSecure Holdings Credit Facility with various banks. For a more complete description of the Company's debt obligations, see Note 8 of Notes to Consolidated Financial Statements in the Consolidated Financial Statements of the Company in this Quarterly Report on Form 10-Q.

Item 3. Quantitative Disclosures About Market Risk

Interest Rate Risk

In addition to existing cash balances and cash provided by operating activities, the Company uses variable rate debt to finance its operations. The Company is exposed to interest rate risk on these debt obligations and a related interest rate swap agreement. As of June 30, 2025, the Company had $192.5 million in debt outstanding under the CompoSecure Holdings Credit Facility, all of which was variable rate debt.

The Company performed a sensitivity analysis based on the principal amount of debt outstanding as of June 30, 2025. In this sensitivity analysis, the change in interest rates is assumed to be applicable for an entire year. An increase or decrease of 100 basis points in the applicable interest rate would cause an increase or decrease in interest expense on debt outstanding of approximately $1.9 million on an annual basis.

On January 11, 2022, CompoSecure Holdings entered into an interest rate swap agreement with an effective date of December 5, 2023 to hedge forecasted interest rate payments on its variable rate debt. As of June 30, 2025, CompoSecure Holdings had the following interest rate swap agreements (in thousands):

Effective Dates	Notional Amount	Fixed Rate
	($ in thousands)	
December 5, 2023 through December 22, 2025	$ 125,000	1.90 %

Under the terms of the interest rate swap agreement, CompoSecure Holdings receives payments based on the greater of 1-month SOFR rate, as amended in February 2023, or a minimum of 1.00%. The Company has designated the interest rate swap as a cash flow hedge that was determined to be effective for accounting purposes. The Company determined the fair value of the interest rate swap to be zero at the inception of the agreement and $1.4 million at June 30, 2025. The Company reflects the realized gains and losses of the actual monthly settlement activity of the interest rate swap in its consolidated statements of operations. The Company reflects the unrealized changes in fair value of the interest rate swap at each reporting period in other comprehensive income and a derivative asset or liability is recognized at each reporting period in the Company's financial statements.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

We designed our disclosure controls and procedures, as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act to provide reasonable assurance that information required to be disclosed by us in reports we file or submit under the Exchange Act is (i) recorded, processed, summarized and reported within the time periods specified in the SEC rules and forms, and (ii) accumulated and communicated to our management, including our principal executive officer and principal financial officer, as appropriate to allow timely decisions regarding required disclosures.

Under the supervision of and with the participation of our management, including our principal executive officer and principal financial officer, we conducted an evaluation of our disclosure controls and procedures as of June 30, 2025. Based on this evaluation, our principal executive officer and our principal financial officer concluded that our disclosure controls and procedures as of June 30, 2025 were functioning effectively to provide reasonable assurance that the information required to be disclosed by us in reports filed under the Exchange Act is (i) recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and (ii) accumulated and communicated to our management, including our principal executive officer and principal financial officer, as appropriate to allow timely decisions regarding disclosures.

A control system, no matter how well designed and operated, cannot provide absolute assurance that the objectives of the control system are met, and no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, within a company have been detected. We do not expect that our disclosure controls and procedures or our internal control over financial reporting are able to prevent with certainty all errors and all fraud.

Changes in Internal Control Over Financial Reporting

During the six months ended June 30, 2025, the Company commenced the implementation of new corporate and governance functions in order to meet the regulatory requirements of a standalone public company, such as external reporting, treasury, and stock administration, following the completion of the Spin-Off on February 28, 2025. Other than those discussed in the preceding sentences, there have been no changes in our internal control over financial reporting during the quarter ended June 30, 2025 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Part II. Other Information

Item 1. Legal Proceedings

As of July 25, 2025, the Company was not a party to, nor were any of its properties the subject of, any material pending legal proceedings, other than ordinary routine claims incidental to the CompoSecure Holdings business.

Item 1A. Risk Factors

Summary of Risk Factors

The Company's business, reputation, results of operations, financial condition and stock price can be affected by a number of factors, whether currently known or unknown, including those described in Part I, Item 1A of the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2024, under the heading "Risk Factors." When any one or more of these risks materialize from time to time, the Company's business, reputation, results of operations, financial condition and stock price can be materially and adversely affected. Except for the risk factors set forth below, there have been no material changes to the Company's risk factors since the 2024 Form 10-K:

Our revenue and operations may be materially and adversely affected by tariffs and other restrictions on imported goods that have been, and may continue to be, imposed by the U.S. government.

A portion of the raw materials used by us to manufacture our products are obtained, directly or indirectly, from companies located outside of the United States. There is currently significant uncertainty about the future relationship between the U.S. and various other countries with respect to trade policies and tariffs. Recently, tariffs have been imposed on imports from certain countries outside of the United States. For example, the Trump administration has instituted substantial changes to U.S. foreign trade policy with respect to China and other countries, including a significant increase in tariffs on goods imported into the U.S., and has signaled possibly imposing further restrictions on international trade. As a result, further trade restrictions and/or tariffs may be forthcoming. Certain international trade agreements may also be at risk, as the current U.S. administration has voiced some opposition in respect thereof. These factors may stagnate the economy, impact relationships with and access to suppliers, increase the costs of certain raw materials we purchase, and/or materially and adversely affect our business, financial condition and results of operations. These and future tariffs, including any retaliatory tariffs that may be imposed by other countries on U.S. exports, as well as uncertainties surrounding domestic and foreign tariffs and any other global trade developments, bring with them uncertainty. We cannot predict future changes to imports covered by tariffs or which countries will be included or excluded from such tariffs. The reactions of other countries and resulting actions on the United States and similarly situated companies could negatively impact our business, financial condition and results of operations.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

Unregistered Sales of Equity Securities.

There were no unregistered sales of equity securities in the three months ended June 30, 2025.

Repurchases of Equity Securities.

On February 8, 2025, our Board authorized a stock repurchase program under which we may repurchase shares of our common stock. Repurchases may be made on the open market, in privately negotiated transactions, in tender offers, or by other methods at our discretion. The timing and amount of share repurchases may be based on market conditions, the availability of alternative opportunities, available liquidity, and other factors we deem appropriate from time to time. The repurchase program does not obligate us to repurchase any dollar amount or number of shares and may be extended, modified, suspended or discontinued at any time. During the three and six months ended June 30, 2025, no repurchases were made pursuant to the program.

Item 3. Defaults Upon Senior Securities

None.

Item 4. Mine Safety Disclosures

Not applicable.

Item 5. Other Information

Rule 10b5-1 Trading Plans.

During the quarter ended June 30, 2025, none of the Company's directors or officers informed the Company of the adoption or termination of a "Rule 10b5-1 trading arrangement" or "non-Rule 10b5-1 trading arrangement," as those terms are defined in Regulation S-K, Item 408.
